Erwin and Estella Barnes and Jennie Lawton spent Sunday with friends near Adrian.

Marvin Pattison was in Chicago last week prospecting for a situation, but without success.

C. M. Gove is devoting his time and exercising his patience to the comforting of a very painful abscess on his throat.

Mrs. M. D. Stearns and daughter Hazel, of Toledo, accompanied Mrs. A. J. Sutton to Lansing Wednesday to spend Thanksgiving with Mr. and Mrs. Fred L. Cook.

Eddie Williams, who has been at work in the Clinton woolen mill for the past four years, is stopping with his uncle, Wm. Larkin, having with several others been discharged since election. More fruit of the gold standard system.

The students of the school and members of the Epworth League are making arrangements for a lecture course to be given here this winter. Full particulars as to dates, price and order of entertainments will be given in a few daes.

The annual election of officers of the Hall Memorial Library Association will be held in the library parlors Tuesday afternoon of next week, at one o'clock. A full attendance of the members is desired. By order of the president, T. H. Temple.

We fully endorse the Macon correspondents kick in regard to the Britton "ads" being sandwiched in our write up each week, and several who are taking the Herald have declared their intention to stop taking the Herald if it continues. We believe the editor too wise to impose upon his patrons and will devise some other means by which their advertisements may be read.

Temperance Sunday was observed here. Rev. H. Cansfield delivered a discourse in the morning in a masterly manner, setting forth the evils of the liquor traffic and its grip on the voter and power and influence with the legislators of our government affairs. The ladies of the W. C. T. U. had charge of the evening service and presented a very interesting and instructive program.

MACON.

Charley Day, from Ohio, has been spending a few days with his mother.

The W. C. T. U. meeting will be held at Mrs. Ann Carter's Saturday, Nov. 28. Dinner will be served at 1 o'clock.

Relatives and friends gave Baron Pennington a surprise last Saturday evening about forty were present.

Mrs. Day does not seem to improve very rapidly. It is the wish of her many friends that she may soon recover from her illness.

The Ladies' Aid society of the Reformed church met with Mrs. Calvin Davenport, Mednesday, Nov. 25. A dinner of chicken pie was served at 2 p. m.

There was a very pleasant party at Mr. and Mrs. Granvill Mills' elegant and spacious house in Macon, Wednesday Nov. 18, in honor of Mrs Martha Collins, of Barnegat, N. J., it being her 73 birth day. She has been visiting her friends and relatives in this vicinity since the first of July. We all regret to have her take her departure from our midst. Among those from adjoining towns were Mr. and Mrs. Allen Dillingham and daughter and Mrs. Welch, of Clinton; Mr. and Mrs. Christian Coller and son, James Hunt and daughter, of Tecumseh; Joseph Collins Amy Bowerman, Mr. and Mrs. Ball and daughter, Libbie Wooster and family, of Raisin; Mr. and Mrs. Ruben Granger, of Summerset Center; Mrs. David Gorden and sons Emerson Collins, Timothy Collins and family, of Saline. The day was spent with vocal and instrumental music and rehearsals of days gone by. There were some present that had not met in 50 years, long time between shakes. It is needless to mention the sumptious dinner we all did justice to. We very reluctantly bade Mrs. Collins also the host and hostess good-by, and felt it was a day well spent and long to be remembered.

CONE.

Michael St. George is quite sick.

Elmer Hodge, of the regular army, is visiting friends here this week.

G. W. Auten was up from Auburndale, O., several days this week.

Mrs. Joseph Cone, of Milan, spent Saturday with Mrs. Henry Smith.

Mattie Rhinehart, of Deerfield, is the guest of her aunt, Mrs. Horace Logan.

Will McCormick, of Toledo, is spending a few days with his sister, Mrs. Bert Caswell.

Rev. G. W. Kinney will preach here Sunday evening as usual. Topic, "Sunday School Work."

Rev. A. Ross, of Fleming, will preach at Cone church Saturday evening, Nov. 28, also Sunday morning.

The receipts of the box social, at John Dennison's, last Thursday evening, were $6.10. Walter Crittenden drew the quilt, the lucky number being 83. The proceeds go towards purchasing a bell for the Cone schoolhouse.

WHEN bilious or costive, eat a Cascaret, candy cathartic, cure guaranteed. 10c, 25c.

HOLLOWAY.

Birth—Successful Social—Death—Personals.

Mrs. J. I. Knapp, of Adrian, was in town Saturday.

A bouncing baby girl came to the home of S. T. Stuart the 7th inst.

Maggie Tompson, of Adrian, has been visiting at James Lane's several days.

Mrs. Jane Kelley and daughter, Fannie, were in Detroit from Thursday until Monday.

Mrs. August Greenwald visited in Toledo from Thursday until Monday. Her daughter, Hattie Herringdean, returned with her.

The pie social at Maccabee hall, Saturday evening was well attended, although the inclemency of the weather prevented many from being present.

Ida Gobbe died at the home of her parents, about three miles southeast of this place, the 16 inst. Funeral was held at the Lutheran church Thursday.

The Literary society, Friday evening, at the church parlors, was well attended. A fine program will be rendered at the next meeting, two weeks from that date.

LAKE RIDGE.

Frank Gilmore and wife visited their father, E. Bradley, Friday.

Mr. Curry, of Cone, was on the Ridge Wednesday, repairing organs.

There were ten young men present in the Sunday school last Sunday.

Eber Bradley, who is in poor health, is about the same at this writing.

The Sunday school organ has been repaired and is now full of tunes.

Mrs. John Murphy, who has been visiting her son near Tecumseh, has returned home.

Mr. and Mrs. Frank Gray will start for Florida this week, where they will spend the winter.

Mrs. T. Murphy and Mrs. Johnson went to Ypsilanti Wednesday to look after the boys, and report them doing well.

Claude Harmen has put up the new shades in the school house, purchased by the Sunday school fund and they are quite an improvement.

Free Methodist meetings will be in progress this month. The minister will move his family into George Gray's house while he carries on the meetings.

The old story of Prometheus is a parable. Prometheus was on terms of intimacy with the gods. From them he stole fire, and gave it to men. For this sin he was bound to the rocks of Mount Caucassus, and vultures were set upon him. They only ate his liver. This grew again as fast as it was pecked away. Are his sufferings to be imagined?

Take a modern interpretation of the parable. There is no cooking without fire. In cooking and eating the mischief lies. The stomach is overtasked, the bowels become clogged, they cannot dispose of the food that is given them. The impurities back up on the liver. Shen come the vultures—the torments of a diseased liver. Dr. Pierce's Golden Medical Discovery is more than equal to the vultures of dyspepsia and its kindred diseases. There is no more need of suffering from dyspepsia than there is of hanging one's self. Sold by all medicine dealers the world over.

A house is never in disorder to a man so long as his things are "handy."

For earache, put a couple of drops of Thomas' Electric Oil on a bit of cotton and place it in the ear. The pain will stop in a few moments. Simple enough, isn't it?

Fidelity is the sister of justice.

Mrs. W. R. Maryfield, of Ashton, O., says: "I had a case pin worms presented to me of 30 years' standing. This man has taken three bottles of Lightning Worm Killer, and has passed, he says, over 2 1-2 gallons of worms, and that he will make oath to the same. A score of doctors told him that he could not be cured."

Mr. George Craft, of Annville, Ky., writes: "Lightning Vegetable Liver Pills have given me great benefit in kidney and liver disease of ten years' standing. They act as reccommended."

Mr. J. K. Moore, of Weston, W. Va., writes: "Lightning Vegetable Liver Pills, used for constipation and piles, have given me great benefit."

Mr. C. C. Garrett, postmaster, Calm, W. Va., writes: "We have been using Lightning Worm Killer for the past six years with perfect satisfaction. It is a sere eradicator of worms, and has greatly benefitted our children."

For sale by Orr & Temple, Tecumseh and Ridgeway.

There is a good deal of nonsense in the world and a brisk demand for it.

No Humbug.

Foley's Honey and Tar does not claim to perform miracles. It does not claim to cure all cases of consumption or asthma. But it does claim to give comfort and relief in advanced stages of these diseases and to usually cure early stages. It is certainly worth trying by those afflicted or threatened with these dread diseases. ORR & TEMPLE.

Never wipe your pen on your hair when your dress skirt is handy.

Always in season, Hopkins' Steamed Hominy (Hulled Corn). Elegant lunch in milk. Quart 10 cents.

It isn't what a man owes, but what he pays that keeps him poor.

You ought to know that when suffering from any kidney trouble that a safe, sure remedy is Foley's Kidney Cure. Guaranteed or money refunded. ORR & TEMPLE.

Entered at the postoffice at Tecumseh, Michigan as second class matter.

TECUMSEH, MICH., NOV. 27, 1896.

Commencing with Tuesday, December the first, the TECUMSEH HERALD will issue a semi-weekly for the month of December. It has been the custom heretofore for a number of years, to issue for the month of December, a holiday supplement, but thinking to give the merchants of Tecumseh a better chance to advertise their wares for the holiday season and the good of the subscribers of the HERALD, the paper will be issued in a 4-page form on Tuesday and an 8-page form on Friday throughout the month. In this, as in all other things, it shall be the aim of the HERALD to keep up with the times and furnish to its subscribers and advertisers whatever is in demand.

A number of years ago Senator Cullum, of Illinois, presented to the senate of the United States a bill which authorized the President of the United States to appoint a tariff commission of five members whose duty it should be to arrange the tariff, to adjust it to suit the conditions of labor and production. This bill stipulated that the body should be in every way non-political, the same as the justices of the supreme court of the United States, salary of same for each man was to be $5000 per annum, clerk hire and expenses. This bill was presented and a similar one in the house by a member of that body sometime before his interstate commerce commission bill was passed. For several years the subject died away but since the "tariff tinkering" caused by the McKinley bill and the Wilson bill agitation has started up in various parts of the country that some such measnre as this should become a law. Although there was so much talk against the Wilson tariff law, although there are so many incongruities and useless things expressed in its terms, the manufacturers all over the country, republicans and democrats alike, would rather it would remain the same than to run any risk of prolonged tinkering. Thousands of dollars have been spent in the last two years in new machinery to enable the different lines of industry to compete with foreign produeers and now the manufacturers are fearful that any change in the tariff may again compel them to make new investments in this line. She American manufacturer will adapt himself to circumstances quicker than any other class of men on earth and his constant prayer is "let me alone."

Home Seekers—One Way—Settlers' and Tourist Rates to the South.

The Cincinnatti, Jackson & Mackinaw Ry. will sell Home Seekers' Excur- tickets to points in Kentucky, Tennessee, Alabama, Mississippi, Louisiana, Georgia, North Carolina, South Carolina, Virginia and Florida, twenty-one day limit, at the low rate of one fare for the round trip. These tickets will be on sale Nov. 17, Dec. 1 and 15, 1896, Jan. 5 and 19, Feb. 2 and 16, March 2 and 16, April 6 and 20 and May 4 and 18, 1897.

One way Settlers' tickets will also be on sale to the points above mentioned on the first and third Tuesdays of each month, at greatly reduced rates.

Winter Tourist tickets to all southern points, good returning up to May 31, 1897, are on sale at principal ticket offices.

Two trains each day making direct connections at Cincinnati with trains for all points South.

For information as to time of trains, rates, etc., apply at C., J. & M. ticket offices.

High School Happenings.

Ira Hanna has left the eighth grade.

Millard Russel has joined the tenth grade.

Eloise Waring visited Miss Hartbeck's room Tuesday.

P. S. McKinnon was a high school visitor Wednesday afternoon.

Grace Simmons is absent this week, confined to her home by a hard cold.

The class in general history has begun the History of the Roman Empire.

The geometry class is occupied in proving the equality of triangles, etc. The aforesaid equality is more easily seen than proved.

Several of the primary grades had Thanksgiving day exercises on Wednesday. The high school also had appropriate exercises in Miss Hartbeck's room. A number of visitors were present. All performed their parts very creditably.

The crown worn on state occasions by William, Emperor of Germany, weighs exactly three pounds.

YARNS.

Picked up Anywhere and Everywhere.

I stopped to see George Adamson Tuesday and was very happily disappointed, he is looking so much better than I anticipated. George has been a very sick man and is now in no proper condition to enter the prize ring; but a few weeks more and he will be again at his place in the store. Everyone will be glad to see him for than George Adamson there is no better man on earth

* * *

Bob Burdette called at the HERALD office the other day and wanted to know why I did not attend his lecture the night before. The reason was simple. In 1881 I assisted to pay $37.50 to hear Bob Burdette lecture one evening. The late S. G. Stacy and myself, thinking to educate the people of Tecumseh up to something funny, secured the services of our friend Bob for one evening for the sum of $60. The advance sale of seats was not great, and about 4 o'clock in the afternoon of the day for which the lecture was set the snow commenced to fly. Bob claims that at half past seven in the evening he could not see over the top of the snow. If I recolect correctly, Mr. and Mrs. J. P. Slayton, C. A. Slayton, S. G. and myself took in the lecture. After all we got our money's worth.

* * *

Since election many interesting thingh have come to light in various parts of the country and even Tecumseh can furnish her share of queer stories. It is stated, and on pretty good authority, at least the HERALD could print the names of 27 male inhabitants of this community who have or have had aspirations for the post office. This is quite in contrast to a little story I heard on the street the other day about how our worthy townsman Webb Anderson happened to be postmaster along about 1860. He had hired out to work for Geo. T. Ketchum in the capacity of clerk in the stationery and jewelry business for the wonderful sum of $250 a year. A number of the citizens of Tecumseh, recognizing his clerical ability, appointed themselves a committee to secure for him the post office. After the wires were all laid, the congressman seen and the appointment as good as secured Mr. Anderson was notified that he was to be the next postmaster of Tecumseh. Hetold them that it was impossible forhim to accept the position. He had hired out to Ketchum for a year and proposed to keep his contract. Ketchum heard of it and agreed that if he would stay with him his pay should be raised to $600 a year. Notwithstanding this fact he did recieve the appointment of postmaster, completed his work with Ketchum and did the work of the office for several years.

ADDITIONAL LOCAL.

Mrs. Richard Ford arrived from Duluth Tuesday night and will spend several weeks among her friends here.

The Cabinet Company has just received a large car load of cabinets and will soon be ready to supply their anxious customers.

George N. Stacy went to Flint Wednesday to spend the season of feasting with his father-in-law, Presiding Elder Bigelow. He expected to return tonight.

A family dinner was given by Mrs. Julia Rowland yesterday. Among those present were Gus Rowland and family, of Toledo, B. F. and Charles H. Thompson, of Clinton.

Monday night our streets for a time were dark as midnight in consequence of a broken wire. Were it not for similar accidents the electric lights would not be properly appreciated.

The cabinets came two in a crate so are easily handled and can be closely packed so they cannot be injured in transit.

As soon as the Standard Cabinet Company get official figures from the Secretary of State, the book of guesses will be opened by the committee and the cabinet awarded to the winner.

Died. Wednesday morning, November 25th, of consumption, Mary, eldest daughter of Robert Lowry, aged 19 years. Funeral at the Presbyterian church this afternoon at 2 o'clock. Although it was generally known that Mary was in poor health, none realized her condition to be so critical, therefore her death was a great shock to her relatives and friends. Bereft of her mother when but a small girl, the care of the house as well as that of the younger children fell upon her. Most faithfully did she perform the duties thus imposed and though her life's work was not of long duration it was well done and she leaves behind memories that will be cherished by loved ones as long as life shall last.

If you want to see some results of push and enterprise, just step into the Cabinet Company's building and you will get some idea of the amount of goods these men are selling. They have a house full of them.

Miss Jennie Lourie, of Battle Creek, was called home by the sudden illness of her little brother, Willie Lowrie, who is now improving apidly.

Cabinets! Cabinets! Cabinets! roomful after roomful are here.

Dr. Sickles, of Detroit was in town today and informs us that he has decided to locate in Tecumseh and will make his arrangements to return at an early date.

IMPROVED TRAIN SERVICE ON THE WABASH.

Taking effect with change of time, Sunday, November 15th, 1896, trains Nos. 6 and 7 between Peru and Montpelier will be restored running daily, except Sunday, making connections at Peru and Montpelier with trains from and to St. Louis and Detroit.

The Tecumseh Herald.

TECUMSEH, MICH., NOV. 27, 1896.

SPECIAL NOTICES.

FOR SALE CHEAP—A 6-horse engine and 12-horse steam boiler. For particulars inquire at the HERALD office

FOR SALE—Cheap at Richart's wagon shop, a new lumber wagon with box and seat or and stock rack or neither; and with narrow tire or both.

TAXES—I will be at the following places to receive taxes for the Township of Raisin during the month of December and up to the 4th of January: Thursdays, at the Lilley State House, Tecumseh; Fridays at Florence's store, Ridgeway; and Saturdays at Waldby & Clay's Bank, Adrian. BERT E. SIMONDS, Township Treasurer.

NOTICE.—I will be in my office in the Village of Tecumseh every Friday during the month of December from 9 a. m. to 4 p. m. to receive taxes. GEO. W. MARSDEN, Twp. Treasurer.

LOCAL AND PERSONAL.

Albert Tribou spent Sunday at the old home.

A. Slayton was a Toledo visitor Monday.

Albert Garlinghouse will do no more threshing till December 15th.

Mrs. A. McNeil is entertaining Mrs. Sylvia McNeil, of Newburg.

W. Mills entertained his brother, Roy, of Adrian, yesterday.

W. Warner came home to spend Thanksgiving with his family.

At the Central House they had a fine Thanksgiving dinner yesterday.

Ed McDermid, of Ontario, is the guest of A. P. Coddington's family.

Hiram Westcott and wife are visiting friends in Hillsdale county this week.

Peter McKinnon left yesterday morning for a trip. He returns tomorrow.

James Riley and wife sat down to a family dinner at his father's yesterday.

There was a pleasant family gathering at Mrs. Elsie Rowland's last evening.

Fred Osborn, of Ann Arbor, was the guest of John H. Osborn's family yesterday.

Rev. and Mrs. E. Andrus took Thanksgiving dinner at Homer Bickford's, in Raisin.

Lincoln Walker ate Thanksgiving dinner with his sister, Mrs. Frank Coder, of Norvell.

Henry Wilson and family, of Franklin, were guests of Abner Wilson's family yesterday.

Mrs. Fannie Rundell, of Manchester, spent yesterday with her brother, Andrew Wilson.

Mrs. Ellsworth Russel, of Jackson, is visiting her parents, Mr. and Mrs. Albert Hyde.

Be sure you see the twins in "Deestrick Skule." They are like two peas, near alike.

Col. Church and family, of Alma, came to take Thanksgiving dinner with P. Bill's family.

D. A. Hodges and family came down from Jackson to eat turkey with G. W. Jackson's family.

Mrs. Alonzo Henry and children, of Toledo, are visiting her parents, Mr. and Mrs. Joseph Tilden.

Born, to Mr. and Mrs. Wallace Tilden Wednesday morning, a fine boy. Wallace says he is a dandy.

If our people would like to hear some fine music they can do so by going to Clinton tomorrow evening. Gerald Brown, the boy soprano, will delight you.

Judging from the amount of furniture we have been selling since November 1st and what our customers tell us we can give you a larger stock of furniture to select from and much lower prices than any place in the county.
WHEELER & SISSON.

It was a large audience that gathered at Sutton's opera house Tuesday evening to see "The South Before the War." For an entertainment that furnishes no plot or story but only bits of this and that it was the finest of the kind ever presented here. While it was divided into two parts there were so many specialties introduced all the way through that it made one continuous performance, which the people seemed to enjoy and appreciate. Individually the singing was not above the average, but when in quartets or by the entire company it was fine. The dancing was excellent, Ferry, the human frog, simply wonderful and many of the specialties were first class. The cake walk, which concluded the program was gracefully executed by a large number of couples and was really the finest feature of the entertainment. We would suggest to the management that they renew the cake presented to the winners, for this was badly shop worn.

In the Universalist church Sunday, Nov. 29, the topic will be: Morning, "Some things for which we are Thankful." Sunday school after morning service. Y. P. C. U. Thanksgiving concert 7 p. m.

PROGRAM.

Voluntary.

Benediction.

Do not forget the collection, it is not often that we take one. Give us a full attendance.

Quarterly meeting at the M. E church Sunday.

Fred Wood spent most of the week in Jackson.

John J. Orr was in Adrian Wednesday on business.

Ernest Welch and wife, spent Sunday with his people, at Clinton.

James Jackson made his daughters at Clinton, a visit over Sunday.

Elmer Halliday called on his brothers just west of Clinton Monday.

John Middlebrook was the guest of friends at Clinton over Sunday.

John Fowler came up from Toledo and spent Sunday with his family.

Little Jehiel Davidson, in the "Deestrick Skule" infant class, is a prodigy.

Wm. Nottingham arrived from Cleveland Friday and is again at the Central House.

Mr. and Mrs. Seth Pease, of Blissfield visited R. G. Goff and family over Sunday.

John Keyser, of Newburg, has been spending the week with his brother, Horatio.

Special meeting of Tecumseh lodge, F. & A. M. this evening. Work in the third degree.

Mrs. Dawley, of Hillsdale county, has been visiting her relatives, the Keysers, the past week.

Meeting of the Chapter at the Temple next Wednesday evening for work in the Royal Arch.

Llona Hall, Grace Gillespie and Roy Hughes all came home from Ypsilanti for Thanksgiving.

Clyde Prichard returned home Monday from a three weeks' visit with his brother at Jackson.

Mrs. Mary McMillan and nephew, of Deerfield, were guests of Mrs. Huey Friday and Saturday last.

Mrs. Grace McDermott and son, Willie of Clinton, visited her parents, Mr. and Mrs. Wm. Jordon, Monday.

Horatio Keyser had a severe chill the last of the week and has been confined to his bed most of the time since.

Miss Sena Hosmer came home from Toledo Saturday, on account of Robe's illness, and remained during this week.

The library just now is in something of a chaotic condition. The books are being renumbered, relabeled and arranged anew.

Charles H. Thompson, of Clinton, was down Tuesday greeting old friends, and made the Herald a pleasant call. Charlie is always welcome.

The Eastern Bankrupt Purchasing Association are now closing their entire stock in Tecumseh. See their advertisement in this issue.

Geo. W Knapp and El Gray reached home Wednesday afternoon from their hunting expedition They report a fine time and got a number of deer.

H. H. Driggs and brother of Palmyra, are shipping large quantities of hay from Clinton and here. They expect it will reach fully forty cars.

Mrs. Rufus Keyser, after several weeks passed with relatives in this vicinity, left Monday for Toledo, where she will spend the winter with a sister.

Tommie Kyle, Thedie Harris, Mardie Zimmerman, Johnnie Hicks and little Lester Tribou are just too sweet to live, in pinafores, in "Deestrick Skule."

We were sorry to learn that the drug firm of Baker & Hall were financially embarrassed and had filed chattel mortgages to secure creditors. We trust it may be only temporary.

Mr. and Mrs. James H. Aten entertained the following relatives the first of the week: Mrs. John Beneway, of Groveland, N. Y., Mrs. Libbie Saunders, from Nebraska, and Mrs. Jacob Maxwell, of Onsted.

There will be a meeting of the directors of the Union telegraph line Monday afternoon at 2 o'clock, at Mark Mills', in Macon. The annual meetmeeting occurs a week later at the same hour at Grange hall, Macon.

Do not wait until you have taken cold but call at once at Harris & Hiteshu's and secure the proper warmth needed with some of their underwear. The prices quoted will be a wonder to you and the variety of styles is very complete.

Among those from Clinton, who came down Tuesday evening to see "The South Before the War," we noticed L. J. Leek, H. W. Saxton, Clarence Mills, Will Kimball, Steve Huntington, Ott Gillen, Will Waterhouse, and Ro Woodward.

Don't fail to visit our store when in town and see what a quantity of furniture a small amount of money will buy.
WHEELER & SISSON.

A certain Detroit firm had an execution against a Brittonite, which was placed in the hands of the sheriff of Lenawee county, who, through instruction from an attorney for the Detroit parties, who lives in Tecumseh, levied on a building and contents, lumber, etc. in Britton. The building contained soft drinks, a billiard table and a pack of cards. On the day of sale another attorney appeared on the scene, from Adrian. The two attorneys and sheriff from Adrian, entered the building above mentioned to inspect the contents, when it was suggested by the sheriff that the trio play a game of pedro, which they agreed to do. The parties sat down and played a game, when the sheriff proposed they quit. On going to the door they found it closed, and then the officer and two lawyers were in it. The sheriff could not get out and threatened to knock in doors, etc., when the Adrian lawyer said, "I have friends on the outside and think I can give them the tip and we can get out." It was done, and the three walked out. As a matter of fact the door was not locked, but on account of the damp weather was swollen. When they emerged from their imprisonment it caused a great deal of merriment on account of the situation.

Mrs. R. C. VanAntwerp, who has been visiting her many friends here, left for Chicago today.

Frank Page is receiving each week something new in the line of furniture and will soon have quite a stock.

Earl Slayton arrived home from Fitzgerald, Georgia, Wednesday noon. It seems good to see Earl around again.

Little Florence Rosecrans, assisted by a company of young friends, celebrated her ninth birthday last evening.

Next Sunday night at the Methodist church Rev. J. P. Varner will continue the discussion of "Crime and its Causes."

The Standard Cabinet Company are now delivering their kitchen cabinets, having received a car load the first of the week.

We learn that the dancing party at Clinton Wednesday evening was an elegant affair and the supper furnished by M. F. McClure was very choice. Thirty-four couple participated.

Mrs. E. W. Shoemaker, nee Louise Van De Mark, late of Atchinson, Kansas, arrived in Clinton Tuesday evening for a visit with her parents, Mr. and Mrs. Ed. Van De Mark.

Landlord Patterson had at the Lilley House, as has been his custom, an elegant Thanksgiving dinner. His menu cards were very pretty. Quite a number of our citizens took dinner there.

Undertaker Harry Tansley had charge of the funeral of Philip Pentecost's infant Saturday, between here and Tipton, also that of Edward Brooks' young child, three miles northwest of Tipton Monday.

We understand that the Standard Cabinet Company have been doing a rushing business the past two weeks selling county rights for their kitchen cabinets, the purchasers being men in Raisin, Franklin, Clinton and Tecumseh.

The meeting of the Farmers' Club at John Gillespie's last Thursday evening, November 19th, was well attended. The first meeting opening so favorably is a good indication that the season's meetings will be both profitable and pleasant. The next meeting will be held at J. K. Waldron's

The annual election of officers of Council 634 Royal Arcanum, will be held at the next regular meeting, December 7th. The constitution reads, that "all members to vote or hold office must be in good standing." A large attendance is desired as there will also be two or more initiations.

Teachers desiring points in their profession should see Peter McKinnon's system of instruction as exemplified in the "Deestrick Skule."

It was quite a joke the young men of the Baptist society perpetrated at their social Tuesday evening. The provisions were all to be prepared by them, independent of the ladies, and what do you suppose they were? Coffee, oysters, crackers and Will Stevenson made some doughnuts. It made lots of fun.

H. D. Cutting has bargained for the VanWinkle property just south of town, containing ten acres of land, which he contemplates fitting up for a home. It being so late he will not move until spring. In the mean time he will make the much needed improvements, which, when completed, will make it a beautiful place.

The La Besta band came out on the street yesterday and entertained the people with one of the finest band concerts heard here. Their playing was exceptionally fine and would compare favorably with any of the crack bands of the country. Tecumseh is highly favored in possessing an aggregation of such accomplished musicians.

Our new goods are arriving daily, the latest designs and all the best makes, and you can buy them cheaper than the shoddy furniture. WHEELER & SISSON.

If you want to know just how many ties there are between Lenawee Junction and here ask Rev. B. S. Hudson, he knows, as he walked up yesterday morning, reaching here just in time to preach at the union service. He had been assisting in a series of meetings at Morenci and expected to get the frieght at the Junction, but lo! when he arrived it had gone and the only thing he could do was to walk. Oh, no he didn't have an appetite for dinner.

The long expected and anxiously looked for "Deestrick Skule" will be held at the opera house, Tuesday evening, Dec. 8, and it will be a "corker." More fun than you ever had in the same length of time. Never before was such an aggregation brought together, as comprise this particular school, who under the istruction of that efficient and painstaking pedagogue, Peter McKinnon, have attained great proficiency and they will on this occasion give you the benefit of their superior ability. Come and bring your entire family. You will have sport galore.

Program for the Sacred concert to be given at Clinton Saturday evening, Nov. 28:

PART I.

Thanksgiving Anthem.
Vocal Solo—Gerald Brown.
Vocal Solo—Miss Jaen Hause.
Jubilate—Chorus.
Vocal Solo—Gerald Brown.
Vocal Duet—Miss Jaen Hause, Wirt (Rowland.
Vocal Solo—Mrs. Blanche Kimball.

PART II.

(a)
Vocal Solo—Gerald Brown.
(b)
Organ Solo—Dwight Hause.
Vocal Solo—Rev. W. R. Blachford.
Te Deum—Chorus.
Vocal Solo—Gerald Brown.
Jerusalem the Golden—Chorus.

The Choral Union, of Ann Arbor, under the musical direction of Prof. Stanley, is of no small repute. It comprises a chorus of 280 voices with an orchestra of forty pieces, and Gerald Brown has, upon several occasions, been the leading soloist before an audience of 3,000 people in University Hall.

Cabinets for everybody on hand at the cabinet office.

Will Elliott spent Thanksgiving with Tom Owens, at Homer.

Will Orr and wife ate turkey with Norvell friends yesterday.

Roy Church has returned from Chicago and is again at O. P. Bills'.

Albert Conger is papa. A bright little daughter was born to him this morning.

Mr. and Mrs. Robert S. Moore were the guests of Toledo friends over Sunday.

Arthur Hall and wife, of Toledo, spent Thanksgiving with Tecumseh friends.

Mrs. John Freeman visited her sister, Mrs. Rundell, at Manchester, the first of the week.

Mr. and Mrs. P. W. A. Fitzsimmons are in Middletown, N. Y. They went Wednesday morning.

C. C. Hendershot and family, of Lake Ridge, were the guests of Mr. and Mrs. Rice Hendershot yesterday.

Dr. Ernest Gamble, of Winona, Minn. has joined his family here and will make a visit among old friends.

Subject at the Baptist church Sunday morning, "The Passion of Sin." Evening, "Noah, Foolish or Faithful, which?

Charles Cummins and wife, of Detroit, and James Cummins and wife, of Toledo, took dinner with their sister, Mrs. Hettie Brewer yesterday.

The ministers meeting will be held next Monday afternoon at 2 o'clock in the parlors of the Baptist church. Rev. Stead will read a paper on "The Second Coming of Christ."

Mrs. M. Stacy and Loana, Miss Walker, Mrs. H. Stout, Charles Hopkins, Mrs. Bell and Charles Bell and wife, of Jackson, dined at James Walker's, in Adrian township, yesterday.

Owing to the excitement incident to a general election, the Standard Cabinet Company did not receive their invoice of goods as soon as expected, but you know a good thing will keep and they are in fine condition.

Gerald Brown, of Ann Arbor, the young lad, who will appear for the first time before a Clinton audience on Saturday evening, is a person of great musical ability. He has been the leading soprano singer in St. Andrew's church for several years, and soloist of a surpliced choir, of forty voices, composed of men and boys.

If you want to know how to read and spell and understand arithmetic and geography, you attend the "Deestrick Skule."

Mr. H. H. Carty, formerly manager of the Russell House steam laundry, Detroit, but late of Saginaw, has purchased of Mr. Barkwell the Tecumseh steam laundry and takes possession Monday. Mr. Carty is thoroughly competent and fully equipped for the business and proposes to introduce an entirely new process which gives him great advantage over others in doing fine work. While we regret to lose Mr. Barkwell, who has made many friends here, we welcome his successor whom we are sure will prove a valuable addition to the ranks of our business men.

The great cloak sale of Harris & Hiteshu will continue until every garment is sold. Remember "one-half price" is their motto, and they stick to it.

A treat is in store for music lovers of Lenawee county, Monday November 30th, when Gilmore's famous band of 50 performers, conducted by Victor Herbert appears at the new Croswell opera house, Adrian, in a special popular matinee, at two o'clock. Under Victor Herbert, the famous composer of "Prince Ananias" and "the "Wizard of the Nile," nothing was ever heard in this country like it—not even when old Gilmore's was at its best and it was a wonder even then. The prices for this attraction will be 35, 50 and 75 cents and seats may be reserved by letter to Manager Hardy, at Adrian.

Many capes and cloaks were sold last week at Harris & Hiteshu's at their one-half price sale. Still a large variety remains. Call and see if they cannot fit you.

The meeting called at the council building at eight o'clock tomorrow evening, should interest every citizen of Tecumseh and call out all the public spirited citizens, for an opportunity now presents itself which, if improved, will do more for the town than the most sanguine can imagine. Should the Lima Northern Rail Road be secured, —and everything indicates that it is within our reach,—it will give us railroad facilities that very few towns enjoy. Let there be a large attendance to consider this important matter. All its benefits will be fully set forth by those who thoroughly understand them. Remember tomorrow (Saturday) at 8 p. m.

—Invoicing, fixing up, and getting ready for the last act. Fun begins next week. MILLS BLOCK Tecumseh.

—My china and fancy goods are carefully selected from the largest factories the world and my prices are the lowest. G. H. TANSLEY.

—Watch for some prices in this paper next week, from Mills Block, Tecumseh.

—Those new kind of lamp chimneys at Tansley's excel anything on the market.

—Next week begins the final sale and we'll sling 'em, don't you forget it. We stop at no price now to sell.
MILLS BLOCK, Tecumseh.

—Come quick if you want some shingles at cost, most all gone. Some lumber for sale very cheap. Two good houses to rent cheap. A. W. SLAYTON.

—Keep your eye on that sale at Mills Block for the next few weeks.

—See the new lamps from 25c up, at Tansley's.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

NASAL CATARRH is a LOCAL DISEASE and is the result of colds and sudden climatic changes. It can be cured by a pleasant remedy which is applied directly into the nostrils.

ELY'S CREAM BALM

Opens and cleans the Nasal Passages, Allays Pain and Inflamation, Heals the Sores. Protects the Membrane from Colds. Restores the Senses of Taste and Smell. The Balm is quickly absorbed and gives relief at once. Price 50 cents at Druggists or by mail. ELY BROS. 56 Warren St. New York.

CATARRH

COLD IN HEAD

STATE TEACHERS.

Association to Assemble at Lansing December 28.

Lansing, Nov. 21.—The Michigan School Moderator contains the programme for the forty-sixth annual meeting of the Michigan State Teachers' association to be held in this city December 28, 29 and 30, at Representative hall. This is one of the largest gatherings that meet in the capital city and an unusually large attendance is looked for this year, as some of the most noted speakers on educational topics in the country will be present.

George Lothrop Dead.

Detroit, Mich., Nov. 23.—George H. Lothrop, eldest son of George V. N. Lothrop, ex-United States minister to Russia, died at his residence here Saturday morning from a complication of heart and asthmatic troubles. Mr. Lothrop was born in this city in 1850 and graduated at Cornell university in 1870. He turned his attention to patent law and won high eminence in that branch of the legal profession. A widow and two children survive him.

Prince Wants a Divorce.

Paris, France, Nov. 23.—Action for divorce has been commenced by Prince Joseph of Caraman-Chimay, a Belgian nobleman, against his wife the princess of Caraman-Chimay, who was formerly Miss Clara Ward, of Detroit, a very beautiful woman, who inherited a large fortune from her father, and who was a great favorite in Parisian society. It is alleged that the princess was eccentric to the degree of being mentally unbalanced.

In the Interest of Good Roads.

Grand Rapids, Nov. 21.—S. S. Bailey, chairman of the executive committee of the Good Roads league of the Fifth congressional district of Michigan, has, by request, issued a call for a special meeting of the league to be held in the courthouse on Tuesday and Wednesday, December 1 and 2.

Saginaw's New Post Office.

Washington, D. C., Nov. 20. — Bids were opened Friday at the treasury department for the erection of the United States post office building at Saginaw, Mich. There were 13 bids, of which that of Charles W. Gindele, of Chicago, at $67,000 was the lowest.

Salt Works Destroyed.

Saginaw, Mich., Nov. 23. — Fire Friday midnight destroyed the salt block, salt sheds, salt well, drill house, ice house, 700 barrels of salt and a portion of the dock located on Crow island, belonging to Tyler & Sons. Loss, $12,000; insurance, $4,000.

Took Poison.

Detroit, Nov. 23.—Samuel Tuke, a clerk in the employ of the Michigan brass and iron works, committed suicide Sunday by taking a dose of carbolic acid. It is believed that the arrest of a young son for highway robbery led the father to end his life.

Iron for Austria.

Detroit, Nov. 23.—F. A. Goodrich & Co. have received an order for 2,000 tons of charcoal pig iron for the car wheel factory of P. H. Griffin at Buda Pesth, Austria. It will make four train loads and is the first order of the kind for a long while.

Brings Suit for Damages.

St. Joseph, Nov. 24.—William Versaw, a merchant and politician of this city, has filed a suit for $10,000 damages against George B. Thayer & Co., basket manufacturers, for false imprisonment upon the charge of embezzlement.

DETROIT FIRM FAILS.

Mabley & Co. Make an Assignment in Favor of Their Creditors—Expect to Resume.

Detroit, Mich., Nov. 24.—Mabley & Co., one of the oldest retail mercantile establishments in this city, Monday morning filed three chattel mortgaes covering all of their stock and fixtures to the Union Trust company as trustees for the benefit of the firm's creditors. The mortgage aggregated nearly $370,000.

The Union Trust company has been appointed receiver of the Mabley & Co. and will continue the business subject to the chattel mortgages. The firm may reorganize after the first of the year. The filing of the mortgages was forced by the action of a large eastern creditor who demanded that he be secured in preference to other creditors. No inventory of the assets has yet been taken.

The indebtedness of the firm is a little less than $400,000. Bruce Goodfellow, president of the company, said later that he hoped that the firm would be able to reorganize and continue the business. The failure was largely caused by the inability of Godfrey & Hyde to complete the new building, which the firm was to occupy last May, and the overstocking incident to the intended move.

TO BE TRIED FOR MURDER.

Case of Beveridge and Redpath to Be Called Up.

Menominee, Nov. 21.—Sheriff Corbett and Prosecuting Attorney W. R. Adams, of Ontonagon, and Assistant Attorney-General Henry E. Chase, of Grand Rapids, met in this city to further arrange for the trial of Beveridge and Redpath, which will be called in the circuit court for Gogebic county at Bessemer on December 9, having been taken there from Ontonagon county on a change of venue. The charge on which the prisoners are to be tried is the murder of Mollie Beveridge, on a homestead in Ontonagon county in 1889, and for which John McDonald was convicted and sentenced to the state prison for life, but who was pardoned after serving six years. The details of the case are now complete, with the exception of securing one or two witnesses.

MADE A CONFESSION.

Member of a Band of Alleged Forgers Squeals.

Detroit, Mich., Nov. 21.—A special to the Journal from Flint says that Benjamin F. Cooper, alias Willis Herbert Connors, who is in jail there for working forged bank drafts, has made a confession. He says that the gang with which he operated had no connection whatever with the Valentine gang, recently captured in New York. It was composed of W. B. Peters, W. H. ("Kid") Smith, Otto Thomas and himself. Peters, he claims, lithographed the drafts, and Smith, Thomas and himself disposed of them. He claims that the gang cleaned up $1,795 in Indiana and Ohio, $1,455 in Michigan and about $400 in New York state.

Justice Long's Pension Claim.

Washington, D. C., Nov. 21.—Justice Charles D. Long, of the Michigan supreme court, who for two years waged a vigorous contest in the court against the pension bureau to test the rights of veterans, has now made application to the bureau for restoration to his old pension rating and has filed evidence to support his application. This move was an unexpected one, even among those well acquainted with the case, and is taken as an indication that Judge Long will abandon his fight in the courts and will submit to the rule of the office to file evidence to secure his restoration.

Woman Worsts a Robber.

Battle Creek, Nov. 19.—Mrs. E. L. Woods, a milliner, was awakened Wednesday morning by some one walking in the hallway. As she stepped into the hall she was confronted by a burglar. She did not scream or faint. For 15 minutes they struggled, and the burglar got the worst of it. She gripped him by the throat, and, while shutting his wind off, cried for help. At last the burglar broke loose from Mrs. Woods and ran out of the door, but a policeman who had been attracted by the shouts caught him. He was recognized as a professional.

Safe Robbers at Work.

Niles, Nov. 19.—Safe crackers Wednesday night blew open the safe in the ticket office of the Big Four railroad, but got only five cents. This makes the seventh time the Big Four ticket office here has been entered and the fifth time the safe has been blown open. The aggregate sum stolen will not exceed ten dollars. In the past two months, along the line of the Michigan division of the Big Four, five safes have been blown open.

Saves His Sister's Life.

Detroit, Nov. 20.—Bennie Moran is 3½ years old. Recently his mother left him and his little baby sister, two years old, playing in the kitchen while she went on an errand. Wind blew the curtain into the flames of the gasoline stove. Bennie tried to pull down the curtain, but could not reach it, so he ran to his little sister and dragged her out of doors. The kitchen was burned out, and Bennie Moran is the hero of the neighborhood.

Express Messenger Arrested.

Niles, Nov. 24.—Delbert E. Mitten, messenger for the American Express company, was arrested Monday, charged with stealing $2,000 from the company. The crime is alleged to have been committed last Wednesday, when a package containing $2,000 was sent by the Citizens' national bank, of this city, to the Bankers' national bank, of Chicago. About half of the money has been recovered.

Benton Harbor, Nov. 20. — William Knight was brought here Thursday from Three Oaks by Deputy Sheriff Sherwood, charged with counterfeiting. Twenty-nine new half-dollars for which he could not account were found on his person. It is believed here that Knight is a member of a gang of counterfeiters who have been at work along the lake shore.

STATE NEWS.

Interesting Bits of Information from Many Localities.

Sault Ste. Marie is putting in an electric fire-alarm system.

Diphtheria is scourging all the principal towns of the copper district.

Saginaw people want their city charter amended so as to do away with the police court.

A new steel bridge will be built to connect Menominee with Marinette at a cost of $9,500.

Six deer hunters have been killed in the upper peninsula since the deer-hunting season opened.

The next convention of the national association of agricultural implement manufacturers will be held in Detroit.

The enrollment shows that there are 2,841 students in the University of Michigan. The highest enrollment last year was 3,019.

A girl baby that weighs only a pound and a half was born in a northern Michigan town a few days ago. A tea cup will cover its head.

Lansing's common council has decided to pay John Voisell $2,150 in settlement of a suit for damages caused by a defective sidewalk.

Two Saginaw boys, Datus Legault and George Schuch, have confessed that they set fire to several buildings, involving a loss of $500,000.

The members of the legislature from the upper peninsula will urge the establishment of a state normal school the other side of the strait.

The Pine Creek Gold Mining company has been organized at Iron Mountain to work some of the gold quartz discoveries made there of late.

The Muskegon Lake railroad, the shortest line in the state—a spur less than 80 yards long—is to be absorbed by the Chicago & West Michigan system.

Morgan Cloney stepped into a hole in a pavement which was being repaired at Kalamazoo and was injured. He now asks the city to give him $10,000 to square matters.

Col. O. A. James, of Hillsdale, announces himself as a candidate for the position of pension agent at Detroit to succeed Maj. Levi T. Griffin, when the latter's term expires.

Hannah, a little seven-year-old daughter of Charles Bulley, near Flat Rock, was burned to death Monday. She was filling a stove with kerosene when her dress caught fire.

Gov. Rich has appointed Fred B. Spire, of Bay City, and J. K. Davis, of Concord, representatives from Michigan to the national irrigation congress to be held at Phoenix, Ariz., December 15.

J. D. and Arthur, aged 13 and 7, sons of Albert Colburn, near Morrice, were playing with a shotgun when it was discharged and the elder boy was instantly killed, the shot striking him in the head.

A New Zealand man is said to have made nearly $6,000 out of the recent rise in wheat without any board of trade speculation. He bought about 20,000 bushels at an average of 55 cents and sold it at 85.

The promotion of Col. Frank B. Lyon to the rank of brigadier general of the Michigan national guard leaves John E. Terrell, of Jackson ranking colonel and in direct line for the brigadier-generalship two years hence.

Grover Manchester, of Standish, had the whole top of his head blown off while hunting. The breech pin of his gun blew out penetrating his brain. He lived several hours after his father discovered him, with his brain exposed to view.

Saginaw lumber dealers are beginning to buy again. Sales of a million feet log run, 500,000 feet of inch hemlock, 500,000 feet of box lumber, and 300,000 feet of selected stock are reported. Shingles are also advancing slightly in price.

Grand Rapids, Nov. 21.—The ancient case of the government against the Lake Superior Canal, Railroad & Iron company to determine the rights of homesteaders in the upper peninsula was partially adjusted Thursday here. The company has compromised with 17 of the homesteaders by buying them out, thus clearing title to about 2,400 acres. The amount paid is not announced. There are still 16,000 acres in litigation and negotiations are in prospect for a similar adjustment.

New Stamp Mill.

Houghton, Nov. 21.—The Calumet and Hecla is planning the erection of a new stamp mill at Lake Lindon. It will probably be of the same size and capacity as each of the present mills, which have 11 stamps each, and will require some two years to build and equip, by which time the Red Jacket shaft will have been opened and ready for work on a large scale. The capacity of the present mill is nearly 8,000,000 pounds of refined copper per month when strongly worked.

Big Steel Shafthouse.

Houghton, Nov. 24. — The Union Bridge company's employes completed their contract Monday night in erecting the Red Jacket shaft rockhouse for the Calumet and Hecla Mining company. This is the largest structural steel mining shafthouse in the world, over 2,250,000 pounds of steel being erected on a space of 41 by 80 feet. Over 45,000 rivets were used. It was built in 50 days.

Burned to Death.

Jackson, Nov. 19.—The little daughter of Mr. and Mrs. C. W. Horr was burned to death Tuesday. The child pulled the table cloth from a table and upset the lamp, the burning oil running down the chair in which she was sitting, and burning through the cane seat. Mrs. Horr had stepped out of the house to do some chores, when the accident occurred.

Buried in the Snow.

Michigamme, Nov. 20.—The body of W. W. Ingram, a well-known resident of Chicago, was found in the woods near here Thursday, alongside a deer which he had shot. Both were covered by snow three feet in depth, and had been dead for several days.

A CHILD OF FORTUNE.

Domestic in Grandville, Mich., Informed That She Is an Heiress.

Grandville, Mich., Nov. 23.—Hattie Spafford, a domestic, will work no more. Fifteen years ago her mother died in poverty. Hattie was then a babe three years old, and was sent to the childrens' home in Grand Rapids. Saturday she received word from a lawyer in Helena, Mont., tracing her, stating that her father died in Butte two years ago, leaving all his property to the wife and baby he had forsaken years ago. He was a large shareholder in several rich silver and copper mines, and owned three large ranches. Marcus Daly was made executor of the estate and next Monday the girl will go to Montana. The letter from the lawyer contained a check for $4,000, which is but an insignificant amount compared with what awaits the girl in the far west. It is said the estate amounts to over $1,000,000.

FORCED TO CLOSE.

First National Bank of East Saginaw Unable to Realize on Its Assets.

Saginaw, Mich., Nov. 23V.—The First national bank of East Saginaw is in the hands of National Bank Examiner Caldwell, who took charge of its affairs Saturday morning. The following notice is posted on the doors: "Owing to inability to realize from assets, it is deemed wise to temporarily close this bank. Depositors will be paid in full. It is hoped that arrangements can be made to resume. By order board of directors."

The capital stock is $100,000; E. T. Judd, president; John W. Howry, vice president; Clarence L. Judd, cashier.

The last official statement, October 6, showed a surplus of $60,000; individual deposits subject to check, $88,565.40; demand certificates of deposit, $209,585.04.

CAMPAIGN EXPENSES.

Michigan Candidates Tell What the Election Cost Them.

Lansing, Nov. 24.—As required by law, Chairman Ferry of the republican state committee has filed an affidavit stating that the total election expenditures of the committee amounted to $60,332.29. The "sound money" democratic committee expended $14,598 48. The silver democratic committee $6,675 and the silver committee $1,655; prohibition, $675. Mayor Pingree's campaign for governor cost him $4,356. This was the largest individual expense account. The expenditures of other state and congressional candidates vary from $250 to $2,500.

TO PREVENT BILIOUSNESS.

Americans Should Eat More Green Vegetables and Salads.

Authorities on diet believe that it would be well for most of us who are in health to eat more green vegetables with our meat and starchy foods than we do at present, says the New York Post. Indeed, some go so far as to believe that the absence from our menus of plenty of green vegetables and salads accounts for the biliousness of the American people. The best known of such plants are lettuce, beet-tops, dandelion, kale and spinach, but Mr. Colville, botanist of the United States department of agriculture, finds that there are many other palatable and healthful plants that, though rarely used, might add a pleasant variety to our list of available vegetables. One of these, "winter cress," or Barbarea praecox, which is cultivated from this city southward and is sold in large quantities in the Washington markets, is planted in late summer or early fall and needs very little cultivation. Another plant that belongs to the spinach and beet family, though it is a common weed in fields and gardens in nearly every part of the United States, is "lamb's quarters," or Chenopodium album. It is in many places commonly known either as pigweed or goosefoot, but it is not the true pigweed. The plant has a pale-bluish green color, and is used when six or eight inches high as tender, juicy and pleasant to the taste. The teasing weed, the common garden "pusley," or "purslane," when boiled is also recommended as a most palatable green vegetable and can easily be had. In India, where it originated, the plant has been used for hundreds of years. In Europe it is used both as a pot herb and for salads.

SHE LEARNS ITS VALUE.

Young Girl's Method of Discovering Her Engagement Ring's Price.

Two young girls dressed in stylish tailor-made gowns entered a State street jeweler's shop. They asked to see diamond rings and for a few moments pretended to be very much interested in the gold circlets and their brilliants. All at once one of them fished in her pocketbook and produced a ring set with a most beautiful emerald.

"Could you duplicate a ring like this?" she asked.

"Yes," said the jeweler.

"For how much?" The girl hesitated just the least bit asking that question. The jeweler glanced at a friend, winked and smiled. He told her the price and then the girl asked:

"This is a rather valuable ring, isn't it?"

"Yes, quite valuable."

"Well, I shall see mamma first, and if I decide to have the ring duplicated I will let you know."

"She'll not be back," said the jeweler, after the door had closed. "Happy creature! She really never intended duplicating the ring, but she was mortally anxious to find out how much her fiance had paid for it. For that was her engagement ring, and you know she had to know how much the trinket was really worth. His depth of affection is largely measured by the value of his engagement ring. Now she's happy. Did you notice the beatific expression when I told her my price? Happy youth! They are pretty much all alike."

PATRON SAINT OF BARBERS.

Alexander the Great Started the Fashion of Shaving.

The confessor of Francis II. of France refused him absolution until he had completely removed his beard. An ancient German was by tribal custom not allowed to cut off his flowing beard until he had killed his first man in battle. About the year 200 B. C. the Roman Emperor Scipio Africanus inaugurated the custom of shaving among the Roman nobles. Henry I. of England wore a beard until a courageous preacher leveled his eloquence at him to such good purpose that he submitted to be shaved. From the time of Julius Cæsar until the advent of William the Conqueror the Britons wore mustaches, but the clergy, after the conversion of the islanders, were forced to shave by law. One of the early popes established the shaving of Roman Catholic priests to distinguish them from the patriots of Constantinople. The priests of the Greek church still wear beards. Peter the Great of Russia laid a tax on beards and delinquents were forced to have their faces shaved with a blunt razor or to have the hairs pulled out with tweezers. So everybody shaved. The first shaving was done by order of Alexander the Great, who forced the Greek warriors to cut off their beards, as he found them awkward impediments in the hand-to-hand contests of that time.

A Woman's Appointment.

A pessimistic German says: "If the dear God should announce from one end of the world to another that on the 1st of January, from twelve to one o'clock, He would open the gates of Paradise to all who made application at that time, the women would arrive late, in spite of the importance of the occasion. They would find it impossible to complete a satisfactory toilet before evening."

One Kind of Business That Is Happily and Permanently Suspended.

Where has the jewelry auctioneer gone? Up to three years ago there were at least a dozen places on the South side where a gaudy display of watches, diamonds and revolvers in the windows called attention to a scarcely less loud auctioneer within. He stood on an elevation behind the counter; he had "cappers" both inside and outside the place, and his sonorous tones were ringing all the time. He watched the stream of passers-by on the street and "backed the play" of the cappers. He sold all manner of watches, and he always "got the best of it."

As a rule, says the Chicago Post, these salesmen were excellent auctioneers and knew all the wiles of their craft.

Up to two years ago some of them were still running, but they gradually faded out, and now there is not one, with the trifling exception of a Saturday night fling in West Madison street. They must do a good business, selling quantities of material at an excellent price. But there was an end of all things in their line and the jewelry auction has vanished.

An Important Difference.

To make it apparent to thousands, who think themselves ill, that they are not afflicted with any disease, but that the system simply needs cleansing, is to bring comfort home to their hearts, as a costive condition is easily cured by using Syrup of Figs. Manufactured by the California Fig Syrup Company only, and sold by all druggists.

WE WANT TO TELL YOU

Why Your Back is Lame—Why it Aches and Pains, and How to Cure it.

Do you know what it is to have a back that is never free from aches and constant pain, a lame back, a sore back, an aching back, in fact, a back that makes your life a burden? What have you done for it? And does it still keep you from the happiness that perfect health brings to all? We know full well if such is your condition a cure for it will be a blessing you no doubt desire. Plasters won't do it, but may assist in bringing strength. Liniment won't do it; for, while it may give temporary relief, it does not reach the cause. The cause, there's the point; there's where to make the attack. Most backaches come from disordered kidneys, therefore you must correct their action if you would be cured. Read the following from D. D. Cook, whose address is No. 18 Michigan Street, Grand Rapids. He says:—

"I have used Doan's Kidney Pills and wish to say it is a truly great medicine. Thirty years ago I had nervous prostration while in the army, where I served for over four years. I think it was during this service that the seeds were sown which have caused all my trouble. Severe bilious attacks bothered me, and at such times my kidneys were worse. It is almost impossible to describe the pain which so often lamed me. I have been so lame that to stand up after I had been sitting down required a great exertion. Walking was at times an impossibility, even at night I did not rest, being forced to get up during the night. I heard of Doan's Kidney Pills and wondered if they could make an almost lame man well. I got some, and soon after taking them began to feel their good effects. I used them for some time, my lameness all left me and I have not felt it since. Doan's Kidney Pills have done me an inestimable amount of good."

For sale by all dealers, price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, *Doan's*, and take no other.

Weakness of Men

Quickly, Thoroughly and Forever Cured

By perfected scientific methods that cannot fail unless disease is beyond human skill. Have improved the vitality a hundred fold. Will guarantee every case. Know yourself a match for any two men in body, brain and muscle. Drains and losses stopped. Every obstacle to perfect and married life removed. Lost manly force, will, energy, when failing restored by this treatment. All weak organs and shrunken parts of the body enlarged and strengthened by this treatment. Explanations and proofs in sealed book, with explanations and proofs sealed, free. Over 2,000 references.

ERIE MEDICAL CO., 663 MAIN ST. BUFFALO, N. Y.

FARM & GARDEN.

ABOUT CORN FODDER.

Some Valuable Hints About Shredding, Storing and Feeding.

Combined corn huskers and fodder cutters or shredders were used to a limited extent in this section of country some years since, but I think none are used now. Imperfections in material, workmanship, and in principle of construction, as then made, and the expense of operating, will account for their failure to obtain a foothold among the labor-saving machines of our country. All except the last of these objections have been overcome in the latter machines, which are now before the public.

For several years past all the shredding that has been done in this section has been with the common small-grain thresher—mostly with old machines. While they do not do the work quite as well as the special corn machinery now in use, the expense of purchasing the latter is avoided by the use of the thresher.

As a shredder, the thresher, used with all of the cylinder spikes and two

RACK FOR CORN FODDER.

half-rows of concave spikes, is a decided success, doing the work rapidly and well—in fact, much more of a success than as a sheller and cleaner of the grain, which usually is left somewhat broken and not clean enough for market, though in good condition for feeding purposes. If, however, the ground has been wet and is frozen when the threshing is done, causing the earth to adhere to the stalks, a considerable quantity of lumps of frozen earth about the size of corn kernels will be found in the grain. If the corn is dry when threshed (a condition essential to best work and easily secured west of the Missouri), there will be no difficulty in keeping the grain in bin and the stover in large quantities in mow or stack. Our dry autumns are very favorable for this work, which is usually done in November and December. I know that in northern Ohio the corn was never ready to shell and store in bulk before winter set in; therefore, I think the huskers and shredders should be better adapted to that and other sections where the season is comparatively short and the autumn moist. Ear corn can be safely stored in large quantities when so damp that if shelled and piled up it would certainly be lost. As before stated, the fodder must be dry when it is threshed: for damp stover is a great material to develop heat when shredded and stored in large quantities. A little of the natural juice remaining within the stalk is not nearly so bad as outside moisture from rain or dew.

The western plan is to run the shredded stover directly into large racks in the feed yard, where two or three men mow it away, same as they would mow or stack straw from the machine, being careful to keep the center full and well tramped so it will turn water perfectly. A rack 16x32 feet should hold a good-day's threshing, or about 12 acres of ordinary fodder, without making the rack very high. Racks are made by setting posts in the ground and nailing on fencing, beginning four or five feet from the ground and running them as high as necessary. To keep the thing from spreading, the wires are tied together by putting wires across and twisting them together with a stick to tighten them. Around the rack a manger is constructed with fencing boards and posts for the cattle to eat out of.

The sketch herewith will serve to show the principle of constructing; it shows a small rack which is very convenient for feeding straw or hay in the yard, as well as for fodder, when it is made on a larger scale. The lower part of the manger, being the opening for heads of cattle to pass through, should be boarded up tight for feeding fodder. The railing about the opening should be a strong pole or a hardwood 2x4.—George T. Pettit, in Ohio Farmer.

FARM AND STOCK NOTES.

In order to produce superior beef, the best beef herds of cattle must be kept.

If the best health is maintained with sheep they must be kept dry under feet.

Sheep manure contains a large per cent. of the plant food contained in the rations they consume.

Wheat bran can nearly always be fed to young and growing stock during the winter to an advantage.

Keep all young stock growing steadily; feed of all kinds goes further with young stock than with old.

It is not by any means the man who feeds the most that has the fattest and the best conditioned horses.

One of the surest and best ways of securing vigorous, thrifty stock is to select and mate good parents.

When it can be done in arranging the pasturage for the hogs give the brood sows the run of the wood land.

Rather more care is needed to not over-feed when ground feed is given than when whole grain is used.

For growing pigs milk and mill feed made into a slop with a little corn makes one of the very best winter rations.

Gentleness and firmness are two necessary qualities to be employed in the training of both horses and cows on the farm.—Farmers' Review.

SUGAR BEET CULTURE.

Nebraska Farmers Are Making the Crop Pay Fairly Well.

The live question among farmers now is what can be done to make farming pay? If sugar beet growing pays in Nebraska may it not be made profitable in other grain-growing states? It is an interesting question. What, then, are they doing in that state that is taking the lead in this industry? The season is so far advanced that a pretty close estimate of the beet-sugar product may be made, and the output of the great Oxnard factories is expected to reach a total of 15,000,000 pounds from 75,000 tons of beets. This is about twice as large a field as that of 1895, and nearly three times as great as that of 1894. At the same time the number of farmers who have cultivated beets has increased with like rapidity. In 1894 only about 500, and in 1895, 1,300 engaged in the business, but the present year the number reached about 2,000. The average yield has been about 11 tons of beets to the acre, and the price per ton has ranged from four to seven dollars. The latter figure was paid for beets that contained the remarkably high per cent. of 20; the lower price was given for those that graded only 12 per cent. of sugar. The amounts received by the growers ranged from $44 to $77 per acre. The average amount of beets grown by each farmer was only about 37 tons, showing that less than four acres were planted, on the average. But the profit from this small area was from $150 to $200—more, probably, than that derived from all the remainder of the farm.

It is an interesting fact that in all the foreign sugar-beet growing countries, including France, Germany and Russia, this industry is steadily increasing. In the last-named country the increase last year was nearly 20 per cent. over the amount grown in previous years. The subject is certainly well worthy of consideration by our farmers.—Indiana Farmer.

AN ECONOMICAL FENCE.

Made of Barbed Wire Bolted to Apple Trees for Posts.

One of the greatest problems of the farmers to-day is how to make the best and cheapest fence. Many devices have been recommended, but the most economical fence, to my mind, is one made of barbed wire stretched to small strips—say two by four inches—bolted to apple trees for posts, as shown in the illustration.

The trees are trimmed up pretty high, and the two by four-inch strips should be all cut into equal lengths, the

WIRE AND APPLE TREE FENCE.

height you desire your fence, and a hole bored near each end, leaving the spaces between them all of equal distances apart. Then make bolts about nine inches in length, sharpened at one end, and with two holes drilled in the other, two inches apart, as shown in illustration. They can be made very cheaply. They are driven into the tree about three inches deep, at their proper distance apart; put a key in the second hole, then slip on your two by four-inch strip, then put in the other key to hold it on, and the post is com-

HOW TO FASTEN THE BOLTS.

plete. The wire is then stapled onto the posts; and by taking pains to have all the trees the same distance apart, the fence, with the two by four-inch posts, can be removed by taking out the keys that hold them on, to any portion of the farm where trees are prepared for them.

This makes a very substantial and durable fence, lasting from 25 to 30 years. The trees need not cost anything more than a little time and attention, as they can be obtained by planting the seed from the nicest apples; and the fruit will more than repay for the cost of the fence in a few years.

Such a fence should be along every public highway, as it would give the road and fields an attractive and home-like appearance.—Farm and Fireside.

Capacity of a Corn Crib.

It is a safe rule in estimating the size of a crib to allow two cubic feet to each bushel of corn. By a cubic bushel is meant 70 pounds of ear corn, which is equivalent to 56 pounds of shelled corn. The rule is to allow 14 pounds for cob in the fall, and 12 pounds in the spring after the corn has been dried out perfectly. Two cribs 30 feet long, six feet wide and ten feet high, will by this rule hold 1,800 bushels. Ten feet is too high to throw corn easily with a scoop shovel, but there can be two openings for each crib extending down to within four or five feet of the floor, and when the crib is full to the bottom of these, short boards can be placed across them, as the crib is filled, and most of the filling can be done with ease. When the cribs must be filled to the top, a boy or man can throw corn back to the ends and fill it, so as to utilize all the space.—Rural World.

Do You Ever

Try Electric Bitters as a remedy for your troubles? If not, get a bottle now and get relief. This medicine has been found to be peculiarly adapted to the relief and cure of all Female Complaints, exerting a wonderful direct influence in giving strength and tone to the organs. If you have Loss of Appetite, Constipation, Headache, Fainting Spells, or are Nervous, Sleepless, Excitable, Melancholy or troubled with Dizzy Spells, Electric Bitters is the medicine you need. Health and Strenght are guaranteed by its use. Large bottles only Fifty cents at Baker & Hall's drug store. 3

The markets this week are enough to make a mummy feel the pangs of hunger.

Free Pills.

Send your address to H. E. Bucklen & Co., Chicago, and get a free sample box of Dr. King's New Life Pill. A trial will convince you of their merits. These pills are easy in action and are particularly effective in the cure of Constipation and Sick Headache. For Malaria and Liver troubles they have been proved invaluable. They are guaranteed to be perfectly free from every deleterious substance and to be purely vegetable. They do not weaken by their action, but by giving tone to stomach and bowels greatly invigorate the system. Regular size 25c per box. Sold at Baker & Hall's drug store. 4

The triple chinchilla cape is much worn with dressy evening gowns.

CASCARETS stimulate liver kidneys and bowels. Never sicken, weaken or gripe.

A brisk morning walk is a rare complexion beautifier.

Bucklen's Arnica Salve.

The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns and all Skin Eruptions, and positively cures Piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Baker & Hall druggists.

They turn Green at the ball and heel—even some of the best black stockings. Wash them with Pearline, and you'll have the black color restored.

Does that look as though Pearline would "injure the clothes?" Things like these, hundreds of them, all more or less important, make Pearline the best thing to wash with. Then, on top of that, it saves labor, saves rubbing, saves wear and tear, time and money.

Send it Back Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearline." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearline, be honest—*send it back.* 433 JAMES PYLE, N. Y.

MORTGAGE SALE.

Default of payment having been made of a mortgage made by Franklin J. Wood and Maggie Wood to Abbie M. Fisher, dated May twenty-third, 1887, and recorded on the 25th day of May 1887, in the Registers office for Lenawee County, Michigan in Liber 89, of Mortgages on page 286, which mortgage was assigned by instrument in writing dated September 25th, 1894, by said Abbie M. Fisher to the undersigned Gertrude Fisher Loree (formerly Gertrude Fisher) and such assignement duly recorded on the 8th day of October 1894, in said Register's office in Liber 136, of mortgages on page 318,—upon which mortgage there remains unpaid of the principal and accrued interest at the date of this notice the sum of four hundred seventy and 66-100 dollars and no proceedings in law or in equity have been taken for the collection of the same or any part thereof.

Notice is therefore hereby given that by virtue of the power of sale in said mortgage contained and of the statutes of the State of Michigan in such case made and provided, for the purpose of realizing the money above mentioned and the interest thereon hereafter to accrue at 7 per cent per annum the cost of this foreclosure and sale including the attorney fee provided for in said mortgage, I shall on the 30th day of November 1896 at nine o'clock in the forenoon of said day at the front door of the court house in the city of Adrian Lenawee county Michigan (that being the building in which the circuit court for said county of Lenawee is holden) sell at public vendue to the highest bidder, all that parcel of land situate in the Village of Tecumseh in the county of Lenawee state of Michigan and described as follows to wit; Village lot number fourteen (14) of Eber Sherman's addition to said Village of Tecumseh according to the recorded plat of said addition.

Dated September 4th, 1896.

Gertrude Fisher Loree. Assignee of said (mortgage.

Charles Burrige Attorney for assignee.

STATE OF MICHIGAN, County of Lenawee, ss.

At a session of the Probate Court for the County of Lenawee, holden at the Probate office in the city of Adrian, on Monday, the 2nd day of November in the year one thousand, eight hundred and ninety-six.

Present, Richard B. Robbins, Judge of Probate.

In the matter of the estate of Addison Hardenburg deceased.

On reading and filing the petition of Alice B. Hardenburg, Administratrix, upon the estate of said deceased, alleging that the funeral expenses and debts of said deceased and the expenses of Administration thus far incurred, have been fully paid and that she is now ready to close said estate and to render her final administration account, and praying that said account may be allowed, and that the residue of said estate may be assigned and distributed according to this statute in such case made and provided that she may be discharged and her bond cancelled, and for such other order and decree as this court shall deem proper.

It is ordered, That Monday, the 30th day of November, 1896 at nine o'clock in the forenoon, be assigned for the hearing of said petition and that the heirs-at-law of said deceased and all other persons interested in said estate, are required to appear at a session of said Court then to be holden at the Probate office, in the City of Adrian, and show cause, if any there be, why the prayer of said Petitioner should not be granted.

And it is further ordered, That said Petitioner give notice to the persons interested in said estate of the pendency of said petition, and the hearing thereof, by causing a copy of this order to be published in the TECUMSEH HERALD, a newspaper printed and circulating in said County of Lenawee for three successive weeks, previous to said day of hearing.

RICHARD B. ROBBINS, Judge of Probate.

(A True Copy.)

DOWN THE DANUBE.

In an Open Boat—Sixteenth Letter of this Interesting Voyage.

Heidelberg, Germany.

EDITOR HERALD:—

Hardly had we re-embarked after inspecting the quarters of the Roumanian frontier guardian when we heard shouts from the Bulgarian shore. Of course we could not understand the chorus, but looking in that direction we saw two boat loads of soldiers rowing vigorously and towing a large raft. Their efforts seemed to be directed to getting the raft in mid-stream. Their shouts were for us, and we laughed because they seemed to want us to get out of the way. "I guess we can avoid being run over by two clumsy row boats and a raft," said the valient Don and the laughing Sancho acquiesed. The soldiers evidently despaired of making us understand, and leaving the raft floating on the river rowed hurriedly ashore. Much mistified, we drifted and ate pears until suddenly from a clump of bushes ashore burst a cloud of smoke followed by a deafening roar. A moment after there was rain of shot uncomfortably near us and a shell falling in the water not fifty feet away burst and made a great rift in the water. There was a great splashing and, as the water rushed back, a gurgling, unpleasant sound. We did not wait for a second salute. Our stupidity was all gone. I seized the oars and rowed as if for life. By the time the next shot was fired we were well out of range. That old raft was their target and the soldiers were practicing. They seemed to need the exercise, for during a half hour that we watched them they failed to land a shell within 50 feet of the raft. It was quite thrilling and warlike to hear the booming reverberate among the hills. After this excitement ceased, we had time to note the landscape. Far to the south stood the Balkan mountains, dim and cool in the afternoon sunlight. The river was a mile and a half in breadth. On the steep Bulgarian shore, one might see the herdsman and hear their strange shouts. Late in the afternoon, we landed in a secluded spot on the Roumanian shore intending to camp. We have to land where the guards can't see us, lest they make us go with them to the nearest town to have our passports approved. Well, as my wife stepped on shore she exclaimed, "Heavens? here is the skull of a man." Yes, it was indeed "poor Yorick," and not far from his skull was the remainder of the skeleton. In the dim light it was horrible enough. We did not camp there. We fled to the Bulgarian shore where we camped, and passed a night of restlessness and uncanny dreams. Next day as we approched Lom Palanka, we took a morbid interest in the city graveyard. A great brown hillside is covered with red and blue crosses. The effect is the gayest and most unique cemetery that I ever saw. Sancho thought it was a very sacriligious graveyard. The population of Lom Palanka which is above ground dwells in sickly yellow and blue buildings of the toy house style. About the windows is a blue tracery, peculiar designs painted in blue. Minarets rise gracefully here and there. They look like immense rockets with a swelling half way up. The swelling is the encircling balcony upon which the mollak appears in the early morning and exhorts all good Mohamedans "Awake my brothers, to pray is better than to sleep." Another ornament of these cities is the bell-shaped towers crowned with what resembles a Santa Claus hat. While we were exploring the town, a small beggar boy grew so insistant that he followed us whining and holding out his hand. Suddenly I turned and leveled my kodak at him. With a yell of terror, he staggered back and then fled around a corner. As we were departing, we saw some low caste Turkish women washing clothes at the river's edge, or rather we saw only the tips of their noses and some ugly looking eyes.

Out on the river again, the sun beat down so unmercifully that I could not endure the exercise of rowing. We sat beneath our one umbrella (we lost the other in the rapids at the Iron Gates) and drifted very idly and slowly. I was dreamily looking toward the shore, when my attention was caught by some black objects, very large and bulky, which moved with a writhing motion. A queer feeling of discomfort came over me. "Did you ever hear of rhinoceroses or hippopotamoses in the Danube?" I asked nervously of my wife. She answered in the negative. We were nearly a quarter of a mile from the curious creatures but could distinguish plainly that they had tails and did not have horns. "They can't be crocodiles," I ventured. "No, but let's row that way and find out," said Sancho. I acted on the suggestion and we got rid of the uncanny feelings when one of the beasts went ashore and we discovered that they were cattle. Their forms are very peculiar and they are hornless. Later we saw many of them, being in the water and cooling themselves. The ordinary cattle never accompanied them in their unique baths.

Near evening, we came upon two islands, lying side by side in the river We decided to row between them. After going some distance, darkness gathered about us but a landing was impossible, because on either side the bank rose perpendicularly ten or twelve feet. As we glided along underneath the stars and the moon, we were annoyed by the continual howling of dogs, which seemed omnipresent. Then we got among shoals and sand bars, and would start up great flocks of birds, which had settled there for the night. It was a weird experience. The islands seemed to have no end. My arms grew numb with rowing. At last in the moonlight the end of the island came to view. A strong wind made the row to land very difficult. Our first attempt to land was a failure because the mud was too deep. At the next place we found gravel shore but were assaulted by a furious howling of dogs. Too wearied to go further, we camped in spite of the dogs.

C. H. VAN. Y.

'ROUND ABOUT US.

Clippings and Condensations From our County Contemporaries.

Once more has the Carleton Gazette been carried to the field set apart for deceased newspapers, and carefully laid to rest by moonlight, in a little grave which had been prepared for it. D. J. Niven, who had announced in glaring headlines that he had "come to stay," quietly took his departure a few days ago to return again no more. The paper had thrived recently on pap, but when that nourishment was not continued after election it sickened and died. May it rest in peace. The air in the vicinity of Carleton is fatal to newspaper projects.—Monroe Democrat. It was evidently not a "long felt want."

Seia Fitzgerald had about fifty bushels of corn taken from the field Monday night. The corn had been husked and put in a pile waiting for a convenient time to draw it home. Monday night was a convenient time, but the corn did not "come home."—Morenci Observer. In this section corn is too cheap even to steal. Perhaps it is worth more in Morenci.

A pleasant birthday gathering for Mrs. Margaret Gillen was held at the home of her daughter, Mrs. A. B. VanDuzer, last Sunday. Mrs. G. is 68 years of age and enjoying good health. There were present of her children, Mr. and Mrs. VanDuser and Mr. and Mrs. John Gillen, of this place, Mr. and Mrs. Mike Gillen, of Tecumseh, and Mr. and Mrs. Jim Gillen, of Clinton.—Morenci Observer.

The new telephone company and exchange in Adrian now appears to be assured. J. B. Brailey, of Wauseon, was in town this morning with the information a construction gang would commence work in the city on Monday. The line is now built as far as Fayette, and connects with Defiance, Toledo and other Ohio cities. The company has already secured 230 subscribers in this city on two years' contracts. A rental of $2 per month is charged for a business house phone, and $1 for a residence phone. The exchange here will be opened by February 1 at the latest. The line will be continued from this city to Detroit.—Adrian Times. It is hoped that this new telephone company may come toward Tecumseh. At such rates many subscribers could be secured here.

There is a little talk of organizing a stock company for the manufacture of the newly invented Lamb wire fence which will be a great addition to Hudson's industries. The patentee is one of Lenawee county's original and successful inventors. The article is highly practical and will be well worth the trouble of establishing it.—Hudson Gazette. The machine for making this fence is now in the Tiffany building Tecumseh and endeavor has been made to start a company here.

Two tramps went to the house of Willard Day, Wednesday evening, and in addition to the usual enquiry for a cold bite, wanted to know about that gentleman's stock of cast-off overcoats, etc. Upon Mr. Day's announcing that he had nothing to offer, the couple went away, only to reappear shortly in the role of thieves, and took from a hook in the woodshed two overcoats. Mr. Day missed them soon after and followed them to their hiding place in a car in the Lake Shore yard, and succeeded in finding the purloined garments in the keeping of the tramps. No arrests.—Hudson Gazette. Good natured people those up at Hudson. The citizen simply asks his old clothes back and thanks the tramps for giving them an airing.

Tipton has been connected with Tecumseh by local telephone line, and will be connected with Pentecost in a short time. They have put in the Gilliland phones and a number of farmers will put them in also.—Adrian Telegram. If this report is true it must be that the old Commercial Telephone Company wires are being used.

If ever a newspaper "petered" out at the little end of the horn, this is the fate of the Hudson Republican. The issue of last week equals the size of two Columbia postage stamps and as there is nothing in the thing it is really hard to discover its usefulness.

"Say, I have got a local for you," said Vene Spaulding the other day, "I have been at work at the farm of W. A. French, and from 1 acre of land on the flats I dug 525 bushels of potatoes; from 2½ acres of land 315 bushels of corn was husked; and from two acres of ground 2,500 bushels of mangel wurzel was got. How is that for crops?"—Dundee Reporter. Either great crops or larger yarns.

SIX CENTS A WEEK.

The election of Mr. McKinley was the occasion of the most rapid and widespread business revival ever known in this country. There is a certainty that good times will prevail and that people will earn money and have money to spend. THE INDEPENDENT, of New York, was foremost in upholding the principles for which Mr. McKinley stands, and rejoices in the better outlook for every man, woman and child in the country.

For forty-nine years THE INDEPENDENT has held the first position among the great religious, literary and family weeklies of this country, and it proposes to fill that position in the future. It has adopted several new, interesting and important features, two of which are "The Survey of the World," which gives in a concise form all of the important events that have happened in the world during the week, and "Work Indoors and Out," which tells men, women, boys and girls how to earn money in a variety of ways. In general the paper is particularly fitted for professional men, business men, merchants, farmers and families. It costs but six cents a week—$3.00 a year—or at that rate for any part of a year. A specimen copy will be sent to any person free by addressing THE INDEPENDENT, New York City.

NOTES FROM THE UNIVERSITY.

Ann Arbor, Mich., Nov. 16, '96.

EDITOR HERALD:—

As the foot-ball season draws to a close, the Michigan men review the work done by their team with a good deal of satisfaction. Although the managers were unable to get a game with Harvard, which they so much desired, or with any of the "big four" Eastern universities, their career in the middle West has been a continual round of victories. Only one team, Minnesota, has scored against them, and in that game some of Michigan's best men were in the hospital and others were unfit to play. However brutal and demoralizing foot-ball may seem to the casual observer, it seems to have won a place in the favor of the student body held by no other atheletic sport. To the student of popular psychology we will leave the question how a sport that in almost every game results in the maiming and disabling of a part of the players, and necessitates the presence of a surgeon and a hospital stretcher, can have gained such a hold in the favor of the cultured and refined classes.

Sunday November 15th a mass meeting of the students was held at University hall to give the University senate the chance to impress upon the students the necessity of giving support to the Students' Christian Association. It seems that the association is not in a flourishing condition; less than one fourth of the students belong to the organization, and it is in a bad way financially. The Salvation Army people have apparently determined that here is a rich field for them, and the song of the street exhorter rings over the campus. The question, to what extent the influence of an institution of learning founded by the people of this commonwealth and paid for with the people's money, should be used in the furtherance of religious teaching, sometimes suggests itself.

The membership of the Students' Oratorical Association is unusually large this year. This organization has given several lectures and readings of much merit so far and many more will follow. An unusual interest in the association has been created by the coming Inter-University oratorical contest which will be held this year in Ann Arbor. Five out of six contests have been won by the University of Michigan and every effort will be made to win this year's contest. The Hon. Chancey Depew explained recently why he delivered a stump speech before the lecture association last October by saying that in a political campaign he could not bring himself to speak on anything like an academic question, besides, he added, the money question is an academic question. Whether calling the other fellow a knave and a fool is a strictly academic way of treating such questions the Hon. Chancey did not say.

The parlors of the "woman's annex" to the gymnasium have been fitted up for work, and regular class work was begun November 10th. The building is very far from finished however. About $7,000 more will be required to complete it. Work will be suspended until the requisite money is in sight.

Under the auspices of the School of Music, the Chicago orchestra, directed by Theodore Thomas, opened the first of a series of musical entertainments to be given here. Ten concerts will be given this year and many of the numbers secured are the most celebrated on this side of the Atlantic. The choral union has been increased to three hundred voices and the coming series promises to be the best ever given.

The senior Law class this year is the smallest in a great many years; it numbers 35 members. Last year's class numbered about 340. The great falling off is due to the change from two to three years in the course required. Henceforth it is probable that the Law school will not turn out quite so many lawyers, but it is hoped that the quality will be improved. C. V. WISNER.

MEALS IN PARLOR CARS —Between— CHICAGO and DETROIT.

The Wabash Railroad has placed in service on day trains Nos. 6 and 7, between Chicago and Detroit, a line of Buffet Parlor Cars in which meals and other refreshments are served at any time during the day. Prices are very reasonable, these cars being operated on the a la carte plan.

Farmers' Social Club.

The club will meet Friday evening, December 4, at the home of Mr. and Mrs. Jonas Waldron.

PROGRAM.

Inst. Music—Ora and Jennie Gillespie.
Declamation—Ralph Bowen.
Recitation—Hazel Roberts.
Song—Mrs. Geo. Benedict.
Select Reading—Leva Gillespie.
Geographical questions to be answered at the next meeting.
Election of Officers.

In reference to the questions it is requested that they shall be taken to the meeting written for distribution and shall be of such a character as will promote the study of Geography.

THE WABASH "CALIFORNIA FLYER."

Quickest and best service to CALIFORNIA is now offered by the Wabash Railroad in connection with the Atchison, Topeka & Santa Fe Railway. Vestibuled sleeping cars through to Los Angeles without change, making twelve hours better time from St. Louis than any other line, and corresponding time from other points.

For particulars write to any Wabash ticket agent, or to G. S. Crane, General Passenger & Ticket Agent, St. Louis, Mo.

NATIONAL FINANCES.

Annual Report of the Treasurer of the United States.

Revenues of the Last Fiscal Year—The Bond Sales—Help from the Bankers—Money of the Nation.

Washington, Nov. 30.—The annual report of Daniel N. Morgan, treasurer of the United States, shows the net ordinary revenues of the government during the fiscal year ended June 30, 1896, to have been $356,979,200 and the expenditures $352,179,446, leaving a deficiency for the year of $25,200,246, or $17,601,977 less than during the preceding fiscal year.

The report shows that during the last fiscal year there was an increase of $7,862,134 in the receipts from customs, an increase of $3,341,192 from internal revenue sources, an increase of $2,479,622 from miscellaneous sources, and a loss of $97,823 from the sale of public lands, making the net increase in the receipts $13,586,125. The decrease in the expenditures amounted to $4,818,352.

Bond Sales.

The report shows the total receipts from the first $50,000,000 loan of 1894 to have been $58,660,917, the second loan of $50,000,000 of 1894 $58,719,710, the loan of $62,315,400 for 1895 $65,128,056, and the $100,000,000 loan of 1896 $111,355,612. From the first loan there was realized $52,850,264 in gold coin and $5,810,420 in gold certificates; from the second loan $53,651,188 in gold coin and $5,068,-410 in gold certificates; from the third loan $63,428,051 in gold coin, and from the fourth loan $109,327,455 in gold coin and $2,028,816 in gold certificates. The total receipts from the several bond sales, therefore, were $294,-164,236.

Referring to the condition of the treasury during the last year, the treasurer says:

"While the cash balance in the treasury has afforded a comfortable working fund, and would have done so without augmentation from loans, the gold reserve has been maintained only at the cost of a fresh issue of bonds and by voluntary contributions of banks and financial institutions. With the exception of a brief period in the autumn of 1895 and another in the spring of 1896, the ruling rates of foreign exchange were such throughout the year as to permit if not require the export of gold.

Draining the Gold Reserve.

"The movement began in volume the first week in August and continued with a short interruption till toward the end of January.

"At first the demands upon the treasury for gold were limited to the wants of exporters, but in December considerable withdrawals began to be made by others, the amount increasing during January and rising in February, when heavy payments were made into the treasury for bonds, to nearly $20,000,000 for the month.

"Under this drain the reserve gradually sank until February 10, 1896, when it stood at $44,563,493. It was then rapidly built up from the proceeds of the sale of bonds and rose to $128,713,709 by March 31. After inconsiderable variations in the reserve during April the export of gold was resumed on May 1, and this movement, together with the continued withdrawals not for export, again put in operation the process of depletion. There was an almost daily decline until July 23, when the official figures for the reserve were $59,059,975.

Help from the Banks.

"At this point the bankers of the principal cities joined together in a movement of relief, the result being that the banks and financial institutions deposited gold in exchange for paper currency and restored the reserve to $110,782,403 by August 4. After the discontinuance of these operations the free gold again declined gradually to $100,957,561, where it stood on September 1.

"In the latter half of August there occurred a favorable turn in foreign exchange, which had the effect, first, of checking the outflow of gold, and later of setting in motion a rapid current in the opposite direction. As some of the imported material was brought for the purpose of supplying the inland demand for currency, and as the preference which later was manifested in the interior for gold had not yet become a factor in the situation, a great part of the early inflow found its way into the treasury in exchange for paper.

"In ordinary times and under ordinary circumstances there is a natural flow of gold toward the treasury, which often is limited only by the capacity of the treasury to carry the specie.

"Fortunate indeed has it been for the treasury that even during the most critical periods through which the country has recently passed these currents of inflow have not been altogether checked, and that where their volume has been materially diminished the loss has been partly made good by the assistance of financial institutions.

"In the 15 months ending with September last the withdrawals of gold from the treasury in redemption of United States notes and treasury notes amounted to the immense sum of $192,972,205, while the net gains of gold from all sources attained a total of $88,138,902."

The public debt outstanding June 30, 1896, is shown to have been $1,769,840,323, and on June 30, 1895, $1,676,120,983.

Money of the Nation.

According to the revised estimates of the department the composition and distribution of the monetary stock on June 30, 1896, was as follows:

	In treasury mints.	In circulation.
Gold coin	$112,559,974	$454,905,004
Gold bullion	22,102,926	
Silver dollars	378,673,137	52,116,504
Fractional silver	15,767,056	60,204,451
Silver bullion	120,833,868	1,032,565
Total metallic	660,077,051	568,258,924
United States notes	122,431,148	224,949,985
Treas'y notes of 1890	34,638,033	85,045,247
National bank notes	10,832,425	215,168,122
Gold certificates	620,070	42,198,119
Silver certificates	11,962,318	330,657,191
Currency certificates	320,000	21,910,000
Total paper	180,803,993	939,209,547
Aggregate	$840,871,040	$1,507,467,831

The total stock transfers is $2,348,338,871, as compared with $2,299,704,683 on June 30, 1895. Since the close of the fiscal year this loss has been fully recovered, chiefly by the importation of gold.

The net proceeds of the national bank notes redeemed during the year were $107,-891,028, the largest amount for any like period in ten years, and, with the exception of three years, the largest since 1879. The expense to the banks of redemption will be $1.12½ per $1,000.

The appendix to the report contains a number of new tables which will be found exceedingly valuable to persons specially interested in the financial affairs of the government.

Died at the Age of 101.

Worcester, Mass., Nov. 30.—Mrs. Sarah Annis died Sunday, aged 101 years 5 months and 23 days. She was born in Cowell's Manor, Can., and until eight years ago lived in Peru, N. Y.

Twentieth Anniversary.

Pittsburgh, Pa., Nov. 30.—Francis Murphy celebrated yesterday the twentieth anniversary of his temperance work, which he began in this city.

STATE BOARD OF HEALTH.

Its Record Shows Efficient Work for Five Years Past.

Lansing, Nov. 28.—The secretary of the state board of health has just published official statistics of the life-saving work of that board, which show that through compliance with the recommendations of the board during the five years, 1890-94, there were probably saved to the people of Michigan about 112,843 cases of sickness and about 5,261 deaths, from the four diseases—diphtheria, scarlet fever, typhoid fever and measles. At a very low estimate the money value thereby saved the state during these five years is $5,097,800, or over $1,000,000 per year, from these four diseases. If all the dangerous diseases were considered, the saving would undoubtedly be much more.

The state board of health exists for the purpose of guarding the highest interests of every man, woman and child in Michigan; and, if it had the cooperation of all, and its advice was fully complied with, the results of its work would be still more effective. As it is, the money values saved to the people of the state greatly exceed the cost of the public-health work, being, in fact, nearly half as much as the entire amounts required to sustain the state government and all the state institutions. From an unhealthful state, Michigan is fast becoming one of the most healthful.

The basis on which the above estimate is made is as follows: For medical attendance and other necessary expenses in each case of sickness, $20; for each funeral prevented, $40; value of each life saved, $500. Before the late war a slave was worth about $800, for what it would earn over and above its cost of maintenance, and now the courts count an average person's life worth about $5,000—ten times the amount used in this estimate.

WILL SPEND MILLIONS.

Big Water Power Canal at the "Soo" to Be Developed.

Sault Ste. Marie, Nov. 28.—At a meeting of the directors of the Lake Superior Power company, held in this city, it was decided to at once develop the Soo's big water power canal. The company is composed of eastern capitalists, who will expend from $3,000,000 to $5,000,000 in the enterprise. The canal plans will be changed, and 25 engineers are now at work in altering them, so that the width will be changed from 250 to 400 feet. President Clergue said that everything would be in shape to award contracts about January 1, 1897. He said that at the start at least 2,500 men would be employed on the construction work alone. The contracts will be let in three sections, each a mile in length and 400 feet wide. The canal is being pumped dry at the upper end, and this work will be completed within two weeks. Dredging at the upper approach has been in operation for a month.

THE NATIONAL GUARD.

Biennial Report of Quartermaster-General Kidd.

Ionia, Nov. 27.—The biennial report of Quartermaster General Kidd, of the Michigan national guard, covering the period from July 1, 1894, to June 30, 1896, is out. The brigade, the report says, is not suitably equipped for field service on short notice, and recommends the purchase of about $40,000 worth of new accoutrements. As the fund for military support is barely sufficient to pay the running expenses and the annual encampment, the report suggests that the annual encampment be dispensed with for one year, and the money thus saved be used to properly equip the brigade. The expenses of the state military department for the two years were $194,898.30, about $100,000 of which went to defray the expenses of the annual encampment.

WON'T WED UNBELIEVERS.

Rev. B. Ashton, of Union City, Sets a New Example.

Union City, Nov. 26.—Rev. B. Ashton, Baptist, said to be the only preacher in the state who refuses to accept a salary, has refused to marry a couple because they did not profess Christianity. He made the following explanation:

"I am a servant of the Lord, and all my work is done in His name. If parties to a marriage are unbelievers, religious ceremony is a farce. I will not marry unbelievers, neither will I marry people who have been divorced. I would not preach a funeral sermon for an unbeliever if it did not give me an opportunity of preaching the word of God to people who might not otherwise hear it. It is a matter of conscience with me, and so long as my conscience is clear I am willing to lose the fees."

Saginaw, Nov. 26.—The Arenac county bank of Standish, owned by C. L. Judd, cashier of the First national bank of East Saginaw, has closed its doors until all matters are adjusted. All is quiet in banking circles here, and the situation is practically unchanged.

To Protect Creditors.

Big Rapids, Nov. 30.—To protect depositors and other creditors of the Mecosta county savings bank, attachments have been placed on all the property of D. F. Comstock, late president of the bank, by the receiver. The value of the property attached is $75,000.

Aged Lady Killed.

Coloma, Nov. 26.—Mrs. John Wooten, a highly respected lady of this place, was thrown from her carriage Wednesday, and instantly killed. She was a pioneer, her age being 73 years.

WAR DEPARTMENT.

The Annual Report of the Secretary, Daniel S. Lamont.

The Showing with Reference to Increase of Modern Methods of Defense Is Gratifying—Strength of the Army—Some Suggestions.

Washington, Nov. 27.—Secretary Lamont's report of the operations of the war department for 1896 show total expenditures aggregating nearly $52,000,000, and an unexpended balance of nearly $2,000,000 turned back into the treasury at the end of the fiscal year. For the three years of Secretary Lamont's administration the surplus has amounted to more than $5,000,000.

Modern Defenses Strengthened.

The report shows that by July 1, 1897, there will be in position 70 high-power breech-loading guns, and 95 breech-loading mortars of modern design, and by the following July, on completion of work already under way or provided for, 123 guns and 133 mortars. A battery of two or three of these guns takes the place of the ancient fort, and is more effective.

The total amount appropriated for seacoast defenses, including cost of sites, fortifications and armament since the adoption of the present scheme is $36,457,000, of which more than one-third was carried by the act passed at the last session of congress.

The estimates of the department for the next fiscal year aggregate $10,482,263. With this appropriate provision will have been made for 163 high-power gun emplacements, 129 rapid-fire gun emplacements, 300 12-inch mortar emplacements, 358 high-power steel guns, 97 rapid-fire guns, 250 12-inch mortars, 180 eight, ten and twelve-inch gun carriages and 290 12-inch mortar carriages.

Coast Defenses.

Secretary Lamont says his predecessors in office at the head of the war department had, during many years, the difficult task of arousing the public mind to a realization of the national deficiencies in the matter of coast defense. As the interest which has been awakened has grown deeper, successive congresses have made more liberal provision for the accomplishment of the adopted scheme. Therefore, in submitting the estimates for another year, he feels that it is no longer necessary to repeat the arguments that have been reiterated so many times. While earnestly inviting attention to the great work that yet remains to be done, it is also his fortune to have the more grateful duty of exhibiting the important results that have been actually accomplished as well as the splendid progress which is now being made toward early completion of the work.

Work on Rivers and Harbors.

The total expenditures for river and harbor improvements ordered by congress during the year ending June 30, 1896, including those of the Mississippi and Missouri river commissions, was $17,039,000. Including the amounts appropriated by the act of June 3, 1896, there was available for expenditure on river and harbors July 1, $26,020,000. The Mississippi river commission has decided to discontinue the plan to improve the river by bank protection and to adopt the plan of dredging channels in shoal places and maintaining, with state and local cooperation, an effective levee system. With this change of policy the minority believe the function of the commission is ended, and the work should be turned over to the secretary of war.

Great Lake Improvements.

Referring to the great lakes the report says: "The new lock at the falls of the St. Mary's river, though not fully completed, was thrown open to commerce August 3, 1896, is 800 feet in length and 100 in width, with a depth of 21 feet on the miter sills and a single lift approximating 18 feet, is an essential link in the chain of improvements which are to give a ship channel with depth of 20 feet connecting the waters of the great lakes between Chicago, Duluth and Buffalo. This work, now nearly completed, is one of great magnitude, and its importance to the interests of navigation may be judged by the fact that its total cost from its inception to completion, while amounting to several millions, will be but about five per cent. of the value of the commerce passing through the Detroit river during the season of 1895.

Strength of the Army.

The army consists of 25,426 officers and men, or 284 below the legal maximum. The effective field strength on October 31 was 23,382.

Secretary Lamont renews his previous recommendation that the infantry be reorganized on the general idea of three fight and mobile battalions of four companies each to the regiment instead of the cumbersome ten-company formation adopted a century ago, and abandoned by other nations since the development of modern magazine rifles, and he quotes Gens. Sherman, Sheridan and Lieut. Gen. Schofield in support of the necessity of this reorganization of the infantry.

The Militia.

Investigation this year has shown serious deficiencies in the arms and equipment of the state militia branch of the service. When the states furnish the armories and defray all expenses incidental to keeping their forces in training, Secretary Lamont suggests that the United States should provide them with the implements which they will need in active service—arms and field equipment—as the supply on hand is totally inadequate. The secretary recommends that the Springfield rifle, caliber 45, be issued to state troops; that the states be allowed to return to the war department obsolete arms and equipments to be sold and the proceeds credited to the states, and that the states be allowed to purchase from the department supplies at regulation prices.

Entire Family Burned to Death.

Perry, N. Y., Nov. 30.—Luther Greenman, aged 40; his wife, aged 37; and their children, Aimee, aged six; Lottie, aged three, and Arthur, a baby of 11 months, were burned to death at their home near here. The fire was undoubtedly the result of a defective stove pipe.

The President Buys a Home.

Princeton, N. J., Nov. 28.—President Cleveland has purchased the old Slidell property in this place, with a view to making it his permanent home. The actual purchase price is not known, but it is generally understood that the price paid is between $45,000 and $60,000.

A Texas Cyclone.

Waco, Tex., Nov. 28.—A cyclone near here devastated a strip one mile wide and eight miles in length. A number of farmhouses were demolished and one person was killed and several others injured.

Said He Was Innocent.

Seale, Ala., Nov. 30.—Jackson Young (colored) was hanged here for murdering his sister. He died protesting his innocence.

TECUMSEH, MICH., DEC. 1, 1896.

The failure of Mabley & Company, the large clothing establishment in Detroit, last week, was not unexpected by people who knew anything concerning the affairs of the establishment. Since the death of C. R. Mabley some fifteen years ago, the establishment has been nothing more or less than a gigantic fake. It has been a wonder to people who knew anything of the correct methods of advertising, how the Detroit papers would allow this firm to advertise in their columns lie after lie which were patent even to the most inexperienced eyes. Such a business, such dishonest competition, such advertising of goods at one-half price and then doubling the marks for the effect of the sales, would be ruinous to the commonest enterprise. It is to be hoped that this will be a lesson to Detroit, both to her merchants and newspapers.

The HERALD is pleased to introduce today to its subscribers, a little sister, who is expected to make them a visit the first four Tuesdays in the month of December. She brings notes of gossip and information concerning the people and about their doings in Tecumseh and vicinity and will contain many bright sayings of the merchants in calling attention to their wares for regular winter and holiday trade. It is to be hoped that none of the subscribers will become annoyed at the prospect of getting too much for their money, also that the "little sister" may not detract from the interest of the regular issue which will appear as usual on Fridays. The HERALD management is indebted to the merchants of Tecumseh for their cheerful co-operation in producing a semi-weekly during the month of December, and it is not a boast to say that in no other town in the county could so fine a line of advertisements be procured in so short a space of time. Verily it pays to advertise in the HERALD.

Since election it has been brought to light that down in Virginia they invented a new and novel way of doing up the republicans November 3rd. It seems that in that state there is a law that the names of the candidates for whom a person does not wish to vote must be erased with ink. Two bottles of ink were provided, one nicely doctored with fine mucillage, the other in its normal state. When a republican desired to vote the mucillaged ink was shoved forward to him. When the democrat came the good ink was put forth. Of course when the ballot was folded the mucillage stuck together and by the time the count was made it was so torn apart in opening that it was thrown out as mutilated. Something like 3,000 of these ballots perished in one county. Verily the mind of the Virginian is fertile.

The time of the "noon" train coming from the south on the Lake Shore has deen changed so that it reaches Tecumseh at 9:09 in the morning. This change has been made following the petition of Jackson merchants who are in hopes to catch the trade from the villages on the line of the branch, and no doubt more promptly considered by the Lake Shore officials since the C. J. & M. put on trains to Jackson. With the exception of making trips to Adrain to attend to probate and other court business, it is likely that this train will answer our purpose as well as if it came about noon as heretofore, but for many many years the train on the Lake Shore has arrived at Tecumseh sometime near the noon hour. Yesterday, the first day of the change, it was indeed comical to see men hasten to the postoffice shortly after one, and about one-half of the male population of the village didn't know enough to go to dinner, the other half being inclined not to know enough to come back. All should be thankful that the time of the night train has not been disturbed.

RIDGEWAY.

(Delayed Letter)

Over a hundred neighbors and friends made Rev. James Wright a surprise Tuesday night and spent a very pleasant evening. Rev. Cansfield, in behalf of the congregation of the church, presented Mr. Wright with a beautiful gold watch as a token of their esteem and appreciation of his willing service rendered in the past. After an hour of social conversation, refreshments were served and all departed for their homes, leaving their best wishes with Elder Wright and his family.

Superintendent J. B. Flanders, of the C. J. & M., was in the village Wednesday looking up the location of a saw mill on the railroad grounds. Such an [illegible]

'ROUND ABOUT US.

Clippings and Condensations From our County Contemporaries.

C. E. Williamson, the Tecumseh hustler, shipped eight car loads of poultry to the eastern market for the Thanksgiving trade.—Adrian Times. Yes, and many car loads go each week.

The work of changing the motor line of railway between Ann Arbor and Ypsilanti to an electric line is completed and the cars will be running regularly in a few days. Trial trips have been made in 22 minutes.

No bidders appearing today, the sale of the electric street railway was adjourned until [illegible] P. Priddy, attorney for divers creditors, states he will petition the court to suspend the operation of the road. If he finds that it is running at a loss.—Adrian Times.

The plant of the Hudson Republican has been purchased by Walter W. Stephens and G. F. Parish, of Fostoria, O., who will convert it into a free silver paper, to be called the Hudson Vibrator. W. W. Coad will be the local editor. The first issue will come out next Wednesday.—Adrian Times.

An unhatched nest of spurious coined dollars was recently brought to light from under the stoop of the Canandaigua hotel. Who stooped to this [illegible] not known, but the dollars [illegible] to 1, and there was no seignio[illegible] government, but their would [illegible] in the penitentiary for the "director of the mint," were he within the claw of the law.—Adrian Press.

Bill Manning, of Petersburg, last week clubbed 50 frogs into insensibility, and supposed he had killed them. He put them in a pail which he placed in his wagon. Returning later, he was jumped upon from every part of the wagon box, by the revived frogs, and obliged to fight for his life. He saved a few, and most of them escaped to the ditch.—Petersburg Sun.

F. E. Whitney paid an election bet Monday by giving Dud Macham a sulky ride up and down the public square. The sulky was decorated with a flag on which was McKinley's picture. Dud carried a large flag and heralded the event with a tin trumpet. The cold weather seemed to make the free-silver steed quite lively.—Brooklyn Exponent.

Some weeks ago the sum of $60 cash was stolen from David Brand, of Hudson, and in sadness the grieved David sought the thief and the recovery of his money, but without success. Returning to his home from Addison, a few days ago, a small bag lay on his doorstep, and in it the sum stolen and $3 in addition, which a note in the bag explained, was for interest. Brand's delight was such that he kicked his hat off his own head and would have hugged the thief, if he could have got at him.—Adrian Press.

M. D. Case is making an experiment of transplanting a full-grown maple tree on his premises. The tree stood so near another that neither was doing well, so he has taken it up by the roots with a large quantity of earth and has replanted it about 20 feet east of its original position. This is successfully done by experts in cities but in towns of this size it is seldom seen. We hope it will be a success for Mark takes pride in his shade trees and in keeping his premises in slick order.—Manchester Enterprise.

We doubt if the law compelling candidates to file a statement of expenditures, is a valid or constitutional enactment. We do not believe any legislature can pass a legal act that can inquire into one's private business. Possibly a candidate might be required to file a statement that he had not expended money contrary to law, but even this would antagonize the theory that a man is presumed to be innocent until proof of guilt establishes a contrary standing. These statements serve no good purpose, and it seems there is no limit to the amount a candidate can expend. We believe the law would not stand a legal fight.—Adrian Press.

One day last week a fellow obtained a horse and buggy at W. Drewyour's livery, with which to go to Oakville, saying that he would return the next day. Not returning, an investigation began. "Young Bill" Drewyour and "Reddy" Bert Thorp became detective sleuths and started out scouring the country in search of a clue which would lead to the whereabouts of the missing property and the capture of the culprit. Going to Deerfield they were rewarded by finding the property and the culprit at the hotel barn. The horse bore evidence of hard usage, and was under treatment from a local veterinary. The "young Pinkertons" took possession of the culprit, who gave his name as Vern. Henderhott, of Tecumseh, and brought him to Dunce and deposited him in the office of Justice Owen. Vern. could not give any excuse for his wrong doing was given a 60 days' sentence in county jail.—Dundee Reporter.

If a man has several thousand dollars invested in a plant that requires three or four thousand dollars a year to run, he will no matter how competent his superintendent may be, often visit the place in which his capital is invested. The school house represents an outlay of several thousand dollars, to which must be added an annual cost of four thousand dollars. Do the patrons of the school take the interest that the cost manda? The highest success asks for a closer interest, an intense co-operation. The school board, patrons, pupils and teachers are the factors in a school. The nearer any one of these approaches zero in its efforts towards the highest attainment, the less potent is the work of the others. Each one has a duty that ought not to be shirked. "United we stand, divided we fall," is true in school interests.—Manchester Enterprise. This is true of every school in Michigan and should be otherwise.

This city bids fair to have an acquisition to her already large bicycle colony. The Hudson, Mich., factory, which is quite young, but doing business on a $75,000 capital, will in all probability have been in the city on two or three different occasions, looking over the ground, and express themselves as being highly pleased with Toledo's prospects and the excellent shipping facilities offered here. They manufacture the celebrated "Hudson" bicycle, and employ a large force of men. While the arrangements have not been completed looking to the removal of the company's business to this point, the writer is reliably informed that the prospects for such a transfer are very favorable.—Toledo Blade. Thus the big fish always swallows the little one. It is a very difficult thing for smaller towns to secure factories and afterward to keep them. The trouble is not concerning shipping facilities but in smaller towns, competent mechanics are [illegible] and keep.

Harper's Bazar

In 1897

The BAZAR, a thoroughly up-to-date periodical for women, will enter upon its Thirtieth Volume in 1897.

As a Fashion Journal it is unsurpassed and is an indispensable requisite for every well-dressed woman. KATHERINE DE FOREST writes a weekly letter on current fashions from Paris. In NEW YORK FASHIONS, and in the fortnightly pattern-sheet supplement, ladies find full details, directions, and diagrams for gowns, wraps, and children's clothing. SANDOZ, BAUDE, and CHAPUIS draw and engrave the newest and finest Parisian designs every week.

The serials for 1897 will be: THE RED BRIDGE NEIGHBORHOOD, by MARIA LOUISE POOL; and FATHER QUINNALLON, by OCTAVE THANET. Short stories will be constantly presented by brilliant writers among whom are MARY E. WILKINS, HARRIET PRESCOTT SPOFFORD, MARION HARLAND, RUTH MCENERY STUART, VIOLA ROSEBORO, and MARGARET SUTTON BRISCOE.

WHAT WOMEN ARE DOING in various parts of the Union will form a series of special interest.

Other Interesting features are THE OUT-DOOR WOMAN, devoted to healthful sports and pastimes; MUSIC, a weekly critical summary of music in New York AMATEUR THEATRICALS, EMBROIDERY AND NEEDLEWORK, CEREMONY AND ETIQUETTE, GOOD HOUSEKEEPING, "WHAT GIRLS ARE DOING," "CURRENT SOCIAL EVENTS," and PERSONALS gleaned from original sources.

WOMEN AND MEN. Colonel T. W. HIGGINSON will regularly continue his valuable essays.

ANSWERS TO CORRESPONDENTS. This column is conducted for the benefit and convenience of readers, and all questions received are answered in rotation, promptly and fully as practicable.

ART. The BAZAR is a notable picture-gallery, reproducing the most beautiful works of American and foreign artists, as presented in the annual Paris and New York exhibitions. WIT AND HUMOR. Everybody turns for a hearty laugh to the BAZAR'S last page.

AN ALL-ROUND WOMAN'S PAPER.—What more appropriate gift can be made to wife, daughter or sister than a subscription to HARPER'S BAZAR? Secure it as a welcome visitor in your household for 1897.

Newspapers are not to copy this advertisement without the express order of Harper & Brothers.

Rev. N. M. Sutton spent Thanksgiving with her daughters, in Detroit, who married Wednesday New York City.

You will find it to your advantage to buy your underwear, gloves, mittens, hosiery, etc., etc., of Harris & Hite.

Miss Ollie Jones returned yesterday from Ottawa Lake where she had been visiting her people during the short vacation.

The great cloak sale of Harris & Shu will continue until every garment is sold. Remember "one-half off" is their motto, and they stick to it.

Tom H. Bramble left this morning for Arkansas where he expects to spend the winter. He goes in the interest of the Page Wire Fence company.

Albert Conklin, commonly known as "Bert" who came over from the university where he is in the medical department, spent Thanksgiving with his parents, returning to Ann Arbor Sunday.

The Ladies' Aid society of the Presbyterian church will hold its tea meeting in the church parlors Thursday, Dec. 3. Committee to meet at Mrs. S. Holme's Monday afternoon, Dec. 7.

Remember the railroad meeting Monday evening at 8 o'clock city time. The opera house has been secured so there may be room for every citizen. Everyone should be interested.

Mrs. Judith C. Johnson, who has been with her daughter, Mrs. David Lewis, several weeks and the past two Sundays filled the pulpit at the Friends' church, left this afternoon for Short Creek, O., where she resides.

The annual election of officers of Tecumseh 634 Royal Arcanum, will be held at their next regular meeting, December 14th. The constitution reads, that "all officers to vote or hold office must be in good standing." A large attendance is desired as there will also be two or three initiations.

I wonder the Deestrick Skule has created such immense houses wherever it goes. It is too funny for any thing. You miss it.

Mrs. Mary A. Carter, of Macon, widow of Jesse Carter has been granted a pension of twelve dollars per month. Her attorney, C. W. Haynes, of Ypsilanti, secured it for her in less than three months after her husband's death. Mr. Haynes gives all his time to the business and is very successful in securing pensions for widows and increase claims for soldiers. His address is 115 Bell street, Ypsilanti, Mich.

Miss Margaret Dawley, of Hillsdale county, who has been visiting her relatives in this vicinity for some time, including at her grandson's, Charles Dawley's, while spending Thanksgiving, had the misfortune to fall and break her hip. Dr. Catlin was called and she was made as comfortable as circumstances would permit. It certainly for her was most unfortunate.

At the Deestrick Skule Tuesday night there is something like as interesting as the Kickapoo Indian Medicine Co's, you will laugh and grow fat.

The new firm consisting of Wm. DeWitt, Robert A. and David Boyd have purchased the Tecumseh celery plant and intend to make it for all there is in it, they to take possession January 1st. Each member of the firm is experienced in the growing and market gardening business which will be carried on extensively and we are confident that they will make this plant a grand success.

Guy Brothers' Minstrels the 21st.

F. J. Temple made a trip to Adrian yesterday.

Roy DeWolf spent a few days at home the past week.

Now is the time. Two beautiful photos 25 cents at Miss Daly's.

Fred Osborn returned to his school duties at Ann Arbor yesterday.

George Tiffany, Sr. has been quite ill but is now reported much better.

Miss Adah Cullen, of Saline, spent Thanksgiving with her people here.

Railroad meeting at the opera house Thursday evening. Everybody attend.

Mrs. Harry Richter returned home from her visit with Ohio friends Saturday.

Miss Ross, of Addison, is making her cousin, Miss Etta Thorpe, a pleasant visit.

M. L. Hoagland and Arthur Curtiss, of Britton, were calling on friends Friday.

Old Bill Jibb, senator-elect of Maybee, Monroe county, was in town yesterday.

Charles Moody is visiting his mother, Mrs. Betty Moody. He came Wednesday last.

Ezra Burlingame has purchased a fine young Jersey cow of W. D. VanTuyle, of Clinton.

Valorous Woodward left Saturday for Detroit where he will remain for a time with his son Put.

The young girls in Deestrick Skule are too sweet to live. You will say so when you see them.

Mrs. Egbert Anderson lies in a very critical condition and her death may occur at any moment.

Little Florence Keyser is assisting her Aunt Mary in taking care of "Uncle 'Ratio," as she terms it.

Prof. L. M. Kellogg attended a session of the schoolmasters' club, at Ann Arbor, the last of the week.

Guy Brothers' Minstrels are one of the best companies on the road. At Sutton's opera house Dec. 21st.

Dr. and Mrs. George Howell and Mrs. Remington spent Thanksgiving at Peter J. Knight's, in Bridgewater.

Arnold Graves, of Cambridge, and sister, Mrs Gilmore, who formerly lived here, were calling on friends Monday.

James Morrison, while near Britton Sunday, in some way fell off a wagon injuring his left knee quite seriously.

George Quine, of Auburndale, O., was the guest of Mr. and Mrs. C. F. Patterson, of the Lilley House, over Sunday.

Will Haslett, late of Oscoda, arrived here Saturday and has taken a position with his brother John, the merchant tailor.

Mrs. Huntington, of Clinton, accompanied by her sister and husband who are visiting her from Vermont, were in town yesterday.

Yes, we must get that picture framed for Christmas and Teeple has so many styles of moulding and so cheap too, that is the place to get it.

No wonder every one is so interested in the Deestrick Skule which comes off next Tuesday evening at Sutton's opera house. It will be very funny.

For sale, two good coal stoves cheap. One nearly new and one suitable for heating a large store or shop building. Inquire at once at the HERALD office.

George Chandler, of Saline, and Misses Eva Shimman and Abbie Chandler, of Clinton, were the guests of C. F. Field and family Thanksgiving day.

Two photos 25 cents. Miss DALY.

Robe Hosmer, under Dr. Tefft's skillful treatment, is making a speedy recovery and, to the surprise of every one, was out on the street for the first Sunday.

Mrs. Alonzo Henry and children, who have been spending a few days with her people, Joseph Tilden and family, returned to their home in Toledo yesterday.

Miss Ione Lampson, of Adrian, is now connected with the Eastern Bankrupt Purchasing Association. She is taking her meals at the Central House and rooms at the Patterson.

Sure, you are going to get your photos at Teeple's for Christmas.

Ben C. Ellis has made a change in his business relations and January 1st, 1897 joins the ranks of commercial travelers. He will go on the road for the popular wholesale firm of L. S. Baumgardner & Co., of Toledo, Ohio. He entered the house yesterday morning and will, during the month of December, thoroughly acquaint himself with the store and stock thereby equipping himself for his new position. Ben's friends rejoice at his advancement and feel confident he will prove a valuable man for the firm.

The Tecumseh Electric Light Company served notice on Company C and the Knights of Pythias lodge that on December 1st no more electricity would be furnished for their use, stating as a reason for this cutting off of the current that more money could be earned for the company by renting to consumers who would use the current a greater number of days in the week. After taking legal advice Company C concluded that the Tecumseh Electric Light Company, being a corporation enjoying the privilege of franchise in this village, was, in a sense, a "common carrier," otherwise under obligation to furnish electricity to any and all persons in the village of Tecumseh who desire to pay the legal rate stated in the ordinance giving the company the franchise. Company C accordingly petitioned Judge Lane for a temporary injunction restraining the Tecumseh Electric Company from cutting the electric wires and from refusing to furnish electricity. The injunction was granted and the hearing set for December 7. The decision is awaited with anxiety by many people using the electric current in our village.

J. Lon O'Mealy, of Adrian, is smiling on Tecumseh friends today.

Mrs. C. A. Wright entertained her friend Miss Ella Irish, of Adrian, Friday and Saturday last.

Everything in the line of Furniture at one-quarter less than you can buy the same goods at any place in Michigan. WHEELER & SISSON.

The Eastern Bankrupt Purchasing Association are busy perfecting a cut down price list to be printed in Friday's TECUMSEH HERALD. Watch for it.

Vern Heesen and Loviza Schreder were Adrian visitors recently and we are informed they called at the county clerk's office.

The law suit between Zimmerman and Spaulding Saturday, held before 'Squire Frasier, resulted in the verdict "no cause for action."

Our Stock of Holiday Goods are about all in and we can give you the best stock in the County to select from and prices the lowest. WHEELER & SISSON.

After drill at the armory tonight, the young gentlemen will hold a meeting to arrange for the Christmas party. A full attendance is desired.

Charles Burridge, Sr. has been quite ill for several weeks past being unable to get to his office but few times. It is now hoped that he is getting better and will soon be able to attend to his business as es once more.

Clyde Heck and John Gaston made Toledo friends supremely happy by their presence Thanksgiving day. The boys, by the way the food vanished, demonstrated conclusively that there was nothing ethereal about them.

Owing to the absence of Mr. Henry Conklin Sunday, the choir at the Presbyterian church was led by Stoughton Strong and consisted of the following: Mesdames L. I. Bidwell, J. J. Orr, L. M. Kellogg, Mr. Strong and Will Elliott.

Ransom Bates, an old veteran, who has made his home with Geo. W. Bly for a long time, died yesterday morning of heart failure. The time of the funeral has not been announced as they are waiting to hear from a brother living in Nebraska whom they notified.

Christmas will soon be here and you will want to give some kind of a present. There is nothing more acceptable than a pretty chair. We have them from $1.00 up. WHEELER & SISSON.

Prof. E. A. A. Grange State Veterinary, of Lansing, and J. J. Woodman, of Paw Paw, member of the state live stock sanitary committee, came here yesterday afternoon to examine a case of supposed glanders in a horse owned by George Martin, who resides in Brownville. They found it a clear case, ordered it killed, and left on the night train.

The ladies of St. John's Episcopal church, Clinton, will hold their annual fair at the town hall Thursday afternoon, December 10th. They will have for sale a fine assortment of both fancy and domestic articles suitable for holiday presents. A fine supper will also be served. These fairs have come to be a necessity, and the people not only expect but demand them.

Judge Whelan, who returned to Detroit Friday after passing a couple of days with his father, was summoned again by a change for the worse in his father's condition and reached here Sunday afternoon. Mrs. Whelan arrived last night. Mr. Whelan, though very low and hourly expected to drop away, lingered until 6:30 this morning when he was released from his suffering. The funeral will be held at his late residence Thursday afternoon at 2 o'clock. A suitable ogituary will be given later.

Just received, a car load of Bedroom Suits, bought at a bargain and we will give every one a bargain that wants a suit.

It was a delightful house party dinner given by Mrs. O. P. Bills at five p. m, on Thursday last. There were present Mr. Passmore, Arthur Howell, Roy DeWolf and Miss Helen Church, of Detroit; Colonel Church and Clarence, of Alma; Mrs. Graves, Mr. and Mrs. C. F. Patterson and the Misses Mae and Winifred DeWolf. As an entertainer, Mrs. Bills is most charming and her executions on the piano most exquisite and finished.

It was a very happy company that surrounded the well spread board at the home of Mr. and Mrs. David Jones last Thursday afternoon. There were present George Smith and family, Britton, Mrs. Fred Teachout and children, Blissfield, J. M. Jones and family, Ellsworth Cairns and wife, Lulu and Lule. It only lacked the presence of Fred Teachout and their daughter, Belle Probart, and family, of Ionia county, to make the family complete, but they were unavoidably detained.

THE LEAP YEAR PARTY.

One of the Prettiest and Most Enjoyable Parties ever Given in Tecumseh.

"But though I had loved you well I [woo'd you not
And yet, good faith, I wished myself [a man
Or that we women had men's privelege [of speaking first."

But on this happy occasion the ladies had men's privelege of speaking first and they improved it, first, last and all the time.

It was Friday evening last that Tecumseh ladies escorted their partners to the armory to the second leap year party of the season. As if to daunt them in their undertaking, the king of storm set up his meanest temper and threw down hail and sleet and rain, but the old chap was evidently unacquainted with the dispositions of Tecumseh's daughters for at nine o'clock sharp 40 girls with 41 beaux started the merry dance.

The armory was a surprise to every one. Lace curtains hid the bare inside blinds, tasteful Japanese fans, banners and parasols festooned the ceilings, while the old square corners were transformed into bowers of comfort, with easy chairs, sofas, screens and draperies. The green and fragrance of potted plants made one think of southern climes, and all this crowned with the delightful attentions of the ladies secured an evening of enjoyment for the men which will long be remembered as a pinnacle for comparison.

The arrangements from first to last were perfect, music good, floor nicely managed, lunch fine and beautifully served, the novelty of each lady serving her partner being an especially pleasing feature, all this supplemented by the grace of the ladies in charming costume produced Tecumseh's most enjoyable party.

Every male attendant was so thoroughly pleased that he fully resolved to assist to give the ladies the grandest return party men would be able to produce.

The home participants were aided in making merry by the following guests: Miss Helen Church, of Detroit; Miss Louie Hatch, of Detroit; Miss Gertrude Haynes, of Dundee; Miss Edna Stafford, of Blissfield; Mr. and Mrs. Hodges, of Jackson; Arthur Howell, Ed Passmore, and Roy DeWolf, of Detroit; Mr. Flag, Mr. Pratt and George Quine, of Toledo.

THE LIMA NORTHERN.

Will It Come To Tecumseh?

This is the question that is agitating the minds of many of the solid business men and manufacturers of Adrian and Tecumseh at the present time. Last Saturday evening an enthusiastic meeting was held at the council building. Mayor Hunt, Seth Bean, H. C. Smith, H. V. C. Hart, Mr. Page and others came over from Adrian and explained that the Lima Northern drsired to build north from Sand Creek, where the line now strikes the Wabash, through Adrian and Tecumseh instead of through Hudson and Morenci as first contemplated and would do so if proper inducement were offered by the two cities.

The meeting Saturday night was presided over by Lucius Lilley and remarks were made by many Tecumseh business men. It seemed to be the desire of all that efforts be put forth to secure the road if possible. A committee of three, P. S. McKinnon, C. A. Slayton and J. F. Hicks, were appointed to appoint a committee of ten to see what subscriptions could be secured. Meeting then adjourned till Thursday evening at 8 o'clock at the opera house.

The committee of ten was appointed and notified Monday morning and consists of the best business element of Tecumseh, viz: Lucius Lilley, A. W. Mills, C. E. Williamson, Ben Garlinghouse, A. L. Brewer, C. A. Wright, Henry Smith, R. A. Heesen, A. W. Slayton, John S. Temple.

Adrian is certainly in earnest in this matter and if it proves that the road will be a benefit to Tecumseh our men will raise the required bonus and secure it.

The committee of ten met at the Lilley State Bank this morning at 8 o'clock, organized and decided that each member should constitute a committee of one to find out what is the feeling amongst the citizens and report at a meeting to be held at the opera house Thursday evening at 8 o'clock city time.

Everybody is invited to be present at the Thursday evening meeting. Attorney J. B. Townsend, of Lima, Ohio, representative of the road, will be present and explain fully the situation. Let there be a rousing meeting that every citizen of Tecumseh may know what are the advantages of securing this road.

Beautiful Sea Shells.

Every one admires them. Since coming south I have received numerous inquiries from northern people for sea shells, and now I am prepared to answer yes, I can send you shells, for I have made quite a collection of lovely shells, both from our own coast, the coral reefs and some lovely ones from the West India islands. I will mail a dozen or more different kinds, no two alike, to any one who sends a stamp for postage.

Yours, MRS. F. A. WARNER,
Jacksonville, Fla.

—Notice to Cabinet Purchasers.—

—We take this opportunity to notify our patrons that we have received one car load of our cabinets and will be around delivering them soon. On account of the election our canvass was considerably delayed and our delivery will be made in the month of December instead of November and we trust all will be prepared to receive their Cabinet when it is brought to them. Our orders read "Deliver to me in the month of November, OR AS SOON THEREAFTER AS CONVENIENT," thereby making the order just as binding for December delivery as for November. The company at Kansas City, Mo., keeps an exact list of all orders taken, and each salesman is held personally accountable for the delivery of every order taken by him and we have ordered a cabinet for every person who has given us an order, and we ask that all customers be prepared when the agents call so as to save us the trouble and expense of an extra trip for settlement. We want every cabinet we deliver to be a standing advertisement for us. Consequently if there should be any defect in any of them we request that it be at once reported to some of our salesmen or to our office in Tecumseh, and it will be made satisfactory, as it is our intention not to put a single defective cabinet into use. Thanking our many customers for their liberal patronage thus far and asking for a continuance of same. We are very truly,

THE STANDARD CABINET CO.

—Come quick if you want some shingles at cost, most all gone. Some lumber for sale very cheap. Two good houses to rent cheap. A. W. SLAYTON.

INTERESTING PARAGRAPHS.

Bits of Information from Many Localities in Michigan.

Ontonagon is being rebuilt slowly. There will be no schools this winter.

Frank Breney, a farmer of Saginaw county, dropped dead of heart disease in Saginaw City.

Hazen S. Morse, for 50 years a resident of St. Clair, died Wednesday evening, aged 85 years.

Arrangements have been completed for running electric cars between Ann Arbor and Ypsilanti.

Henry Wooley, an old and respected resident of Bay City, fell dead of heart trouble, aged 64 years.

The annual meeting of the Michigan Association of Farmers' clubs will be held at Lansing December 8 and 9.

The Bailey store building at Ionia, owned by D. F. Wright, of Detroit, was burned down. Mr. Bailey lost $1,500 in stock.

Mary J. Service, of Jackson county, hanged herself at the Kalamazoo asylum, with a stocking over a bedpost.

The West Bay City Shoe company has failed, filing mortgages to secure $4,000. The manager promises to pay in full.

The Standard Oil company have erected two large oil tanks in Lapeer as a center for distributing oil throughout that section.

Suit for $20,000 has been commenced at Muskegon in the name of Louis Rabidon, aged 41, for injuries received from a C. & W. M. freight train.

Word comes from Millington that a six-foot vein of fine coal was struck while boring for a well at that place. It was reached at a depth of 147 feet.

The Jackson Farmers' Mutual Insurance company during the past year settled 73 losses, half of which were caused by lightning, for the sum of $13,648.

The sawmills at Cheboygan have shut down for the winter. The cut for the season was 88,000,000 feet of lumber, 23,000,000 lath and 20,600,000 shingles.

Thomas Foster, founder of the village of Fostoria, died recently of heart failure, aged 70 years. He was engaged extensively in farming and raising blooded stock.

W. H. Newton, of Pontiac, was awarded first and second prizes for fat sheep at the cattle show in New York city. He exhibited Oxford and Hampshire yearling wethers.

Gov. Rich has appointed George S. Pratt, a resident of Michigan, who is now sojourning in Arizona, as a delegate to the national irrigation congress soon to be held in Phoenix.

John and Marian Bean, of Muskegon, who lived together for 38 years, were divorced by Judge Russell the other day. They had $10,000 worth of property, of which Mrs. Bean gets a third.

Many farmers in the vicinity of Flushing have been unable to sow as much wheat as they intended to on account of the wet weather. It is said that many will experiment with spring wheat.

The city council of Albion has passed an ordinance prohibiting all persons under 18 years of age taking part in any game of pool or billiards or staying in any room where such games are played.

The Michigan College of Mines will be the name of the mining school at Houghton, if the decision of the board of control is approved by the legislature. The school is now the largest of its class in the country and ranks second only to the Imperial Mining School of Heidelberg, Germany.

A BIG SLUICEWAY.

Wonderful Feat of Engineering Planned in the Iron Country.

Menominee, Nov. 28.—A feat of engineering unrivaled in the history of the upper peninsula, is soon to be undertaken at the Hemlock mine in Iron county. There are shafts on each side of the Hemlock river, which have been worked toward each other until a tunnel has been formed under the river bed. Miners recently discovered water dripping down and refused to work, fearing a repetition of the Mansfield disaster. The stockholders have decided to dam the Hemlock river, some distance above the mine. A giant sluiceway of matchwood, resting on two arches will be built. The sluiceway will be 1,500 feet long, cost $10,000 and will be constructed this winter. In this way the river bed will be diverted, and mining carried on.

Mines Consolidated.

Houghton, Nov. 28.—It is practically assured that the deal consolidating the four idle copper mines in this city, the Portage, Huron, Isle Royal and Sheldon & Columbian, and securing the investment of nearly a million dollars of eastern and European capital, will be concluded this week. The mines, if worked, will employ 700 to 1,000 men. The mines are capitalized at 50,000 shares each, par value $25 a share. The Huron closed down in 1891. The Isle Royal has been idle 25 years, the Portage 13 years.

Storm at Owosso.

Owosso, Nov. 27.—Heavy wind passed over this section Thursday night, doing considerable damage to outbuildings, fences and forests. Heavy rains also fell during the night. A report from the northern part of the county states that several buildings were wrecked and Thomas Lewis, a farmer, was killed by falling timber.

Death of a Pioneer Physician.

Kalamazoo, Nov. 25.—Dr. Uriah Upjohn died here aged 88. He had been a practicing physician here for about 60 years, being the pioneer physician in Kalamazoo county. In early days he covered the territory 40 miles around on horseback.

Detroit, Nov. 26.—Rosa Kamphista, a Polish girl, was killed by a Michigan Central train at the Scotten avenue crossing, Tuesday evening. Mrs. Stella Debalski, who was with the unfortunate girl, had one of her feet crushed to a pulp.

MICHIGAN'S VOTE.

Figures Shown by the Official Canvass of the State.

Lansing, Nov. 26.—The board of state canvassers has completed the work of canvassing Michigan's vote on presidential electors, state officers and congressmen. Sligh, fusion candidate for governor, lost 4,116 votes through his name having been misspelled on the ballots in some counties. The result on president is: McKinley, 293,327; Bryan, 237,251; Levering, 4,968; Palmer, 6,930; Bentley, 1,809; McKinley's plurality, 55,076.

In 1892 Harrison received 222,708; Cleveland, 204,296. Results on governor: Pingree, 304,431; Sligh, 221,022; Sprague, 9,738; Safford (pro.), 5,499; Gibberson (nat. pro.), 1,945; scattering, 5,168; Pingree's plurality, 83,409. In 1892 Rich (rep.), received Morse (dem.), 206,138; Ewing (pop.), 21,417; Russell (pro.), 20,777.

The pluralities of the other victorious candidates are: Secretary of State Gardner, 59,274; State Treasurer Steel, 56,445; Auditor-General Dix, 56,308; Land Commissioner French, 61,470; Attorney-General Maynard, 57,425; Superintendent of Public Instruction Hammond, 61,382; Member of State Board of Education Simmons, 62,394.

SAGINAW BANK TROUBLES.

Figures of the First National's Recent Failure.

Saginaw, Nov. 30.—A mortgage covering all the real estate of the Standish Manufacturing companies, C. L. Judd principal owner, has been filed at Standish, Arenac county. Mr. Judd is cashier of the First national bank, of East Saginaw, which closed its doors a week ago, and was also owner of the Arenac county bank, which suspended after the failure of the East Saginaw bank. The mortgage filed gives a first lien of $25,000 to the First national bank of East Saginaw, a second of $23,000 to the depositors of the Arenac county bank and a third of $95,000 to the First national bank of East Saginaw. A stockholders' committee has completed an investigation of the affairs of the First national bank. The committee found assets of the bank at the time of suspension $615,000, and liabilities to depositors and for borrowed money $385,000. Bad paper carried was between $230,000 and $250,000. Depositors will undoubtedly be paid in full, but the stock and surplus will be wiped out. A receiver will probably be appointed.

TO SETTLE MABLEY AFFAIRS.

Offer of 25 Per Cent. Will Be Made on Third Mortgage Claims.

Detroit, Nov. 30.—The inventory of the stock of Mabley & Co., clothiers, has been completed. It figures up $219,300; liabilities, $362,900. Many creditors are preparing to contest the legality of the three mortgages filed by the Mabley company, through which certain creditors are to secure preferences in the final settlement. An offer of 25 per cent. in settlement of their claims will be made to the holders of third-mortgage claims by James T. Carew, of the firm of Mabley & Carew, of Cincinnati. It is stated that if the above offer is accepted W. S. Peck, of Rochester, N. Y., will secure the stock now held by the receiver, and that Bruce Goodfellow, manager of the Mabley establishment, will be enabled to purchase the business under a contract.

A HERO.

Miner Rescues His Partner at the Risk of His Own Life.

Iron Mountain, Nov. 26.—Charles Vantercrant performed a deed of heroism at the Pewabic mine. He and his partner, Hiller by name, had prepared a hole for blasting. The fuse had been lighted and the men were hastening away from danger when a fall of ore occurred. Hiller was pinioned to the ground within a few feet of the burning fuse. Vantercrant saw the great danger of his partner and, without a moment's hesitation, rushed back, snatched the burning fuse from the dynamite cartridge and threw it from him. He was just in time, for the cap exploded in the air. When Hiller was extricated it was found both his legs were broken and he was otherwise injured.

Begin Suit for Foreclosure of Mortgage.

Grand Rapids, Mich., Nov. 30.—The Central Trust company, of New York, Saturday morning began suit in the United States circuit court against the Indiana & Lake Michigan railroad and Terre Haute & Indiana railroad for foreclosure of mortgage bonds issued in 1889 amounting to $480,000. The Lake Michigan railroad operates from South Bend, Ind., to St. Joseph, Mich. Control of it was assumed in June, 1889, by the Terre Haute & Indiana railroad. The suit is a part of the Vandalia company's litigation in which the entire system is now involved.

Silver Men Will Organize.

Lansing, Nov. 28.—The Michigan silver forces propose to organize in every township and ward in the state a club to cooperate with the National Bimetallic union. This was decided at a conference of leaders here Friday. It was also arranged to have a mass meeting of friends of silver here January 8 for the purpose of extending the organization and arranging for the April elections, when complete tickets will be placed in the field.

Bought a Fast Horse.

Sturgis, Nov. 26.—S. L. Caton, of Lansing, has bought of William H. Douglas, of this city, the great four-year-old trotting horse, Victor Wilkes, 2:15¼, by Domineer, by Red Wilkes; consideration, $3,500. He will probably be campaigned in this country and trained here. He will begin road work at once.

Battle Creek, Nov. 25.—Charles Vail, a well-known business man and pioneer of Battle Creek, died Tuesday morning aged 77 years. He settled first in Detroit when the City of the Straits had only 8,000 inhabitants and was foreman of the first fire company organized in Battle Creek.

PLENTY OF WORK.

Much Legislation Awaits the Action of the United States Senate.

Washington, Nov. 27.—When the senate meets a week from next Monday it will find a calendar loaded with bills that require careful attention, many of which were debated during the last session, and which are now awaiting final action. The interregnum of nine months so far as the legislative condition of bills is concerned amounts to no more than adjournment over night.

According to the order made on May 8 last the bill for the erection of a bridge across the Detroit river at Detroit, which was hotly contested before the committee on commerce and which has been as warmly discussed on the floor, is made the special order for the first Monday in December, the opening day of the session.

Unfinished business in house bill H. R. 7,864, an act to amend the immigration laws, as reported to the senate by Mr. Lodge with some material amendments.

The joint resolution proposing an amendment to the constitution providing for the election of senators by popular vote is the special order for Monday, December 14, at two o'clock.

Other special orders are senate bill to prevent the desecration of the national flag; house bill to prevent the extermination of the fur-bearing seals of Alaska, and house bill to reduce cases in which the penalty of death may be inflicted.

Apropos of our relations with Spain, it may be stated that the comprehensive fortifications bill of Senator Squire appropriating $100,000,000 for defenses is still on the calendar; also Mr. Hale's bill authorizing the secretary of the navy to enlist additional men, which was amended and passed, and since May 20 has been pending on a motion to reconsider a bill for the establishment of a lighthouse on Swan island, in the Caribbean sea, belonging to the United States, and the bill to construct a dry dock at Key West.

The stringent concurrent resolution of Senator Davis relative to the enforcement and assertion of the Monroe doctrine, which was called out by the attitude of Great Britain towards Venezuela still remains upon the calendar and can be called up at any time for consideration.

Washington, Nov. 30.—It is improbable that the house at the coming session of congress, which begins a week from to-day, will dispose of much of the proposed legislation which encumbers its calendars. Little is usually accomplished at the short session beyond the passage of the regular supply bills.

There are on the several calendars of the house 1,465 bills reported from the various committees, and the proportion which will pass at the coming session must be necessarily small.

TOOK HIS OWN LIFE.

Coroner's Jury Decides That Rev. Miller Committed Suicide.

Decatur, Ill., Nov. 26.—Rev. James Miller, pastor of Grace Methodist church at Bloomington, and grand prelate of the Illinois commandery Knights Templars, found dead in the alley near the Catto residence Tuesday morning, was not murdered. The formal verdict of the coroner's jury was to the effect that Mr. Miller came to his death by a pistol that was fired by his own hands with suicidal intent on November 23, about the hour of 11 p. m. The coroner's jury consisted of Dr. R. L. Walston, Case C. Chenoweth, H. D. Heil, Albert M. Drew, Herbert C. Jones and William W. Connard, the first five well-known physicians.

Cattle Perishing.

Yankton, S. D., Nov. 28.—Two hundred thousand head of cattle are perishing from cold and hunger on the ranges west of the Missouri river in this state. Two weeks ago a heavy fall of snow, preceded by 24 hours of rain, covered the ground to a depth of 12 to 16 inches. Cattle were unable to get food, and have since drifted into the ravines and settlements for shelter, hundreds of them having succumbed to starvation.

The Vote in Nebraska.

Lincoln, Neb., Nov. 28.—The official count for Nebraska was completed Friday night by the state canvassing board. The vote on presidential electors follows: Bryan, 115,625; McKinley, 102,565; Palmer, 2,814; Levering, 1,193; Bentley, 769; Matchett, 176. The entire fusion (populist-democrat) state ticket is elected, Gov. Holcomb leading the party vote.

Presidential Vote in Iowa.

Des Moines, Ia., Nov. 30.—The official count of Iowa's presidential vote shows: McKinley, republican, 289,293; Bryan, democrat, 223,741; Palmer, national democrat, 4,519; Levering, prohibition, 3,192; Bentley, national, 353; Matchett, social labor, 453. McKinley's majority, 57,136; McKinley's plurality, 65,552.

Left a Fortune.

Springfield, O., Nov. 30.—Chief of Police Van Tassel has received a letter that James Wesley Dorsey, a negro, has fallen heir to $150,000 left him by Peter Shaffer, a planter of Frederick county, Md., who died a few weeks ago. Dorsey lived here until recently, but his whereabouts are unknown at present.

Shows a Deficit.

Burlington, Ia., Nov. 27.—The final statement of the Iowa centennial celebration committee was made public Thursday and shows a deficit of $2,500, on a total outlay of over $35,000. The bondsmen made the deficit good at once and final settlements were made.

To Prison for Sixty Years.

Butte, Mont., Nov. 30.—The heaviest sentence imposed in the state, short of life, was given Saturday to William Day, convicted of murder in the second degree. Judge Speer sentenced him to 60 years in the penitentiary. Day is now 40 years old.

Carlyle, Ill., Nov. 28.—Henry Budde, a well-known citizen, died Friday. Corpulency caused his death. His weight was nearly 400 pounds. He was 65 years of age and a native of Prussia.

TO BE DISCUSSED.

Financial Question Will Receive Attention of Commercial Bodies.

Conference at Indianapolis Decides to Call a Convention for January—Basis of Representation.

Indianapolis, Ind., Dec. 2.—At the conference Tuesday called by the local board of trade to consider the advisability of calling a monetary convention, a resolution was introduced to the effect that a call be issued inviting representatives from each commercial body of cities of the United States of over 6,000 inhabitants to attend a national convention to be held in Indianapolis in 1897, to discuss the financial question; to offer remedies to congress or to advise the appointment of a commission to prepare remedies. The resolution was referred to a subcommittee which was appointed by the conference to consider and report upon it.

Ex-Attorney-General Miller and John R. Wilson, both of Indianapolis, addressed the conference at some length.

The special committee reported a resolution declaring it the sense of the conference that a general convention of commercial bodies be called at Indianapolis on January 5 for the purpose of suggesting such legislation as may be necessary to place the currency system of the country upon a sound and permanent basis. The details of representation were left to an executive committee named by the chair, and later the following basis of representation was adopted:

One delegate for cities of from 8,000 to 10,000; two delegates for cities of from 10,000 to 15,000; three delegates for cities of from 15,000 to 25,000; four delegates for cities of from 25,000 to 50,000; five delegates for cities of from 50,000 to 100,000; six delegates for cities of from 100,000 to 200,000; seven delegates for cities of from 200,000 to 400,000; eight delegates for cities of from 400,000 to 1,000,000; 20 delegates for cities of 1,000,000 or over.

It was found that the hall could not be secured on January 5, and the date was left to a local subcommittee. It probably will be fixed at January 12.

Election at Birmingham, Ala.

Birmingham, Ala., Dec. 2.—The city election here Tuesday resulted in the election of Frank V. Evans, democratic nominee for mayor, and the full democratic ticket of aldermen, in opposition to the reform ticket, headed by C. F. Enslen, a banker, and A. C. Lowry, an independent. Two years ago the reformers won, but this time the negroes divided, the most influential among them voting the regular democratic ticket. The mayor-elect was for ten years the treasurer of the city, and has been prominent in journalism, both in Georgia and Alabama, and at the time was editor of the Age-Herald, the predecessor of the State Herald.

Funeral of William Steinway.

New York, Dec. 2.—Private funeral services were held Wednesday morning over the remains of William Steinway at his late residence, Gramercy Park. Only the members of the family and relatives were present. Rev. Dr. Charles Henry Eaton, pastor of the Church of the Divine Paternity, read the simple Presbyterian funeral service. At the conclusion of the service the body was removed to the hall of the Liderkranz society, where public services were held. Persons prominent in almost every walk of life attended the public services. The body was interred in Greenwood cemetery.

Issues a Challenge to the World.

Saratoga, N. Y., Dec. 2.—Charles Hatfield, of Newark, N. J., who is here in training for the short distance professional races, to be held in Madison Square garden during the week beginning December 7, Wednesday issued a challenge open to the world to ride any man a mile, unpaced, for any sum, to start from opposite sides of the track, the race to be ridden in Madison Square garden during the week of the international races.

Relief of Britishers in Cuba.

London, Dec. 2. — The Manchester Guardian Tuesday said that Lord Salisbury, prime minister and secretary of state for foreign affairs, will make very strong representations to the Spanish government with reference to the detention in Cuba by the authorities there of Richard and John Beatty, residents of British Columbia, who were recently arrested in Havana for being in some way connected with the Cuban revolution.

Fighting Near Havana.

Havana, Dec. 2.—A party of rebels made an attack Tuesday evening upon the town of Guanabacoa in the province of Havana, near this city. The fire of the attacking party was returned by the garrison, and the rebels were repulsed. Before retiring the rebels set fire to a house, which was destroyed. The rebels left one man dead on the field and the garrison also had one man killed.

To Relieve Orphans in Turkey.

Constantinople, Dec. 2.— A meeting of the central committee was held Tuesday at the residence of Sir Philip Currie, the British ambassador, for the purpose of considering methods for the relief of the orphans in Turkey, of whom there are now known to be 40,000. The meeting was presided over by Chairman Whittall.

RIOT AT TRENTON, N. J.

During Free Fight Between Two Bodies of Laborers Two Men Are Shot.

Trenton, N. J., Dec. 2.—A free fight occurred at the new reservoir works Wednesday between a body of Italians and several hundred men of other nationalities, whose hatred the Italians had incurred by trying to obtain work. William Lenox was shot in the right arm and an unknown man in the side and arm by one of the Italians named Beline Salvator. Besides the two men who were shot, a number of others received injuries more or less serious by being struck by flying missiles. Salvator was arrested.

Sheriff Ashmore, upon his arrival, read the riot act to the mob and the disorder came to an end. The wounded men, it is thought, are not fatally injured. The arrested Italian was cut in the head. The prisoner claims that he was goaded into shooting, but had no intention of killing anyone.

SHOT DOWN BY FOOTPADS.

Bravery of a Prominent Druggist of Greencastle, Ind., Costs Him His Life.

Greencastle, Ind., Dec. 2.—William E. Counts, one of the most prominent men of this county, was murdered Tuesday night at Reelsville, where he is in the drug business. Mr. Counts had closed his store and was on his way home when he was waylaid by two footpads. He resisted their order to throw up his hands and was immediately shot in the head by one of the footpads. They both then made good their escape. Counts lingered for a few hours, but did not regain consciousness. He leaves a widow and one child. The police from this city and a mob of neighboring farmers are scouring the country for miles around for the murderers.

Kills His Murderous Assailant.

Thomasville, Ga., Dec. 2.—Jeff Carlisle, a white man of about 35 years of age, who lives in the upper part of Thomas county, Tuesday attacked Tobe Bryant, his neighbor, a youth of 20, with a knife, and, in the desperate fight that followed, was shot and killed by Bryant. The latter immediately surrendered to the sheriff, and is now in jail awaiting an investigation of the affair. Carlisle leaves a wife and family. Both men were prominent in the county. Bryant was severely cut. It is said that Carlisle had persistently persecuted his slayer for some unknown reason.

Charged with Aiding Prisoner to Escape.

Toledo, O., Dec. 2.—After a hearing lasting nearly two weeks, John Mulchler and Henry Newbury, the deputy sheriffs charged with aiding the escape from the county jail of John Harrington, alias Davis, alias Crawford, an accused murderer, were Wednesday bound over to await the action of the grand jury. Harrington, the escaped prisoner, was said to have been a member of the North Market street gang in Chicago. His accomplices, Bob Curry and T. C. Jones, alias Doc Lee, are now on trial at Bowling Green, for Marshal Baker's murder.

Government Must Refund $500,000.

Cairo, Dec. 2. — The court of appeal at Alexandria has given a decision on the appeal taken from the judgment of the Egyptian mixed tribunal, rendered at Cairo in June last, against the government and the four commissioners of the Caise, who favored advancing funds from the Egyptian reserve for the purpose of the Soudan expedition. This decision supports that of the mixed tribunal, and declares that the government must refund the £500,000 taken from the reserve and must also pay the costs of the appeal.

Ordered Sold.

Louisville, Ky., Dec. 2.—United States Judge Barr Wednesday morning ordered the sale of the property of the Kentucky & Indiana Bridge company for the benefit of the holders of $3,000,000 worth of bonds. The property consists of a bridge across the Ohio terminals, the New Albany belt road and the New Albany street car system. The Baltimore & Ohio Southwestern and the Monon will probably be the purchasers.

Ore Shipping Season to Close.

Negaunee, Mich., Dec. 2.—Owing to unexpectedly severe weather the ore shipping season will close earlier than anticipated. Great difficulty is found in unloading ore from cars to docks and from dock to vessels as it freezes solidly. Final shipments from the mines are now being made, much of which will remain on the docks till spring.

Will Be an Important Report.

Washington, Dec. 2.—The annual report of Postmaster General Wilson will not be made public until after the president has submitted his annual message to congress. This is taken to indicate that matters of great importance pertaining to postal affairs are under consideration between the postmaster general and the president.

Train Robbers Arrested.

Kansas City, Mo., Dec. 2.—Police officials here Wednesday morning arrested Jeff Pagett and Albert Ells, two of the bandits who held up and attempted to rob an Alton express train at Blue Cut, near Independence, on the evening of October 23. Both are about 22 years of age. Evidence against them is conclusive.

For growing pigs milk and mill feed made into a slop with a little corn makes one of the very best winter rations.

DIAZ' FOURTH TERM.

Will Not Again Be a Candidate for Reelection as President.

City of Mexico, Dec. 2. — President Porfirio Diaz entered Tuesday upon his fourth term as president of the republic. Four years hence, if his life should be spared for that period, he will announce to the country that he is not a candidate for reelection. It was his intention to have made such a statement when formal announcement of his reelection was made last month, but on the suggestion of some of his intimate advisers he refrained from so doing, although the draft of an address setting forth his final and irrevocable decision to retire to private life four years hence had been prepared.

[Porfirio Diaz has presided over the destinies of the republic of Mexico from 1877 until the present time, with the exception of the interregnum between 1880 and 1884, when, on account of internal troubles, he transferred his authority to Gen. Manuel Gonsales, secretary of war, and made a successful canvass for the governorship of Oaxaca. He was born September 15, 1830, and, consequently, when the term upon which he enters to-day expires he will have passed the age of three score and ten. He takes the ground that should he survive to the age of 70 he will be justified in retiring to private life and in spending the few years that remain to him in peace and repose.]

END OF A SALOON ROW.

A Disorderly Customer Shot Dead by a Sixteen-Year-Old Boy.

Chicago, Dec. 2.—Fred Matthews, a bartender at 292 Clark street, was shot and mortally wounded in Louis Hochberger's saloon Tuesday night by the proprietor's 16-year-old son. Matthews it is claimed, refused to pay for drinks he had ordered, and a quarrel followed, during which Hochberger was knocked down. The latter's wife, who lives in the rear of the saloon, came in with a small baby in her arms, and it is claimed the disorderly customer seized the infant and threw it to the floor. Then he turned upon the proprietor's son, who had attempted to assist his father, and dealt him several severe blows. The boy ran back into the living rooms and appeared a moment later with a loaded shotgun. He fired at Matthews, and the latter fell to the floor with a mortal wound in his abdomen and died within 15 minutes. Both the proprietor and his son are under arrest.

Arrested for Arbuckle's Murder.

New York, Dec. 2.—Michael Ryan, a saloonkeeper 36 years of age, was arrested Tuesday by Policeman Doherty, on suspicion of having been concerned in the death of Frank P. Arbuckle, the Denver mine owner, who was found dead on Eighth avenue near One Hundred and Fifty-second street several days ago. The returns of Capt. Kirchner, at headquarters Wednesday, state that Ryan was suspected of having been in Arbuckle's company before he died. Ryan was not held, as he could not be identified.

Valuable Collection of Poe Relics.

New York, Dec. 2.—Mr. E. B. Hill, of the Detroit Journal, has presented to the New York Shakespeare society his entire and unique collection of relics of Edgar Allan Poe, consisting of between 600 and 700 copies of Poe's first editions, contributions to magazines, portraits, newspaper clippings and other memorabilia contemporary with the poet's life. The collection is to be placed in the cottage in which the poet lived when that building is removed to Poe park.

Defendant in Scott Trial Ill.

London, Dec. 2.—Frederick Kast, who, with Lady Selina Scott and two other defendants, is being prosecuted by Earl Russell, Lady Scott's son-in-law, on a charge of criminal libel, and on account of whose illness the trial was postponed on Monday for a week, is in a critical condition. He is confined in Holloway jail, where his deposition will be taken Wednesday. He is suffering from pneumonia.

Will Hand Down Decision Monday.

Topeka, Kan., Dec. 2.—In the federal court Wednesday morning Judge Thayer announced from the bench that a decision in the Santa Fe case would be handed down next Monday morning. As requested Tuesday night by Judge Thayer, the attorneys on both sides Wednesday morning handed in a list of authorities cited, and the case was taken under advisement by Judge Thayer and Foster "en banc."

Not Liable for Prospective Profits.

Washington, Dec. 2.—In a case appealed from a lower court the court of appeals of the District of Columbia has decided that a telegraph company is liable for an error in the transmission of a message, to the extent of actual pecuniary damage sustained, but not for prospective profits. This is the first decision on the question made in the district.

Wisconsin's Official Count Finished.

Madison, Wis., Dec. 2.—Secretary of State Casson Wednesday sent a telegram to McKinley announcing that the official count of the vote of Wisconsin gives him a majority of 102,612. The board of election canvassers has just completed its labors and finds that McKinley electors received 268,135 as against 165,523 for the Bryan electors.

Trial of Private Allen Postponed.

Chicago, Dec. 2.—The trial of Private James D. Allen, of the Fifteenth United States regiment, who shot and killed Private Daniel M. Call, of the same regiment, at Fort Sheridan March 20 last, was continued by Judge Grosscup Wednesday until December 15, at the request of the prisoner's counsel.

ROYAL

BAKING POWDER

Absolutely Pure.

A cream of tartar baking powder. Highest of all in leavening strength.—Latest United States Government Food Report.

ROYAL BAKING POWDER CO. N Y.

Clinton Column.

I will cease making cider Saturday, Dec. 5. W. R Osgood, Britton.

Miss Cora Witherell is on the sick list this week.

Richmond, Gadd, and Hogan shipped hogs Saturday.

George A Kies was home the latter part of the week.

Prof. Wilcox spent his vacation at his home in Addison.

Ben Taylor was home from Albion to spend Thanksgiving.

L. Gray played for the dance at Tecumseh Friday evening.

Miss Lotta Blanchard spent her vacation at her home in Adrian.

Miss Minnie McAdam came home to spend her Thanksgiving vacation.

Fred Tag was home from Adrian to spend his Thanksgiving vacation.

Miss Sarah Huntington was home from Adrian over Thanksgiving.

Mrs. J. D. Shull, of Tecumseh, was the guest of Mrs Bert Tate, Friday.

Eugene Fowler and family spent Thanksgiving day with friends in Saline.

Miss Olive Mills began the winter term of school in the Dillingham district Monday.

Mr. and Mrs E G. Cook, of Tecumseh, ate Thanksgiving dinner with Mrs A F. Tuttle.

Hanibal Osborn and wife of Tecumseh, were calling on Clinton friends Friday afternoon.

Lavern Davis, who came home from Ypsilanti Wednesday of last week, returned Monday.

Miss Grace Davis returned to Detroit Saturday, after a visit of about ten days at her old home.

Charles Starrett, of Buchanan, visited friends and relatives here the latter part of the week.

Miss Ida Harmon, of Manchester, was the guest of Miss Clara Welch the latter part of the week.

Marvin Pardy and H. D. Sheckle went to Wampler's lake Thursday and spent the day in shooting.

Miss. Virginia Dox, of Chicago, will speak at the Congregational church next Sunday December 6.

Miss Ella Payne, of Jackson, has been a guest at the home of her uncle, J. E. Woodard, since last Friday.

Miss Marie Miller, of Manchester, was the guest of Chris. Schmidt and family the latter part of the week.

Maud Ohlinger, of Manchester, was the guest of Blanche Muir from Wednesday till Saturday of last week.

Mrs. J. S. Kies returned home Monday from a three weeks' visit with her son J. S Kies, at Elkhart, Indiana.

Mrs. E W. Shoemaker, arrived Tuesday night from Chicago, for a visit with her parents, Mr. and Mrs E Van De Mark.

Miss Edith Amspoker, of Manchester, visited at the home of her uncle, John Amspoker from Wednesday until Saturday.

Miss Julia Sturn, who had been visiting Manchester relatives since Wednesday of last week, returned home Monday.

Miss Edith Bennett, who has been a guest at Lyman Bailey's for several weeks, returned to her home at Caro, Monday.

Jean Marsteller drove over to Ypsilanti Wednesday and Vern Davis returned with him to spend Thanksgiving at home.

Mrs Mary Borroughs, returned Friday, to her home at Paul, Kent county, after a visit of several weeks with Clinton friends.

Mr. and Mrs. Henry Stevens and daughter Agnes, of Tecumseh, ate Thanksgiving dinner with Mrs. Stevens' mother, Mrs. Dr Adam.

The mite meeting of St. Dominic's church met at Miss Alice McAdam's home Friday evening. A large attendance for such a stormy evening.

Rev. W. C. Stevenson, left Friday morning for Danvers Illinois where he will hold revival meetings for a couple of weeks, assisted by J Richie Bell, the musical evangelist, who came here last winter with Mr Stevenson.

The concert last Saturday night, given for the benefit of St. John's church, was quite a success, the society clearing $21.45. Each number on the program was very pleasing but special mention should be made of the five solos rendered by Master Gerald Brown, of Ann Arbor, who has a beautiful, clear voice which delighted every one in the audience. Those who did not attend the concert missed a rare musical treat. He also sang the Te Deum and Offertory in a delightful manner at St John's church Sunday morning.

Mrs L A Mc Connel, left Wednesday of last week for Niles, Berrien county, expecting to spend a greater part of the winter with her son, who is station agent at that place.

Roy Burlingame, Clyde Heck, Earle Updyke, Harry Moore, Edgar Coddington, Fay Anderson, Vern Smith, Winifred De Wolf, Viola Shull, Lovisa Schroder, of Tecumseh, were up to the Thanksgiving hop Wednesday evening.

$100 Reward, $100.

The readers of this paper will be pleased to know that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

F. J. CHENEY & CO., Toledo, O

Sold by Druggists, 75c. June

Hall's family pills are the best.

The average orange tree of Mexico raises 1,000 oranges a year.

Don't Tobacco Spit and Smoke Your Life Away.

If you want to quit tobacco using easily and forever, be made well, strong, magnetic, full of new life and vigor, take No-To-Bac, the wonder-worker that makes weak men strong. Many gain ten pounds in ten days. Over 400,000 cured. Buy No-To-Bac from your own druggist, who will guarantee a cure. Booklet and sample mailed free. Ad. Sterling Remedy Co., Chicago or New York.

The traveler in Mexico is seldom out of sight of mountains.

Just try a 10c box of Cascarets, the finest liver and bowel regulator ever made.

The "valley" of Mexico is 7,500 feet above the sea level.

A Word or Two

to sufferers from catarrh will not be amiss if a cure can be offered. Ely's Cream Balm has become a favorite in all sections of the United States. Your cold in the head will be quickly relieved by it, and the severest attack of catarrh will yield to, and be perfectly cured by a thorough treatment. Catarrh is not a blood disease, but an inflammation of the passages of the nose and throat, due to climatic changes.

Cotton factories in Mexico employ over 25,000 people.

For Pneumonia.

Dr. J. C. Bishop, of Agnew, Mich., says: "I have used Foley's Honey and Tar in three very severe cases of pneumonia the past month, with good results." Orr & Temple.

Mexico is about ten times larger than Great Britain.

Who does not know women and young girls who are continually in tears? Who always see the dark side? Who have frequent fits of melancholy without any apparent cause? The intelligent physician will know that it is some derangement of the complicated and delicate feminine organs. The young girl suffers bodily and mentally, in silence. There is undue weariness, unexpected pain, unreasonable tears and fits of temper. Dr. Pierce's Favorite Prescription exerts a wonderful power over woman's delicate organism. It is an invigorating tonic and is specific for the peculiar weaknesses, irregularities and painful derangements of woman. Careless, easy-going doctors frequently treat their women patients for biliousness, nervousness, dyspepsia, liver or kidney troubles, when the real sickness is in the organs distinctly feminine, and no help can come till they are made perfectly strong by the use of Dr. Pierce's Favorite Prescription.

Send 21 cents in one cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page COMMON SENSE MEDICAL ADVISER, illustrated.

The area of Mexico is about 753,000 square miles.

Hives are not dangerous to life, but they are a prolific breeder of misery and profanity. Dan's Ointment gives instant relief, even in the worst cases of this and other exasperating diseases of the skin.

The army of Mexico comprises about 40,000 men.

The Modern Mother

Has found that her little ones are improved more by the pleasant Syrup of Figs, when in need of the laxative effect of a gentle remedy than by any other, and that it is more acceptable to them. Children enjoy it and it benefits them. The true remedy, Syrup of Figs, is manufactured by the California Fig Syrup Company only.

Slavery was fully abolished in Mexico in 1837.

For Hoarseness.

Benj Ingerson, of Hutton, Ind., says he had not spoken above a whisper for months, and one bottle of Foley's Honey and Tar restored his voice. It is used very largely by speakers and singers. Orr & Temple.

Cost of a Cardinal's Hat.

The red hat of a cardinal costs him more money than kings pay for any except their very best crowns. Before accepting it the grateful prelate must make offerings to the the propaganda and to his titular church at Rome, and pay fees to a long list of officials, ranging from chamberlains at the vatican down to the cooks and sweepers and the soldiers of the Swiss guards. Indeed, the new cardinal has to pay fees at every step from the moment of his creation to the occasion of his receiving the red hat in public consistory, and when all is over and done finds himself out of pocket to the extent of $2,500 at least. If the cardinal is without means to defray the cost of his elevation, and if he is to reside in Rome, the vatican is ready to make him a loan to be repaid in installments out of his yearly allowances.

The Sexes in Burmah.

The new woman should take her way to Burmah. There, travelers say, is the only place or earth where true equality between the sexes exists. In spite of this, it is claimed, no women are more womanly than the Burmese women, whose good sense enables them to see the line where they ought to stop. In the higher classes a woman has property of her own and manages it herself. In the lower classes she always has a trade and runs her business on her own responsibility, the sexes choose their own operations, and it is curious to see the men sometimes sewing or embroidering, while the women have nearly all the retail trade of the island on their hands.

Mourning for a Chinese Ruler.

When a Chinese emperor dies the intelligence is announced by dispatches to the several provinces, written with purple ink, the mourning color. All persons of rank are required to take red silk ornaments from their caps, with the ball or button of rank; all subjects of China, without exception, are called upon to forbear shaving their heads for 100 days, within which period none may marry, play upon musical instruments or perform any sacrifice.

Weekly **The** Monthly

Outlook

Published Every Saturday.

13 ASTOR PLACE NEW YORK

The Outlook will be in 1897, as it has been during each of its twenty-seven years, a history of our own times. In its various editorial departments The Outlook gives a compact review of the world's progress; it follows with care all the important philanthropic and industrial movements of the day, has a complete department of religious news; devotes much space to the interests of the home, reviews current literature; furnishes cheerful table talk about men and things: and, in short, aims to give fresh information, original observation and reasonable entertainment.

Beginning with the fifty-fifth volume, the paper will assume the regular magazine size which will add greatly to its convenience and attractiveness. The Outlook is published every Saturday—fifty-two issues a year. The first issue in each month is an illustrated Magazine Number, containing about twice as many pages as the ordinary issues, together with a large number of pictures.

The price of The Outlook is three dollars a year in advance, or less than a cent a day.

THE INDEPENDENT.

NEW YORK.

THE INDEPENDENT for 49 years has been the leading religious-literary newspaper of the world.

It has new, distinctive and attractive features, making it a

FAMILY NEWSPAPER

worthy the patronage of all thinking, intelligent people.

Its name indicates its character. It is INDEPENDENT. Religiously it is undenominational. Politically, it maintains the honor of the country, the integrity of our currency, the supremacy of law, and the rights of rich and poor alike.

For Intelligent People Everywhere

It provides instruction, entertainment and amusement for all the members of intelligent households.

Important Features

It has aside from its literary features special departments edited by the best writers, thinkers and specialists, some of them of surpassing interest to a comparative few, others important and valuable intellectually and financially to nearly everybody. These departments are Science, Music, Fine Arts, Sanitary, Missions, Religious Intelligence, Biblical Research, Sunday School, Financial, Insurance, Work Indoors and Out, Puzzles, Book Reviews and Literary Notes.

Survey of the World

Every week the notable events occurring the world over are placed clearly before the reader. No one person has time to read all of the current publications, foreign and domestic; but every one wants to know the events happening in the whole world, which people think about and talk about. The Survey of the World gives each week the gist of important events for the current week. It is really one of the most valuable and important features of any periodical.

Subscription, $3.00 a year; or at that rate for any part of a year.

J. M. JONES.

Mules for Bear Hunters.

The proper beast for a grizzly bear hunter to ride is a good mule. Dr. W. F. Edgar, United States army, tells in Recreation why a mule is best. The doctor was wandering near a camp up in Washington state on a mule. He had his rifle with him, and, seeing a big bear in the trail, fired. The bear tumbled over and out of sight. It looked like a clean kill, and the doctor started toward the place, and was nearly in sight of the hollow where the bear had disappeared, when the bear climbed up over the edge and went for him. It was then that the mule was of the utmost service. The mule rose on its hind feet, turned sharply around, and headed for camp. A horse or a mustang wouldn't have been quick enough, the bear was so close, but all the hunter had to do was to hang on. The mule knew what to do without being told.

"I contracted a severe cold from exposure. Coughed all winter. Could get no relief. Dr. Wood's Norway Pine Syrup broke up the cold, and drove away the cold. Never took anything that did me so much good." L. H. Brooks, North Haverhill, N. H.

The Italian parliament was reopened Monday.

A Household Necessity.

Our Kitchen

No kitchen is kept cleaner than the premises devoted to the manufacture of **NONE SUCH Mince Meat.** No housewife can be more fastidious in the matter of preparing food than we are in the selection and preparation of the materials of which it is made. The cleaning of the currants (for one thing) is more thoroughly done by means of perfected appliances, than it would be possible to do it by hand.

Its cleanliness, purity, wholesomeness and deliciousness are good reasons for using **NONE SUCH Mince Meat.** The best reason is its **saving**—of time, of hard work, of money. A ten cent package affords you two large pies, without trouble to you beyond the making of the crust. Makes just as good fruit cake and fruit pudding as it does mince pie. Sold everywhere. Be sure and get the genuine.

Send your name and address, and mention this paper, and we will mail you free a book—"Mrs. Popkins' Thanksgiving"—by one of the most famous humorous authors of the day.

RIDGEWAY.

Pleasant Surprise arty—Death—Interesting Personals.

I will cease making cider Saturday, Dec. 5. W. R. Osgood, Britton.

The lecture course is progressing very encouragingly.

Eddie Williams is under the doctor's care this week.

F. J. Temple, of Tecumseh, was in the village Tuesday.

Dr. Chas. Barneby, of Raisinville, visited relatives Monday.

For stone meat crocks go to Ed Smiths.

Lou Arner took her Thanksgiving dinner with her mother.

Prof. Graves was unable to be in the school room Wednesday.

Gertie Marvin spent her Thanksgiving vacation at her home, near Azalia.

Lilian Dersham spent Thanksgiving with her parents near Lenawee Junction.

Ed Gould is painting the interior of his store, which improves the appearance.

Mrs. George Pocklington, who has been quite sick for some time, is able to be out.

Mrs. W. H. Arner was the guest of her nephew, Will Schreder, Thanksgiving day.

Dr. and Mrs. D. W. Loree took their Thanksgiving dinner with Prof. L. M. Palmer and family, of Jackson.

Keep your stock in a healthy condition by feeding Pratt's poultry and stock food. A fresh lot just in at Ed Smith's.

T. S. Boyd, with his friend Otto Stowell, of Detroit, spent several days with his father, John Boyd, returning to their home Monday.

Prof. E. A. Wilson, of Benton Harbor, while on his way to Ypsilanti, on business, enjoyed his Thanksgiving dinner at the home of his father.

Mrs. Leon McRoberts, who has been spending several days with her grandparents, Mr. and Mrs. George Pocklington, returned to her home near Lansing Friday.

If you wish to attend a fine and enjoyable entertainment, you had better not miss the Decstrict Skule" given by the members of the Episcopal society at the opera house, Tecumseh, next Tuesday evening.

Remember the third entertainment of the Tecumseh Star lecture course will be the Johnson-Smily Combination. They will appear at Sutton's opera house Thursday evening the 17th. Tickets for the balance of the course $1.00.

All kinds cross cut saws, axes, saw tools, etc., at Ed Smith's.

The relatives and neighbors of Mr. and Mrs. George Linn, who formerly lived here, but who for several years past have resided near Cadillac, will be somewhat surprised to learn of Mrs. Linn's death, which occurred on the 11th of November.

It was our pleasure with several other friends to spend Wednesday evening at the home of W. L. Jones and enjoy an entertainment given by Walter Gripton with his phonograph. He has a collection of vocal and instrtumental productions of the latest. We can recommend the wonderful phonograph to any society that wishes to give an evening's entertainment, as first-class.

The annual election of officers for the Hall Memorial Library Association was held at the library Tuesday afternoon. The following officers were elected for the ensuing year; Pres., Dr. D. W. Loree; Vice Pres., C. W. Culbertson; Sec., Lizzie Boyd; Treas., T. H. Temple; Board of Directors, Ella M. Hall. Mrs. Lester Osgood, B. F. DePuy, C. M. Gove, J. W. Osborn, W. R. Wilson, E. L. Lowe.

Go to Ed Smith's for floor oil cloth and stove boards.

Tuesday evening of last week over a hundred members of the church and congregation made Rev. James Wright a surprise. After the usual custom of congregations were through with, Rev. Cansfield, in behalf of the company, presented Elder Wright with a beautiful Hunting case gold watch as a token of their appreciation for his services in the past. Refreshments were served and the evening spent very pleasantly, after which all departed for their homes.

CONE.

John McBride, of Dundee, was in town Tuesday.

Mr. Albright moved his family back to Samaria Monday.

Rev. Ross, of Fleming, called on friends here Saturday and Sunday.

Mrs. Lewis, of Toledo, is spending the week with her daughter, Mrs. Daisy Caswell.

Mrs. Frazer, of Ypsilanti, spent Thanksgiving with her sister, Mrs. J. C. Cone.

Miss Ellen Richardson, of Milan, was the guest of Mrs. Jacob Dennison last Wednesday.

Horace Logan and family entertained about forty of their friends at Thanksgiving dinner.

Frank Gray and wife left for Eustis, Florida, Saturday, where they expect to reside in the future.

Charles Kent and family, of West Toledo, are spending the week with their mother, Mrs. Jane Auten.

Miss Bertha Jourden came out from Detroit Friday evening and remained until Wednesday evening.

Mrs. E. P. O'Brien,

Ivesdale, Ill., writes: "I have used Dr. Caldwell's Syrup Pepsin as a family medicine with the best of results. For derangements of the stomach and a general laxative I like it better than anything I have used. It is so pleasant to taste my children are always anxious to take it." Orr & Temple.

HOLLOWAY.

Mrs. James Lane visited friends at Franklin last week.

Mrs. Grorge Riley returned Saturday from her visit in Ohio.

Miss Edith Schwab, who has been quite ill, is convalescing.

Hats from 25 cents up at the millinery store of E. H. Fish.

Remember the literary at the church parlors this (Friday) evening.

Osgood Hive No. 285 will hold its regular meeting tomorrow (Saturday) afternoon.

Misses Abbie Ray and Maud Munch attended the teachers' meeting at Adrian on Saturday.

Dr. Montgomery, of Adrian, was a guest of Mr. and Mrs. August Greenwald last Friday.

Mr. and Mrs. Conrad Atwell spent Thanksgiving with the family of W. C. Holt, at Kunkle, Ohio.

Mr. and Mrs. L. C. Winchip spent Thanksgiving at Britton, the guests of Mr. and Mrs. John Britton.

Miss Grace Gillespie, of the Ypsilanti normal, was among the guests at A. D. Macham's last week Thursday.

The families of A. D. Macham Charles Benedict and W. E. Doty each gave a Thanksgiving dinner at which many of their relatives and friends were present.

Mr. and Mrs. Dance, of Detroit, were among the guests at A. D. Macham's Thanksgiving. Mr. Dance returned to the city Thursday evening but Mrs. D. remained to visit her brother and other relatives for a couple of weeks.

LAKE RIDGE.

I will cease making cider Saturda Dec. 5. W. R. Osgood, Britton.

There is talk of a al in the near future, look out for a good time.

Mr. Stephen Martin, of Bloomingdale, is visiting his brother Lewis and other relatives.

In the absence of the superintendent last Sunday, Miss. Josie Hand took charge the lesson.

The children and grandchildren of Horace Hand ate Thanksgiving dinner under the parental roof.

The Misses Anna, Lizzie and Florence Murphy have been making a visit with their aunt, Mrs. V. Goheen.

The Sunday school will hold some kind of an entertainment Christmas with speaking by the children.

Little Hazel Patterson, who has been spending some time with her aunt, Bertha McCoffee, of Toledo, has returned home.

Mr. and Mrs. Martim Phillips entertained a number of their friends Thanksgiving and treated them to sumptous dinner.

The person or persons who have been trespassing on Dan Barnes premises, are requested to keep off and save themselves trouble.

Lost, between C. Hendershots and Horace Hands, last week, a fur cape. Will the finder please leave the same at the postoffice.

There will be no preaching in the German church next sabbath, as the pastor has gone to Rockford, Illinois, to visit his mother.

Mr. Warren Miller, after a visit with his son Martin, in Gratiot county, has returned home, accompanied by the latter who will visit the old home.

Rev. Austin and wife of Milan, conducted the meeting last Sunday evening in the Free Methodist church. There will be meetings this week.

Mrs. Edith Westfall, Julia Phillips and Nettie Hendershot were among these from the Ridge who attended the tea meeting at Ann Carter's Saturday.

Mr. John W. Grow, of Limerick P. O., Ohio, writes: "I have used Lightning Worm Killer and found it as recommended. It has given great satisfaction; want nothing better." Orr & Temple, Tecumseh and Ridgeway.

"My little boy was very sick. I gave him Lightning Worm Killer and found that it is what it is claimed to be—a worm killer—for it worked like a charm. My child is well now." Orr & Temple, Tecumseh and Ridgeway.

Lightning Cough Drops is the best remedy for coughs and lung trouble I ever sold. Three of my family had pneumonia. After they recovered, severe coughing set in, but Lightning Cough Drops cured them. Our family physician recommended it in preference to any other cough remedy on the market.—J. F. Barrett, Jamesville, Va. Orr and Temple, Tecumseh and Ridgeway.

Mr. J. M. Babbit, of Aroma, Ind., writes; "In my kidney disease of fifteen years' standing, Lightning Kidney and Liver Remedy has given me more relief than anything I ever tried." Orr & Temple, Tecumseh and Ridgeway.

Mexico has vast deposits of onyx and marble.

Old people who require medicine to regulate the bowels and kidneys will find the true remedy in Electric Bitters. This medicine does not stimulate and contains no wiskey nor other intoxicant, but acts as a tonic and alterative. It acts mildly on the stomach and bowels, adding strength and giving tone to the organs, thereby aiding Nature in the performance of the functions. Electric Bitters and aids digestion. Old People find it is an excellent appetixer just exactly what they need. Price fifty cents per bottle at Baker & Hall's drug store. 5

There are ten volcanoes in Mexico.

The person who disturbed the congregation last Sunday by coughing is requested to call on Orr & Temple and get a bottle of Foley's Honey and Tar which always gives relief.

TECUMSEH, MICH., DEC. 4, 1896.

Everyone seems to be pleased with Tuesday's edition of the HERALD. This will continue for three more weeks and our subscribers will kindly take notice and hand in announcements of meetings, etc., in time for the Tuesday as well as Friday issue.

It is just one month since election, and already the Adrian Press and the Adrian Messenger have fallen out of bed, one on one side and one on the other. Figuratively speaking, they both rolled under the bed, tackled somebody and grabbed each other. This scrap will now continue until the next silver agitation comes up when they will roll back into bed again, fondly embrace each other, forget their differences and be as one happy family.

Under the present management the HERALD has never dunned its subscribers through the columns of the paper and does not now intend to do so, although many dollars are long past due on subscriptions which would be of great service in paying debts and improving the paper. In answer to statements which have been sent out, it has been ascertained that many of the subscribers have been paying their subscription in wood; so many that there is about $200 now due the HERALD in wood. An announcement has been made that no wood would be taken after December first, but many of our former friends have begged off on account of bad roads and too much fall work. Hence it has been deemed advisable to extend the time to January 1st. Now every person who owes the HERALD wood is requested to bring it in at once, also any who desire to pay in this manner for the paper for next year. The HERALD woodshed is in good condition to receive 50 cords of wood and it is hoped that it will not be necessary to write any more wood editorials. After January 1st, all old accounts due on subscription will be promptly sued. Now if you want to bring wood, do so at once and kindly remember that this term "wood" does not mean punk or sky-rockets.

The situation in Cuba seems to be about as uncertain and contradictory as it was one week ago, and is evidently a sort of "now you see it and now you don't see it" kind of game; intensely amusing in some of its aspects possibly, but on general principles intensely uninteresting. According to one press dispatch, claimed to be entirely authentic and reliable, the insurgent forces by successfully avoiding a general battle with the Spanish troops, are said to be gradually but surely wearing out and depleting the ranks of the latter, with far less loss to the Cuban army than if the opposite course should be pursued. In other words, General Maceo and his co-workers are determined to accomplish through stratagem and with only an insignificant loss of life among their own men; all that could be secured by massing his troops and engaging in a general battle, resulting in the loss perhaps of thousands of lives on both sides. This is the purport of the press dispatches one day. But the day following perhaps this story is contradicted, and we are informed that Captain General Weyler has finally taken personal command of the Spanish army in the field, and is scouring the mountain fastnesses in search of the insurgent forces under General Maceo, and is just on the point of closing around him and forcing him into an engagement that is sure to end the war by crushing the rebellion. This would do very well, had it not been followed two or three days later by another press dispatch, announcing General Weyler's sudden return to Havana, with a rumor that he has been removed from the command of the Spanish army in the field, and ordered to report forthwith at Madrid. This is really the substance of the Cuban war news at the time of this writing. There has been no general and decisive engagement of the two armies in the mountains or elsewhere, but there remains no doubt that Captain General Weyler has actually returned to Havana. Perhaps the Spanish authorities at Madrid are disgusted because the rebellion has not yet been crushed, and may possibly hold General Weyler responsible for the failure.

Short Line to Michigan Points.

Take the Cincinnati, Jackson & Mackinaw R'y for Tecumseh, Jackson, Homer, Marshall, Battle Creek, Allegan and Grand Rapids. Trains leave Tecumseh at 8:45 a. m. and 4:11 p. m., making close connection at Jackson with trains of the Michigan Central R. R. for Lansing, Eaton Rapids, Charlott, Hastings, Grand Raplis and intermediate points.

The Physician as a Patient.

Tecumseh, Mich., Nov. 18, 1896.

TO THE EDITOR:—Why is it, that an error in diagnosis is so frequently made when the patient is a physician? Within the past thirty years, a number of cases have come under the writer's observation, where an error in diagnosis has been made; and where the patient has been a member of the medical *guild*; it therefore has occurred to the writer, that if the patient had not been a member of the medical profession the mistaken diagnosis would not so frequently have been made.

Recently a case illustrating the above statement was reported to the writer, as follows: A physician, age about 53 years, had been complaining for a few days with a feeling of general malaise, some fever which increased from day to day, until the patient was taken to bed. A neighboring physician was called to attend him, who diagnosed the case as malarial fever complicated with rheumatism. As the disease progressed, and the condition of the patient did not improve, a second physician was called in consultation, who appears held similar views to those of the attendant. One or two physicians of the town were casually met by the attendant and invited to see the patient and "cheer him up," but declined being placed in the position of a layman. The condition of the physician becoming critical a third physician from a neighboring town, ("eminent" according to the local press) was called a few hours previous to the death of the patient. About twenty-four hours after death a postmortem examination was made upon the body, and the pathological lesions of typhoid fever presented, consequently the case was immediately reported to the local board of health as death from typhoid fever. A recognition of typhoid fever and treatment accordingly adopted at an early stage of the disease might have produced different results; however it certainly would have been more satisfactory to the attending physician, unless he is so far behind the age as to believe that typhoid fever is frequently dovetailed into malarial fever. This and similar cases should lead the physician when called upon to attend a brother physician, to examine him as carefully as an ordinary patient, and never permit the views of the physician patient to bias his judgment in forming a correct diagnosis.

Respectfully,
J. F. JENKINS, M. D.

From The American Medical Journal.

It is an easy task for even a "layman" to diagnose the case of the writer of the above article, viz: an attack of egotistic jealousy complicated with temporary cussedness. The "scraps" and differences of doctors are of such frequent occurrence that newspapers would contain nothing else if they attempted to give only a portion of them brief mention, but when a man rushes into print to attack another who is not on earth to defend himself, it is time the HERALD said something.

It is really a matter of regret that this Jenkins, a good physician, well read and respected when he behaves himself, should be of such a billious, jealous and egotistical temperament that he can see no good in others or their works, otherwise he might become a power and benefit instead of a menace to his fellow citizens and the profession to which he belongs.

THE CHRISTMAS PARTY.

At a well attended meeting held at the armory it was decided to hold a Christmas party at the opera house the night of December 25th, and the following committees were appointed and are now at work, every man seeing how much he can do for the success of the party.

Music committee—Chas. F. Patterson, Chairman; Bert Garlinghouse, P. W. A. Fitzsimmons, J. H. Elliott.

Refreshment committee—L. P. Tribou, chairman; R. A. Moore, M. Burlingame, Dr. D. W. Reed, Vern Smith, W. C. Burridge.

Invitation committee—George Stacy, chairman; Leon Burlingame, Ed. Kirchgessner, Fay Anderson, W. W. Whiting, R. C. Burlingame, Raynor Brewer.

Reception and arrangement committee—R. C. Burlingame, chairman; Chas. A. Bidwell, Bert Garlinghouse.

Decoration committee—Ben Garlinghouse, J. A. Elliott, chairmen; Clyde Heck, Levi Hayden, Lavern Heesen, Fay Anderson, Wm. Sisson, Vern Smith, Edgar Coddington, Raynor Brewer, Walt Burridge, S. Collins, J. R. Hosmer, J. R. Nyland, Harry Moore, Cleo Hall, Lester Heesen, Thos. McCann.

Soliciting committee—George Tiffany and J. H. Elliott.

Attention G. A. R.

A full attendance of comrades is requested at our next Post meeting, Dec. 7th. Election of officers for 1897.

H. W. STEVENS, Commander.

A. W. Slayton, Adjutant.

The T. and F. Farmer's Club.

There will be some fine music in "Ye Deestrict Skule"

Captain Chilson is expected home the first of the week.

John J. Orr visited Ann Arbor Wednesday and yesterday.

I will cease making cider Saturday, Dec. 5. W. R. OSGOOD, Britton.

Sure, you are going to get your photos at Teeple's for Christmas.

You can get 21 pounds granulated sugar for $1.00 at James Lowry's.

Miss Gertrude Bray, of Adrian, was the guest of Mr. and Mrs. W. W. Whiting over Sunday.

You will find it to your advantage to buy your underwear, gloves, mittens, foot wear, etc., etc., of Harris & Hiteshu.

Frank Chilson arrived home Wednesday night having left the boat in winter quarters at Ogdensburg, N. Y.

Teeple is doing lots of large portrait work but you must leave your orders at once to get them for Christmas.

The great cloak sale of Harris & Hiteshu will continue until every garment is sold. Remember "one-half price" is their motto, and they stick to it.

There will be a special meeting of Tecumseh Chapter, R. A. M., at the Temple next Wednesday evening when there will be an exhaltation.

See that price list in this issue.

Little Mamie Keyser, of Clinton, will give a character song at the Deestrick Skule Tuesday evening that alone would well be worth the price of admission.

We learn that our venerable friend and townsman, B. L. Baxter, is very ill. His daughter, Mrs. James Winans, of Toledo, and his sister, Mrs. Selfridge, of Chicago, are now with him.

On account of the dress rehearsal for the Deestrick Skule, the Wit and Wisdom club, which usually meets Monday evening, has been postponed to Thursday at the home of Mrs. Geo. W. Knapp.

The first meeting of the Farmers' Union for the season of '96-'97 will be held next Friday evening, Dec. 11, at the home of Albert Waring. A short but interesting program will be given in addition to the election of officers.

One night not long since while Chas. Everett was enfolded in the arms of Morpheus, he was awakened by a mouse who was actively engaged in unfolding and counting the ringlets of his hair. Charlie swatted Mr. or Mrs. Mouse, as the case may have been.

Hear Mr. Stoughten Strong in solo "When we were boys, in "Deestrict Skule."

At the annual meeting of the Baptist Sunday-school held at the church Wednesday, the following officers were elected for the coming year:

Superintendent—L. G. North.
Ass't supt.—R. S. Moore.
Treasurer—Fred Sheldon.
Secretary—Carrie Osborn.
Librarian—Geo. Kay.
Assistants—Chas. McIntyre, Eugene Pattison.
Choirister—B. F. Steinhoff.
Organist—Ella Chilson.

The value of the water works system was manifested again Tuesday evening when the rear part of the upper story of the building occupied by L. D. Dewey for his egg and poultry business was discovered to be on fire. Had it not been for them, handled by our faithful fire laddies, it undoubtedly would have proven the most serious fire Tecumseh has ever seen, for this building is situated midway east and west of the business portion and no matter which way the wind was, the result would have been disastrous.

Greatest holiday bargain. Two beautiful photos 25 cents at Miss Daly's.

Tuesday evening about 9 o'clock our citizens were startled by the alarm of fire and a general rush was made for the scene of conflagration which proved to be in the heart of the business center, the Bidwell building back of Harris & Hiteshu's occupied by L. D. Dewey and John Loomis. Although when first discovered the flames had made great progress, they were soon extinguished by the heroic work of the fire department and effectiveness of the hydrant system. The greatest loss Mr. Dewey sustained was not by fire but by water. The building, or a portion at least, was badly scorched but can be easily repaired. The fire evidently was caused by the chimney (which was very defective) burning out. Mr. Dewey is thankful it was not more serious and cannot find language sufficient to fully express his gratitude to the boys of the fire department for their great work. Had it not been for them Mr. Dewey's loss would have been very severe as one room was full of dressed poultry and he had a large quantity of pelts and eggs on hand.

Read that price list carefully.

Last Satuaday afternoon, on Van Buren street, leading north from Chicago street, fourteen ladies of class number one of the Baptist Sunday school were seen, each with basket, box or package. Where were they going? Why they were going to give Mrs. W. S. Morse a surprise, and surprise it was as she knew nothing of it until she saw them at the corner of her home. Mrs. Morse has been teacher of this class eighteen years. For more than a year her health has been such that she could not meet regularly with the class but has a very efficient alternate. Miss J. Hough. The afternoon was passed in happy converse until about five o'clock, when the command came to report at the dining room where a very nice supper was found in waiting, the tables having been spread by Misses Carrie Osborn, Bell Clohecy, Emma and Jay Morse, and well did they attend to the wants of the ladies; and when later in the evening each left for their home, they could feel that they had left a bright spot in another's life; the only regret being that six of the class who were unavoidably detained, thus missing a very pleasant affair.

Mrs. Neal, of Grand Rapids, is the guests of Mr. and Mrs. Wm. Ayers who live on El. Gray's farm.

Seaton W. Anderson leaves for New York tonight to buy his stock of holiday goods.

Mrs. J. H. Maus arrived from Grand Rapids Wednesday and will spend the winter with her parents, Mr. and Mrs. Alva Waring.

Everything in the line of Furniture at one-quarter less than you can buy the same goods at any place in Michigan. WHEELER & SISSON.

Sunday in the Universalist church, Rev. Mrs. Gillotte, of Rochester, Mich., will preach in the morning, the pastor being in Hillsdale. In the evening the young people will have a devotional meeting at 7 o'clock instead of 6 as usual, there being no preaching service in the evening.

Christmas will soon be here and you will want to give some kind of a present. There is nothing more acceptable than a pretty chair. We have them from $1.00 up.

WHEELER & SISSON.

Loren Taylor, who has been a great sufferer from cancer, died at his home in Franklin Tuesday night at ten o'clock. The funeral was held at the house at eleven o'clock today, Rev. D. H. Ramsdell, of the Clinton M. E church officiating. The interment was in the Clinton cemetery and the services at the grave were Masonic and conducted by Clinton Lodge No. 175, of which he had long been a member. He leaves a large family of sons and daughters. His wife died several years ago of the some dread disease.

Our Stock of Holiday Goods are about all in and we can give you the best stock in the County to select from and prices the lowest.

WHEELER & SISSON.

At the residence of Mr. and Mrs. John J. Orr Sunday a farewell dinner was given in honor of her brother, Dr. Walter N. Fowler, which with the exception of Dr. and Mrs. W. A. Frost was confined to the relatives. The doctor left Ann Arbor Wednesday night for Baltimore where he will take a special course in the John Hopkins University. About Dec. 15 he sails from New York for Liberia via Liverpool, London and South Hampton and expects to reach his destination about the middle of February. He goes to establish a homeopathic hospital under the direction of the Foreign Missionary Society of the M. E. church. Dr. W. N. Fowler, of the class of '89, U. of M., who has gained many friends during his occupancy of the responsible position of medical superintendent of the university hospital homeopathic, has resigned his position and soon leaves for South Africa where he has accepted a lucrative position in a hospital. His departure is greatly to be regretted. While Doc's many friends will miss him they rejoice that he is so rapidly coming to the front in his profession.

If you really desire a bargain in the latest style cloak call at Seaton W. Anderson's.

The Other Side.

Tecumseh, Mich., Dec. 3, '96.

MR EDITOR,—

There seems to be something of a misunderstanding in regard to the difference between the Electric company and Company C, M. S. T. The facts, as we understand them, are these:

About January 1st, 1894 the Electric company put the fixtures and wires in the "Armory building," giving them 18 incandescent lamps. There was no written agreement but naturally it was understood that the Electric company was to furnish the electric current to serve those lamps and that Company C was to burn those lamps and so consume that current. At least that took place and each party worked on that basis for some time. After a time Company C thought best to substitute oil lamps for a large portion of their lights, only burning the electric lights on extra occasions, such as general inspection or when they rented their hall and got an extra price for electric lights. This reduced the income of the Electric company about 75 per cent of the original amount received from Company C. For several months past the deal has been unsatisfactory to the Electric Co., the Armory people were expected to keep an account of the hours of light used, but at times it has been hard to find any account, one saying that some other member kept it and that other member knowing nothing about it, so that some times it has been months before we would get a settlement, and even then the money has no always been in the treasury, with which to pay. For one lamp they were to pay the regular price of 60 cents per month, and as every one knows that is for a ten o'clock light, and not unfrequently it has been known to burn all night. For several months past we have been trying to get them to put a meter in their hall. Thus we would know just what was used and they would pay for just what they used and no more, but they have repeatedly refused to put in the meter. Under these circumstances and the fact that we were only getting about one fourth of the rent that we did originally, and the fact that we were obliged to keep a transformer there, costing us about $40 and hold in reserve an electric current sufficient to serve those 18 lamps thus limiting our capacity to serve other customers by just that amount, is it strange that we ask them, inasmuch as they had substituted other lights so largely that they substitute the oil entirely? Is it not a poor rule that does not bind both parties alike? If one has a right to withdraw, why not the other? Right here allow me to say that I am not aware that there is a member of our company who has any other than the most pleasant feelings towards Company C or any member thereof. It is purely a business transaction.

On the day following the one on which I notified Captain Hayden that we would like to withdraw the lights, he with Mr. Gillen called at my office and complained bitterly. I told him that we could not afford to continue as matters had been going. He then said for the first time, that they were willing to put in the meter. I told him that I would see the other members of the Electric company and let him know within a day or two. Without another word said between us, the temporary injunction was served upon us. Tuesday of this week Mr. Hayden was in my office and in conversation he said they were willing to put in a meter and burn only the electric lights and I answered, "Well, Will, that is all we ask and we would have done that at any time, and if you say so we will put in the meter today and the whole matter will be settled." He replied, "I will see you tomorrow and we will arrange it then." Yesterday he came in and had a paper drawn up in which we were to agree to allow the tempory injunction to become a permanent one and we were to pay all expense that they have made, and wished me to sign it. I said, "No, we have made no expense and there was no occasion for any expense being made and we will pay none unless we are obliged to do so." There the matter rests at present. On Wednesday I repeated to Capt. Hayden the proposition that I had made on a previous day, viz, that I was willing to leave the whole matter to any disinterested business man on the street, or I would select one man, he another, and they select a third and each of us would present our case and we would each abide by the decision of this man or men and settle the matter as he or they directed, but he refused.

Yours respecfully,
A. W. MILLS.

Mrs. M. A. Freeman earnestly desires that all who owe her would pay at once as she needs the money.

—I want to borrow some money for two or three years on good security and will pay interest semi-annually. Drop a card to Lock Box 15, for further particulars.

—Notice to Cabinet Purchasers.—

—We take this opportunity to notify our patrons that we have received one car load of our cabinets and will be around delivering them soon. On account of the election our canvass was considerably delayed and our delivery will be made in the month of December instead of November and we trust all will be prepared to receive their Cabinet when it is brought to them. Our orders read "Deliver to me in the month of November, OR AS SOON THEREAFTER AS CONVENIENT," thereby making the order just as binding for December delivery as for November. The company at Kansas City, Mo., keeps an exact list of all orders taken, and each salesman is held personally accountable for the delivery of every order taken by him and we have ordered a cabinet for every person who has given us an order, and we ask that all customers be prepared when the agents call so as to save us the trouble and expense of an extra trip for settlement. We want every cabinet we deliver to be a standing advertisement for us. Consequently if there should be any defect in any of them we request that it be at once reported to some of our salesmen or to our office in Tecumseh, and it will be made satisfactory, as it is our intention not to put a single defective cabinet into use. Thanking our many customers for their liberal patronage thus far and asking for a continuance of same. We are very truly,

THE STANDARD CABINET CO.

You can procure your tickets for the Deestrict Skule at E. F. Kirchgessner's and thereby escape the crush at the box office.

—Come quick if you want some shingles at cost, most all gone. Some lumber for sale very cheap. Two good houses to rent cheap. A. W. SLAYTON.

A lot of

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians; but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

ELY'S CREAM BALM is a positive cure. Apply into the nostrils. It is quickly absorbed. 50 cents at Druggists or by mail; samples 10c. by mail. ELY BROTHERS, 56 Warren St., New York City.

Strategy Well Employed.

The wise men of the east understand the value of strategy and know when to use it. A rich merchant died. He had one son, who when quite a lad had been sent to an uncle in India. When on his way home the young fellow was shipwrecked. It was believed that he escaped drowning, though no tidings of him could be obtained. His father died, leaving his fortune to the care of an old friend, not to be handed over to any claimant until certain injunctions had been fulfilled. At the end of a year a young man appeared, who declared himself the heir; then a second and a third arrived on the scene. The guardian gave to each a bow and arrow and desired them to use the dead man's picture as a target to aim at the heart. The first nearly hit the mark, the second drove his arrow home, but the third burst into tears and refused to dishonor his father's memory by desecrating the portrait of one whom he had loved and revered. Then the guardian knew which of the three was entitled to the fortune.

Choice Hibernicisms.

At the convention of the Irish race last month in Dublin two speakers, who had come from the United States, contributed the following sentences in the course of their speeches. One of them, in giving some details of personal history, informed his hearers that "he had left Ireland 53 years before, a naked little boy, without a dollar in his pocket." Said the other: "Until last week I had never set foot in the land of my birth."

Gambling in India.

Amongst the Hindoos throughout the whole of India there is a holiday celebration in honor of Lakshmi, the goddess of wealth and good fortune, whereon gambling is universally regarded as a religious duty. It is known as the festival of lamps, and on that day all classes indulge in games of chance with shells, coins, cards, dice, etc., and the future of the individual, whether good or bad, is looked upon as a forecast of his wealth or poverty during the ensuing year. The women take a most intense interest in the proceedings and, if fortunate, expend their winnings in the purchase of sweet-meats and fruits, as gifts to all their friends and relations, toys for the small children and fireworks for the boys. At Benares, their sacred city, as night approaches, small earthen lamps, fed with oil, are kindled, making the outlines of every mansion, palace, temple and minaret visible. All vessels in the river are also illuminated; so that the whole city is one blaze of light.

Suicide Is Hereditary.

An extraordinary instance of hereditary tendency to suicide was told by Prof. Brouardel in Paris lately. A farmer near Etampes hanged himself without apparent cause, leaving a family of seven sons and four daughters. Ten of the eleven subsequently followed the father's example, but not until they had married and begotten children, all of whom likewise hanged themselves. The only survivor is a son, who is now 68 years of age, and has passed safely beyond the family hanging age.

Mourning Color in Brazil.

At the funeral of an unmarried woman in Brazil scarlet is the mourning hue. The coffin, the hearse, the trappings of the horses and the livery of the driver must be scarlet.

UP-TO-DATE EQUIPAGES.

A Few Years Ago Washington Had Scores of Them.

French Diplomat Once Upon a Time Rode to a Party in a Hearse—President Arthur Mounted on an Indian Pony.

(Special Washington Letter.)

Twenty odd years ago the greatest luxury of life on the Iowa prairies was an oyster stew; and we were only favored two or three times in the winter when the ladies of the church gave an oyster festival for some charitable object.

The oysters came in large tin cans, and they were usually frozen solid in order that they might be preserved on their journey; for the distance from Baltimore then was four or five days, but now it is less than two days. The cars go faster, and everybody goes faster nowadays.

After living on the Atlantic sea-coast for several years, and having oysters right out of the salt water, and in every epicurean form conceivable, the succulent bivalves are no longer on the list of luxuries. We look upon them here as plain everyday food; just as you look on ham and eggs, spare-ribs, griddle cakes, buckwheat cakes or mashed potatoes.

Things which are hard to get, either because they are scarce or costly, are luxuries. Things which are easily obtained are not valued as they often should be. We long for something new. In each breast there is a wish we scarcely would care to own, for something better than we have known. Time changes our appetities and aspirations. Circumstances also alter our views and desires.

Twenty years ago when we regarded oysters as the greatest of all luxuries on the prairies, we were surrounded by some of the finest horses on the continent. In the cities only they who were most prosperous could afford to buy and keep a horse. The man who kept two horses in town was regarded as a rich man. Now that electricity is furnishing very cheap transportation in cities, horses have become very cheap, and the days of stylish turn-outs are numbered.

Only a few years ago the diplomats, society leaders and political somebodies were distinguished in the national capital, in great measure, by their equipages, their footmen and their liveries. Society on wheels would furnish the leading of an amazingly entertaining little volume if one could but collect the bits of history, shreds of romance and, often enough, harassing financial data, that lie back of and environ many of those turn-outs on which the harness jingled loudest.

Probably never outside of a foreign court was greater style ever observed in the matter of equipages than that with which old Baron de Bodisco delighted the residents of this city in the days long ago when he represented the court of Russia as minister plenipotentiary to this country. Living always in splendid style commensurate with his wealth, the baron, on his marriage to the beautiful young Miss Williams, set up a magnificent coach drawn by milk white horses. Gradually, as children were born to the minister, he added to the number of his team, until six white horses driven tandem in pairs was the sight that attracted attention whenever Baron and Mme. de Bodisco took their airing in the fine coach to which liveried outriders gave the finishing touch of splendor.

To go from matters grave to gay but a step is needed to chronicle mention of the weird vehicle, the black-plumed hearse, in which one of the earliest French ministers was compelled, in default of another conveyance, to ride from the legation to a dinner party on Georgetown heights. The instance has long since become a matter of history as to how, it being found at the last moment that no carriage could be secured for the minister, he declared rather than disappoint his prospective entertainers he would avail himself of the only vehicle then left in the livery

SOCIETY ON WHEELS.

stable. The road from Washington to Georgetown was none of the best in those days, and the minister's thoughts now and then may very naturally have taken a funereal turn as he bounced from side to side in the hearse, jolting over the stony byways and ruts.

Did you ever hear about President Arthur's Indian pony, and his first ride on Pennsylvania avenue? While President Arthur was in the Yellowstone park in 1883, an Indian chief gave him a handsome aboriginal pony. One morning in March, 1884, President Arthur sent for his pony, saying that he would ride to the soldiers' home and back before breakfast. President Arthur was a tall man, and the pony being rather short the chief executive found confronting him the problem of how best to accommodate himself to the circumstances. The pony, however, cut short any further doubt or musing by making a bolt through the white house gate, keeping up such a break-neck pace, unmindful of whip, spur or reins, that Gen. Arthur always declared was too much in the nature of a dreadful nightmare even to dream of wishing for a repetition.

Attorney General Williams had a landaulet which was wonderfully made. It attracted so much comment and newspaper notoriety that Donn Piatt nicknamed the attorney general "Landaulet Williams," a name by which he is better known until this day than by his proper name. In private conversations here amongst old-timers, the ex-cabinet official is always referred to as "Landaulet Williams."

Some years ago Count D'Arco Valley came to Washington as the minister from the German empire. When his equipage arrived it was housed away; but when his sister, Countess Leopoldine, arrived, a sensation was produced which ramified the entire diplomatic and social circles of the city. The count and countess made a memorable round of calls on the cabinet in a dark-blue paneled carriage, attended by a man in full military regalia. The

PRESIDENT ARTHUR'S PONY.

fellow was really a most splendid looking creature, and when he doffed the long-plumed, gold-bullioned chapeau to open the carriage door for the minister and his sister, unsheathing a glittering sword in military salute, he was a sight long to be remembered.

Unfortunately, however, the amount of attention attracted by this attendant finally became so overwhelming that, finding crowds collecting and barring the way to and from each house before the carriage stopped, the minister was reluctantly compelled to deprive the man of his gaudy strappings, remove the gold stripe from his trousers, the shining metal buttons from his blue coat, the chapeau from his head, and taking the dress sword from his reluctant grasp reduced him to ordinary civilian's attire. It was a great blow to the poor fellow, who never could understand why he could not be allowed to continue wearing the uniform in which he had been accustomed to attend Count D'Arco in his native land.

One of the attaches of the Russian legation, a Mr. Gregor, half a score of years ago gave Washingtonians their first glimpse of a genuine Russian drosky. The turn-out, with the spirited team of horses and dramatic accessories, even to the stolid-looking, big-nosed driver with bushy crop of hair cut straight from ear to ear, standing out like a whisk-broom under his peculiarly flat, low-crowned hat, were imported direct from Russia. The driver's general appearance was an instance in which the picturesque had been obtained without regard to beauty. He was a skillful driver, though, and understood perfectly the art of producing a sensation strangely akin to a panic whenever he elected to dash along the fashionable promenades, the jingling bells of the troika keeping up a musical accompaniment to the leader's dashing pace.

But the day of droskys, uniformed footmen and paneled coats-of-arms would seem to be swift gliding into history. Cabinet ministers, members of the supreme court, including the chief justice, ambassadors, ministers and other dignitaries, freely use the cable and electric cars. Of course, after the theater, the opera, the lecture, or the church services at night, our upper-tendom ladies must have their own carriages to convey them home; but that is for convenience and comfort, and not for style.

Once upon a time there was a senator from New England who constantly employed a public conveyance belonging to a colored man who was a great deal blacker than the ace of spades, or anything else black that you can think of. The ladies of the family called him "Crow," and he never objected to the name. But, one evening after the theater, the senator's daughter thoughtlessly asked an usher to "call Crow." Without reflection the usher cried: "Call up Senator Blank's Crow." This appellation was new to the hacking fraternity, and they laughed uproariously as "Crow" drove up to the door of the theater. The man was mad clear through. He declared that he would not take the ladies home, but a policeman threatened him with arrest unless he did so; and the ladies entered the coupe. Instead of driving them home, "Crow" drove straight to his stable, where he unhitched his team, and compelled the wife and daughter of the senator to walk home, although it was a dark, rainy, dismal night, and near midnight.

SMITH D. FRY.

Novel Flower in Tehuantepec.

A novel flower has been found on the Isthmus of Tehuantepec, which has the faculty of changing its color during the day. In the morning this floral chameleon is white, when the sun is at its zenith it is red and at night it is blue. This red, white and blue flower grows on a tree about the size of the guava tree, and only at noon does it give out any perfume.

A flume six miles long, part of it built on trestles 87 feet high, has been constructed near Cottage Grove, Ore., from a mill in the lumber belt to the Southern Pacific railroad. A million feet of lumber was used in building it, and its capacity is 40,000 feet a day. There is abundant water for it throughout the year.

SPREES AT A CHURCH FESTIVAL.

Contracted for by Subscription in the Rhineland Village of Oberringelheim.

It is a custom of the country in Germany to get drunk at the consecration of a new church. This custom has been regarded as unlovely and unChristian by many influential Germans of the new school, most notably by Emperor William II., but still it remains unreformed, and the comic weeklies do not tire of depicting the scenes, in and out of the police court, that follow the consecration sprees and fights. Some three weeks ago the festival of a new church was celebrated in Oberringelheim, in the Rhine country. In anticipation of the usual trade in exhilarating liquors a saloonkeeper who does business near the sacred edifice advertised thus in the Rhineland Observer:

"Jacob Muller herewith pledges himself for a subscription price of three marks (75 cents) to serve every one of his guests with as much wine as he can drink on the occasion of the church consecration.

"Inviting my friends and patrons to visit me in response to this request, I remain, respectfully yours,

"Jacob Muller."

Within an hour after the newspapers containing this advertisement appeared, 39 citizens of little Oberringelheim bought subscription tickets from Muller. At the current price of ordinary loose wine in the Rhine country, each of the 39 and their colleagues in this speculation had to drink 16 large glassfuls before he could begin to benefit by the subscription tariff. The final results of the speculation cannot be known until the police court reports of the Oberringelheim district arrive with the newspapers from the continent.

LIFE IN THE GREAT CITIES.

Its Tendency Is Not to Enervate Nations.

And as to the tendency of the growth of great cities to enervate nations there is no proof of it at all unless we identify the life of great cities with the passion for idleness and pleasure and self-indulgence, which sometimes, but by no means universally, accompanies their growth, says the London Spectator. When you get a large proletariat living, as that of ancient Rome and possibly of Nineveh and Babylon did, on the alms of the rich and powerful, then no doubt you have the conditions of a thoroughly unnatural and unhealthy life, and no one can wonder at the rapid decay of such cities and of the nations which gloried in them. But where the honest working class far outnumbers the proletariat, where the middle classes of distributors and manufacturers and professional men are laborious and energetic, and even the class that lives on its accumulated wealth contains a considerable sprinkling of serious and disinterested workers, we do not believe that there is the smallest evidence of any greater danger in the life of the city than in the life of the agricultural village of the pastoral tribe. Indeed, we should regard Olive Schreiner's picture of the life of the modern Boers as indicating a condition of things more prolific of morbid elements, with its almost complete absence of any stirring or active intelligence, than any kind of modern life that is honestly laborious at all. The Boer life is too sleepy, too destitute of stirring thought or effort, to be altogether natural. It needs at least the old element of danger and necessary vigilance to render it even bracing.

MIXTURE OF STRANGE BLOOD.

Few Reigning Families of Same Nationality as the People Governed.

There is hardly a reigning monarch in Europe whose family is of the same nationality, absolutely, as the people governed. The house of Austria is really the house of Lorraine, and even in their origin the Hapsburgs were Swiss. And if Emperor Francis be not, strictly speaking, an Austrian, still less is he a Hungarian, although he is a king of Hungary, says London Tit-Bits.

The king of Belgium is a Saxe-Coburg, the king of Denmark a Holsteiner, the infant monarch of Spain is a Bourbon, the king of Italy a Savoyard, the king of Roumania and Prince Ferdinand of Bulgaria are both foreigners, the founder of the Bernadotte dynasty in Sweden was born at Pau less than a century and a quarter ago, the czar is a Holstein Gottorp, and the king of the Hellenes is likewise a Holsteiner.

Even in England's royal family there is very little English blood left. The Hohenzollerns were originally Suabians, and, therefore, partly Bavarians and partly Swiss. Neither was the historic house of Orange, in which patriotism has nearly always been the first instinct, Dutch to begin with.

Making War Balloons.

Women make the aerostats, or war balloons, used by the British government, and also do some part of the roping of the balloons. They work in sheds built specially for the purpose. There are about 35 women engaged, and all earn good wages. They are mostly the wives and daughters of soldiers, and have all been carefully trained by the superintendent of the balloon department. The making of the balloons requires a very delicate touch, one thin film of bullock's skin having to be laid over another with the greatest care. The ends of the ropes have also to be woven into each other with extraordinary deftness.

Isolated Weather Station.

Rockall, a desolate granite rock rising only 70 feet above the sea, between Iceland and the Hebrides, is to be made an English meteorological station. It lies 250 miles from land, the nearest point to it being the little island of St. Kilda, 150 miles away, and itself nearly 100 miles from the main group of the Hebrides. Rockall is in the path of the cyclonic disturbances on the Atlantic, and the station there would give timely warning of storms approaching the British coast.

Eternal Vigilance.

"Eternal vigilance is the price of liberty." It is the price of everything worth having. It is the price of life itself. A man needn't be always looking for danger, afraid that something will happen to him, but a wise man will form a habit of care about the important things of life.

It isn't half so much trouble to take care of yourself as if is not to. A man who follows regular, healthy habits, feels good all the time. Life is worth living to him. But a man who "don't want to bother" with taking care of himself has more pain and misery crowded into one day than a good healthy, hearty man who lives right would ever know of in a whole year.

When a man's stomach is out of order, and his digestion don't work; when his liver gets to be sluggish and won't clear the bile out of his blood, it is time for him to look out for himself. He gets no nourishment out of his food. His blood gets thicker and thicker with impurities. His nerves get irritated. He loses energy and fighting force.

He may say, "I can stand it, I will feel better to-morrow;" but the chances are he will feel worse to-morrow and worse still next day. He ought to put himself right at once. He needs Dr. Pierce's Golden Medical Discovery. It is made for just this condition. It rouses up the digestive and nutritive organs, and gives them power to extract from the food all the nutritious elements and transform them into rich, nourishing blood. It enables the liver to cleanse out all bilious impurities and pour into the circulation an abundance of highly vitalized blood, full of the life-giving red corpuscles which build up healthy flesh, muscular strength and nerve-energy. It does not make flabby flesh. It is the only suitable tonic and strength-builder for corpulent people.

Professor George Newcomb, of Salem, Mass., says he can cure baldheads by means of the X rays.

THE WABASH "CALIFORNIA FLYER."

Quickest and best service to CALIFORNIA is now offered by the Wabash Railroad in connection with the Atchison, Topeka & Santa Fe Railway. Vestibuled sleeping cars through to Los Angeles without change, making twelve hours better time from St. Louis than any other line, and corresponding time from other points.

For particulars write to any Wabash ticket agent, or to C. S. Crane, General Passenger & Ticket Agent, St. Louis, Mo.

Does your head feel as though someone was hammering it; as though a million sparks were flying out of your eyes? Have you horrible sickness of the stomach? Burdock Blood Bitters will cure you.

IMPROVED TRAIN SERVICE ON THE WABASH.

Taking effect, with change of time, Sunday, November 15th, 1896, trains Nos. 6 and 7 between Peru and Montpelier will be restored running daily, except Sunday, making connections at Peru and Montpelier with trains from and to St. Louis and Detroit.

Polish residents of Chicago celebrate the anniversary of the Polish revolution of 1830.

VIGOR OF MEN

Easily, Quickly, Permanently Restored.

Weakness, Nervousness, Debility, and all the train of evils from early errors or later excesses; the results of overwork, sickness, worry, etc. Full strength, development and tone given to every organ and portion of the body. Simple, natural methods. Immediate improvement seen. Failure impossible. 2,000 references. Book, explanation and proofs mailed (sealed) free.

ERIE MEDICAL CO., 66 NIAGARA ST. BUFFALO, N. Y.

AN ACCIDENT.

Mr. Quintus Hummel, of 118 Michigan Ave., Detroit, tells a War Story of his own Experience, and the Result.

(*From Detroit News.*)

Our representative called at 118 Michigan Avenue, the residence of Mr. Quintus Hummel. Mr. Hummel is a veteran of the late war, and received, in the campaign, an injury which has given him much pain and suffering since. He belonged to a Michigan cavalry regiment and his horse becoming frightened one day reared up, throwing him backward. In falling he struck his spine on a sharp stone, inflicting a deep cut over five inches long. The injury affected the kidneys. About two years ago the left kidney started to bleed, and has been doing so ever since. Mr. Hummel, in a few pointed sentences, gave our representative the following account:

"The accident of my 'war days' left me in bad shape; pain in my back and spine rendered me almost useless, and I was compelled to give up work entirely. I could not turn over in bed without assistance. I have spent hundreds of dollars in various ways trying to find relief. Physicians have told me my spine was honeycombed for 18 inches. I had given up in despair, never hoping for relief, when a friend told me about Doan's Kidney Pills. They have done me a world of good. The pains have disappeared from my back, and the bleeding of my kidney has almost entirely stopped. I know I can never be entirely cured, as I would have to be 'a new man,' but Doan's Kidney Pills have done more to make me feel like 'a new man' than all the other things I have tried in the past years. I have not had any return of the pain or bleeding since using them."

Doan's Kidney Pills for sale by all dealers. Price 50 cents, by mail, from Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, *Doan's*, and take no other.

ATTORNEYS

J. W. WIGHTMAN, Attorney at Law, successor to F. B. Wood. Office over Brown's dry goods store, Tecumseh, Mich.

JOHN E. BIRD, ATTORNEY AT LAW, Office over post office, Adrian, Mich.

B. L. BAXTER,
Counselor-at-Law and Solicitor in Chancery, Probate and Real Estate.
Office with W. J. Ingersoll, Attorney-at-Law, in Peck block, up stairs. Office hours from 9 a. m. to 12 m. Residence, No. 49 W. Chicago street, Tecumseh, Mich.

MISCELLANEOUS.

Rev. and Mrs. R. S. Pardington arrived in Tecumseh this morning for a few days visit.

A. H. Ford, of Bay City, has been visiting his relatives and friends here since Saturday.

E. C. Rogers leaves today for Elkhart, Ind., to take a position with the Stimpson Scale Company.

Rev. David Lewis left Saturday for Litchfield, where he will hold a series of revival meetings.

Capt. Chilson came home last Saturday for the winter. His boat is in harbor at Ogdensburg, N. Y.

Archibald Hamilton left yesterday for Elkhart, Ind., where he will spend the winter with his son, Palmer.

Hear Mr. Stoughton Strong in solo "When we were boys, in "Deestrict Skule."

Rev. B. S. Hudson returned from Morenci Saturday where he has been assisting in revival meetings.

Capt. Chilson reached home Saturday night and seems as well pleased to be at home as his friends are to have him.

You can procure your tickets for the Deestrict Skule at E. F. Kirchgessner's and thereby escape the crush at the box office.

You will find it to your advantage to buy your underwear, gloves, mittens, foot wear, etc., etc., of Harris & Hitchcock.

Mrs. Dolph Heesen was called to South Bend, Ind., the last of the week by the illness of her mother. Word has been received that there is a change for the better.

Mrs. Vicborn, of Albion, joined her husband here last evening, and they will remain to attend the "Deestrick Skule" tonight. They are guests of Rev. and Mrs. W. R. Blachford.

Dolph Heesen left yesterday for South Bend and other points in Indiana on a business trip. He may only be away a few days and his visit may be prolonged until the first of the year.

The second one of the series of dancing parties will be held at the armory Thursday evening. Good music and good management will prevail and a fine time will be anticipated for all who attend.

Have you seen the latest thing out in porous plasters? If you wish to know how they work just ask Ed Holdway and Dave Macham. They have them and take great pleasure in explaining their superiority over others.

The Tecumseh News presented to its readers last week a paper several columns larger than usual. It is well printed and contains beside good reading matter many announcements of the business firms showing their enterprise to reach the people during the holiday season.

The chairman of the Invitation committee of the Christmas party has received a communication suggesting names of friends to whom invitations should be sent. This is very proper and he would consider it a favor if any interested lady or gentleman would kindly send the names of friends either here or away to whom notice of the party should be given.

News was received yesterday of the death of Dr. S. J. Fulton, of Norwich, N. Y. Dr. Fulton lived and practiced medicine in Tecumseh for many years but for the last twenty years has been a resident of New York state. Mrs. Fulton who survives him is a sister of Mrs. A. L. Millis and of the late Mrs. Horace Baker and Dr. Wm. Fisher. This is sad intelligence to the many friends of the family in Tecumseh.

Capt. Hayden received a letter yesterday from Scove Walker stating that he had received his permanent appointment as postal clerk. Scove's many friends in Tecumseh all rejoice with him, the only regret being that he will be obliged to live on the line which will take him away from Tecumseh. His final examination was an honor, his percentage being 98.70. It may well be said that "Uncle Sam" has no more honest and conscientious an employee than Scove Walker.

Be sure you hear King Cole at the Deestrick Skule tonight.

Last Saturday evening while Mr. and Mrs. Peter Marsh were coming along by the little park south of the Episcopal church, some one on a bicycle ran into Mrs. Marsh knocking her down and bruising her considerably. While Mr. Marsh was caring for his wife the wheelman mounted and stole away in the darkness without being recognized. It is fortunate that Mrs. M. was not seriously hurt. An ordinance should be passed requiring those riding wheels after dark to carry a light, especially now they are allowed to ride on the walks.

The program rendered by the Young Peoples' Christian Union at the Universalist church, a week ago Sunday evening, was very interesting and delighted the congregation, which nearly filled the church. It was varied in character and all acquitted themselves with credit. The short historical sketch of the Union from its organization demonstrated what a few earnest workers can accomplish by united effort. This little band would put to shame many similar societies numerically much stronger.

Wm. Smallidge has had his pension restored to him.

Mrs. General Humphrey, of Adrian, is the guest of Mrs. Geo. Tiffany.

Geo. W. Marvin, of the Bankrupt store, is suffering from a slight attack of rheumatism.

John Chamberlain came over from Adrian yesterday to take a position in the Bankrupt store.

The raffle for Harry Richter's fine hammerless shot-gun came off last night at C. A. Wright's drug store. No. 3 was the lucky number and was held by John J. Freeman, treasurer of the Fur Club, the members of which are delighted.

James Lowry has in stock the most complete and finest line of crockery ever seen in Tecumseh. He will present in Tuesday's edition of the Herald a complete description of this part of this part of his business, both in advertising space and reading matter. Watch for it.

Farmers' Social Club.

At the meeting of the club held Friday evening at J. K. Waldron's, the following officers were elected for the ensuing year:

President—John Boyce.
Vice pres.—A. P. Coddington.
Sec. and treas.—Miss Leva Gillespie.

The next meeting will be held on Tuesday evening, Dec. 15th, at the residence of H. B. Roberts. A full attendence of members is desired.

PROGRAM.

Address by the president.
Instrumental music—Bertha Roberts.
Dec.—Ralph Gillespie.
Charade—Mr. and Mrs. Bowen.
Instrumental music—Edith Rector.
Select Reading—Mrs. G. B. Garlinghouse.
Historical questions to be answered by the club.
Vocal Music—Hazel Roberts.
Rec.—Alma Waldron.
Geographical questions answered.
Question, "How can the local clubs best secure loyal support of the measures advocated by the state association from their respective legislators elect," led by Mr. Coddington.

For This Evening.

The ladies of St. Peter's church, assisted by a few gentlemen friends, will present the "Deestrick Skule" at the opera house this evening, commencing at 8 o'clock city time. Following is the program:

Ichabod Brainpusher McKinnon, ye Pedagogue.

James Butler Davidson, William Henry Anderson, Reuben Louder Hicks, Ephriam Lafayette Keyes, Samson Pettibone Harris, Mark Hanna Bidwell, Robbie Rowe Kyle, Jeremiah Hosmer, Willie Trot Crosby, Johnnie Green Rosacrans, Jonathan Zimmerman, Obediah Conklin; Betsy Jerusha Wood, Dorcas Deliverance Hall, Libbie Marier Hicks, Tribulation Harris, Melinda and Belinda Bumpus (twins), Jane Ann Sophier Hardenburg, Patience Penelope Heesen, Amanda Ann Anderson, Sophronia Sisson, Samantha Stout, Keturah Jane Train, Tasy Ann Avery.

Ye Skule Committee and wives: Dr. Hayseed Smith, Squire Kicker Stacy, Deacon Wayback Field, (a widower of six weeks).

MORNING SKULE.

Skule call and roll call—Recitation of ye classes and spelling.

AFTERNOON SKULE.

Examination of classes: speaking of pieces; singing of ye skule; arrival of committee.

P. S.—Tickets to visit ye skule 25c, and 15c for your children except those in arms and they are free.

P. S.—Ye scholars will wear their Sunday clothes.

THE RAILROAD MEETING.

A Well Attended and Enthusiastic Meeting, Addressed by J. B. Townsend and Others.

The railroad meeting at the Armory last evening was well attended and J. B. Townsend, of Lima, Ohio, attorney for the road, used about an hour and one-half of the time in explaining the situation.

He said that the Lima Northern was a continuation of the old Ohio Southern, which starts in Jackson county, Ohio, and now comprises the Ohio Southern and Lima Northern from the Jackson Hill coal fields of Ohio to within three miles of Adrian, where it now strikes the Wabash.

Should the road be built through Adrian and Tecumseh it would tap the C., J. & M. at this place and Tecumseh would be the end of a division. A small round house would be required and some of the crews would require homes here.

From Tecumseh the freight would follow the C., J. & M. west toward Holland, the contemplated lake harbor, and toward Dundee and Toledo for the East.

The Lima Northern is a coal road and has reduced the price of soft coal 65 cents a ton to all the towns, including Adrian, which it has run through.

Mr. Townsend proposes to make to the citizens of Tecumseh a direct proposition as to how much aid will be required to secure the road and states that if the proposition is accepted and Adrian does her share the road will be built.

After some remarks from Mr. Lilley, Mr. Lee and Mr. Temple, the meeting instructed the committee of ten to meet Mr. Townsend at the Lilley State Bank at ten o'clock this morning to hear the proposition.

Short Line to Michigan Points.

Take the Cincinnati, Jackson & Mackinaw R'y for Tecumseh, Jackson, Homer, Marshall, Battle Creek, Allegan and Grand Rapids. Trains leave Tecumseh at 8:45 a. m. and 4:11 p. m., making close connection at Jackson with trains of the Michigan Central R. R. for Lansing, Eaton Rapids, Charlott, Hastings, Grand Rapids and intermediate points.

The Closing.

While I recognize the fact that newspapers are not the proper tribunals in which to try law suits yet I cannot by my silence accept as true the unkind and misleading statements that appear in the letter of Mr. Mills published last week in regard to the differences between Co. C and the Electric Light Co.

The oil lamps used in the armory were put in at the same time as the electric lights and we have burned either as suited our convenience. Co C has never made any agreement to use the electricity exclusively nor was there ever any implied understanding one way or the other about it.

The company have always paid their bills to the Electric Co. in full, and while there was a misunderstanding some months back when both the senior officers of Co. C were away, yet on their return everything was settled and for several months there has not been the slightest difficulty until the following letter was received which explains itself:

Tecumseh, Mich., Nov. 24, '96.
Office of
Tecumseh Electric Co.
All kinds electrical supplies.
To members of Co. C., M. S. T.

GENTLEMEN:

The time is close at hand when we will be obliged to use the current of electricity that has been held with which to serve your lamps, in other places. The large number of lights recently put in private residences with those now contracted for will use our full capacity of current. For the lights in your entire building we get but about $1.00 a month and these same lights when placed in private residences will bring from $8.00 to $10.00. I explain thus fully that you may see why we make the change. If you wish to sell the fixtures you have I think I can find sale for them for you at a reasonable price.

If convenient to you we would like to make the change on Dec 1.

Very respectfully yours,
TECUMSEH ELECTRIC CO.
Per A. W. Mills, Manager.

Mr. Mills, in the letter published last week, makes no reference to the condition of the affairs of the Knights of Pythias, yet he writes them a letter to the same effect as the one sent to Co. C, and they have taken the same legal steps to secure their rights and secured the same injunction.

There is no dispute or never has been between the Knights of Pythias and the Electric Co. and we submit that Mr. Mills had no occasion to resurrect a passing trifling misunderstanding, once satisfactorily settled and when matters had been running without a complaint for months, assign it as a cause for his arbitrary action and notice that our lights were to be cut off.

There never was any more delay in the payment of our electric light bills than there is in any organization where bills are presented and allowed at regular meetings and Mr. Mills has always gotten his pay and always will for any service we get.

Mr. Mills is a good and successful business man and we respect him as such but he has no right to deprive us of our light in order to increase the dividends of an already well paying corporation.

When the above letter was received a committee from Co. C, acting in connection with a committee from the Knights of Pythias, sought legal advice and were informed that the Electric Co., acting under a franchise and contract with the village, were obliged to furnish current for all who asked it at the contract rate of 3-4 cents per lamp per hour, no matter how little or much they used it. If Mr. Mills would look up the law on the subject a little instead of spending his time writing long-winded communications he would know better where he was at.

We had an interview with Mr. Mills which gave us no satisfaction whatever and so rather than be cut off and without our lights and obliged to undertake tedious and expensive litigation to get them restored, we applied for and were promptly allowed an injunction restraining him from cutting off our current.

The young men of Co. C and the K. P's are imbued with the same spirit as were the boys of Boston Common a hundred years ago and want their legal rights and nothing more.

From now on we will let the courts determine the right of this controversy and shall have nothing farther to say in the papers. WILL H. HAYDEN.

High School Happenings.

Gloyd Warner has been absent this week.

Winnie Wilson was absent Monday forenoon.

Wallace Bryan was a high school visitor Wednesday.

After several weeks' absence Albert Rector is again among us.

Mrs. Ed. Rogers and Mrs. Wm. Jordan visited the grade rooms Tuesday.

Grace Austin called on her old schoolmates in the high school Tuesday afternoon.

Another new pupil in the sixth grade, Theodore Grootenhuis. And, still they keep coming.

H. C. Aldag, of Indianapolis, has been inspecting the work in Miss Hartbeck's room for the past week.

The Chemisty class visited the foundry to see the men cast on Wednesday instead of having their regular recitation hour. The class enjoyed it immensely but it is doubtful if the men at work had so good a time.

L. M. Kellogg, Miss Jennie Gallatin and Miss Alice Wimple attended the joint meeting of the schoolmasters' club and association of teachers of English held at Ann Arbor the latter part of last week. They all returned filled with wisdom and enthusiasm for their work.

—Come quick if you want some shingles at cost, most all gone. Some lumber for sale very cheap. Two good houses to rent cheap. A. W. SLAYTON.

—I want to borrow some money for two or three years on good security and will pay interest semi-annually. Drop a card to Lock Box 15, for further particulars.

APPROPRIATIONS.

Total Asked for State Institutions Reaches Over $1,000,000.

Lansing, Dec. 4.—As required by the statute, the boards of control of the various state institutions have submitted to the state board of corrections and charities their estimates for needed appropriations to be asked of the coming legislature for 1897 and 1898, and these estimates have been passed upon by the board. They are as follows:

Michigan asylum for the insane—$31,740; approved at $26,250; not favored, $5,000.

Upper peninsula hospital for the insane—$150,108; approved at $111,623; not favored, $38,885.

Asylum for dangerous and criminal insane—$3,974; approved.

School for the blind—Current expenses for two years, $67,730; approved.

School for the deaf—Current expenses, $150,300; approved; special purposes, $76,-625; approved at $27,525; not favored, $48,-100.

State public school—Current expenses, $62,000; approved; special purposes, $2,-871.75; approved.

Home for the feeble minded and epileptic—Current expenses, $99,700; approved at $88,988; not favored, $13,832; special purposes, $152,200; approved at $146,550; not favored, $5,650.

Industrial home for girls—Current expenses, $35,718; approved; special purposes, $5,970; approved at $4,460; not favored, $1,-530.

Industrial school for boys—Current expenses, $120,000; approved; special purposes, $9,000; approved.

State prison—$30,000; approved.

Ionia reformatory—$13,700; approved.

Marquette prison—$46,500; approved at $32,500; not favored, $14,000.

The appropriations asked for aggregate $1,097,548.55. The board approves of an aggregate of $343,461.55, making a total cut of $124,087.

FOR FUTURE WORK.

Michigan "Sound Money" Democrats to Stay in the Field.

Grand Rapids, Dec. 4.—The sound money democratic state central committee met here and decided unanimously not only to maintain the present organization, but to strengthen and extend it in every county in Michigan. If the silverites nominate candidates for justice of the supreme court and regents of the university next spring and adopt silver resolutions the sound money democrats may put up an independent ticket. A committee was appointed to draft a statement of how Michigan felt in regard to continuing the organization and to urge the national organization to be kept up. The statement will be taken to the Indianapolis conference this week by Thomas W. Wilson, of Jackson, the Michigan member of the national committee.

COUNTERFEITERS CONVICTED.

Sentence of George and Frank Kingston Is Deferred.

Grand Rapids, Dec. 7.—Frank and George Kingston were convicted in the United States court Saturday of counterfeiting, and sentence was deferred pending a motion for a new trial. They are brothers, 33 and 28 years old respectively, and their father was a pioneer of Ionia, where their mother lives. They have been shoving counterfeit $20 bills in Missouri and Arkansas, and were traced by means of a box containing their printing press, dies and other apparatus to Ionia and to their mother's house. The box contained $7,-000 bogus money. It was a dangerous counterfeit.

FISH LAWS ARE VOID.

Supreme Court Declares a Recent Enactment Unconstitutional.

Lansing, Dec. 5.—In affirming the decision in the case of Fish vs. Stockdale, which came from Allegan county, the supreme court declared unconstitutional act 168 of the laws of 1893, to regulate the taking and catching of fish in the inland waters of this state. The original act, which the above amended, applies to inland lakes only, and the object was to extend the provisions to other inland waters. The court finds that the title was defective, in that it gave no notice to the people that the provisions of the original act were to be extended to other subjects.

New Supreme Court Reporter.

Lansing, Dec. 6.—The supreme court has accepted the resignation of William D. Fuller, for the past ten years supreme court reporter. Mr. Fuller, during the time he has been reporter, has published 47 volumes of Michigan reports, including volume 105, which will soon be out, which is equal to one-half of the entire reports printed in the state. The court accepted the resignation, which takes effect January 1, and immediately appointed John A. Brooks Mr. Fuller's successor. He has for several years been assistant reporter.

The Next Senate.

Lansing, Dec. 7.—The next state senate will contain four bankers, six lumbermen, two real estate dealers, three merchants, three insurance men, three lawyers, four farmers, one mine manager, one manufacturer, one sailor, one miller, one stone quarry manager, two ministers. The oldest is 64 and the youngest 31, while the average age is about 47.

Heavy Losses by Hog Cholera.

Adrian, Dec. 7.—Hog cholera is getting in its work in the town of Madison, near here, over 100 fat porkers having died of the disease within a short time, entailing a great loss upon the farmers. More than $150,000 loss was sustained by farmers of that vicinity last year from the same cause.

Young Man Kills Himself.

Ypsilanti, Dec. 7.—Prof. Lodeman, of the normal school, has received word of the suicide of his son Ernest, at a hotel in Mexico, N. Y. The young man had been an instructor in Cornell university. Prof. Lodeman attributes his son's deed to insanity. He shot himself with a revolver.

South Bend, Dec. 5.—The body of Rose Goins, the colored cabin maid whose whereabouts have been persistently sought since the burning of the steamer City of Kalamazoo Monday morning, was found by dragging the river Friday morning.

STATE NEWS.

Interesting Bits of Information from Many Localities.

S. S. Bailey, of Grand Rapids, has invented a horseless carriage.

Miss Sarah Pardee, who had lived at Ypsilanti since 1833, died recently, aged 84 years.

John Fitzpatrick, of Mount Pleasant, who was struck by a switch engine on Thanksgiving day, is dead.

The annual reunion of the Sixth Michigan cavalry will be held at the Bailey house, Ionia, on New Year's day.

It is said the narrow-gauge railroad will be extended from Hartford to Holland by way of Saugatuck next summer.

Dowagiac capitalists propose to dam the St. Joseph river five miles above Niles and furnish power to neighboring villages.

The Standard wheel works at Kalamazoo has resumed operations, employing 200 men, after a close down of several weeks.

Secretary of War Lamont has approved the plans for improving Grand river and has ordered an advertisement for bids to be opened next month.

Cattle and sheep thieves are driving a lively business in Tuscola county. Grain and other farm products also disappear in a mysterious manner.

It is said that Detroit members of the legislature will introduce and support a bill to abolish the office of coroner and put the duties on justices of the peace.

Mayor Richter, of Niles, has vetoed an ordinance which would give the American Telegraph & Telephone company the right to set up poles in that city.

A little three-year-old son of Mr. and Mrs. Elmer Dean, of West Owosso, was burned to death recently. His mother left him in the house while she went to hang out her washing and his clothes caught fire from the stove.

A legislative bill will be introduced to make Berrien county a separate judicial circuit detaching Cass county. Judge O. W. Coolidge cannot find time to hold court in both counties. There are about 200 cases ahead and the October term is not finished.

DEMAND NEW LAWS.

Resolutions Adopted by Michigan Federation of Labor.

Lansing, Dec. 4.—The Michigan State Federation of Labor Thursday demanded the enactment of laws making it a misdemeanor for employers to coerce employes by threatening to either curtail or suspend operations unless a certain candidate is elected; also to reduce the competition of convict with free labor to a minimum. A committee was appointed to confer with the State Wheelmen's league with a view to securing a law requiring that convicts be employed on roads as far as possible. Resolutions demanding free text books and favoring government ownership of railroad and telegraph lines, postal savings banks, the issuing of all money by the government direct and making use and occupancy the sole basis of ownership of lands were indorsed.

FOR LOVE AND HUMANITY.

Miss Coleman Starts for Cuba to Join Her Lover in the Army.

La Grange, Ind., Dec. 5.—Miss Anna F. Coleman, of Noble Center, Branch county, Mich., left this city Friday for Key West, Fla., where she hopes to find passage to Cuba. William R. Needham, aged 23, a Michigan boy, is a soldier in the Cuban army under Maceo. Miss Coleman is Needham's betrothed. A love of adventure led Needham to volunteer his services to the cause of Cuban independence. Miss Coleman will take service with the Cuban army as a nurse, and is hopeful of being attached to the same command under whose standard Needham is fighting.

FOUND IN POTTER'S FIELD.

Wife Discovers Body of Her Long Absent Husband.

Sturgis, Dec. 6.—A little over a year ago W. H. Thomas fell between the bumpers of a Lake Shore freight train and was killed. His remains were buried in potter's field. The local undertaker, after considerable correspondence, succeeded in locating his wife, who now lives in Grand Rapids. She came here, had the remains disinterred and buried in a lot, and ordered a tombstone to mark his grave. Thomas' parents live in a western state, where he married, and he was in quest of work when here. His wife did not know his whereabouts.

Body Found.

Albion, Dec. 7.—The body of the missing student, George W. Nichols, of Galesburg, was found in the northeast of Spectacle lake Saturday morning by George Spalding, who will receive $200 reward. A bullet hole in the left temple shows that Nichols shot himself before plunging into the lake. The young man's father, Melvin R. Nichols, will take the body to Galesburg.

Died in Its Mother's Arms.

Bay City, Dec. 4.—While Mrs. Martin L. Wiseman was lying sick with a six-weeks old infant her husband was sent up 20 days for drunkenness. The nurse left after several days and Mrs. Wiseman, being too weak to care for things, allowed the fire to go out. Wednesday her baby was found dead in her arms. Officer Wyman has engaged a physician and nurse.

Railway Earnings.

Lansing, Dec. 3.—The earnings of Michigan railway corporations for September decreased $160,055 from those of the same time last year, this year's total being $2,403,132. Up to October this year the earnings were $21,-604,997, an increase of $498,464, or 2.31 per cent. over a like period of 1895.

Howell, Dec. 4.—Charles, the 14-year-old son of Joseph Tunnard, was drowned while skating on Thompson lake before school. He broke through the ice. The body was found in 40 feet of water.

HOARD FOR THE CABINET.

Michigan Horticulturists Indorse Wisconsin's Ex-Governor.

Grand Rapids, Dec. 4.—Honorary President T. T. Lyon, of the state horticultural society, on Thursday urged the importance of having a secretary of agriculture of sufficient breadth and character to appreciate the importance of fruit-growing interests of the country, and to give that branch the same encouragement and assistance as other branches. A committee was appointed to draft a memorial to President-elect McKinley on the subject, and the memorial came out in the form of a hearty indorsement of the candidacy of ex-Gov. Hoard, of Wisconsin, for the place. Resolutions were also adopted asking the horticulturists of Illinois, Wisconsin, Ohio and other fruit-growing states to cooperate in the matter. Resolutions were also adopted favoring the replacement of the tariff on summer vegetables, fruits and nursery stock as a protection against Canada. Such imports came in almost duty free, while the Canadians charged a tariff almost prohibitive. The annual session closed with papers and discussions. The society reelected the old officers as follows: President, Roland Morrill, Benton Harbor; secretary, Edwin C. Reid, Allegan; treasurer, Asa W. Slayton, Grand Rapids; executive committee, F. J. Russell, Hart; R. D. Graham, Grand Rapids.

LOW LANDS OVERFLOWED.

Much Damage from Ice Gorge in the Menominee River.

Menominee, Dec. 5.—Heavy rains, followed by snow and freeze-up, are causing trouble up the Menominee river. The river from Fischer, some 22 miles from here, north of Twin island, is jammed full of ice, and an ice dam is formed at the former place, which, unless soon broken, will result in great loss of property. Miles of territory are already overflowed. The large farm of the Kirby-Carpenter company is covered with water from four to six feet deep. Farmers have lost much stock, and winter provisions stored in cellars are damaged. In one place near the Cedar river the overflow has changed the course of the Menominee and the greater bulk of its waters are now flowing through the Cedar river channel, which has greatly swollen that small stream, causing it to overflow its banks.

BIG LUMBER MILL SOLD.

Forster & Burns Pay $20,000 for a Plant at Menominee.

Menominee, Dec. 3.—The Blodgett & Davis mill, with a capacity of 35,000,000 feet per season, has become the property of Forster & Burns; consideration, $20,000. The mill has been idle during the past season. The new firm will put in a stock of 17,000,000 feet of logs on the Michigamme and Menominee rivers; besides this, enough more to make 25,000,000 to 30,000,000 will be brought in by rail. The Forster Lumber company of Milwaukee, of which the gentlemen comprising the new firm are members, owns a large amount of stumpage in the Lake Superior district, from which the property for another year will be drawn both by rail and by rafting.

BOYS DO GOOD WORK.

Satisfactory Showing of State Industrial School.

Lansing, Dec. 5.—During the last two years, ending June 30, the state industrial school for boys in this city has received 650 boys, and has released on full discharge 306, on leave of absence, 307, of whom six have returned as improper subjects and three have died. There have been no escapes. In the annual report of the institution, which has just been submitted to Gov. Rich, the trustees assert that the work of the past two years has been most satisfactory in every respect, and that they have the satisfaction of knowing that no school of its kind in the United States stands the peer of the one with which they are connected.

Pottawatomies Paid.

Decatur, Dec. 6.—A distribution of $118,000 in delayed annuities since 1866 is now being made among the 272 members of the Pottawatomie tribe of Indians in southwestern Michigan. Many of the Indians are squandering their newly-acquired wealth, but the band at Athens will devote its share to the erection of a handsome church.

Ore Shipments Suspended.

Ishpeming, Dec. 4.—The Lake Superior & Ishpeming railroad has suspended ore shipments for the winter season, and all construction work has also been stopped. The company has not yet decided to extend the line to the mines during the winter, for which about five miles of track would be required.

Awarded Damages.

Edwardsburg, Dec. 4.—Three years ago Mrs. Evaline Aldrich, of this place, was burned to death in the terrible railroad wreck at Battle Creek. In a suit for damages the administrator has received a verdict against the Grand Trunk in Cass county circuit court for $1,110.

Wants No Demonstration.

Lansing, Dec. 7.—Considerable disappointment is felt by the people of this city because of the refusal by Gov. elect Pingree to permit any demonstration upon the occasion of his inauguration January 1, arrangements for which had been going on for several weeks.

Killed Himself.

Mount Clemens, Dec. 1.—Charles Bayless, manager of the street car system here, killed himself by shooting at the Avery house. Unhappy relations with his wife are assigned. He came from Muncie, Ind., and his relatives live at Bessemer, Mich.

Lansing, Dec. 7.—The Michigan Medical Legislation league is preparing to go before the legislature this winter with a bill which will tend to prevent quacks and fake doctors from practicing in the state in the future.

CURRENCY REFORM.

A Formal Call for a Conference Is Issued.

It Will Assemble in Indianapolis January 12—Objects of the Gathering Are Projectors.

Indianapolis, Ind., Dec. 5.—The executive committee in charge of the arrangements for the currency reform convention to meet in this city on January 12 agreed upon a form of call. The call, which is as follows, is signed by representatives of boards of trade and other commercial bodies in Cincinnati, Chicago, Cleveland, Columbus, Grand Rapids, Indianapolis, Louisville, Milwaukee, Minneapolis, St. Louis, St. Paul and Toledo.

"The representatives of the boards of trade, chambers of commerce and similar commercial bodies of the cities of Chicago, St. Louis, Cincinnati, Milwaukee, Minneapolis, St. Paul, Louisville, Columbus, Cleveland, Toledo, Grand Rapids and Indianapolis, in conference assembled at the city of Indianapolis on the 1st day of December, 1896, after due deliberation, do hereby call a nonpartisan convention, to meet at the city of Indianapolis on the 12th day of January, 1897, to be composed of representative business men chosen from boards of trade, chambers of commerce, commercial clubs or other similar commercial bodies in cities of 8,000 or more inhabitants, according to the census of 1890, the basis of representation to be as tabulated and in accordance with the population of said cities, for the purpose of considering and suggesting such legislation as may in their judgment be necessary to place the currency system of the country upon a sound and permanent basis. In behalf of this call the conference submits that the fact that necessity for such legislation exists is generally conceded by business men.

"It is the right and the duty of the business men of the nation in a matter of such vital business concern to render to this cause all the aid which their experience and knowledge can afford. These owe it to themselves as citizens of the republic and as a matter of business self-preservation to participate actively, and, we believe, efficiently, in this movement. The business men have been accused of neglect of political duties; in ordinary times there may be some foundation for this charge, but at every critical juncture in the history of our country when the nation's perpetuity, honor or general welfare was seriously in danger they have in the spirit of enlightened patriotism risen to the full measure of their duty; and we believe that the painful experience of the country under the existing laws on the subject of the currency admonishes the business men that we have reached a point where it is their duty to take an active part in helping to solve the great questions involved.

"And we have a right to believe that a convention composed of broad-minded and enlightened business men, so earnest in the pursuit of truth that party considerations will be forgotten, convening in the spirit of enlightened patriotism, can and will do much in helping forward a wise and sound solution of the currency question.

"We are also justified in the light of the recent presidential election in saying that the voters of the nation are opposed to any plan of currency reform involving the use of any money which will place in jeopardy the honor or credit of our country

"Accepting these as conclusions from the recent manifestations of public opinion, we cordially and earnestly invite your organization to choose and send with proper credentials your representative business men to the proposed convention. Please appoint only those who will attend, and report the names of your delegates, as soon as practicable, to H. H. Hanna, chairman of executive committee, Indianapolis, Ind."

THE PUBLIC DEBT.

A Net Increase During the Month of November of $8,200,333.

Washington, Dec. 2.—The debt statement shows a net increase in the public debt, less cash in the treasury, during November of $8,200,333.16. The interest-bearing debt increased $60; the non-interest-bearing debt decreased $15,300, and cash in the treasury decreased $8,215,663.16. The total cash in the treasury was $835,961,579.81; the gold reserve was $100,000,000; net cash balance, $125,357,098.47. In the month there was an increase in gold coin and bars of $14,203,268.71, the total at the close being $169,527,101.34.

Favor Cuban Independence.

Dallas, Tex., Dec. 7.—The Dallas Free Thinkers' association, the strongest organization of the kind in the United States outside of New York city, passed a series of resolutions in favor of Cuban independence. A memorial was adopted to be sent to President Cleveland and the two houses of congress urging immediate and practical action in behalf of free Cuba. The association pledged physical and moral aid to the revolutionists.

A Negro's Bloody Deed.

Memphis, Tenn., Dec. 7.—A negro named Davis, while out hunting with the two sons of his employer, Joe Williams, aged 15 and 13 years, near Pine Bluff, Ark., attacked the boys with a knife, cutting the throats of both and crushing the skull of the oldest. The elder boy is dead and the other cannot live. The negro escaped.

Froze to Death.

Sioux City, Ia., Dec. 3.—While riding on the platform of an Omaha train between Merrill and Hinton Tuesday night Sheriff W. E. Herron, of Plymouth county, a well-known politician, was thrown off and so seriously injured that he could not move. He froze to death before help came.

Voted for Bryan and Sewall.

Jackson, Miss., Dec. 3.—The presidential electors met here Wdnesday afternoon, in accordance with the state law, and cast the vote of Mississippi for president and vice president for Bryan and Sewall. They will meet again in January as per the federal law.

Theater Burned.

Muscatine, Ia., Dec. 4.—The Columbia theater was totally destroyed at an early hour Thursday morning. Loss, $35,000, with insurance at $7,500.

GROUND FOR CONFIDENCE.

Decline in Business Failures Regarded as a Hopeful Sign.

New York, Dec. 5.—R. G. Dun & Co., in their weekly review of trade, say:

"The classified failures for November, given to-day, show a gratifying reduction compared with October, and are especially [illegible] during the presidential campaign, which swelled failures $36,000,000 in August and September, did not prevent quick return to a monthly aggregate scarcely greater than that of May. Defaulted liabilities in 11 months have been $188,788,459, against $148,844,202 last year, the increase being only $14,000,000 outside of those two months, and this remaining increase of only 10 per cent. was also due in part to the alarm during the campaign. The decline of failures to about 40 per cent. of the September aggregate gives stronger ground for the confidence so generally expressed. Failures for the week have been 279 in the United States, against 324 last year, and in Canada 56, against 52 last year.

"Ground for confidence is also found in the abandonment of two of the largest combinations by which the iron industry has been retarded and the possibility that two others will be abandoned. Such a state of things within a month after the election suggests that these organizations, formed when depressed business failed to support all the works in existence, are not expected to survive a general revival and ample demand for products. The immediate effect of breaking prices is to check buying of iron and steel products, but it will soon be seen about where prices are to range. At present the base price for wire nails is $1.25, against $2.55 two weeks ago, with greater reduction on small sizes, because new cards reduced "extra" charges. Beams are selling at $1.35, against $1.55 two weeks ago, and there are sales of billets below the fixed price. The bar combination is still undersold by steel bars at 1.1 cents, and nothing is doing in rails, because the meeting shortly to be held will settle whether any price shall be fixed for the next year. Bessemer pig at Pittsburgh is lower, at $11.65, and gray forge at $10, but there is large demand for vessel plates, both on foreign contracts and for the lakes. Several thousand cars have been ordered and numerous new buildings and bridges.

"The volume of business shown by clearing house returns was for the past week nearly 1 per cent. over last year, and for the month of November 3 per cent., and 11 per cent. less than 1892, the comparison being the best for the past five months."

PENSION AFFAIRS.

Assistant Secretary of the Interior Reviews the Work.

Washington, Dec. 7.—The report of Assistant Secretary of the Interior Reynolds for the present year shows the policy pursued in the administration of pension affairs. The assistant secretary says: "The liberal and generous spirit which prompted the enactment of the pension laws has been the guide of the department in their construction. Former adjudications have not been disturbed, save where fraud, error in law or mistake was apparent."

Figures are cited to show the significant reduction in pending cases and to demonstrate that, for the first time in eight years, the work of the office during the last year was devoted to considering current appeals. The action of the commissioner of pensions was reversed in 2,066 of the cases ruled.

Suggestion is again made as to the advisability of such legislation as will lodge in the federal courts the right of anyone, on behalf of the government, to ask better protection to the pension fund of those laboring under legal disabilities.

It is suggested that justice demands the universal application of the common-law rule in proof of marriage. State laws govern, and lead to denial of title in cases which are equally meritorious. It is claimed pensionable rights of minor children, whose claims come under the act of June 27, 1890, should be defined with more certainty where the soldier dies leaving no widow surviving.

The act of August 5, 1892, relates to pensionable title of those women who served as nurses during the war of the rebellion. Title is confined to those who served in regimental post, camp or general hospital. The refusal of the war department to recognize those as properly employed who served in the first three classes mentioned tends to defeat their title and renders this portion of the act nugatory. Attention is invited to this in order that proper legislation may be enacted to relieve any deserving claimants of an unjust and unintentional discrimination.

WANTS RECIPROCITY.

Canada Asks That Quarantine Against Cattle Be Abolished.

Ottawa, Can., Dec. 7.—Hon. A. S. Fisher, minister of agriculture, will be in Washington on the 15th or 16th inst. He goes to discuss with the American authorities the question of abolishing the international quarantine against cattle. If the American government will agree to abolishing the quarantine against Canadian cattle it is understood that Mr. Fisher will agree, on behalf of the Canadian government, to abolish quarantine against American cattle.

McKinley Will Be There.

Canton, O., Dec. 3.—Gen. T. S. Clarkson, commander in chief of the G. A. R., invited Maj. McKinley on behalf of the old soldiers of the country, 95 per cent. of whom, he said, supported the republican candidate, to attend the national encampment of the G. A. R. at Buffalo, on the 23d of August, 1897. Maj. McKinley said it would give him great pleasure to be present. This is the first engagement he has made since his election.

Two Men Lynched.

Lexington, Mo., Dec. 7.—At about one o'clock this morning a mob of Ray county farmers broke into the county jail here, secured Jesse Winner and James Nelson, held for the murder of Mrs. Winner and her two babes, and lynched them. The crime was committed six weeks ago.

Five Men Killed.

San Antonio, Tex., Dec. 7.—A head-end collision between two through freights on the Southern Pacific road near Waelder yesterday morning resulted in the death of two engineers, two firemen and a brakeman.

Bank Note Circulation.

Washington, Dec. 2.—The monthly statement of the comptroller of the currency shows that on November 30 the amount of national bank notes in circulation was $235,312,103, an increase for the month of $414,446 and for the last 12 months of $21,440,907.

UNCLE SAM'S NAVY.

Secretary Herbert Says That More Ships Are Needed.

While Great Progress Has Been Made Towards Strengthening It, We Are in Powers on the Sea.

Washington, Dec. 7.—The secretary of the navy, Hilary A. Herbert, has made public his last annual report to the president on the affairs of his department. The document, while affording much ground for congratulation, is from beginning to end a warning to the country of the insufficiency of its navy for the requirements of war. To show, however, the vast progress that has been made of late years, the report begins by quoting from the president's message in December, 1885, the following words: "We have not a single vessel of war that could keep the sea against a first-class vessel of any important power." It quotes also from a former report of the secretary in which he pointed out the danger of relying on commerce-destroying cruisers as a protection in time of war. The French revolution and the recent civil war are cited as illustrations of the fact that preying on a nation's commercial marine has no effect on the course nor the results of a war.

Work of the Administration.

The secretary's report shows that congress has authorized the building of 29 vessels since this administration began. There were five battle ships, six light-draft gunboats, 16 torpedo boats and one submarine torpedo boat, with a total displacement of 65,868 tons. During the administration there will have been placed in commission three first-class and two second-class battle ships, two armored cruisers, four double-turreted monitors and one harbor defense ram, a total of 12 armored vessels, with a displacement of 81,517 tons. In addition to these armored ships, eight cruisers and three gunboats will have received their first commission, making a grand total of 23 vessels, with an aggregate displacement of 118,134 tons. During the year eight vessels have been finished and accepted.

More Vessels Being Built.

The report shows 21 vessels, including seven torpedo boats and one steam tug, under construction. The tug is to be completed this month, and 14 others are to be finished during 1897. There are 42 vessels in commission, with a total tonnage of 127,859 tons. June 30 there were 8,165 enlisted men and 1,378 apprentices in the navy. Of the enlisted men 72 per cent. are citizens, and 82 per cent. of the apprentices are American born. The secretary urges an appropriation to enable the department to convert boats in the merchant marine into war vessels in case of need.

Praise for Naval Militia.

Considerable space is given to a favorable report on the naval militia, which has 3,339 members in 15 states. Naval officers agree that the naval militia will be a powerful adjunct for coast defense in case of war. An extensive system of mobilization and defense has been prepared and will be communicated to the militia.

He reports that the department expended, exclusive of money for public works, for the year ended June 30, the sum of $13,002,625.41. The appropriations for the current year are $36,500,000, and he estimates the expenditures at $29,311,000. The grand total of his estimates for 1898 foot up $34,215,000.

Mr. Herbert recommends the construction of three light-draft battle ships and says in relation thereto: "Battle ships that could enter the harbors of Savannah, New Brunswick, Key West, Tampa, Pensacola, Mobile and the mouth of the Mississippi at all times would have an immense advantage over the battle ships of foreign nations, few, if any, of which could enter these ports. Light-draft battle ships, if we had them, could make any of these ports bases of supply, could sally forth from them or retire into them at will, and could therefore almost always offer battle on their own terms. There are also many of our ports farther north which would give the same advantages to such ships."

THE TURNPIKE WAR.

Kentucky Mobs Continue Their Destruction of Tollgates.

Harrodsburg, Ky., Dec. 7.—A mob of men armed with shotguns and axes, rode through Mercer Saturday night and chopped down six tollgates. Over 300 tollgates have been burned or chopped down since the turnpike war began in Washington county three months ago, and as yet only five arrests have been made. No convictions resulted from these. The gates destroyed represent 1,500 miles of turnpike valued at $4,000,000, and the state and county authorities have furnished no protection whatever.

WHOLESALE POISONING.

Nearly One Hundred Families in Milwaukee Affected.

Milwaukee, Dec. 5.—The health department reports a wholesale poisoning of families in the northern part of the city. According to reports which reach the health department members of about 100 families are ill, with all the symptoms of arsenical poisoning. The people who are sick had eaten bread purchased at a bakery establishment on Sherman street, and the physicians and officers of the health department are inclined to attribute the origin of the wholesale poisoning to that source.

Orchards Ruined.

Sioux City, Ia., Dec. 7.—Information is just beinning to reach here of the enormous loss to orchards as a result of the present storm in the northwest. The snow was preceded by a storm of rain and sleet, which froze to the trees, breaking off the limbs, and, in many cases, even splitting the trunks almost to the ground. Within a radius of 50 miles of Sioux City the loss is said to amount into the hundreds of thousands of dollars.

Bismarck, N. D., Dec. 7.—The total vote of the state in the recent election was 47,381, of which McKinley received 23,336; Bryan, 20,689; Levering, 356. McKinley's plurality is 7,647.

Drowned While Skating.

Hartford, Conn., Dec. 7. — William Bourke, 7 years old; Josie Bourke, 11 years old; Daniel Ryan, 6 years old, and Martin Burns, 10 years old, were drowned here while skating.

TECUMSEH, MICH., DEC. 8, 1896

The article in the HERALD of November 27th regarding the failure of the Mabley establishment, in Detroit, has been copied by almost every county newspaper in the state. The truth, as well as gossip, is bound to spread.

The people of Tecumseh seem to take the idea of a semi-weekly very easily and nicely and in this issue may be found a number of new advertisements which have walked in without any solicitation. In fact so many that there is now no more space to be let in the Tuesday edition. Several advertisers have already been taking locals because the space was all filled. This indeed is a pleasant state of affairs.

FOR TWENTY YEARS.

A Long and Successful Business Career Unbroken by Anything in the Line of Failure.

Such has been the history of the business career of Tecumseh's well-known grocery and crockery dealer James Lowry. Just twenty years ago this fall, after closing a very successful apprenticeship and clerkship in the grocery line, he embarked in business for himself, starting in a small way and with small capital; but by judicious business management and hard labor he proceeded to use tact and good business methods in place of large capital and made a success under the same circumstances in which nine men out of ten would have made a failure. Business kept constantly increasing until about seven years ago he was obliged to occupy a second store. This room has been used since as an exclusive crockery department and is not only the largest in Tecumseh but will rank more than even with any other in the county. Mr. Lowry being confident that to have a full assortment of goods means to sell them, has made special effort this fall to stock up this department of his business in such a manner that any person who has any money to spend for the holiday season can spend it successfully and to their pleasure in his crockery store. His invoices of china have been imported direct from France, Germany and Australia, besides everything of value to be found from the manufacturers of this country. The porcelain and granite comes from England. Cut glass also from this country, and in all the invoices the complement of assortments and prices is complete. Especially fine are the styles of odd pieces, such as cups and saucers, creamers and sugars, in all comprising some 600 patterns. The line of jardiniers is more complete than was ever before found in the county and are especially beautiful on account of the cheapness in price. In lamps the range is complete from the finest banquet lamp at almost any price you want to pay, down to the hand lamp at less than a quarter. Before the holidays it is well nigh impossible for people to find out what would be the most acceptable and appropriate for gifts, but when one seee the beautiful stock and immense assortment in Mr. Lowry's crockery store, the task is easy. The HERALD representative is informed that the goods for the holidays are now unpacked and that everyone is invited to call and see them.

Alvinza Whelan.

The subject of this sketch was born to John and Freelove Whelan in the township of Franklin, Feb. 16, 1835. Until he reached his majority, he remained on the farm with his parents, where with the counsel and instruction of his father, he became fully equipped for the life work he chose, that of tiller of the soil. In January, 1856, he was married to Miss Adelia Witherell, and started out for himself on a farm given him by his father, which under his skillful management was brought to a high state of cultivation, and upon which he erected fine and commodious barns and other out-buildings. Here his sons were born and reared to manhood. Mr. Whelan was a man of the strictest integrity and in all his transactions was governed by a sense of the brotherhood of man. In October, 1894, after 38 years spent on the farm, he purchased the property on West Chicago street, Tecumseh, which has since been his home.

On the 7th day of July last he was taken sick with pleurisy, which medical skill seemed unable to control. In October he was taken to Detroit hoping a change of scene and the most skillful medical treatment might prove beneficial, but it was not so to be. The disease assumed many forms and he gradually grew weaker. Soon after his return home he had an attack of apoplexy and he passed away, surrounded by his loved ones, about 6:30 a. m., Dec. 1st. The widow and two sons, John and Howard, survive him. The funeral was held at the house, Thursday afternoon, Dec. 3, Rev. E. Andrus officiating, and the remains placed in the cemetery here.

'ROUND ABOUT US.

Clippings and Condensations From our County Contemporaries.

Reports to the state board of health show that neuralgia, rheumatism, bronchitis, tonsilitis, and influenza, in the order named, caused the most sickness in Michigan during the past week. Consumption was reported at 227 places, typhoid fever at 44, diphtheria at 42, scarlet fever at 31, measles at 21, and whooping cough at 10 places.

Wm. and Ellen Howlett, of Kent county were married forty-four years ago, and of the fourteen children born to them, twelve are living. Howlett is 79 years of age, and Mrs. Howlett 66. The aged couple are having a lawsuit relative to property matters, and the wife has commenced divorce proceedings against her aged hubby.—State

The name of our old friend A. W. Smith, is mentioned in connection with the position of postmaster at Adrian, and those of all shades of political faith say, Amen. For a quarter of a century the genial "Doc" has been a faithful standard bearer of the republican party and if "the laborer is worthy of his hire" it is time he began to draw the pay.—Addison Courier.

Of all the roots with which horses are tempted, the carrot, as a rule is the favorite and perhaps the most beneficial. It is said to be somewhat diuretic in its effects, and to exercise salubrious influence on the skin. Certain it is that a sick horse may be coaxed into eating carrots when disinclined to partake of other nourishment, and the greatest benefit results. For the ailing horse the crrrots are most valuable as an article of diet and a few may be given with advantage even to a horse in healthy condition.—Addison Courier.

Who is a merchant? He is the man who helps pay for the streets upon which you walk; for the schools in which your children and perhaps yourself were educated; he helps to keep up the church in which you worship; he is the man who builds a house and enhances the value of your property; every subscription paper that is passed his name is on it; he is the man who can't afford to swindle you, self interests if nothing else would prevent this; he bears his share of the burden of good government and stays with you in sunshine and darkness, in days of prosperity and adversity. These are but a few reasons why our patronage should be given to the home merchant.—Exchange.

Nose parties are among the latest fads. The girls are all concealed behind a curtain, into which small slits have been sliced. Each girl puts her nose through a slit and the young men select their partners for the evening by their noses. Instead of the eyes having it, the noses always have it in this case. There is great advantage in this over the old game of selection by the foot. Then the girl could wiggle her toes a little, stand in some attitude so the fond lover, who anderstood the prearranged signal, could recognize her. No girl, however much accomplished she may be, can wiggle her nose or so dispose or arrange it in the slit that the lover can detect it with unerring certainty.—Morenci Observer.

Attend To Your Eyes

M. B. HIRSCHFIELD, the Optician of Detroit, is now at the Lilley House for a few days. If you are in need of glasses don't let this opportunity go by without consulting him. He examines the eye free of charge and carries a line of glasses that gives perfect satisfaction to all his customers. If you have weak eyes, or are near sighted, or your sight is affected by old age, or if you cannot read at night, just give him a trial and he will fit you as you never were fitted before; also attend to your children's eyes. If you can't call, leave your name and address, and he will call at your residence.

FOREIGN RELATIONS.

Secretary of State Olney Presents an Interesting Report.

He Shows Why Belligerent Rights Should Not Be Accorded Cuban Insurgents—Relations with Germany—Arbitration Treaty.

Washington, Dec. 8.—The report of the secretary of state relative to the president's message is a document summarizing the foreign relations of the United States during the past year. On the Cuban question Secretary Olney has much to say, and this is briefly summarized as follows:

He sets out in great detail the history of the growth of the rebellion, the present evil state of affairs on the island and other facts upon which the president bases his broad statement and conclusions. No reference is made to a report from Consul-General Lee, but the secretary intimates that his information comes principally from the United States consuls, and so must be regarded as confidential as to its source. The secretary's estimate of the present situation is disclosed in the following paragraph, made after a preliminary statement of the destruction of the industrial resources of Cuba:

Insurrection Formidable.

"From whatever point of view we regard the matter, it is impossible not to discern that a state of things exists at our doors alike dangerous to good relations, destructive of legitimate commerce, fatal to the internal resources of Cuba and most vexatious and trying because entailing upon this government excessive burdens in its domestic administration and in its outward relations. This situation cannot indefinitely continue without growing still worse, and the time may not be far distant when the United States must seriously consider whether its rights and interests, as well as its international duties, in view of its peculiar relation to the island, do not call for some decided change in the policy hitherto pursued."

The secretary says that while no prominent seaport has been attacked by the insurgents, a large part of the 2,200 miles of seacoast is practically in their hands, and from its rugged and wild character is peculiarly fitted for guerrilla warfare and affords easy means of receiving clandestine supplies of men and arms. The secretary adds:

"While Cuba, in fact, controlling the large area of the whole island of Cuba, from Cape San Antonio to Cape Maisi, and enjoying practically unlimited use of an equally large part of the coast, the revolutionary forces are scattered, being nowhere united for any length of time to form an army capable of attack or siege and fit to take the defensive in a pitched battle. Assembling suddenly at a given point, often in a single night, they make unexpected sallies or carry destruction to the tobacco and cane fields of Cuba, and at the first sign of pursuit or organized assault they disperse, only to reassemble at some other spot."

As to Recognition.

As bearing upon the question of recognition of the insurgents, probably soon to come before congress in some shape, the following statement by Secretary Olney is of importance as explaining his reasons for declining recognition:

"So far as our information shows, there is not only no effective local government by the insurgents in the territories overrun, but there is not even a tangible pretense to established administration anywhere. Their organization, confined to the shifting exigencies of the military operations of the hour, is nomadic, without definite centers and lacking the most elementary features of municipal government. There nowhere appears the nucleus of statehood. The machinery for exercising the legitimate rights and powers of sovereignty and responding to the obligations which de facto sovereignty entails in the face of equal rights of other states is conspicuously lacking. It is not possible to discern a homogeneous political entity of possessing and exercising the functions of administration, and capable, if left to itself, of maintaining orderly government in its own territory and sustaining normal relations with the external family of government."

In Regard to Venezuela.

Secretary Olney says very little more than does the president in his message respecting the Venezuelan boundary question. He announces, with gratification, that amicable counsels have prevailed to induce a satisfactory result of the attempts to an understanding, and that the boundary question and its associated phases have been at last eliminated, as between this country and England. He gives, however, no inkling of the nature of the treaty, beyond the statement that it provides for honorable arbitration of the whole controversy.

General Arbitration.

Touching the negotiations for a general arbitration treaty for the settlement of all future disputes between the United States and Great Britain, Secretary Olney says that both countries have given repeated proofs of their acquiescence in the great principle involved, not only by treaties between themselves, but severally by concluding like adjustments with other powers for the adjudication of disputes resting on law and fact, the subject was naturally approached in a benevolent spirit of agreement, and the negotiations have so satisfactorily progressed as to foreshadow a practical agreement at an early date upon the text of a convention to the desired end.

Relations with Germany.

Under the head of Germany, the report treats briefly of the exclusion from that country of American meat products. The situation apparently remains unchanged, and there has been no amelioration of the stringent measures adopted by Germany "on assumed grounds of public health" against our cattle. "On the contrary," says the secretary, "the disposition of Germany, visible for a number of years past, to still further impede and virtually inhibit this legitimate traffic is evidenced by fresh restrictive measures, national and local. Their unjustifiability and the erroneousness of the supposed premises on which they rest have been again pointed out, and the healthfulness of our exports supported by amply conclusive proof."

Other Subjects.

Hawaii comes in for a single short paragraph in the report, stating that no questions of importance have arisen; that a few claims for indemnity have been filed in behalf of United States citizens arrested during the last rebellion, and that the final chapter in the history of that attempted revolt was reached in the pardon of the ex-queen.

Other points in the report may be briefly summarized as follows: The Argentine government has settled the Hale claim by offering to pay an indemnity; arrests of naturalized Americans returning to Austria are becoming less frequent; efforts continue for the removal of restrictions on the importation of American cattle into Belgium; there are prospects of a speedy conclusion of arrangements for the completion of the work left unfinished by the Chilian claims commission of 1894; the [illegible] has settled all claims of Americans for losses through the anti-foreign riots, and it is expected that that government will soon consent to a formal recognition of the rights of American missionaries and teachers to full protection in their work and property.

The Presidential Vote.

Washington, Dec. 8.—The presidential vote of each state of the union has been counted and turned in to the various secretaries of state, and the returns show McKinley's total vote to be 7,122,[illegible] Bryan 6,498,857, giving McKinley a plurality of 623,897. In the electoral college the figures are: McKinley, 276; Bryan, 171.

UNCLE SAM'S NAVY.

Secretary Herbert Says That More Ships Are Badly Needed.

Washington, Dec. 7.—The secretary of the navy, Hilary A. Herbert, has made public his last annual report to the president on the affairs of his department. The document, while affording much ground for congratulation, is from beginning to end a warning to the country of the insufficiency of its navy for the requirements of war.

The secretary's report shows that congress has authorized the building of 28 vessels since this administration began. There were five battle ships, six light-draft gunboats, 16 torpedo boats and one submarine torpedo boat, with a total displacement of 65,866 tons. During the administration there will have been placed in commission three first-class and two second-class battle ships, two armored cruisers, four double-turreted monitors and one harbor defense ram, a total of 12 armored vessels, with a displacement of 81,517 tons. In addition to these armored ships, eight cruisers and three gunboats will have received their first commission, making a grand total of 22 vessels, with an aggregate displacement of 118,134 tons. During the year eight vessels have been finished and accepted.

The report shows 21 vessels, including seven torpedo boats and one steam tug, under construction. The tug is to be completed this month, and 14 others are to be finished during 1897. There are 42 vessels in commission, with a total tonnage of 127,859 tons. June 30 there were 8,165 enlisted men and 1,878 apprentices in the navy. Of the enlisted men 72 per cent. are citizens, and 53 per cent. of the apprentices are American born. The secretary urges an appropriation to enable the department to convert boats in the merchant marine into war vessels in case of need.

He reports that the department expended, exclusive of money for public works, for the year ended June 30, the sum of $13,002,625.41. The appropriations for the current year are $30,509,000, and he estimates the expenditures at $29,211,000. The grand total of his estimates for 1898 foot up $34,215,000.

ASKS FOR MONEY.

Secretary Carlisle Sends in Estimate of Expenses for Year '97-'98.

Washington, Dec. 8.—Secretary Carlisle Monday sent to congress the estimates of appropriations required for the public service of the fiscal year ending June 30, 1898, as furnished by the several executive departments.

The estimates foot up $421,718,970.60 against $418,091,073.17 estimated for 1896-97 and $432,421,605.98 appropriated that year. The estimates for 1898 by title are:

Legislative establishment, $4,379,820.90. Executive establishment, $19,865,952.00. Judicial establishment, $907,120.00; foreign intercourse, $3,082,728.76; military establishment, $24,292,636.43; naval establishment, $32,422,773.62; Indian affairs, $7,279,525.97. Pensions, $141,325,580 00. Public works, $31,437,061.92. Postal service, $1,283,334.47. Miscellaneous, $38,344,216.63.

Permanent annual appropriation, $130,078,230.00. Grand total, $421,718,970.60.

The sales of public property of all kinds, mostly condemned and comparatively worthless, during the year 1896, realized $263,196.

Disbursements under the heading "contingent expenses, independent treasury, 1896," amounted to $175,000.

THE BANKING SYSTEM.

Comptroller of the Currency Eckels Makes Some Suggestions.

Washington, Dec. 9.—In his annual report to congress James H. Eckels, comptroller of the currency, takes a firm stand for the retirement of the greenbacks. At the present time there are 3,679 national banks in existence with a total capital of $650,014,895. The total amount of circulating notes outstanding October 31 was $334,553,807. Receivers were appointed during the year for 27 banks and 37 went into voluntary liquidation.

Mr. Eckels suggests that national banks be permitted to establish branch banks in towns and villages where no national banks are established and where the population does not exceed 1,000 inhabitants. He also says that the time must come when banks shall issue all of the credit currency of the country and stand wholly responsible, instead of the government, for its redemption in gold coin whenever and in whatever quantities presented.

Disabled Soldiers' Home.

Washington, Dec. 9.—W. B. Franklin, president of the board of managers of the national home for disabled volunteer soldiers, in his report to congress, says that the whole number cared for at all homes during the year was 40,433 and applications for admission are more numerous than ever before.

Fire Losses in November.

New York, Dec. 8.—The fire losses of the United States and Canada for the month of November amount to $5,211,600, against $5,993,000 during the same time last year. The total losses during the year up to date have been $104,293,500, against $119,820,900 during the same period in 1895.

Cheated the Gallows.

Wilkesbarre, Pa., Dec. 9.—Abram Eckert, who was to have been executed for the murder of Frederick T. Dittenbender, took poison and died in his cell.

Said He Was Innocent.

Seale, Ala., Nov. 30.—Jackson Young (colored) was hanged here for murdering his sister. He died protesting his innocence.

THE MAIL SERVICE.

Annual Report to Congress of Postmaster-General Wilson.

The Excess of Expenditures Over Receipts the Past Year Was $8,127,083—No Necessity, He Says, for an Annual Deficit.

Washington, Dec. 8.—A vigorous protest against the abuse of the postal service is made in the annual report of Postmaster-General Wilson. He quotes figures which show an excess of expenditures over receipts of $8,127,083 for the last fiscal year, which, however, is a decrease in the deficiency of $1,679,956, as compared with the previous fiscal year. This satisfactory exhibit for the last year has been made possible, the postmaster-general sets forth, by a vigorous policy of bringing suit or pushing collection on bonds immediately after default, which is the only safe practice for the interests of the government and those of the obligers.

The postmaster-general argues that there is no necessity for the annual deficit in the revenues of the department, and that but a few lines of amendment by congress to the postal laws will wipe it out and give in its place a steady surplus. It has its chief source, he says, in the transmission at second-class rates of a large and rapidly-increasing volume of matter never in the contemplation of the law, which gives the nominal rate of one cent a pound on such matter, and assuredly outside of the policy of the law as to newspapers and periodicals.

Loss Through Franking.

He characterizes the loss sustained by the franking privilege in transmitting serial libraries, etc., as indefensible, shows that of 846,890,648 pounds of second-class matter handled during the year over 83,345,000 pounds were "county free" matter, and urges the adoption of the Loud bill, now pending in the house, as the remedy. He says the passage of this bill will not only wipe out the postal deficit and insure in ordinary years a surplus which may be used to cheapen postage on letters or to increase the mail facilities of the people, but will really carry out the one-cent-a-pound law of 1885.

The postmaster-general estimates a deficiency in the revenues of the department for 1897 of $3,472,419, and for 1898 of $1,283,334.

Discussing the merits of the postal system, the postmaster-general says the people of the United States may felicitate themselves that in no important respect are they behind any other country in their postal facilities, and in many things they are in the van.

Free Rural Delivery.

The results of the free rural delivery experiments are yet incomplete. Time is required to familiarize the people with the innovation and develop its benefits or failures. The thorough working of such a system involves some redistribution of post offices and some discontinuances which cannot now be safely attempted.

Twelve thousand and ninety appointments of postmasters were made during the year, of which 1,941 were due to removals. There were 198 fraud orders issued during the year.

Lotteries.

The headquarters of all or nearly all of the avowed lottery concerns have been removed to foreign shores, but it is thought much matter sent by them reaches addresses in this country through the mails, which the department practically has no power to prevent, and that express companies carry large sums of money from our people to them.

The postmaster-general concludes his report with two significant recommendations, which he says are necessary to complete the civil service reforms. The first is to secure fixity of tenure during efficiency and good behavior to the three assistant postmasters-general, whose work is entirely non-political, whose capacity to deal with the large machinery and great expenditures of their respective bureaus must come in great measure from experience, and who preserve the continuity of the department, not in the mere desk or division work, but in the general administration.

THE TURNPIKE WAR.

Kentucky Mobs Continue Their Destruction of Tollgates.

Harrodsburg, Ky., Dec. 7.—A mob of men armed with shotguns and axes, rode through Mercer Saturday night and chopped down six tollgates. Over 500 tollgates have been burned or chopped down since the turnpike war began in Washington county three months ago, and as yet only five arrests have been made. No convictions resulted from these. The gates destroyed represent 1,500 miles of turnpike valued at $4,000,000, and the state and county authorities have furnished no protection whatever.

Life Sentence Commuted.

Springfield, Ill., Dec. 9.—Gov. Altgeld has commuted to 20 years in the penitentiary the life sentence of Henry Schwartz, convicted of murder in March, 1887, in the circuit court of Grundy county. Schwartz is said to be in poor health, and his prison conduct is reported to have been exemplary.

Government Receipts.

Washington, Dec. 8.—The total receipts of the government during the past year were $32,499,208.40, and the total expenditures were $90,626,296.84, an increase of receipts over the previous year of $5,516,080.21, and an increase of expenditures of $3,836,124.02.

Well-Known Navigator Dead.

Milwaukee, Dec. 8.—Capt. James Fraser, an old and popular lake captain, died suddenly Monday morning at his residence, No. 2524 Wells street. Capt. Fraser was 63 years of age, and has been sailing on the great lakes since he was 15 years of age.

Was Exonerated.

Cedar Rapids, Ia., Dec. 9.—F. F. Benedict, the station agent at Fairfax, who shot and killed one of three men who attempted a train hold-up Monday night and wounded another, was exonerated from all blame Tuesday by the coroner's jury.

Heavy Judgments Entered.

Allentown, Pa., Dec. 9.—Two executions for $216,166.99 were Tuesday entered against the Catasaqua Manufacturing company. The sheriff will sell four rolling mills and nineteen houses at Catasaqua and Fullerton on January 2.

ROYAL

BAKING POWDER

Absolutely Pure.

A cream of tartar baking powder. Highest of all in leavening strength.—Latest United States Government Food Report.

ROYAL BAKING POWDER CO., N. Y.

Clinton Column.

B. A. Garlinghouse, of Tecumseh, was in town Monday.

J. L. Kishpaugh and wife were up from Britton Sunday.

C. S. Burroughs went to Albion Saturday to spend a few days.

Frank McGuire arrived home from Toledo the first of the week.

A. J. Wilkerson, of Dundee, visited Clinton relatives over Sunday.

Sara L. Huntington was home from Adrian from Friday till Monday.

Little Carl Parker is again suffering from his old trouble, the asthma.

Mrs. Jane VanDeMark has been quite seriously ill for the past few days.

The Standard Cabinet men have rented office rooms of Mrs. W. H. Smith.

L. J. Leek returned Saturday from a few days' visit with his sister at Adrian.

The next regular meeting of the Eastern Star Wednesday evening Dec 16.

Lewis Grey and wife visited friends in Jackson from Saturday till Tuesday.

After a stay of two weeks in Clinton the Electric Belt Co. left Monday for Saline.

Mr. and Mrs. Jas. DuBois, of Britton, were guests of Wm. Hause and wife Sunday.

Willis E. Barnes returned from Chicago last week, expecting to remain here for the winter.

Mrs. Ben Reynolds, of Tecumseh, visited Clinton relatives from Saturday till Monday afternoon.

Robt. Eddy and wife left Saturday for South Bend, Ind., where he has secured work in the woolen mill.

Miss O. J. Hall, of Detroit has been the guest of her sister, Mrs. E. M. English, for the past few days.

George VanTuyle and wife are visiting friends in Cleveland, Ohio. They expect to be gone several weeks.

Alice Halladay left here last Thursday expecting to visit friends at Albion Chelsea, Ann Arbor and Jackson.

Crowel Eddy and Willard Messier, who are attending school here, have a room in Miss Cornelia Ellis' house.

Mr. and Mrs. Jerome Watkins, of Grass Lake, who have been visiting their daughter, Mrs. Sam Larzelere, returned home Monday.

Mrs. Orville Kemp, of Tecumseh, came up to assist her daughter, Mrs. E. M. Cooley, and will remain with her until after the holidays.

Mrs. Louise Gordanier, of Manchester, came down Wednesday afternoon for a two days' visit at the home of her brother, Jas. E. Anthony.

Lizzie Roff, of Washington, D. C., arrived Tuesday night for a visit with her sister, Mrs. Jas. Hause. She expects to remain until after Christmas.

The services at St. John's church during the month of December, will be held in the evening and the singing will be led by the boy choir.

The friends of Mrs. W. D. VanTuyle feel very much encouraged about her, as they have been able to see quite a change for the better within the past few days.

The stockholders of Clinton Plow Co. hold a meeting Tuesday, Jan. 12, at the office of Smith, Richmond & Co.'s Bank for the election of directors for the ensuing year.

Don't Tobacco Spit and Smoke Your Life Away.

If you want to quit tobacco using easily and forever, be made well, strong, magnetic, full of new life and vigor, take No-To-Bac, the wonder-worker that makes weak men strong. Many gain ten pounds in ten days. Over 400,000 cured. Buy No-To-Bac from your own druggist, who will guarantee a cure. Booklet and sample mailed free. Ad. Sterling Remedy Co., Chicago or New York.

Manumit formerly meant to "send away from the hand."

For Pneumonia.

Dr. J. C. Bishop, of Agnew, Mich., says: "I have used Foley's Honey and Tar in three very severe cases of pneumonia the past month, with good results." Orr & Temple.

Baron once meant only a strong man.

Thousands are suffering excruciating misery from that plague of the night, Itching Piles, and say nothing about it through a sense of delicacy. All such will find an instant relief in the use of Doan's Ointment. It never fails.

PENTECOST.

George Fisk and Harry Vanderpool are keeping bachelor's hall. Sort of probation we suppose to see how they like housekeeping.

A distressing accident happened at Tipton last week, resulting in the loss of the left hand, to John Allhouse, while shredding cornfodder for S. Whelan. He has the earnest sympathy of everyone.

A strange and unusual sight, last Sabbath morning, was a man drawing baled hay to the station. Perhaps he had lost his reckoning and thought it was Saturday or Monday. Send him a calendar.

Thursday evening, Dec. 17, Rev. S. D. Wellwood will lecture at Pentecost on the subject of "Books, their Origin, Uses and Abuses." After the lecture refreshments will be served and a social hour enjoyed. Tickets free. All are cordially invited. Members please come at 7 for business.

Arthur G. Daniels, of this place, has received an appointment to a clerkship in the Chicago postoffice. He will be greatly missed, as he was one of the most useful workers in the church, was superintendent of the Sunday school, president of the Sunday school association and Epworth League, as well as a very successful teacher in the common school. His many friends wish him all honor and success in his new home and business.

The funniest election bet of the season has just come to light. The husband hurrahed for Bryan, the wife for McKinley, and they agreed that the one whose candidate won should be "boss" the ensuing four years. At midnight after election the husband came home and found lights out and doors locked, and went to the barn to sleep. When he went to the house in the morning, his wife (who was posted on election matters) looked out of the window and informed him that she was going to run that place for the next four years and that he could come in and warm up on a good breakfast only on condition that he hurrah for McKinley. Charlie obeyed like a man and now all is serene, but he says he will look out how Mrs. Charlie gets the whip hand of him again on an election wager.

The Modern Mother

Has found that her little ones are improved more by the pleasant Syrup of Figs, when in need of the laxative effect of a gentle remedy than by any other, and that it is more acceptable to them. Children enjoy it and it benefits them. The true remedy, Syrup of Figs, is manufactured by the California Fig Syrup Company only.

MANCHESTER.

A little child of Mr. Gumpper, aged five weeks, was burried Monday.

Mrs. Rundell went to Brooklyn to attend the Eastern Star meeting last Friday.

The cheese factory began work Wednesday. Graham and Hageman are the proprietors.

Mr. and Mrs. Arthur Lowery visited in Brooklyn and Woodstock from Friday until Monday.

Seymour Coon returned from Mexico Thursday and will spend the winter with his mother.

H. K. Wilbur, a former pastor of the Baptist church, preached in that church on Sunday morning.

The ladies of the M. E. church hold a fair in the Bessac store Friday and Saturday, December 11th and 12th.

The S. W. Farmers' club will meet at the residence of Col. and Mrs. Fenn, in Bridgewater, Thursday, December 17th.

Mr. and Mrs. C. W. Sandford left for Philadelphia Monday, where they will visit their daughter, Mrs. Clifford Drake.

Mrs. Stout, of Fayette, Ohio, who has been visiting her daughter, Mrs. Hinckley, for several weeks, returned to her home this week.

Dr. Wood's Norway Pine Syrup is pleasant to take, positively harmless to the most delicate constitution, and absolutely sure to cure the most obstinate cough or cold. A household boon.

To insult once signified to jump or dance on a dead body.

Just try a 10c box of Cascarets, the finest liver and bowel regulator ever made.

Scamper originally signified only "to go out of a field."

For Hoarseness.

Benj Ingerson, of Hutton, Ind., says he had not spoken above a whisper for months, and one bottle of Foley's Honey and Tar restored his voice. It is used very largely by speakers and singers. Orr & Temple.

Weekly **The** Monthly

Outlook

Published Every Saturday.

13 ASTOR PLACE NEW YORK

The Outlook will be in 1897, as it has been during each of its twenty-seven years, a history of our own times. In its various editorial departments The Outlook gives a compact review of the world's progress; it follows with care all the important philanthropic and industrial movements of the day, has a complete department of religious news; devotes much space to the interests of the home, reviews current literature; furnishes cheerful table talk about men and things; and, in short, aims to give fresh information, original observation and reasonable entertainment.

Beginning with the fifty-fifth volume, the paper will assume the regular magazine size which will add greatly to its convenience and attractiveness. The Outlook is published every Saturday—fifty-two issues a year. The first issue in each month is an illustrated Magazine Number, containing about twice as many pages as the ordinary issues, together with a large number of pictures.

The price of The Outlook is three dollars a year in advance, or less than a cent a day.

THE INDEPENDENT,

NEW YORK.

THE INDEPENDENT for 49 years has been the leading religious-literary newspaper of the world.

It has new, distinctive and attractive features, making it a

FAMILY NEWSPAPER

worthy the patronage of all thinking, intelligent people.

Its name indicates its character. It is INDEPENDENT. Religiously it is undenominational. Politically, it maintains the honor of the country, the integrity of our currency, the supremacy of law, and the rights of rich and poor alike.

For Intelligent People Everywhere

It provides instruction, entertainment and amusement for all the members of intelligent households.

Important Features

It has aside from its literary features special departments edited by the best writers, thinkers and specialists, some of them of surpassing interest to a comparative few, others important and valuable intellectually and financially to nearly everybody. These departments are Science, Music, Fine Arts, Sanitary, Missions, Religious Intelligence, Biblical Research, Sunday School, Financial, Insurance, Work Indoors and Out, Puzzles, Book Reviews and Literary Notes.

Survey of the World

Every week the notable events occuring the world over are placed clearly before the reader. No one person has time to read all of the current publications, foreign and domestic; but every one wants to know the events happening in the whole world, which people think about and talk about. The Survey of the World gives each week the gist of important events for the current week. It is really one of the most valuable and important features of any periodical.

Subscription, $3.00 a year; or at that rate for any part of a year.
"Trial Trip," One Month, 25 Cents.

Miss Maud Munch commenced her school in district No. 3, Ridgeway, last Friday having closed a term in the West district the Friday previous.

The Misses Hattie Dawson and Ellen Hall and Mrs. McClenathan attended the M. E. revival meetings at Wellersville Tuesday and Wednesday.

The Raisin literary held in the church parlor last Friday evening, was well attended. A spelling contest was indulged in which caused much merriment. Next meeting December 18th.

RIDGEWAY.

Go to Ed Smith's for cattle ropes.

Ida Eastlick looked after the station during agent A. J. Sutton's absence.

Ed Heath, of Toledo, spent Monday with his cousin, Lawrence Rappleye.

Simonds, Atkins, Disston, and Champion crosscut saws at Ed Smith's. Come and take your pick.

Township Treasurer D. W. Smith will be at Ed Smith's store to receive taxes, on Dec. 10, 17, 23 and 30.

Mrs. Boyd, who has been spending several weeks with her daughter, at Albion, returned home Saturday.

Volney Hess, of Tekonsha, and Minnie Camp, of Lenawee Junction, visited Mrs. Graves and family over Sunday.

Mr. and Mrs. Ace Smith and Mr. and Mrs. Ed Harrison went to St. Louis Thursday for a visit with Mr. and Mrs. M. D. Britton.

Mrs. Chas. Staats, of Chatem, N. Y., arrived Thursday evening for an indefinite stay with her parents, Mr. and Mrs. S. P. Smith.

A. J. Sutton went to Lansing, Saturday for a visit with his daughter, Mrs. F. L. Cook. He returned Tuesday, accompanied by his wife.

See Ed Smith's "ad" elsewhere in this paper.

A few people from here attended the "Deestrick Skule," given for the benefit of St. Peter's church, at Sutton's opera house in Tecumseh, Tuesday evening.

Daniel Linn is lying in a critical condition, at this writing, from a stroke of apoplexy. He was taken Tuesday noon while on his way from his shop to his home.

For chore mittens go to Ed Smith's.

Those having season tickets for the Tecumseh Star Course will bear in mind that the date of the third entertainment, Robert McIntyre, who was to be at Sutton's opera house, Thursday, Dec. 10, has been changed, as McIntyre cannot fill the engagement. In his place the Johnson-Smiley Combination has been secured, who will appear at Sutton's opera house Thursday evening, Dec. 17.

Hudson buckwheat flour at Ed Smith's.

The arrangements for the Lecture Course to be given under the management of the high school and Epworth League, at the M. E. church, have been perfected, with the following program:

Dec. 22, '96—Silas Palmer, Detroit, Subject, "Wit and Wisdom in Words."

Jan. 13, '97—Bliss Concert Company.

Feb. 12, '97—Judge V. H. Lane, of Adrian, subject, "Legal Aspects of the Trial of Christ."

March 9.—H. R. Patengill, Superintendent Public Instruction, Lansing, subject, "Quartette of American Rivers"

March 30,—Rollo Kirk Bryan, of Lansing, chalk talk "The Dawn Immanuel."

April 13.—Rev. J. Stansfield, of Port Huron, subject, "Hero of Babylon."

The committees having charge of the arrangements are doing all in their power to make it a success, and tickets will be for sale, for the full course, at $1. Single admission for first entertainment, 25c. It is hoped that the patrons of the school and the members of the league and church will lend their influence and help make the undertaking a success.

LAKE RIDGE.

Ed Eastlick is suffering from a carbuncle on his neck.

Thomas Murphy has been entertaining a friend from Homer.

Mrs. W. Eastlick and Mrs. Milton Phillipps are on the sick list.

Thomas Murphy went to Ypsilanti last Thursday to visit his son and nephew, who are students there.

Mrs. Florence Adams, who has made her parents, Mr. and Mrs. W. Miller, a long visit, has gone to her home in Chicago.

Miss Ella Anderson, of Chicago, is making her sister, Mrs. Thomas Murphy, a visit, after an absence of two and a half years.

Things are picking up since election. At least L. Barnes says that some one picked up his gate, carried it some distance and elevated it in a tree.

Joseph Hunter has openod a grocery store at Harrington's corners and will keep a first-class stock of groceries. We bespeak for him a liberal patronage.

The meetings in the East church, which have been in progress for some time, will continue all the week, conducted by Rev. Mr. Baker, of Milan, and others.

Presiding Elder Bradfield, of Spring Arbor, had charge of the quarterly meeting services at the F. M. church, commencing Friday evening and closing Sunday evening.

FRANKLIN.

The mutual benefit society will meet at Mr. Dorr's tonight.

Judge Whelan and brother Howard called on Franklin friends last Friday.

Loon Allen and Newell Wisner drove to Jackson Sunday morning, returning in the evening.

Many of the children in the district schools are suffering from attacks of sore throat and influenza.

Miss Alma Whelan, who has been staying with her aunt, Mrs. Alvinza Whelan, returned home Sunday.

Misses Nina Allen and Bertha Butrick are preparing a duet to be rendered at Miss Root's recital, in Tecumseh.

The Franklin lyceum has been postponed until December 26th, to meet at Mrs. A. B. Wisner's. Full program will appear next week.

The leap year concert and social of the 18th has been postponed one evening, and will be held December 19th, at the Tipton Congregational church. Friedcakes and coffee served from five to eight. Shadows sold at seven. Concert beginning at eight, sharp. Young ladies specially invited.

MACON.

Mrs. John Day is gradually failing.

Mrs. Eugene Burdett opened up her dressmaking shop Monday.

Will Collins and wife have moved into John Mooney's house.

Lewis Coller visited Joe Howell at Ann Arbor Saturday and Sunday.

Mr. and Mrs. Acel Smith, of Ridgeway, called on Macon friends Sunday.

Douglas Faulkerson, of Clinton, was the guest of Miss Marilla Liddel Sunday.

Geo. Frost has improved his "shop" in appearnce and comfort by reshingling it.

Maggie Biddle visited her aunt, Mrs. Philip Hornbaker, in Tecumseh, a number of days last week.

Miss Minta Jackson began school in the Merritt district and Edward Miller in the Lindsley district Monday.

Bill Burleson, who has been working for Arch Sickly at Somerset the past summer, returned home Saturday.

The entertainment that the Epworth League were preparing for Dec. 18, has been postponed till after the holidays.

Present Still in the Sacrament, is the topic for the E. L. meeting next Sunday evening. Leader, Edward Miller.

Rev. David Lewis, of Tecumseh, will begin a series of revival meetings at the M. E. church Sunday evening, Dec. 20th.

There will be a business meeting of the Epworth League at the church tonight for the purpose of electing new officers.

Chas. Morgan has moved his family and household goods into Will Niblack's house recently vacated by Dr. E. E. Hendershot.

Mrs. Jas. Thomas and daughter, who have been visiting friends in Macon and vicinity the past two weeks, returned to their home in St. Joseph county Monday.

Elwin Camburn and wife, Parker Allen and wife and John Jackson and wife attended the G. A. R. and W. R. C. meetings in Tecumseh, Monday night, it being the election of officers.

Miss Sadie Jackson, who has been the assistant in the postoffice for nearly two years, severed her connections there last week Thursday, L. R. Hatch will take her place for the winter.

While John Frost, wife and brother were riding Saturday night the horse fell down and tipped them all out. The buggy was considerably broken, but the occupants were lucky enough to escape injury.

Constipation is the cause of all sorts of serious disorders of the blood. Strong cathartics are worse than useless. Burdock Blood Bitters is nature's own remedy for troubles of this sort.

Despot originally signified "master of the house."

Always in season, Hopkins' Steamed Hominy (Hulled Corn). Elegant lunch in milk. Quart 10 cents.

Paper comes from the name of an Egyptian reed.

Bucklen's Arnica Salve.

The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns and all Skin Eruptions, and positively cures Piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Baker & Hall druggists.

The word chestnut came originally from Castenea.

Mr. John W. Grow, of Limerick P. O., Ohio, writes: "I have used Lightning Worm Killer and found it as recommended. It has given great satisfaction; want nothing better." Orr & Temple, Tecumseh and Ridgeway.

"My little boy was very sick. I gave him Lightning Worm Killer and found that it is what it is claimed to be—a worm killer—for it worked like a charm. My child is well now." Orr & Temple, Tecumseh and Ridgeway.

Lightning Cough Drops is the best remedy for coughs and lung trouble I ever sold. Three of my family had pneumonia. After they recovered severe coughing set in, but Lightning Cough Drops cured them. Our family physician recommended it in preference to any other cough remedy on the market.—J. F. BARRETT, Jamesville, Va. Orr and Temple, Tecumseh and Ridgeway.

Mr. J. M. Babbit, of Aroma, Ind., writes; "In my kidney disease of fifteen years' standing, Lightning Kidney and Liver Remedy has given me more relief than anything I ever tried." Orr & Temple, Tecumseh and Ridgeway.

The word nice originally meant ignorant or foolish.

A Valuable Prescription.

Editor Morrison, of Worthington, Ind., Sun, writes: You have a valuable prescription in Electric Bitters, and I can cheerfully recommend it for constipation and sick headache, and as a general system tonic it has no equal. Mrs. Annie Stehle, 2625 Cottage Grove Ave., Chicago, was all run down, could not eat nor digest food, had a backache which never left her and felt tired and weary, but six bottles of Electric Bitters restored her health and renewed her strength. Prices 50c and $1. Get a bottle at Baker & Hall's drug store. 6

A manpuver was once a dextrous piece of handiwork.

The person who disturbed the congregation last Sunday by coughing is requested to call on Orr & Temple and get a bottle of Foley's Honey and Tar which always gives relief.

TECUMSEH, MICH., DEC. 11, 1896

There is at present, since Cleveland's message, some belief that the government mortgages against the Union and Northern Pacific railroads will be foreclosed. If this step is taken the government will own two railroads and nothing could be better for the western country.

That Tecumseh can now secure the Lima Northern railroad, is well nigh an assured fact if the citizens desire to put up the required amount of money, and the HERALD understands that the last proposition made by a representative of Mr. Townsend to the committee today, is not an exorbitant one. At the end of the meeting of the committee of ten with Mr. Townsend last Tuesday morning, it was decided that if the Lima Northern could not run so as to tap the Mackinaw road within three-quarters of a mile of the Lake Shore railroad as it runs through Tecumseh, it would not be worth while for the committee to further entertain any proposition. It is now understood that after more carefully examining the route between Adrian and Tecumseh, the railroad people discover that they can run the line of the Lima Northern so as to strike the Mackinaw road no further west than the location of the Mackinaw gravel pit, which is within three-quarters of a mile of the center of our village. It is entirely unnecessary for the HERALD, to attempt further to demonstrate the fact that the Lima Northern would be of great benefit to our town. One of the largest manufacturers in Tecumseh said that if by the agency of the Lima Northern the price of Ohio soft coal could be reduced 25 cents per ton, it would pay to attempt to secure the road at almost any reasonenable amount. As a matter of fact the price of soft coal has been reduced in every town through which the Lima Northern has run from Lima, Ohio, to Adrian, Michigan, 65 cents net per ton, and there is no better soft coal for general purposes than that found in Jackson county, Ohio. The price of wheat in Britton, Adrian and Hudson has been from two to four cents a bushel greater than the price in Tecumseh for many months, for the simple reason that Tecumseh is not on a trunk line of railroad and cannot obtain the competing freight rates. What is true of wheat is true of every kind of freight which leaves this station and the difference in incoming freight is the same as that in outgoing freight. The railroad representative who talked with the committee yesterday, advised them that Adrian would raise the required amount and there seems, at this writing, no good reason why, with the assistance of Adrian, and Adrian with the assistance of Tecumseh, that both cities should not obtain this railroad. The committee of ten that has this matter in charge, is composed of Tecumseh's most enterprising citizens. Their judgment in this matter can in every way be relied upon, and if they decide that the coming of the Lima Northern to Tecumseh would benefit the town, there is not a doubt that the money will be forthcoming to secure the road.

The Michigan Bureau of Labor and Industrial Statistics has its 14th Annual Report in press, which will be ready for distribution about February 1st From advance sheets we find that during the year Commissioner of Labor Morse has been energetic in gathering industrial statistics, and the forthcoming report will be replete with interesting and useful information, not being confined to any one subject. Recognizing the vehicle industry in the state to be one of the most important, the Commissioner has made a thorough canvass of the munufacturers of vehicles and their employees. To this end 126 establishments have been interviewed and a personal canvass been made of 4,650 employees. Of these establishments 46 are incorporated firms, 39 are co-partnerships and 41 are doing an individual business. The incorporated firms have an authorized capital stock of $3,201,700 00 divided into 196,520 shares. The invested capital of the 126 firms canvassed is $4,626,553.00. They employ 289 salaried officers and clerks, 178 traveling salesmen and 5,776 persons in and about the shops. The reports show an average of about 50 persons employed in each establishment canvassed. This number would be nearly doubled were they running at full capacity. Many places were entirely idle, others employing but few operatives, while but very few were working a full force. This great industry was more seriously affected by the prevalent business depression than almost any other in the state, the bicycle factories being the only ones which could be said to be fairly active. The aggregate monthly pay roll of salaried officers, clerks and traveling salesmen is $35,834.00, an average of $76.73 each. The aggregate monthly pay roll of all other employees is $190,677.00, an average of $33.94 each, or $1.30 1-2 per day. This includes all classes of labor entering into the manufacture of vehicles, from the best skilled mechanics to apprentices and common laborers. The average daily wages for each particular class, from the manager to the office boy, is given in the report. The value of material used in 1895 was given at $8,674 717.00, while the product of the business was estimated at $8,044,222.00, showing the value of material used to be a little over 44 per cent of the value of the manufactured product. Add to this the interest on money invested, wear of machinery, taxes, insurance and wages paid, it will be seen that the strictest economic management is needed to insure success, especially during the depression of the past three years. The product of these concerns is shipped to nearly every country on the globe, over 63 per cent being sold outside of Michigan. Carriages and vehicles of Michigan manufacture have a world-wide reputation. Ordinarily the product of a vehicle manufactory is all closed out at the end of the year, but the reports show that nearly one-fifth of the product of 1895 was unsold at the time of making the canvass. The financial crisis through which the country has passed has greatly paralyzed the vehicle industry. In the canvass of the employees nearly 53 per cent were married, 43 per cent were single, and 1 per cent widowed. Their families consisted of 7,278 persons, 71 per cent being adults and 29 per cent children. The average pay of each class is given. An average of 10 hours per day is the time required. Over 67 per cent work by the day, and about 25 per cent by the piece, others by the hour, week, month or year. These employees return their average earnings at $1.55 each. Over 66 per cent say they cannot earn more than enough to support themselves and families. The entire earnings given by these employees was $1,985,446.00, an average of $426.98 each. Only 1,549 reported that they saved any money, the average being $120.07 each. About 25 per cent worked overtime, nearly all of whom received extra pay, either at the same rate as regular pay or at a higher rate. Wages are generally paid weekly or semi-monthly. Very few factories have rules which withhold wages. Less than one-fifth think there has been any improvement in times for the past two years, a large majority saying they are worse. About 75 per cent do not think there has been any change in the cost of living in that period. The Commissioner has also gathered interesting data regarding a shorter work day. To this end employers and employees were all interviewed, as were many people who have made this feature of the labor question a study. In view of the present agitation regarding the hours of labor, this part of the report is most valuable, being treated fairly and without prejudice.

ADDITIONAL LOCAL.

The arrangements for the Christmas party are progressing finely. Uhl Bros. orchestra has been engaged and will consist of the nine best musicians in Toledo. The decoration committee is already at work making plans and the invitation cards will soon be issued.

Subject in the Universalist church Sunday morning, "Show us the Father and it sufficeth us," St. John 14:6. Evening, "The Obligation of the Debtor." Sunday school after morning service. Y. P. C. U. devotional meeting at 6 p. m. Topic, "What can I do for our Home Church?"

At the "Research Circle," December 4th, papers were given on "The Painting and Sculpture of Egypt," by Mrs. Barnes; "The Industrial Arts of the Egyptians," by Mrs. Linton. "Hypnotism and its Uses," a miscellaneous topic, was interestingly treated by Mrs. Crosby.

George H. Tansley is in trouble about his rail fence. It has been disappearing a rail at a time until some portions of it is so low that it would not turn a toad. In fact he is about to offer a reward for the conviction of the chap who is using his fence for stove wood.

Special values in Boys' Underwear at 19 cents. Worth double the money, at SEATON W. ANDERSON'S.

At the annual meeting of the stockholders of the Tecumseh state savings bank, held Tuesday, the following were elected:—
President—C. A. Slayton.
Vice President—J. D. Shull.
Cashier—J. H. Smith.
Directors—C. A. Slayton, D. C. Larned, Geo. W. Knapp, L. D. Dewey, J. D. Shull, H. W. Conkling, Joseph Russell, A. D. Gilmore.

The funeral of Mrs. Rachel Anderson, wife of Egbert Anderson, occurred at the family residence Tuesday afternoon. Mrs. Anderson was born in New York state 69 years ago. Was married to Egbert Anderson and for a number of years has been a resident of Tecumseh. She was of a quiet, retiring disposition, honest and straightforward in all her actions and belief, a good wife and kind neighbor. For a long time she has been out of health and death came Monday morning as a release from much and constant suffering. The funeral was conducted by Rev. Charles M. Brown assisted by the choir of the Presbyterian church.

Thursday evening, Dec. 2, the following were elected officers for Tecumseh Lodge, No. 190, Knights of Pythias, for the ensuing year:
Chan. Com.—R. A. Heesen.
Vice Chan.—Jas. Elliott.
Prelate—J. C. Mahaney.
M. of W.—M. L. Root.
M. E.—Henry Wagner.
M. F.—D. P. Wheeler.
K. of R. and S.—W. J. Ingersoll.
M. A.—J. C. Hazlett.
T. G.—C. H. Heck.
Trustee—F. H. Nyland.
Representative—B. P. Anderson.
Alternate—J. T. McKinney.

Died, at her residence on Ottawa street, Thursday morning December 10, Ellen, widow of Dougal McCaugn, aged 78 years. She was one of the pioneers of Lenawee county and had lived in Tecumseh 56 years. By the death of her son William, of the 18th Mich. Vol. Inf., while in service, she received a pension. Four children survive her, Mrs. Warren, Mrs. Herbison, Daniel and John. She was a life long member of the Episcopal church. The funeral will be held at the house tomorrow afternoon at 2 o'clock, Rev. W. R. Blachford officiating.

The dainty little Madonna and child framed in a wreath of holly and mistletoe which adorns the cover of the December Chautauquan, is a suggestion of the artistic treat within; the frontispiece is the famous Bodenhausen Madonna, and eight pages are occupied by reproductions of some of the favorite Madonnas of the masters. In the value and attractiveness of its textual matter also, this number is unusually rich.

Attention! Co. C.

Inasmuch as Tuesday evening drill was postponed, there will be two drills next week—the regular drill on Tuesday evening and a special drill on Friday evening. WILL H. HAYDEN, Capt. Comp'y C.

Constipation is the cause of all sorts of serious disorders of the blood. Strong cathartics are worse than useless. Burdock Blood Bitters is nature's own remedy for troubles of this sort.

FRANK GILMORE, Treasurer.

LOCAL AND PERSONAL.

Now is the time. Two beautiful photos 25 cents at Miss Daly's.

Mobbs & Co. pay the highest market price for all kinds of produce.

S. Tate and daughter Lizzie, of Bridgewater, were in town Wednesday.

J. M. Bittman, of Saginaw, arrived Tuesday to look after his interests here.

Mrs. Angeline Helm, of Ridgeway, was calling on Tecumseh friends yesterday.

S. W. Anderson, on his way to New York, called on his daughter Helen, at Vassar.

Mrs. Emma Krause, of Rea, was the guest of Tecumseh friends Tuesday and Wednesday.

Charles Avery, of Jackson, was the guest of Mr. and Mrs. John Orr over Wednesday.

Hundreds of new and dainty things for Christmas, at
SEATON W. ANDERSON'S.

Mrs. Arthur Dance, after a two week's visit with relatives, returns to her home in Detroit tomorrow.

Presbyterian church, topic Sunday morning, "The true theme of the pulpit." Evening, "The Ear."

At a stockholder's meeting of the Lilley State Bank Tuesday, the old board of directors were re-elected

Yes, we must get that picture framed for Christmas and Teeple has so many styles of moulding and so cheap too, that is the place to get it.

Mrs. James Winans, who has been assisting in caring for her father, Hon. R. L. Baxter, returned to her home in Toledo the last of the week.

Mrs. George Stacy, after several weeks spent with her children in and near Buffalo, N. Y., reached her home at Newburg last Thursday.

Put Cole, wife and son, Willard, of Onsted, visited Mrs. C's parents, Mr. and Mrs. Geo. Teachout, of the Central House, yesterday and today.

Master Lyman Root arrived from New York Wednesday night, in S. W. Anderson's care, and will spend the winter with his grandmother, Mrs. J. Root.

The Ladies' social and supper, of the Universalist church, will be held next week Thursday afternoon, Dec. 17. Suppr from 5 to 8 o'clock. All are invited

The Macon Cemetery Association will hold a meeting to elect a secretary and other officers, at the school house, Pennington's Corners, tomorrow evening, Dec. 12 at 7 o'clock.

The HERALD this year will not print a club list for any particular papers but has made arrangements to supply its subscribers with any other newspapers they desire at greatly reduced rates. Never before has so much pains been taken to secure better prices on all periodicals, all the benefit of which will be given to HERALD patrons. No matter what you want we can get it for you and promptly.

Manager Sutton received word last evening that the date of Guy Bros.' minstrels was changed from Dec. 21, as published, to the 18th. This will be welcome news to those who were fortunate enough to hear this excellent company a year ago, for they will not have to wait so long before hearing them again. They will have a crowded house next Friday night for all were delighted with their performance and the company this year is larger and stronger than ever.

The superb company (Guy Brothers' minstrels) held the boards at the Hibbard evening, and it was the unanimous verdict that this is the very best minstrel troupe that has visited Jackson in many a day. Each member of the company is an artist in his line. The company came here comparatively unheralded, possibly the fault of its press agent, and the character of the performance last night was an agreeable surprise to those present. The Guy Bros. have too good a company to allow remissness in the way of advertising. Should they see fit to make another date for Jackson this season, or at any time in the future, they can rest assured that a crowded house will greet them. The Courier takes pleasure in stating the fact that there is not a medioeral feature in their entertainment. There is also an entire absence of alleged wit, bordering on vulgarity.

Two photos 25 cents. MISS DALY.

I. P. Keyser has returned from Jackson for the winter.

Sure, you are going to get your photos at Teeple's for Christmas.

Gertrude Clement has been afflicted with throat trouble for some days.

Dame rumor has it that there are to be several weddings in the near future.

J. W. Wightman and John Hock attended the tax sale, at Adrian, Monday.

Dolph Heesen's trip was short and sweet. He returned home Wednesday.

Dr. C. S. Lombard and J. J. Orr drove to Ann Arbor yesterday returning today.

Next Sunday night at the Methodist church the subject will be, Crime and its Causes.

M. P. Wemple, one of Onsted's stirring business men, was calling on friends Tuesday.

Mr. and Mrs. Wm. Sutfin have returned from Jackson and will make Tecumseh their home again.

Rev. B. S. Hudson went to Detroit yesterday to hear the celebrated Rev. Dr. John Robertson, of Glasgow, Scotland.

Tecumseh Star Course Thursday December 17th. Johnson-Smiley Combination. Season tickets for four entertainments $1.00.

Next Friday evening at the Temple, election of officers will occur in the Blue lodge. Take due notice and govern yourselves accordingly.

The annual meeting of Tecumseh Chapter, R. A. M., will occur at Masonic Temple Wednesday evening next. Let all companions be present.

Ministers' meeting in the parlors of the Baptist church at 2 p. m. Monday. Rev. Stead will continue the discussion of the "Second Coming of Christ."

For sale, two good coal stoves cheap. One nearly new and one suitable for heating a large store or shop building. Inquire at once at the HERALD office.

Seaton W. Anderson returned from New York Wednesday and reports the purchase of many beautiful novelties for the holiday trade.

Mrs. H. C Snedecor, after nearly three weeks passed with her mother and other friends, returned to her home in Ypsilanti the last of the week.

Just received, a car load of Bedroom Suits, bought at a bargain and we will give every one a bargain that wants a suit. WHEELER & SISSON.

Miss Karner, who has been keeping house for her brothers, has returned to her parents in Blissfield, and George C. Hale (who does repairing for the boys) and family occupy the rooms over the store.

Will R. Bresie, of Decatur, Ill., and Chas. E. Johnson, of Logansport, Ind., made their friends here a short visit the first of the week. They attended the Deestrick Skule and enjoyed it greatly.

Harris & Hitesbu's sign, on the east side of Bidwell's block is completed and, as every man, woman and child in Tecumseh has seen it, for the HERALD to describe it, is unnecessary. The work, executed by George Matteson, is fine in every particular.

Everything in the line of Furniture at one-quarter less than you can buy the same goods at any place in Michigan. WHEELER & SISSON.

C. W. Haynes, pension attorney, of Ypsilanti, will be in Tecumseh December 15th and 16th. Comrades who have claims against the government or those who wish to apply for pension or increase of pension are requested to call and see him one door south of council building, at 1 p. m.

Wanted—2500 bushels good sound ear corn. 2000 bushels to be delivered at the farm between Clinton and Tecumseh, the balance at Clinton.
E. R. SMITH, Clinton, Mich.

Greatest holiday bargain. Two beautiful photos 25 cents at Miss Daly's.

Girls! do you realize that leap year is near its end and many elegible bachelors yet remain? Among them we might mention Ernie Anderson, Bert Garlinghouse, Will DeMott C. D. Keyes, Cal Hitesbu, Tom McCann, Dr. Tefft, Bolly and Newberry Satterthwaite—what an array from which to select. Now is your chance.

At the last meeting of the Royal Arcanum, the following officers were elected for the ensuing year:—

Regent—R. A. Quackenbush.
Vice Regent—Lee McConnell.
Orator—E. VanWinkle.
Past Regent—James Mitchell.
Secretary—W. A. Chiveral.
Collector—L. L. Bates.
Treasurer—James Lowry.
Chaplain—L. M. Waldron.
Guide—George Zimmerman.
Warden—Samuel Mobbs.
Sentry—Fred Hall.
Trustee, 3 years—J. T. McKinney.
Rep. to Grand Council—Jas. Mitchel.
Alternate—A. VanWinkle.

Christmas will soon be here and you will want to give some kind of a present. There is nothing more acceptable than a pretty chair. We have them from $1.00 up.
WHEELER & SISSON.

It was our good fortune recently while enroute to and from Grand Rapids to take a couple of meals at the new Sherman House, Allegan, E. O. Phillips, proprietor, and we found it to be one of the cosiest and most complete in all its appointments that we have ever seen. Mr. Phillips and his two sons are genial, courteous gentlemen who thoroughly understand the wants of their guests and have a faculty of anticipating which is very rarely found. The dining room is very attractive, table service choice and the meals served would do credit to the Morton House, Grand Rapids, Cadillac, Detroit, or Palmer House, Chicago, and we do with great pleasure say to the traveling public generally, it is one of the most elegantly kept hotels in the state and all will feel repaid who even go out of their way to avail themselves of its service.

Mr. and Mrs. George Bangs left today for a visit with friends at Rome, Hudson and vicinity.

Bill Jibb, senator-elect, was in town again today. He is becoming quite a familiar figure on our streets.

Teeple is doing lots of large portrait work but you must leave your orders at once to get them for Christmas.

Mr. and Mrs. P. McCann, of Bunker Hill, Ingham county, arrived yesterday for a visit with their sons, James and Thomas.

H. A. Driggs, who has been loading hay here this week, returned home to Palmyra this afternoon. A loadstone drew him.

Mobbs & Co. are selling 21 pounds of high grade granulated sugar for $1.00 and Arbuckle and Lion coffee for 20 cents a pound.

Our Stock of Holiday Goods are about all in and we can give you the best stock in the County to select from and prices the lowest.
WHEELER & SISSON.

Who would think Rob Moir would run opposition to the drug stores? But he does for he has a large stock of the new kind of porous plasters and is doing quite a business with them.

F. J. Temple has received word from Grand Lecturer Arthur M. Clark that the Masonic school of instruction would be held at Adrian December 23rd instead of the 16th as previously announced.

Knights of the Maccabees remember that Wednesday evening December 16th Tecumseh Tent No. 142, K. O. T. M., will hold its annual election of officers. Let there be a full attendance of members.

The largest and cheapest line of Handkerchiefs ever shown in Tecumseh. Wonderful values at 5, 10, 15, 20 and 25 cents, at
SEATON W. ANDERSON'S.

Mr. and Mrs. Alonzo Clark, of Clinton, expect to spend the winter in San Diego, Southern California. Mrs. Clark started from Clinton this morning for Chicago, where she will join her husband and they will leave for the golden state the first of next week.

Karl Keyser, one of the Clinton boy singers, who rendered, so acceptably, "Old King Cole," at the opera house, Tuesday evening, remained for a visit with his uncle, Robt. Codling, and grandmother, Mrs. Henriett Keyser. He returned home today.

At the regular meeting of Beers Post No. 140, G. A. R., department of Michigan, held Monday evening December 7, the following members of the Post were chosen officers:—

Commander—George Swartz.
S. V. Commander—J. L. Jackson.
J. V. " —J. A. Bouck.
Surgeon—Fred P. Deuel.
Chaplain—Dr. Lemon Barnes.
Quartermaster—George S. Van Tyne.
Officer of the Day—Dan Preston.
" " Guard—Laurence Bauer.
Sentinel—Charles Berry.
Adjutant—Henry L. Sweet.
Sarg't Major—A. VanValkenburg.
Q. M. Sarg't—Parker Allen.
First delegate at large—Miles Baldwin. Alternate—Elmer Wilson.
Second delegate at large—Dr. Lemon Barnes. Alternate—Wm. Jay.
H. W. Stevens, Commander.
A. W. Slayton, Adjutant.

Additional local on 4th page.

THE DEESTRICT SKULE.

A Good House, Fine Entertainment and Everybody Pleased.

Out of doors it rained and poured
While inside each one laughed and [roared.

From first to last it was funny, made so by the originality of costume and the fact that everybody knew who each actor was. Each person who attended came to be pleased and pleased he was, and the house was well filled, about 700 people and 700 umbrellas attending the entertainment. The night could not have been worse even if that kicking school board had made it to their own order.

After several fine selections by the band, Mr. Strong rendered a character song, "When We were Boys," which was finely sung and gave character to the beginning of the entertainment. Then came the song, "Old King Cole," given by eight little chaps from Clinton and was so good that the audience would scarcely allow them to leave the stage. Then came the scholars, not pupils, to school. Some stopped to play by the wayside while others went peacefully along that they might "tattle" on the others when school opened. Ephriam Keyes and Jeremiah Hosmer ("Jumping Jerry") indulged in leap frog and played the game nicely while Robbie Rowe Kyle ("Romping Rob") turned a hand spring which would put to shame any other boy of his size, weight and age in Lenawee county.

The opening of the "skule" proper was anxiously awaited by an expectant audience. Ichabod Brainpusher McKinnon appeared, and his very deliberations were a feature of the evening. Throughout his evening of trials and tribulations, his countenance never changed nor did his decorum weaken. Verily Peter was a Perfect Pedagogue.

The A B C class was a grand success, demonstrating the fact to perfection that each and every one knew absolutely nothing, certainly a gang of Illiterate Infants.

The class in 'rithmatic proved no better, and their mental calculations were calculated to drive the pedegogue insane, truly a class of Foolish Figurers.

In grammar is where the school outdid itself. Every question was answered promptly and although most of them incorrectly the performance seemed to please the audience and they could properly be called Green Grammarians.

Geography to these scholars seemed only pastime. They located the United States in Michigan and sent the Mississippi river flowing upstream. They can only be called Geographic Goslings.

The spelling of the spelling class ended the forenoon session and in fact it was a fit ending. Such pranks, such capers, none but grown-up kids could cut. 'Twas during this class that the pedagogue first used his spanker and every one deserved to be a Spanked Spelley.

Then the noon recess. More to eat than would run two church suppers. 'Twas here that Libbie Marier Hicks and Patience Penelope Heesen jumped the rope. They skipped and hopped and hopped and skipped with willowy ease and grace, a pair of Jolly Jumpers, who certainly knew their place.

The brain work of the morning session seemed to need counteracting for the whole noon recess was taken up with work for the pedal extremities. Samson Pettibone Harris ("Stuttering Sammie") did a skirt dance and was assisted in an encore by his light-footed playmate, Samantha Stout, ("Stout Samantha") In fact, the whole school, minus the pedagogue, joined in where the chorus should have been, and exercised the feet and hands to banjo music A band of Dancing Dunces.

The afternoon session was opened by Peter the Pedagogue with somewhat more of ease and grace than that of the morning. His right arm seemed to catch its cunning and some of the scholars were quite severely touched on places provided by Providence for this purpose. Reuben Louder Hicks ("Rollicking Rube") still retains several stripes as a souvenir of the occasion.

The school board comes (a Krowd of Kronic Kickers) when genuine trouble commences. Ephriam Lafayette Keyes ("Empty Eph") delivers an address of welcome to the board and becomes so enamored of his teacher that he swings him round and round. "Eph" was certainly a He Hugger. This was followed by a recitation by the twins, Melinda and Belinda Humpus ("The Humpus Brats"). "Twinkling Star" was their subject but even the twins could not make the stars twinkle that night. The poem on "Spring" was read by Katurah Jane Train ("Kunning Kate"). Spring poems are usual to Katurah and she succeeded nicely.

It was impossible to tell what the declamation by James Butler Davidson ("Jingling Jimmie") would have amounted to had he kept on. Fortunately for the school Robbie Kyle became nervous at the length of the declamation and removed Jimmie from the stage.

The most original performance of the evening was the "Ode to the Cow" by Tasy Ann Avery ("Active Annie" also sometimes called "Tearful Tasy"). She accompanied the cow carefully on through its existance, through all vicissitudes to the end.

The poetical address by Samantha Stout ("Stout Samantha") was a corker. Such bursts of elocution seemed hardly possible from one of her experience and tender years. The committee-men got so excited that they rose in their wrath and "fired" the pedagogue at once. Thus was the school broken up amid the tears and lamentations of the scholars.

In writing the story of this old-fashioned school, the reporter must be judged kindly. Type cannot picture the comical costumes of these grown up "kids" nor can the pen describe the scores of comical actions, each one funny because it pertained to the individual character of the actor.

PAPER WADS AND SLATE PENCILS.

"Jumping Jerry" Hosmer was a wonder. He created more fun and annoyance than some whole families.

Mehittable Paxon ("Muttering Mettie") and her baby brother, Willie Trot Crosby, ("Wabbling Willie") were two great characters, always together and so simple.

Mark Hanna Bidwell ("Muttonhead Mark") was a natural born "tattler" and spent his whole time as spokesman for the others.

William Henry Anderson ("Hungry Hank") and Johnathan Zimmerman ("Jovial John") were remarkable for their tasty costumes and general misdemeanors, while Betsy Jerusha Wood, Amanda Ann Anderson, Sophronia Sisson and Dorcas Deliverance Hall were the dutiful pupils.

Tribulation Harris, Diantha Merritt and Cordelia Corey were stage managers and, although they were not in view of the audience, deserve much credit for the smoothness of the performance.

Jane Ann Hardenburg and Lovisa Tiffany ("Lovely Lucy") were good assistants to the school board in their kicking operations. Geo. Knapp's cornet solo was fine and well deserving of its hearty reception.

Miss Fern Stringham sang beautifully and the clearness of her voice is charming, while little Mamie Keysor, of Clinton, simply captured the audience with her character song and sweetness.

In all the affair was a grand success no small part of the pleasure being in the fact that the ladies netted a profit of $112.00.

—50c dolls 9 cts. 25c dolls 4cts. Saturday only. See windows at

Harper's Weekly

In 1897

WITH the end of 1896 HARPER'S WEEKLY will have lived forty years. In that time it has participated with all the zeal and power at its command in the great political events of the most interesting and important period in the history of the country, and it has spread before its readers the accomplishments of science, arts, and letters for the instruction of the human mind and the amelioration of human conditions and of manners.

What the WEEKLY has been in its spirit and purpose, as these have been manifested principally in its editorial pages, it will continue to be.

It is impossible to announce with precision all that the WEEKLY will contain during the year 1897. It were as easy to announce what is about to happen in the WORLD, what triumphs for GOOD GOVERNMENT are to be won, what ADVANCES of the PEOPLE are to be made what is to be the outcome of the continuous struggle between the spirits of WAR AND PEACE, what is to happen in the FAR EAST, what is to be the STATE OF EUROPE twelve months hence, what NEW MARVELS OF SCIENCE are to be revealed, or what are to be the ACHIEVEMENTS OF ARTS AND LETTERS, for the WEEKLY is to be a pictorial record of all this.

CARTOONS will continue to be a feature.

SERIAL STORIES. A New England story by Miss MARY E. WILKINS, will begin in January. A tale of a Greek uprising against the Turks, by Mr. E. F. BENSON, the author of "Dodo," will follow. A sequel to "The House-Boat on the Styx," by Mr. JOHN KENDRICK BANGS, illustrated by PETER NEWELL.

More SHORT STORIES will appear in the WEEKLY than it has been possible to publish during 1896.

DEPARTMENTS: Mr. W. D. HOWELL'S "Life and Letters" have been among the most charming features of periodical literature; Mr. E. S. MARTIN, and others will contribute observations on what is going on in "This Busy World;" "Amateur Sport" will remain the most important department of its kind in the country.

The WEEKLY will continue to present to its readers the world's news MOST INTERESTING TO AMERICANS, to make important advances in both the literary and artistic features, and to retain for itself the leading place in the illustrated journalism of the world.

Newspapers are not to copy this advertisement without the express order of Harper & Brothers.

Harper's Magazine

In 1897

FICTION: THE MARTIAN, the new novel by DU MAURIER, the eagerly expected successor to "Trilby," begun in October Number, 1896, with illustrations from the author's drawings. A new novel by FRANK R. STOCKTON—developing a Twentieth Century Renaissance—full of humorous situations and characteristically illustrated. A PAIR OF PATIENT LOVERS, by WILLIAM DEAN HOWELLS. Other striking novelettes by American authors. Short stories by MARK TWAIN, THOMAS NELSON PAGE, RICHARD HARDING DAVIS, OWEN WISTER, JOHN KENDRICK BANGS, RUTH MCENERY STUART, OCTAVE THANET, MARY E. WILKINS, and other popular writers.

SCIENCE: Story of the Progress of Science during the Nineteenth Century, a series of papers by Dr. HENRY SMITH WILLIAMS, supplemented by contributions on special subjects by expert scientists. Articles on the relations of curious psychological manifestations to physiology by Dr. ANDREW WILSON.

AMERICAN FEATURES: THE MEXICO OF TODAY, a series by CHARLES F. LUMMIS, splendidly illustrated—the result of a recent visit to Mexico undertaken for HARPER'S MAGAZINE. Mexico is pre-eminently a silver-producing country, and its monetary operations rest entirely on a silver basis. Owing to the keen discussion of certain economic problems in connection with issues of urgent importance in American politics, these papers will command general attention. AMERICAN HISTORICAL PAPERS by WOODROW WILSON, JOHN BACH MACMASTER, and JAMES BARNES. The Continuation of HOWELL'S PERSONAL REMINISCENCES of eminent literary Americans.

AFRICA AND THE EAST: WHITE MAN'S AFRICA, a fully illustrated series of papers by POULTNEY BIGELOW, the result of personal observations during a recent trip to Africa, covering the whole field of European exploitation of that country. Illustrated articles by STEPHEN BONSAL on the transformations going on in EASTERN SIBERIA, recently visited by the author. HUNGARIAN SKETCHES, written and drawn by F. HOPKINSON SMITH. The full story of the recent Coronation of the Czar, by RICHARD HARDING DAVIS, illustrated by R. CATON WOODVILLE, who was commissioned by Queen Victoria to paint a picture of the ceremony.

Newspapers are not to copy this advertisement without the express order of Harper & Brothers

A Good Investment.

On receipt of ten cents, cash or stamps a generous sample will be mailed of the most popular Catarrh and Hay Fever Cure (Ely's Cream Balm) sufficient to demonstrate its great merit. Full size 50c.

ELY BROTHERS,
56 Warren St., New York City.

I suffered from Catarrh three years; it got so bad I could not work; I used two bottles of Ely's Cream Balm and am entirely well; I would not be without it.—A. C. Clark, 341 Shawmut Ave., Boston.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

NASAL CATARRH is a LOCAL DISEASE and is the result of colds and sudden climatic changes. It can be cured by a pleasant remedy which is applied directly into the nostrils.

ELY'S CREAM BALM

Opens and cleans the Nasal Passages, Allays Pain and Inflamation; Heals the Sores. Protects the Membrane from Colds. Restores the Senses of Taste and Smell. The Balm is quickly absorbed and gives relief at once. Price 50 cents at Druggists or by mail. ELY BROS. 56 Warren St. New York.

A chancellor was once only a doorkeeper.

A Great Book Free!

When Dr. R. V. Pierce, of Buffalo, N. Y., published the first edition of his great work, The People's Common Sense Medical Adviser, he announced that after 680,000 copies had been sold at the regular price, $1.50 per copy, the profit on which would repay him for the great amount of labor and money expended in producing it, he would distribute the next half million free. As this number of copies has already been sold, he is now giving away, absolutely free, 500,000 copies of this most complete, interesting and valuable common sense medical work ever published—the recipient only being required to mail to him, at above address, twenty-one (21) one-cent stamps, to cover cost of mailing only, and the book will be sent post-paid. It is a veritable medical library, complete in one volume. Contains 1008 pages, profusely illustrated. The Free Edition is precisely the same as that sold at $1.50 except only that the books are in strong manilla paper covers instead of cloth. Send now before all are given away.

INCREASED COTTON PRODUCT.

Improvement in Agricultural Methods in Twenty Years.

Some recently published figures and other data with regard to the growth of cotton production are interesting, says the Savannah (Ga.) News. In 1873 the average yield per acre was 260 pounds. During the 20 years the acreage devoted to cotton cultivation increased 128 per cent., while the production increased 183 per cent. That is to say, the farms of the present day are much more productive than were those of 20 years ago. The reason is, as every practical farmer knows, that agricultural methods have been greatly improved during the time. Investors and chemists have labored with the farmer to the end of bringing the lands up to a higher state of productiveness. The former have produced new implements for the cultivation of the soil in an improved and at the same time labor-saving manner. The latter have instructed the farmer as to the chemical elements needed for the enrichment of his soil, and the fertilizer manufacturer has provided those elements in convenient form for utilization. Rule-o'-thumb farming has to a great degree given way to scientific farming. Those farmers who have not their own test tubes and text books are readers of good agricultural periodicals, which supply useful and accurate information with regard to soils, fertilizers, etc., to take the place of guesswork. The farms, like everything else, is progressing.

In order to produce superior beef, the best beef herds of cattle must be kept.

If the best health is maintained with sheep they must be kept dry under feet.

Sheep manure contains a large per cent. of the plant food contained in the rations they consume.

Wheat bran can nearly always be fed to young and growing stock during the winter to an advantage.

Keep all young stock growing steadily; feed of all kinds goes further with young stock than with old.

Rather more care is needed to not over-feed when ground feed is given than when whole grain is used.

VICTIMS OF HARD LUCK.

Washington's Helpless Poor Are Counted by Thousands.

Negroes Furnish the Largest Contingent to the Army of Unemployed—What Organized Charity Is Doing for Them.

[Special Washington Letter.]

The most beautiful roses of summer are guarded by thorns; and that fact has often been used to point a moral and adorn the tale that all the sweets of life are mingled with the bitter.

The beautiful snow has come again, bringing with it sorrow and suffering to thousands of the poor people in our cities. In the capital city of the republic fully 2,000 families were without fuel during the two days and nights of the storm. It was much like the blizzards of Iowa, Minnesota and Dakota, as they were experienced by the writer, some years ago.

The coming of the snow seems to have emphasized the fact that want and suffering exist among the poor of the city. However, this fact has been a familiar one to those interested in the administration of charity ever since the cold weather began. It is the cold that develops a good deal of the need for relief. It is the snow, as a rule, that causes the general public to realize that there are those who stand in need of help. It is natural, therefore, that the volume of contributions, either in money or clothes, for the benefit of the poor should be sensibly increased even since the fall of the snow the other morning.

The stream of public and private charity which flows deep and broad in this city is divided into a great many rivulets and rills of varying size and importance, but all reaching the homes of want and poverty and giving aid which is most needed. There is the charitable individual, sometimes with a heart as large as his purse, and then, again, with the purse in inverse ratio to the size of the heart. He or she visits the poor at their homes and gives help as it seems the occasion demands. They use their friends as their bankers, and very cheerful bankers most of them prove to be, with a good-natured laxness in regard to the cashing of checks. The truth is, the majority of good, charitable people prefer some one else to do the "slumming," as it is sometimes called, while, on the other hand, they are perfectly willing to foot the bills. The drafts upon their time and sympathy are not so cheerfully borne as those upon their bank accounts.

"To every man his work." Since men and women of moderate means enjoy the work of saving souls and bodies in the alleys, it is well; and they are encouraged to go about doing good. Since the prosperous are willing to furnish the money, they are excused from the

OUT OF WORK.

work of "slumming." The churches are doing a great deal to relieve human misery in this city. In nearly every church, of all denominations, are found societies which are devoted to work among the poor. They have a treasury to draw upon, and the members go about from house to house and thus dispense their alms. Then there are organizations of various kinds, which either incidentally, or, as one of the main features, look after the unfortunate class. The Central Union mission offers a conspicuous example. It furnishes lodgings and meals to those in need of temporary help and demands in return, where practical, a certain amount of work in its wood yard. Its members minister to the body as well as to the soul, and they are not compelled to turn away deserving men and women simply because the hour has arrived when the religious meeting which is held daily must close. The influence of the mission continues after the meetings, and the endeavor is by practical means of help to keep men from falling any further into the slough in which they generally are when the mission takes hold of them.

We had a snow carnival on Pennsylvania avenue. Every sled, sleigh, cutter, in fact everything on runners or that could be put on runners, was brought into requisition. Horses, those faithful animals who are so cheap and are being discarded nowadays, were worth a dollar an hour, and apparently every horse in town was in the carnival. All of the pretty girls, the jolly boys, and even the gay old sports were in the procession. Hearing the ringing and the jingling of the bells, the peals of laughter, and the songs of the rushing rabble, no one would suppose that there was any suffering in this city.

The Associated charities is an organization which does much practical good. The secretary has had years of experience, and he knows the genuine from the sham sufferers at sight. For example, during the carnival on Pennsylvania avenue, a young colored man entered the room and told the secretary that he was out of work, and had been vainly trying to find some place as a cook, which was his business. He had failed. He had a wife and a little child five years of age. His wife was able to work, but could not get a place because her clothes were not "fitten," as the man expressed it. They had fuel in the house, but no food, having eaten their last meal last evening. The man said he was willing to work, and his wife was willing to work if they could get it to do.

A crucial test, as it appeared, was made by the secretary who had brought out all this information by a series of questions when he asked the man in conclusion if he would saw wood. The man said he would, and then the secretary gave him an order for some meal, flour, meat, beans, and told him to go home and get something to eat and feed his family, and then returned to the office where he wanted him to go to work. The man promised that he would return, and taking his order, went off to the grocery store to have it filled.

AT POLICE HEADQUARTERS.

It seemed, from experience, that the secretary's little wood shed in the back yard is the rock upon which the schemes of many who have designs upon the funds of the society split, and go all to pieces. The impostors don't want to work, and when the wood shed looms up before them, they manage to leave and seek more congenial scenery. Sometimes they break the saw or dull the ax with the view of lessening their hours of toil.

The chief of our city police says that the dumping lots furnish a field where many of those who scramble for existence find employment in raking out cinders and chips for fuel. When snow is upon the ground their occupation, as well as fuel supply, is gone. It is then that they appeal to the police. They crowd the station houses at times and are grateful for the smallest pittance. A pound of flour and a bushel of coal go a long way with the starving, shivering, half-clad old woman who lives in an alley garret. Those most dependent in the district are the colored people, to whose numbers the contiguous states of Maryland and Virginia largely contribute. Nourished in more temperate climes, they soon collapse under the vicissitudes of a cold winter.

There is another class of poor, composed of people who do not ask for public relief until actually driven to do so. These are persons who have experienced better days, many of whom make a living on the streets either as laborers or peddlers, but are deprived of their vocations by bad weather. The policemen endeavor to acquaint themselves with the condition of those who live upon their respective beats and the needy are promptly reported for assistance.

The demand for rent money is an unusual feature. The threatened evictions for non-payment of rent were almost as numerous as those reported from Ireland. Men, women and children, representing every color and degree of intelligence, called at police headquarters, some of them almost frantic for want of means to satisfy the landlord. In nearly every instance the "notice to vacate" was presented as a guarantee of truthfulness on the part of the applicant.

Food and fuel were distributed in the same systematic manner as has characterized this work for years. The deserving were given orders on some grocery or wood yard, over the signature of the lieutenant in whose precinct they resided. These orders were receipted by the applicants after obtaining the goods, and the accumulated orders and accounts were presented to the department for payment at the close of each month.

The ability to afford the extensive relief demanded by the suffering poor throughout the winter is due to the press and public, who responded promptly and effectually to the appeal for aid.

That tells the story, and it is a story which might be repeated again and again concerning all cities. Indeed if the true tale were told concerning the suffering of the poor in New York, Chicago and the other cities which are larger than Washington, it would be harrowing in the extreme. Superintendent of Police Moore tells me however, that there is not a single family in Washington to-day without fuel and food; unless it may be some family too proud to let its poverty be known to the duly constituted authorities.

SMITH D. FRY.

A Monster God House.

In Mexico are found ruins of ancient Aztec teocallis, or 'gods' houses," some of which are thousands of years old. One of these, near Cholula, is in the form of a truncated pyramid. Each side of the base of this pyramid is 1,423 feet, which is twice the length of the great pyramid of Egypt. The height of this Mexican wonder is 177 feet, and its base covers an area of 44 acres.—Chicago Inter Ocean.

Love in the Scale.

"How much does the baby weigh" is only another way of asking, "Is he healthy and strong?" When a baby is welcomed into the world with loving care and forethought, his chances of health and strength are increased a hundred-fold.

A prospective mother cannot begin too early to look after her own health and physical condition. This is sure to be reflected in the baby. Any weakness or nervous depression, or lack of vigor on the mother's part should be overcome early during the expectant time by the use of Dr. Pierce's Favorite Prescription, which promotes the perfect health and strength of the organism specially concerned in motherhood.

It makes the coming of baby absolutely safe and comparatively free from pain; renders the mother strong and cheerful, and transmits healthy constitutional vigor to the child.

No other medicine in the world has been such an unqualified blessing to mothers and their children. It is the one positive specific for all weak and diseased conditions of the feminine organism. It is the only medicine of its kind devised for this one purpose by a trained and educated specialist in this particular field.

Mrs. F. B. Cannings, of No. 4320 Humphrey St., St. Louis, Mo., writes: "I am now a happy mother of a fine, healthy baby girl. Feel that your 'Favorite Prescription' and little 'Pellets' have done me more good than anything I have ever taken. Three months previous to my confinement I began using your medicine. I took three bottles of the 'Prescription.' Consequences were I was only in labor forty-five minutes. With my first baby I suffered 18 hours then had to lose him. He was very delicate and only lived 18 hours. For two years I suffered untold agony, and had two miscarriages. The 'Favorite Prescription' saved both my child and myself. My baby is not yet three weeks old and I do not think I ever felt better in my life."

WHEN bilious or costive, eat a Cascaret, candy cathartic, cure guaranteed. 10c, 25c.

THE WABASH "CALIFORNIA FLYER."

Quickest and best service to CALIFORNIA is now offered by the Wabash Railroad in connection with the Atchison, Topeka & Santa Fe Railway. Vestibuled sleeping cars through to Los Angeles without change, making twelve hours better time from St. Louis than any other line, and corresponding time from other points.

For particulars write to any Wabash ticket agent, or to C. S. Crane, General Passenger & Ticket Agent, St. Louis, Mo.

IMPROVED TRAIN SERVICE ON THE WABASH.

Taking effect, with change of time, Sunday, November 15th, 1896, trains Nos. 6 and 7 between Peru and Montpelier will be restored running daily, except Sunday, making connections at Peru and Montpelier with trains from and to St. Louis and Detroit.

The magnet is so called from the mineral magnesia.

For Kidney Troubles

there is nothing better than Foley's Kidney Cure. Everyone who tries it will agree to this. Orr & Temple.

Parlor was originally the talking place

A BACK BLOW.

The Weapon Small,—but None More Certain or Effective.

In these times when backs are lame, when almost every other one we meet has now and then, or all the time, a back that aches or pains—"a weak back," "a bad back," a back that makes their life a misery to bear—and still they go on day by day in pain and suffering. Now 'tis the easiest thing in the world to give this played out back "a blow" that will settle it, and put in its place a new one equal to any. It's just like this: hit at the cause; most backaches come from kidney disorders. Reach the kidneys, start their clogged-up fibres in operation; when this is done you can say good-bye to backache.

Here is a case from Battle Creek: Mr. Josiah M. Shoup lives at 51 Broad Street, he was a member of the Battle Creek police force for many years. As a member of the force he served the city well, but the rough weather he was often subjected to laid the foundation of kidney disorder, which has troubled him very much. Here is what he says about it:

"About three years ago, while on the police force, I contracted from exposure a kidney trouble, which has since given me no end of trouble. The pain was right through my kidneys and across the small of my back; if sitting down and I wanted to stand up, I had to arise very slowly and gently to avoid increasing the pain; I had such tired out feelings all the time, and I was steadily getting worse. About two months ago, hearing of Doan's Kidney Pills, I got a box. Their action and effect was most complete, they removed the old aching pains for good. I can now get around as quickly as anybody. Doan's Kidney Pills are certainly as represented."

For sale by all dealers. Price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, *Doan's*, and take no other.

ATTORNEYS

J. W. WIGHTMAN, Attorney at Law, Successor to F. B. Wood. Office over Anderson's dry goods store, Tecumseh, Mich.

FARM & GARDEN.

THE LAZY FARM HORSE.

How to Make Him Draw Exactly His Part of the Load.

The question is often hotly discussed whether, when two horses work on an "evener" without stay chains, the lazy horse that lags behind thereby draws just one-half of the load, or more, or less than half. The truth is that either of the three may be true, according to how the evener and clevises are arranged.

1.—If all three clevis holes, a, b and c, are equally distant from each other and are on a straight line, and if the clevises

FIG. 1.

play freely on their pins, each horse will draw exactly half of the load, no matter which one is ahead. Fig. 1 shows this. If the line of the clevis holes, a, b and c, is not at right angles with the central line of draft, m n, both horses will be nearer that line, but both will be equally distant from it, drawing in lines a p and c q, parallel with m n. Hence each will draw half of the load.

2.—But if, as in Fig. 2, the three levises are rigid (as sometimes on mowing machines) and the central oint of draft (or fulcrum), b, is behind, and the fulcrums, a and c, are in ront of the evener, then when both orses are even, as in the upper posi-

FIG. 2.

ion shown in Fig. 2, each draws half. But when the lazy horse at c lags behind (middle of Fig. 2), he throws his line of draft, c q, further from the middle line of draft, m n, than is a p. That is, the lazy horse has by his laziness given himself the long end of the lever.

If, however, the free horse lags at a (bottom of Fig. 2), his line of draft, a r, is thrown further off from the center line, m n. That is, he gets the long end of the lever. For, in this last case (bottom of Fig. 2), a line drawn from a to b would make a right angle with the line, m n, while a line from b to c would form a sharp angle with the center line of draft, m n, and of course c would be nearer to that line.

3.—But if the center hole, b, for the main clevis, were ahead of the middle line, and the end holes, a and c, were behind, the case in Fig. 2 would be exactly reversed, and the lazy horse by lagging behind would give himself the short end of the lever and must do the most work. This can be inferred from Fig. 2 without a separate cut to illustrate it.

Of course, the only correct way is to have the three holes (fulcrums or points of draft), a b c, exactly on a line. Then each horse draws exactly his half of the load, no matter whether he forges ahead or lags behind.—Ohio Farmer.

The Nature of Sandy Soil.

Sand has a great power for the transportation of water. It will convey water quicker than any other soil, but it will not hold as much. A clay soil will hold more, but water will pass through more slowly. Sandy soils take in all the rains that fall, and if there is a subterranean supply within ten or fifteen feet of the surface, it seems to have a power to pump the water up to the roots of the plants. If, however, there is no such supply, the higher temperature of summer will usually increase the temperature of the top sandy soil and gradually dry it out faster than a fine, clayey soil. Clay will hold more moisture, and hold it longer than any other form of soil, but it must be protected by surface cultivation.—Rural World.

American Corn for Mexico.

Owing to the removal by the Mexican government of import duties on corn for the two states of Vera Cruz and Tamemlipas, and owing to the scarcity of grain there, large shipments are being made from this country, chiefly via Mobile, Ala., which has facilities for shipping to Mexican ports. One steamship company has already carried 700,000 bushels, and for August and September the total reached 1,500,000 bushels. What these figures mean is shown by comparison with the total shipments to Mexico for the year ending June 30, 1896, the aggregate being 1,677,633 bushels. In the year previous the total was only 179,611 bushels. The corn sells for $2.50 a bushel in Mexican money.

IMPROVING GRASSES.

Why Our Farmers Should Bring Native Species Into Cultivation.

One of the best lines of work in connection with the development of improved forage conditions is that of bringing our native forms into cultivation. More than 20 per cent. of all the grass species of the world are natives of the United States, the number ranging upward of 700, and I think I am not wrong in saying that there is no other continent on which there is a greater number of native forage plants other than the grasses. Nearly all of our cultivated forage plants are of foreign origin, and if it were not simply a matter of public interest, it ought to be one of public sentiment to preserve the coming generations of American farmers those native species which have added so much to the wealth of the land in the past. The species of the grazing regions in the west and southwest, and, for that matter, in every part of this country where [illegible] adapted for the conditions under which each grows, and it is folly to think that better forms may be introduced from Europe or Asia or Australia, where climate and soil and abundance of rainfall are different. The meadow grass of the parks, woodlands and mountain slopes, the grama and buffalo grasses of the southwest, and the blue stems of the eastern prairie belt, cannot be improved upon.

We must go out into the fields and meadows and select, care for and propagate the thrifty grasses and native clovers, just as the horticulturist selects and propagates his finest varieties of fruits, or the florist his most perfect and most highly developed flowers. Every cultivated grass, every cereal, every fruit or flower, has been developed up from just such small beginnings, and when we take into consideration the importance of the grazing industries, the great amount of money invested in them, and the vast yearly income from these sources, we must adopt the conclusion that such a line of work is an exceedingly important one.—United States Department of Agriculture.

EXHAUSTED FERTILITY.

A Good System of Rotation Is the Best Restorer of Worn-Out Soil.

The following conclusions by one of our experiment stations apply everywhere: The continued cropping of soils to grain crops only without any system of rotation, or other treatment, is telling severely upon the original stock of half decomposed animal and vegetable matters, and nitrogen. Soils which have produced grain crops, exclusively, for ten or fifteen years, contain from a third to a half less humus and nitrogen than adjoining soils that have never been plowed. Soils which have been cropped until the organic matters and humus have been materially decreased, retain less water and dry out more easily than when there is a larger amount of organic matter present in the soil. Soils which are rich in humus contain a larger amount of phosphates associated with them in available forms than the soils that are poor in humus. Soils which are rich in humus and organic matters produce a larger amount of carbon dioxide that acts as a solvent upon the soil particles and aids the roots in producing food. One-half of a sandy knoll, heavily manured with well rotted manure, contained nearly a quarter more water during a six weeks' drought than the other half that received no manure. The supply of organic matter in the soil must be kept up because it takes such an important part, indirectly, in keeping up the fertility of soil. A good system of rotation, including sod crops, and well prepared farm manures will do this, and will avoid the introduction and use of commercial fertilizers which are now costing the farmers of the United States over $33,000,00 annually.

SIMPLE FLY WHEEL.

Can Be Used to Advantage for Many Kinds of Farm Work.

A fly wheel is often serviceable on the farm for helping keep the churn in regular motion, or the hand separator, or the grindstone, where one must grind by using a treadle for foot

HOMEMADE FLY WHEEL.

power. In the latter case a fly wheel will cause the stone to run very evenly. Our sketch shows a cast-off heavy farm cartwheel, mounted and ready for business. Small strips of hard wood screwed to the rim keep the band from coming off. The plan of setting up the wheel is plainly shown in the illustration. Where the rim of the wheel used is of sufficient thickness, the old iron tire can be removed and a very thick, but narrow, tire put upon both edges of the rim, leaving a chance for the band to run between them. In the case of a cast-off cartwheel this plan would answer admirably.—Orange Judd Farmer.

A bulletin of the Ohio station tells how seed oats were successfully treated by the hot water method in 1895 and 1896, to prevent smut. It is estimated that Ohio farmers lost not less than half a milion dollars this year, on account of smut in oats. The crop from untreated seed at the station showed 40 smutted heads out of every 100, while the treated seed yielded a much larger crop entirely free of smut.

A Household Necessity.

Cascarets Candy Cathartic, the most wonderful medical discovery of the age, pleasant and refreshing to the taste, act gently and positively on kidneys, liver and bowels, cleansing the entire system, dispel colds, cure headache, fever, habitual constipation and biliousness. Please buy and try a box of C. C. C. today; 10, 25, 50 cents. Sold and guaranteed to cure by all druggists.

To provide was once simply to "look ahead."

The Ideal Panacea.

James L. Francis, Alderman, Chicago, says: I regard Dr. King's New Discovery as an ideal panacea for coughs, colds and lung complaints, having used it in my family for the last five years, to the exclusion of physician's prescriptions or other preparations.

Rev. John Burgus, Keokuk, Iowa, writes: I have been a minister of the Methodist Episcopal church for 50 years or more, and have never found anything so [illegible] speedy relief as Dr. King's New Discovery. Try this ideal cough remedy now. Trial bottles free at Baker & Hall's drug store. 6

Gauze was first manufactured at Gaza.

CASCARETS stimulate liver kidneys and bowels. Never sicken, weaken or gripe.

A Letter just to hand says: "It is needless for me to express my high opinion of Pearline, and that no clean family lives without it." Thousands of letters come, praising Pearline, but they don't all put it so strongly. We wouldn't want to, ourselves. We don't say that things can't be made clean without Pearline. But we do say that things can't be made clean with so little labor and so little damage by any other means. And we want to say, that, loudly. Millions use Pearline. Only a short time ago they rubbed and scrubbed and fussed in the old-fashioned way without it.

Beware of imitations. 430 JAMES PYLE, N.Y.

STATE OF MICHIGAN, County of Lenawee, ss.

At a session of the Probate Court for the County of Lenawee, holden at the Probate office in the city of Adrian, on Monday, the 7th day of December in the year one thousand, eight hundred and ninety-six.

Present, Richard B. Robbins, Judge of Probate.

In the matter of the estate of Alvinza Whelan, deceased.

On reading and filing the petition duly verified of John B. Whelan a son of said deceased praying that administration of said estate may be granted to Ervin J. Whelan or some other suitable person.

It is ordered, That Tuesday, the 5th day of January, next, at one o'clock in the afternoon, be assigned for the hearing of said petition, and that the heirs-at-law of said deceased and all other persons interested in said estate, are required to appear at a session of said Court then to be holden at the Probate office, in the City of Adrian, and show cause, if any there be, why the prayer of said Petitioner should not be granted.

And it is further ordered, That said Petitioner give notice to the persons interested in said estate of the pendency of said petition, and the hearing thereof, by causing a copy of this order to be published in the TECUMSEH HERALD, a newspaper printed and circulating in said County of Lenawee, for three successive weeks, previous to said day of hearing.

RICHARD B. ROBBINS, Judge of Probate.

(A True Copy.)

A. E. BARRAR, Probate Register

MORTGAGE SALE.

Default of payment having been made of a mortgage made and executed by William J. Arnold and Caroline Arnold his wife, to Joseph Russel, dated April 21, 1891 and recorded on the 26th day of May, 189 , in the Register of Deeds office for Lenawee County, Michigan in Liber 99, of Mortgages on page 188,—upon which mortgage there remains unpaid of the principal and accrued interest at the date of this notice the sum of fourteen hundred fifty-seven and 53-100 dollars ($1,457 53) and no proceedings at law or in equity have been taken for the collection of the same or any part thereof.

Notice is therefore hereby given that by virtue of the power of sale in said mortgage contained and of the statutes of the State of Michigan in such case made and provided, for the purpose of realizing the moneys above mentioned and the interest thereon hereafter to accrue at 7 per cent per annum the cost of this foreclosure and sale including the attorney fee provided for in said mortgage, I shall on the first day of March, 1897, at nine o'clock in the forenoon of said day at the front door of the court house in the city of Adrian Lenawee county Michigan (that being the building in which the circuit court for said county of Lenawee is holden) sell at public vendue to the highest bidder, all that certain piece or parcel of land situate in the Village of Tecumseh in the county of Lenawee and state of Michigan and described as follows, to wit: Beginning at a point in the south line of Chicago street in said village of Tecumseh, such point of beginning being at the same time at the northeast corner of a parcel of land formerly owned by T. T. Kneeland and more recently occupied by M. P. Henry, thence running east on the south line of Chicago street forty-one feet and three inches to land owned by George Merritt; thence south on west line of said Merritt's land ninety feet; thence west at right angles with the first course forty-one feet and three inches to the east line of said T. T. Kneeland property; thence north on east line of said T. T. Kneeland property ninety feet to the place of beginning.

Dated December 4th, 1896.

Joseph Russell Mortgagee.

Charles Burridge Attorney for mortgagee.

STATE OF MICHIGAN, County of Lenawee, ss.

At a session of the Probate Court for the County of Lenawee, holden at the probate Office, in the City of Adrian, on Monday the 30th day of November, in the year one thousand eight hundred and ninety-six.

Present, Richard B. Robbins, Judge of Probate.

In the matter of the Estate of Humboldt Pennington deceased.

On reading and filing the petition of Claribel Pennington administratrix upon said estate praying that she may be empowered and licensed to sell the real estate of said deceased in said petition described for reasons therin stated.

It is Ordered, That Monday, the 28th day of December next, at nine o'clock in the forenoon, be assigned for the hearing of said petition and that the heirs at law of said deceased and all other persons interested in said estate, are required to appear at a session of said Court, then to be holden at the, Probate Office in the City of Adrian, and show cause, if any there be, why the prayer of said petitioner should not be granted.

And it is Further Ordered, That said petitioner give notice to the persons interested in said estate, of the pendency of said petition and the hearing thereof, by causing a copy of this order to be published in THE TECUMSEH HERALD, a newspaper printed and circulating in said County of Lenawee, for three successive weeks previous to said day of hearing.

'ROUND ABOUT US.

Clippings and Condensations From our County Contemporaries.

The Tecumseh Herald is issuing a Tuesday special to accommodate its extra advertising patronage for December. Brother Stacy is a hustler sure.—Addison Courier.

The Tecumseh Herald will issue a semi-weekly edition during the month of December. This paper will take the place of the usual holiday edition.—Hudson Gazette.

The Addison Courier will issue four beautiful and readable "extras" during the month of December. There is no better paper for a town of its size in Michigan than this very same Addison Courier.

[illegible] received official notice Saturday that he had been elected governor of Michigan for the two years following January 1, 1897. He celebrated the day by entertaining several scores of visitors and favor seekers.

Tecumseh has a "Wit and wisdom" club, but deponent stateth not whether it is a political, social, educational, original or second-hand affair. The club has an attractive name and ought to be a winner.—Petersburg Sun.

We should like to mention the fact that last week the Tecumseh Herald printed an ad. without a border. Just think of it, brothers, a whole ad. without a border. Jumpins Jehosophat, what's goin' to happen? Petersburg Sun.

During the past three months about 5,000 bushels of apples have been manufactured into ap le butter, jelly or cider at F. A. Saunders & Son's mill here. During the best of the season the average daily output was about 1,000 gallons.—Addison Courier.

Harassed to an almost state of distraction by the importunities of numerous aspirants, Congressman "Billy" Smith, of Grand Rapids, has decided that the postmastership question in one village in his district shall be settled by a vote of the citizens.—Morenci Observer.

Tecumseh also has the railroad fever; wants the Lima Northern to come that way; does not seem to realize that the only practical way for that road to extend its line is to come to Hudson. It is very unfortunate that the road cannot be built on half a dozen different routes so that all might be accommodated.—Hudson Post.

Just as the hustling city of Hudson thought it had the northern terminal of the Lima Northern railroad sure, a lot of grasping Tecumsehites conceived the idea that there were other places on earth quite as good for the iron horse to run into, and that Tecumseh was one of them. Accordingly they are trying to get the Junction with the C. J. & M. at that town.—Addison Courier.

As required by the statute, the boards of control of the various state institutions have submitted to the state board of corrections and charities their estimates for needed appropriations to be asked of the coming legislature for 1897 and 1898, and these estimates have been passed upon by the board. Those approved includes the Industrial Home here with $85,718 for current expenses; $3,970 for special purposes; approved at $4,450, and not favored at $1,520. The total asked for by all institutions reaches $1,097,548.35. The board approves at $943,461.55.—Telegram.

After all the long contest over the election of a sheriff in Monroe county, and the recounting of the entire vote of the county, the two candidates stand exactly where they did before the contest was opened. Rod, the silverite, was elected by a majority of 31, on the face of the returns over Mills, the Republican. In the recount, 319 ballots were thrown out, sometimes one man and sometimes the other being in the lead, but Rod generally having a majority. When the canvassing board completed its work and adjourned after putting the county to heavy expense, Rod had exactly 31 majority, just what he had at the beginning of the contest. The courts will probably now be called on to take a whirl at the matter.—Messenger.

Upon the old Horace Bartlett farm, about a mile northwest of the village of Clinton, says a correspondent, there is a large mound of peculiar formation It is situated on the river flats, about 20 rods from the stream and has often been thought remarkable, situated as it was on flat ground. This mound is about 50 feet accross its base and is 10 or 12 feet high. Until within a year or so it has been covered with a growth of large trees but they have been cut down. Mr. Heal, a former Clinton druggist, who was quite a collector of curiosities, always claimed this mound was made by Indian mound builders, basing his theory on its cylindrical form and peculiar location and also upon the fact that its soil differed from that of the surrounding land. While the river flats were composed of loam, common to such ground, the soil on the mound consisted of clay, sand and gravel. On Tuesday some boys, while digging in the mound, made some discoveries which went to prove the theory that it was made by the Indians. They unearthed several pieces of pottery, the neck of an urn, and what appeared to be bones, but crumbled to pieces upon being exposed to the air. It is likely that further investigations will be made and perhaps discoveries of value to antiquarians will be brought to light.—Adrian Telegram.

Groceryman E. Luther has had one delivery horse for seven years. He had become so tame and gentle and so used to the street cars that the animal seemed to like to have them hanging along by him. Indeed it was as much as a bargain to get him off the track when the car came along, he seemed to be so much in love with the electrical machine. But a change has come o'er the spirit of his dream. A few days ago while driving across the track near Scott street just after a car had flashed by, when a foot touched one track a hind foot dropped on the other. This evidently made a circuit and the animal tumbled to his knees, stricken with the electric shock. From that time on he has been about as much afraid of the cars as a spring colt that never saw them before and has already run away once and smashed things, pertaining to his rig, up considerably. When he is driven under an electric light or hears the rattle of the wires overhead as the car goes along the always steady animal heretofore ducks his head, picks up his ears and makes desperate efforts to get away. The scare is undoubtedly due to the shock.—Adrian Telegram. Didn't suppose there was life enough in the Adrian electric railway to shock anything, let alone an old one-eyed delivery horse.

At Pontiac a movement has been started to establish a "market day" for the purpose of attracting farmers in Oakland and adjacent counties to the city. It is proposed to have a market on will make special prices to farmers. It will also be known as "bargain day." These are days when it takes more than the usual attractions to bring trade and such a method might prove advantageous in Adrian.—Adrian Telegram. Just what every provincial town needs. Such a market would benefit Tecumseh more than we could think.

Without being hypercritical or finical in the least, it would seem that Michigan is in a fair way to solve the problem of eternal life. The report of Secretary Baker of the state board of health shows that during the past fiscal year the board prevented 112,845 cases of sickness and 5,261 deaths from diphtheria, scarlet fever, typhoid fever and other infectious diseases. To generalize from this we may assume that if the state board were to double its efforts next year it could prevent 225,686 cases of sickness and 10,522 deaths. From this it becomes apparent that through a further increase in the effectiveness of the board, coupled with a corresponding increase in appropriations, there would be no deaths in Michigan except from trolley cars and unloaded fire arms, which do not come within the province of the department. The people of Michagan need not die unless they want to, and even the most rudimentary instincts of patriotism ought to inspire them to live and keep down the death rate for the reputation of the state.—Detroit Tribune.

Taylor.

Loren E. Taylor, eldest son of Rodman Taylor, was born in the township of Franklin, Feb. 26, 1835, and his whole life was passed in the same neighborhood; for when, on March 25, 1860, he was married to Emma G. Hampton, of the same town, he settled on the farm west of his father's, where his family were reared and where he and the loved ones who preceeded him passed away. It is doubtful if a happier home could be found than was his. Loren and Emma were truly a devoted couple and to them were born twelve children, nine of whom are living, and dutiful children they have ever been. June 6, 1892, his life's partner was taken from him by death, truly a most stunning blow; but with christian resignation he bowed submissively and turned to his children for earthly comfort, and not in vain. For many years he had been an exemplary member of the Clinton M. E. church and the masonic lodge, both of whose burial rituals were used for his interment. His death occurred Dec. 1, and the funeral Friday, Dec. 4, was attended by a large number of sorrowing friends. Besides his aged father, two sisters, one brother, and the following children survive him: Mrs. Luella Joseph, Sadie, Bertha, Mrs. Edith Simonds, Hollis, George, Andrew, Ruth and John.

High School Happenings.

The Physics class have begun the study of electricity.

Ethel Doty, of Evans Lake, was a sixth grade visitor Friday.

Maggie Biddle, of Macon, called on the high school Friday morning.

Ina Jackson was absent for a day or so this week, on account of illness.

Grace Ruder, of Macon, visited her Macon friends in the B room Friday.

The primary teachers had a meeting at the central building Tuesday evening.

The advanced Algebra classes are trying to fathem the mysteries of proportion.

Willard McIntyre, a former pupil here, called on the A room Tuesday afternoon.

Harold Hoag renewed his acquaintance with teachers and pupils Thursday afternoon.

Minnie Russel, a member of the class of '96, called on the high school Tuesday morning.

Mr. and Mrs. Varner were looking over the different rooms of the high school Monday.

Cuyler North and Louis Sheldon were absentees from the C room the greater part of the week, owing to illness.

The senior class held a meeting after school Wednesday. What deep dark plots were formed is not for us to tell.

The ninth grade grammar classes have completed the advanced work and are now reviewing, preparatory to examinations in January.

MEALS IN PARLOR CARS
—Between—
CHICAGO and DETROIT.

The Wabash Railroad has placed in service on day trains Nos. 6 and 7, between Chicago and Detroit, a line of Buffet Parlor Cars in which meals and other refreshments are served at any time during the day. Prices are very reasonable, these cars being operated on the a la carte plan.

LURED TO DEATH.

Antonio Maceo the Victim of Spanish Treachery.

Invited to a Conference, He and His Staff Are Ruthlessly Shot Down—The Story Denied by Spanish Officials.

Jacksonville, Fla., Dec. 14.—Gen. Antonio Maceo, the famous Cuban leader, is really dead, having been treacherously murdered by Spaniards December 7 while on his way to attend a conference to which he was invited by the marquis of Ahumeda, acting captain general of Cuba, while Gen. Weyler was in the field. Saturday noon a letter was received by Col. J. A. De Huau, the head of the Florida junta, from his secretary correspondent in Havana, giving a detailed account of the assassination of Gen. Maceo and his entire staff, with the exception of Dr. Zertucha, who was Maceo's physician. The letter came from a reliable source in Havana, but the correspondent's name, of course, cannot be made public, for, as Mr. Huau said: "The writer would be shot within an hour by Spanish authorities if they knew who gave away details of one of the most horrible atrocities ever chronicled in modern warfare."

Led Into a Trap.

It appears that the marquis of Ahumeda, who is officiating as captain general of Cuba during Weyler's absence in the field, sent a letter to Gen. Maceo inviting the Cuban leader to a conference near Punta Brava, stating he desired to confer with him as to some means of stopping bloodshed and the great waste of human life, and to getting his views on the subject. Maceo, who was the soul of honor, never for a moment thought treachery was intended, especially as the invitation came from such a prominent Spaniard as the marquis of Ahumeda, and he immediately returned an answer, saying he would be glad to meet the Spanish general. Attended by his staff only, consisting of 35 men and officers, he went to the rendezvous, little dreaming of what was in store for him.

Ambushed.

On his arrival at the trocha, the Spanish soldiers there, acting under orders, actually saluted the rebel chieftain as he passed, but after reaching the rendezvous on the east side near a hillside, thickly wooded, the Cuban leader was surprised to see, instead of the marquis of Ahumeda, a large body of Spanish soldiers, who seemed to come from every side. The actions of the Spanish troops were so suspicious that Maceo felt that he had been cruelly trapped, and his suspicions were confirmed when peremptory orders came from Maj. Cirujeda, who dashed up to the gallant Cuban leader as he stood at bay, surrounded by his staff, and demanded his unconditional surrender. "If you surrender," said he, "we offer you your life and an honorable treaty."

Maceo Shot Down.

"Never!" was the brave reply, and hardly had the words been uttered when volley after volley was poured into the little band of patriots, who, although hemmed in on all sides and outnumbered almost one hundred to one, struck spurs into their horses with cries of "Cuba libre" and rode gallantly to their death, striking down as many of the enemy as they could. Maceo is reported to have fallen at the first fire with a bullet through the head, breaking his jaw, while another hit him in the abdomen. Each was fatal.

Young Francisco Gomez, son of the Cuban commander in chief, was the next to fall, and in a few moments a number of bloody corpses, all shot almost beyond recognition so fierce and concentrated was the Spanish fire, was all that remained of the gallant Cubans, who had trusted not wisely but too well to Spanish honor.

Zertucha Spared.

The fire was continued until every man was killed save Dr. Zertucha, who, the Cubans say, is a traitor. The bodies of Maceo and young Gomez were then tied to the tails of the soldiers' horses and dragged over the field so as to disfigure them, as the Spaniards did not wish to have them discovered and identified at first.

Story Officially Denied.

Havana, Dec. 14.—It is announced in official circles here that the accounts received by the Cuban junta detailing the manner in which Maceo met his death are absolutely untrue. The statement that Maceo was assassinated through the instrumentality of Dr. Zertucha, who, it is claimed, led Maceo and his staff across the trocha, where they were met by Ahumeda and the Spanish soldiers and murdered after being invited to a conference, is officially and emphatically denied.

Will Stay in the Field.

Indianapolis, Ind., Dec. 11.—The national executive committee of the national democratic party held its first meeting here since the election and decided to hold the organization intact as it stands and to make an effort to extend it into states where it had no footing in the last campaign.

Sight Restored.

Bridgeport, Conn., Dec. 12.—Mrs. Helen Beers, of this city, born blind 19 years ago has had her sight restored by the removal of a cataract from each eye.

CIVIL SERVICE REFORM.

Officers Elected and Resolutions Adopted by the National League.

Philadelphia, Dec. 12.—The delegates to the annual meeting of the National Civic Service Reform league, which began Thursday in Hotel Walton, held a business session Friday morning. Pres[illegible] was in bad voice and Henry Hitchcock, of St. Louis, presided.

The officers elected were:

President, Carl Schurz, New York; vice presidents, Charles Francis Adams, Boston; Augustus R. McDonough, New York; Rt. Rev. Henry C. Potter, New York; J. Hall Pleasant, Baltimore; Henry Hitchcock, St. Louis; Henry C. Lea, Philadelphia; Franklin MacVeagh, Chicago, William Potts, New York, and Archbishop P. J. Ryan, Philadelphia.

Charles J. Bonaparte, of Baltimore, chairman of the committee on resolutions, presented the report of that body, which was adopted after some changes. A synopsis of the resolutions follows:

They refer to the fact that for the first time since the organization of the league its principles were openly repudiated and a revival of discarded abuses threatened in the platform put forth by a national convention and in the public declarations of a candidate for the presidency, and "congratulates the country that the purpose thus foreshadowed to undo the good accomplished by persistent effort during a generation's space have failed of consummation." The league congratulates the country on the "truly remarkable" progress of reform under the second administration of President Cleveland, and especially during the past year, and declares that "for this great achievement, advancing as it does the fundamental principles of free government, President Cleveland deserves the sincere and heartfelt thanks of all good citizens." The league recognizes in the president-elect a friend to civil-service reform, and urges that he adopt as soon as may be practicable a plan which may enable him to base his nominations for non-political presidential offices such as postmasters and consuls, upon ascertained fitness and efficiency, regardless of party or other affiliations. The league further suggests to the president-elect that the public interest would be advanced if no removals were made of fourth-class postmasters, except for cause, and it submits the advisability of extending the system of registration of laborers to all departments.

At the afternoon session a number of interesting papers were read, and the meeting adjourned sine die. It is probable that the next annual meeting will be held at Cincinnati. The place will be selected by the executive committee.

CAN'T ENFORCE IT.

Anti-Trust Law Practically a Failure—Attorney-General Reports.

Washington, Dec. 11.—The annual report of Hon. Judson Harmon, attorney general of the United States, was sent to congress Thursday. Concerning the anti-trust law, he says that the restricted scope of its provisions, as constructed by the courts, makes amendments necessary, if any effective action is expected from the department of justice.

A new crimes act is one of the things the attorney general thinks is needed. Further defects in the criminal laws were discovered during the past year. Criminal legislation is hopelessly confused, says the attorney general.

TOOK THEIR OWN LIVES.

Two Prominent California Ladies Found Dead in Their Home.

San Francisco, Dec. 12.—Mrs. Sarah H. Cooper and her daughter, Harriet Cooper, were found dead in their home in this city yesterday morning with the gas turned on and every evidence of suicide. Both were widely known as workers in the cause of temperance, Christianity and philanthropy. It is supposed that the deed was committed because of a church scandal in which they at first sided with the pastor and then turned against him and were snubbed by former friends.

Issues an Address.

San Francisco, Dec. 14.—Charles D. Lane, chairman of the national bimetallist committee, has issued an address to his followers urging them to suspend active agitation of the subject of free coinage of silver for the present and to join in upholding the hands of Maj. McKinley as president of the United States, and to support him in all efforts to increase the prosperity of the people.

Fell from a Train.

Columbia, Mo., Dec. 11.—A man with $2,975 fell from a Missouri, Kansas & Texas train near Wilton and was killed. There was nothing whatever on his person by which he could be identified. His ticket read from Denison, Tex., to St. Louis. Coroner Parker has taken charge of the remains and money.

Coxey Leaves People's Party.

Massillon, O., Dec. 12.—Gen. J. S. Coxey has issued an open letter to Senator Marion Butler denouncing "the disgraced people's party, sold out to an issue so insignificant as silver." He tenders his resignation as a member of the national committee.

Famous Chemist Dead.

London, Dec. 11.—A dispatch to a news agency here announces the death at San Remo, Italy, of Alfred Nobel, a Swedish engineer and chemist. He was the first to recognize the value of nitroglycerine, and was the inventor of a number of explosives.

Internal Revenue.

Washington, Dec. 14.—The annual report of Commissioner Joseph S. Miller, of the internal revenue bureau, shows the receipts for the fiscal year ended June 30, 1896, to have been $146,830,615, against $143,246,077 the previous year.

Indianapolis, Ind., Dec. 14. — Mrs. Catherine Corbett, aged 70, and her daughter Mary, aged 40, were found dead in their home in this city, having been suffocated by gas.

THE MAIL SERVICE.

Annual Report to Congress of Postmaster-General Wilson.

The Excess of Expenditures Over Receipts the Past Year Was $6,127,083—No Necessity, He Says, for an

Washington, Dec. 9.—A vigorous protest against the abuse of the postal service is made in the annual report of Postmaster-General Wilson. He quotes figures which show an excess of expenditures over receipts of $6,127,083 for the last fiscal year, which, however, is a decrease in the deficiency of $1,679,956, as compared with the previous fiscal year. This satisfactory exhibit for the last year has been made possible, the postmaster-general sets forth, by a vigorous policy of bringing suit or pushing collection on bonds immediately after default, which is the only safe practice for the interests of the government and those of the obligers.

The postmaster-general argues that there is no necessity for the annual deficit in the revenues of the department, and that but a few lines of amendment by congress to the postal laws will wipe it out and give in its place a steady surplus. It has its chief source, he says, in the transmission at second-class rates of a large and rapidly-increasing volume of matter never in the contemplation of the law, which gives the nominal rate of one cent a pound on such matter, and assuredly outside of the policy of the law as to newspapers and periodicals.

Loss Through Franking.

He characterizes the loss sustained by the franking privilege in transmitting serial libraries, etc., as indefensible, shows that of 848,980,648 pounds of second-class matter handled during the year over 83,349,000 pounds were "county free" matter, and urges the adoption of the Loud bill, now pending in the house, as the remedy. He says the passage of this bill will not only wipe out the postal deficit and insure in ordinary years a surplus which may be used to cheapen postage on letters or to increase the mail facilities of the people, but will really carry out the one-cent-a-pound law of 1885.

The postmaster-general estimates a deficiency in the revenues of the department for 1897 of $3,472,419, and for 1898 of $1,283,324.

Discussing the merits of the postal system, the postmaster-general says the people of the United States may felicitate themselves that in no important respect are they behind any other country in their postal facilities, and in many things they are in the van.

Free Rural Delivery.

The results of the free rural delivery experiments are yet incomplete. Time is required to familiarize the people with the innovation and develop its benefits or failures. The thorough working of such a system involves some redistribution of post offices and some discontinuances which cannot now be safely attempted.

Twelve thousand and ninety appointments of postmasters were made during the year, of which 1,941 were due to removals. There were 198 fraud orders issued during the year.

Lotteries.

The headquarters of all or nearly all of the avowed lottery concerns have been removed to foreign shores, but it is thought much matter sent by them reaches addresses in this country through the mails, which the department practically has no power to prevent, and that express companies carry large sums of money from our people to them.

The postmaster-general concludes his report with two significant recommendations, which he says are necessary to complete the civil service reforms. The first is to secure fixity of tenure during efficiency and good behavior to the three assistant postmasters-general, whose work is entirely non-political, whose capacity to deal with the large machinery and great expenditures of their respective bureaus must come in great measure from experience, and who preserve the continuity of the department, not in the mere desk or division work, but in the general administration.

PROGRESS IN CHINA.

The Government Orders Establishment of English Schools.

San Francisco, Dec. 11.—Tokio advices say that the Chinese government has issued instructions to the viceroys and governors throughout the empire to establish schools for teaching the English language and western sciences in all the principal cities. The reason assigned is that China desires to keep herself on terms of equality and in touch with the great powers of Europe.

Ball Clubs in the Western Association.

Quincy, Ill., Dec. 11.—J. Hickey, president of the Western Baseball association, has notified the Quincy Baseball association that he has awarded Quincy the eighth franchise in the Western association. This makes the circuit complete as follows: Quincy, Peoria, Rockford, St. Joseph, Des Moines, Burlington, Cedar Rapids and Dubuque.

Grand Jury Refuses to Indict.

Denver, Col., Dec. 12.—Andrew J. Spute, who was accused of the murder of his wife and four children several weeks ago in Smith's lake, where they were boating, has been fully cleared by the unanimous refusal of the grand jury to vote an indictment. Spute will not begin suit to collect the $10,000 insurance on his wife's life.

At His Betrothed's Grave.

Toledo, O., Dec. 14.—On the grave of his late fiance in Calvary cemetery Sunday morning Edmund K. Wright, aged 20, a member of a prominent Toledo family, committed suicide. After placing a bunch of flowers on the tomb, Wright sent a bullet into his heart, dying almost instantly.

Employment for 6,000 Men.

Pittsburgh, Pa., Dec. 11.—A general resumption of operations in the river coal mines will take place in a few days, giving employment to about 6,000 men. The miners will receive an advance in wages of 37½ cents per 100 bushels, the agreement holding good until next July.

Fifty Years in Journalism.

Philadelphia, Dec. 10.—Eminent public men from many cities sat round the board at the Hotel Walton Wednesday night and did honor to Col. Alexander K. McClure, editor of the Times, who that day completed his fiftieth year in journalism. Gov. Hastings presided.

TECUMSEH, MICH., DEC. 15, 1896

If a newspaper man can get two new subscribers for each one stopped he considers himself doing a great business. Without solicitation the HERALD has received 28 new subscribers since November 1 and only four stops. One of the four was sent to a man who moved away between two days, the other three discontinued the HERALD simply because they didn't want a paper with an opinion of its own. Certainly this is a good showing and no effort will be spared to make the HERALD worthy this patronage.

A public meeting was held in Adrian last evening to determine what is best to be done concerning the securing of the Lima Northern railroad for that city. Much interest was manifested and there is no doubt but that Adrian will be able to raise the amount required to secure the road. The time is limited and if Tecumseh secures the Lima Northern, quick work must be done. Our committee of ten is now at work and it is to be hoped that by Friday's issue of the HERALD the report can be made that Tecumseh's share is all pledged.

Congress is now running full blast but all the work that has been done so far has been to spend money. Appropriation bill after appropriation bill has been railroaded through both house and senate without regard to the fact that at the present rate of expenditure the deficit for the present year will be over $74,000,000. Something should be done by this congress to arrange matters so that Uncle Sam will receive money enough each month to pay his current expenditures. Something must be accomplished, either by increasing its revenues or decreasing the expenses, [illegible] complexion of the senate [illegible] no increase of tariff will [illegible] session, hence the plan of the HERALD would be to increase the tax on beer $1.00 per barrel which would raise $35,000,000 of the deficit; put a duty on tea of 40 per cent which would further reduce it $4,000,000, and a duty of 40 per cent on coffee would reduce it to nearly $80,000,000. Experience has taught us that the price of tea and coffee has been very little less than it was before the duty was taken off and all the difference it would make to the consumer of beer would be that he would drink a little more water while consuming the beer which would certainly do him no damage. Of course the advice of the HERALD to congress is like a fly dropping into Lake Michigan but the advice is just as good.

COUNCIL PROCEEDINGS.

Session of [illegible]
Present, the President, Trustees Boyd, Heesen, Lo[illegible]
Minutes of last meeting read and approved.

Sexton presented report for November, showing three [illegible] adult interments; $15 [illegible] interment fees collected; one lot [illegible] for $15 cash. Accepted and ordered [illegible].

Street Commissioner [illegible] presented, showing village [illegible] labor 17 days, 7 hours, hired team [illegible] for 16 days 2 hours, cost $40.50; hand [illegible] for 18 days cost $22.50. One poll [illegible] worked. Accepted and ordered [illegible].

Street committee reported [illegible] worth of gravel sold for cement walks. Accepted.

Dr. Geo. Howell appeared and addressed the council as to the necessity of prohibiting the riding of bicycles on the sidewalks at all times, during the year, on account of the danger to pedestrians, and citing several instances where parties had been struck by reckless riders and one instance where a person was seriously injured. Consideration of the matter laid over until next meeting.

Moved that the clerk draw an order on the village treasurer for $1,854.63 in payment of water works bond due January 1st 1897 $1,000, interest due $850, commission for paying same $4.63. Supported. Carried.

The following bills were reported by the clerk and referred to the finance committee: Tecumseh Electric Co., lights for Nov., $116.92; J. A. Boyd, telegram &c., $.75; Jas. Elliott, blacksmithing, $6.55; H. Brewer & Co., supplies, $31.21. Labor: John Lucas, $3.60; Wm. Austin, $3.00; Wm. Fielder, $14.25; A. Waring, $9.45; C. Bronson, $8.25; Jas. O'Riley, $9.25; F. Warin, $1.25; O. E. Hodges, $4.88; John Hoy, $1.25; Robt. Hastings, $1.25; G. W. Bly, $7.63; Wm. Cassel, $1.25. Committee reporting favorably on all of the above bills, clerk was instructed to draw his orders on the village treasurer for the several amounts thereof.

Moved that bridge over Evans Creek on Union street constructed by Keepers & Thacher, be accepted and that clerk draw his order on the village treasurer for the balance, remaining unpaid thereon. Seconded. Carried.

Council then adjourned.

W. J. INGERSOLL, Village Clerk.

In cases of burns, sprains, scalds, or any of the other accidental pains likely to come to the human body, Dr. Thomas' Eclectric Oil gives almost instant relief.

'ROUND ABOUT US.

Clippings and Condensations From our County Contemporaries.

The ladies of the Congregational church at Morenci gave a bazaar and fair and netted $226.95 besides plenty of fun and hard work. Still they complain of hard times in Morenci.

The latest from Monroe is the reported rupture of an engagement between a young woman and a young man because the latter insisted on wearing motto buttons. With the motto button breaking ups engagements, the suspender button breaking up marriages, and the collar button doing business all the year round, its about time we took to wearing hooks and eyes.—Petersburg Sun.

The Wabash and Lake Shore have never come down into the city because it is an expensive route. It will cost many times what the Lima Northern asks to build the new road down into the city. But the expense of building, of bringing in outside capital during the dull season to expend many thousands of dollars in addition to all that Adrian contributes, means a mighty thing just at this time to the business men and working people of Adrian. The enterprise should have their united support.—Adrian Telegram.

A prominent federal office holder who keeps a general store at Jerome, Hillsdale county, disappeared ten days ago, and it is alleged he is a defaulter to the government to the extent of $1,500. A postoffice inspector has looked over his affairs, and found that he obtained the cash by ordering a large number of money orders payable to himself upon postoffices scattered all over the country. Westover is said to have mortgaged his stock of goods for $2,300 before he went away. It is also claimed that he owes for many carloads of apples which he purchased of the farmers in that locality. When he left he went to Hillsdale, the county seat, discharged the mortgage upon his homestead, and deeded it to his wife.—Adrian Telegram.

A six year old son of A. Loomis, a Lake Shore passenger brakeman who resides on Toledo street, had a narrow escape from death yesterday afternoon. A bottle of chloroform was left standing on a shelf in the kitchen where it was discovered by the little fellow, who drank a quantity of it. The child soon went to sleep on the bed and his condition was not discovered until an hour and a half later when the parents tried to arouse him but could not do so he being in a complete stupor. Dr. Williams was summoned and succeeded, after nearly an hour's work, in reviving the little fellow. It was a close call and teaches the importance of keeping poisonous drugs out of the reach of children.—Adrian Telegram.

Handbills announcing a public meeting at Croswell opera house Monday evening, which are being distributed about town today, show an active revival of interest in the Lima Northern project, and lead to the general conclusion that something definite is to be done. The citizens who have so industriously served in an investigating capacity, met last night at the mayor's office and formulated the report which is given below. We hope the people of Adrian, without any distinction, will carefully read what the gentlemen of the executive committee have to say, and rise to a full appreciation of the requirements of the situation.—Adrian Times. In addition to the above, the committee appointed last February makes a report and sets forth the many advantages of the Lima Northern.

RIDGEWAY.

Ed Freer, wife and son, of Mason, arrived Saturday evening for a visit with her sister, Mrs. F. E. Pocklington, and family.

In our letter last week was a false statement. Ace Smith did not go to St. Louis with Mr. and Mrs. Ed Harrison; his wife expected to accompany them, but was unable to do so and will join them for Christmas. Ace is attending the market during Ed's absence.

Horace Dibble visited Rev. E. Yager and family, at Napoleon, during the past week.

The first number of the Lecture Course comes next week Tuesday evening, when Silas Palmer, of Detroit, will lecture on "Wit and Wisdom in Words."

Mrs. Jennie Lockwood, of Petersburg, district president of the W. C. T. U. will meet with the ladies of the union at the church parlors, Friday evening of this week, and will give an address. Let everybody turn out and meet Mrs. Lockwood.

SEATON W. ANDERSON'S.

"Miss Johnson is a full blooded Iroquois Indian. Besides being an elocutionist of exceptional merit, she is a poetess of much renown. Mr. Smiley is the best humorist who ever appeared in this city. Taken all together it was one of the finest entertainments ever presented to a Fostoria audience."—*Daily Review.*

The funeral of R. C. Hathaway, Past Grand Master of the grand lodge of F. & A. M., of Michigan, was held at St. Mark's Episcopal church, Grand Rapids, Sunday afternoon and was one of the largest masonic funerals ever held in Michigan. He was well known all over the state and had many acquaintances here. He was son-in-law of the late Genl. W. P. Innes and brother-in-law of Adolph Wheeler, of Adrian.

One evening in a large Canadian city, while Miss Johnson was reciting her pathetic little poem, "Beyond the Blue," and was calling and patting the imaginary dog "Rover," the sweet, piping voice of a little child rang out, startling the entire audience, which a moment afterwards burst forth with enthusiastic applause, for the little voice was saying, "Oh! Mama, I 'tant see the dog, lift me up, I want to see the dog."

Miss Johnson is an Indian princess of one of the proudest of the old tribes. At the same time she is a flower of Canadian culture and high breeding. But with all her social accomplishments and prestige, she has always retained her hold on the life of the forest. Equally at home in her canoe or in exclusive London society, she is perhaps the only Indian who has ever succeeded in giving with adequate grace an English expression to the deep imagination of her people. Go and hear this accomplished lady in the Star Course Thursday night.

Oysters all styles at Moir's.

Guy Bros. Minstrels Friday evening.

Raynor Anderson was home over Sunday.

Mrs. B. C. Ellis spent Sunday in Toledo.

Our holiday stock is now complete.

MILLS BLOCK.

Election of officers in the chapter at the temple tomorrow evening.

Greatest holiday bargain. Two small photos 25 cents at Miss Daly's.

Mrs. Ellsworth Cairns is teaching in Miss Monigan's place while she is away.

Miss Franc Middlebrook has been at her parents in Clinton, sick the past week.

Will Hopkins, mail clerk on the Jackson branch was a Tecumseh visitor yesterday.

Miss Belle Gimbert, of Adrian, was the guest of Mrs. John Hughes over Sunday.

Secure seats at once for Guy Bros' Minstrels at the opera house Friday evening.

Fay Anderson journeyed to Detroit yesterday and will make a few days' visit in that city.

Walter Brighton and wife from near Wamplers lake, are with Mr. and Mrs. D. Holmes, Mrs. B.'s parents.

Teeple is doing lots of large portrait work but you must leave your orders at once to get them for Christmas.

Mrs. J. W. Owen and daughter Jennie are spending a week in Hudson with Mrs. Bovie, Mrs. Owen's daughter.

Mr. George Doke, of Chesterton, Ind., is visiting his cousin, Miss Anna Doke, and other relatives here this week.

Christmas eve they will have a tree at the Presbyterian church, and some interesting exercises by the children.

Harry Goff, of Ann Arbor, arrived Saturday and is spending a few days among his friends and old schoolmates.

Everything in the line of Furniture at one quarter less than you can buy the same goods at any place in Michigan.

WHEELER & SISSON.

Copper plate engraved cards ordered at the HERALD office will be a most acceptable gift for either lady or gentleman. Call and see the samples.

"El" Gray sold a hog yesterday which weighed 622 pounds. It required "El", the hired man, a good team and all the neighbors to load up.

For sale, two good coal stoves cheap. One nearly new and one suitable for heating a large store or shop building. Inquire at once at the HERALD office.

The M. E. church Sunday evening was packed to overflowing. Rev. J. P. Varner's series of sermons on "Crime and its Result" is exciting great interest.

Miss E. Pauline Johnson will read a number of her most popular poems descriptive of the Indian wilder life, in Indian costumes, at the opera house, Thursday evening.

Geo. Tiffany, Jr., and Robt. McClure left yesterday for St. Joseph county, where they will sell cabinets. They drove through and expect to make Sturgis their headquarters.

Fred Howland started for Saginaw county this morning, overland. He has purchased the right for the Standard Cabinet for that county and expects to begin active operations at once.

Adamson Bros. have in a great stock of goods for the holiday season. The selection of these old and reliable merchants are always judicious and their prices will please you for reliable goods.

Knights of the Maccabees remember that Wednesday evening December 16th Tecumseh Tent No. 142, K. O. T. M., will hold its annual election of officers. Let there be a full attendance of members.

So loaded up with holiday goods is Harris & Hiteshu's store that it is a difficult thing for buyers to move around, but it is getting easier every day, for goods will move at the prices they ask.

Mr. and Mrs. John Barkwell leave tomorrow for St. Thomas, Canada, which place will be, for a time at least, their home. Mr. and Mrs. Barkwell have made many friends in Tecumseh who regret their moving away, but who wish them all success in their new home.

Ice cream in any flavor, brick or plain for Chrtstmas. Leave orders at Moir's.

Mr. Owen A. Smily, the Musical Skit Artist, of London, Eng., who will appear in the opera house Thursday night, constitutes the most admirable foil possible for the tragic Mohawk poetess—Miss E. Pauline Johnson. He has a wonderful voice and jumps from a gruff bass to a high soprano or light tenor with greatest ease. He does "new things" with the piano—making it entirely subservient to the humor of the sketch.

Last Friday and Saturday the Tecumseh stores were crowded with customers, and these were customers who came to buy. It may well be said that there is not another town of its size in Michigan in which the merchants are as "up to date" as in Tecumseh. Their stocks are complete, well kept and sold at reasonable prices. Perhaps the Twice-a-Week Herald during December has aided somewhat in calling people to town. Certainly, it has done no harm.

Now is the time. Two beautiful photos 25 cents at Miss Daly's.

At the meeting of the Monday club yesterday Miss Alice Rice read a paper on the Mennisingers, Miss Jennie Root a paper on Walter von der Vogleweide, and Mrs. Shull described "Parcival" of Volfreim von Eschenbach, followed by discussion. The members of the club are contemplating a rare treat in the near future. Prof. Emerson, of Cornell University, will deliver to them a lecture on Art. The entertainment will take place at the residence of Mrs. Bills and each member will be privileged to invite a friend.

Two photos 25 cents. Miss DALY.

Fine line Christmas candies at O. McBride's.

George W. Marvin made a business trip to Detroit yesterday.

Geo. W. Marvin goes to Adrian this afternoon.

John Nyland was a Clinton visitor Saturday evening.

Farmers, get your sausage meat chopped at Marsh's meat market.

Miss Lettie Young, of the Central House, has been on the sick list since Saturday.

Nothing nicer for a holiday present than a package of engraved calling cards. Order at once at the HERALD office.

Keep that price list in mind.

The Ladies' social and supper, of the Universalist church, will be held next week Thursday afternoon, Dec. 17. Supper from 5 to 8 o'clock. All are invited.

Fine mixed candies 10 cents a pound at O. McBride's.

John Murphy, of Clinton township, who was drawn a juror for the December term of the circuit court, left this morning for the county seat to perform his official duties.

The Baptist Sunday school are busily engaged in preparing for a Christmas tree and suitable exercises to precede the distribution of gifts, which will be held Christmas eve.

Gents neckwear for holiday trade. All the new styles and colors.

SEATON W. ANDERSON.

The HERALD is in receipt of a program of a late session of the Los Angelos county teachers' institute by which it is noticed that Mrs. Lulu M. Walcott, nee Monaghan, takes an important part.

Sure, you are going to get your photos at Teeple's for Christmas.

Vern Smith, from the exhibition of his horsemanship on the street yesterday afternoon, would win high distinction for himself as subduer of the fiery, untamed steed, were he to give it his attention.

Our Stock of Holiday Goods are about all in and we can give you the best stock in the County to select from and prices the lowest.

WHEELER & SISSON.

The ladies of the Presbyterian church at Holloway hold their next regular social at the home of Mrs. McLain next Thursday morning. Dinner will be served at one o'clock. All are cordially invited.

Wanted—2500 bushels good sound ear corn. 2000 bushels to be delivered at the farm between Clinton and Tecumseh, the balance at Clinton.

E. R. SMITH, Clinton, Mich.

R. V. Wilson, of Toledo, who has held responsible positions in the wall paper trade of that city for several years, is spending several weeks in Tecumseh at the old home previous to taking charge of a large establishment in Cincinnati January 1st.

Everything in the line of confectionary for Christmas at O. McBride's.

Master Clyde Curry is a very proud youngster just now, as he is the proud possessor of a fine snare drum. The best of it is that he paid for it himself, having, for a long time, been saving his pennies and placing them in the bank. No wonder he steps high.

A handsome line of dolls very cheap.

SEATON W. ANDERSON.

Died, at her home in Clinton township at 2 o'clock this morning, Orrisavilla, wife of Jacob Everhart passed from her lingering illness into eternal rest, aged nearly 77 years. The funeral will be held Friday at 1:30 p. m. at the family residence. A suitable obituary will appear later.

See the pretty handkerchiefs at 5, 10, 15 and 25 cts. at Seaton W. Andersons.

The HERALD this year will not print a club list for any particular papers but has made arrangements to supply its subscribers with any other newspapers they desire at greatly reduced rates. Never before has so much pains been taken to secure better prices on all periodicals, all the benefit of which will be given to HERALD patrons. No matter what you want we can get it for you and promptly.

Just received, a car load of Bedroom Suits, bought at a bargain and we will give every one a bargain that wants a suit.

WHEELER & SISSON.

Among the many outsiders who were in town Saturday we noticed Mrs. Wm. Amspoker and Mrs. Fannie Rundell, of Manchester; Buell Johnson, wife and son, Allen Bartlett, wife and son, Cebert Halladay and wife, C. H. Fabrique and wife, Watson Aten and wife, Millard Hunter and Linford, Robt. McHenry, Mrs. Chris Saley and daughters, Aaron Norcross, Mrs. J. B. Hause and sister, Miss Lizzie Roff, of Washington, D. C., Sadie Taylor, E. S. Tate, Addie, Myrtie, James and Ande McDermott, Mrs. Chas. Ellis, Maggie Ebbett, Otto and Ed. Gillen, Claude Hause, Rollie Woodward, Chas. Shuler and Ralph Somark, of Clinton.

Christmas will soon be here and you will want to give some kind of a present. There is nothing more acceptable than a pretty chair. We have them from $1.00 up.

WHEELER & SISSON.

The management of the New Croswell opera house, Adrian, make the announcement that they have engaged the Whitney Opera Company for a performance of Donoven & Smith's comic opera, "Rob Roy," for Saturday evening, Dec. 19. This is one of the finest of the season's brilliant list of bookings. Interest is enhanced locally by the fact that Carl S. Burton, of Clinton, is the leader of the orchestra of the organization. Arrangements are being made whereby the Jackson train will be held until after the performance, for the accommodation of patrons from Tecumseh, Clinton, and Manchester. Seats may be ordered of Manager Hardy by mail or telephone.

Miss Clara Ward, of Clinton, was in town shopping yesterday.

In the Blue Lodge Friday it is the annual meeting with election of officers.

Mrs. S. J. Walker left yesterday for Elgin, Ill., to make quite an extended visit.

Anderson & Rosacrans opened up yesterday morning with a very attractive window. It must be seen to be appreciated. See it at once.

Mrs. Bertha Monican left yesterday morning for El Paso, Texas, to see her brothers, one of whom is quite low with consumption.

Bold Burglary.

One of the coolest burglaries ever occurring in this community, was perpetrated Saturday night shortly after midnight, at the home of Mrs. Tilton, on the southwest corner of Pearl and west Chicago street, whereby her son, Henry Bissell, lost his watch and a sum of money. The following account of the affair was given us by Mr. Bissell and his mother. On returning home Saturday night, Mr. B. gave his mother $26 to put away, and on her requesting him to give her all he had, replied that he would need to use some Monday and put the balance, between ten and twelve dollars in his pants pockets. After winding his watch and placing it on a stand by his mother's bed as was his custom (she being very deaf and unable to hear the clock strike had the watch at hand that she might know the time by simply turning up the light, which was kept burning, without rising) went to his room which joins hers and is on the east side of the house facing Pearl street, with a French window opening on the porch. Between the rooms are folding doors. Not feeling very well he only partially undressed and lay down. Mrs. Tilton awoke and thought some one was moving around. She called to her son and receiving no reply arose and went to him, but finding him asleep thought she must have imagined it and returned to bed. Mr. Bissell was awakened by feeling someone going through his pockets. On opening his eyes he found two men with handkerchiefs over their mouths bending over him, one having in one hand a lighted lamp and in the other a revolver, and who told him to remain quiet and he would not be harmed. He said, "Shoot if you want to." Some further conversation passed between them when the light was placed on the dresser and they hurridly made their exit through the window, upon which Mr. Bissell hurried to the front door and called out. Mr. Ernest Anderson, who was going west on the opposite side of the street, heard him and asked, "What's wanted, Henry?" After learning who it was that spoke, Mr. Bissell asked him over. On going into the house, as they were passing through his mother's room he thought of his watch and said, "Mother where's my watch?" She replied, "On the stand. Looking, he found that it, also, had disappeared.

In the morning Marshal Bidwell was informed of the affair and on Mr. Bissell's describing the men, one of whom resembled Jud Manley. He was arrested on suspicion and, having been seen in the evening with Tom Breen, he was was also taken and both placed in the lock-up. Soon after Mr. Bissell saw them and, on stating that Breen was not the man, he was released on his own recognizance.

The sheriff and deputy prosecutor came over and the examination was held before Justice Frasier last evening. Breen was discharged while Manley was held under $500 bond to appear for trial at present term of court. Manley secured security and was released.

Reorganization of the Arena Publishing Company.

On petition of the creditors of the Arena Publishing Company made Oct. 1, 1896, before Judge Dunbar to appoint a temporary receiver, A. D. Chandler, Esq., was appointed for the protection and adjustment of the interests of the creditors during a reorganization of this company. The officers of the company did not contest the petition, feeling that it is for the best interests of all parties concerned as an equitable plan pending the business changes to be made.

The Arena Company will be recapitalized by experienced business men and placed in new hands and on a firm financial basis, the magazine to be an open court for the promulgation of all authoritative and important opinions.

The business of the Arena, both as a magazine and as a book-publishing house, has had quite a phenomenal growth, but had not sufficient capital to handle the business into which it had developed. With the reorganized company the Arena will be enabled to extend its growth and add to its reputation now so well established in the success of which all readers and thinkers feel a personal interest on account of the national influence which the publication has attained.

Excursion Fares on C. J. & M. R'y for Christmas and New Year Holidays.

Account Christmas and New Year holidays the Cincinnati, Jackson & Mackinaw R'y will sell special low rate excursion tickets at rate of one and one-third fare for the round trip between all local points, also to points reached by other lines. Tickets will be on sale Dec. 24th, 25th and 31st, 1896, and Jan. 1st, 1897, good returning to and including Jan. 4th, 1897. For information as to time of trains, rates, etc., apply to C., J. & M. Agents. Special inducements to Students going home to spend the Holidays. 12-11-3

T. C. M. SCHINDLER,
Gen'l Pass'r Agt

—Come quick if you want some shingles at cost, most all gone. Some lumber for sale very cheap. Two good houses to rent cheap. A. W. SLAYTON.

—I want to borrow some money for two or three years on good security and will pay interest semi-annually. Drop a card to Lock Box 15, for further particulars.

STATE NEWS.

Interesting Facts from Many Localities in Michigan.

North Manitou island is to be organized as a township of Leelanau county.

Farmers in Calhoun county are obliged to dispose of their hogs at a sacrifice in order to avoid cholera.

Jerry Stage, a sawmill hand, employed near Powerfield, had an arm and leg cut off by a circular saw.

Allegan's fruit evaporating works used 31,000 bushels of apples this season and dried 200,000 pounds of various fruits.

All of the stamps and a large quantity of merchandise were stolen by thieves who broke into the Pettysville post office.

The last tract of standing pine between [illegible] being lumbered. It is situated near Sweet's station.

Several schools in Charlevoix county have been closed owing to lack of funds caused by non-payment of taxes on stump lands.

While butchering hogs, Mrs. Charles Witherbee, living near Utica, had her arm badly scalded by dipping it in a barrel of hot water.

Bangor grand army comrades will mount an 11-inch cannon in the public park as a monument to the residents of the village who fought in the war of the rebellion.

The death is announced at Des Moines, Ia., of A. B. Judson, who was prominently identified with the history of pioneer days in southern Michigan, where he was known as its merchant prince.

The Northern Supply company has contracted to put in 50,000,000 feet of logs this winter for Menominee lumber companies. The Bird & Wells company has purchased 1,600 acres of standing pine in Marinette county.

After serving five years for forgery at the Jackson state prison Isaac McMillan, of Saginaw, was released and subsequently arrested for a similar offense. He pleaded guilty and will serve another five years at the same institution.

THE WHEAT CROP.

Its Condition Shown to Be Excellent—Sale of Wheat.

Lansing, Dec. 10.—The crop report shows the average condition of wheat December 1 was 91 per cent. of condition in average years. This is nine per cent. above the condition December 1 last year. The total number of bushels of wheat reported marketed by farmers since the November report was published is 1,296,500, 101,204 bushels more than in November last year, and in the four months, August, September, October and November, 4,695,695. This is 577,663 bushels more than reported marketed in the same months last year. Fall pasture has been good and live stock is in fine condition.

FREE TELEPHONE SERVICE.

Grand Rapids Profits by the War Between Rival Companies.

Grand Rapids, Dec. 12.—The Bell Telephone company offers free service to its subscribers in this city, and this is the first move in a war of extermination against the new Citizens' company. The Bell had 1,500 subscribers six months ago, and charged $40 and $50 annual rental. The Citizens' company offered its service at half these rates, and although the Bell met the cut, hundreds of subscribers deserted the old company. Since then the Bell has been lying low, improving its apparatus, putting in the latest appliances, and is now prepared to contest for the field.

Protect the Muskrats.

Monroe, Dec. 14.—Six muskrat hunters were arrested last week for killing muskrats in the marsh. The season is closed for rats, but notwithstanding the following violated the law: Vetal and Samuel Willets, John Duelo and Clarence Navane and Duval brothers. The prosecutor saw them kill 18 rats, and the law provides a fine of three dollars per rat. The men have been slaughtering rats every year, and they will certainly become extinct unless the law is enforced.

Lumbermen Unable to Find Work.

Houghton, Dec 12.—The prolonged flaw of the past six days is proving highly inconvenient and damaging to the lumber operators. At present about 75 per cent. of last winter's forces are employed in the woods, and a few more camps are to be put in before Christmas. Wages run low and many lumbermen are unable to find work.

Direct Taxes.

Lansing, Dec. 11.—State Statistician De Land reports that the people of Michigan paid $20,963,571 in direct taxes last year—local taxes in cities and townships, $7,473,504; school taxes, $5,480,907; state taxes, $3,010,229; county taxes, $2,791,538; liquor taxes, $1,377,391.

Champion Hunter Passes Away.

Decatur, Dec. 12.—Thomas Cotterell, Decatur's oldest resident, died Friday, aged 92 years. He was the father of 18 children. Mr. Cotterell was a noted hunter of the pioneer days of southwestern Michigan and had a record of killing 120 deers in one season.

Strike Ended.

Muskegon, Dec. 12.—The strike of the longshoremen on the winter trans-lake freighters has been settled, the men backing down from their demand of 20 cents an hour, and accepting the winter rate of 15 cents offered.

Hand Car Struck and Two Killed.

Menominee, Mich., Dec. 11.—A hand car was struck by a freight locomotive on the "Soo" railroad near Pembine Thursday morning, and Louis Swanson and a companion section hand, who were on the car, were killed.

Niles, Dec. 12.—Thursday was the 217th anniversary of the landing of the great French explorer, La Salle, at a point on the St. Joseph river six miles south of here. It is proposed to erect a monument there.

LUCY UHL MARRIED.

American Ambassador's Daughter Weds at Berlin.

Berlin, Dec. 10.—Miss Lucy Uhl, daughter of the United States ambassador, Mr. Edwin F. Uhl, was married Wednesday afternoon to Prof. Guy Thompson, of Yale university. The civil ceremony took place early in the afternoon and the religious ceremony was celebrated at the bride's house at seven o'clock in the evening. Baron Marschall von Bieberstein, German minister of foreign affairs, acted as master of ceremonies at the wedding of Miss Uhl and Prof. Thompson. Assistant Secretary Usedom, Baron de Rotennau, secretary of state to the minister of foreign affairs, and Baron Rio Branca were among those in attendance upon the reception. Letters were received from President and Mrs. Cleveland, and from the imperial household, regretting inability to be present at the ceremonies. During the evening the band of the Alexander regiment of guards serenaded the young couple.

Grand Rapids, Dec. 10.—Miss Lucy Uhl, who was married in Berlin Wednesday at the United States embassy, is the eldest daughter of Edwin F. Uhl, now ambassador of the United States at Berlin. She was born in this city, and this has always been her home. Prof. Guy V. Thompson, whom she married, is also a native of Grand Rapids, and as children they went to school together. Miss Uhl is very attractive personally and highly cultured and accomplished, being a musician of rare ability and conversant with several foreign languages. After her graduation she traveled and studied for two years in Europe, and upon the appointment of her father as assistant secretary of state, early in the present administration, she returned to assist her mother in her social duties at Washington. She accompanied the family to Berlin when Mr. Uhl was appointed there.

Prof. Thompson is a graduate of Yale, and is now a member of Yale faculty. Mr. Uhl's family were all present at the ceremony, the eldest son, David E. Uhl, going over for the purpose. Prof. and Mrs. Thompson will travel in Europe for a few weeks, and then return to this country to live at New Haven, Conn.

PINGREE'S FIRST MESSAGE.

Intends to Call Attention to Certain Railroad Reforms.

Detroit, Dec. 11.—Mayor Pingree is hard at work on the message which he will deliver to the legislature January 6, when he takes the oath of office as governor. His first recommendation will be the repeal of the present law under which railroad property is liable for a percentage tax on gross earnings only. In place of this he will ask the enactment of a law taxing railroad property for local purposes the same as all other kinds of property are taxed. In the matter of fare he will recommend the immediate passage of a bill fixing the maximum rate at two cents per mile, at least in the lower peninsula and perhaps in the whole state.

WAR ON LIQUOR IN DETROIT.

Anti-Saloon League Movement Is Begun in That City.

Detroit, Dec. 14.—Sunday witnessed the beginning of the Anti-Saloon league movement in Detroit. Addresses were made in behalf of the league in most of the principal churches and many ordered the movement. It is intended to prosecute the work of educating public sentiment, securing a vote upon the question of local option, enforcing the present liquor laws, and securing more stringent liquor legislation throughout the state. Michigan is the second state in which this movement has been inaugurated in Ohio. Among the several speakers of Sunday was Justice C. B. Grant, of the Michigan supreme court.

Partridge Convicted of Embezzlement.

Alpena, Mich., Dec. 14.—O. L. Partridge, formerly secretary of the Alpena Loan and Building association, was found guilty Saturday morning of embezzlement. The jury was out 22 hours. The amount of Partridge's embezzlement was $20,000, and it practically wrecked the association, in which many poor persons had invested their savings.

Fruit Men Combine.

Benton Harbor, Dec. 14.—Representatives of several granges held a meeting in this city. It was a private session for the purpose of formulating plans for the disposal of their fruit next season without the aid of the Chicago commission men, who, they think, have not dealt with them in a fair and honest manner in past seasons.

Seeks Damages.

Grand Rapids, Dec. 10.—Thomas J. Sheridan began suit against Charles I. Parrell and I. M. Weston for $10,000 damages. He bought a lumber mill at Whitehall from them and made repairs, for which it is alleged they were to reimburse him, and after mortgaging his property to raise cash they failed to do so.

Express Agent Is Held.

Niles, Dec. 12.—The examination of Delbert Mittan, charged with embezzling $2,000 from the American Express company, was concluded Friday. He was bound over to the next term of the circuit court, January 11, in bonds of $3,000.

Fatally Burned.

Kingsley, Dec. 12.—Mrs. George McDonald left her child alone. On returning she found his clothes in flames. The little one suffered until next day, when it died.

Bond Forfeited.

Decatur, Mich., Dec. 12.—John Kleckner, the defaulting cashier of the broken Citizens' bank at Edwardsburg, failed to appear for trial, and his bond was forfeited.

Niles, Mich., Dec. 12.—Eli Jones, a Cassopolis farmer, was instantly killed by the fall of a tree.

ROTTEN TO THE CORE.

Depositors in People's Savings Bank at Lansing, Will Lose Nearly All.

Lansing, Mich., Dec. 14.—Receiver Foster, of the defunct People's savings bank, has filed his report with Circuit Judge Person, which shows that the institution was rotten to the very core. It is estimated that the depositors will receive ten cents on the dollar, and this is considered a high estimate. The total assets as shown by the report was $373,528.43, and the liabilities are $241,760.80, showing an apparent excess of assets over liabilities of $134,068.63.

Of the $129,281.62 of notes held in the bank's vaults, something in the neighborhood of 90 per cent. is the paper of failed or failing individuals and corporations, and for practical purposes may be regarded as almost worthless. One of the assets of the report is the total of bonds, stocks and mortgages, footing up $171,785. One item of this asset is $10,500 of the Lansing Lumber company "A" bonds, which are worth but a fraction of their face value. Another item is $6,800 of stock in a failed bank, and the other items are no better. To make a bad matter worse, the best of the securities in this class are hypothecated. It develops in the investigation made by Receiver Foster that thousands of dollars of the bank's stock held by individuals was never backed by a dollar of anybody's money.

FRUIT GROWERS SUE.

Will Try to Have Makers of Small Size Baskets Punished.

Decatur, Dec. 12.—A test case of interest to Michigan fruit growers, and incidentally to Chicago commission men and consumers of peaches, will be appealed to the supreme court from the Allegan county circuit. At the request of many leading growers in the lake shore fruit belt the last legislature enacted a law requiring all manufacturers of fruit packages to plainly stamp the capacity on each package. The principal object of the act was to prevent the placing of peaches packed in sixth-bushel baskets in direct competition in the Chicago market with the product of those growers who used full-sized packages. The manufacturers generally ignored the law, and a test case was made by the arrest of John F. Barron, of Fennville, who has just been convicted in the lower courts. The growers claim a considerable percentage of the many millions of baskets of peaches shipped across the lake to Chicago the past season was in short packages, thereby causing the fruit in the standard fifth-bushel size to sell at a less price.

J. A. JORDAN ARRESTED.

Grand Rapids Pension Examiner Wanted for Perjury and Fraud.

Grand Rapids, Dec. 14.—J. A. Jordan, indicted by the United States grand jury a year ago for perjury and fraud, was arrested Saturday in Toronto. He was one of the oldest pension examiners in the country, his services dating back to the close of the war. When stationed here he would send papers to applicants for pensions, and when they were returned by mail signed he would fill the affidavit and then charge the government for mileage, hotel bills and incidentals as though he had made a personal visit to the applicant.

X RAYS CAUSE INSANITY.

A Niles Doctor Becomes Insane Trying to Solve the Problem.

Niles, Dec. 12.—Dr. C. W. Smith was taken in custody by the sheriff at Dutand on the grounds that he is insane. Smith is 38 years of age, a graduate of the medical department of the University of Michigan, and has always been a great student. Of late he has given his time and attention to experimenting with X rays, and his mind gave way under the strain. He believes some one is laying plans to take his life by means of electric wires run into his office.

Peppermint Crop a Failure.

Niles, Dec. 12.—The season's output of peppermint oil in southwestern Michigan will not be one-half that of last year. In 1895 half of the peppermint oil in the country came from Michigan, and this year farmers who had swamp lands neglected other farm work and embarked in the peppermint business. The farmers are now cutting the peppermint weed for hay. No reason is assigned for the failure of the crop.

Clerical Force Dismissed.

Lansing, Dec. 14.—It is evident that Roscoe D. Dix, auditor-general-elect, proposes to make sweeping changes in the force of clerks in that office. He commenced operations by notifying 24 of them that there would be no work for them after January. That is nearly one-half of the entire number, and it is understood that more dismissals will follow.

Pleads Guilty.

Decatur, Dec. 14.—William Knight, who was arrested at Three Oaks with 26 spurious half-dollars in his possession, pleaded guilty in the Berrien county circuit court, but refuses to give any information regarding his companions. Knight is thought to be the leader of the gang which is flooding southwestern Michigan with counterfeit coin.

Held Up in Chicago.

Chicago, Ill., Dec. 10.—Three colored women of the "Levee" pounced upon C. F. Monarch, a farmer from Coloma, Mich., and dragged him into a hallway and covered him with revolvers. They demanded and received his money, $25, after which they pushed him into the street. The women were arrested and identified.

Voted Against the Sale of Liquor.

Washington, D. C., Dec. 12.—When the bill passed the house Thursday abolishing the sale of liquor in the capitol every Michigan man present stood up to be counted as favoring the measure.

Menominee, Dec. 12.—The bankrupt stock of hardware of Dunning Brothers & Co. was sold Friday under the hammer by the sheriff to Buhl Sons & Co. of Detroit, for $16,700.

FROM WASHINGTON.

The Closing Session of the Fifty-Fourth Congress.

Measures of Importance Presented in Both the Senate and House—A Daily Summary of the Proceedings.

Washington, Dec. 15.—Resolutions were introduced in the senate yesterday to recognize the republic of Cuba as a free and independent government and denouncing the manner in which it is alleged Gen. Antonio Maceo had been killed, and for the appointment of a commission to investigate and report on the establishment of a permanent monetary system. All the pension bills on the calendar (55) were passed.

Washington, Dec. 16.—A concurrent resolution for a holiday recess from Tuesday, December 22, to Tuesday, January 5, was adopted in the senate yesterday, as was also a resolution requesting the president to furnish copies of papers relating to the condition of affairs in Cuba. Senator Morgan (Ala.) spoke in advocacy of a strong and decisive policy in dealing with the Cuban question.

Washington, Dec. 17.—The Dingley tariff bill was discussed in the senate yesterday and it was practically decided to drop the measure indefinitely. The pension appropriation bill ($141,328,580) was passed as it came from the house.

Washington, Dec. 18.—The senate yesterday passed the Lodge immigration bill by a vote of 52 to 10. It excludes all persons over 16 years of age who cannot read and write the language of their country or some other language. Adjourned to the 21st.

The House.

Washington, Dec. 15.—Bills were introduced in the house yesterday authorizing the payment of export bounties on agricultural and other products of the United States; to amend the constitution so as to lengthen the terms of office of the president and senators to eight years and of representatives to four years. A resolution for a two weeks' recess beginning December 22 was adopted. A joint resolution recognizing the independence of Cuba was introduced.

Washington, Dec. 16.—In the house yesterday a bill to amend the law relating to the transmission of second-class mail matter was discussed. A resolution was introduced directing the president to recognize the independence of Cuba and to demand that Spain immediately withdraw from Cuba all her armed forces. A bill was introduced to abolish the office of commissioner of Indian affairs.

Washington, Dec. 17.—In the house yesterday the army appropriation bill ($23,126,344) was discussed at length, but no action was taken.

Washington, Dec. 18.—The army appropriation bill was passed in the house yesterday, and the legislative, executive and judicial bill ($21,609,369) was considered. Bills were introduced appropriating $50,000 for the erection of a monumental statue to James G. Blaine in Washington and to abolish the offices of commissioner and assistant commissioner of Indian affairs and to create in their stead a board of Indian commissioners of three members.

Washington, Dec. 19.—In the house yesterday 37 pension and relief bills were passed, and the rest of the session was occupied in discussing five war claim bills.

Washington, Dec. 21.—A bill appropriating $130,000 to enable the government to make an exhibit at the Tennessee centennial exposition at Nashville next year was passed in the house Saturday. Charles Crisp, the newly elected member from the Third Georgia district, was sworn in. The legislative, executive and judicial appropriation bill was further considered.

Pittsburgh's Costly Fire.

Pittsburgh, Pa., Dec. 18.—The Casino skating rink and summer theater in Schenley park was entirely destroyed by fire early Thursday morning. The loss will approximate $400,000, on which the insurance is $75,000. The fire was caused by the explosion of an ammonia cylinder in the ice skating plant.

Flames in a Printing Office.

Toledo, O., Dec. 21.—The Bee job rooms at 136-138 St. Clair street were gutted by fire Sunday evening. The loss is estimated at $50,000 on stock and machinery and $10,000 on building. The building next door, occupied by the Toledo Commercial and the Toledo Express, was slightly damaged.

For Defense of Southern Ports.

Austin, Tex., Dec. 18.—Gov. Mitchell, of Florida, has called a convention to meet at Tampa, Fla., January 20, to discuss the best methods of harbor defense in case of war for southern ports and the governor of Texas Thursday appointed seven delegates to represent Texas at the meeting.

A Fatal Quarrel.

Bethel, Pa., Dec. 18. — Two married women named Moon and Shell quarreled over a trivial matter, and the Shell woman threw a bucket of strong lye water into the face of Mrs. Moon and her infant daughter, injuring both fatally.

Lynched by a Mob.

Mayfield, Ky., Dec. 21.—George Finley (colored) was lynched by a mob near here for attacking a white man with a knife, inflicting a slight wound.

THE POPULAR VOTE.

Complete Official Returns from All the States Are Collected.

New York, Dec. 16.—The canvass of the vote of New York state Tuesday practically completes the official vote by states and makes it possible for the first time to tabulate the popular vote for president. With the exception of Utah and South Dakota, where the courts have ordered the revision of the completed returns, the final vote of all states has been collected. In Texas the state canvassing board declared the vote without waiting for the returns from six small counties. These have been estimated and added to the result in that state.

The total vote cast was 13,924,653. This was 1,813,124 more than the total vote of 1892. McKinley received 7,109,480 and Bryan 6,508,681, a plurality for McKinley of 600,799. The vote for Bryan and Sewell and that for Bryan and Watson are combined in the total vote given for Bryan. Only 13 states reported a separate vote for Bryan and Watson. His aggregate vote was 46,879. The "sound money" democratic vote for Palmer and Buckner was 132,056. The prohibition vote for Levering was 127,174. The national free silver prohibitionists cast 13,320 votes for Bentley. Matchett, the candidate for the socialist labor party received 33,942.

McKinley's plurality, 600,799.

PUT TO DEATH.

A Mob Kills Three Brothers in a Kentucky Town.

Russellville, Ky., Dec. 19.—A bloodthirsty, armed mob of men from Logan county, half of whom came from Adairville, came to this town after midnight Friday morning and killed three prisoners who were in the jail waiting for trial on the charges of murder and conspiracy. Arch Proctor, who murdered Aaron and "Doc" Grafton at Adairville October 24, was taken from the jail with his father, Dink Proctor, charged with conspiracy in the Grafton case, and both men were hanged to the same tree just outside the town. Bill Proctor, a half brother of Dink, and credited with being a real desperado, who had terrorized the Adairville district for a score of years, was riddled with bullets in his cell, defying the mob to take him out alive and cursing them with his last breath.

Noted Pension Attorney Dead.

Washington, Dec. 19.—A private dispatch received here Friday night announces the death of Capt. George E. Lemon, of this city, at Coronado Beach, Cal., where he went some time ago to recuperate his shattered health. Capt. Lemon was probably the best-known pension attorney in the country, and was publisher of the National Tribune, devoted to the interests of the soldiers. During the war he saw service with the One Hundred and Twenty-fifth New York infantry. He was over 55 years of age.

Killed by a Lamp Explosion.

New York, Dec. 21.—The explosion of a lamp on the second floor of the four-story residence, 514 East Fifty-eighth street, resulted in the loss of five lives. The dead are: Aaron Goldsmith, 45 years old; Chlotilde Goldsmith, his wife, 33 years old; Bertha Goldsmith, 10 years old; Harry Goldsmith, 5 years old; Frank Goldsmith, 6 years old.

Town Nearly Wiped Out.

San Francisco, Dec. 18.—Jamestown, more popularly called "Jimtown," Cal., one of the best-known mining towns in the state, was nearly wiped out by fire Thursday morning. Thirty buildings were burned, with a loss of $50,000; insurance half that amount.

Fitzsimmons Beaten.

San Francisco, Dec. 18.—Glove contests and prize fights are synonymous. Such is the legal opinion of Judge Sanderson, and in consequence, Thomas Sharkey will get the $10,000 that Fitzsimmons still believes rightfully belongs to him.

Drowned in a Cistern.

Beaver Dam, Wis., Dec. 18.—Mrs. Henry Fisher was found dead in the cistern into which she had fallen while attempting to draw a bucket of water.

Aged Man Killed by the Cars.

Wichita, Kan., Dec. 18.—Cyrus Nolan, aged 84, was picking up coal along the Rock Island railroad, when a freight train ran over and killed him.

STRIKES AT SPAIN.

Sensational Action Taken by a Committee of the Senate.

The Cameron Resolution Adopted to Acknowledge the Independence of Cuba—The Views of Secretary Olney.

Washington, Dec. 19. — The senate committee on foreign relations, by a practically unanimous vote Friday morning ordered a favorable report to be made to the senate Monday on the Cameron resolution recognizing the independence of the republic of Cuba. A verbal change was made in the text of the resolution, so that as finally agreed to it reads as follows:

"Resolved, etc., That the independence of the republic of Cuba be, and the same is hereby acknowledged by the United States of America.

"Section 2. That the United States will use its friendly offices with the government of Spain to bring to a close the war between Spain and Cuba."

Secretary Olney's Opinion.

Washington, Dec. 21.—The Cameron Cuban resolution, if pressed to final passage in both houses, will constitute a direct and formidable issue between the executive and legislative branches of the government. This is clearly indicated by an interview given out by Secretary Olney. Secretary Olney being asked his opinion as to the nature and effect of the proposed resolution recognizing the independence of the republic of Cuba said:

"I have no objection to stating my own view of the resolution respecting the independence of the so-called republic of Cuba, which, it is reported, is to be laid before the senate on Monday. Indeed, as there are likely to be serious misapprehensions regarding such resolution, both in this country and abroad, and as such apprehensions may have injurious results of a grave character, it is perhaps my duty to point out that the resolution, if passed by the senate, can probably be regarded only as an expression of opinion by the eminent gentlemen who vote for it in the senate, and if passed by the house of representatives, can only be regarded as another expression of opinion by the eminent gentlemen who vote for it in the house. The power to recognize the so-called republic of Cuba as an independent state rests exclusively with the executive. A resolution on the subject by the senate or by the house, or by both bodies, or by one, whether concurrent or joint, is inoperative as legislation and is important only as advice of great weight voluntarily tendered to the executive regarding the manner in which he shall exercise his constitutional functions.

If Passed by Two-Thirds Vote.

"The operation and effect of the proposed resolution, therefore, even if passed by both houses of congress by a two-thirds vote, are perfectly plain. It may raise expectations in some quarters which can never be realized. It may inflame popular passions both in this country and elsewhere, may thus put in peril the lives and property of American citizens who are resident and traveling abroad, and will certainly obstruct and perhaps defeat the best efforts of this government to afford such citizens due protection. But, except in these ways and unless the advice embodied in the resolution shall lead the executive to revise conclusions already reached and officially declared, the resolution will be without effect and will leave unaltered the attitude of this government towards the two contending parties in Cuba."

Would Veto It.

Of course, Secretary Olney's statement indicates clearly that if the joint resolution ever passes both branches of congress and is sent to the president the latter will veto it, not only on the ground of impolicy, but also because it constitutes an infringement of his own prerogatives. Moreover, the secretary in his interview goes beyond this point, and in almost as many words says that no attention will be paid to the will of congress in this matter, even if the resolution is passed over the president's veto. In this case a grave conflict of powers of two branches of the government might be expected to follow, though just how the issue may be made up so that it can be reached by the supreme court, the arbiter of all questions of constitutionality, is not clear at present.

Might Declare War.

It is suggested, however, that if the issue goes to that length congress may achieve its purpose indirectly by the exercise of a power certainly confided to it exclusively by the constitution, namely, by a declaration of war, which is, after all, in the judgment of many authorities, only what the recognition of the independence of Cuba under existing conditions would mean.

Olney Assures Spain.

Madrid, Dec. 21.—The explicit announcement is made that Senor Dupuy de Lome, the Spanish minister at Washington, has telegraphed to his home government here that he had a conference with Mr. Olney, the secretary of state, in the course of which the latter assured him that Spain might rest tranquil until March, at least, since, despite the attitude of congress, President Cleveland would not recognize the independence of Cuba.

How Spain Regards It.

Madrid, Dec. 21.—The decision of the United States senate committee on foreign relations to recommend the adoption of the Cameron resolution recognizing a republic in Cuba has caused a profound sensation in Madrid. The newspapers here, without exception, declare that Spain will never peacefully assent to Cuban independence, and that no government that consented to entertain in any shape or form such a suggestion would live 24 hours, as the feeling of the Spanish people is unanimous and determined to maintain Spanish rule in the West Indies at any cost, even at the risk of war with America.

Entered at the postoffice at Tecumseh, Michigan, as second class matter.

TECUMSEH, MICH., DEC. 22, 1896

Mobile aged men in this country will live to see the day when the senate of the United States will be abolished. If there ever was in the world a lot of silly old fools they can be found now in the United states senate. Instead of going to work to relieve the country of the burden of the constantly increasing deficit, they simply attempt to paralyze trade again—if there is any trade to paralyze—by kicking up a war scare. The report of the committee on foreign relations in the senate which requests of the President of the United States to recognize the Cuban belligerency is mischievous nonsense if anything. It will do neither the Cubans nor any one else any good and the business of the country harm. It is to be hoped that the rest of the senators will have sense enough not to pass any such resolution.

The next issue of the HERALD will be found in the accustom Christmas morning's mail. This will be the last Tuesday's issue. The HERALD has given its subscribers a Christmas present of four issues in the month of December, and so far as we can find out every one has been pleased with the venture. The merchants had an opportunity to more thoroughly advertise their wares and readers certainly could not object to receiving each week such an unusual amount of news. In this connection it might not be out of place to state that the Tecumseh HERALD for 1897 will be an improvement over that of 1896. It shall be the purpose to print the news of Tecumseh and the surrounding towns and instead the news from the neighboring towns will be made a specialty. Good correspondents are now secured for every locality and persons renewing their subscriptions for local papers would do well to consider the HERALD with any other paper in Lenawee county and make their choice accordingly.

ROUND ABOUT US

Clippings and Condensations From our County Contemporaries.

The Manchester Observer comes this week with a rank cover which, so far as nice newspaper work is concerned, is "rank of perfection."

Steve Walker, formerly connected with the Tecumseh Herald, has received an appointment as railway postal clerk, having passed his examination with a high percentage. He is a competent young man, and one whom the village of Tecumseh dislikes to lose as a citizen.—Hudson Post.

The case of Sarah C. Rogers, of Clinton, against the Farmers Mutual Fire Insurance Co., is now being tried before the circuit court. In 1894, a house in which Mrs. Rogers had a mortgage interest, was burned and the company failed to adjust the loss. The property was worth about $600.—Adrian Telegram.

The Milan electric lights were turned out for a few days while a new and larger dynamo was being put in, and the Leader says: You don't hear of any one "kicking" about the expense of electric lights now, and days return to the old kerosene oil system has cured many of that disease.—Bloomfield Advance.

The Washington correspondent says in Wednesday morning's Detroit Tribune: "It is a little early for the selection of postmasters, but it would probably be a fair guess that Dan. B. W. Smith will be postmaster at Adrian when B. W. Hoyt's term is out, and J. M. Robertson at Hillsdale, when John Foote has served four years."—Hillsdale Standard.

The legislature this winter will consider the question of abolishing the office of coroner. There is little doubt the country would get along all right without this office. About the only thing the coroner can do is to officially say a man is dead. In case of murder the prosecuting attorney really does the work of the coroner, and there is little need of continuing an office which is of little service. This position is so nearly superfluous that it ought to be abolished without harm to any one.—Adrian Times.

With a severe depression existing in the iron trade, since by an improving and satisfying presidential contest the past year has been the busiest one that the present generation of business men ever experienced. In fact, [illegible] such effort all along the line to keep things going, and the results by the way have been pretty. But we are happy to say that through all the difficulties of the past year [illegible]

The growling heard upon the streets was an improvement, a good many dollars being expended in that way and laboring men thereby benefited. They are fortunate towns which have held their own during the last twelve months, and we believe Morenci is one of them.—Morenci Observer.

Anderson is about to engage in a "Uncle Tom's Cabin" performance and Hudson has just recovered.

Tecumseh has a Monday club. It's no washtub society, however. That is, the Monday club to which we refer is not. It's a high toned, social organization.—Adrian Press.

Gen. Parson was at Detroit this week and purchased two car-loads of short horn cattle for winter feeding upon his farm. He also feeding about 60 head of hogs, expecting that thereby to make way with a portion of the crop of clean corn.—Dundee Reporter.

The Tecumseh philosophy "class in studying atmospheric pressure and a young lady expressed surprise at the amount of pressure a man can stand, and live. Her mind, however, had probably wandered from the subject of "atmospheric" pressure.—Adrian Times.

The Standard Cabinet company, of Kansas City, Mo., is represented in Washtenaw county by D. Woodward, of Clinton, Mich., as manager with Clinton as headquarters. He specially requests every family in the county to examine the cabinets when the agent calls, as it will be time well spent and something that should interest every house-keeper whether you wish to buy or not.

Ex-sheriff Baldwin, it is understood, will not be utterly insensible to the demands of the people of the eastern federal district of Michigan, if, with one voice or even a dozen voices or more, they call upon him, in thunderous acclamations to become United States marshal. Those who may have feared that Mr. Baldwin would turn a deaf ear are assured that he wouldn't. He would make a fairmed good marshal, too.—Adrian Press.

Prosecuting Attorney F. E. Fish, of Allegan, has drafted a bill to be presented at Lansing this winter. He wants the names of purchasers at drug stores published, with the amounts of liquor sold and the purpose, in the weekly paper in local option counties. The law, he thinks, should not be subject to repeal for five years. The vote in local option should be taken as a general election, thus saving $600.—Adrian Messenger.

Rev. Benj. T. Trego, rector of St. John's Episcopal church at Saginaw, has tendered his resignation to take effect January 1st. Next September he proposes to don his clerical garb and vestments and go upon the stage, starring jointly with the eminent actor, Clay Clement, in Shakespearean plays. These two gentlemen have been bosom friends since childhood, and during Clement's week engagement at Saginaw last month he was a guest of Rev. Trego, and the rector was in attendance at all the performances.—Adrian Telegram.

The special Lima Northern committee was out this morning soliciting for the new railroad, and everywhere they met with the proper spirit, a friendliness toward the enterprise and a desire to help it to the extent of their ability. The feeling is splendid and the outlook is good. Everybody who has studied the situation realizes that this is Adrian's opportunity and if the people fail to avail themselves of the opportunity now, there is slim chance for any other railroads to be projected in this direction in the near future.—Adrian Messenger.

The Manistee Observer admits the election of McKinley a confirmation of the old tradition that the American people like their presidents to have only one christian name. The first five presidents had no middle name and when McKinley is inaugurated he will be the seventeenth president without one. The list includes George Washington, John Adams, Thomas Jefferson, James Madison, James Monroe, Andrew Jackson, Martin VanBuren, John Tyler, Zachary Taylor, Millard Fillmore, Franklin Pierce, James Buchanan, Abraham Lincoln, Andrew Jackson, Grover Cleveland and Benjamin Harrison.

It would be a good idea for parents who have boys that are in the habit of roving about the streets nights after nights to ascertain what they find to amuse themselves. Only the other night about six young misses spent the entire evening peering into windows and chasing unbelievable acceptances to the occupants of the houses thus annoyed. How sad it would be for some fond mother to have her step boy brought home to her daily wounded from a gun shot. Yes sir-ree, shoot the man who lived the shot. Dansville Express.

Wishing to observe the sprouting of seeds, the writer filled a glass jar so within an inch of the rim with earth; a row of seeds—corn, peas, beans and the like—were laid around next to the glass, and on each layer of soil added. The condition of the seed is the same as it would be if planted in the ground, except each layer can be plainly seen, and the process of swelling, sprouting [illegible]

Sec.—J. D. Shull.
Stewards—W. W. Hicks, J. R. Hosmer.
Tyler—Wm. Jordan.
Finance Com.—J. D. Shull, Alva Spayde, M. E. Conklin.

The entertainment furnished by Guy Brothers' Minstrels Friday evening, was one of the finest seen here in years. The first part usual to minstrels was very chaste, the singing good, jokes crisp and new, no old chestnuts; the specialties were way up in G. Every one an artist in his line. They deserved a much larger house than they had. Coming the next night after the course entertainments may have had some effect to lessen the attendance, but the principal cause was the price. Fifty cents admission these times in a town of this size will not insure a packed house. Although the company could not have made expenses here they must have felt gratified at the genuineness of applause each number on the program received. Every one present felt well paid and would be glad to see them here again.

Meals at all hours at Moir's.

Mrs. Geo. N. Stacy arrived home from Flint last week.

Lena Wyrill is helping at Harry Tansley's during the holiday rush.

Greatest holiday bargain. Two small photos 25 cents at Miss Daly's.

Dr. and Mrs. O. Q. Jones visited Adrian friends the last of the week.

O. E. Williamson and family spend Christmas with Dundee relatives.

Len W. Kimball and wife, of Clinton, were calling on Tecumseh friends Saturday.

Frank Avery and family expect to take Christmas dinner with friends at Onsted.

A. W. Slayton is in Detroit and Royal Oak this week looking after his lumber business.

Fine mixed candies 10 cents a pound at O. McBride's.

Miss Mama Monaghan and Miss Stacy were visitors of the Stacys at Newburgh Saturday.

Miss Hattie Bates is assisting James Montague in the novelty store before the holidays.

No matter what you want in the line of Christmas goods you can find it at Harris & Hiteshu's.

Mrs. C. Vedder will entertain her parents, Mr. and Mrs. G. W. Rogers, of Adrian, over Christmas.

S. N. Minger and family, of Franklin, will be the guests of Mr. and Mrs. Geo. Knapp, Christmas day.

Mrs. Julia Rowland and Etta left this morning for several weeks' visit with Gus and family, in Toledo.

Abner Wilson went over to Ann Arbor Friday and returned Saturday accompanied by his daughters.

Mr. and Mrs. Henry Wagner expect their daughter, Mary, from Detroit, to spend Christmas with them.

Two photos 25 cents. Miss DALY.

Miss Lizzie Beamish and Miss Eloise Waring are assisting Seaton W. Anderson during the holiday trade.

Mr. and Mrs. D. P. Wheeler will entertain Mrs. W's mother, Mrs. Brown, of Blissfield, over Christmas.

Fine line Christmas candies at O. McBride's.

Mrs. Margaret Healy, of Grand Rapids, is spending some little time with Mr. and Mrs. Ed Kirchgessner.

R. B. Gillespie is in Calhoun county, looking over the territory he has purchased for the Standard Cabinet.

Ice cream in any flavor, brick or plain for Christmas. Leave orders at Moir's.

Mr. and Mrs. Ed Kirchgessner and Mrs. Healy will test the Christmas turkey at Wm. Kirchgessner's, in Manchester.

The HERALD office is sending orders for engraved calling cards every day. Bring your copper plates in and save all expense and trouble.

Judge Powell and family, of Jackson, and Mr. and Mrs. E. C. Coryell, of Deerfield, will spend Christmas at A. W. Slayton's.

Mrs. O. M. McBride and child are visiting her parents, at Napoleon. Ora expects to run up and spend Sunday with them.

Everything in the line of Furniture at one-quarter less than you can buy the same goods at any place in Michigan. WHEELER & SISSON.

Mrs. A. G. Evans, who was the guest of Mr. and Mrs. Fred Aldrich several days last week, has returned to her home in Oxford.

You can buy more Christmas goods for the same money at Harris and Hiteshu's than any other place on earth. If you don't believe it, try and see.

Mr. and Mrs. E. C. Kennedy will have for Christmas guests, Mr. and Mrs. Charles Burlingame, of Coldwater, and J. B. Carlton and wife, of Adrian.

J. H. Smith and family and Bert Waring and family will eat their Christmas dinner and spend the day with Mr and Mrs. R. L. Rogers, in Cambridge.

Christmas will soon be here and you will want to give some kind of a present. There is nothing more acceptable than a pretty chair. We have them from $1.00 up. WHEELER & SISSON.

There will be a special meeting of the Eastern Star, January 7, for work, supper and robes, also to discuss going to Jackson. A full attendance is desired.

John Wyrill and family spend Christmas with Fred Beland's family, Lake Ridge, and the balance of the week with Mrs. W's parents, Mr. and Mrs. John Beland, in Macon.

Harris & Hiteshu have had the happy faculty this season of securing the lines of holiday goods that please the people. Call and see them before making your selections or you will regret it.

Oysters in all styles at Moir's.

The trustees of the Tecumseh Masonic association met last Saturday night and paid the last dollar which was due on the masonic temple. According to the provisions of the deeds this property can be used hereafter only for masonic purposes and cannot be mortgaged. So, barring accident of fire, the masonic lodges of Tecumseh will always have a home and a good one.

Married, at the home of the bride's parents, Mr. and Mrs. Orrin Hamblin, at South Haven, Mich., by the Rev. John Russell, Saturday morning December 19th, at 10 o'clock, their only daughter, Hattie L., and Mr. George Hoag, of Tecumseh. The wedding was a very pretty one, the company being composed of relatives and a few intimate friends. The gifts were many and costly, showing the popularity of the fair young bride. The bridal couple arrived here Saturday evening and will spend some time with the groom's mother, Mrs. Cynthia Hoag, of east Chicago street. Well, George, here are our congratulations.

Miss Hartbeck is a Detroit visitor today.

C. B. Pennock, of Adrian, was in town last evening.

Orange blossoms on Maiden Lane New Year's eve.

W. C. Burridge was in Adrian on legal business Monday.

Mrs. Abbie Fisher visited Detroit friends yesterday.

Grove Vanderpool, of Springville, was in town today.

Miss Nora Childs is home to spend the holidays with her friends.

Mrs. Cary Climer, of Macon, visited Mrs. Albert Conger Monday.

Miss Mina Olmsted will spend the holidays with friends at Bay City.

John Zable, an attorney of Petersburg, was in the village Thursday.

Geo. Mattison, of Jackson, is visiting his cousin, N. E. Mattison this week.

Miss Inez Thorpe is home to spend Christmastide with her mother and sister.

Mrs. Alma Tate was the guest of Tecumseh friends Thursday and Friday of last week.

Mrs. A. P. Coddington was called to Cleveland by the death of her sister, Mrs. Pickell.

John Osborn is home from his fall trip and will pass the holiday season with his family.

Julia Brown and Mina Redfield, of Adrian, were guests of Mr. and Mrs. S. J. Helm over Sunday.

Mr. and Mrs. John Orr's baby, which was quite sick Sunday and yesterday, was better this morning.

The Misses Viola Shull and Winnifred DeWolf were calling on Adrian friends the last of the week.

R. A. Heesen leaves in the morning for South Bend, Ind., where he will remain until after January 1st.

Charles H. Heck, wife and Willie will spend the Christmas season in South Bend, Ind., with his mother.

Grace Steinhoff was 11 years old yesterday. The event was duly celebrated last evening at Dr. and Mrs. Steinhoff's by a happy company of her young friends.

Arthur Burnett has arrived home from New York and Walter is expected from Albion tomorrow night. They will pass the holidays beneath the parental roof.

Chas. E. Secord, of Grand Rapids, who has been here the past two weeks tuning pianos for his regular patrons and several new ones, left yesterday morning for Adrian.

Mr. and Mrs. Frank E. Crossman and little daughter, of Jackson, have been spending a few days with relatives here. They left today for a short visit at Dundee before returning home.

Cards are out announcing the marriage on Wednesday, Dec. 23, at 8 p. m., of Viola E. Wildey to Clayton J. McIntyre, at the home of the bride's parents, Mr. and Mrs. Chas. Wildey, at Holloway.

Mr. Albright, of the standard cabinet company, left this morning to spend the holidays with his parents in Florida. The other members of the company will go to their respective homes for the same purpose.

About 7 o'clock last night as H. H. Carty, our new laundryman, threw some oil in a coal stove, a flash of fire struck him and burned his hands and face badly. Dr. Tefft was called and Mr. Carty is resting easier this morning.

Special attention is called to the advertisement of Seaton W. Anderson on the first page. His store as well as the "ad" is full of Christmas ideas and as his force of help during this week numbers fifteen, all can be waited on without delay.

Bert Lee, while out hunting east of the village one day last week, shot what is known as a Guillmot which is described as "a bird of the British waters." How such a bird came in this section is unknown. Mr. Lee will have the bird stuffed and mounted.

Ed Everett, Fay Anderson, Will McGlashin, Sam McClure, Hattie Conklin, Tom Moffat and John J. Orr went to Adrian Saturday evening to see the Whitney Opera Company in Rob Roy. Those whom we have seen pronounce it very fine and say that Carlton Burton is a great musical director.

At the meeting of the Monday Club yesterday afternoon Mrs. Wm. Smith gave a paper on the Religious History of Art. Mrs. B. F. Snyder a paper, "Nuremberg and Hans Sachs, the cobbler poet." Mrs. C. A. Slayton a paper on the legend "Queen Cunigunda." Prof. Emmerson will deliver the lecture on Art at Mrs. Bill's tomorrow evening. The ladies are all to be there at 7:45 city time.

The HERALD this year will not print a club list for any particular papers but has made arrangements to supply its subscribers with any other newspapers they desire at greatly reduced rates. Never before has so much pains been taken to secure better prices on all periodicals, all the benefit of which will be given to HERALD patrons. No matter what you want we can get it for you and promptly.

The arrangements for the Christmas party, at the opera house Christmas night are about complete. No small part of the affair will be the concert by Uhl Brothers' full orchestra, which commences at 8 o'clock city time. Admission to the gallery has been placed at 15 and 25 cents, and the reserved seats are selling rapidly at Kirchgessner's. Many replies have been received from invitations sent away and the attendance will not number less than fifty couples. It is safe to say that the concert will be the best ever given in Tecumseh. Uhl Brothers' orchestra is composed of young American musicians who are up-to-date in every particular.

Mrs. Jacob Everhart.

Died, at the family residence, Clinton township, on the morning of Dec. 15th, of marasmus, Orrissavilla, wife of Jacob Everhart.

Beside her husband, she leaves three daughters and one son, Mrs. D. W. Clemens, of Pueblo, Colo., Mrs. John Gillespie, Miss V. Anna, and Omer L. Everhart, of this place, also eight grand-children, two sisters living at Rochester, N. Y., and one at Albion, Mich.

Orrissavilla Landon was born at Wolcott, Wayne county, N. Y., Jan. 13, 1820, and married at Lyons, N. Y., Oct. 22nd, 1846, to Jacob Everhart, then of Massillon, O., and with her companion she lived to commemorate their fiftieth anniversary with a quiet gathering of children, grand-children and neighbors about them, but even then the shadow of the white messenger was over their household as the devoted wife and loving mother slowly faded away, until "He gaveth her sleep."

IN MEMORIAM.

Out into the silence of the night
Her unfetter'd spirit took its flight,
Alone;
When the white robe was covering the ground,
Unseen wings the dear one folded round,
While mean
And weeping of those near had her no power to stay,
Since the good Master took her hand to lead the way.

"'Tis morning," she did say, while the gloom
Of a starless night filled hearts and room,
But ray
Of heavenly light her soul was o'er,
The light which beamed from the mystic shore,
And day
Indeed for her with beautious light was dawning,
For the gates stood wide ajar of life's new morning.—M. L.

Mr. J. Everhart and family wish to express thanks to all the friends who by word or deed or in any manner extended the helping hand to them during their recent bereavement.

Reduced Rates for Holidays.

Excursion tickets at reduced rates will be sold Dec. 24, 25, and 31, 1896, and Jan. 1, 1897, good for return until Jan. 4 inclusive, by the Lake Shore & Michigan Southern railway between all points on its line, also to points on many immediate connecting lines. Inquire of ticket agents for full particulars.

Farmers' Social Club.

The club will meet with Mr. and Mrs. Jerome Bowen, Tuesday evening December 29th. Meeting to commence at 7:30 and close at 9:30 o'clock.

PROGRAM.

Music—Mr. Bowen and daughter.
Paper—Henry Ward Beecher—Mrs. George Bendelct.
Quotations from Rev. Beecher.
Music—Ora and Jennie Gillespie.
Paper—Harriet Beecher Stowe—John Boyce.
Historical questions answered.
Question—How can the local clubs best secure loyal support of the measures advocated by the state association from their respective legislators elect. Led by A. P. Coddington.

Railroad Matters.

The committee of ten met yesterday morning at Lilley's bank and appointed sixteen more members to act with them in the matter of projecting the canvass. The committee is now as follows: Lucius Lilley, Albert Brewer, John S. Temple, R. A. Heesen, C. A. Wright, A. W. Slayton, Henry Smith, A. W. Mills, C. E. Williamson, B. J. Garlinghouse, John F. Hicks, C. A. Slayton, N. M. Sutton, Seaton W. Anderson, Joseph Russell, P. W. A. Fitzsimmons, E. N. Satterthwaite, B. P. Anderson, J. S. Strong, E. G. Cook, L. G. North, Thos. Elliott, Alva Spayde, James Lowry, T. C. Harris, H. S. Lee.

This morning the committee of 26 met, adopted a form of suoscription paper and selected A. W. Mills, Ben Garlinghouse and John F. Hicks as a special committee to assist the committee of 26 in taking the subscription. The work has commenced and the amount will be raised as Tecumseh people will come forward freely with their minds all made up that the railroad is to be a public benefit.

High School Happenings.

Latin 9a are reading Viri Romae.

Bookkeeping class are studying single entry forms.

Adah Erskine dropped in for a short time Thursday afternoon.

Charlie McIntyre called on the A room Thursday afternoon.

Henry Conklin looked over the work in the central building Wednesday.

Chemistry class have completed their advance work and are now reviewing.

Howard Whelan and Raynor Anderson visited the various rooms in the high school Thursday forenoon.

Ina Jackson and Jennie Gillespie have been absent the greater part of the week on account of sickness.

The first and second grades of the east branch school hold appropriate exercises this afternoon, to celebrate Christmas.

Theodore Grootenhuis, who entered the sixth grade a week or so ago, was found to be so far advanced in his work that he was transferred to the seventh grade.

Miss Monigan, one of the east branch teachers, started Monday morning for a three weeks' visit with her brother in Texas. During her absence, Mrs. Cairns presides over the fourth grade.

Miss Keavs has organized a High School Chorus in the ninth grade, and another in the grammar grades. They will meet once a week after school for practice, and are already very enthusiastic over the work.

—Come quick if you want some shingles at cost, most all gone. Some lumber for sale very cheap. Two good houses to rent cheap. A. W. SLAYTON.

—I want to borrow some money for two of three years on good security and will pay interest semi-annually. Drop a card to Lock Box 15, for further particulars.

Cheer Up

Christmas Is Near.

We will do our best to make you happy and supply your wants in our line.

FULL OF INTEREST.

Much Information Will Be Found in the Paragraphs Below.

There are now 1,065 patients in the Pontiac asylum.

A colony of Berrien county farmers will emigrate to Texas in the spring.

John Bagley, of Decatur, dropped dead while on his way to church Sunday night.

The Calumet & Hecla Mining company is making preparations at Houghton for sinking a new shaft.

The handle factory at Boardman, Grand Traverse county, will begin operation soon, large orders having been received.

Wages in the lumber woods of Montmorency county range from $12 to $15 per month, the latter rate paid in that section.

Eleanor Miller began suit against Bay City for $10,000, for alleged injuries resulting from falling on a defective sidewalk.

Owing to low prices it is estimated that fully one-eighth of the potato crop in southwestern Michigan has been left in the ground.

Reports made to Commissioner Billings show that the railroad passenger earnings in Michigan for October were the smallest in 15 years.

Thomas Huston, the oldest resident of Niles, is dead. He was born in 1817 and came to Niles in 1830, when there were but five houses in the village.

Hon. E. S. Lacey, of Chicago, has been elected as a trustee of Olivet college to fill the vacancy caused by the death of F. S. Belcher, the Charlotte banker.

Unless the state agricultural society can effect a settlement with Lansing creditors or renew notes for about $20,000 there may be no state fair next fall.

The Cummer Lumber company of Cadillac owns 80,000,000 feet of lumber in Florida, which will be milled this winter to save its being destroyed by worms.

Mrs. E. A. Russell, of Genesee, drowned herself in a cistern Tuesday morning. Her husband died last spring and despondency is supposed to have caused her act.

The common council and lumbermen of Saginaw offer $1,500 reward for the arrest and conviction of the incendiaries who have been operating in that vicinity.

The Benton Harbor health department prides itself on the fact that during the past five months there have been but ten cases of contagious disease in the city, and not one of those was developed by communication.

TO LIMIT WHISKY SALES.

Michigan Legislature Has a Plan to Publish a List of Purchasers.

Niles, Dec. 19.—Representative Merriman, of Allegan, will introduce a peculiar local option bill when the next state legislature meets. Mr. Merriman says it is impossible to convict druggists under the present laws, they being allowed to rely implicitly upon the statement of a purchaser that he wants liquor for medicinal purposes. Mr. Fish would require the druggist each week to file an affidavit showing the name of the purchaser, kind and quantity of liquor sold and the purpose, and to publish the affidavit in a newspaper. Young men would be loth to see their names in print and people would look for the list just as they do now for marriage licenses. No druggist would dare to sell liquor to one man three or four times a week.

Insurance Rates Slashed.

Lansing, Dec. 18.—Special agents of fire insurance companies were in secret session here two days this week. Their presence was due to the fact that the Michigan inspection bureau has gone to pieces, and for the past fortnight there has been a general slashing of rates throughout the state. The plan has been for the Michigan companies which constitute the bureau to make the rates, the outside companies, as a rule, accepting them. Every now and then a break is occasioned by some company in the combine cutting rates.

Fire in Detroit.

Detroit, Dec. 18.—An explosion occurred early Friday morning at the Detroit College of Medicine. Flames immediately broke forth from the third-story windows, and in less than two hours the building was in ruins. The janitor and his wife narrowly escaped with their lives. The loss on the building will reach $75,000, partly insured. Besides the building itself, valuable instruments and costly furniture were destroyed.

Embezzlement Charged.

Big Rapids, Dec. 17. — Ex-General Manager Chester W. Comstock, of the defunct Mecosta county savings bank, was arrested at the instance of the depositors' committee for alleged embezzlement. It is stated in the warrant that on October 22 he took $2,000, and sent it to Chicago to apply on the Comstock Lumber company paper. He was examined and held for trial under $5,000 bail bonds.

Monks Again in Custody.

Bay City, Dec. 19.—A telegram from Corning, N. Y., announces the capture there of Willie Monks, who broke out of the Bay county jail ten days ago. Monks was arrested in Chicago for the authorities of Bay City on suspicion of being implicated with his brother in a number of forgeries.

Regaining Her Health.

Battle Creek, Dec. 19.—Mrs. Charles A. Culberson, wife of the governor of Texas, who has been dangerously ill at the sanitarium in this city, is rapidly improving in health. The governor, who has been with her, left for home Thursday night.

Elk Rapids, Dec. 17. — A 15-months'-old child of Alfred Gates, four miles north of this place, pulled a kettle of boiling water off the stove and was scalded so severely that it died of its injuries.

MAY GET A BIG SUM.

State May Receive Pay for Services Rendered During the War.

Lansing, Dec. 19.—If the joint resolution providing for the payment of interest, discount, premium, brokerage, exchange, etc., or money borrowed by the state for war purposes, passes congress, Michigan will stand a show for collecting a large sum of money from the general government. The total claim filed by this state against the general government on account of expenses incurred for war purposes was about $1,200,000. Along about 1869, the government allowed $847,369 of the claim, rejecting about $356,000. Of this sum, the state was credited with $426,498.83, to apply on the status quota of direct tax; $420,899.07 was paid to the state, and $200 was held out on account of the retention by the state of the proceeds of government property.

Twenty years later congress provided for paying back the direct tax collected of the state, and in 1891, during the administration of Gov. Winans, Michigan was paid back in cash $426,498.83, less $5,633.17, which was held back for ordnance stores, not counted for. Subsequently on March 30, 1893, this item of $5,633.17 was also paid. Of the amount of Michigan's original claim, which was rejected, the greater portion was for interest on bonds, discount, premiums, etc., on loans for war purposes. On June 11, 1883, this state filed a claim for $320,488.32, for discount and interest on war loan bonds issued by the state, on account of the late war. This claim was rejected on the ground that there was no provision for paying such interest and discount. If the joint resolution is adopted, Michigan will collect this interest, brought down to date, making a total item of some $350,000.

ROSWELL G. HORR DEAD.

The Michigan Ex-Congressman Passes Away at Plainfield, N. J.

Plainfield, N. J., Dec. 19.—Ex-Congressman Roswell G. Horr died Friday night at 11 o'clock, after an illness of two weeks, with bronchitis and Bright's disease.

[Roswell G. Horr was born November 26, 1839, in Wattsville, Vt. He received his education in the public schools, and when young moved to Elyria, O. In 1859 he married Miss Carrie Pinney, of Elyria. He was admitted to the bar in 1864. One year later he moved to St. Louis, and went into the mining business. In 1871 he took up his home in Saginaw, Mich., from which district he was elected to congress on the republican ticket in 1878, and served with distinction three consecutive terms. In 1890 he moved to Plainfield and became a member of the editorial staff of the New York Tribune, which position he has held ever since. His joint debate in Chicago with W. H. Harvey, author of "Coin's Financial School," attracted much attention. When the national republican campaign committee called for speakers last fall he was one of the first to respond, and made over 90 speeches in the presidential campaign before he was taken ill with bronchitis.]

ROSWELL G. HORR.

To Develop Oil Wells.

Roscommon, Dec 19.—Two oil experts have been looking over the fields of Roscommon this week and have expressed the opinion that oil exists here in paying quantities. They have leased considerable land and intend boring next spring. It will be remembered that about 14 months ago a well was sunk near Roscommon and real oil pumped, but the owners for some reason sunk a railroad rail in the tube and the plant was abandoned.

No Case Against Him.

Saginaw, Dec. 19.—Rev. O. D. Taylor, the Oregon preacher charged with false pretenses in some western land deals of which several Saginaw men were alleged victims, has been discharged by order of the judge and all proceedings quashed. The ground is that the law under which the proceedings were begun had been repealed by an amendatory act in 1894, and the new act could not be made to apply to an offense committed before it was passed.

Foreclosure Suit Begun.

Marquette, Dec. 17.—Papers were filed here by the Farmers' Loan and Trust company, of New York, against the Escanaba Waterworks company in beginning a foreclosure suit on a $100,000 mortgage, a third of three aggregating $275,000, held by the trust company for the protection of bondholders. During foreclosure and sale a receiver is asked for.

Deserts the Pulpit for the Stage.

Saginaw, Dec. 18.—Rev. Benjamin T. Trego, rector of St. John's Episcopal church at this place, has tendered his resignation, to take place January 1, 1897, when he will leave the ministry and enter the study of dramatics, preparatory to going on the stage next August to star jointly with Clay Clement in a repertoire of Shakespearean plays.

Smallest for Twenty Years.

Alpena, Dec. 19.—Alpena sawmills cut 84,553,059 feet of lumber this season. This is the smallest cut since 1876, when they cut 84,300,000. The cut for 1896 is over 100,000,000 short.

The Alpena Hoop & Lumber company is rebuilding the Union Island mill, preparing for the manufacture of various articles from hard wood.

Columbus, Ind., Dec. 19.—Mrs. Willis Bond, a famous minister of the French church, died here Friday evening. She formerly lived at Richmond, Ind., and later at Traverse City, Mich. Her husband was also a minister of that denomination.

McKinley in Chicago.

Chicago, Dec. 18.—President-elect McKinley arrived in this city yesterday morning for a brief visit at the home of Lafayette McWilliams, a relative, where the major's wife has been staying for a week.

Celebrates Her 101st Birthday.

West Concord, Vt., Dec. 18.—Mrs. S. H. Tenney on Thursday celebrated her 101st birthday. Many friends extended congratulations. She is in excellent health.

Robbed a Train.

Birmingham, Ala., Dec. 18. — Two highwaymen held up a west-bound Southern railway passenger train near Bryant station, 25 miles west of here, Thursday night and succeeded in escaping with a large amount of money.

Killed at a Crossing.

Denison, Ia., Dec. 21.—John Kruml, wife and child were struck while crossing the track by a fast freight of the C. & N. W. railroad. The woman is dead, the child is safe and the man is not expected to live.

Indians Win.

Chicago, Dec. 21.—The Carlisle Indian school football team defeated the University of Wisconsin 11 at the Coliseum Saturday night by a score of 20 to 8. Seven thousand people saw the game.

Iowa to Celebrate.

Des Moines, Ia., Dec. 21.—Gov. Drake has issued a proclamation recommending that the people of the state fittingly observe on the 28th inst. the fiftieth anniversary of the admission of Iowa into the union.

PROBABLY LOST.

Sad Plight of the Danish Barkentine Solid When Sighted at Sea.

Asks Provisions of a Passing Vessel—Belief That She Has Foundered with Her Crew of Twelve Men.

New York, Dec. 23.—The Dutch oil tank steamer Bremerhaven, Capt. Ninnes, which has arrived from Antwerp in ballast, sighted the Danish barkentine Solid (of Haugesund) on December 15 at seven p. m. The barkentine was burning a "flare-up" light, and when Capt. Ninnes brought the steamer within hailing distance the captain of the barkentine shouted that he was short of bread, and asked to be supplied. Capt. Ninnes told the Barkentine crew to lower a boat, but the answer came back that their bulwarks and boat were stove. Accordingly, Third Officer Edward Bornhaupt and a boat's crew lowered a life boat and carried a supply of bread, beef and potatoes to the Solid. On his return to the steamer Mate Bornhaupt said the barkentine was in a bad plight. Her bulwarks were almost gone and the seas washed across her decks continually. Capt. Ystinas, of the Solid, refused to abandon her. There were 13 men all told, aboard of her, and they seemed to be in a pitiable condition. Bornhaupt thought her chances of living through a gale of wind were but slight. Shortly after the Bremerhaven's boat returned to her the weather came on thick and the Solid was lost to sight. The Solid is an iron barkentine of 340 tons burden, and was built at Hamburg in 1869.

NEW GUNBOAT LAUNCHED.

The Annapolis Intended for Practice Ship of Naval Cadets.

New York, Dec. 23.—The gunboat Annapolis, destined for service as the practice cruiser for the United States Naval Academy at Annapolis, was launched at Elizabeth at 10:30 Wednesday morning.

Miss Georgie Porter, daughter of Lieut. Theodoric Porter and a granddaughter of the late Admiral Porter, broke the customary bottle of wine on the vessel's bow as it glided into the waters of Staten Island Sound, exclaiming at the same time: "I christen thee Annapolis."

The gunboat Annapolis is of a vessel of entirely new type, so far as our navy is concerned, in that it is of composite construction, all of the framing being of steel, with planks of Georgia pine worked on the frames below the water line, secured by composition bolts in such manner as to prevent galvanic action and being then covered with copper.

This will make the vessel largely independent of docking facilities and economical in the use of fuel. Another feature of the vessel that distinguishes it from other naval ships is the use of full sail power in addition to steam. It will be barkentine-rigged and will be able able to sail 12 knots an hour without using its engines. It is a sister ship to the Vicksburg and Newport, of 1,000 tons displacement, drawing 12 feet of water, and is 168 feet long by 36 feet beam.

Pope Receives the Cardinals.

Rome, Dec. 23.—The pope has received the sacred college of cardinals and expressed to them his good wishes for the New Year. His holiness delivered an address to the cardinals, in which he reviewed the position at home and abroad and deplored the situation of the papacy in Italy. The pope also said that his intentions in the matter of having made overtures to King Menelek of Abyssinia, with a view of obtaining the release of the Italian soldiers who were held by the Abyssinian king as prisoners of war, had been misrepresented.

Killed by Explosion of Glycerine.

Toledo, O., Dec. 23.—A special from Montpelier, Ind., says that George Hickox, a well shooter, and Harry Woods, helper, were killed there Wednesday by an explosion of glycerine at the magazine of the Empire Glycerine company. Windows for several miles around were shtatered and the magazine building was completely demolished.

Report of an Engagement in Cuba.

Havana, Dec. 23.—Col. Pavia reports having had an engagement with a party of rebels encamped at Sao Redondo, in the vicinity of Holquin, killing 21 insurgents and capturing and destroying their camp. The troops lost one lieutenant and four privates killed and a major, a captain and nine privates wounded.

Steel Billet Pool Intact.

Pittsburgh, Pa., Dec. 23.—The Bessemer Steel association, better known as the steel billet pool, is still intact, reports to the contrary notwithstanding. One of the leading members of the organization, who has returned from the meeting in New York, has so stated emphatically.

Shoots His Wife and Kills Himself.

Washington, Dec. 23.—J. D. Williams, a mulatto, shot his wife and then killed himself about noon at 408 Washington street, northwest, this city. It is thought Mrs Williams will recover.

NEEDS OF CHICAGO.

They Are Laid Before Legislators at a Banquet.

Chicago, Dec. 23.—The senators, representatives of the lower house of the Illinois legislature, the mayors of many Illinois cities and other prominent out-of-town citizens were the guests of the Civic federation and associated clubs of Chicago at a novel banquet in the Auditorium hotel Tuesday night. The object of assembling such a body around the banquet board was to enable the hosts to tell the members of the new legislature, which meets next month, the practical and special needs of Chicago in the way of legislative reforms, so that intelligent action could be taken and out-of-town citizens were invited to cooperate and offer suggestions along reform lines. The visitors were entertained during the day by prominent Chicagoans and the Palmer house was placed at their disposal free of cost. About 500 persons attended and listened to addresses from lawyers, bankers and politicians until a late hour.

KILLED HIS SISTER.

A Chicago Peddler Crushes Her Skull with a Baseball Bat.

Chicago, Dec. 23.—Driven mad by peace bonds which have been held over him since last October, John Ryan, a peddler living at 45 Lowell place, murdered his sister, Katherine Ryan, Tuesday evening by crushing her skull with a baseball bat, and intended to end his own life in Lake Michigan. He was arrested, however, as he was leaving the scene of his crime, and the police are of the opinion that he is insane. When the officers reached the flat where Ryan and his sister lived they found the murdered woman lying upon the floor in a pool of blood and the room in flames. During the struggle the stove had been overturned and the department was called out to extinguish the blaze. Neither Ryan nor his victim had ever been married. Last October he quarreled with other tenants in the building and was placed under peace bonds. The disgrace he has felt it is thought affected his mind.

FOUR ARE DEAD.

Young Man of Minnesota Kills Three Persons and Commits Suicide.

Mankato, Minn., Dec. 23.—A wholesale murder was committed at Madelia, a small town 20 miles west of here, late Monday night. John Mottle shot and killed Dennis J. Joblinski, the latter's son, aged 19, and a daughter, aged 16. A fourth person was badly wounded. The slayer then put a bullet through his own head. Mottle was infatuated with Joblinski's daughter and the father objected. The murderer was 25 years old.

Forefathers' Day.

Washington, Dec. 23.—The anniversary of the landing of the pilgrims was celebrated by the Washington Congregational club at the First Congregational church Tuesday night. A reception was first held, followed by a dinner, at which speeches were made by Justice Brewer, of the United States supreme court; Rev. S. M. Newman and Representatives Northway, of Ohio, and Brosius, of Pennsylvania.

More Talk of Reforms.

Constantinople, Dec. 23.—The ambassadors accredited to the Porte have received instructions from their respective governments to act in concert in submitting fresh proposals for reforms in the Ottaman empire and all of the diplomats, including M. Nelidoff, the Russian ambassador, have agreed to resort to coercive measures if the sultan should be dilatory in enforcing the reforms.

Son of a Famous Character Dead.

Clayton, N. Y., Dec. 23.—John Johnston, aged 80 years, passed away at his home here. He was the son of the late William Johnston, the famous commander-in-chief of the naval forces and flotilla of the patriots during their strife upon the St. Lawrence river in 1838 in the interest of the independence of Canada. The affair ended in ignoble defeat for the invaders.

Frozen Pipes Cause a Fire.

Montreal, Can., Dec. 23.—Fire broke out in the house of W. H. Brown on Stanley street, caused by an attempt to thaw out frozen water pipes by burning paper around them. The house adjoining, occupied by Mr. May, was damaged. Much damage was done by water. Total loss, $25,000; insured.

Railroad Sold Under Foreclosure.

Omaha, Neb., Dec. 23.—The St. Joseph & Grand Island road was sold under foreclosure at Hastings, Neb., for $2,300,000 to William L. Bull, in the interest of Edward W. Sweet & Co., who are the first mortgage bond holders. What connections will be made by the new owners is not known.

Miss Frances Willard Ill.

Castile, N. Y., Dec. 23.—Miss Frances Willard, president of the World's and National Womens' Christian Temperance union, who is at the Sanitarium here, has suffered a relapse and is quite ill. Her physician has cancelled all her engagements and she will remain here for some months.

Bank Bookkeeper Arrested.

Buffalo, N. Y., Dec. 23.—Edwin J. Smith, individual bookkeeper of the Bank of Commerce, has been arrested on the complaint of the receivers of the bank who charged him with falsifying the books, effecting a practical embezzlement of between $2,500 and $3,000. Smith confessed.

A RACE WAR.

Trouble of the Most Serious Nature Feared at Mayfield, Ky.

Whites Arming to Protect Themselves Against a Big Mob of Negroes—Bloodshed Almost Certain.

St. Louis, Dec. 23.—A special to a morning paper from Mayfield, Ky., says that at 3 o'clock a. m. every man of that town and every boy who can carry a weapon is on guard there, for an attack by an army of negroes is expected at any moment. The whites are being re-enforced hourly by citizens from surrounding towns.

It is thought that before daybreak there will be commenced the fiercest race war ever known in the south.

For 48 hours news had been received at Mayfield from different points that the negroes were organizing in large bodies for the purpose of visiting the town and wreaking vengeance upon those who lynched Jim Stone, the rapist, Monday morning, and followed this by white-capping some of the colored families who lived on the outskirts.

Prepare for a Battle.

At 9 o'clock at night telegrams from Water Valley said that the negroes who had massed there were 250 in number, and that every one had some sort of weapon. A half hour later news of a similar nature came from Wingo. These reports, in addition to many of a similar nature, received from surrounding towns during the evening, caused the greatest consternation, and preparations were at once made for a battle. Men first saw to it that their homes were barricaded, as well as that could be done, and then they proceeded to the hardware stores, where everyone who could use a weapon was handed one until the entire stock was distributed.

A dispatch was sent from Mayfield to Fulton as soon as the alarming reports began to come in, asking aid of the white citizens at that point. A reply came at once stating that a special train would be chartered and a body of armed men would reach Mayfield as soon as possible.

At ten o'clock p. m. the reports had become so alarming that the fire bell was sounded, and all of the citizens assembled in the public square, where they remain, expecting the attack at any hour.

A message from Paducah, received at 11 o'clock, stated that a body of negroes was being organized there, but that they would probably not march upon Mayfield before daybreak.

At 12:30 o'clock in the morning a body of citizens of Fulton reached town. They report meeting a mob of 200 negroes, every one armed with a rifle, on the outskirts of town. No attempt was made by the negroes to interfere with the Fulton people, and it was evident that the former are waiting for reinforcements.

Guns have been ordered from Paducah and are expected at any moment on a special train.

At 2:30 in the morning several shots were fired at three negroes who were seen on the outskirts of Mayfield. There was no response and the negroes retreated, evidently toward the larger body.

A special from Nashville, Tenn., dated at 3:30 o'clock a. m., says the wire to Mayfield has been lost and it would probably be impossible to obtain any more information for several hours.

Desperate Affray on a Ranch.

St. Louis, Dec. 23.—A special from Guadalajara, Mexico, says particulars have been received there of a desperate affray at the ranch of Juan Vidrio, in that state. Vidrio had trouble with some of his employes a few days ago and 30 of them attacked him. He was seriously wounded by the first volley of shots, but took refuge in his residence and fired on his assailants, killing two of them and wounding seven others badly. Twenty members of the mob have been arrested and will probably be shot.

Constable Killed.

Mansfield, Mo., Dec. 23.—Owen Booth, a constable, is dead, Tom Applin dying, and a half dozen others were wounded as a result of a shooting affray near the Douglass county line, seven miles south of here. Constable Booth's posse attempted to search the house of a German named Coonsey, who had been accused of burglary. Coonsey resisted and opened fire with a double-barreled shot gun with the above effect.

Assumes His Office.

Buffalo, N. Y., Dec. 23.—Bishop William David Walker, the recently elected Protestant Episcopal bishop for the Buffalo diocese, was enthroned in his official position in St. Paul's cathedral. The ceremony attending the enthroning is of English origin, and is very interesting, being marked with all the dignity and solemnity of the Episcopal services.

To Dictate a Biography.

London, Dec. 23.—The St. James Gazette says the queen will personally dictate and revise a biography of her majesty, which will appear in 1897. The work will tell the story of the longest reign in the history of England as the queen herself regards it

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

ELY'S CREAM BALM

CATARRH

COLD in HEAD

is quickly absorbed. Cleanses the Nasal Passages, Allays Pain and Inflammation, Heals and Protects the Membrane from Cold. Restores the Senses of Taste and Smell. Gives Relief at once and it will cure.

A particle is applied directly into the nostrils, is agreeable. 50 cents at Druggists or by mail; samples 10c by mail.

ELY BROTHERS, 4 Warren Street, New York

AGENTS WANTED For the most valuable contribution to the literature of the world since the production of the Bible. The Great Work of the Great Thinkers, Famous Orators, Renowned Scholars, Wise Writers and INVESTIGATORS of the 19th Century.

In all the range of literature there is not another book like

THE PEOPLE'S BIBLE HISTORY

In this book must can be found the information sought by every Bible reader, whether old or young, scholarly or unlearned. It is indeed a great work.

Recent discoveries in archaeology have brought the world of today face to face with the men who lived, and wrote, and wrought the early periods covered by Biblical Historians. These discoveries have resulted in the triumphant vindication of the sacred writers from the charges brought against it by open foes and pretended friends. Every intelligent person will order the book, as the matter contained in it is of vital importance and cannot be found in any other book on earth.

Write for descriptive and beautifully illustrated pamphlet circular. Address

THE HENRY O. SHEPARD CO.
212-214 Monroe St. CHICAGO.

A CUNNING CONVICT.

He Tortured Himself in Order to Get Placed on the Sick List.

A case showing great cunning and perseverence, as well as tolerance of much self-inflicted pain continued for many months, is worth telling, says Chambers' Journal. The convict was most determined and resourceful in his efforts at malingering. He began by running a piece of copper wire into his knee, by which he nearly lost his leg. He then produced a number of sores round the knee joint, and kept up a great degree of swelling and inflammation by means of a rag and thread pushed into the wounds. Upon the discovery of this he took to introducing lime below the skin. On another occasion a bandage was found firmly bound round the man's thigh, the result being, in medical phraseology, "extensive swelling and lividity of the thigh."

The doctor ordered his limb to be enveloped with a large piece of gutta-percha so as to checkmate the prisoner's malpractices. The latter, however, by means of a strip of sheeting, and the skewer to which part of his dinner was attached, formed a tourniquet, and by it compressed his leg so much during the night as to quite neutralize the medical treatment it had received during the day. The imposture was at length detected by an order of the doctor to expose the limb outside the bedclothes to the view of the officer day and night, and from that hour progress was toward complete recovery.

Big Rapids, Dec. 17. — Ex-General Manager Chester W. Comstock, of the defunct Mecosta county savings bank, was arrested at the instance of the depositors' committee for alleged embezzlement. It is stated in the warrant that on October 22 he took $2,000, and sent it to Chicago to apply on the Comstock Lumber company paper. He was examined and held for trial under $5,000 bail bonds.

Monks Again in Custody.

Bay City, Dec. 19.—A telegram from Corning, N. Y., announces the capture there of Willie Monks, who broke out of the Bay county jail ten days ago. Monks was arrested in Chicago for the authorities of Bay City on suspicion of being implicated with his brother in a number of forgeries.

GHOST OF THE "PENGUIN."

BY WILL LISENBEE.

For more than a week the Penguin had laid at anchor in the little harbor at Bastia. She was a small schooner, a weather-beaten, lubberly craft, with her yards splintered and one of her masts broken, yet she looked strongly picturesque, standing with bare poles against the flaming sunset sky, as I allowed my little boat to drift before the gentle breeze.

Aboard the craft there were no signs of life visible, and I knew that Muggins must be ashore, filling himself with rum, as was his custom when Capt. Darke was absent.

My old friend, the captain, had been beating about the Mediterranean with his lubberly schooner for half a score of years, and so he might still have been engaged, but for the arrival of a letter at Bastia telling him of a newly-inherited fortune left him by an uncle who had been living in Florence.

But upon receipt of the goods new he was off at once, leaving his disabled schooner in charge of Muggins, an old sailor who was more honest than sober.

As my boat drifted alongside the Penguin I perceived a rope trailing over the port side, and, making my little craft fast, I drew myself upon deck.

I looked about me, but no one was visible. It was evident that I was the only soul aboard the Penguin.

I threw myself on a camp-stool in the shadow of the sail and fell to regarding the range of dark hills that rose back of the romantic little city. Presently I was interrpted by the sound of oars, and a few moments later Muggins' tawny head appeared over the rail. He started when he saw me, and was about to beat a hasty retreat when my voice stopped him.

"Bless me, I thought you were a ghost, I did, by the powers!" he said, seeming well pleased that his fears had not been realized.

"Well, now, what the deuce is there about me, Muggins, to make you think me a ghost?" I asked.

"Oh, it isn't that you look like a ghost, Mr. Raymond," he returned, apologetically. "But, you see, when a cove is looking to see a ghost, he's pretty certain to take the first live thing his eyes fall on for what he's looking for."

"Then you were expecting to see something of the supernatural kind?"

"That's a fact, Mr. Raymond, though 'tain't often a cove is believed when he tells such a story. There's a ghost on this old hulk, or else I'm losing my eyesight."

"And you really believe in such nonsense?"

"I believe what I sees, that's all."

"What did you see?"

"Well, since you ask, I don't mind telling you. You see, since Capt. Darke went away and the crew was discharged, the Penguin has been under my care, and I have been sleeping aboard the vessel and spending most of my time here. Last night about two o'clock I woke, thinking I heard something moving near me. I was sleeping in my cot on the deck, and as I looks about me I sees a woman, all in white, moving like a specter right by the hatchway. While I was watching, it seemed to sink into the deck and disappear. I'm not the man to run from a single night-prowler, but I felt queer-like at this, and can't see how a woman could be on the Penguin. Thinking she might have descended the companion-ladder, I goes down with a lantern, but finds nothing. Then I looks all over the ship with the same result. I slept no more that night, and though I look after the ship during the day, I shan't sleep here again if I know myself, call it ghost or what you will."

With this he picked up a lantern and descended to his boat that lay alongside.

"Then I shall spend the night here and lay your ghost for you," I said.

"You'll greatly oblige me if you will," he returned, "though I'll be blowed if I think you succeed. Good evening, Mr. Raymond. I'll drop alongside early in the morning and see how you have fared. There's the key to my cabin," he added, tossing the key upon the deck. "You'll find pipes and plenty of tobacco, and a sip of rum in a decanter, if you look close. Now again good night to you."

His oars dipped into the water, and he was gone.

Dusk was already settling over the water. I took a seat on the deck and lit a cigar, and began running over in my mind some of the events that had befallen me since my arrival in Corsica.

For more than three months I had been staying in the romantic little island, finding a restful charm in its quiet seclusion that was a pleasing contrast to the life I had been spending for the past two years in the gay capital of the restless and pleasure-loving French.

One is not likely to expect to meet with adventures of the thrilling kind in the peaceful precincts of Bastia, yet something bordering upon this had come to my lot less than a month before.

For the amateur artist the quaint little city will furnish many subjects for the pencil and brush, and I had made good my opportunities since my arrival.

The most prized among my collection was the portrait of Veda, the little Corsican fruit-seller. There was something fascinating in her very pose, and the dark beauty of her face had drawn me to her as if by some subtle witchery.

One evening, as I was strolling through the streets, I heard a cry of mortal terror come from the court of a ruined building where several poor families had taken their abode, and entering hastily I perceived an aged woman, withered hag, with uplifted knife, in the act of striking a girl who was crouched in the corner of the wall.

I struck the knife aside, and the would-be murderess fled, leaving me face to face with Veda, the intended victim.

She only paused a moment to press a kiss upon my hand; then she slipped through a gap in the wall and was gone. That was the last I had seen of her.

To my inquiries regarding her whereabouts I received no information, excepting a bit of her past history which told me that she had belonged to a wealthy and influential family, and that she had received a finished education. But reverses had come; her father had fallen a victim to a dreadful vendetta, and she had finally been left a penniless orphan.

I was deeply interested in her, but no one could give me the slightest clew as to whither she had fled.

Still I had lingered about the places I used to see her. Was I in love with the little Corsican beauty?

Her face would come before my mental vision asleep or waking, bringing a sweet sensation I had never before experienced; and yet I tried to dismiss her from my mind.

I sat smoking for some hours upon the deck of the Penguin, watching the yellow lights dancing in the romantic little city, and drinking in the fresh, sweet air of the night that stole up from the Mediterranean.

It was about 11 o'clock when I stretched myself upon the cot which Muggins had placed upon the deck. I fell asleep soon after, and dreamed of Muggins' ghost.

It seemed that some strange presence came to me—a woman, beautiful beyond any dream; and, just as I reached out to touch her she vanished, leaving only a faint odor of some strange, sweet perfume. I awoke suddenly with that inexplicable sensation that sometimes tells us of the unseen presence of another.

I sat up and looked about me in vague bewilderment. The moon had risen out of the sea and was flooding the deck with its mellow radiance.

As my mind grew more composed I detected a subtle perfume on the night air, the same that had come to me in my dream.

Was it only the effect of my imagination? No; there could be no mistake as to its reality. Something white lay at my feet; I picked it up; it was a delicate piece of lace embroidered linen, and exhaled the breath of perfume that had before greeted my senses.

While I stood bewildered at the amazing circumstance, I perceived a white form emerge from the hatchway and move forward, with a slow, gliding movement.

I stood immovable, watching the figure as it came toward me. As it drew near, I perceived that it was a girl, and as the moonbeams fell on the pale face I recognized it as belonging to Veda Dorlos, the little fruit seller.

Her eyes were wide open, and staring vacantly ahead in a way peculiar to the somnambulist. She was a sleep-walker! The thought came to me like a flash. Yet, what could account for her presence aboard the Penguin?

Without attempting to answer the puzzling question, I started toward the figure, but as I did so, the sound of something like the dropping of an oar in a boat came from over the port. Then a moment later the dark figure of a woman—the same I had seen making the assault on the little fruit-seller—slipped noiselessly over the rail. She paused for a moment to glance about the ship, then, with a cry of rage that might have proceeded from some wild animal in deadly combat, she leaped upon the unconscious girl, the blade of a long knife glinting in the rays of the moon. Roused to action by the sight of the murderous intruder, I leaped quickly forward, and, before the knife descended to do its deadly work, I caught the hand that held it.

But if I reckoned on an easy victory in subduing my adversary, I soon discovered my mistake, for the woman, though aged to all appearances, seemed to possess the strength of the strongest man, and, finding herself foiled in her murderous attempt, she turned upon me with the fierceness of a panther. Coming unexpectedly as the attack did, it caught me off my guard, and before I realized my peril, the hand that held the knife was wrenched from my grasp; then there was a swift blow, a keen pain in my shoulder as the blade entered; then a mist gathered before my eyes, and I sank unconscious upon the deck.

When my senses returned it was broad daylight, and I was lying on a cot in Muggins' cabin, the beautiful but troubled face of Veda bending over me.

It was about a week before I was able to get ashore, and, though I had a trained nurse from Bastia, Veda refused to leave me entirely in the hands of another.

Well, in that week I had learned to love the little Corsican beauty with such an intense devotion that I could not bear the thought of separation.

Her life had been one of trials and misfortunes. The old hag who had twice sought the life of Veda was prevented from taking my life by the timely arrival of Muggins, who had come over to the vessel in his boat just before daybreak to see how I was faring. Finding herself thwarted, she leaped into the bay, and was drowned before she could be rescued by Muggins.

She was the last of the Baralodo family, between whom and the Dorlos a dreadful vendetta had existed, and it was to escape the vengeance of the old woman that Veda had stowed herself aboard the Penguin, hoping to be carried to some foreign land, and thus escape the violence and death that constantly threatened her.

Veda and I were married, and a month later sailed for America in the Penguin with my old friend Capt. Darke, who had returned and had the vessel repaired.

Muggins was much elated over the happy ending of my attempt to "lay" his ghost, though he always declared I had made a most lucky failure, and instead of laying the ghost, I had myself been layed by it.—N. Y. Ledger.

Yoke Fellows.

Many women work too hard. There is no question about that. If they did not have Love for a yoke-fellow they could never endure the daily, hourly grind and drudgery of life. But they bear it cheerfully, sustained by loving thoughts of husband and children.

But when physical weakness or disease is added to a woman's burden it becomes altogether too heavy. No woman can be cheerful or hopeful who is dragged down by continual pain and physical wretchedness.

The special weaknesses peculiar to the feminine organism are comparatively easy to overcome if the earlier symptoms are given proper attention. But if allowed to go unchecked, they are liable to develop into serious, chronic complications.

Any woman [illegible] these delicate ailments ought to have the immediate aid of Dr. Pierce's Favorite Prescription. It is a perfect and unfailing specific for all diseases of the feminine organs. It was devised for this one purpose, and accomplishes this purpose as no other medicine has ever done.

For nearly 30 years Dr. Pierce has been chief consulting physician of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., where in conjunction with his staff of associate specialists, he has successfully treated many thousand cases of "female complaint."

No physician living has had a more extended opportunity to study this class of diseases in actual practice. No medicine ever invented has done for women what his "Favorite Prescription" has.

Dr. Pierce's Pellets cure constipation.

Is there anything worse than the masculine busybody who meddles in your affairs under the guise of friendship?

Weakness of Men

Quickly, Thoroughly, Forever Cured

by a new perfected scientific method that cannot fail unless the case is beyond human aid. You feel improved the first day, feel a benefit every day, soon know yourself a king among men in body, mind and heart. Drains and losses ended. Every obstacle to happy married life removed. Nerve force, will, energy, when failing or lost, are restored by this treatment. All weak portions of the body enlarged and strengthened. Write for our book, with explanations and proofs. Sent sealed, free. Over 2,000 references.

ERIE MEDICAL CO., 66 NIAGARA ST., BUFFALO, N. Y.

Reduced Rates for Holidays.

Excursion tickets at reduced rates will be sold Dec. 24, 25, and 31, 1896, and Jan. 1, 1897, good for return until Jan. 4 inclusive, by the Lake Shore & Michigan Southern railway between all points on its line, also to points on many immediate connecting lines. Inquire of ticket agents for full particulars.

It is impossible to walk with any degree of self-complacency with the skirt binding frayed or dragging.

For Hoarseness.

Benj Ingerson, of Hutton, Ind., says he had not spoken above a whisper for months, and one bottle of Foley's Honey and Tar restored his voice. It is used very largely by speakers and singers. Orr & Temple.

Many women can express their minds very forcibly by letter, but are as meek as mice in a face to face argument.

WHEN bilious or costive, eat a Cascaret, candy cathartic, cure guaranteed. 20c, 15c.

Nurse maids are more easily obtained for plump babies than thin ones.

For Kidney Troubles

there is nothing better than Foley's Kidney Cure. Everyone who tries it will agree to this. Orr & Temple.

TOO MUCH WORK

For a Healthy Existence.—That's Why the Kidneys so often Fail

[illegible] overtaxed. The kidneys become overworked, they fail to perform their proper function of filtering the blood of the impurities which naturally form in the regular action of life and digestion. The kidneys are consequently termed the sewerage of the system; clog up this sewer, and the blood becomes tainted with poisonous uric acid, which brings on disease in many forms. The back is the first to show this stoppage. From there comes the warning note: it should be heeded, and the kidneys receive prompt attention. Doan's Kidney Pills will right the action of the kidneys quickly, relieve the back of pains and aches, and cure all troubles of kidneys and bladder. Read the following:

Mr. Wm. Nelson is a well-known business man of Kalamazoo, he resides at 822 Portage Street, and his business is that of a grain buyer. He says:

"For five years I have suffered from an inability to urinate, which resulted from what was said to be a stoppage of the bladder. During these years I have taken mineral and electric baths and used other means in expectancy of getting better, but they all proved unavailing. Some months ago I began using Doan's Kidney Pills, which I had heard highly recommended, and I can now say that the flattering reports were not greater than they deserved. I got better right along, and I am free from any trouble now. I feel better than I have done for three years past. If Doan's Kidney Pills were well known all over they would do an immense amount of good."

Sold by all dealers—price, 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, *Doan's*, and take no other.

THE INSPECTOR'S LOSS.

Inspector Hookyer had served his 25 years in the detective force, and his colleagues were entertaining him at a little farewell dinner, in anticipation of his forthcoming retirement. The chairman having eulogized the guest of the evening to an extent that brought a blush to the face of that case-hardened officer, the inspector rose to reply, and at the outset he said:

"The chairman has said that I never let a man slip through my fingers after I had once got on his track, but I am sorry to say he is wrong. I am bound to acknowledge that once an offender was too clever for me."

"Tell us about it!" arose spontaneously from almost every throat, and Inspector Hookyer, in response to the request, gave the story:

"It was a good many years ago now when I had intrusted to me a case of a young woman named Eliza Thickbroom, who had been found dead (evidently murdered by having her throat cut) in some fields adjoining the canal near a town in Lancashire. She had been a domestic servant and was of a very retiring, staid disposition, and bore an irreproachable character. Her friends lived in quite another part of the country, and her mistress had no knowledge of her keeping company or anything of that kind. For some time I had considerable difficulty in fixing the crime or any reason for it upon anyone; but at last, after a lot of inquiry, I ascertained that she had been walking out with a man named Lamprey, who lived near Stockport, in Cheshire, some 30 miles from where Eliza Thickbroom resided.

"It seemed that the girl had been in the habit of spending her holiday, when she had a day off, in going to Stockport, where Lamprey met her, and that she had become engaged to him, but that, hearing something to his discredit, she refused to have anything more to do with him, and, so far, nothing further was known to implicate Lamprey in the crime; but I, of course, at once took the train to Stockport and proceeded to hunt up Lamprey and to make inquiries in the town where he resided.

"I knew nothing about him except his name, but from the local police and cautious questions of one another I ascertained that he had been a sailor and was then a 'steeple-jack,' and one of the best climbers known.

"'Jack Lamprey!' cried one man to whom I had spoken. 'Ah, he can climb, for sure, can Jack! Why, he climbed up to the very top of yon steeple' (pointing to the church hard by, which had a spire remarkably tall and slender, and very hard to mount). 'After the storm had damaged the weathercock. Jack climbed up and fixed it all alone for the parson, and he refused to be paid for it!'

"The man seemed to look upon Lamprey's refusing payment as more wonderful than his climbing the steeple, and perhaps he was right. Well, bit by bit, I found little things which, when pieced together, pointed unmistakably to Jack Lamprey as the murderer. He had, until recently, been seen frequently in and about Stockport with the girl, but for the last two or three months she had not been observed in his company. He had been a jolly sort of fellow, but since the girl had ceased her visits it had been noticed that he had become moody and silent, and he had taken to drink a good deal, although he had previously been a most abstemious man.

"He was away from his lodgings on the night of the murder, and on his return early the next day he was travel-stained, as if he had walked a long way. His landlady remembered that he told her he had fallen down in some chemical works where he had been on a job and had stained his clothes, and she recollected that immediately after his arrival home he had busied himself brushing and sponging his garments.

"There was sufficient evidence to justify me in obtaining a warrant; but he was away on a job—no one knew where, exactly, except that it was somewhere near Liverpool—and it was useless for me to leave Stockport, where I had the best chance of catching him, on a wild-goose chase to Liverpool without better information. My only course was to wait and keep quiet till he came back, which he was expected to do the following day.

"I took every precaution to prevent anyone knowing that he was 'wanted,' but some 'pal' must have got to suspect it and given him warning. The police in Liverpool had been wired to and had kept watch of all trains in the direction of Stockport, and towards the evening of the second day I received the intimation that a man resembling his description had taken the train and was on his way. Assisted by a local detective who knew the man, I watched every passenger out of the train on its arrival at Stockport, but no Jack Lamprey alighted, and, on inquiring of the guard, it seemed pretty certain that he had got out at Cheadle, a station a few miles outside Stockport.

"It was the beginning of winter, and night had set in, so that it was extremely doubtful if we could follow the man, but we took a train which was just going out of the station, and in a few minutes were at Cheadle. I there made certain that my man had got out. He had booked for Stockport and had given up his ticket; but do all we could, we could get no trace of him. He had left the station immediately on leaving the train; no one knew him, and we could find no one to tell us anything more. So, hoping perhaps to pick up a clew on the road, we walked back to Stockport and on to the town where he lived, which was a few miles the other side, but our tramp was in vain.

"We had left instructions at Stockport for Lamprey's lodgings to be watched; but by some blunder a man had not been sent there for some time, and, much to my anger and disgust, when I arrived at his house I found that he had been there, just for five minutes, his landlady said, and had left again with a bag of clothes.

"I was mightily savage, you may guess, both with myself and with the police of the place for not keeping a better lookout; but it was no use losing my head over it, and I at once set to work dodging his footsteps after he had left his lodgings. In the public house which he frequented I came across a man to whom I had previously spoken, who seemed to know Lamprey in a very distant sort of way, and I turned the conversation on the man I wanted.

"'Ah! I've just seen him,' said the fellow. 'About an hour ago, or may hap a little more. He was going to Macclesfield, he said, to catch the early train in the morning into Staffordshire, where he's got another job. He seemed in a mighty hurry, too.'

"I had reason afterward to think that this man was the one who had given Lamprey warning, but whether that was so or not his information that night appeared to be correct, for I met several people who had seen Jack going across the fields toward Marple, which was his best way of getting to Macclesfield from the place he lived in; but when I arrived at Marple station I was at fault again, for no train had been out for quite two hours, and although I waited till the last train to Macclesfield had left, Lamprey did not show up.

"Tired, and vexed beyond description, I tramped back and got what rest I could, hoping that something might turn up in the morning to assist me in recovering the ground I had lost, but afraid that for once I had let my quarry slip, and that I might never catch him, now that he was aware he was being tracked.

"Sure enough, the something did turn up in the morning, and something which confirmed my fears, though I felt that I had got my man dead, if I had missed him alive. The postman came round soon after seven, before it was quite light, and I had only just got up when a boy came running with a letter, which had been delivered at the police station. It bore the Marple postmark, and was addressed to 'The Detective from London.'

"Tearing it open, I read something like this:

"'From John Lamprey. I know you are after me, and I know what for. I managed to keep out of your way to-night, and I meant to try and get down south, but you are sure to have me, sooner or later, so I've determined to make an end of it. Look at the church steeple when you get this to-morrow morning.'

"The church steeple was a tall and prominent feature whichever way you turned, and I had only to go to the end of the street to get a full view of it. When I got there and looked up, I saw something that gave me a start. In the uncertain light of the early morning I could discern against the gray sky, hanging by the neck to one of the iron loops which serve for a ladder on the side of the spire, the figure of a man!

"'So much for Jack Lamprey!' I said to myself, as I hurried to the police station. 'He has saved me any more trouble!'

"By the time I had been to the station and back to the church it was broad daylight, and, of course, the body hanging aloft had been seen, and a crowd had already collected, every one recognized it as Jack Lamprey.

"'A strange freak,' I remarked to the sergeant who was with me.

"There was no one round Stockport who would venture up the spire, and a telegram had to be sent to Stalybridge for a man to come and get the body down. It was past midday before the steeplejack arrived, and by that time half Stockport had heard of the affair. Work was discarded, and an immense crowd collected to witness the sight. Every foot of the man's way up to the steeple was watched by thousands of eyes, and when at last he approached the swaying body of Jack Lamprey, the tongues which had been loudly wagging were hushed as by common consent.

"I shall never forget the few minutes that followed while the steeple-jack (now looking the size of a little child) made his way very cautiously close up to the body, and fixing a rope to it, made his preparations for lowering it to his assistant, who was waiting on the top of the square tower to receive it. There was something awfully sad and solemn about it all!

"In due course the assistant received the corpse, which he let down to the ground, and everyone around me remarked that he swung it roughly to the earth, without showing the respect which might have been looked for. In fact, some actually called out, 'Shame!'

"But all at once the hush which had fallen upon the crowd was broken by a storm of jeers and laughter! The thing which had given us all this trouble was nothing but a guy! And I never felt such a fool in all my life.

"So that he might get nearly a day's start, Lamprey had cleverly missed me the night before. While I had been wasting my time at Marple he had been employed in stuffing the suit of clothes which he had taken from his lodgings with straw, making a very passable representation of himself; and in the middle of the night he had climbed the steeple (which was child's play to him), and left his effigy there to deceive me and lull me into inaction.

"I need not dwell upon the chaff I received. It is too painful, even now, for me to recall without annoyance, but you may be sure that I quickly made myself scarce."

"Did the fellow get clear away?" asked some one.

"Yes. He took the train to the east coast and succeeded in getting to Holland unnoticed," replied Inspector Hookyer. "But he hanged himself in real earnest some considerable time afterward, leaving a letter behind admitting his guilt, and stating that his conscience troubled him so that he could not bear to live."—Tit-Bits.

For Pneumonia.

Dr. J. C. Bishop, of Agnew, Mich., says: "I have used Foley's Honey and Tar in three very severe cases of pneumonia the past month, with good results." Orr & Temple.

The salary of the president for one year, if paid in gold, would weigh almost exactly 200 pounds.

On Board a yacht, sailboat, or any kind of vessel, there's a great deal of work that can best be done with Pearline. It washes all the paint, wood-work, glass, etc., better than anything else. Most captains have found this out—and Pearline is kept in foreign ports, now, on purpose for them. You can't use soap with salt water, you know; but it doesn't make much difference—salt or fresh, hard or soft, hot or cold—with Pearline. 431 JAMES PYLE, N. Y.

MORTGAGE SALE.

Whereas default has been made in the payment of the money secured by a mortgage dated December 30, 1896, executed by John McLain and Jennie McLain, his wife, of Macon, Mich., to Brockwell J. Rector, of Tecumseh, Mich which mortgage was recorded in Liber 99 of Mortgages on page 332 on the 7th day of July, A. D. 1896, and whereas the amount claimed to be unpaid upon said mortgage at the date hereof is the sum of Four thousand three hundred and eighty-seven and 6-100 dollars damages and no suit or proceeding having been instituted at law to secure the debt now remaining secured by said mortgage or any part thereof, whereby the power of sale contained in said mortgage has become operative.

Now therefore notice is hereby given, that by virtue of the said power of sale, and pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises therein described at public auction to the highest bidder at the front door of the court house in the City of Adrian in said county of Lenawee on the 13th day of March, A. D. 1897, next at ten o'clock in the forenoon of that day which said premises are described in said mortgage as follows:

Situated in the township of Macon, Lenawee County, Michigan, and described as the south half of the northwest quarter of section twenty-three of town five south of range four east, containing eighty acres of land more or less.

Dated December 16, 1896.

Brockwell J. Rector.

Charles Burridge, Attorney for Mortagee.

STATE OF MICHIGAN, County of Lenawee, ss

At a session of the Probate Court for the County of Lenawee, holden at the Probate office, in the city of Adrian, on Monday, the 7th day of December in the year one thousand, eight hundred and ninety-six.

Present, Richard R. Robbins, Judge of Probate.

In the matter of the estate of Alvinza Whelan deceased.

On reading and filing the petition duly verified of John B. Whelan a son of said deceased praying that administration of said estate may be granted to Ervin J. Whelan or some other suitable person.

It is ordered, That Tuesday, the 5th day of January, next, at one o'clock in the afternoon, be assigned for the hearing of said petition, and that the heirs-at-law of said deceased and all other persons interested in said estate, are required to appear at a session of said Court then to be holden at the Probate office, in the City of Adrian, and show cause, if any there be, why the prayer of said Petitioner should not be granted.

And it is further ordered, That said Petitioner give notice to the persons interested in said estate of the pendency of said petition, and the hearing thereof, by causing a copy of this order to be published in the TECUMSEH HERALD, a newspaper printed and circulating in said County of Lenawee for three successive weeks, previous to said day of hearing.

RICHARD R. ROBBINS, Judge of Probate.

(A True Copy.)

A. E. BARAGAR, Probate Register.

MORTGAGE SALE.

Default of payment having been made of a mortgage made and executed by William F. Arnold and Caroline Arnold his wife, to Joseph Russell, dated April 2d, 1891 and recorded on the 26th day of May, 1891 in the Register of Deeds office for Lenawee County, Michigan in Liber 99, of Mortgages on page 183,—upon which mortgage there remains unpaid of the principal and accrued interest at the date of this notice the sum of fourteen hundred fifty-seven and 53-100 dollars ($1,457 53) and no proceedings at law or in equity have been taken for the collection of the same or any part thereof.

Notice is therefore hereby given that by virtue of the power of sale in said mortgage contained and of the statutes of the State of Michigan in such case made and provided, for the purpose of realizing the moneys above mentioned and the interest thereon hereafter to accrue at 7 per cent per annum the cost of this foreclosure and sale including the attorney fee provided for in said mortgage, I shall on the first day of March, 1897, at nine o'clock in the forenoon of said day at the front door of the court house in the city of Adrian Lenawee county Michigan (that being the building in which the circuit court for said county of Lenawee is holden) sell at public vendue to the highest bidder, all that certain piece or parcel of land situate in the Village of Tecumseh in the county of Lenawee and state of Michigan and described as follows, to wit: Beginning at a point in the south line or Chicago street in said village of Tecumseh, such point of beginning being at the same time at the northeast corner of a parcel of land formerly owned by T. T. Kneeland and more recently occupied by M. P. Henry, thence running east on the south line of Chicago street forty-one feet and three inches to land owned by George Merritt; thence south on west line of said Merritt's land ninety feet; thence west at right angles with the first course forty-one feet and three inches to the east line of said T. T. Kneeland property; thence north on east line of said T. T. Kneeland property ninety feet to the place of beginning.

Dated December 4th, 1896.

Joseph Russell Mortgagee.

Charles Burridge Attorney for mortgagee.

STATE OF MICHIGAN, County of Lenawee, ss

At a session of the Probate Court for the County of Lenawee, holden at the probate Office, in the City of Adrian, on Monday the 30th day of November, in the year one thousand eight hundred and ninety-six.

Present, Richard R. Robbins, Judge of Probate.

In the matter of the Estate of Humboldt Pennington deceased.

On reading and filing the petition of Claribel Pennington administratrix upon said estate praying that she may be empowered and licensed to sell the real estate of said deceased in said petition described for reasons therin stated.

It is Ordered, That Monday the 28th day of December next, at nine o'clock in the forenoon, be assigned for the hearing of said petition and that the heirs at law of said deceased and all other persons interested in said estate, are required to appear at a session of said court, then to be holden at the Probate Office in the City of Adrian, and show cause, if any there be, why the prayer of said petitioner should not be granted.

And it is Further Ordered, That said petitioner give notice to the persons interested in said estate, of the pendency of said petition and the hearing thereof, by causing a copy of this order to be published in THE TECUMSEH HERALD, a newspaper printed and circulating in said County of Lenawee, for three successive weeks previous to said day of hearing.

RICHARD R. ROBBINS, Judge of Probate.

TECUMSEH, MICH., DEC. 25, 1896

In spite of the "hard times" the merchants report a good holiday trade.

The HERALD with this issue wishes all its subscribers a Merry Christmas and a Happy New Year in the full sense of the term. The fall of snow Tuesday filled the heart of every one with joy. The merchant was delighted that he filled his store with people who desired to purchase goods and the farmer was delighted that he could so easily reach town with his sleigh and team. The hearts of the young people are made glad in anticipation of sleighrides and crisp cold weather for the holiday merry-makings. The little folks are delighted that Santa Claus will not in any way be delayed on account of the fine sleighing, and the general remark of every one is "What perfect Christmas weather." Christmas time is the happiest season of the year and for the simple reason that the thoughts of everyone are of some one else. Unselfishness always brings genuine pleasure and forgetfulness of ourselves is the strongest characteristic of unselfishness.

CLINTON.

Fred Breese, of Lansing, spent Sunday in town.

Leon Clark came home from Albion Tuesday to spend his vacation.

John Tuttle came home from Ann Arbor, Saturday, to spend his vacation.

Dr. M. C. Reeves, wife and little Lon Arthur spend Christmas in Ann Arbor.

Mr. and Mrs. E. S. Tate attended the funeral of Mr. Tate's cousin, at Saline, Monday.

Miss Minnie Humphrey, of Toledo, came home Thursday evening to spend the holidays.

Miss Polly Earlingbush, of Ann Arbor, arrived here Saturday for a visit with friends.

Frank Parker came home from Albion Thursday morning to spend a two weeks' vacation.

Mrs. E R. Smith went to Mason Monday to be gone until after Christmas. Mr Smith goes Friday.

Mrs. H. D. Niblack went to Ypsilanti Wednesday morning to spend Christmas. Her husband goes Friday.

Mr. and Mrs. A. M. Kennedy went to Detroit Thursday to visit Mr. Kennedy's mother. They will return Monday.

The Roller—Reiser wedding Tuesday evening was attended by about 80 guests. The bride wore Nile green trimmed with white satin and lace. The ceremony was performed in German by Rev. Shettler, of Manchester.

Mrs. Hattie Johnston, Alberta and Fred, Will and Christine Burton, Mr. and Mrs. Charles Fabrique, Mrs. Charles Clark, W. D. VanTuyle and J. T. Clark drove over to Adrian Saturday to hear "Rob Roy," of which Carlton Burton is musical manager. Carl returned home with them and remained until Monday morning.

RIDGEWAY.

Buy snow shovels of Ed Smith.

May Fletcher was kept from school, last week, by sickness.

R. S. Houseman and Axton Christenson were in Milan Thursday on business.

A. L. Arner, of Adrian, spent last week with his mother, Mrs. Louise Arner.

Mrs. Anna Hamlin, of Chicago, is visiting Grandma Lowe, who is in poor health.

Miss A. J. Torwilliger, of Detroit, visited friends here from Saturday until Wednesday.

Dame rumor says we are to have a profusion of orange blossoms during the holiday season.

George Houseman, who is attending school at Tecumseh, is home for the holiday vacation.

Go to Ed Smith's for your meat crocks and rock salt for packing your pork.

Velta Wadner, of Ypsilanti, has been visiting her sister, Mrs. Ernest Palmer, the past two weeks.

The party who left a fur tippet at the church several weeks ago may have the same by calling on the sexton.

Ernest Palmer and wife will spend Christmas with his brother, Rev. Edward Palmer, at Rochester, Mich.

For cattle ties and ropes go to Ed Smith's.

Miss Eliza Thompson, of Perrysburg, Ohio, visited Mrs. P. E. Pocklington and family from Friday until Monday.

Ed Freer, wife and son, who have been spending several days with friends and relatives here, left for their home at Mason Monday.

It is examination week at the high school and the students are hustling things. School will close Thursday afternoon for a two weeks' vacation.

Cyrus Underwood, David Gibson and Shirley Smith have taken county agencies for the celebrated kitchen cabinet and have left for their fields of labor.

Chore mittens, two pair for 25 cents, at Ed Smith's.

The funeral services of Mrs. James Tafft, whose death occurred at the home of her daughter, Mrs. R. Sherman, Friday night, was held at the church Sunday afternoon, Rev. Jas. Wright officiating.

The graduating class of our high school for '97 are two ladies and two gentlemen, and the following are the class officers: Pres., Miss Laura Palmer; Vice Pres., Elmer Pocklington; Sec., Miss May Culbertson; Treas., Cyrus Palmer.

Hudson buckwheat flour, the best made, at Ed Smith's.

Mrs. Jennie Lockwood, of Petersburg, district president of the W. C. T. U., met with the ladies of the union here Friday evening, at their parlor meeting held at the church, and gave a short address and read a very interesting paper, giving a report of the W. C. T. U. convention held at St. Louis.

The management of the Tecumseh Star Course were very fortunate in securing the Johnson Smiley Combination, who appeared at Sutton's opera house Thursday night, Dec. 17. It was among the first, if not the best entertainment ever given in Tecumseh. If the public can be assured they will appear on the course another season, it will assist the management materially in completing their work for the course.

The next that appears on the present course is F. W. Gunsaulus, of Chicago, Jan. 19, '97.

One of the ten big engines recently purchased by the Lake Shore, made its first trip through here this morning, drawing passenger train No. 15. Although this engine is capable of more speed, and of drawing a heavier train than the locomotive formerly used, the running time of No. 15 will not be increased for the present, at least. The engine is called a "McQueen hog." It has six drivers, a 19x24 cylinder, carries 200 pounds of steam, and is guaranteed to run 60 miles an hour. Frank Towsley was the engineer.—Adrian Times.

The last issue of the Empire (Mich.) Leader is printed on wall paper, through which runs a rather pretty design of flowers flecked with silver. In explanation of the issue the Leader says: "This issue may indicate to you that this is the 'last run of shad,' but don't you never think it. By the time the readers have absorbed its contents we shall be hustling for 'coin' to get our bundle of ready prints that are waiting us in the province of Lake Ann with a draft attached thereto. This issue is intended to serve two purposes: One is to remind those in arrears that we need funds, but can get along without them; the other is, you can paper your walls with it and have regular wall paper with ornaments on."

Scribner's Magazine.

A Red Letter Year for 1897.

The entire novelty of many of the plans for 1897 is noticeable. For instance, the series devoted to

LONDON AS SEEN BY CHARLES DANA GIBSON. Mr. Gibson has not before appeared as a writer. He visited London last summer for SCRIBNER'S MAGAZINE, for the purpose of depicting with pen and pencil those scenes and types which the huge metropolis presents in endless variety.

Of like novelty is the first considerable NOVEL BY RICHARD HARDING DAVIS, Soldiers of Fortune. The hero is one of the most vigorous men that Mr. Davis has drawn. Illustrated by C. D. Gibson.

THE CONDUCT OF GREAT BUSINESSES. A beautifully illustrated series of articles of which the following are already completed:
The Great Department Store.
The Management of a Great Hotel.
The Working of the Bank.
A Great Manufactory.

UNDERGRADUATE LIFE IN AMERICAN COLLEGES. A series of articles touching upon the life of our older universities as represented by the doings of the students themselves.
Judge Henry E. Howland writes on, Undergraduate Life at Yale.
Mr. James Alexander on, Princeton and Robert Grant and Edward S. Martin on, Harvard.

JAPAN AND CHINA SINCE THE WAR, will be a most interesting group of articles richly illustrated.

THE UNQUIET SEX. Under the title of The Unquiet Sex, Mrs. Helen Watterson Moody will write a series of articles:—Woman and Reforms, The College-Bred Woman, Woman's Clubs and The Case of Maria (a paper on domestic service).

W. D. HOWELLS'S STORY OF A PLAY. In this Mr. Howells gives us the best novel he has ever produced in his delightful vein of light comedy.

GEORGE W. CABLE. In addition to the fiction enumerated there will be a series of four short stories by George W. Cable, the only ones he has written for many years.

HOW TO TRAVEL WISELY with a minimum of wear and tear must be regarded as an art little understood. MR. LEWIS NORRIS IDDINGS, in two articles, will offer a variety of useful suggestions and data on OCEAN AND LAND TRAVEL. This will be happily rounded out by an articles from MR. RICHARD HARDING DAVIS on TRAVELLERS ONE MEETS: Their Ways and Methods. The illustrations by American and foreign artists will be highly pertinent.

*** It is impossible in a small space to even mention the many attractive features for 1897. A beautiful illustrated booklet has been prepared which will be sent, postage paid, on request.

B. L. Baxter is still a very sick man but out of danger and able to see his friends. His physician says he will not be able to leave his room till May next.

Miss Lydia McNeil entertained her Sunday school class at tea Wednesday evening and Christmas tokens were distributed. It was a very pleasant occasion.

Miss Hattie Conklin leaves in the morning for Napoleon, Ohio, where she will meet Clarence, he not being able to come home, and they will have their visit there.

McCann Bros. have as extra help this week, Mrs. McCann and James H. Elliot, while at E. F. Kirchgessner's Mrs. K. and Will Caldwell will be ready to wait upon you.

Representatives of the fur club were out Wednesday morning for a little brush through the woods and over the plains training, so to speak, for the great chase under contemplation.

The HERALD force intends taking a rest today in consequence of which the papers are mailed in the morning instead of evening. The Ridgeway correspondent was a day behind and the news from that village, although all here, will be found on the fourth page instead of in its accustomed place. Additional news from Clinton will also be found on the fourth page.

At Robert Hastings residence on Pottawatamie there came very near being a serious conflagration. One of the boys tipped over a stand on which was a kerosene lamp. The oil ran out, caught fire, burned a chair and portion of the carpet and smoked things up generally. Fortunately Mr. Hastings was at home and he promptly extinguished the flames and in consequence suffers from serious burns on his hands. Property fully insured.

Fine line of Christmas confections at Moir's.

Miss Bessie Spayde is assisting in her father's store.

Miss Allie Temple is home from Albion for the holidays.

The Christmas dinner at the Lilley house will be served at five o'clock, city time, today.

Mrs. M. A. Freeman desires all who owe her to make her a holiday present of the amount, as she needs the money.

In the marriage notice of George Hoag in Tuesday's issue, it should have been New Haven instead of South Haven.

Special attention is called to the advertisement of Seaton W. Anderson on the first page. His store as well as the "ad" is full of Christmas ideas and as his force of help during this week numbers fifteen, all can be waited on without delay.

Brooklyn Belle, the nobby little running mare belonging to Mr. Jones, was the recipient of a fine Christmas present from her owner. It was a corduroy chest protector. All the bloods wear them, you know.

Fine line Christmas candies at O. McBride's.

At E. F. Kirchgessner's, Wednesday about 6:40 p. m., was fully demonstrated that, little we know what a moment will bring forth, also that the work of years may be blotted out in the twinkling of an eye. For days Mert Burlingame and Will Caldwell had been racking their brains on a device that was to make them famous in history. It was completed, the power turned on, and the thing worked like a charm, drawing people to the window as a candle draws the moth; when, presto, change, the whole thing went up in smoke in a jiff, nothing remaining to remind one of what had been, except Will Caldwell's burned hands. For full particulars consult Will or Mert.

HOMERIC ART,

The Subject of Prof. Emmerson's Lecture to the Monday Club, at Mrs. Bills' Wednesday Evening.

The members of the Monday Club have been living in anticipation of a rare treat ever since the announcement was made that Prof. Emmerson, of Cornell University, would lecture before the society on the subject of Art, and the realization even exceeded the anticipation in the event of Wednesday evening.

Prof. Emmerson occupies the chair of Archæology at Cornell University, has filled the same position at John Hopkins University, was at one time connected with the Chicago Art Institute and has spent his entire life in the study of Ancient Art.

Under ordinary circumstances it would have been impossible for the Monday Club to have secured Prof. Emmerson at all, but he is an intimate friend of Mrs. Bills, they having formed this friendship in Munich when both were students there, and having discovered that the professor would make a trip to the Art Institute in Chicago during the holiday recess, prevailed upon him to stop over one train and give to the members of the Monday Club this lecture.

At the hour of eight the members of the club and their guests of the evening, in all numbering 100 persons, assembled in the spacious and beautiful rooms of the Bills residence and for two hours the feast of instruction continued; a feast even to those who were not so schooled or interested in this particular branch of study. A criticism of this discourse is unnecessary and would be out of place in a newspaper but it is impossible to omit mentioning that all present were delighted with his clearness of description and the pureness and elegance of his English.

As a social event the success was assured by the hospitality and kindness of Mrs. Bills in lending for the occasion her home, in fact the members of the club and their guests are under many obligations to Mrs. Bills for making possible so rare an intellectual and social treat.

Mrs. Jacob Everhart.

Died, at the family residence, Clinton township, on the morning of Dec. 15th, of marasmus, Orrissavilla, wife of Jacob Everhart.

Beside her husband, she leaves three daughters and one son, Mrs. D. W. Clemens, of Pueblo, Colo., Mrs. John Gillespie, Miss V. Anna, and Omer L. Everhart, of this place, also eight grand-children, two sisters living at Rochester, N. Y., and one at Albion, Mich.

Orrissavilla Landon was born at Wolcott, Wayne county, N. Y., Jan. 13, 1820, and married at Lyons, N. Y., Oct. 22nd, 1846, to Jacob Everhart, then of Massillon, O., and with her companion she lived to commemorate their fiftieth anniversary with a quiet gathering of children, grand-children and neighbors about them, but even then the shadow of the white messenger was over their household as the devoted wife and loving mother slowly faded away, until "He gaveth her sleep."

IN MEMORIAM.

Out into the silence of the night
Her unfettered spirit took its flight,
Alone;
When the white robe was covering the ground,
Unseen wings the dear one folded round,
While moan
And weeping of those near had her no power to stay,
Since the good Master took her hand to lead the way.

"'Tis morning," she did say, while the gloom
Of a sorrowful night filled hearts and room,
But ray
Of heavenly light her soul was o'er,
The light which beamed from the mystic shore,
And day
Indeed for her with beauteous light was dawning,
For the gates stood wide ajar of life's new morning.

Mr. J. Everhart and family wish to express thanks to all the friends who by word or deed or in any manner extended the helping hand to them during their recent bereavement.

ROUND ABOUT US.

Clippings and Condensations From our County Contemporaries.

That interesting relic, the old Wide Awake banner, which has been hanging on the Standard office walls since the days of '60, when it was used in the campaign for Lincoln and Hamlin, was send last week, by the Rowlson heirs, to the state museum, at Lansing.—Hillsdale Standard.

Ernest Spalding and Judson Manley, two Tecumseh young men who were arrested for entering the house of Henry Bissell, of Tecumseh, on the night of December 12, were arraigned before the circuit court this morning. Both pleaded not guilty. The trial will be held some time in January.—Adrian Telegram.

Quite an industry has sprung up on the St. Joseph river, south of Niles. Carp are so thick that they are not caught in the usual manner, but are captured on bare hooks. The fishermen drop a cluster of hooks, attached to a strong line, to the bottom and then pull it up quickly, and the fish are so numerous that they have no trouble in hooking them in this way. The fishermen are paid two cents a pound for the fish, and many of them weigh as high as sixteen pounds.—Adrian Telegram.

M. S. Knapp came in on the Lima Northern last night and will remain over the holidays. He was in Wauseon yesterday, and while there had occasion to test and appreciate the excellent service of the telephone company which is now introducing the new Adrian system. He had occasion to do some business with Toledo and other points, and pronounces the long distance, as well as the local curcuits, satisfactory in the extreme.—Adrian Times. Tecumseh is much interested about this matter of telepeones.

The immense apple crop of southwestern Michigan this season so reduced the price of the fruit in the Chicago market that many growers shipped their crop direct to Minnesota and North Dakota points. Most of them are now sorry they did so, for in many instances no returns whatever were received from the commission men, and in some cases a demand was made on the shippers for a balance due on freight charges. One farmer at Monterey shipped 100 barrels of choice selected apples to Winona, Minn., and received for his consignment a remittance of $4.—Adrian Messenger.

Hillsdale Manufacturing Co. is the name of a new firm organized recently for the manufacture of patent screen windows, patent corn poppers, anti-jumping halters and Fredonia washers, the stockholders being J. S. Parker, Seth H. Smith, A. S. Smith and L. F. Cole, of this city, and L. J. Niblack, of Addison. The company organized with a capital of $25,000 and are already doing work in Parker's hall, on Broad street, with five men employed, with hopes of having twenty by April, as business pecks up. Five men are on the road in the interest of the company, and orders are coming in in a very encouraging way.—Hillsdale Standard.

On the strength of the item in last week's Gazette relative to A. H. Boles going to Cuba, he is receiving all sorts of missives from all over the country in regard to enlisting volunteers, and others are very desirous to go with him. If could organize two or three companies of men. It plainly shows the sentiment in regard to the Cuban cause. Mr. Boles answers them one and all that he can do nothing about enlisting men for Cuba until the government recognizes the belligerency of the Cubans. The law in regard to neutral nations in a war of the nature of the Cuban war is very strict. He tells them they must go as individuals and not as members of a military company and on their own expense. He expects, however, that congress will express itself and the way made clear for Americans to assist their brethren in their struggle for liberty.—Hudson Gazette.

The announcement of the wedding of Dr. H. D. Baker, of this city, to Miss Minnie Martin, of Nevada, Mo., which occurred at the home of the bride at noon Thursday last, comes as a pleasant though much looked for surprise to his many friends in this city. The wedding was attended only by the members of the family and a few intimate friends, and amid a profusion of flowers and happiness Rev. A. Rogers, of the Baptist church, performed the ceremony which forever closed the bachelor quarters of Dr. Baker, all of which he renounced without a seeming regret. The bride, whose fairness, it is said, can in part be accounted for from the fact that she comes of ancient Kentucky stock, has many friends in Nevada, where her womanly loveliness and accomplishments have made her a favorite in society, while the doctor, during his four years' residence in this city, has made for himself a legion of friends. They are now at home at 629 College street, and Springfield extends to the doctor and his bride a hearty welcome and congratulations.—Springfield (Mo.) Democrat. Friends of the bride about Tecumseh will be pleased to read the above notice.

Advertised Letters

Remaining uncalled for in the Postoffice at Tecumseh, Mich., Dec 23, 1896:
Enders & Young, Mrs. Elizabeth Harrington.
Persons calling for letters in the above list will please say "Advertised."

ROYAL BAKING POWDER CO., N. Y.

Clinton Column.

W. J. Green was up from Tecumseh Monday.

W. H Hunt visited Tecumseh Monday afternoon.

John Spafford, of Manchester, was in town Saturday afternoon.

Fred Breese, of Lansing, visited friends here over Sunday.

Frank Hogan came home from Chicago Friday for a short visit.

Clarence Lankton is building a house on his lot on Tyrrill street.

Mrs. E. R. Smith has been visiting friends at Mason since Monday.

Miss Lizzie Field, of Tecumseh, visited Clinton friends over Sunday.

Mrs. E. M. Cooley made a business trip to Tecumseh Tuesday morning.

Miss Maud Ohlinger, of Manchester, visited Clinton friends the first of the week.

J. I. Tuttle, Jr., came home from Ann Arbor Saturday to spend his Christmas vacation.

Born, to Mr. and Mrs. Albert Kolkleisch, Sunday morning, December 20th, a daughter.

Henry Calhoun arrived home from Ann Arbor Tuesday night for his Christmas vacation.

E. F. Muir went to Detroit Wednesday to spend Christmas with his daughter, Mrs. C. W. Johnston.

Invitations are out for the leap year party to be held at the town hall next Friday evening, December 31st.

Miss Pauline Erlenbush arrived from Ann Arbor Saturday afternoon for a few days' visit with Clinton friends.

Next Friday being Christmas day the regular K. O. T. M. review will be held Monday evening December 28th.

Mrs. A. Voorhees, of Pontiac, has been visiting her daughter, Mrs. D. H. Ramsdell, for the past few days.

The Episcopal society have a Christmas tree for the Sunday school Christmas eve, in the hall over Freese's store.

Ruth Calhoun entertained quite a number of her little friends at her home Saturday afternoon, it being her tenth birthday.

The marriage of George Wilson and Miss Kate Ellis took place Wednesday evening at the home of the bride's parents, in Macon.

The new officers of Clinton chapter No. 45, R. A. M., were installed at a special meeting called for that purpose Tuesday evening.

The next meeting of the W. M. S. of the Congregational church will be held Wednesday afternoon at the home of Mrs. Augusta Brooks.

Miss Laura Haggart, who is teaching at Buchanan, came home Saturday to spend her vacation of two weeks with her brother Dave and family.

Mr. John W. Grow, of Limerick P. O., Ohio, writes: "I have used Lightning Worm Killer and found it as recommended. It has given great satisfaction: want nothing better." Orr & Temple, Tecumseh and Ridgeway.

"My little boy was very sick. I gave him Lightning Worm Killer and found that it is what it is claimed to be—a worm killer—for it worked like a charm. My child is well now." Orr & Temple, Tecumseh and Ridgeway.

Lightning Cough Drops is the best remedy for coughs and lung trouble I ever sold. Three of my family had pneumonia. After they recovered severe coughing set in, but Lightning Cough Drops cured them. Our family physician recommended it in preference to any other cough remedy on the market.—J. F. BARNETT, Jamesville, Va. Orr and Temple, Tecumseh and Ridgeway.

Mr. J. M. Babbit, of Aroma, Ind., writes: "In my kidney disease of fifteen years' standing, Lightning Kidney and Liver Remedy has given me more relief than anything I ever tried." Orr & Temple, Tecumseh and Ridgeway.

The word mob is a Latin word signifying movable.

How is This Offer?

On receipt of ten cents, cash or stamps, a generous sample will be mailed of the most popular Catarrh and Hay Fever Cure (Ely's Cream Balm) sufficient to demonstrate its great merit. Full size 50c.

ELY BROTHERS,
56 Warren St., New York City.

A friend advised me to try Ely's Cream Balm and after using it six weeks I believe myself cured of catarrh. It is a most valuable remedy.—Joseph Stuart, 624 Grand Avenue, Brooklyn, N. Y.

Carelessness in girlhood causes the greatest suffering and unhappiness in after life. Little irregularities and weaknesses in girls should be looked after promptly and treatment given at once. Dr. Pierce's Favorite Prescription promotes regularity of all feminine functions, makes strength and builds up a sturdy health with which to meet the trials to come. The Favorite Prescription is not a universal panacea. It is good for but one thing. It is directed solely at one set of organs.

Dr. Pierce's Common Sense Medical Adviser, a 1008 page medical work, profusely illustrated, will be sent free on receipt of 21 one-cent stamps to cover postage only. Address World's Dispensary Medical Association, Buffalo, N. Y.

To encroach once signified to put a hook into and pull away.

The Grandest Remedy

Mr. R. B. Green, merchant of Chilhowie, Va., certifies that he had consumption, was given up to die, sought all medical treatment that money could procure, tried all cough remedies he could hear of, but got no relief; spent many nights sitting up in a chair; was induced to try Dr. King's New Discovery, and was cured by use of two bottles. For past three years has been attending to business, and says Dr. King's New Discovery is the grandest remedy ever made, as it has done so much for him and also for others in his community. Dr. King's New Discovery is guaranteed for Coughs, Colds and Consumption. It don't fail. Trial bottles free at Baker & Hall's Drug Store.

The dandelion was once written dent-de-lion, the lion's tooth.

Something to Know.

It may be worth something to know that the very best medicine for restoring the tired out nervous system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centres in the stomach, gently stimulates the Liver and Kidneys, and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite, aids digestion, and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it. Sold for 50c or $1 per bottle at Baker & Hall's Drug Store.

Dimity, a popular dress material, was once made at Damietta.

Burdock Blood Bitters entirely cured me of a terrible breaking out all over my body. It is a wonderful medicine," Miss Julia Elbridge, Box 35, West Cornwall, Conn.

To speculate in its original sense was to look out of the window.

Bucklen's Arnica Salve.

The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns and all Skin Eruptions, and positively cures Piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Baker & Hall druggists.

Leaf recalls the palm leaves formerly used in the east as paper.

The person who disturbed the congregation last Sunday by coughing is requested to call on Orr & Temple and get a bottle of Foley's Honey and Tar which always gives relief.

Cemetery is from the Latin signifying "a sleeping chamber."

Always in season, Hopkins' Steamed Hominy (Hulled Corn). Elegant lunch in milk. Quart 10 cents.

Husband was originally the house-band, or bond of union of the house.

Don't Tobacco Spit and Smoke Your Life Away.

If you want to quit tobacco using easily and forever, be made well, strong, magnetic, full of new life and vigor, take No-To-Bac, the wonder-worker that makes weak men strong. Many gain ten pounds in ten days. Over 400,000 cured. Buy No-To-Bac from your own druggist, who will guarantee a cure. Booklet and sample mailed free. Ad. Sterling Remedy Co., Chicago or New York.

The word abandon originally signified "to run away from your colors."

Just try a 10c box of Cascarets, the finest liver and bowel regulator ever made.

The west coast of France is occasionally visited by that rare methological phenomenon known as the "perfumed mist."

Experts in the snake branch of natural history say that the largest rattlesnakes never strike above the knee of a standing man.

Idiot once meant simply boy. It is used by Shakespeare in this sense.

$100 Reward, $100.

The readers of this paper will be pleased to know that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

F. J. CHENEY & CO.

Sold by Druggists, 75c.

Hall's family pills are the best.

The Modern Mother

Has found that her little ones are improved more by the pleasant Syrup of Figs, when in need of the laxative effect of a gentle remedy than by any other, and that it is more acceptable to them. Children enjoy it and it benefits them. The true remedy, Syrup of Figs, is manufactured by the California Fig Syrup Company only.

The Dutch, the Danes and the Prussians each have a mile that is 18,400 feet long, or 31-2 times the length of ours.

Itching Piles, night's horrid plague, is instantly relieved and permanently cured by Doan's Ointment. Your dealer ought to keep it.

It takes the planet Uranus about 84 of our years to make one complete revolution of the sun.

A Household Necessity.

Cascarets Candy Cathartic, the most wonderful medical discovery of the age, pleasant and refreshing to the taste, act gently and positively on kidneys, liver and bowels, cleansing the entire system, dispel colds, cure headache, fever, habitual constipation and biliousness. Please buy and try a box of C. C. C. today: 10, 25, 50 cents. Sold and guaranteed to cure by all druggists.

People who board can undoubtedly save money but they lose that feeling of home which is, after all, the essence of life.

UNABLE TO MAKE THE CHANGE.

Predicament of the Cashier of a Downtown Resort with His Cash Register.

There were three in one party and two in the other. They were standing before the white-aproned dispenser of refreshments, says a Chicago exchange, and one of the three invited the entire party to have something. The dispenser dealt out the order of the three, took the dollar offered in payment and handed back 35 cents in change. The other two, standing a short distance away, were not served, as there was a mistake on the part of the cashier. The bill amounted to less than a quarter according to the refreshments served the three. The host examined his coin and then looked surprised and grieved.

"I gave you a dollar, he said.

"Was it a dollar? How much change did I give you?"

"Thirty-five cents."

"Well, I will have to wait until somebody buys. I don't dare open the register, as there is a false balance on it. Every time I open it it means a purchase charged to me. Sorry, but we will have to wait."

The man to whom the change was coming stood by and waited until the cash purchase was made before he could get his money. He was the only one in the party who did not enjoy the situation. He remarked, gloomily, that he never had much use for cash registers, anyway.

THE REVIEW OF REVIEWS
AN INTERNATIONAL MAGAZINE
Monthly Illustrated
Edited by ALBERT SHAW

"If only one magazine can be taken, we would suggest the REVIEW OF REVIEWS, as covering more ground than any other magazine."—Board of Library Commissioners of New Hampshire, 1896.

THIS magazine is, in its contributed and departmental features, what its readers, who include the most noted names of the English-speaking world, are pleased to call "absolutely up to date," "thoroughly abreast of the times," "invaluable," and "indispensable." It is profusely illustrated . . . timely portraits, views, and cartoons . . . original articles are of immediate interest, by the best authorities on their respective subjects. The Editor's "Progress of the World" gives a clear, rightly proportioned view of the history of the human race during the current month. The "Leading Articles of the Month" present the important parts of the best magazine articles that have been written in every part of the world. The newest and most important books are carefully reviewed. Indexes, chronological records, and other departments complete the certainty that the reader of the Review of Reviews will miss nothing of great significance that is said or written or done . . .

Edith Ray is home from Toledo for a few days this week.

Michael St. George is very sick. His recovery is doubtful.

Myron Ray was a Toledo visitor last Friday and Saturday.

George Packard, of Dundee, was calling on friends here last Sunday.

Quite a number attended the boxing contest at Milan Saturday night.

Rosa Logan visited her uncle's family at Lake Ridge Saturday and Sunday.

Fred Auton and wife visited friends at Auburndale the first of the week.

James Kinch, of Britton, is spending a few days with friends here this week.

Baukman Auton returned to Ashley last Saturday, after a few weeks' stay with friends in this vicinity.

Consumption is the natural result of a neglected cold. Dr. Wood's Norway Pine Syrup cures coughs, bronchitis, asthma, and lung troubles of all sorts down to the very borderland of consumption.

HE QUITS.

Grand Recorder Wilson, of the A. O. U. W., Tenders His Resignation.

Detroit, Dec. 17.—The announcement, first made Wednesday afternoon, of the resignation of W. Warne Wilson, for more than a dozen years recorder of the grand lodge of Michigan, Ancient Order of United Workmen, caused something of a sensation in fraternal circles, and especially among the members of the order, of whom there are several thousands in this city, and some 23,000 in the state. The letter of resignation, addressed to Grand Master Workman Theodore E. Bissell, of West Bay City, was laid before the trustees of the grand lodge at their meeting in this city Tuesday. It was first laid on the table and a strenuous but vain effort made to induce Mr. Wilson to withdraw it. It was then accepted, to take effect December 31, and George Latcham becomes grand recorder temporarily.

He has been an urgent advocate of the abolition of the level-rate insurance system in the order, and the substitution therefor of a rate of monthly assessment based on the ages of members. Each member pays one dollar on each assessment for deaths, no matter whether he is 25 or 60 years old. This system, Mr. Wilson held to be unsound, and because the Michigan grand lodge has, so far, refused to change it, he resigned his $2,500 a year position.

Mr. Wilson will become supreme commander of the Columbian league, a fraternal insurance society at the preliminary organization of which he presided October 12 last, and which is expected to open up for business January 1.

COL. ALDRICH HONORED.

Banquet Given Him on Retiring from His Editorial Position.

Grand Rapids, Dec. 18.—The Hesperus club, of this city, gave a banquet at the Morton house Thursday night, as a compliment to Col. M. A. Aldrich, who recently retired from the managing editor's chair of the Democrat, after filling the position for nearly six years. Nearly 100 members and guests were present, the latter including gentlemen from Detroit and other Michigan cities. The banquet was followed by a programme of toasts, with responses, with General Manager Shelby, of the Grand Rapids & Indiana railroad, as toastmaster. Ex-Congressman Cutcheon spoke of "Our Club," William M. Hathaway for the "Newspaper Men," F. O. Paige, of Detroit, for the "Insurance Men," and ex-Judge Champlin, of the Michigan supreme court, paid an eloquent tribute to the guest of honor. A letter of regret was read from President Angell, of the Michigan university, who was formerly associated with Col. Aldrich in newspaper work in the east.

Will Soon Start Up.

Ishpeming, Dec. 17.—Superintendent Davidson, of the Commonwealth Iron company, and F. B. Miller, representing Cleveland capital, finished their inspection of the Bessie mine at Humboldt, and the sale, pending for a month, will be closed. Davidson and Miller have put five men to work keeping water out of the workings and announced that mining operations would be resumed after the first of the year with 200 men. The Bessie has been idle three years.

Gets a Young Wife.

Niles, Dec. 19.—George H. Pregner, a wealthy farmer, living near Three Oaks, advertised for a wife in a Chicago matrimonial journal. He agreed to give the young woman who would become his wife a 200-acre farm and $5,000 in cash. Friday morning Pregner was united in marriage to Miss Edith Van Horn of Kindred, Minn. Miss Van Horn is 21 years of age, while Pregner is hale and hearty at 72, and has the record of having divorced three wives.

Strangled Herself.

Detroit, Dec. 17.—Rosa Manick, aged 29, a domestic formerly employed by S. Dow Elwood, committed suicide at the home of a friend with whom she was living. The girl's body was found crowded into a corner behind a door with a piece of clothes line about her neck. She had fastened the rope on the hinge of the door and deliberately strangled herself. Despondency brought on by lack of work brought on the deed.

Shows Ninety Per Cent Pure Ore.

Lansing, Dec. 19.—Specimens of the iron ore which was found near Pokagon and sent away for examination have been returned with the information that the quartz contains 90 per cent. pure ore. It is believed a vein exists in this vicinity where the specimens were found, and in consequence farm land near by has increased considerably in value.

Council Declares a Boycott.

Muskegon, Dec. 18.—The city council adopted a resolution boycotting those fighting what are known as 1894 taxes, litigation of which is now pending. The resolution recites that such persons are not entitled to the usual city benefits and protection, and must not be patronized by city purchasing agents.

Want the Dingley Bill Passed.

Washington, D. C., Dec. 17.—Senater Burrows, of Michigan, laid before the senate Tuesday a petition from citizens of Kalamazoo, St. Johns and Coldwater, Mich., asking for the passage of the Dingley tariff bill.

Old Citizen Gone.

Grass Lake, Dec. 17.—Hiram Fisk, aged 92, died at his home in Francisco, four miles east of this place, of paralysis. He has been a landmark in this locality, having located here in 1832.

Caused by Slow Collections.

Saginaw, Dec. 17.—C. M. Norris, for 30 years leading music dealer in this city, filed chattel mortgages for $4,480. Slow collections.

His Wife Was Dead.

Fowlerville, Dec. 17.—Henry Yeat attended a Grand Army meeting. On his return home he found his wife lying across the bed dead. Heart disease.

FARM & GARDEN

NEBRASKA WINDMILL.

HOMEMADE WINDMILL.

driven to a depth of 15 to 25 feet, where we get an endless supply of water. Windmills may be turned on and run the year around, and never affect the water supply. A great many in this part of the country use homemade windmills, of which I send a drawing. An old buggy axle is used for the shaft, which is set in bores in the top of the tower, which is a square box. Our prevailing winds are north and south, so the mill is set free to face that way. It will run with any wind except a direct side wind. The cost of such a mill is about six dollars. By using large tanks or reservoirs, water may be obtained for irrigating small areas at very little outlay of money, by using this device.—Cor. Iowa Farm Review.

THE COLOR OF CORN.

Breeding Varieties Adapted to Them.

Upon the much-discussed question of whether there is a material difference in the feeding value of yellow and white corn, Prof. C. H. Monrow writes the Metropolitan and Iowa Homestead as follows: "Experiments upon the value of corn. There are minor differences in the composition of different varieties and considerable differences in the structure of the kernels as to hardness. In my observation, yellow varieties are more frequently hard than white ones, but some of the white varieties have very hard kernels. While I can give no reason for the fact, it is true that of hundreds of varieties tested at different experiment stations the average yield of the white has been somewhat larger than that of the yellow. Probably a majority of the farmers believe that the white varieties have not as much value as the yellow. I have often heard the expression that the yellow corn is more fattening." My own view is that neither yield nor composition depends on the color of the kernels, that some varieties are much better in yield and slightly better in quality of one color, and some of the other."

FACTS FOR FARMERS.

Unless a careful selection of corn is made each year, it will tend to "run out."

A poor farm can be taught much cheaper than a rich one, and by proper rotation the poor farm can soon "be made rich."

There should be regular hours for work on the farm. The many farmers break down their health by exposure and overwork.

A hedge plants some eminent agriculturist thoughts why pumpkins and watermelons should always grow crooked with the stem

Farmers cannot afford to experiment enough on a small scale. [illegible] of the experiments stations is necessary, extend to experiments.

Shall machinery that becomes clogged with dirt on the bearings, and the stretch, says a writer, be plunged in lubricating oil and left to stand [illegible] immediately. Afterwards wipe dry.

A FATAL FOUNDA

Sunday Evening Services Near Manchester, Ohio.

Church Crowded, Many Seats Broken and Floor Gives Way—Fifteen Persons Killed and Two Injured.

Manchester, Ohio, Dec. 28.—One of the most disastrous storms in the history of southern Ohio suppressed in miles south of here occurred Sunday evening at 7:45 o'clock. In which fifteen persons were killed outright and two others injured, one of whom will die. The ill-fated train was a Louisville & Nashville train which left here at 5:30 p. m. for Rockford, a distance of 40 miles. The train left here at 6:30 p. m. in charge of Conductor Frank White and Engineer [illegible]. Just before the entire train, made up of an engine, baggage and two passenger coaches, crashed through a bridge 700 feet long and 120 feet high into the Dakota river.

Wreck Takes Fire.

It is the belief that the wreck was caused by fiends for the purpose of robbery. A mail had been removed from the train, and when the engine struck this 600 feet of the bridge gave way and went down with the train. Immediately the wreck took fire, the water being only about three feet deep, and before sufficient help could be secured the unfortunate passengers and trainmen who were pinioned under the debris were burned to death in sight of other unfortunate victims of the disaster. Some of the passengers not so badly hurt managed to crawl out and do all they could in assisting the others, but with little avail. The dead are:

The Victims.

Frank White, engineer, of Birmingham; George Carney, fireman, of Birmingham; J. P. Connell, conductor, of Birmingham; Tom Streeter, colored porter, of Birmingham; Jordan Powell, wife and eight children, of Bloxton; Mrs. Henry Hanberry and two children, of Birmingham; James Bottle, express messenger, of Guthrie, Ky.; L. W. Martin, of Brookwood; Bruce Phillips, of Bloxton; S. W. Tibbs and wife, of Campbellsburg; Andrew Bryson, of Bloxton; George Glendall, Helena; four others unidentified.

The injured are: Ed Echols, slightly; Henry Hanberry, the brakeman; Powell child, feet badly burned; Mrs. Walker, of Bloxton, internally, will die; Mrs. Walker's three children, slightly; Miss Bigsby, Bloxton, internally, will die; Stan Stewart, arm broken.

Relief Promptly Sent.

As soon as the news was received here here the Louisville & Nashville and Southern railways sent out relief trains loaded with physicians and others, and everything possible was done for those who had been fortunate enough to get away from the reach of the flames which quickly consumed all of the coaches and a part of the bridge. Many of the dead were charred completely beyond recognition. The exact number who perished will never be known, but it is believed it will reach 35. The train contained men, women and children living at the mines who had gone to Birmingham to spend Christmas and were returning home.

Robbed Dead and Wounded.

Dr. Huy, a Bloxton physician, who attended Gardner, one of the survivors, telegraphs the statement made by Gardner as to the cause of the wreck. Gardner says when he felt the cars leave the track he looked out and saw three savage-looking men rushing from a hiding place down toward the water's edge, and that after the wreck they went through the wreckage, robbing the dead and wounded, and then fled to the woods. They did their work quickly, and offered no assistance whatever in the way of rescuing the imprisoned and injured passengers. This story, however, has not yet been corroborated, but other facts tend to show that it was the work of train wreckers.

Jealousy Cost Two Lives.

Huron, S. D., Dec. 30.—Edward Rosa, who made his home with his brother, Cale Rosa, a ranchman near Forest City, shot and killed his sweetheart, Miss Mary Brehl, at the home of her sister, Mrs. Stewart, in Forest City. After killing the girl Rosa blew out his own brains. They had been to a dance Christmas. Rosa believed he was not given proper attention by the girl.

Mrs. Beecher Breaks Her Hip.

New Haven, Conn., Dec. 29.—At Stamford, Conn., Mrs. Henry Ward Beecher, who had been recovering from her recent accident, was seized with a fit of dizziness when rising from her bed and fell to the floor, breaking her hip. She may be forced to use crutches for the rest of her life. She is 84 years old.

Death of Gen. Read.

Albany, N. Y., Dec. 28. — Gen. John Meredith Read, of this city, the well-known diplomatist, died in Paris, aged 69 years. He was the first United States consul general for France and Algeria in 1869-73, and in November, 1873, was appointed United States minister resident in Greece.

Razor Cuts Her Throat.

Columbus, O., Dec. 29.—A special to the Press from Delaware, O., says Lulu Stults, aged 20, in a fit of anger after reproof from her parents cut her throat from ear to ear with a razor, dying instantly. Her parents are wealthy.

Spanish Steamer Lost.

Santander, Dec. 30. — The Spanish steamer Carranza, Capt. Martinez, has foundered in the Bay of Biscay off this port. She carried a crew of 29 men, 26 of whom were drowned and two succeeded in saving themselves.

HOLMES GETS A NEW TRIAL

Supreme Court Reverses Decision of Lower Court.

Holmes Was Convicted of Murder in the First Degree and Sentenced to Imprisonment for Life.

Lansing, Dec. 29.—The supreme court has reversed the decision of the lower court in the case of Holmes, convicted of murder in the first degree and now serving a life sentence at Jackson prison, and granted a new trial by the appellate court. This is one of the most notable murder cases ever tried in Michigan. The prisoner was a young man of some respectability, though of dissipated habits. He was skilled in figures, and for some time had been in the employ of Melgrave, Allen & Johnson, grand rapids, as bookkeeper and collector. While in this position he became involved in a quarrel with one Johnson, a grand Rapids. One day Johnson put his cold hands down the neck of Holmes. The latter exasperated struck him. A quarrel in which Holmes was badly punished, ensued. He went upstairs, procured his revolver and shot Johnson on the spot. The fatal shot [illegible] Holmes was convicted and found guilty of murder in the first degree or sequel, a defense of temporary insanity having been made. The supreme court holds that this was error, as there was a question whether Holmes might not have been guilty of manslaughter.

SLAIN BY ROBBERS.

An Aged Michigan Farmer Murdered in His Home.

Millington, Dec. 25.—James Brown, aged 80, a farmer living two miles west of this place, was fatally shot by robbers Wednesday night. At eight o'clock Mr. Brown was called to the door by two men. They asked for a drink of water and followed the old man into the house and began quarreling with him, one of them finally shooting him in the left side. Brown was then bound and chloroformed. The house was ransacked, but no money found. A son who reached the house before the robbers left was fired at and then the desperadoes made their escape. Mr. Brown died Thursday afternoon from his wounds.

PARDONED.

Gov. Rich Makes Christmas Merry for Two Convicts.

Lansing, Dec. 26. — Two young men were released from Jackson prison Christmas morning through the exercise of executive clemency on the part of Gov. Rich. They are Norville J. Hawkins, of Detroit, and Eugene Kirby, of Marshall, both of whom were guilty of embezzlement. Hawkins was an employe of the Standard Oil company and embezzled about $3,500. He was sentenced in 1895 to three years' imprisonment. Young Kirby was connected with a bank at Marshall. He speculated in wheat options and borrowed the money from the bank's funds. He was sentenced in 1892 to ten years' imprisonment.

FREE TELEPHONE SERVICE.

Bell Company, at Ishpeming, Bids for New Subscribers.

Ishpeming, Dec. 30.—The Bell Telephone company, which formerly had a list of nearly 500 subscribers in Ishpeming and Negaunee, has now only 93, while the new company—the Citizens'—has 600 subscribers in the two towns. The usefulness of the Bell was so impaired that the rest of the subscribers threatened to quit. Tuesday the Bell company published a notice that it would give new subscribers in the two towns free telephone service for one year, from January 1, and charge nothing for putting telephones in houses and stores.

Fire in Detroit.

Detroit, Dec. 27.—Fire Saturday night in the retail hardware store of D. S. Phelps, 174 Woodward avenue, did damage estimated at $10,000. The stock was insured for $25,000. McAuley Brothers' book store, adjoining, was damaged several thousand dollars by smoke and water. The Muir Rahaul company, 176 Woodward avenue, also sustained considerable loss to the stock of laces and ladies' fine wear by smoke and water. In both instances insurance will cover the damage.

Surety Law Constitutional.

Lansing, Dec. 29.—The supreme court on Monday held constitutional the act of the last legislature permitting corporations to become sureties on bonds required by the laws of Michigan and directed that the bond of State Treasurer-elect Steel, with the Fidelity and Deposit company of Baltimore as surety, be approved.

Sues Her Husband's Alleged Charmer.

Bay City, Dec. 30.—Mrs. Harriet Fehrenbach has begun an attachment suit against Mrs. Naomi Warner, of Chicago, formerly of this city, for $5,000 damages. She charges Mrs. Warner with having alienated the affections of her husband. Fehrenbach was a contractor in Bay City. Deserting his family he went to Chicago.

Destitution Prevails.

Petoskey, Dec. 28.—Severe destitution prevails in the country and small villages of this county. School authorities cannot collect or borrow money and teachers can get no pay but district orders, and these are not accepted in the cities as of any value.

What Mean Promotion.

Ishpeming, Dec. 28.—A strong delegation of the leading grocers and manufacturers of Lake Superior iron mines will go to Washington to present arguments for an increase of duty on iron ore at the hearing before the ways and means committee January 6.

Will be presented to the [illegible]

Governor Pingree has [illegible] of $25 to the university [illegible] shall point out the [illegible] dead or impossible, [illegible] gan statutes.

The Portland Manufacturing [illegible] pany paid a 50 per cent dividend [illegible] August, and stockholders are to get another 25 per cent. January 5. The company makes washing machines.

SAD OUTLOOK.

Michigan Railroads Must Have Money Reductions or Abandon Tracks.

Lansing, Dec. 26.—Railroad Commissioner Billings says that he took into account all passes, mileage and excursion tickets, when he figured on the average passenger charge per mile on Michigan railroads at 2.39 cents. Speaking of the fact that New York railways are taxed on an average of $676.87 per mile and railroads in this state only $97.25, Mr. Billings says that Michigan railroads only earn $3,901.81, but those of New York $13,196.40. "I am in favor of the railroads paying their just share of the taxes," said Mr. Billings, "but I predict that, unless business picks up wonderfully, at least 1,000 miles of railroad tracks will be abandoned next year."

FAVORS STOCKHOLDERS.

Supreme Court Reverses an Important Decision.

Grand Rapids, Dec. 28.—The decision of the supreme court in the case of the Staver & Abbott Manufacturing company, of Chicago, against Mrs. Catherine Blake and others, defining limited partnerships and holding the defendants, as limited copartners, not responsible for the debts of the concern, has a direct bearing on the cases against the stockholders in the Michigan Mortgage company, which failed a few years ago with liabilities of several hundred thousand dollars. The decision relieves the stockholders of further responsibility than their stockholding.

A Woman Missing.

Saginaw, Dec. 29.—Much excitement is occasioned here at the mysterious disappearance of Miss Anna Danner, of Buffalo, N. Y. She had recently returned from Europe with Mrs. Ines Hanley, whom she had accompanied as a companion and guardian and in whose service she has been for nine years. Miss Danner left the home of Alfred Newton, at 11 o'clock Thursday morning, since which time nothing has been heard of her. Her mother and friends at Buffalo are frantic over the news of her disappearance. Miss Danner is about 35 years old.

Most Part of the Town Burned.

Portland, Dec. 25.—Fire Thursday morning destroyed a large part of the business portion of Eagle, a village on the Detroit, Lansing & Northern road in the southwest corner of Clinton county. The fire started in McCrumb's hardware store and spread to several adjoining buildings, which included Eddy Brothers' store, general merchandise, the Bell telephone and the Western Union offices. Loss on McCrumb's store, $2,000. The total loss is estimated at $10,000.

A New Counterfeit.

Washington, D. C., Dec. 28. — Chief Hazen, of the secret service, has issued a circular warning against a new counterfeit ten-dollar national bank note on the Union national bank of Detroit, Mich. The note is the product of the same hand that produced the [illegible] counterfeit on the National Bank of Commerce of New York. One distinguishing feature is that the back of the note is upside down.

Vote to Issue Bonds.

Niles, Dec. 28.—By voting on [illegible] to bond the city for $30,000 the citizens of Niles solved the important financial problem. The vote was 314 to 2[illegible] many weeks a defeat has been [illegible] the city officials there not [illegible] enough money to pay running expenses. It is believed the $30,000 issue of bonds will get rid of all complications.

Lumber Cargo Burned.

Chicago, Dec. 28.—Piers are [illegible] about 90 to 95 men [illegible] Calumet river. Ore, [illegible] Saginaw river, [illegible] another fresh fire [illegible] is said that 60 [illegible] put in the lower [illegible] a few years ago the [illegible] with lumber.

ROYAL

BAKING POWDER

Absolutely Pure.

Celebrated for its great leavening strength and healthfulness. Assures the food against alum and all forms of adulteration common to the cheap brands.

ROYAL BAKING POWDER CO., NEW YORK.

Clinton Column.

Roy Wood was home from Detroit to spend Christmas.

M. A. Freeman, of Manchester, was in town Saturday.

Peter Kishpaugh went to Dundee Tuesday for a two days' visit.

Mrs. Thomas Kirk is quite ill at the home of her sister, near Iron Creek.

Miss Lina Jones visited her parents in Manchester, between trains Tuesday.

H. G Shetrell visited his parents at Battle Creek from Friday until Monday.

Miss Mamie Mingus has been visiting friends at Manchester since last Thursday.

Prof. F. E. Wilcox has been spending his vacation with his parents at Addison.

Ralph Kishpaugh has been spending Christmas week with his parents at Britton.

W. W. Hess arrived home from Tennessee Thursday of last week for a few days' visit.

Miss Lizzie Brewster presented her sister Celia with a Hummer bicycle for a Christmas gift.

Mrs. M. B. Haywood and son Waite came over from Ann Arbor Tuesday to visit for a few days.

Mrs. F. L. Woodward and Donna, of Hudson, have been visiting Clinton friends since Saturday.

Miss Jennie Goodrich, of Deerfield, has been the guest of Mrs. W. H. Katnea since last Thursday.

E. W. Shoemaker, of Chicago, has been visiting his wife at E. Van De-Mark's for the past few days.

Mrs. Robert Bauer and daughter Zoe, of Hudson, have been visiting Clinton friends for the past few days.

Miss Eva Shinman, who had been visiting her sister at Jonesville since Friday last, returned home Monday.

The remains of Mrs. Miller, mother of J. E. Woodward, will be brought here from Jackson Thursday afternoon for burial.

The home of Rev. W. C. Stevenson was made happy Saturday morning by the advent of a little daughter. Weight ten pounds.

James Priest and wife, of Toledo, have been visiting his mother and sister since last Thursday and expect to remain until after New Year's.

Mrs. Susie Moore returned to her home at Palmyra Wednesday, after a three weeks' visit with her parents, Mr. and Willoughby Nase.

Frank Hogan arrived from Chicago just in time to eat Christmas dinner at his old home, and started on his return Sunday, driving to Adrian to take the train.

Little Clyde, the seven year old son of Robert Redick, died Tuesday morning, after a short illness of typhoid fever. The funeral will be held Thursday at 1:30 p. m., at the M. E church.

Charles H. Fisk and family came over from Detroit last Thursday night to spend Christmas. Charles returned home Saturday but his wife and daughter will remain until after New Year's.

At the meeting of the Col A. T. Bliss tent, K. O. T. M., Monday evening, the following officers were elected for the ensuing year:—

Com.—Edwin R. Vest.

It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Baker & Hall druggists.

The best remedy for an orange rust on raspberries is to dig out every affected cane and burn it.

Physicians recommend Dr. Wood's Norway Pine Syrup because of its prompt, positive action in all cases of lung trouble. It is a positively reliable cure for coughs and colds.

WHERE NOAH GOT HIS PITCH.

Natural Spring Which Enabled Him to Make the Ark Water Tight.

An English explorer has recently reached Hit, in Syria, the locality in which Noah dwelt. Here he found a remarkable group of bitumen springs, says the New York Journal.

From these springs, he says, it is probable that Noah obtained his supply of material to "pitch it within and without." In a basin, undoubtedly of volcanic origin, a spring of warm water bubbles up, and with the water comes the bitumen or pitch, in a plastic form, of the consistency of rather moist putty; and the Arabs gather it by simply scraping it off the surface of the water with their bare hands and pressing it into panniers carried by patient little donkeys, who then struggle up the rocky sides of the basin and take the material off to the boat-building yards, where it is used for covering the boats and gouphas, after undergoing a certain refining process.

The bitumen is continually rising, but owing to the formation of the basin into which it rises with the stream very little of it can escape, and it remains floating on the surface of the water till taken off by the Arabs. The water itself tastes slightly of sulphur, is quite warm and apparently charged with some mineral which it deposits in its rocky bed as it flows away (through channels and crevices which the bitumen cannot pass) from the basin, coating it with a lovely lilac color, which further down the stream becomes a "peacock" blue.

MAGNANIMOUS WILLIAM.

He Did Not Take Revenge for an Insult.

Louis XII. was of the opinion that it was unworthy of the king of France to revenge himself for the insults he suffered as prince royal. Emperor William of Germany is of like opinion, says the New York T[illegible].

Baron de Krosik, who has just been appointed a grand cross of the Red Eagle order, was formerly colonel of the hussar regiment in which the emperor as a youth first did military service. One night at mess, toward the close of a banquet at which the young prince, then a mere captain, had invited his friend, Archduke Rudolph, the conversation turned to the projected reforms in the cavalry.

William declared himself a partisan of these reforms and defended his opinion with so much impetuosity that Col. von Krosik, very much excited, suddenly interrupted him. "It is an absurdity," said he in a loud voice and contemptuous tone as he ridiculed the idea put forth by the prince.

"It is well," replied the prince. "Today you are my superior officer, and I must bow before you, but our positions may change."

When his former subordinate ascended the throne Baron von Krosik fully expected to see his name put on the retired list. But the emperior appointed him a general, gave him the important directorship of the School of Cavalry, of Hanover, and has ever treated him with the greatest respect.

DISTRIBUTING NATURAL GAS.

Sent Long Distances Through Pipes by Means of Air Pressure.

The transmission or conveyance of gas under pressure to long distances, which was an unsolved problem some 20 years ago, is now a fixed fact, represented by the present use of about 75,000,000 feet of pipe used in the distribution of natural gas. On the first discovery of this article, says the Philadelphia Bulletin, the pressure at the well was sufficient to drive it through the pipes almost as far as desired, but this pressure declining some additional methods were necessitated, the well-known air compressor being resorted to to pump the gas; and, as showing its efficiency, there are at Greenland, in Indiana, gas wells which have long carried supplies to Chicago. There are two eight-inch pipe lines used, the gas being pumped a distance of about 160 miles. There is at Redky, Ind., a pumping station of this character that supplies the towns of Springfield, Tiffin, Liman, Dayton, Piqua and other places in the western part of Ohio. Near Pittsburgh there is a gas plant which pumps 20,000,000 cubic feet every 24 hours for use in mills, the pumping of this being without the least difficulty; and the Philadelphia company pumps many millions of cubic feet a day. There are New England air compressors that are pumping every day, at various stations in the United States, the enormous quantity of nearly 100,000,000 cubic feet.

IS ONLY FIVE BLOCKS LONG.

Trolley Line in Chicago Which Operates But One Car.

To the average Chicagoan a trolley line unconsciously suggests great distances. His city is so big. It will surprise many, therefore, to learn that a line actually in operation in the business district, the rolling stock of which runs a trifle less than five blocks.

This line, says the Chronicle, operates on Clark street and simply runs from Washington to Illinois street. Its rolling stock consists of one car, and its operatives include one conductor and one motorman. It is run for the special benefit of South Water street merchants who live on the north side, but is safe to say not one of these men in a thousand know that such is the case. As for the general public not one person in the thousand know of its existence. Incidentally, too, the line is operated to retain the franchise.

"We give transfers to the cable line going north," said the conductor when asked for information, "but we don't transfer to any other cars."

"Have you many passengers each day?"

"Yes; we're crowded," he said, with a laugh. "Sometimes I get one—then again another."

WORTH REMEMBERING.

How to Cut Down Large Trees and Leaning Timber.

In cutting down large trees for sawlogs, or trees that do not stand straight, those that lean badly are sure to split and spoil some of the butt logs. If the farmer will put a good stout cable chain around the body of the tree, as shown

HOW TO CUT DOWN TREES.

in the cut, he will not have any trees split up, as they are sure to do without. At A is the place to put the chain around tree, and hook. Now slip chain down to B, or within four to six inches of row marked C. If chain is not tight, drive in some wooden wedges until it is tight.

I have cut leaning trees in this way without splitting them, where the top of tree was within 30 feet of the ground, 75 feet from the stump. I saw a large white oak tree last winter that was cut for sawlogs, sound as could be, measuring four feet across stump, which was split nearly in center for over 20 feet, and spoiled the two butt sawlogs, or nearly one-half of the lumber in said tree. If I had seen the parties when they were cutting the tree, I could have saved all the lumber in the way above described.—J. T. Smith, in Ohio Farmer.

Returning to San Francisco.

Washington, Dec. 23.—A dispatch to the navy department from San Francisco announced that the cruiser Adams, guardship at Honolulu, had left that port Dec. 12 on being relieved by the Alert and was expected to reach San Francisco about Jan. 1.

Recognized by the President.

Washington, Dec. 23.—The president has finally determined to recognize the new greater republic of Central America and at three o'clock received Minister Rodriguez, who has been in Washington the past three weeks.

CASCARETS stimulate liver kidneys and bowels. Never sicken, weaken or gripe.

The largest tree in the United States is in Tulare County, California. It is 275 fee high and 100 feet in diameter at the base.

A Household Necessity.

Cascarets Candy Cathartic, the most wonderful medical discovery of the age, pleasant and refreshing to the taste, act gently and positively on kidneys, liver and bowels, cleansing the entire system, dispel colds, cure headache, fever, habitual constipation and biliousness. Please buy and try a box of C. C. C. today: 10, 25, 50 cents. Sold and guaranteed to cure by all druggists.

A Warren County (Ind.,) man thinks he has a fortune in a calf that has two heads and no tail.

Mrs. Maggie Myers,

Williamsport, Ind., writes: "I suffered for months of severe stomach troubles, caused by indigestion and constipation. My trouble seemed almost unendurable. I purchased a bottle of Dr. Caldwell's Syrup Pepsin of Armstrong & Swank and as soon as I had taken its contents I was like a new person, and I now feel better and weigh more than I have in years." It is sold in 10c, 50c and $1.00 sizes at Orr & Temple.

Young fruit trees must have good care to grow well.

That Catarrh is a Local Affection

Of the nasal passages, is a fact established by physicians, and this authority should carry more weight than assertions of incompetent parties, that catarrh is a blood affection. Ely's Cream Balm is a local remedy, composed of harmless medicants and free of mercury or any injurious drug. It will cure catarrh. Applied directly to the inflamed membrane, it restores it to its healthy condition.

If the vines or canes are too thick in the rows the fruit will be small and of an inferior quality.

Have You a Cold?

If so, then, instead of taking so much quinine and other strong medicines, take a pleasant and mild stomach and bowel remedy, which will cleanse the system, and you will be surprised how quickly the cold will leave you. Dr. Caldwell's Syrup Pepsin will do this better than any other. Trial size 10c (10 doses 10c), larger sszes 50c and $1, at Orr & Temple's.

Thick planting of trees is as much against production, as is crowding of plants in the garden.

Another Good Man Gone Wrong.

He failed to use Foley's Kidney Cure for his kidney complaint. Orr & Temple.

The latest from Spain is to the effect that they have 10,000,000 sheep and 30,000 shepherd dogs.

No need to fear the approach of croup if you have Dr. Thomas' Eclectric Oil in the house. Never was a case that it wouldn't cure if used at the outset.

Foley's Honey and Tar

Cough Syrup wherever introduced is considered the most pleasant and effective remedy for all throat and lung complaints. It is the only prominent cough medicine that contains no opiates and can safely be given to children. Orr & Temple.

Is there anything worse than the masculine busybody who meddles in your affairs under the guise of friendship?

Don't Tobacco Spit and Smoke Your Life Away.

If you want to quit tobacco using easily and forever, be made well, strong, magnetic, full of new life and vigor, take No-To-Bac, the wonder-worker that makes weak men strong. Many gain ten pounds in ten days. Over 400,000 cured. Buy No-To-Bac from your own druggist, who will guarantee a cure. Booklet and sample mailed free. Ad. Sterling Remedy Co., Chicago or New York.

A toad in the possession of Harry Henderson of Pittsburg, Pa., was found in a snug little hole under 17 feet of hard pan at Tacoma, Wash.

YES, 'tis true; Foley's Honey and Tar is the best Cough Medicine. Orr & Temple.

How much like a prison is the enclosed smoking car, with its seats running lengthwise and its barred windows that add to the gruesome effect.

$100 Reward, $100.

The readers of this paper will be pleased to know that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

F. J. CHENEY & CO., Toledo, O.
Sold by Druggists, 75c. June
Hall's family pills are the best.

Pure blood is the secret of health. Burdock Blood Bitters insures pure blood.

The common pond frog's natural lifetime is 12 to 15 years.

It Grows.

As a cure for constipation and indigestion Dr. Caldwell's Syrup Pepsin grows rapidly in favor where introduced. Children love its taste, for it is so pleasant. Trial size 10c. Regular size 50c and $1 of Orr & Temple.

The common house sparrow flies at the rate of 92 miles per hour.

The camel is a beast of great strength and endurance. Nothing hurts it until the proverbial "last straw" is added to its burden. The human digestive system is very much like a camel. It is really astonishing how much abuse it will stand. Sometimes, however, something worse than usual will be eaten, and will go through the stomach into the bowels, and there it will stick—that's constipation. Nine-tenths of all human sickness is due to constipation. Some of the simplest symptoms are coated tongue and foul breath, dizziness, heartburn, flatulence, sallowness, distress after eating, headaches and lassitude. A little thing will cause constipation, and a little thing will relieve it. Dr. Pierce's Pleasant Pellets are a certain cure for constipation. They are tiny, sugar-coated granules, mild and natural in their action. There is nothing injurious about them. Sold by druggists.

Address with 21 cents in one-cent stamps, to cover cost of mailing only, World's Dispensary Medical Association, Buffalo, N. Y., and get a free copy of the "People's Common Sense Medical Adviser."

THE REVIEW OF REVIEWS

Monthly — International — Illustrated

Edited by ALBERT SHAW

"If only one magazine can be taken, we would suggest the REVIEW OF REVIEWS, as covering more ground than any other magazine."—Board of Library Commissioners of New Hampshire, 1896.

THIS magazine is, in its contributed and departmental features, what its readers, who include the most noted names of the English-speaking world, are pleased to call "absolutely up to date," "thoroughly abreast of the times," "invaluable" and "indispensable." It is profusely illustrated with timely portraits, views, and cartoons. Its original articles are of immediate interest, by the best authorities on their respective subjects. The Editor's "Progress of the World" gives a clear, tightly proportioned view of the history of the human race during the current month. The "Leading Articles of the Month" present the important parts of the best magazine articles that have been written in every part of the world. The newest and most important books are carefully reviewed. Indexes, chronological records, and other departments complete the certainty that the reader of the REVIEW OF REVIEWS will miss nothing of great significance that is said or written or done throughout the world.

Neighborhood News.

BRITTON.

Funeral—Wedding—Birth—Interesting Meetings.

Bert and George Allen were in Toledo Tuesday.

Peter Klshpaugh, of Clinton, visited here last Saturday.

John Britton and son Will made a visit to Detroit Monday.

Chas Zeluff and family spent Christmas with friends in Ypsilanti.

Mike Bachman and wife went to Toledo Saturday for a visit with relatives.

Fred Easterly, of Milan, spent Christmas with Mr. and Mrs. Earl Lenardson.

Bert Gillen, of Tecumseh, visited his aunt, Mrs. Mary Zibble, a portion of the week.

John Bachman came up from Toledo and spent Christmas with Britton relatives.

Mrs. Burt Allen, who for some time has been ill, is, it is thought, convalescing.

Charles DuBois, O. W. Lenardson and Ralph Kishpaugh were Dundee visitors Tuesday.

Did you hear Will Osgood when that load of straw tipped over in his yard Monday?

W. Rappleye, of Ypsilanti, was the guest of Cass Zeluff and family a part of last week.

Mrs. A. W. Curtiss was the guest of Ypsilanti friends from Friday until Wednesday.

Ralph Kishpaugh is spending the week with his parents, Mr. and Mrs. J. Kishpaugh.

A. O. Means, of Lowell, Mich., was the guest of his cousin, A. W. Curtiss Christmas day.

Mr. and Mrs. Wesley Pennington, of Tecon, were guests of W. E. Allen and family, Sunday.

Art Curtiss, after a week's illness, is out and around again. He does not relish being housed up.

Samuel Helm and wife, of Ridgeway, took their Christmas dinner with their son Willis and family.

Walter Exelby received a new tread power for his hay press Monday that is admired by all who see it.

J. L. Kishpaugh has been experiencing serious inconvenience from a severe cold the past two weeks.

Mrs. Rose Heyser and son Will, of Ypsilanti, were the guests of Mrs. E. Lenardson the first of the week.

The suit before Justice Oliver Tuesday, between Edmund Smith and Morton Bragg, was nonsulted on account of defective papers.

Tuesday, December 22nd, there was born to Mr. and Mrs. Eugene Cheever, a fine healthy son. Came near being a Christmas present.

Mrs. Cyrus Pope and son, of St. Johns, Mich., were guests of her brother, H. H. Temple, and family, the latter part of last week and a portion of this.

Rev. C. I. Deyo will have for topics at the Christian church Sunday, morning, "The Great Gospel Fan;" evening, "Wanted—Christians for this World."

Wash Underwood, while baling hay Monday, met with an accident by which two ribs were cracked. Wash says (in your eye) sneezing just now.

All the Kniffin families kept the feast of Christmas at the elegant home of Charles Kniffin and the spacious tables nearly groaned under their load of choice viands. It was a delightful gathering.

Charles Oliver, who has been working for his uncle Edward, at Dwight, Kan., for the past three years, arrived Monday night for a visit with his parents, Mr. and Mrs. Elias Oliver, and other relatives and friends.

It was a complete family that surrounded the table at Lyman Hause's on Christmas day. Will and wife, Irvel and family, and Emma and husband, were present from Clinton. The day was one of solid enjoyment to all.

The meetings at the Reformed church are having a large attendance and growing in interest. Mr. Ferwerder, the singing evangelist, has a very pleasing voice and conducts his part of the services in a satisfactory manner. They will continue through next week.

The funeral of Mrs. Thomas Butler was held at the Reformed church Tuesday at 11 a. m. There was a large attendance of neighbors and friends. Rev. Wm. Humphrey, of Palmyra, conducted the services. The remains were laid in the cemetery at Ridgeway.

Dr. P. B. Hardy arrived from Youngstown, Ohio, Tuesday morning, for a few days' stay, in which he hopes to settle all accounts. The doctor is well pleased with his new home. He has two offices fitted up in the center of the business part of that thriving city and expects to open them January 1st.

Wednesday, Dec. 23rd, at high noon, at the pleasant home of Mr. and Mrs. William Underwood, in the presence of a large number of relatives and intimate friends, their daughter Viola was married to Frank Zeluff by Rev. James Wright. The young couple are among the most popular of this community and the good wishes of their friends can avail anything, their wedded life will be an extremely happy one.

At the caucus held at Exelby hall Tuesday, the following ticket was placed in nomination for village officers:—
Pres.—C. B. Exelby.
Clerk—Samuel Knittle.
Treas.—James DuBois.
Assessor—William Britton.
Trustees—W. J. Clark, John Britton, James Haight, Charles DuBois, Wm. Green, F. E. Morrell.

RIDGEWAY.

B. F. DePuy took his Christmas dinner with relatives at Jackson.

Miss Lillian Dersham went to her home at Wellsville Saturday.

Miss Gertrude Marvin will spend her vacation with friends at Azalia and Ypsilanti.

Ray Gould, who has been attending Albion college, is visiting his brother Ed during his vacation.

Mrs. Fred L. Cook, of Lansing, is enjoying the holidays with her parents, Mr. and Mrs. A. J. Sutton.

Mrs. Fred Gorton and son, of Ypsilanti, are spending the holiday vacation with her father, Lester Osgood.

Mrs. A. Smith left for Grand Rapids Wednesday morning of last week to spend Christmas with her daughter.

The W. C. T. U. will hold their regular parlor meeting at the home of Mrs. John Arner on Friday evening of this week.

Reuben Gunn, who has been blind and helpless for several years, died at the home of his daughter, Thursday, aged 80 years.

Owing to the "hard times," the inclement weather and Santa's old age, he was unable to be at Ridgeway this year. Mrs. Goody Santa Claus was on hand, however, although she had to take in the Christmas washings which hung on the line overhead consisting of stockings and pillow slips filled with such delicacies as children enjoy.

Married, at the home of the bride's parents, Mr. and Mrs. James Harrison, on Christmas eve, Miss Ella Harrison and Harry Hindes, Rev. H. Cansfield officiating. Only the near relatives of the contracting parties were present. The newly married couple left for a few days' visit with friends at Union City and will be at home after January 1st.

A drowning man would have little use for a method of rescue which would require days. A dyspeptic doesn't want to bother with a remedy that is going to take weeks to show its beneficial effect. The Mount Lebanon Shakers are offering a product under the name of Shaker Digestive Cordial which yields immediate relief. The very first dose proves beneficial in most cases; and it is owing to their unbounded confidence in it, that they have put 10 cent sample bottles on the market. These can be had through any druggist; and it will repay the afflicted to invest the trifling sum necessary to make a trial.

The Shaker Digestive Cordial relieves by resting the stomach and aiding the digestion of food.

Laxol is the best medicine for children. Doctors recommend it in place of Castor Oil.

FRANKLIN.

Mr. Penning was the guest of his aunt, Mrs A. D. Hunt Saturday.

Miss Babcock was the guest of her sister, Miss Dora Hunt, Saturday.

Mrs. Adelia Whelan was the guest of Mr. and Mrs. E. C. Wisner Saturday.

Mrs. S. N. Munger and Irene Allen are enduring severe attacks of influenza.

Warren Wisner came down from Jackson Christmas, returning in the evening.

Hudson Davenport came home from Vanwert, O., to spend Christmas with his parents.

Louvisa Fisher and W. Ruesink of the Normal, Ypsilanti, are enjoying the Christmas vacation at home.

Mrs. Whelan and Howard, of Tecumseh, and Mr. and Mrs E. C. Wisner ate Christmas dinner with E. J. Whelan and family.

Irene Allen of the Center school and Ella Munger, of the Stone district, have a vacation this week. Both schools reopen Monday.

Cecil Billington, of Cleary's Business College, Ypsilanti, and Carl Wisner, of the U. of M., Ann Arbor, are spending a vacation at home.

In Olden Times

People overlooked the importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently overcome habitual constipation, well-informed people will not buy other laxatives, which act for a time, but finally injure the system.

PENTECOST.

The infant child of Eugene Smith died quite suddenly Sunday morning of pneumonia. The little one had seemed in no danger till shortly before its death.

The absent-minded male who carried our mail in his pocket three or four days before he thought to mail it, is responsible for last week's items being a week behind time.

Pentecost L. A. is considering the advisability of holding a session of the "Sleepy Hollow Country Schule," at no very distant day. "Ye old folks" expect to take leading parts.

Some twenty or thirty young folks surprised Messrs. Fiske and Vanderpool, at their "bachelor's hall" last Monday night, and kept up the music till the "wee sma' hours." It was to celebrate Mr. Fiske's birthday.

The sad news comes from Chicago of the serious illness of Grant Ogden, whose wife was well known to Franklin people as Sylvia Daniels. Also the little daughter of John M. Daniels, of that city, is very sick with pneumonia. Their many friends will anxiously await news from them.

Mr. and Mrs. Arthur Joseph celebrated the fifth anniversary of their marriage Christmas day. A large number of relatives met and enjoyed the pleasant reunion and a sumptuous dinner. Mr. and Mrs. Joseph received many gifts, among them a handsome dining table from the former's parents and sisters.

MACON.

Mrs. Sarah King, of Flint was here on business last week.

Mart Sickly and wife spent Christmas with friends in Blissfield.

Will Fowler and wife, of Saline, called on Macon friends Sunday.

The C. E. society will hold a necktie social at the old church tonight.

Lavern Camburn, who has been quite sick, is able to be around again.

Will Hatch returned to Detroit Monday accompanied by Rolfe Mills.

Lester Collier and family entertained relatives from Adrian Christmas.

Dr. W. S. Horden has been a little under the weather the past week.

Libbie Walp, of Britton, has been visiting her parents the past week.

The school which has been closed during the holidays will begin Monday.

Carl Chambers, of Adrian, called on Macon friends the first of the week.

Several of our young people attended the revival meeting at Britton Sunday evening.

Frank Thomas and family visited Jackson friends from Thursday until Tuesday.

The Ypsilanti and Ann Arbor students are at home enjoying the holiday vacation.

Bertha O'Hara, of Clinton, spent a few days of this week at the home of Joe Sage.

Bolt Savy has gone to Portland for a number of weeks' visit with relatives and friends.

William Osgood and wife have gone to St. John's for an indefinite stay with their son Edmund.

Blanche Mills and John Howell, teachers in the Blissfield schools, have been home the past week.

Mrs. Alice Burns and daughter, of Stanton, and Mrs. Matilda Gray, of Ohio, are visiting at the home of Chas. Collins.

Wm. Miller, of Eaton Rapids, has been visiting his brother, Henry, and other relatives in the vicinity the past week.

Word was received here Saturday that Mr. and Mrs. Ed McKinney, of Tecumseh, formerly of this place, were presented with a 9 pound girl, Christmas.

Miss Kate Ellis, of this place, and George Wilson, of Clinton, were married Wednesday evening, Dec. 23, at the home of the bride's parents, Mr. and Mrs. Clayton Ellis. They left the same evening for Jackson, where they remained over night and then went to Chelsea for a few days' visit with Hiram Lighthall and family, relatives of the bride.

HOLLOWAY.

Dr. and Mrs. Nixon entertained relatives Christmas.

Clarence Ratts, of Mt. Clemens, was in town Christmas.

Mr. French, of Naples, N. Y., is visiting Charles Wildey.

Mary Hanchett is spending the holiday vacation at home.

Miss Howe, of Ann Arbor, visited Jennie Calhoun over Sunday.

E. Islay and family visited his brother Thos. Islay and family Christmas.

Mr. and Mrs. J. C. McIntyre went to Saline the 24th inst, returning the 27th.

James Cox and wife have returned from their extended visit in the North.

George Kelley, of Duluth, is visiting his parents, Mr. and Mrs. A. J. Kelley.

Hattie Herrington went to Coldwater last week Thursday for a month's visit.

Mrs. Anna Hanlon, of Chicago, visited her friend Mrs. James McIntyre over Sunday.

Osgood Hive, No. 285, L. O. T. M. will hold its regular review Saturday afternoon.

L. D. Macham and family spent Christmas at the home of R. Gillespie, near Tecumseh.

The season's clearing sale of winter goods has begun at the rooms of E. H. Fish.

Mr. and Mrs. Edgar Rogers entertained quite a large number of relatives Christmas.

Chas. Benedict and family spent Christmas at the home of her parents, Mr. and Mrs. Bois.

Abbie Ray, of Morenci, was in town last Wednesday evening to attend the Wildey—McIntyre wedding.

The week of prayer will be observed at the Presbyterian church; meetings beginning next Sunday evening.

The district meeting of the Free Methodist church will commence here Thursday, Jan. 7, and continue over Sunday.

On account of illness the lecture to have been given Sunday evening by Rev. W. K. Spencer, was indefinitely postponed.

Mr. and Mrs. A. H. Lewis and daughter, Jennie, are spending a few weeks at the home of her parents, Mr. and Mrs. Crittenden, at Shelbyville.

The public meeting of the grangers, held Tuesday evening of last week, in Maccabee hall, was well attended and a fine literary program was rendered.

Conrad Atwell and family, Mrs. Jas. Lane and daughter, Florence, and the Misses Mary Wallace and Ellen Atwell spent Christmas at H. H. Atwell's, at Palmyra.

Mr. Clayton J. McIntyre and Miss Viola Estelle Wildey were united in marriage Wednesday evening December 23rd, at the residence of the bride's parents, Mr. and Mrs. Charles Wildey, in the presence of a number of friends and relatives, their pastor, Rev. A. J. Stead, performing the ceremony. The young couple have a host of friends who join in wishing them happiness.

A RECENT INTERVIEW

With Dr. Hartman, the Renowned Catarrh Specialist.

A newspaper contributor was lately admitted into the extensive suit of offices which constitute the headquarters of Dr. Hartman, who treats catarrh patients by the thousand. Amid the busy swarm of assistant doctors, clerks, stenographers and book-keepers, Dr. Hartman stopped long enough to say a few words:

"The number of catarrh patients who visit me is large, but the number who are entered on my books as regular patients (but are treated without charge, by correspondence), is very much larger. Hundreds of letters are received and answered free every day. A yet greater multitude take my catarrh remedy, Pe-ru-na, and are cured, of whom I never hear. Some of this latter class write me years after their cure. I never allow a name published except by the written consent of the patient. We make no charge at any time. The medicine only is obtained by each patient at his own drug store. Those desiring to become regular patients have only to send address, duration of disease and treatment previously received, and directions for first month's treatment will be sent at once.

"Over half the people have catarrh in some form or another. And yet probably not a tenth of the people know that their disease is catarrh. To distinguish catarrh of various organs it has been named very differently. One person has dyspepsia; another bronchitis; another Bright's Disease; another liver complaint; another consumption; another female complaint. These people would be very much surprised to hear that they are all suffering with chronic catarrh. But it is so, nevertheless. Each one of these troubles, and a great many more, are simply catarrh—that is, chronic inflammation of the mucuous lining of whichever organ is affected. Any internal remedy that will cure catarrh in one location will cure it in any other location. This is why Pe-ru-na has become so justly famous in the cure of catarrhal diseases. It cures catarrh wherever located. Its cures remain. Pe-ru-na does not palliate; it cures."

A catarrh book is sent free by The Pe-ru-na Drug Manufacturing Company, Columbus, Ohio. This book contains 64 pages of reading matter and instructive illustrations.

The oldest active volcano is Stromboli. History does not go back to the time when Stromboli was not active.

S. F. Fritz, of 677 Sedgwick street, Chicago, says: "I had a severe cough which settled on my lungs. I tried a number of advertised remedies and also placed myself under treatment of several physicians, with no benefit. I was recommended to try Foley's Honey and Tar. With little expectation of getting relief, I purchased a bottle. I had taken but few doses when I felt greatly improved; I was enabled to sleep, spitting of blood ceased, and by the time I had taken the second bottle I was entirely well. It saved my life." Orr & Temple.

Thorough pruning is a prerequisite to successful spraying.

Did You Ever

Try Electric Bitters as a remedy for your troubles? If not, get a bottle now and get relief. This medicine has been found to be peculiarly adapted to the relief and cure of all Female Complaints, exerting a wonderful direct influence in giving strength and tone to the organs. If you have Loss of Appetite, Constipation, Headache, Fainting Spells, or are Nervous, Sleepless, Excitable, Melancholy or troubled with Dizzy Spells, Electric Bitters is the medicine you need. Health and Strength are guaranteed by its use. Fifty cents and $1.00 at Baker & Hall's drug store. 3

Rhubarb, asparagus, strawberries, gooseberries and currants should be in every garden.

There is Nothing so Good.

There is nothing just as good as Dr. King's New Discovery for Consumption, Coughs and Colds, and you need not accept or permit the dealer to sell you some substitute. He will not claim there is anything better, but in order to make more profit, he may claim something else to be just as good. You want Dr. King's New Discovery because you know it to be safe and reliable, and guaranteed to do good or money refunded. For Coughs, Colds, Consumption and for all affections of Throat, Chest and Lungs, there is nothing so good as is Dr. King's New Discovery. Trial bottle free at Baker & Hall's drug store. Regular size 50 cents and $1.00. 3

Improve the farm by setting out good fruit trees and taking care of them.

The only remedy in the world that will at once stop itchiness of the skin in any part of the body, that is absolutely safe and never-failing, is Doan's Ointment. Get it from your dealer.

When crops are grown in the orchard be sure to manure it.

Mr. James Bussard writes from Sharpsburg, Md., as follows: "I had neuralgia in my head and jaws, and could get nothing to relieve me until I tried Lightning Hot Drops, which gave relief inside of thirty minutes, and I have not had it since. It is the best medicine I ever saw to relieve any pain. It will do more than is claimed for it.

Mr. W. R. Shimfessel, of Clay City, Powell Co., Ky., writes: "Lightning Hot Drops is a grand remedy for a bad cold. After taking only one dose before retiring it broke up a bad cold which had annoyed me for several days."

Mr. Samuel Niswanger, of Armington, Ill., writes: "This is to certify that I have used Lightning Cough Drops for the last year. I don't think I would be alive today, only for this medicine. I am in my 87th year. I recommend Lightning Hot Drops to all who have a cough."

GREAT PHENOMENON.

Daily Journey of the Sun Puzzled the Ancients—Many Erroneous Theories.

Strange as it may seem in this day and age, the rising and setting of the sun was the greatest of natural phenomena to the ancient scholars. They were greatly puzzled to know how the same sun which plunged into the ocean at a fabulous distance in the west could reappear the next morning at an equally great distance in the east. And, as Sir Robert Ball points out, a number of remarkable theories were advanced, and every one of them wrong. "The old mythology asserted that after the sun had dipped in the western ocean at sunset (the Iberians and other ancient nations actually imagined that they could hear the hissing of the waters when the glowing globe was plunged therein) he was seized by Vulcan and placed in a golden goblet. This strange craft with its astonishing cargo navigated the ocean by a northerly course, so as to reach the east again in time for sunrise the following morning. Among the more sober physicists of old, as we are told by Aristotle, it was believed that in some manner the sun was conveyed by night across the northern regions, and that darkness was due to lofty mountains, which screened off the sunbeams during the voyage." Another theory was that the sun actually pursued his course below the solid earth during the darkness of night, and philosophers taught the same about the stars that rose and set. These are but samples of many a theory that might be named with regard to the phenomenon of sunrise and sunset.

TEACHERS IN CAMBODIA.

A Spiritual Bond Between Them and Their Pupils.

All children who present themselves at the veat for study are received. It is not ever required that their parents bring them or send them, says Popular Science Monthly. The newcomer chooses his professor, and, if accepted, begins at once to study under his direction, installs himself in his cell or in the school hall, and becomes his servant. If the professor has already too many pupils, he refuses the new pupil and advises him to choose another teacher; sometimes he guides his choice, directing him to a master who has few or no pupils, or takes him to the superior who will select a teacher for him. The choice of a professor is always a grave affair, because it is held in Cambodia, as in all Buddhist and Brahmatic countries, that professor and pupil are bound by strong ties of spiritual affinity, and that the pupil ought to respect his master as he does his father and mother. The law inflicts the same penalty upon an offense of the pupil against his master as an offense by a son against his father and mother and it prescribes that in certain cases the pupil may be heir of his professor when he has cared for him or supported him or served him when studying under his direction; not only a family bond, but a religious bond, too, is established between them, for the professor makes it his business to teach his pupil the course by which he may earn more advantageous reincarnation and reach the Nirvana, and becomes his spiritual guide.

A GRAND TRIUMPH.

Baffled Many Times but Success Comes at Last.

(From the Grand Rapids Press.)

The following incident would be hard to believe if it had not occurred right here in Grand Rapids, and investigation by our representative has placed it beyond the reach of doubt. These are the facts in detail: Mr. J. H. White of No. 23 Hailey Place, has been an instructor in penmanship in different business colleges for the past fourteen years. He says: "Last October I was suddenly taken ill. I consulted a physician, who said the pain was from 'gravel' stones; gradually grew worse the pain was in my back and side. My back swelled up in a great ridge, and I finally grew so bad that I was taken to bed as helpless as a child. I passed blood, and when the pain was at its worst I was like one crazy. The doctor injected morphine to give me relief, but further than that he said he was powerless, and nothing would do me any good but a surgical operation. I believe my flesh was literally cooked in the attempts to relieve my agony, everything was used, mustard plasters, turpentine, hot cloths and all such things. I was in this condition, given up by the doctor, and almost out of my mind with suffering. I commenced taking Doan's Kidney Pills, and really I felt easier in 20 minutes. After about two hours I had a passage of urine, and passed blood and some 'gravel' stones which greatly relieved me. I rapidly improved. I took in all six boxes, and I feel to day entirely well. Mine has been a wonderful case. I feel that I cannot say anything strong enough for Doan's Kidney Pills. My great wish is that they may become well known. They will prove a boon to mankind.

For sale by all dealers, price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, Doan's, and take no other.

VIGOR OF MEN

The Evil Eye.

Savage people, have a superstition that an evil eye may be cast upon a person to bring all sorts of trouble and misfortune. That seems like a pretty foolish notion, but it isn't much worse than some of the notions which civilized people indulge in. One worn out superstition is the belief that if a man inherits weak lungs from his parents he is pretty sure to die of consumption. The actual fact is that if such a man will only take proper care of himself he will really be safer from consumption than a careless person who has no inherited weakness. Carelessness is the real evil eye. Carelessness will develop a tendency to consumption in any body.

The lungs are composed of very delicate, sensitive tissue, even in the healthiest person; that is why they yield so quickly to the attack of tainted blood. If the blood is allowed to get impure and impoverished, and bile-poisoned, the seeds of consumption will spring up in the best kind of a constitution. The real consumption-taint is in the blood.

Hundreds of cases of so-called "hereditary" consumption have been completely and permanently rooted out of the system by Dr. Pierce's Golden Medical Discovery, simply because it gives the blood-making glands power to pour a fresh abundant supply of rich, red, healthy blood into the circulation. This drives out all poisonous and unhealthy germs. It stops the waste of tissue and the formation of morbid deposits; builds up fresh, normal, healthy lung tissue and solid, muscular strength.

In all the weakened debilitated conditions which are the forerunners of consumption, Dr. Pierce's Discovery is the most perfect nutritive and strength-builder. It is assimilated by the weakest stomachs.

TECUMSEH, MICH., JAN. 1, 1897

Happy New Year.

The work of the soliciting committee for the Lima Northern railroad is progressing finely and if Adrian succeeds in raising her share of the money, both Adrian and Tecumseh will get the road. Of course Tecumseh's share of the money has not all been subscribed and our citizens will have to open up their pocket books in the near future for Tecumseh will not be behind.

The HERALD has advocated for some time the establishment of postal savings institutions. Other papers are doing the same thing and it is hoped that the next congress will take up this matter and allow the postoffices to receive the savings of the working people and pay small interest on them. The many failures of large banking institutions in the past few years has frightened people from placing their money where it will earn them anything in the way of interest. Many other nations already have these government banks and in this regard United States is way behind.

The action of the American federation of labor in defeating the resolution by a vote of only 2 to 1, which authorized interference with laws of the United States and with the present jurisdiction of the supreme court of the United States, shows plainly that the laboring men of this country are not in any way anarchistic. The laboring men have just cause for complaint against the money power in more ways than one. For instance, the assessed valuation of the railrords in the state of Minnesota is over seventeen per cent of the taxable property in that state, still the railroads pay only 5 per cent of the taxes. This same statement may be authoratively made of every other state in the union. Not only the railroads but other corporations do not pay their share of the taxes. Another coincidence: The feeling of the laboring of this country is identical with the feeling of the bond purchasers of Europe. The capitalists of Europe who invest their money in American corporations, complain that the corporations of America are without business honor or soul. It is the duty of the next congress to do something to right these wrongs. The question is, will they do it?

LITERARY NOTES.

The first number of Harper's Bazaar for 1897 will contain the initial chapter of a very noteworthy series on "Infancy and Childhood," written from the standpoint of advanced modern ideas by Mrs. Frances Fisher Wood.

* * *

A profusely and beautifully illustrated article on the famous Horse-show held annually in New York City, appears in the January number of Demorest's Magazine. Notable among the illustrations are a full-page and several other spirited drawings by Max F. Klepper. The show, as a social function and as an exhibition of horses, is interestingly described in the text.

* * *

Harper's Weekly for January 2nd will contain the first installment of "Jerome, a Poor Man," by Mary E. Wilkins. This is thought to be the strongest novel she has yet written. Col. George E. Waring, Jr., will write of Street Cleaning in Paris. A striking short story of Spanish-American life, entitled "Guardian to His Majesty" will be contributed by Edgar Mayhew Bacon and illustrated by T. de Thulstrup. There will be two characteristic New-Year's illustrations by Frank V. DuMond and Peter Newell.

* * *

Notable, even among so many excellent features as are presented in the New Year's Ladies' Home Journal, are articles on the Prince of Wales' visit to America, Prince Bismarck, South Pole explorations, Jerome K. Jerome's new short story, and a delightful musical composition. Stephen Fiske graphically recalls the incidents of "When the Prince of Wales was in America:" the balls, receptions, fetes and popular ovations, and the great interest with which all the young Prince's movements were followed, especially by the young women. It is of the "Great Personal Events" series and is strikingly illustrated. In another profusely-pictured article, George W. Smalley the famous correspondent reveals "The Personal Side of Prince Bismarck." He writes of the Iron Chancellor's home life, his wife and children, and shows him to be a man not all of iron. The above is only a beginning of the good things in the January number.

* * *

The January Forum opens with an extremely interesting study of "Pope 'Leo XIII" by the Vicomte E Melchior de Vogue, who traces briefly, but with perfect freedom, the successive developments of this lofty genius, and the corresponding increase in the prestige and moral power of the Papacy throughout the world. The Vicomte de Vogue's frequent visits to the Vatican, and the high esteem in which he is held by the Pope, lend unusual weight to this article. Mr. O. D. Ashley, President of the Wabash Railroad, discusses the tariff question from the point of view of a business man and advocates "middle ground" between the two extremes of policy; and suggests the apointment of a bi-partisan committee to colect evidence on the subject, with a view to reporting such charges as may in its opinion be advantageous to the industrial interests of the country. Dr. J. M. Rice continues his valuable series of articles on The Problem of Elementary Education, with a paper on "The Essentials in Elementary Education." Want of space prevents an extended description of many other papers contained in the January number.

* * *

The January number of the Chautauquan is especially rich in the character of its literary productions. With the French Academy as a nucleus French literature, past and present, is made the subject of five attractive articles, three of which are profusely illustrated.

* * *

The "Progress of the World," in the Review of Reviews for January, 1897, gives an admirable "resume" of the great world events of 1896. Nowhere else can so faithful and impartial a chronicle of these stirring times be found. This illustrated editorial summary in each month's "Review" is everywhere recognized as one of the triumphs of modern journalism. The discussion of the Cuban situation is enlivened by the reproduction of timely Spanish and Spanish-American cartoons.

* * *

Under the title of "What Shall be Done About Cuba?" Mayo W. Hazeltine contributes to the December number of the North American Review an eloquent article pleading for the recognition by the United States of the belligerent rights of the Cuban insurgents. The Cuban revolution, Mr. Hazeltine declares, is justified, if ever a revolution was, and such a recognition would be in strict conformity with the traditional policy of our government.

* * *

Harper's Magazine begins the year with a strong and attractive January number, varied in contents and beautifully illustrated. The opening paper is the third in Poultney Bigelow's series, "The White man in Africa." It is called "Portuguese Progress in South Africa," and contains a strong indictment for official corruption and misgovernment of the blacks. This paper is embellished with illustrations drawn by R Caton Woodville, a striking picture of a war-dance of the Zulus standing as a frontispiece to the number.

* * *

Lippincott's for 1897 will maintain the traits and standards hitherto familiar to its many readers. It will continue to offer in each number, besides a clean and readable complete novel, a large variety of fact and minor fiction, prose and verse, selected, with more reference to matter and style than to origin, from a vast mass of material on all subjects, by writers known and unknown. It will contain no serials to tantalize the mind; each tale, and each issue, is complete.

* * *

In McClure's Magazine for January are reproduced all the known portraits of Benjamin Franklin painted or drawn from life. There are fifteen of them, covering a period of thirty-one years; and they are the only authentic documents whence the present generation may derive any accurate conception of Franklin's features. Presented all together, as they are here, with excellent note, giving the history of each picture, they have an intere and value that cannot be estimated. Mr. Charles Henry Hart, the editor of the series, more than proves his competency, and the groups of life portraits of Washington, Hamilton, and other great Americans that are promised in succeeding numbers of the magazine, will now be awaited eagerly.

* * *

The first of a series on "The Conduct of Great Businesses," appears in the January number of Scribner's magazine, suggested by the fact that the vital points of American business life have been but little touched upon, in spite of the countless papers devoted to the industrial side of the subject. The purpose of the present series is not to deal with statistics or processes of production, but with the part that men's brains play in large business enterprises—the organizing, the originating, and the developing. Americans have a reputation for skill in business, not, it is hoped, as traders merely or money getters, but for large success upon broad and even generous lines.—From "The Conduct of Great Businesses—The Department Store," by Samuel Hopkins Adams, in the January Scribner's.

* * *

The January Arena is the most interesting number that has appeared in many months. It is of special interest to legislative bodies, physicians and lawyers on account of the article on "A Court of Medicine and Surgery, written by A. B. Choate, the prominent lawyer, at the request of leading physicians. Mr. Choate intends to inaugurate a movement which it is believed by some of the ablest lawyers and physicians will be of as vital importance to medicine and surgery as well as to the public as was the movement that resulted in the establishment of trial by jury to the public and to the legal profession. This is the opening shot of a campaign that will be waged from The Arena's pages by leading physicians, surgeons and jurists in the near future and that that will be carried before the legislature in Minnesota and elsewhere this winter.

M. F. STEIN,

Oculist and Optician,

From Detroit, Mich., will be at the Lilley House for a few days,

Beginning January 4th, '97.

All those wishing to consult him can do so free of charge.

Next Thursday evening the ladies of the Baptist church will hold their annual chicken pie supper. The fee will be 20 cents and everybody is invited to attend.

Harris & Hiteshu announce a grand clearing sale to commence at once. Their Sales always mean business and this firm never advertises anything they do not intend to fulfill.

The meeting of the W. F. W. S. for Jan. 6, '97, will be held in room No. 1 of the M. E. church. Meeting to be called at 2:30. All members are earnestly requested to be present.

C. A. Slayton is handling Pocahontas coal. This variety is well nigh smokeless and is especially adapted for domestic use. In these days of high price hard coal, it will certainly prove a bonanza.

The meeting of the Farmer's Social Club at Mr. Bowen's Tuesday evening was the first under the new plan of study. All seemed pleased and considered the roll call one of the best features of the program. The members will tell who their favorite authors are at roll call at the next meeting.

Another leap year party, no doubt the last of the season, was given at the armory Tuesday. The affair was nonetheless enjoyable for being gotten up in a minute, and the ladies are under obligations to Capt. Hayden and members of Co. C for the use of the armory as well as being able to witness a fine exhibition drill.

John Freeman has for many years enjoyed the reputation of being a great hunter but now his efforts have been crowned with success. On Wednesday afternoon crowds of people were attracted to the show window of his store, in which hung the carcass of a huge "Sand Lake Fox." Mr. Freeman did not arrive from the hunting grounds till in the evening, but the "Fox" was sent on ahead by special messenger. With the "Fox" was displayed the following cartoon, executed it is supposed by his order. "J. J. Freeman, leader of the Fur Club, dealers in all kinds of hides, pelts and other fruits."

At a meeting of Court Pottawatamie, No. 1181, I. O. F., held Dec. 29, the following officers were elected for the ensuing year:

C. D. H. C. R.—C. A. Slayton.
P. C. R.—Rev. W. R. Blachford.
C. R.—James Lowry.
V. C. R.—John C. Hazlett.
R. S.—E. L. Teeple.
F. S.—J. C. Mahaney.
Treas.—James Elliott.
Chap.—Robt. Codling.
S. W.—Robt. Russell.
J. W.—Chas. Moyer.
S. B.—T. R. Kyle.
J. B.—Thos. Russell.
Trustees—Rev. W. R. Blachford, and (C. A. Slayton.

R. E. Anderson was home over Christmas.

Tribou LeBaron was up from Toledo over Christmas.

Harry Hanford came home to spend the holiday season.

Martin Zimmerman is in Detroit this week on a business trip.

Fred B. Wood spent Monday in the metropolis of the county.

Hud Davenport made Tecumseh friends a visit over Christmas.

J. M. Jones drove to Blissfield Sunday evening, returning Monday.

Ernest Collier has put in a new desk for his private use that is very fine.

The funniest play on earth at the opera house next week—Peck's Bad Boy.

Gus Cummins, of Chicago, is passing the holiday season with Tecumseh relatives.

Mrs. Robert McClure left Tuesday morning to join her husband at Mendon, Mich.

Miss Rose Wilson, of Ypsilanti has been the guest of James Elliott's family this week.

Miss Mamie Keyser, of Clinton, is visiting her Uncle Robert Codling and family this week.

Miss Anna McClure accompanied her sister, Mrs. Jennie Bangs to Toledo Monday for a visit.

The "wit and wisdom" club will meet Monday evening January 4th with Mr. and Mrs. Fred Rosacrans.

Mrs. Michael Wilson returned Monday from a visit with Mr. W's daughters at Marmill and Bowling Green, Ohio.

John Chamberlain's wife and little daughter came over from Adrian to spend Christmas with him. They returned home Monday afternoon.

Karner Bros., Tecumseh's bustling shoe dealers, are after prices with a sharp knife for the next 30 days. Their "ad" on the fourth page is no larger than the bargains to be found at their store.

Mrs. Sumner Collins, who has been ill, was taken to Macon to the home of Mr. Collins' mother, Sunday. She is reported better to-day, and her many friends are anxious for her speedy recovery.

Last Saturday morning Dr. George Howell assisted by Drs. North, Barnes and Knight removed a tumor of a cancerous nature from Mrs. Elijah King. The patient thus far is doing nicely and no doubt will recover speedily.

You can buy a cape, coat or jacket at Harris & Hiteshu's for less than making cost.

John J. Freeman and James Eccles left Saturday morning for Sand Lake. On a fox chase they were bent, if they don't lay up a cent, and it keeps them till the summer; for they feel the time well spent, if they only catch the scent, and the tale they'll tell 's a hummer.

Mrs. Abbie Fisher received a telegram Monday morning that J. B. Rue, her cousin's husband, died at his home in Battle Creek Sunday night, of pneumonia. Mr. Rue was known to many of our citizens as he frequently visited here. Mrs. Fisher and Mrs. Gertrude Loree left for Battle Creek Tuesday to attend the funeral.

Wednesday evening of this week the Presbyterian Sunday school held its annual election of officers. John T. Boyce was elected superintendent, Dr. Frost having declined to serve another year.

Vice Supt.—P. S. McKinnon.
1st Asst.—Wm. Caldwell.
2nd " —Allie Cutting.
Treas.—Jno. L. Anderson.
Sec.—Joe Smith.
Librarian—H. S. Waring.
1st Asst.—Frank Nyland.
2nd " —Lavern Smith.

The exercises at the Presbyterian church for the Sunday school Christmas eve were of an interesting character and consisted of music by the choir, exercises by the scholars, a tree and distribution of gifts. Two special features of the program were the toy symphony by Miss Mary Anderson's music class of children, which showed careful training on the part of the instructor and skillful execution by the pupils, and Fred Frost's whistling solo with organ accompaniment, both of these were gems and received hearty encores. John T. Boyce personated Santa Claus admirably, appeared on the scene drawn by brownies, the reindeers having been overcome with fatigue. Miss Root presided at the organ faultlessly. At the Baptist church the same evening they had a fine program, carefully prepared and executed in fine style by all who participated. The revolving tree with electric lights was a novelty, which was appreciated by all present. The tree presented a beautiful sight. Each member of the school was bountifully remembered in the distribution of gifts. At the M. E. church the exercises were held Christmas night and consisted of appropriate exercises by the school and a cantata entitled, "Old Time Scene." sung by Gertrude Ford and Bert Day, assisted by a quartette composed of Clarence Jackson, Leon Rosacrans, Metta McKinney and Ella Potter and the school. The scene represented a home with a massive fireplace, children coming home for Christmas, etc. As presented it was very realastic and highly entertaining. At the Friends' church the Christmas exercises were held at the church Sunday. While there was no tree, a fine program had been arranged which was carried out by the little folks in a manner that charmed the older ones, and a generous supply of gifts were distributed. At St. Peter's church there were no special exercises for the Sunday school, but Monday afternoon a choice 5 o'clock tea was given the school at the spacious home of Mr. and Mrs. John Hicks, on Union street, which proved fully as satisfactory to the scholars and did not require the labor necessary to prepare a tree or program.

Additional local on 4th page.

Fisher-Taylor Wedding.

At an early hour Wednesday evening, Dec. 30th, guests to the number of seventy-five gathered at the home of Mr. and Mrs. M. H. Taylor, on Maiden Lane, to witness the marriage of their daughter, Blanche to Mr. Will F. Fisher, of this place. Promptly at 7 o'clock the wedding march was played by Miss Anderson.

The buzz of conversation died away and the guests made room for the wedding party, consisting of Miss Maud Howell, of Macon, and Miss Ida Beebe, followed by the bride and groom elect. The parties took their place under the beautiful evergreen bower, and Rev. B. S. Hudson pronounced the words which made them husband and wife. Music was softly played during the ceremony, after which many congratulations were extended by all present.

A dainty supper was served, after which the evening was spent in happy conversation by all. The presents given were beautiful, numerous and useful. At about 9 o'clock the contracting parties, almost without observation, but not quite, left, they knew where, and others strove to find where, but without success.

Mr. and Mrs. Fisher are well known in the community and have the love, respect and good wishes of all. They are useful members of the Baptist church of this place. They expect to make their future home at the Fisher residence, three and one-half miles north of town, where they will make all their friends welcome.

THE CHRISTMAS PARTY.

A Delightful Affair—The Society Event of 1896.

"The dancers are dancing, and taking (no rest,
And closely their hands together are (press'd;
And soon as the dance has come to a (close,
Another begins and each merrily goes."

Thus the Christmas party last Friday night went on nor did it end till near four o'clock in the morning.

For a number of years, about twelve, it has been the custom for the young gentlemen of Tecumseh to give a Christmas party and each year this party has proven the social event of the season. The custom has prevailed to order anything and everything that would go to make up a nice party, then pay the bills afterward. In running the affair in this way these parties have acquired a reputation for many miles around, and in Toledo, Detroit as well as in our neighboring towns, Tecumseh's Christmas parties are synonyms for fine times.

There was a reason why the '96 Christmas party should be better than usual and this reason was very plain to every young man in Tecumseh. The ladies had given two leap year parties, either one of which would be difficult to excel; in fact the ladies had set a "merry pace" which was hard to pass. Committees were appointed, invitations issued, and now let us tell results.

At eight o'clock, as advertised, Uhl Brothers' full orchestra, of Toledo, commenced a concert of six numbers. The gallery was well filled with those who did not care to dance but loved good music and liked to watch the dancers. The concert was fine and spectators well pleased. At nine the dance commenced, nor did it end till four, and then the only trouble was, the band would play no more; and such a pretty party. Each lady danced

"Her feet beneath her petticoat,
Like little mice stole in and out,
As if she feared the light;
But O, she dances such a way:
No scene upon an Easter day
Is half so fair a sight."

And then the costumes, the gentlemen in full evening dress, the ladies seemed all to have new gowns and the air was filled with perfume from the flowers they wore. The music was grand, and he who ever danced at all could not stop that night. And then the lunch. All in keeping, tasteful, and beautifully served.

The whole arrangement seemed perfect. The decorating committee presented the opera house transformed into a veritable bower, and easy sofas and chairs were everywhere.

The floor committe seemed ever-present to see that all Tecumseh's guests had a good time. The refreshment committee provided a banquet, served accordingly. The music committee secured a concert orchestra. Is it a wonder that the dancers would never quit?

Fifty-three couples were present and among them the following guests from out of town: Mr. and Mrs. Ham and Mr. and Mrs. Livingston, of Jackson; Mr. and Mrs. Young, Miss Mae. Temple and Gus Cummins, of Chicago; Mr. and Mrs. Chas. Clark, Mr. and Mrs. L. W. Kimball and Miss Albertina Johnston, of Clinton; Mr. and Mrs. Harry Kies, of Manchester; Mr. and Mrs. Ed Bliven, Miss Edna Warren and Miss Anna Carpenter, of Blissfield; Mr. Hal Knapp, Miss Margaret Knapp and Sam McClure, of Adrian; Mr. Pratt, of Toledo; Miss Haines and Miss Clute, of Dundee; Lon Haight, of Syracuse, N. Y.; Roy DeWolf, of Detroit; Miss Julia Wood, of Dayton, O.; Miss Winifred Wallin, of Ypsilanti.

Sad News.

Tecumseh, Dec. 29, 1896.

EDITOR HERALD:

Those of our readers who were acquainted with him will be pained to learn that our life-long friend and college-mate, the Hon. Quincy Wood, who was so unfortunately burned out of house and home, at Sauk Rapids, Minn., about a month ago died at his sister's, at Streator, Mich., of the grip, a few days ago.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

AGENTS WANTED For the most valuable contribution to the literature of the world since the production of the Bible. The Great Work of the Great Thinkers, Famous Orators, Renowned Scholars, Wise Writers and INVESTIGATORS of the 19th Century.

In all the range of literature there is not another book like

THE PEOPLE'S BIBLE HISTORY

In this book alone can be found the information sought by every Bible reader, whether old or young, scholarly or unlettered. It is, indeed, a great work.

Recent discoveries in archæology have brought the world of today face to face with the men who lived, and acted, and wrote during the early periods covered by Biblical Historians. These discoveries have resulted in the triumphant vindication of the sacred volume from the charges brought against it by open foes and pretended friends. Every intelligent person will order the book, as the matter contained in it is of vital importance and cannot be found in any other book on earth.

Write for descriptive and beautifully illustrated pamphlet circular. Address

THE HENRY O. SHEPARD CO.
212-214 Monroe St. —CHICAGO.

Scribner's Magazine.

A Red Letter Year for 1897.

The entire novelty of many of the plans for 1897 is noticeable. For instance, the series devoted to

LONDON AS SEEN BY CHARLES DANA GIBSON. Mr. Gibson has not before appeared as a writer. He visited London last summer for SCRIBNER'S MAGAZINE, for the purpose of depicting with pen and pencil those scenes and types which the huge metropolis presents in endless variety.

Of like novelty is the first considerable NOVEL BY RICHARD HARDING DAVIS, Soldiers of Fortune. The hero is one of the most vigorous men that Mr. Davis has drawn. Illustrated by C. D. Gibson.

THE CONDUCT OF GREAT BUSINESSES. A beautifully illustrated series of articles of which the following are already completed:
The Great Department Store.
The Management of a Great Hotel.
The Working of the Bank.
A Great Manufactory.

UNDERGRADUATE LIFE IN AMERICAN COLLEGES. A series of articles touching upon the life of our older universities as represented by the doings of the students themselves.
Judge Henry E. Howland writes on, Undergraduate Life at Yale.
Mr. James Alexander on, Princeton and Robert Grant and Edward S. Martin on, Harvard.

JAPAN AND CHINA SINCE THE WAR, will be a most interesting group of articles richly illustrated.

THE UNQUIET SEX. Under the title of The Unquiet Sex, Mrs. Helen Watterson Moody will write a series of articles:—Woman and Reforms, The College-Bred Woman, Woman's Clubs and The Case of Marta (a paper on domestic service).

W. D. HOWELLS'S STORY OF A PLAY. In this Mr. Howells gives us the best novel he has ever produced in his delightful vein of light comedy.

GEORGE W. CABLE. In addition to the fiction enumerated there will be a series of four short stories by George W. Cable, the only ones he has written for many years.

HOW TO TRAVEL WISELY with a minimum of wear and tear must be regarded as an art little understood. MR. LEWIS NORRIS IDDINGS, in two articles, will offer a variety of useful suggestions and data on OCEAN AND LAND TRAVEL. This will be happily rounded out by an articles from MR. RICHARD HARDING DAVIS on TRAVELLERS ONE MEETS: Their Ways and Methods. The illustrations by American and foreign artists will be highly pertinent.

*** It is impossible in a small space to even mention the many attractive features for 1897. A beautiful illustrated booklet has been prepared which will be sent, postage paid, on request.

NEW YEAR'S RECEPTION.

One Day in the Year When the White House Is Crowded.

Great Multitudes Seek Admission, But Only a Few Thousand Can Enter—The Official Part of the Annual Programme.

[Special Washington Letter.]

"The king is dead. Long live the king."

Not only in royal circles, but in every walk of life we often find that the funeral baked meats do coldly furnish forth the wedding breakfast.

Thus also, it is with time. Tottering away into the niche of history prepared for it, the old year trembles and quavers into the oblivion of memory or forgetfulness. The tolling bells scarce conclude their requiem at midnight, when, with magic touch, they change their tune to peals of joyous gladness because of the birth of the new year.

At the very moment, in the twinkling of an eye, just as the old year is shrouded and coffined, the infant new year is cradled and rocked with the caressing hand of universal mankind while it is fleece-lined with the spotless, beautiful snow of midwinter. "The king is dead. Long live the king." The old year is dead. Long live the new year.

For many generations it has been customary to make New Year's day a holiday for social calls, every friend being expected to remember every friend; but the custom of formally receiving friends on this glad, gay day survives perfectly only in Washington at the present time. This is caused mainly by reason of the fact that the president of the United States holds his first annual public reception on the first day of the calendar year. Nothing more democratic than the New Year's reception at the white house is known even in the democratic United States. On the first day of the year statesmen, diplomats and reverend judges rub elbows with the public, but not with the great unwashed public. A clean face and hands, and a tidy costume, are the only passports required at the gates of the white house grounds.

Business never begins in Washington until nine o'clock in the morning, and the higher public functionaries never make their appearance officially until nearly noon. But on New Year's day things are different. Carriages begin to fly about at an early hour. Men in the uniform of the army or navy are seen hurrying from place to place, many of them awkward in the

CROWDING THE SIDEWALKS.

unfamiliar garments, for uniforms are little worn in Washington, though they are an invariable feature of every story or play which is supposed to illustrate Washington life.

Everybody goes to the white house. Straight is the gate and broad is the way, but few there be which go in thereat, because it is impossible that more than 10,000 people should pass in review before the president; and it is beyond all conceit that the chief magistrate should shake hands with more than 3,000 people inside of three hours.

In the three parlors, the blue, the green and the red, there are thousands of dollars' worth of flowers, ferns and plants of every description. They come from Greenland's icy mountains and from India's coral strand. Every variety of vegetation that is beautiful and desirable is represented here. The hothouses of the agricultural department, the botanical gardens and the conservatories of the executive mansion have been actually looted to make up the floral display and decorations which so enhance the beauty of the executive mansion.

In the great east room, the magnificent apartment which Dolly Madison used to use as a drying room on washdays, the mantels and grates are hidden by a great mass of brilliant foliage and bloom, while the corners are tropical with palms and huge ferns and rubber plants. The curtains in all these rooms are drawn, and the glow from "sunbursts" of electric light illumines the east parlor. In the other parlors the softened radiance of frosted electric bulbs, springing from the tapestried walls, lends brilliance to the spectacle.

At least 15,000 people are out on Pennsylvania avenue, crowding the sidewalks the entire length of the white house front, covering part of the concreted plaza on either side of the cable car tracks, all along the opposite side of the avenue, and extending up and down Fifteenth and Sixteenth streets. These cannot enter, but they can see the gorgeously attired diplomats and officers of the army and navy, and they are satisfied with that brilliant display.

Those who enter the white house lobby can barely discern, beyond the potted plants, the red coats of the Marine band. The celebrated musicians are screened there in the foliage, ready to take part in the reception when the signal is given. As soon as the leader receives the announcement that the president is approaching, Prof. Fanciulli raises his baton, and to the crash of brass and the sound of flute and horn the president comes down the stairway. It is customary for him to bring down the wife of the vice president. Mr. Cleveland has violated the custom on several occasions by bringing down his own wife, and, fortunately, the rule on the subject is less rigid than the rule of precedence, for, whomsoever the president brings downstairs, his own wife stands at his side when he takes his place in the blue parlor.

Behind the president and his wife are the secretary of state and his wife, and then the other members of the cabinet, escorting each other's wives. The husbands lose the order of official precedence on this occasion, but their wives maintain it for them. The wife of the secretary of state must precede the wife of the secretary of the treasury, and the sister of the secretary of agriculture must bring up the rear, or there would be a revolution. Men may forget or overlook certain social amenities, but women, never. They cling to their places of precedence, sometimes with more loyalty and fidelity than they cling to their matrimonial vows.

AT THE RECEPTION.

The president first receives the ambassadors, ministers and attaches of embassies and legations of the foreign governments. Sir Julian Pauncefote, British ambassador, is the dean of the diplomatic corps, and he is the first recognized by the president, who gives him a cordial greeting. The other ambassadors and lessor diplomats follow in order of their rank and standing here, as to length of service at this capital. Sir Julian wears a brilliant military uniform. He carries a gorgeous cocked hat in his hand. Behind him come the other members of the corps attired in the gayest of uniforms or silk robes. The Chinese minister and his attaches keep their little kull caps on their heads, and save when they shake the president's hand they keep their own hands buried in their flowing sleeves of silk. The Japanese are the French of the orient. They are progressive, intelligent, ambitious and effusively polite. The Russian minister, with his giant military attache, always attracts attention. It is a gorgeous sight to witness this diplomatic corps reception. The reception begins at 11 o'clock, but long before that time the supreme court justices have arrived, for they are next in order. Chief Justice Fuller, looking pigmy-like beside the stalwart Harlan or the broad-shouldered Gray, occupies the place of honor. He presents his colleagues to the president, Justice Field in the van, and they pass down the receiving line and into the red parlor and the east parlor beyond it. A few of the diplomats have gone through the parlors, but most of them have slipped behind the receiving line to greet their friends and wish them a happy New Year.

The senate and house follow the members of the supreme court. And here the regularity of the reception is broken, for among so many it is difficult to keep any order of precedence, and senators and members become hopelessly mixed. The vice president or the president pro tempore of the senate makes the introductions of the senators, and the speaker introduces the members of the house. But there are always stragglers, and the members of the house pop up singly and in pairs at intervals all through the remainder of the reception time.

Following the legislative or congressional reception, the uniformed defenders of the nation on land and on sea march into the presence of the commander in chief of the army and navy.

The secretary of war and the secretary of the navy remain by the side of the president during this part of the reception. Secretary Lamont introduces the general commanding the army and his subordinates as they file by in the order of their rank. Secretary Herbert introduces the senior admiral of the navy and his subordinates. Then the officials of the executive departments come forward in their turn. Finally, about one o'clock, the doors are thrown open, and the general public is given admission in double file for an hour. Promptly at two o'clock the doors are closed. Then, although thousands outside are impatiently demanding admittance, the tired president and his tired wife, after having for three hours stood in one place bowing and shaking hands, retire to their living apartments for refreshment and rest.

SMITH D. FRY.

Library for the Blind.

The first free circulating library for the blind in New York city was formally opened recently in St. Agnes' church. It starts with 184 volumes. There are 21,000 blind people in Greater New York, and to meet their literary requirements there has heretofore been only a very small library in Brooklyn. A library for the blind is an expensive institution, for the books are costly.

The World's Sunday Schools.

It has been estimated that the total number of persons attending Sunday schools throughout the world cannot be less than 18,000,000, with about 2,000,000 teachers.

THE ACTOR'S DOUBLE.

We were talking about spirit manifestations at the Thirty-nine club, and retailing the usual second or third hand accounts of deceased ladies and gentlemen showing themselves to their sorrowing relatives.

"It is strange the tricks which our brains will sometimes play us," said Dr. Macpherson. "I remember once seeing a ghost myself, and I can tell you that the sensation is a very curious one. It was a good many years ago, in my examination days, and I had been sitting up until the early hours 'cramming.' Everybody in the house had long since gone to bed, where I ought to have been myself, so I was rather surprised when I glanced up from my book to see somebody sitting at the table where I myself had been a few moments before writing. I felt quite startled for an instant, until I recognized the intruder. He was a little hazy, but I could see plainly enough who it was."

"A dead relative?" asked Maj. Dennett, who was a firm believer in the good old-fashioned ghost.

Macpherson answered in his peculiarly quiet way: "No, it was myself. The experience of seeing one's own ghost is not altogether unusual, I believe."

"Now, I do not think your experience was half so remarkable as one of mine," said Gilbert Dane, the well-known actor and manager of the Howard theater, who happened to be there that night. Dane is not a member of the Thirty-nine, but had come with Macpherson. Most of the brain specialist's friends are in the profession, a fact which is perhaps due to the year which he himself spent on the stage as a young man.

"My story begins prosaically," said the actor, when we begged to hear it. "I lost the latchkey with which I let myself into the theater, and took somebody else's to the locksmith's to have a duplicate made. I agreed to call for it the following morning as I was going up to town for rehearsal. I was living at Putney then, and we were actively preparing a play which deserved a better fate than it received, if thought and preparation go for anything, for I came near making myself ill over it. I was feeling out of sorts on the morning that I called for the latchkey, and when the locksmith swore positively that he had given me the thing already—that less than ten minutes previously I had come in for the key, paid for it, and taken it away with me—I will confess that I lost my temper, and stormed at the fellow; but I could not get him to budge a line from his story. He seemed to have an idea that I was playing a practical joke, and the only result of my talking was that I nearly lost my train to Waterloo. It was moving when I reached the platform, and I had to run for the only compartment of which the door was open, near the end of the train.

"The compartment contained two other passengers, but if I glanced at them at all, I noticed nothing except that each was pretty well hidden behind a daily paper. I had fortunately bought my own paper before calling at the locksmith's, and I speedily followed their example. So far the story is painfully commonplace. Now comes the truly remarkable experience which has stamped the doings of that day indelibly on my memory."

The actor paused to strike a match and relight a cheroot, which he had allowed to go out, and we all watched him in silence, wondering what was coming. Macpherson only had the air of a man who had heard the story before.

"I had become rather interested in my paper," Dane went on, when the cigar was lighted again, "and did not notice my companions talking until one of them started telling an anecdote.

"The story and voice startled me, but it is difficult to describe my feelings when I put down my paper to glance at the narrator."

"It was yourself?" asked Maj. Dennett, excitedly, as the actor paused; and Dane nodded.

"Yes, gentlemen, I saw seated at the other end of the compartment by the window, opposite his companion, a figure that was an exact fac-simile of the reflection which I see in my glass every day when I have dressed for the part of a respectable citizen. It was myself complete in every detail of face and attire."

"An optical delusion, I suppose?" I suggested; and the actor shook his head.

"No; that was the first idea that occurred to me—that I had been working and worrying too much over the new play, and my brain had played me a trick. The unconcerned way in which the third man glanced at me encouraged me in the belief, for the likeness, unless I was imagining it, was enough to attract instant attention. I wondered whether there was actually a man sitting and talking where I had seen and heard my fac-simile; for the third man, an ordinary, everyday individual, had not spoken a word to him, and might from his expression have been listening to his anecdote or simply thinking. I was relieved when he laughed at the point when 'my double,' as I began to call his companion, came to the joke of the story, but when he opened his mouth it was only to increase the mystery of the affair, for it showed me that 'my double' possessed my name, as well as my voice, my dress, my face, my figure.

"I began to wonder then, not whether the man at the window was a reality, but whether I was reality myself, and it certainly would not have surprised me if I had looked in a mirror and found it reflect back a face that was unfamiliar to me. It is strange how quickly a single phenomenon will sometimes change all one's fixed opinions on a subject of the supernatural. I felt I must speak to the man if only to prove whether I was awake or dreaming, and I seized the opportunity of introducing myself offered by hearing my double called by name.

"'Excuse me,' I said, addressing him, 'but I heard your friend just call you "Mr. Dane." I wonder whether we are related at all, for that happens to be my name, and we seem to bear a striking similarity to one another.'

"'My double' turned and surveyed me through a single eyeglass in exactly the same manner as that with which I should have surveyed a stranger who addressed me in the train.

"'I really do not know whether we are related or not,' he said, in the voice I use when I wish to be slightly patronizing. 'I am Gilbert Dane, of the Howard theater,' and he actually handed me one of my own cards.

"There was something in the substantial nature of the familiar bit of pasteboard that brought back a little of my common sense, and relieved me from the state of stupefaction into which the phenomenon had driven me.

"'Come, this is a very clever trick,' I said, with a smile, which I am afraid was rather feeble. 'You have certainly succeeded in startling me. Now I should like your own card, so that I may know whom to congratulate on a very clever performance.'"

"And what did the Mystery do?" I inquired, with interest, when the actor paused.

"He did exactly what I should have done, if a stranger addressed me in the same manner. He became angry, and asked me what I meant, and whom I called myself.

"'Well, until to-day I have been in the habit of calling myself Gilbert Dane, of the Howard theater—' I was beginning, keeping as cool as I could, when 'my double' interrupted me in a tone which I still recognized perfectly as my own.

"'Well! you had better not do so any more,' he said sharply, 'or you will find yourself in the hands of the police. I see that you have been imitating my dress, too, which I cannot help, but the use of my name is another thing.'

"We had just reached Vauxhall, our first stopping place, as he spoke, and a ticket collector who knows me by sight came to the door. My double caught his eye first.

"'I wish you would tell this gentleman who I am,' he said, and the man answered promptly:

"'Certainly, sir, you are Mr. Dane, the actor.'

"He looked startled when I asked him the same question.

"'I should call you a very good imitation,' he said, when he had recovered from his surprise.

"This was becoming decidedly uncomfortable, and I began to wonder how I could prove to anybody that I was not a good imitation of myself. The ticket collector's ready acceptance of my double as the real Mr. Dane showed how helpless I should be in an appeal to anyone who did not know me well. But I felt that it would not do for two Gilbert Danes to remain at large; the question which one was to surrender the title must be settled at once. It struck me that the easiest way to do it would be to go together to the theater, and submit the question to the company assembled for the rehearsal. I suggested this course to my fac-simile, and he surprised me by accepting it readily.

"'I warn you that I shall detain you when it is settled, and send for the police,' he said, in my haughtiest voice.

"'It was what I was intending to do with him.'

"The actor paused to light another cheroot.

"'And did you both go back?" somebody asked.

Dane nodded.

"'Yes, together. The third man left us at Waterloo,' he said. 'You may not believe it, but I felt rather uneasy as I approached the stage door, and the fact that I had no latchkey to open it for myself seemed a calamity. My double calmly produced his, and marched me into my own theater with the air of a proprietor. Then he closed the door behind him, and, changing his voice and manner, suddenly turned quietly: 'And now, Mr. Dane, I will puzzle you no more, but apologize for giving you so much trouble, which I hope you will think repaid by the enjoyment of a unique sensation. The fact is that I am very anxious to go on the stage under your auspices, and I thought that this would be the best way to obtain an introduction to you, and at the same time show you a specimen of my acting in the part of your understudy. You will admit at least that I understand the art of making up. Now are you going to give me an engagement—or send for the police?'"

"'And you gave him the engagement, I suppose?" I asked.

"'Yes; I have always regretted that he threw it up before the year was out, and returned to his former profession, that of a medical man.'"

"'It was he, of course, who called for the latchkey in the morning?'"

"'Yes; he had been in the shop when I ordered it, and the fact finally determined him to carry out the affair, which he had been pondering for some time.'"

"'But he must have haunted you like a shadow beforehand,' put in Maj. Dennett, 'to learn all your gestures and that. I should hardly think the result was worth the trouble.'"

Macpherson, who had been sitting quietly in the background, surprised us by replying for his friend.

"'Excuse me, major,' he said, in his usual quiet way, 'but you make a mistake there. Any man would have been glad to give £100 down for the engagement which Dane offered me straightway. It cost me less than £10 for clothes, and about a month of study; and my time was not worth £90 a month then, or I should not have thought of giving up medicine and taking up the stage."—Tit-Bits.

A BRAVE JERSEY BOY.

Perhaps the darkest days experienced by the little army of Washington were those that witnessed the retreat across the Jerseys. New York had fallen into the hands of the boastful enemy; he had taken Forts Lee and Washington and the patriots were on the retreat with the victorious British following in their wake.

It was during this famous retreat that the following incidents occurred:

Some time after dark during one of those memorable autumn days the American army began to pass a little hamlet at cross-roads between New Brunswick and Princeton, in New Jersey.

The place did not contain more than 10 houses, and these were so scattered that the collection had never been dignified by a name. The houses were of the old-fashioned kind, and several were stone, and to all large gardens were attached.

The wagon train, which carried much of the ammunition that belonged to the army, came struggling through the hamlet, guarded by a detachment of the most faithful. As the last wagon reached the place the hindmost axel broke off and the precious contents were dumped upon the ground.

Instantly all was confusion, and the soldiers tried to repair the mishap, but soon discovered that it was irreparable.

The other wagons being some distance in advance, and all heavily loaded, the men decided to bury the powder somewhere where it would not be found by the enepy when advancing, flushed with late victories.

The soldiers were discussing the burial of the ammunition when a boy of 15 appeared suddenly in their midst. He was a stout lad, not very well clad, but bright eyed and eager to lend a hand in the time of need.

"If you bury the powder here you must take care that the Tories don't watch you and turn it over to the British when they come along," said he to the sergeant who had charge of the wagon guard.

"You've got tories here, have you, boy?" asked the sergeant.

"Three families, sir. You might throw a guard around their houses while you bury the powder, and that will keep them from finding out where you put it."

"The very thing. You're fit to command a regiment," cried the soldier, and then he told the boy to point out the homes of the three tories, which was done, and guards were placed at the houses.

It was far into the night when the wagon guard moved on without the powder, and the boy had been cautioned to keep the secret that had been entrusted to his care."

"I'll do that, sir," said he, his eyes flashing. "You can move on believing that Toby Travers won't tell the enemy the hiding place of the ammunition. It's safe here, and when you come back you'll find it right where you've hid it."

Daylight saw the headquarters of Lord Cornwallis established in one of the tory homes, and Toby saw more redcoats then he ever expected to see.

He was standing in the doorway of his humble home when he espied four British soldiers, headed by a tall sergeant, advancing toward him, and while he gazed they halted in front of the house.

"You're the Travers boy, aren't you?" the sergeant said, haughtily.

"My name's Toby Travers."

"I thought so. Well, Master Travers, we want you."

Toby started a little, but kept his composure.

"Whatever can you want with me?" he inquired.

"Come along and we'll answer that question in a little while."

Without a word of further explanation he was marching to the tory's house and pushed half rudely across the threshold.

"This is the boy," said the sergeant, saluting his officer. "We caught him at his home and he is the boy who knows where they buried the powder."

For a moment longer the leader of the British army looked across the table and then said gruffly:

"Where is it, boy?"

All eyes were riveted upon Toby and the tall sergeant at the door grinned his delight.

"Aren't you going to tell?" demanded Cornwallis.

"Why should I? If you found the powder you would use it against Gen. Washington."

"Of course we would! That would be paying the rebels back in their own coin."

"Then," said Toby, resolutely, "you can go out and find the powder."

The face of Cornwallis flushed for a moment—his eyes seemed to flash.

"Do you know who I am, boy?" he exclaimed.

"Yes, sir—you are Gen. Cornwallis."

"I am. I command this army and serve the king. I hold your fate in my hands, young sir, and unless you tell where the rebels hid their powder last night you are liable to severe punishment."

"I cannot do that, generdl," said Toby, resolved to keep his secret at all hazards. "I promised—"

"What's a promise to a rebel?" interrupted the British chief. "Come, sir. We can't wait all day on you. You are delaying the advance of my army and you must tell."

"I refuse to tell you, sir. There!"

"This is treason of the deepest dye!" exclaimed Cornwallis. "I never saw anything like it and from a boy, too."

"This is too much," ventured one of the other officers in a lowered voice. "You should discipline the young rebel, my lord."

"Just what I am going to do. Here, sergeant. Take the prisoner and see that he is guarded till night. If he still refuses to disclose the hiding place of this rebel powder you will stand him up before six soldiers and see that the muskets are loaded with ball."

Toby was escorted to the only empty house in the hamlet, an old stone affair with a clapboard roof and one little window which had been boarded up.

Nearly all day the British force followed through the village on its march after Washington's retreating army. All day a tall, gruff sentry paced up and down in front of Toby's prison. Every now and then he looked in to see that "rebel brat" was safe and each time he caught the resolute look of the boy still confined between the four walls.

"Why don't you make a clean breast of it, boy?" said the guard toward evening.

"I am not a tory, sir," came the quick answer.

"Tory or not, it behooves you to tell where the rebel powder is. You know the orders."

Toby turned away and went over to the other side of the old house, where he remained, looking defiantly at the guard, who thought him one of the "stubbornest rebels" he had ever seen.

Night came at last, throwing her sable pall over the memorable little place.

The last detachment of the British army had vanished, but 20 men remained behind to take care of the boy, safe in their clutches. More than once since sundown Toby was visited and urged to betray the hiding place of Gen. Washington's ammunition; but to all the pleadings and threats he turned a deaf ear, and was heartily cursed for his refusal.

"We will quit here at nine o'clock," said the sergeant, at last. "It is the last moment of grace you have, boy."

It was seven, then.

Toby listened to the retreating footsteps of the sergeant, and then the guard resumed his tramp in front of the old stone pile.

"This is Abner Bryant's work," said the little prisoner to himself. "He is mad because they watched his house, and did not give him a chance to tell Cornwallis where the powder was buried. He takes this plan to become a hero in Cornwallis' eye and to show this British commander that he is loyal to the king. Never mind, Abner. We may be quits one of these days, and you may not stand quite so high in the estimation of King George's generall"

It was almost nine o'clock when the sergeant drew up his squad and saw that their muskets were loaded with ball.

Abner Bryant and the other tories of the crossroads stood off a little distance and witnessed this ceremony.

"He'll tell," said the head tory. "The boy will weaken at the last moment, and when the rear-guard leaves us they'll take the rebel powder along."

"Certainly. His mother understands this, for she won't shed a tear, you know."

"There they go now. The sergeant is going to carry out his orders if the little rebel still remains defiant."

"In front of the stone house the detachment halted and the sentry saluted.

"It is nine o'clock," said the sergeant.

The sergeant unlocked the door, the key grating harshly in the rusty padlock, and the next moment he looked in and called for Toby.

There was no reply, and the soldier went inside.

A moment's glance seemed sufficient.

"There's a hole in the roof!" cried he.

"A hole in the roof?" echoed half a dozen voices.

"Bring a light. Quick! The little scamp has escaped."

The utmost confusion reigned.

A light was brought and revealed the interior of the stone pile; a loose clapboard in the roof told that the little rebel had actually taken flight, and the white-faced sentry seemed ready to fall on his knees with fear.

"He was here ten minutes ago. I heard him," he managed to say.

"And ten minutes to him meant a great deal. He can run like a deer," put in Abner Bryant.

"It seems to me I heard a horse cross the bridge a little while ago," remarked another and then the soldiers separated.

The sergeant and one other hastened to Toby's home and searched it, Abner Bryant ran home to get out his best horse, but a startling discovery awaited him.

The "best horse" was gone.

The excitement that followed Toby's escape was intense. The patriots of the hamlet secretly rejoiced, while the three tories bit their lips with chagrin.

Some months later Abner Bryant received a letter exploiting the good qualities of his missing horse and thanking him for the use of it.

The letter was signed "Toby Travers," and the enraged tory tore it up and threw it into the fire.

What became of the little rebel of the cross-roads?

The day after the surrender at Yorktown he was the bearer of a message from Washington to Cornwallis and the defeated general looked at him with a great deal of curiosity.

"We have met before, my lord," said Capt. Toby, with a bow.

"I've been thinking as much," answered Cornwallis, "but just now I cannot place you."

"I'm the Jersey boy who wouldn't betray the hiding place of the patriot powder."

A flush came to the Briton's face and he turned it away. But the next moment he turned suddenly to the young captain:

"We've heard from that powder since. I understand that a lot of rebels afterward unearthed it and used some of it against us in the siege of Yorktown," he said, with a smile. "Your general nearly lost a young captain that time; but I commend your courage on that occasion. You deserve to be made a major."

It was the proudest moment in Capt. Toby's life, and the next proudest was when he went back to the little hamlet and turned over to Abner Bryant his black horse which had carried him to safety on the most eventful night in his history.—Denver Republican.

WHEN bilious or costive, eat a Cascaret, candy cathartic, cure guaranteed, 10c, 25c.

MORTGAGE SALE.

Whereas default has been made in the payment of the money secured by a mortgage dated December 30, 1896, executed by John McLain and Lennie McLain, his wife, of Macon, Mich., to Brockwell J. Rector, of Tecumseh, Mich which mortgage was recorded in Liber 139 of Mortgages on page 332 on the 7th day of July, A. D 1897, and whereas the amount claimed to be unpaid upon said mortgage at the date hereof is the sum of Four thousand three hundred and eighty-seven and 6-100 dollars damages and no suit or proceeding having been instituted at law to secure the debt now remaining secured by said mortgage or any part thereof, whereby the power of sale contained in said mortgage has become operative.

Now therefore notice is hereby given, that by virtue of the said power of sale, and pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises therein described at public auction to the highest bidder at the front door of the court house in the City of Adrian in said county of Lenawee on the 13th day of March, A. D. 1897, next at ten o'clock in the forenoon of that day which said premises are described in said mortgage as follows:

Situated in the township of Macon, Lenawee County, Michigan, and described as the south half of the northwest quarter of section twenty-three of town five south of range four east, containing eighty acres of land more or less.

Dated December 16, 1896.

Brockwell J. Rector.

Charles Burridge, Attorney for Mortagee.

STATE OF MICHIGAN, County of Lenawee, ss.

At a session of the Probate Court for the County of Lenawee, holden at the Probate office in the city of Adrian, on Monday, the 7th day of December in the year one thousand, eight hundred and ninety-six.

Present, Richard B. Robbins, Judge of Probate.

In the matter of the estate of Alvinza Whelan deceased.

On reading and filing the petition duly verified of John B. Whelan a son of said deceased praying that administration of said estate may be granted to Ervin J. Whelan or some other suitable person.

It is ordered, That Tuesday, the 5th day of January, next, at one o'clock in the afternoon, be assigned for the hearing of said petition, and that the heirs-at-law of said deceased and all other persons interested in said estate, are required to appear at a session of said Court then to be holden at the Probate office, in the City of Adrian, and show cause, if any there be, why the prayer of said Petitioner should not be granted.

And it is further ordered, That said Petitione give notice to the persons interested in said estat of the pendency of said petition, and the hearing thereof, by causing a copy of this order to be published in the TECUMSEH HERALD, a newspaper printed and circulating in said County of Lenawee for three successive weeks, previous to said day of hearing.

RICHARD B. ROBBINS, Judge of Probate.

(A True Copy.)

A. E. BABADAR, Probate Register.

MORTGAGE SALE.

Default of payment having been made of a mortgage made and executed by William J. Arnold and Caroline Arnold his wife, to Joseph Russel, dated April 21, 1894 and recorded on the 26th day of May, 189 in the Register of Deeds office for Lenawee County, Michigan in Liber 99, of Mortgages on page 188,—upon which mortgage there remains unpaid of the principal and accrued interest at the date of this notice the sum of fourteen hundred fifty-seven and 53-100 dollars ($1,457 53) and no proceedings at law or in equity have been taken for the collection of the same or any part thereof.

Notice is therefore hereby given that by virtue of the power of sale in said mortgage contained and of the statutes of the State of Michigan in such case made and provided, for the purpose of realizing the moneys above mentioned and the interest thereon hereafter to accrue at 7 per cent per annum the cost of this foreclosure and sale including the attorney fee provided for in said mortgage, I shall on the first day of March, 1897, at nine o'clock in the forenoon of said day at the front door of the court house in the city of Adrian Lenawee county Michigan (that being the building in which the circuit court for said county of Lenawee is holden) sell at public vendue to the highest bidder, all that certain piece or parcel of land situate in the Village of Tecumseh in the county of Lenawee and state of Michigan and described as follows to wit: Beginning at a point in the south line of Chicago street in said village of Tecumseh, such point of beginning being at the same time at the northeast corner of a parcel of land formerly owned by T. T. Kneeland and more recently occupied by M. P. Henry, thence running east on the south line of Chicago street forty-one feet and three inches to land owned by George Merritt; thence south on west line of said Merritt's land ninety feet; thence west at right angles with the first course forty-one feet and three inches to the east line of said T. T. Kneeland property; thence north on east line of said T. T. Kneeland property ninety feet to the place of beginning.

Dated December 4th, 1896.

Joseph Russell, Mortgagee.

Charles Burridge Attorney for mortgagee.

Louie Jones held the number which drew the shotgun put up at raffle by Fred Aldrich Friday evening. It is a bird.

Alf. W. James and family and Roy DeWolf, of Detroit, spent Christmas at the DeWolf homestead, on west Chicago street.

Saturday evening Coller's music store was packed with an interesting audience to hear the Gramophone he received recently. To many it was a novelty.

Mr. and Mrs. Ellsworth Cairns entertained at dinner Sunday, David Jones and wife, Fred Teachout, wife and children, Miss Lulu Jones, Louie and J. M. Jones.

John Orr received a letter Monday from Dr. Arthur Sickles, of Detroit, saying he expected to be here about January 1st to complete arrangements for locating here.

The T. and F. Farmer's Club.

The Tecumseh and Franklin Farmers' Club will hold its next meeting at the home of William Waldron Jan. 8, 1897.

The married people will have charge of the meeting and will render the following program:

Song. America—By the Club.
Essay—Mrs. Munger.
Rec.—Mrs. VanValkenburg.
Reading—Mr. Hoag.
Music—Mrs. Welch.
Charade—Mrs. Hoag.
Rec.—Mrs. Haire.
Reading—Mrs. Aylesworth.
Song—Clark Payne.
Paper—Henry Wilson.
Chips—Mrs. Swartz.
Dialogue—Mr. and Mrs. C. Mathews.
Music—Mr. VanValkenburg.

A very pleasant time is anticipated by all.

Farmers' Union.

Mr. and Mrs. Charles Underwood will entertain the Farmers' Union Friday evening, January 8th, 1897. Program as follows:—

Music—Jennie Underwood.
Rec.—Nina McConnell.
Reading—Mrs. James McIntyre.
Rec.—Mabel Hollister.
Personals—Mrs. B. I. Laing.
Music.
Reading—Ella McLain.
Paper—B. F. DePuy.
Music—Mrs. Charles Staats.
Question: Can prosperity be legislated into the agricultural industry? Led by B. F. DePuy, Dr. Loree and others.

Farmers' Social Club.

The club will meet at the home of Mrs. Ella Sheldon Tuesday evening, Jan. 12, '97. A plan of work has been outlined for the winter and is published for the benefit of the members. Please preserve this paper for reference.

PROGRAM FOR JAN. 12.

Roll Call, name favorite author.
Ian Maclaren—Lova Gillespie.
Music—Ora And Jennie Gillespie.

Trusts and Combines—John Boyce.
Reading—Mrs. John Boyce.

These programs will be interspersed with music and a recitation or declamation will be given occasionally. Questions will also be added.

The crow flies 25 miles an hour, and the pigeon hawk 150 miles.

MORTGAGE SALE.

Whereas default has been made in the payment of the money secured by a mortgage dated December 30, 1895, executed by John McLain and Jennie McLain, his wife, of Macon, Mich., to Brockwell J. Rector, of Tecumseh, Mich. which mortgage was recorded in Liber 139 of Mortgages on page 332 on the 7th day of July, A. D 1894, and whereas the amount claimed to be unpaid upon said mortgage at the date hereof is the sum of Four thousand three hundred and eighty-seven and 6-100 dollars damages and no suit or proceeding having been instituted at law to secure the debt now remaining secured by said mortgage or any part thereof, whereby the power of sale contained in said mortgage has become operative.

Now therefore notice is hereby given, that by virtue of the said power of sale, and pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises therein described at public auction to the highest bidder at the front door of the court house in the City of Adrian in said county of Lenawee on the 25th day of March, A. D. 1897, next at ten o'clock in the forenoon of that day which said premises are described in said mortgage as follows:

Situated in the township of Tecumseh in Lenawee County, Michigan, and described as the south half of the northwest quarter of section twenty-three of town five south of range four east, containing eighty acres of land more or less.

Dated December 16, 1896.

Brockwell J. Rector.
Charles Burridge, Attorney for Mortagee.

Teachers in Session.

Lansing, Dec. 30.—Making the township a unit for the organization of primary school districts was strongly favored by the Michigan State Teachers' association Tuesday. Superintendent of Public Instruction Pattengill and other prominent educators indorsed the plan. The association was attended by over 500 teachers, President Angell, of the University of Michigan, and many other college presidents being present.

Natural Gas in a Mineral Well.

Mount Clemens, Dec. 29.—The engineer of the new sanitarium, while going through the pumphouse, heard a hissing noise at the mineral well. As he lighted a match flames shot across the room. Indications of natural gas were found when the well was first put down, but the pressure of water shut it off. The sanitarium people talk of putting in a second well for the gas, which is 500 feet nearer the surface than the water.

Convict May Go Free.

Grand Rapids, Dec. 28.—In the United States court this week a motion will be made to grant George Kingston, convicted of counterfeiting, a new trial. His older brother, Frank, makes affidavit assuming all the responsibility and claiming that George was an innocent partner in the work. He also implicates others, who will be arrested.

Regains Her Speech.

Quincy, Ill., Dec. 28.—Miss Ida Reamer, whose home is in Michigan, on a visit to relatives here, has suddenly regained her speech. Four years ago she lost her speech through an attack of typhoid fever. Since then she has never uttered a word until now.

Sold at Auction.

Jackson, Dec. 25.—The great plant of the Collins Manufacturing company was sold at public auction by Trustee Thomas A. Wilson for $75,000. It cost nearly $200,000 three years ago and was bid in by the first mortgage holders.

Teachers Meet.

Lansing, Dec. 29.—The State Teachers' association is in annual session here with a large attendance. Monday evening Dr. Arnold Tompkins, of the University of Illinois, lectured on "The Beautiful as a Phase of Education."

Declares Dancing a Sin.

Grand Rapids, Dec. 24.—The school board declares that dancing is a sin and that the high school alumni association cannot hold dances in a school building.

Took Morphine.

Niles, Dec. 30.—Miss Lillie Belcher committed suicide at Burr Oak by swallowing morphine. The cause was disappointment in love.

Committed Suicide.

Coldwater, Dec. 30.—W. H. Hond committed suicide at his home in Union City, a few miles north of this city, Monday night by hanging. The act was prompted by financial troubles. He was president of the electric light company at Union City.

LEANS ON MRS. LAMONT.

That Lady Is Mrs. Cleveland's Closest Intimate.

Socially the Last Six Weeks of the President Administration Will Be Very Animated—Some Historic Residences.

[Special Washington Letter.]

Men like political letters. Young people enjoy descriptive letters. The ladies like society letters. The correspondent who would please his readers and thereby earn his salary should try to interest and entertain all of the patrons of the paper.

The large majority of correspondents are men, and they know very little about society; at least, not enough to write interesting social letters. But when the editor calls for a letter on social affairs, there is nothing for a man to do but call on some obliging lady friend for facts in that line; and that is what I have done.

"Write a letter about the ladies of the cabinet," says Pauline Ambler. "Write about their homes and the way they entertain people. Tell them about the intimate friendship existing between the wife of the president and the wife of the secretary of war. It is a fact that Secretary and Mrs. Daniel S. Lamont are the Lord and Lady Churchhill of the present administration. While the secretary whispers confidentially in the ear of the president, Mrs. Lamont presides sweetly but tyrannically over Mrs. Cleveland's teakettle. Mrs. Cleveland is as fondly attached to Mrs. Lamont as ever good Queen Anne was to her doting duchess. When Mrs. Lamont first went house-hunting, Mrs. Cleveland accompanied her and insisted on the secretary settling as near the white house as possible. Consequently the secretary closed the lease for the old Woods house on Lafayette square, facing the executive mansion.

This is the house that Mrs. Cleveland picked, out of all those visited, for her "dear friend." There is almost an obstructed view between the two houses, and, as Old Hickory used to signal to Van Buren across the park when affairs of state were in a flurry, so can Mrs. Cleveland call for her confidential friend when there are little social and domestic questions to be considered. The home of the secretary of war is historic itself and located in the most historic section of Washington. The old house has rather an important social history. Secretary Gideon Welles lived there during the war. Senator Stockton's family made it their home when they were leaders in the gay world of fashion. The house adjoins Daniel Webster's old residence, now the palatial home of Senator Brice. The house has no street door, but is entered through an arch driveway and French court. The Ohio senator dines all the nobility who chance to visit Washington and takes the lead in taking up the latest fads.

Miss Ambler says that during the entire administration Mrs. Lamont and Mrs. Cleveland have together settled many problems which have affected political as well as social life. Over the teapot social leaders have been created or decapitated. Over their chocolate they have discussed executive and other state dinners and decided upon the arrangements of their guests, as well as the details of menus. Thus together they have given fame to the favored and mediocrity to those who have been disfavored.

Mrs. Hoke Smith, who entertained so lavishly and brilliantly last winter, will not be here this winter, because her husband is no longer secretary of the interior. He resigned from the cabinet last August, and the family now resides in Atlanta, Ga.

The small green parallelogram between the white house and the Arlington hotel, in which Secretary Lamont's home is located, has undeniably the most interesting history of any locality in this country. At the time of the revolution it was an insignificant part of David Burns' farm. But long before the British soldiers tramped overit on their way to burn the white house in 1813 the political grandees of the land had already begun to build their homes around it. The center of that farm is now one of the most beautiful spots in Washington, Lafayette park.

MRS. GROVER CLEVELAND.

The great double mansion east of Secretary Lamont's residence was built by Matthew St. Claire Clark, long clerk of the house of representatives. It afterward became the home of the British legation. It was here Sir Bulwer Lytton lived during his embassy. It was also here that his son, "Owen Meredith," wrote "Lucile."

Facing the northwest corner of Lafayette park, and diagonally opposite the residence of Secretary Lamont, is the antique residence which Commodore Decatur built in 1812. After Decatur's death the house was successively occupied by Henry Clay, Martin Van Buren, Edward Livingstone, Jackson's secretary of state; George M. Dallas, Judah P. Benjamin, and finally Gen. Beale, whose guest Gen. Grant has been for weeks at a time. The window in the south wall of the house was ordered cut by Van Buren in order that he might see the signals displayed by Jackson from the white house.

Only a few doors from the old Woods house is the home of the Cosmos, the

MRS. DANIEL LAMONT.

largest scientific club in the world. It was erected by James Madison in 1801, when he came to Washington to serve as Jefferson's secretary of state. Twenty years later "Dolly" Madison returned after her husband's death, and there for 15 years she held court and dispensed during the remainder of her life the gracious hospitality which made her name memorable.

In the next two houses have dwelt Secretary Windom, Senator Fenton and Col. Robert G. Ingersoll. In the next house below lived Admiral Paulding, a son of the obstinate soldier, John Paulding, who captured Maj. Andre. The house is now owned and occupied by Senator Don Cameron.

The most famous house in the historic square is no longer in existence. Upon its site now stands a grand opera house. It is a shame upon the common sense of our lawmakers that the old residence should have been destroyed. It was originally the elite boarding-house of Washington, and numbered among its guests John C. Calhoun, when he was Monroe's secretary of war, and afterward vice president, and Henry Clay lived in it when he was Adams' secretary of state. Then it became the property of the celebrated Washington club, of which Sickles and Key were both members, and the tragedy which associates their name took place in front of its door. Later it became the war residence of Secretary Seward, and there the deadly assault was made upon Seward by Paine at the time of Lincoln's assassination. Last it was renotated for the home of James G. Blaine, who dwelt and died beneath its roof. The widow of that great man, with characteristic lack of respect for the brilliant husband whose whole life was clouded by domestic cares, sold the historic mansion to people who made no secret of their purpose to erect a playhouse there. Congress had an opportunity to buy it, but failed to do so.

Society has circled around the square in which these houses of historic renown are located, just as moths flutter around a light. Of course, the wife of the president is "the first lady in the land," and no woman has more worthily worn that title than Mrs. Cleveland has worn it. She has always been gracious and unconventional with the general public, while she has been regal and superb in official functions of society. But Mrs. Cleveland is like all good mothers. She cares less for society than she does for her little ones. During the first administration of her husband, when she was a young bride, she was delighted with her high social position, and enjoyed every moment of her time in social leadership. During the present administration she has been more domestic; and yet her official functions have not been neglected. She has been very greatly pleased, however, to have the active assistance and cooperation of Mrs. Secretary Lamont. Indeed, again and again has Mrs. Cleveland avoided some of the extra social amenities by directing the current of society towards the home of the secretary of war.

The wife of Secretary of the Treasury Carlisle has held a conspicuous social position, and will give numerous entertainments this winter. Secretary of the Navy Herbert, with his handsome daughter, will resume their series of entertainments early in January. The secretary of agriculture and his sister, Miss Morton, will hold weekly receptions. The wives of the postmaster-general, the secretary of the interior, the secretary of state and the attorney-general will also participate in the social festivities.

SMITH D. FRY.

A willow tree in front of Mr. Barker's house, in East Sullivan, N. H., spreads 90 feet, and is 65 feet high; and its circumference one foot above the ground is 16 feet

A FATAL CYCLONE.

It Leaves Death and Ruin in Its Path in Louisiana.

Old Town of Mooringsport Almost Entirely Wiped Out—Four Lives Lost—Blizzard Raging in Western States.

Shreveport, La., Jan. 4.—A cyclone from the southwest struck and almost literally demolished the town of Mooringsport, just north of this city, at 3:45 p. m. Saturday. Over 20 dwellings were blown down, and only seven were left intact. Four were killed and 23 wounded. The dead are Willie, Maud, Hall and an infant, all children of Jesse Goodman, who is also injured with his daughter Alice, his wife and nephew, Claude. Their home is a wreck. Three of the wounded will probably die. The cyclone came without warning, and lasted only about one minute. The following houses were destroyed:

W. H. B. Croom, grocery and cotton warehouse destroyed, main store and residence safe; Ivis' grocery, Fains' saloon, Fuller's residence, Christian's store, warehouse, residence and tenant house; Morgan's residence, Milam's residence, Ivis' residence, Goodman's residence, Teat's residence, Methodist parsonage, C. S. Croom's vacant house, O. V. Aiken's residence, W. Croom's stable and smokehouse.

In Missouri.

St. Louis, Jan. 4.—Specials from different portions of Missouri show that the state is storm swept. Rain has fallen for the past 36 hours. Every stream in the vicinity of Sedalia is out of its banks. The rain is pouring down and railway washouts are numerous. Reports from Warsaw, Bagnell and Clinton indicate a high stage of water on the Osage river. At the first named place the river has risen 20 feet and the residents thereabouts fear a repetition of last year's disastrous floods, which destroyed nearly all the crops and much stock.

Blizzard in Minnesota.

St. Paul, Minn., Jan. 4.—A blizzard is blowing in this section over an area 400 miles north and south and 600 miles east and west. Over most of Minnesota it has been snowing from 14 to 20 hours and there is from seven to sixteen inches of snow on the ground. The wind is blowing a gale from the north.

Closes the Schools.

Aberdeen, S. D., Jan. 5.—Aberdeen and all tributary country are in the throes of the worst wind and snowstorm experienced in many years. The gale Sunday nigh reached a velocity of 60 miles per hour and considerable damage was done about the city. The electric light and telephone systems are knocked out. It was found impossible Monday morning to convene the city schools after the holiday season. The snow is piled in drifts on the principal streets from eight to ten feet deep.

Blizzard Is Over.

Hudson, S. D., Jan. 6.—The greatest snow and windstorm since the settlement of this part of South Dakota abated yesterday morning. It was of 50 hours' duration. Two feet of snow fell, and it is piled in immense drifts so solid that several days will elapse before the streets are passable.

Victims of the Cold.

St. Paul, Minn., Jan. 6.—There was loss of life in the blizzard of Sunday and Monday. A telegram from Barnesville came to Representative McGrath saying his brother, John McGrath, was lost in the storm and perished before he could reach shelter. A dispatch from Fargo says two children of John Petit, of Hunter, were frozen to death. In Atchison, Kan., a ten-year-old child was found dead in a snowdrift.

American Monopoly in China.

New York, Jan. 6.—Senator Calvin S. Brice, at the head of a close syndicate of United States officeholders and capitalists, has nearly concluded arrangements for the establishment of a monopoly of the railroad, telephone and telegraphic systems in China. The first negotiations for this huge monopoly were made when Li Hung Chang was in this country last summer.

Five Hurt in a Wreck.

Carson, Ia., Jan. 6.—The passenger train on the Burlington jumped a trestle entering the city Tuesday morning. John Surles, conductor; Robert Adkins, Henderson, Ia.; S. E. Lamb, expressman; Miss May Paul, Henderson, and Curtis Curran, brakeman, were injured. Adkins' wounds are supposed to be fatal.

The Public Debt.

Washington, Jan. 4.—The debt statement shows a net decrease in the public debt less cash in the treasury during December of $2,839,577.48. The interest bearing debt increased $170. The non-interest bearing debt increased $123,534 and cash in the treasury increased $2,963,281.48.

They Were Innocent.

Lexington, Mo., Jan. 6.—It has been discovered that Jesse Winner and James Nelson, who were taken from the jail here on the night of December 6 and lynched by a mob for the murder of the former's wife and two children, were innocent.

Fitzsimmons and Corbett Matched.

New York, Jan. 5.—Bob Fitzsimmons is matched to fight Jim Corbett for a purse of $15,000 and a side bet of $5,000 on March 17. Fitzsimmons signed the articles Monday afternoon at Taylor's hotel, Jersey City. Corbett signed them three weeks ago.

Miss Grace Davis and Mrs. C. H. Fisk and daughter who have been spending the Christmas season at their old home west of town, returned to Detroit Saturday.

At a meeting of the ladies' working society of St. John's church last Monday evening, the following officers were

Pres.—Mrs. W. S. Whittelsey
1st Vice Pres.—Mrs. G. R. Wolf.
2d " " —" E. S. Tate.
Sec.—Mrs. E. Van De Mark.
Treas.—Mrs. C. F. Clark.

"I am an old soldier of the Rebellion. A year ago I was in bed all winter with chronic rheumatism. Three doctors failed to give me relief. Two bottles of Burdock Blood Bitters put me on my feet. It is worth its weight in gold." W. B. Knapp, Litchfield, Hillsdale Co., Mich.

HOLLOWAY.

The infant daughter of Mr. and Mrs. S. T. Stuart is ill.

Grange meeting next Tuesday evening at Maccabee hall.

Mesdames Ida Spencer and Elizabeth Kelley are still on the sick list.

L. C. Winchip is still in Adrian in attendance at this term of court.

Miss Catherine Bowers commenced a term of school in the West district Monday.

Frank Stead returned to Ann Arbor Monday to pursue his studies at the university.

A surprise was given Miss Isabel Clark last week and an enjoyable evening was passed.

A. D. Macham and family spent New Years with the family of Wm. Rector, near Tecumseh.

Miss Eva Rector visited her aunts, Mesdames Jennie Macham and Mary Benedict last week.

Miss Abbie Ray and J. L. Richard each renewed their school work in their respective districts Monday.

Mr. and Mrs. Thomas Islay, of Blissfield, have been spending a week with their son Edward and family.

George McClenathan has greatly added to the appearance of his residence by a coat of paint and a fine veranda.

A. H. Lewis returned from Shelleyville Wednesday of last week. His wife and daughter returned Monday.

A surprise was given Frank Kishpaugh December 29th by the pupils of his former Sunday school class, and others.

Mrs. Fessenden, of Adrian, and Miss Nellie Tompson, a student of the Ypsilanti Normal, were guests of Mr. and Mrs. James Lane over Sunday.

Mr. James Bussard writes from Sharpsburg, Md., as follows: "I had neuralgia in my head and jaws, and could get nothing to relieve me until I tried Lightning Hot Drops, which gave relief inside of thirty minutes, and I have not had it since. It is the best medicine I ever saw to relieve any pain. It will do more than is claimed for it.

Mr. W. R. Shimfessel, of Clay City, Powell Co., Ky., writes: "Lightning Hot Drops is a grand remedy for a bad cold. After taking only one dose before retiring it broke up a bad cold which had annoyed me for several days."

Mr. Samuel Niswanger, of Armington, Ill., writes: "This is to certify that I have used Lightning Cough Drops for the last year. I don't think I would be alive today, only for this medicine. I am in my 87th year. I recommend Lightning Hot Drops to all who have a cough."

So far as possible leave nothing on the ground in the orchard that will afford a harboring place for insect pests during the winter.

A tired stomach is very much like a sprained ankle. If you suffer from any of the symptoms of dyspepsia, your stomach is tired. It needs a crutch. We must relieve it of all work for a time, or until it is restored to its natural strength. To do this successfully, we must use a food which is already digested outside of the body, and which will aid the digestion of other foods that may be taken with it. Such a product is the Shaker Digestive Cordial. The Shakers have utilized the digestive principles present in plants for the manufacture of this article, and its success has been truly phenomenal. You can try it for the nominal sum of 10 cents, as sample bottles are sold by all druggists at this price.

Laxol is the best medicine for children. Doctors recommend it in place of Castor Oil.

The time to cut scions for grafting is before the buds swell in February. The work should be done when they are not frozen.

The sick man knocking at the door of health gets in if he knocks the right way, and stays out if he doesn't. There are thousands of ways of getting sick but only one way to get well. Do whatever you will, if you do not put your digestion in good order, and make your blood rich and pure, you will not get well. Rich, pure blood is the only thing that can bring perfect health. Constipation is a disease of the blood. A large part of all diseases are traceable directly to impurities in the blood, and can be cured by eliminating them with Dr. Pierce's Golden Medical Discovery. The first thing it does is to put the whole digestive system into perfect order. It stimulates the appetite, excites a copious secretion of the digestive fluids and promotes assimilation. It searches out disease germs wherever they may be, kills them and forces them out of the system. The Golden Medical Discovery" has been has been used with unvarying success for over 30 years.

George Greenwood, born at Malden, Mass., in 1826, lived to a good old age but never sprouted a single hair on either head or face.

THREE YEARS AGO

C. W. Knaner was Cured of Chronic Catarrh—His Cure Remains Permanent.

C. W. Knaner, Sheldon, Iowa, writes [illegible] troubled with catarrh for over two years; so bad at last I could not work but two or three days in a week. I tried two doctors without any relief. At times I was so bad that I could not hear. After using nine bottles of Pe-ru-na I was completely cured and believe Pe-ru-na will do all you claim if the directions are followed. I heartily recommend it to all who are afflicted with catarrh. I should call my cure lasting, for I have been working in an elevator for three years (among the dirt and dust of wheat)."

No greater test could be made of any cure, than three years' exposure to the dust and dirt of a grain elevator. This letter is a sample of those we receive daily. They come unsolicited and unrewarded. They express the sentiments of the writer in words that are direct and forcible.

A book on catarrh will be sent to any address by The Pe-ru-na Drug Manufacturing Company, Columbus, Ohio.

A strong microscope shows the single hairs of the head to be like coarse, round rasps, but with teeth extremely irregular and jagged.

$100 Reward, $100.

The readers of this paper will be pleased to know that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c. June

Hall's family pills are the best.

There is no fruit that with proper management can be grown so readily as the grape.

A Household Necessity.

Cascarets Candy Cathartic, the most wonderful medical discovery of the age, pleasant and refreshing to the taste, act gently and positively on kidneys, liver and bowels, cleansing the entire system, dispel colds, cure headache, fever, habitual constipation and biliousness. Please buy and try a box of C. C. C. today: 10, 25, 50 cents. Sold and guaranteed to cure by all druggists.

Whatever tends to produce or build the general health and thrift of the trees will help to keep disease from them

S. F. Fritz, of 677 Sedgwick street, Chicago, says: "I had a severe cough which settled on my lungs. I tried a number of advertised remedies and also placed myself under treatment of several physicians, with no benefit. I was recommended to try Foley's Honey and Tar. With little expectation of getting relief, I purchased a bottle. I had taken but few doses when I felt greatly improved; I was enabled to sleep, spitting of blood ceased, and by the time I had taken the second bottle I was entirely well. It saved my life." Orr & Temple.

The best yield of fruit both for quality and quantity is grown on a rich, well cultivated soil. Keep it rich by giving repeated applications of manure.

Have You a Cold?

If so, then, instead of taking so much quinine and other strong medicines, take a pleasant and mild stomach and bowel remedy, which will cleanse the system, and you will be surprised how quickly the cold will leave you. Dr. Caldwell's Syrup Pepsin will do this better than any other. Trial size 10c (10 doses 10c), larger sizes 50c and $1, at Orr & Temple's

The old Alexandrian Library contained 700,000 volumes; the largest collection ever brought together before the invention of printing.

Another Good Man Gone Wrong.

He failed to use Foley's Kidney Cure for his kidney complaint. Orr & Temple.

Naturalists who have investigated the matter say that a bat's heart is aided by the "rythmic contraction of vein in the wings."

It Grows.

As a cure for constipation and indigestion Dr. Caldwell's Syrup Pepsin grows rapidly in favor where introduced. Children love its taste, for it is so pleasant. Trial size 10c. Regular size 50c and $1 of Orr & Temple.

If any trees in the orchard are not bearing well, stir the soil thoroughly and apply a good dressing of wood ashes, this work can be done in winter.

Cures right off, even the worst of

Sprains.

Hard rubbing is the sleight of hand. A prompt cure is The Magic.

When bilious or costive, eat a Cascaret, candy cathartic, cure guaranteed. 10c, 25c.

Beaver is still used, both plucked and unplucked, in its natural color and also dyed.

Always in season, Hopkins' Steamed [illegible] Elegant lunch in milk. Quart 10 cents.

During the winter is a good time to plant out the small fruit plot and the orchard.

BACK ACHE and RHEUMATISM relieved by Dr. Miles' Nerve Plasters.

Do not allow too many new plants among the blackberries and raspberries.

In Olden Times

People overlooked the importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently overcome habitual constipation, well-informed people will not buy other laxatives, which act for a time, but finally injure the system.

There are three varities of the dog that never bark—the Australian dog, the Egyptian shepherd dog, and the "lion-headed" dog of Thibet.

Foley's Honey and Tar

Cough Syrup wherever introduced is considered the most pleasant and effective remedy for all throat and lung complaints. It is the only prominent cough medicine that contains no opiates and can safely be given to children. Orr & Temple.

If shrubs require pruning, the best time to do the work is just after the flowering is over.

Don't Tobacco Spit and Smoke Your Life Away.

If you want to quit tobacco using easily and forever, be made well, strong, magnetic, full of new life and vigor, take No-To-Bac, the wonder-worker that makes weak men strong. Many gain ten pounds in ten days. Over 400,000 cured. Buy No-To-Bac from your own druggist, who will guarantee a cure. Booklet and sample mailed free. Ad. Sterling Remedy Co., Chicago or New York.

It is not too late to mulch the fall planted onion sets if the work has not been done before.

The True Remedy.

W. M. Reppne, editor Tiskilwa, Ill., "Chief," says: "We won't keep house without Dr. King's New Discovery for Consumption, Coughs and Colds. Experimented with many others, but never got the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our home, as in it we have a certain and sure cure for Coughs, Colds, Whooping Cough, etc." It is idle to experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not as good, because this remedy has a record of cures and besides is guaranteed. It never fails to satisfy. Trial bottles free at Baker & Hall's Drug Store.

Apples in the cellar will keep much better if care is taken to keep the temperature even.

Mrs. Kate Etter

OF MISSOURI,

Is Cured of Heart Disease by Dr. Miles' New Heart Cure.

MRS. KATE ETTER wrote from Neosho, Mo., in March last. "Two years ago I was severely troubled with my stomach and kidneys, and a great affliction so unnerved me that my condition became alarming. The telegraph brought a prominent physician in a consultation which resulted in no benefit. I went to Wyoming for change of climate without benefit, was brought back to Atchison where nurses worked with me night and day to keep me alive to reach my friends here. My heart became so bad that my friends gave up all hope. I began taking Dr. Miles' Heart Cure and Nervine alternately and was restored to health. It is now months since and I am perfectly well."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on Heart and Nerves sent free to all applicants.

of the original grant.

7. Provide that no franchise of the character above enumerated shall be granted by any municipal authority without being submitted to a vote of the people.

I appreciate the fact that the passage of such a law, by which the people can be protected from extortion and fraud, will be opposed by every friend of special privileges, not only in this state, but that they will be reinforced by agents from other states who represent like interests. I cannot emphasize in too great a degree the necessity for some action in the line here indicated. Unless some such course is pursued it will be necessary to provide for state or municipal ownership of street car lines, telephones and other means of transportation and transmission, and I believe that such a plan should only be adopted as a last resort, for in my opinion it would [illegible] unwarranted enterprise and exertion, and when these are lost the virility of the nation will be destroyed.

In this connection I desire to call attention to the question of fraud and corruption in securing public franchises and in the awarding of public contracts. It has always been a principle of law that fraud vitiates all contracts, and yet it has been held that the right to operate a public franchise is such a divine right that fraud cannot affect it. This matter has been often referred to in connection with the case of Jake Sharp and the Broadway street car franchise. Briber and bribed were sent to prison, but the fruit of their corruption was held by the courts to be too sacred to be touched. Before the courts of Michigan give their sanction to such a code of morals I would suggest that a law be passed making all public contracts, like private contracts, absolutely void for fraud or corruption. The manner of raising the question of fraud and the time within which and by whom it can be taken advantage of must be wisely considered by you.

Telephones.

Great interest within the past year has been manifested in the construction of telephone plants. Previous to that time the Bell company has had the absolute monopoly. The rates charged have been extortionate. It has been argued by some that the telephone business is a natural monopoly. There is no such thing as a natural monopoly in telephone any more than in railroad or telegraph service. In addition to what I have already said under the head of public franchises I make the following suggestions as to telephones:

1. The law should permit the fixing of telephone rates by the local authorities in each municipality or town.

2. All companies should be required to charge the same price for the same service and no one should be permitted to give free service upon any consideration. A company which for years has charged double rates could for a number of years give free service, and the result might be to wreck a younger company, destroy capital and enterprise and leave the community in the hands of the old monopoly.

3. All telephone companies in a city should be compelled to exchange telephone service, upon terms to be fixed by the municipal authorities. The present law contains a provision looking to that end, but I am satisfied that it is too indefinite to be made available.

4. The law against consolidation of telephone companies should be made so positive and emphatic, and contain such penalties and forfeitures that it would be impossible to evade it.

Prisons.

The treatment of criminals is one of the vexed questions of the age. Criminals are of two classes, corrigible and incorrigible. These should be kept separate in all jails, prisons and reformatory institutions. The original purpose of the establishment of the prison at Ionia was to provide a place for those who were not deemed to be hardened criminals. I fear that this purpose has not always been kept in view. I recommend that some discretion be lodged in the prison boards for transferring from Ionia prison those who have been found to be incorrigible, and also for transferring from prisons to Ionia such inmates as may be deemed to be corrigible. There can be no greater nursery for crime than a prison which permits the association of the vicious with those who are merely unfortunate.

The care of criminals is another question which becomes every year a subject for more serious and thoughtful consideration. The employment of machinery and the manufacture of articles which compete with the products of our great industries is in my opinion fundamentally and radically wrong. Hundreds of great prisons in the United States have become immense manufacturing establishments. Will it not be proper to make an effort to secure a change from the present system? I cannot outline at length a plan for such change, but would respectfully offer a few suggestions as a basis for legislation. Would it not be well to investigate the question of utilizing and enlarging the present system of prison farms to the greatest possible extent for the production of such articles of food as may be necessary to feed prisoners? If hand labor only were employed both upon the farms and within the walls, it seems to me that the prisoners could be kept at work and could produce enough for their own support without creating a surplus and thus crowding the market with prison-made goods. The sale of prison-made goods in competition with the products of free labor has a tendency to reduce prices for such goods and hence reduce wages. The mingling of prison-made goods with others enables these handling the same to cut the prices below a fair profit, and in order to obviate this I am of the opinion that all prison-made goods should be labeled and no label should be removed until the final purchase from the retailer. Such a law is in force in the state of New York, and I have been informed with good results.

Insurance.

Gov. Pingree discusses at some length the methods of fixing rates adopted by insurance companies in Michigan, and declares that by these methods rates of insurance no longer become a matter of contract between the insurer and the insured, but an assessment without notice and without escape on the part of the person applying for insurance. He continues:

I believe you can find some way by which the field of insurance may be open to fair competition and without injustice being done to the companies. It is also suggested that the form of policy in use and authorized by the statutes of this state be examined with a view to making the same more liberal for the insured.

I find that but few of the state institutions are supplied with Michigan coal. As the state is interested in the development of these mines I would suggest the propriety of the more extended use of this fuel by these institutions, all things being equal.

Good Roads.

There is absolutely no question as to the necessity of good roads for Michigan; but the state, rendered poor by unequal direct taxation and exorbitant indirect taxation, cannot afford at the present time to enter into the great work of constructing public roads at an outlay that will assure substantial highways which will endure for some time to come. The state government must first satisfy the people with a measure of equal taxation before the question of good roads can be entered upon indeed, before any measure involving an appropriation of public money is seriously approached. We have before us the lesson of the spectacle of the administration immediately preceding the present, consciously or unconsciously in aid of those who successfully shift taxation from their own to the shoulders of others, cutting away from the appropriation for the chief educational institution of the state. And this in obedience to the wishes of the largest body of taxpayers in the state who in their distress, and perhaps aware of the possible hopelessness of enforcing equal taxation, were willing to sacrifice along the lines of education to retain the proper support of the home. I would therefore urge upon the legislature, if the institutions of the state are to be maintained at all; if the proper work of the state is not to be abandoned; if all classes of citizens are to be treated alike before the law, that the question of equal taxation be seriously taken up and treated with impartiality.

Arbitration.

In the experience of the state of Michigan, if not in that of the United States, it is found that the military arm is called into requisition to suppress riots, chiefly on account of disagreements between corporations and their employes. Recourse to the military should be the final extreme resort. It is the duty of corporations to live at peace with their neighbors. And employes have a like duty to perform. Neither has any rights superior to the other in the eyes of the people. It is the duty of the state to preserve the peace and defend the rights of all. But it is also the duty of the state to prevent that which tends to disturb the peace or which infringes such rights and to that end laws have been passed and courts have been instituted. To further promote that end, I would recommend that no body of men be allowed the privilege of incorporation without their free consent, expressed in the articles of incorporation, as in part consideration for such privilege, that all disputes found impossible of adjustment between employer and employe, should be referred to arbitrators, in accordance with the latest platform declaration of the republicans of Michigan, that of the state convention for 1894, held at Grand Rapids.

Statistics Relating to Corporations.

The value of statistics to the state relating to corporations is incalculable. But they are valueless if they do not extend far enough to afford the legislature absolutely safe material from which to gather the correct deductions upon which the regulation of corporations is based. The day of absolute reliance upon competition, especially between transportation lines, is passed and the day of the trust and the combine is here, and the legislature must stand between the rights of the people of the state and the encroachments of the trusts and combines. To hide successfully is to swindle successfully. The people are entitled to all of the facts in relation to the creations of their representatives and all of the facts relating thereto should be gathered by the state and placed in the hands of each and every elector of the state free of technicalities. Information is education and private publications, like private schools, have private purposes. If it is the duty of the state to educate children, it is likewise the duty of the state to inform the people.

If, for example of the importance of such statistics, it is required to know to-day the earning capacity of any given railroad in Michigan upon which to base a maximum rate of fare it cannot be obtained from the public reports of the state, surprising as it is, because the number of passengers other than employes hauled on passes is not shown in such reports. Yet passes are being regularly written by railroad attorneys for United States senators, United States representatives and for other public servants whose good will is valuable to the roads. Certain classes of shippers, as also certain classes of so-called influential people, inclusive of certain newspaper publishers, obtain passes. So, too, the public statistics do not show the amount of money expended by railroads for the maintenance of lobbyists at this capitol. Actual earnings of roads do not show their earning capacity by any means; and passes and the money maintenance of lobbyists are not all the lacking figures of the problem, the solution of which would show conclusively that bad management, growing out of the exploitation of watered stocks and bonds, is ruining the railroads and checking the development of the earning capacity of the state of Michigan. Actual value of roads and rolling stock and actual cost of operation are not clearly known and set forth. As for freight rates, they are at the option of the companies either to raise to exorbitant figures for occasions of speculation in the stock market or to reduce to figures intended to ruin a competitor or favor the monopolistic designs of a shipper, and the ordinary statistician must fail in following the changes.

Coercion of Electors.

As a guard against coercion of voters; a provision for the safeguard of the ballot; an additional assurance of the independence of the voter and the purity of elections, I would recommend that a penalty be provided by an act of the legislature severe enough to prevent corporations of a public character exerting undue influence in elections.

Fish Propagation.

I recommend that the legislature, at its coming session, pass such laws as may be needed to increase the productiveness of the fisheries and maintain their benefits for future generations. An act should be passed enlarging the meshes of the nets and imposing a severe penalty for the taking of small fish; a close season should be made to protect the spawning fish, and a license to be laid on the boats and nets similar to the one now in force in Canada, and income derived from such licenses must not only maintain the fish commission in their work of artificial propagation as at present established, and its enlargement in the future to its fullest possibilities, but at the some time provide a substantial revenue for the state.

Banking Department.

While I believe that most of our state banks are well managed, and in good condition, still the lessons taught by the failures during the past two years should not be unheeded or forgotten, and I feel that I cannot too strongly urge attention to this subject.

From the report of the commissioner on banking, it appears that there are now upwards of 170 state banks and three trust companies in existence in our state with a liability to depositors of $35,000,000.

This is three times the number shown by the first annual report and over twice the liability to depositors.

The severe strain of the past three years has increased the burden and responsibilities of those charged with the administration of banks, and has developed some weak points in our banking laws. During the period mentioned a number of banks have failed. In the city of Lansing alone three state banks [illegible] owing up nearly $1,000,000 of depositors' money. The cause of these, and in fact nearly all bank failures, may be distinctly traced to the excessive loans made to the officers of those banks and to the various business concerns in which these officers are interested. It is hardly necessary to add that most of these loans were made in violation of the law or by evading it.

It seems to be a fact that too few bank directors understand banking and most of them find it easier, at least when times are good, to leave the management of the bank with its cashier or some other one officer. Something certainly should be done that will make bank directors more familiar with the affairs of the bank and thus prevent mismanagement for which they are morally, and should be legally, responsible. The quarterly reports, which are now required to be made to the commissioner, should be verified by the oath of all those who are required to sign the report and the oath should contain a statement that they have personally examined the books and assets of the bank and that from such examination they personally know that the statement signed by them is true in substance and in fact. It should be made obligatory upon each bank to require from its cashier or treasurer such a bond as shall be approved by the banking commissioner. Whenever a cashier or treasurer shall, without authority shown upon the records of the bank, discount or cash any negotiable paper or security of any kind, it should be regarded and treated as an unlawful use of the money in the bank and appropriately punished. A full and complete record of the actions of the board of directors relative to loans and discounts should be kept, which record should be signed by all those present. There is altogether too much red tape in the manner of getting a receiver under the present law.

In this country, where sudden fortunes are often made by some fortunate speculative enterprise, the temptation to make unsafe and illegitimate investments with depositors' money is often too great to be overcome. Severe punishment should be meted out to those officers and managers of banks who are thus led to betray their trusts. Business prosperity depends upon sound banking. Without it we must always expect to pay a higher rate of interest than our business will warrant.

What I have said relative to banks applies with equal force to building and loan associations. Savings banks, pure and simple, with no capital stock—the depositors standing in the relation of shareholders to the extent of their deposits and profit sharers pro rata—are not obliged to earn money for shareholders and depositors, too. They are enabled to make very conservative investments. As there is no incentive to make great profits, such institutions are obviously in the interest of depositors, to whom a reasonable dividend can be paid. I recommend that our general banking laws be amended to admit of such societies for savings in Michigan.

Without reflecting upon any previous administration, I feel it my duty here to call your attention and that of the people of the state of Michigan to a deficiency which exists, and which, I am informed, has existed for some time, in the state finances. This has necessitated the borrowing of considerable sums of money, as high sometimes as $500,000, without authority of law, in order to bridge over emergencies when there were no funds in the state treasury. This condition should not be continued, but should be met openly and manfully and provided for in an intelligent and businesslike manner. It is not so necessary to ascertain where the responsibility for this deficiency exists as it is to provide for the existing condition without subterfuge.

Short Legislative Sessions.

I would respectfully call your attention to the provision of the constitution requiring sessions of the legislature to be held biennially. This and the granting of special municipal charters are the two great obstacles in the way of short sessions of the legislature. I recommend that an amendment to the constitution requiring annual sessions of the legislature of not over 60 days each to be submitted to the people. I also suggest the advisability of your honorable body taking a recess for one year after a session of 60 days.

Bucklen's Arnica Salve.

The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns and all Skin Eruptions, and positively cures Piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Baker & Hall druggists.

The remarkable echo at Eagle's Nest, on the banks of the Killarney, Ireland, repeats a bugle call 199 times, clear and distinct.

Kissing goes by favor. So does Pearline. It's the first and only washing compound—more popular than ever—sales larger than ever—there never was such a general favorite. Not at all strange. It saves rubbing—wear and tear—saves time, health, money. If you are not one of the favored who use it, won't you do us the favor of trying it once? Then you'll join the majority. 433 JAMES PYLE, N. Y.

MORTGAGE SALE.

Default of payment having been made of a mortgage made and executed by William J. Arnold and Caroline Arnold his wife, to Joseph Russel, dated April 21, 1890 and recorded on the 26th day of May, 189 , in the Register of Deeds office for Lenawee County, Michigan in Liber 99, of Mortgages on page 188,—upon which mortgage there remains unpaid of the principal and accrued interest at the date of this notice the sum of fourteen hundred fifty-seven and 53-100 dollars ($1,457 53) and no proceedings at law or in equity have been taken for the collection of the same or any part thereof.

Notice is therefore hereby given that by virtue of the power of sale in said mortgage contained and of the statutes of the State of Michigan in such case made and provided, for the purpose of realizing the moneys above mentioned and the interest thereon hereafter to accrue at 7 per cent per annum the cost of this foreclosure and sale including the attorney fee provided for in said mortgage, I shall on the first day of March, 1897, at nine o'clock in the forenoon of said day at the front door of the court house in the city of Adrian Lenawee county Michigan (that being the building in which the circuit court for said county of Lenawee is holden) sell at public vendue to the highest bidder, all that certain piece or parcel of land situate in the Village of Tecumseh in the county of Lenawee and state of Michigan and described as follows, to wit: Beginning at a point in the south line of Chicago street in said village of Tecumseh, such point of beginning being at the same time at the northeast corner of a parcel of land formerly owned by T. T. Kneeland and more recently occupied by M. P. Henry, thence running east on the south line of Chicago street forty-one feet and three inches to land owned by George Merritt; thence south on west line of said Merritt's land ninety feet; thence west at right angles with the first course forty-one feet and three inches to the east line of said T. T. Kneeland property; thence north on east line of said T. T. Kneeland property ninety feet to the place of beginning.

Dated December 4th, 1896.

Joseph Russell Mortgagee.
Charles Burridge Attorney for mortgagee.

MORTGAGE SALE.

On the sixteenth day of February, A. D. 1898, Samuel Tarzelere of the village of Clinton county of Lenawee, Michigan, executed a mortgage to Sarah C. Rogers, of the village of Clinton, county of Lenawee, Michigan, on all that certain piece or parcel of land situate and being in the village of Clinton, Lenawee county, Michigan, and described in said mortgage as follows, to wit:

Being lot number five (5) on the plot in the village of Clinton as surveyed by Smith & Lapham for John Clark proprietor and now of record in the Registers office in and for the county of Lenawee in the state of Michigan. Said lot being eighty-four (84) feet front and rear and one hundred fifteen feet on its east and west lines.

That said mortgage was upon the 17th day of February, A. D. 1896, recorded in the office of the Register of Deeds of said county of Lenawee in Liber 111 of Mortgages on page 556.

Default has been made in the conditions of this mortgage and the note running in connection therewith, whereby the power of sale therein contained has become operative, and upon the same there is claimed to be due and unpaid at this date the sum of one hundred thirty four dollars and fifty one cents ($134.51) in addition to all other costs provided by law and in said mortgage for the foreclosure and no proceedings at law or in equity having been had or taken to recover the same or any part thereof.

Notice is therefore hereby given that pursuant to law and the terms of said mortgage, the premises above and in said mortgage described or so much thereof as may be necessary for that purpose will be sold at public auction to the highest bidder upon the twelfth day of April, A. D. 1897, at ten o'clock in the forenoon at the east front door of the court house in the city of Adrian in said county of Lenawee (that being the place and building for holding the circuit court of said county) to satisfy the amount then due upon said mortgage and note, the legal cost of foreclosure and the sale thereof.

Dated January 8 A. D. 1897

SARAH C. ROGERS. Mortgagee.
G. R. Gillespie, Attorney for Mortgagee.

ADMINISTRATORS SALE.

In the matter of the estate of Humbolt Pennington late of Macon, Michigan, deceased.

Notice is hereby given that in pursuance of an order granted to the undersigned as administratrix of the estate of Humbolt Pennington, deceased, by the Hon. Judge of Probate for the county of Lenawee in the state of Michigan, on the 28th day of December, A. D. 1896, there will be sold at public vendue to the highest bidder, at the late residence of said deceased situate on section 5 of the township of Macon, Lenawee county, Michigan, on the 27th day of February, 1897, at 10 o'clock in the forenoon of said day (subject to all incumberences by mortgage or otherwise existing at the time of the death of said deceased and also subject to the right of dower and homestead rights of the widow of said deceased therein) the following described real estate:

All those parcels of land in the township of Macon, Lenawee county, Michigan described as follows: The west half of the southeast quarter of section 5, of town 5, south of range 5, east—excepting all that part thereof lying north of the center of the Saline and Tecumseh road, so called, also further excepting a parcel of land thirty (30) rods wide north and south to be taken from off the south end thereof.

Also the north half of the east half of the southwest quarter of section 5, of town 5, south of range 5, east.

Also that part of the southwest quarter of the southwest quarter of section 5, of town 5, south of range 5, east bounded by beginning at the intersection of the east line of said southwest quarter of said southwest quarter of said section with the east line of the Saline and Tecumseh road, so called, thence southwesterly along the center of said road to a point 20 rods north of the south line of said section; thence west parallel with the south line of said section to a point 38 rods east of the west line of said section; thence north sixteen rods; thence west twenty-four and two-thirds (24⅔) rods to land of John Jackson; thence north parallel with the west line of said section to the north line of said southwest quarter of said southwest quarter of said section 5; thence east to the northeast corner of said southwest quarter of said southwest quarter of said section 5, thence south to place of beginning.

Also to the southeast quarter of the southwest quarter of section 5, of town 5, south of range 5, east—excepting therefrom all those parcels thereof to be taken from off the south side thereof heretofore sold and conveyed to other parties.

Reserving all the growing wheat on all the lands above described with right to harvest and remove the same.

Dated January 8, 1897.

CLARISSA PENNINGTON, Administratrix.

Sexine Pills

RENEW LOST VIGOR

When in doubt what to use for Nervous Debility, Loss of Power, Impotency, Atrophy, Varicocele and other weaknesses, from any cause, use Sexine Pills. Drains checked and full vigor quickly restored. HUNTER, GLENN & HUNTER, DETROIT, MICH.

PINGREE TAKES THE OATH.

Formally Accepts the Office of Governor of Michigan.

Lansing, Jan. 2.—Gov.-elect Pingree arrived at the state capital shortly before noon Friday, accompanied by Mrs. Pingree and a party of friends from Detroit. Precisely at 12 noon Chief Justice Long, of the supreme court, administered the oath of office to Governor-elect Pingree, who, as one not needing such a formality, as the new governor of Michigan. His simple, unostentatious ceremony added to his conspicuous personality by at once placing him in the anomalous position of occupying the office of governor and at the same time that of mayor of Detroit, which latter office it is understood he proposes to retain.

All precedents in the inauguration of state officers were overthrown and the governor-elect stood alone in the presence of the chief justice, with the exception of Land Commissioner French, who, seemingly, was the only other state officer-elect who had been invited to take the oath with Mr. Pingree. The others, uncertain as to the programme, had taken the oath of office at various times. Gov. Rich was the first to congratulate his successor, and a genial handshaking followed, participated in by those of the gubernatorial party and a few Lansing citizens who had come in to witness the proceedings. The first official act was affixing his signature to the commission of Joseph W. Selden, deputy secretary of state.

It was understood that Mr. Pingree had objected to the selection, and Secretary of State Gardner placed the commission before him with some doubt of the result. The expected storm did not arise, and the Rubicon was crossed. J. A. Tomlinson, of Lapeer, was appointed executive clerk in the governor's office and Leonard Slosson, of Reed City, clerk in the law department of the state library.

KILLED BY A WOMAN.

Prominent Michigan Farmer Is Shot Dead.

Harrisville, Mich., Jan. 6. — James Anderson, a prominent farmer and ex-under sheriff of this county, was shot and instantly killed by Mrs. Robert Dobson, the wife of a prominent farmer of Haynes township. Anderson was sitting in his buggy in front of the Huron house, when Mrs. Dobson stopped and began talking to him. The conversation lasted only a few minutes, and then the woman suddenly drew a revolver and fired four shots into Anderson's body, killing him instantly.

Mrs. Dobson was immediately placed under arrest. Her husband, who is one of the most prominent citizens of the township, is prostrated over the shooting. The motive for the killing was scandalous stories which had been circulated regarding Mrs. Dobson, and Anderson's refusal to deny them. Mrs. Dobson is very nervous, but exhibits no signs of regret for her action. In an interview she said:

"My motive for shooting Anderson was because he has brought horrible disgrace upon myself and family. I preferred death to facing the world with the stigma of shame he had brought upon me. While I was in Bay City last August Anderson followed me there and by the use of drugs caused me to do things that have disgraced me forever. When the drug was out of my system I determined to make Anderson deny the stories he had circulated regarding me or kill him. He obstinately refused to make any retraction whatever. To-day is the first time I have seen him since my return from Bay City, and you know what I have done."

TAX TITLES INVULNERABLE.

Decision by the Supreme Court Affects a Vast Amount of Property.

Lansing, Jan. 6.—The supreme court has made a ruling which renders tax titles practically invulnerable. Louis Sands, a wealthy Manistee lumberman, in common with other extensive owners of timber lands, has been wont to let his land be sold to the state for taxes, his programme being to contest the tax titles and have them set aside. A tract of his property was sold last year by the state for the taxes of 1891, and in Tuesday's decision the court affirmed the sale. The opinion says that all irregularities in the proceedings previous to the sale are foreclosed by the confirmation of the sale, and that the tax law was designed to make people pay their taxes. Hundreds of thousands of dollars' worth of property, scattered all over the state, is affected by the ruling.

William B. Smith Dead.

Grand Rapids, Jan. 4.—William B. Smith, proprietor of Smith's opera house, died Sunday, aged 54 years. He was born in Chillicothe, O., opened a music hall in Buffalo, moved to Saginaw in 1872, and established a theater there, managed a theater in Syracuse, N. Y., and in 1879 came to this city. He was the oldest manager in Michigan and one of the best known in vaudeville circles in the country.

Greatest Depth of Snow.

Marquette, Jan. 2.—The Marquette weather station had for many years the distinction of reporting the greatest snowfall in the United States. Snow lines on old weather maps showed Marquette as the radiating point. Last winter the deepest snow fell at Sault Ste. Marie, and the map was changed. Now the copper country is the place of deepest snow, Marquette seeming to be almost on the edge of the belt.

Calve Will Sing at Ann Arbor.

Ann Arbor, Jan. 6.—Musical circles here have been aroused by the announcement made by the University Musical society that Emma Calve has been secured as the leading soprano for the annual May festival. The other artists have not yet been announced, but it is assured they will be up to the standard, and the securing of Calve assures a great success.

Kalamazoo, Dec. 31.—Chief Simon Pokagon, of the Pottawattomie Indians, says the tribe has a larger claim against the government than the one just settled. It is for 5,000,000 acres of land in Iowa, which had been taken from the Pottawattomies without pay. Pokagon expects no difficulty in the settling of this claim.

HEAD-STALKED AVENS.

Must Be Destroyed Root and Branch to Get Rid of It.

The drawing represents a common weed belonging to the rose family. It is headstalked avens (Geum Vernum) and on account of the hooked tails of its seeds is somewhat troublesome, clinging to wool or clothing. The blossom is inconspicuous with five small yellow petals, five reflexed sepals and numerous pistils crowded in a conical stalked head, the stalk being at first short, but later quite prominent. The seed or achenia are flattened, about one-eighth inch long; the persistent style is nearly as long and at about two-thirds its length from the base is bent into a hook and from this the other third abruptly shoots out parallel to the longer part. As the seed matures the end of the style drops off, leaving the longer portion with its hooked end. The styles are smooth and weakish, so do not cling so obstinately to clothing as stick-tights.

HEAD STALKED AVENS.

The fruiting heads bear from 10 to 20 achenia (one seeded).

The leaves vary in shape, the stem leaves being lobed, with two irregular edged stipules at the base of the petiole; the root leaves on long slender stems are either like the stem leaves or rounded, with irregular serate edges, as if inclined to become lobed.

The plant has a sprangling habit, the long slender stems not standing erect, but ascending obliquely, and toward the top branching into irregular flower panicles, as shown in the drawing. The plant attains a height of one to three feet, and often covers considerable patches with its tangled mass of stems. The drawing shows how the plant sometimes has a creeping base, sending up two or more stalks. After the seed has ripened and fallen, the stalk dies, leaving only the root leaves green to furnish sustenance for the root during the remainder of the season.

The plant blossoms in April and May or into June of a late spring. The petals remain on but a short time and the seed speedily begins to ripen. It prefers rather shady places, like old orchards, thickets, fence corners, but often gets a footing in low meadows. It has usually been meadows bordering woods where I have noticed it in grass.

There are several kinds of avens, some bearing white, some yellow and some purple petaled blossoms, but the general characteristics of all are so similar that knowing one it is easy to recognize most of the others. Being a perennial, it is necessary to destroy it "root and branch" in order to be rid of it, and thorough cultivation is the most effective means of killing the roots where the weed has secured considerable access.—Harriet Moseb, in Ohio Farmer.

ORCHARD AND GARDEN.

One item in renovating an old orchard is to provide good drainage.

No fruit is more certain to give good annual crops than the strawberry.

Generally grapes give a good return for the land and labor required to grow them.

Wood ashes make a good fertilizer for strawberries, raspberries, currants and grapes.

The currant and gooseberry are grown, probably, with less trouble than any other small fruit.

A bent and crooked tree is always an eyesore. The time to train them is when they are young.

Clean up the orchard, saw and cut out the dead branches and burn or mote all rubbish so that it will not harbor insect pests.

Many injurious insects winter among the dead leaves and branches. The safest plan is to gather up and burn them.

On warm soils the buds of fruit trees often start early and are liable to be nipped by frost. Mulching heavily in the fall or early winter will largely prevent this.

It is not best to dig the hole for the tree any deeper than the tree is to be planted, otherwise it will stand in a puddle of water.—St. Louis Republic.

Peaches in the Garden.

Concerning growing peaches in the garden, American Gardening says: "The possibilities of well-cared-for trees in the home garden are scarcely to be imagined. If one build a small chicken yard about a newly set tree he may have the tree in bearing next year, and with a head equal to that of the ordinary tree set twice as long. The chance seedling, in rich and favorable situations, may give two bushels of choice fruit at four years from seed, without a particle of culture."

To Keep Rabbits from Trees.

Make a thick whitewash by dissolving a fresh lump of lime. When the lime is slacking add under cover a half pound of pine tar. When the wash is prepared add a fourth of a pound of powdered red pepper. Rake away the rubbish around the trees and apply the wash. Rabbits and mice will not trouble them. I have used it many years. It is a good protection from sun the next season.—E. Bodman, in Prairie

FORECLOSURE.

ON the seventh day of April 1893, Charles H. Mangas and Martha E Mangas mortgaged to Alice B Hardenburgh all that parcel of land situate and being in the township of Tecumseh in the county of Lenawee and state of Michigan, described as follows, to wit: All that part of the west half of the southeast quarter of section twenty (20) of town five (5) south of range four (4) east which lies south of the centre of the Sand Lake road formerly so-called, containing sixty (60) acres of the lands hereby mortgaged and conveyed, to secure the payment of the sum of fourteen hundred dollars, five years from the date thereof with interest from the date thereof at six per cent per annum payable annually, which mortgage was on the 8th day of November, A. D. 1893, duly recorded in the register of deeds office for Lenawee county, Michigan, in liber 139 of mortgages on page 000. And whereas said mortgage contains a provision that should any default be made in the payment of said interest or any part thereof on any day whereon the same is made payable as above expressed and should the same remain unpaid and in arrear for the space of sixty days, then and from thenceforth, that is to say, after the lapse of said sixty days, so much of the aforesaid sum of $ 00 00 as remains unpaid with all arrearages of interest thereon shall at the option of said mortgagee, her executors, administrators or assigns become and be due and payable immediately thereafter although the period above limited for the payment thereof may not then have expired.

Default having been made in the payment of said interest to the amount of $102.95, all of which has been unpaid and in arrear for upward of sixty days, the undersigned mortgagee, hereby elects to declare the whole amount due, both principle and interest, amounting at the date of this notice to the sum of fifteen hundred and two and ninty-five hundredths dollars ($1502.95) and no proceedings at law or in equity have been taken to secure the payment of the same or any part thereof

Notice is therefore hereby given that by virtue of the power of sale in said mortgage contained and of the statute of the state of Michigan in such case made and provided for the purpose of realizing the moneys so due and unpaid on said mortgage, and the interest thereon hereafter to become due at said rate the costs of this foreclosure and sale, including also the attorney fee provided for in said mortgage, the above described lands and premises will be sold at public vendue to the highest bidder at the front door of the court house in the city of Adrian, Lenawee county, Michigan, (that being the building in which the circuit court for said county of Lenawee is holden) on the 5th day of April, 1897, at 9 o'clock in the forenoon of said day.

ALICE B. HARDENBURGH,
Mortgagee.

CHARLES BURRIDGE,
Attorney for said mortgagee.
Dated January 8th, 1897.

Have You a Cold?

If so, then, instead of taking so much quinine and other strong medicines, take a pleasant and mild stomach and bowel remedy, which will cleanse the system, and you will be surprised how quickly the cold will leave you. Dr. Caldwell's Syrup Pepsin will do this better than any other. Trial size 10c (10 doses 10c), larger sizes 50c and $1, at Orr & Temple's.

BACK ACHE and RHEUMATISM relieved by Dr. Miles' Nerve Plasters.

MORTGAGE SALE.

Whereas default has been made in the payment of the money secured by a mortgage dated December 30, 1893, executed by John McLain and Jennie McLain, his wife, of Macon, Mich., to Brockwell J. Rector, of Tecumseh, Mich which mortgage was recorded in Liber 159 of Mortgages on page 332 on the 7th day of July, A. D 1894, and whereas the amount claimed to be unpaid upon said mortgage at the date hereof is the sum of Four thousand three hundred and eighty-seven and 6-100 dollars damages and no suit or proceeding having been instituted at law to secure the debt now remaining secured by said mortgage or any part thereof, whereby the powar of sale contained in said mortgage has become operative

Now therefore notice is hereby given, that by virtue of the said power of sale, and pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises therein described at public auction to the highest bidder at the front door of the court house in the City of Adrian in said county of Lenawee on the 25th day of March, A. D. 1897, (that at ten o'clock in the forenoon of that day which said premises are described in said mortgage as follows:

Situated in the township of Tecumseh Lenawee County, Michigan, and described as the south half of the northwest quarter of section twenty-three of town five south of range four east, containing eighty acres of land more or less.

Dated December 16, 1896.

for sale by

D. L. Whitenack & Co

The Tecumseh Herald.

TECUMSEH, MICH., JAN. 5, 1897.

SPECIAL NOTICES.

FOR SALE CHEAP—A 6-horse engine and 12-horse steam boiler. For particulars inquire at the HERALD office

Great skating.

Daniel Frost has been granted an original pension.

Walt Burridge was in Napoleon Wednesday on legal business.

Charles Burridge is reported as gaining in strength every day.

Dr. D. W. Loree, of Ridgeway, was a Tecumseh visitor Wednesday.

Mrs. Irve Finch, of Adrian, was in town between trains yesterday.

D. St. John and wife, of Clinton, were in town yesterday calling on friends.

R. S. Moore was in Adrian Tuesday on business with the Register of Deeds.

Mont L. Van De Mark, of Detroit, was calling on his old Tecumseh friends Monday.

You can buy a cape, coat or jacket at Harris & Hiteshu's for less than making cost.

Arrangements are in progress for a visit from the Jackson Masons in the near future.

J. D. Hause, A. H. St. John and H. Saxton, of Clinton, made Tecumseh a visit yesterday.

Several Tecumseh young gentlemen attended the Masonic party at Blissfield New Years.

Mrs. James Woodward, of Clinton, visited her parents, Mr. and Mrs. Alfred Jackson, Wednesday.

Thomas Elliott is in Adrian this week attending the January meeting of the board of supervisors.

Died—Suddenly on Sunday afternoon, Jan. 3, 1897, Enoch Tindall, aged 77 years, 5 months, 20 days.

The next number of the Star course will be the lecture by Dr. Gunsaulus, of Chicago. This is the fourth.

The week of prayer at the Presbyterian church has been largely attended and with very manifest interest.

At a meeting of the stockholders of Tiffany Iron Works, Tuesday, the old board of directors was re-elected.

George Clark, of Steel, North Dakota, was shaking hands with old Tecumseh friends the fore part of the week.

Lawrence Samsen expects soon to go on the road for Paige, Chope & Booth, wholesale paper dealers of Detroit.

The remains of Mrs. John Day, whose funeral took place at Macon Tuesday, were deposited in the cemetery here.

Wanted—Within the next 10 days, 20 pigs weighing 60 to 80 pounds. Please call or drop us a line. Dickinsen Bros.

Mrs. Wm. Hayden and Capt. Will H. Hayden leave Grand Rapids this evening for Austin, Texas, to remain the winter.

Ministers' meeting in the parlors of the Baptist church Monday at 2 p. m. Rev. B. S. Hudson will read a paper on "Prayer."

Mrs. E. S. Tate, of Clinton, came down to attend the Star meeting last evening. She was the guest of Mrs. J. D. Shull.

Arthur Potter, after a two weeks' visit with former Tecumseh friends, returned to his home in Ann Arbor yesterday.

Mrs. C. A. Kilborn, of Waukegan, Ill., left this morning for her home, after a week's visit with her parents, Mr. and Mrs. J. H. Mills.

For a nice form buy a Henderson corset. ANDERSON & ROSACRANS.

Mrs. Will Sisson and children arrived home from Chicago Monday. They enjoyed a fine visit with Mr. Sisson's people in that city.

Mr. and Mrs. Young, of Chicago, returned the early part of the week. They have been spending the holidays with Dr. and Mrs. Jenkins.

Company "C" has arranged to give a series of four club parties the first of which will occur some evening the latter part of next week.

No matter what paper you desire it can be ordered at the HERALD office. Reduced rates on every paper which allows any commission.

Mr. and Mrs. C. M. Burlingame returned to Coldwater Monday after a very pleasant visit with old friends and acquaintances in Tecumseh.

Subjects at the Baptist church Sunday morning January 10th, morning. "The Twentieth Century Call;" evening, "Formalism and Hypocrisy."

A meeting of the poultry fanciers is called at the Herald office for business Saturday evening, at 7:30 city time, for the purpose of starting an institute. All are invited.

Henry Jones is building an addition to his Chicago street store now occupied by G. H. Tansley and has leased it for five years to M. E. Bice. Mr. Tansley will move to the Heesen store and both places will be fitted up in modern shape.

H. A. Stacy of Newburgh, enjoyed quite a queer experience Wednesday. He and another man were chopping in the woods at the other end of the farm, and by a misdirected stroke of the ax "Al" cut a deep gash in the sole of his rubber. He examined the gash and thought certainly the cut must have extended deep into the foot. He felt the blood in his boot and suffered much pain, finally started for the house and on account of faintness from loss of blood, frightened the entire family nearly to death. Finally with much difficulty his wife succeeded in removing the boot only to discover that the foot was not even scratched. Mr. Stacy is now a firm believer in Christian science.

Dr. L. G. North was an Adrian visitor Tuesday.

J. M. Jones made a business trip to Dundee Tuesday.

Mrs. Oscar Palmer has returned from her visit with Jackson friends.

Ralph Bidwell returned to his school duties in Wisconsin Wednesday.

Miss Nettie Keyser, of Clinton, visited Tecumseh relatives last week.

Remember the 1st degree will be conferred at Masonic temple tonight.

Fred Aldrich and family arrived home from their Hillsdale visit Monday.

E. J. Temple and family spent New Years at Ridgeway with his parents.

Harry Spalding returned to Milwaukee and Joe Everett to Chicago Saturday.

Prof. and Mrs. I. D. Loree visited his parents at Ridgeway a portion of the week.

John Chamberlain, of the bankrupt store, spent Sunday with his family at Adrian.

Al Paxson spent several days the past week at Cincinnatti and intermediate points.

Mrs. Perry Hosmer is enjoying a visit from her sister, Mrs. Blackmar, of Cambridge.

The Forresters, as a body, will attend St. Peter's Episcopal church Sunday evening.

Sam McClure, of Adrian, visited his friends here in a social way the last of the week.

Mrs. J. S. Gilman visited her daughter, Mrs. Gilmore, in Macon township, this week.

Capt. and Mrs. Chilson left Saturday morning for a two weeks' visit with Ohio friends.

Sant Cutting and Tom Lowry are home from Blissfield where they were helping John Karner.

Don't miss Anderson & Rosacran's clearing sale.

George Graves, of Milwaukee, arrived here Tuesday morning, called by the death of Enoch Tindall.

B. C. Ellis and Bert Blood, of Toledo, passed New Years among their respective relatives and friends.

Prof. J. W. Cupples, after a brief visit with his parents, returned to his home in Ludington Friday last.

Charles Heck and family, who passed the holiday season with South Bend relatives, came home Monday.

R. A. Heesen and wife reached home Monday, from South Bend, Ind., where Mrs. H. had been some weeks.

Henry Tindall, of Denver, Colorado, reached here Wednesday morning to attend the funeral of his father.

Mrs. Harry S. Lee returned Monday from Kalamazoo, where she passed the holidays with her brother James.

The home of Postmaster Kyle contained a large and happy company of Mrs. Kyle's relatives New Years day.

Dr. and Mrs. Beem, late of Oscoda, Mich., are now in Tecumseh and we understand the doctor will practice here.

Miss Hattie Montgomery, of the HERALD force, was confined to the house by illness several days the past week.

Vincent Wood expects to leave the first of the week for Oskaloosa, Iowa, where he will engage in evangelistic work.

John Curry spent Tuesday and Wednesday with relatives at Cone. A nephew of his was very severely injured recently.

Will Orr has been confined to the house with rheumatism the past week. He thinks he could find more agreeable companionship.

Miss Nora Charles, who has been spending the holiday season at home, returned to Cleveland the last of the week to resume her duties as teacher in a kindergarten school.

Charles VanAntwerp, we are informed, is now in Cleveland attending what is known as the Walter Malone training school. He contemplates fitting himself for the work of an evangelist.

Rev. Walter S. Aldrich, of Adrian, has been engaged to occupy the pulpit of the Friends church for a few weeks. Meeting both morning and evening each Sunday. All are welcome.

Mrs. James Westcott, after a week spent with her father-in-law, Hiram Westcott, and family, returned to her home in Cleveland the last of the week. James only remained here over Christmas.

The Raisin and Palmyra township Sunday School Union will meet at the Raisin center Friends church Saturday, January 9. Basket dinner. Tea and coffee will be served by the ladies of the church.

Invitations are out for the wedding of Rev. James C. Hageman, of Dundee, and Miss Olive Mead, which takes place Thursday, January 14, at the home of the bride's parents, Mr. and Mrs. Thos. Mead of Raisin.

Harry U. Kies demonstrated his loyalty and zeal to Company C Tuesday night when he braved the elements and rough roads to attend drill. For coming and going the distance must have been over twenty miles.

Howard Whelan, who has been with his mother since his father's death, left Tuesday morning for Detroit, where he has accepted a position in the county clerk's office which he considers to his advantage in various ways.

Master Clyde Curry, who recently came into possession of a snare drum, has already become a skillful drummer. The progress he has made is really wonderful considering he is but nine years of age. Christmas eve at the Presbyterian church he delighted all with his executions. He has met with the bad boys twice for practice and did so well that henceforth he will play with that aggregation of skillful musicians. Clyde is certainly a prodigy with the sticks.

Delos LeBaron, of Toledo, is in town today.

Rev. B. S. Hudson made a business trip to Adrian Monday.

Horatio Keyser and wife are guests at Charles Dawley's today.

Miss Camilla Mead has been visiting friends at Ann Arbor this week.

Prof. and Mrs. I. D. Loree return to their home at Lawrence in the morning.

Miss Jane Adair Corlett, of Toledo, is the guest of Mrs. P. W. A. Fitzsimmons.

Mr. and Mrs. Will H. Niblack, of Clinton, were Tecumseh visitors yesterday.

Miss Sadie Comfort has gone to Kansas City, Missouri, for a visit of some months.

Mr. and Mrs. A. P. Coddington were guests of Detroit friends several days last week.

Mr. and Mrs. Charles Morgan Hewitt, of Chicago, are visiting their aunt, Miss A. M. Hewitt.

You can buy goods at Harris & Hiteshu's at manufacturer's cut prices. Month of January.

Mrs. J. M. Jones and Wade, who returned from Detroit the last of the week, report a delightful time.

F. B. Wood has rented a house on Maiden Lane and will make Tecumseh his home for some months at least.

Mrs. George Teachout and Mrs. Fred Aldrich attended the funeral of Mrs. Barris, a niece of the former, at Wolf Creek, today.

Mr. Hall, of Hudson, who organized the K. P. lodge in Tecumseh, was here last evening and assisted in the installation of officers.

Mrs. Alfred James, Jr., and children, who have been with her mother, Mrs. O. B. DeWolf for some time, return to Detroit in the morning.

Raynor Anderson is now in New York City and will make that city his home, having a situation with a manufacturing establishment.

Alva Spayde announces a 20 per cent discount sale on boots, shoes and all leather goods. Now is the time to take advantage of such prices.

Rev. W. R. Blachford has kindly invited the members of Court Pottawatamie Independent Order of Forresters to attend church Sunday evening January 10th.

Mrs. Tiffany has been taking special instructions in Toledo, and will on Saturday, Jan. 16, start a class in dancing. For terms apply at her residence on Chicago street.

Harris & Hiteshu announce a grand clearing sale to commence at once. Their Sales always mean business and this firm never advertises anything they do not intend to fulfill.

Miss Helen Anderson quite seriously hurt her foot by some accident last week and will be unable to use it again for some days. She will not return home but remain at Vassar.

There will be communion of the Lord's supper and reception of members at the Presbyterian church next Sunday morning. Evening topic will be, "Easily understood beliefs."

The chicken-pie supper at the Baptist church drew the hungry in large numbers. The pies were many, large and elegant and the way they were disposed of was a caution. The receipts were nearly $30.00.

Subjects at the Universalist church Sunday, January 10, morning, "Justice as a Religion;" evening, a character study in American history—U. S. Grant. Y. P. C. U. business meeting at Miss McNeil's at 7 o'clock Monday evening.

Dr. M. F. Stein has had so much optical business to attend to that he will be unable to get through in Tecumseh this week and will return next Tuesday and remain at the Lilley House Tuesday, Wednesday and Thursday of next week.

Wade Waring was shaking hands with his friends today. He had been visiting his parents and stopped over night here with Ernest Elliott and returned to Toledo this evening where he has a position with the dry goods house of Davis Bros.

The remains of Edmund L. Hubbard, who died at the home of his son Asel, in Henrietta, Jackson county, arrived here for interment Wednesday afternoon and were taken in charge by Beers Post, G. A. R., who conducted the services at the grave.

Frank H. Hall, son of A. D. Hall who for a long time has held a government position at Washington, D. C., was Jan 1st promoted to the position of expert agriculturist with a salary of $1500 per year, not a bad New Year's present. His friends here rejoice in his advancement.

The Frost & Fanshaw company have been giving good entertainments at the opera house this week. The members are all clever artists. To-night the attraction is "Two Orphans". Matinee to-morrow afternoon when Naval Engagements will be given and each child present will receive a bag of candy. They close their engagement here to-morrow night with "Peck's Bad Boy." They deserve crowded houses.

At a special meeting of the Eastern Star chapter last evening, the officers appeared for the first time in their robes while conferring the degrees, and the effect was all that could be desired. The ladies, while at all times attractive, were, in their robes, charming, and exemplified the work in a faultless manner. Their floor movements were new, graceful and elaborate, and the large company present were delightfully entertained. After the work, a fine banquet was served. It was decided impracticable to accept the invitation from the Jackson chapter to pay them a visit January 19th, but they may do so at some other time ere long.

George Greenwood, born at Malden, Mass., in 1820, lived to a good old age but never sprouted a single hair on either head or face.

Enoch Tindall.

The village was startled Sunday afternoon by the news of the death of Enoch Tindall.

He was one of the early pioneers, coming to Tecumseh with his parents in 1831, where he spent 64 years of his life; saw the village grow from its infancy to its present proportions, and had always been identified with its prosperity. For a time he was a dry goods merchant, later in the elevator business. When the Lake Shore road was extended through here he was appointed and served as the first station agent.

He was twice married, his first wife living but a few months. January 23, 1851, he married Mrs. Caroline L. Graves, who died April 13, 1886. One child survives him, J. Henry Tindall, now of Denver, Col.

Mr. Tindall has always been an ardent christian, was united with the Presbyterian church of this place while yet a lad. For many years he served as elder and clerk of session.

For some months he has not felt well, but last Sunday morning he attended church and Sunday school, as was his custom; told some friends he then met that he felt better than usual. He left Sunday School, went to his home, placed his bible and lesson leaf on the table, sat down in an easy chair, his overcoat still on, and fell asleep. He had often said that when his time came, he wanted to go suddenly. His prayer was answered, and he went from service on earth to that complete and perfect service above. The funeral occurred Wednesday, from the Presbyterian church. The pastor made a few brief remarks, the choir sang his favorite hymns, the session acted as pall bearers and laid the body of their predecessor to rest in the village cemetery.

High School Happenings.

Harold Hoag has rejoined the high school ranks.

Fred Burrell visited the seventh grade Monday afternoon.

Edith Neely was absent from the B room Monday and Tuesday.

Ralph Bidwell called on several of the high school rooms Monday.

Jennie Gillespie has been compelled to leave school on account of ill health.

I. D. Loree inspected the work in the various rooms of the high school Monday.

Perry VanValkenburg has left school to begin farm work. We are sorry to lose him.

Minnie Russell, of the class of '96, dropped in for a short time Wednesday afternoon.

Arthur Potter, of Ann Arbor, called on the A room Wednesday afternoon, as the guest of Albert Lowry.

A number of new pupils have entered the primary and grammar grades. Several of the rooms are quite full.

Several of the classes have begun review work preparatory to final examinations at the end of the month.

Miss Keavy was elected secretary of the state association of music teachers at its meeting in Lansing last week.

Miss Monagin returned from Texas in time to begin her work Monday morning. She reports a fine climate.

Miss Wiley being absent from her place in the grammar grades on Monday, Miss Mamie Osborne taught her branches.

The chorus classes in music, that meet after school, are supplied with new codas and judging from the spirit of the singing they are enjoying the work.

The C., J. & M. Sold.

"A special from Van Wert to The Blade says:

'The Mackinaw railroad was sold here at 1:16 this afternoon to C. S. Brice. The consideration is $1,000,000.'

This is thought to have been the crucial test for Mr. Brice. If it is true that, as stated in the dispatch, Mr. Brice's people have purchased the property, it is a decided victory for the Senator. It is known that there has been an element at work in Wall street to destroy Mr. Brice's influence among the men who have stood behind him in his projects. If Mr. Brice's enemies could induce his people to withdraw their support of him in this enterprise, it was believed that they would have him on the 'run.' This would not only lose for Mr. Brice the control of the C., J. & M., but might effect his interest in other lines."

This is as was anticipated and now the coming of the Lima Northern to Adrian and Tecumseh is assured if the bonuses are raised.

Advertised Letters

Remaining uncalled for in the Postoffice at Tecumseh, Mich., Jan. 5, 1898:

Mr. J. M. Curtice, Sarah Barker, Sarah P. Barker, Miss Bessie Marr, Lewis Moxson, G. Wilkinson, W. Fornefelt, Chas. E. Beck, Esq., E. R. Beck & Co.

Persons calling for letters in the above list will please say "Advertised."

T. R. KYLE, P. M.

Lake Shore Calendar for 1897.

The 1897 calendar of the Lake Shore & Michigan Southern Railway is one of the most pleasing and unique calendars ever issued. The design is a government mail pouch (the Lake Shore's trade mark) richly printed in brown and gold on heavy enameled card board, size 8 by 15 inches. It will be sent free anywhere on receipt of six cents in postage to cover mailing, by applying to A. J. Smith, Gen'l Pass. & Ticket Agent, Cleveland, Ohio.

Mrs. Woodward will sell a part of her household goods at private sale, for the next two weeks. Residence, 50 Chicago street.

—Come quick if you want some shingles at cost, most all gone. Some lumber for sale very cheap. Two good houses to rent cheap. A. W. SLAYTON.

—I want to borrow some money for two or three years on good security and will pay interest semi-annually. Drop a card to Lock Box 15, for further parculars.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

ELY'S CREAM BALM is a positive cure. Apply into the nostrils. It is quickly absorbed. 50 cents at Druggists or by mail; samples 10c. by mail. ELY BROTHERS, 56 Warren St., New York City.

"In no way can Americans so effectively inform themselves on the subjects that call for public attention from one month to another as by reading the NORTH AMERICAN REVIEW."

IN THE
NORTH AMERICAN REVIEW
YOU WILL ALWAYS FIND
The Right Topics,
By The Right Men,
At the Right Time.

THE TOPICS are always those which are uppermost in the public mind—in MORALS, POLITICS, SCIENCE, LITERATURE, BUSINESS, FINANCE, INDUSTRIAL ECONOMY, SOCIAL and MUNICIPAL AFFAIRS, etc.—in short all subjects on which Americans require and desire to be informed. No magazine follows so closely from month to month the course of public interest. All subjects are treated impartially on both sides.

The Contributors to the REVIEW are the men and women to whom the world looks for the most authoritative statements on the subjects of the day. No other periodical can point to such a succession of distinguished writers. The list is a roll of the people who are making the history, controlling the affairs, and leading the opinion of the age.

The Time when these subjects are treated of by these contributors in the REVIEW is the very time when the subjects are in the public mind.

The Review is the only periodical of its kind which has a recognized place as A FAMILY MAGAZINE.

This is because it devotes so much attention to subjects that are of particular interest to women.

Subscription Price, $5.00 per Year.

THE NORTH AMERICAN REVIEW
291 Fifth Ave. New York.

Figs for dipping purposes is far better when dilcted.

"An ounce of prevention is better than a pound of cure." Dr. Wood's Norway Pine Syrup prevents consumption by curing colds, and all similar lung troubles.

Neck ruches are indispensable even in hot weather.

Free Pills.

Send your address to H. E. Bucklen & Co., Chicago, and get a free sample box of Dr. King's New Life Pill. A trial will convince you of their merits. These pills are easy in action and are particularly effective in the cure of Constipation and Sick Headache. For Malaria and Liver troubles they have been proved invaluable. They are guaranteed to be perfectly free from every deleterious substance and to be purely vegetable. They do not weaken by their action, but by giving tone to stomach and bowels greatly invigorate the system. Regular size 25c per box. Sold at Baker & Hall's drug store.

No less than 1,558 patents have been taken out on knitting machines.

Even catarrh, that dread breeder of consumption, succumbs to the healing influences of Thomas' Eclectric Oil.

Wyoming and Nevada have less than one inhabitant to the square mile.

POINTS BY PINGREE.

Message of the Governor to Michigan's Legislature.

He Urges Reduction of Railway Fares and Reform in the Tax Laws—Trusts Denounced—Lobbyists Scored—Safer Banking Laws Needed.

Lansing, Mich., Jan. 7.—The following is the message of Gov. Hazen S. Pingree to the Thirty-ninth Michigan legislature:

I desire to urge upon you as the law-making power the necessity which exists for the amendment of several laws of the state, for the repeal of others, and for the enactment of a few which I deem of vital importance. As representatives and servants of the people, let us endeavor to work harmoniously, with no object in view but the public good. Michigan ought to stand in the front rank of progressive states. Her people desire that she should. Just laws will aid her; unjust laws will retard her. Whatever stumbling blocks have heretofore been placed in her pathway should be removed. The labor of removing them will not be an idle pastime. It will require united and persistent effort on our part. It remains to be seen whether we shall be equal to the great work. It is within your power to make the coming session of the legislature an ideal one. This can be done by the enactment of a few laws which will meet the approval of all patriotic citizens of this state and the commendation of every true member of our great republic.

Primary Elections.

If we would inaugurate reforms in our state government we must commence where the governing power originates, in party organizations and conventions. I would recommend that the political party caucus laws already upon our statute books be so amended as to abolish party conventions. If political corruption exists its origin can here be found. The true theory of party organization is that the best men should be chosen for election to office. This theory cannot be carried out under the present system. The caucuses and conventions have become the means by which the few obtain power and place. Under a representative form of government, the people should have free choice of their representatives. Any obstruction to such free choice should be removed.

HAZEN S. PINGREE.

Syndicates of office seekers are formed, corrupt combinations are made, delegates are bought and sold, promises of positions to unworthy men are often of necessity made, and the example is set before us that those who in the ordinary walks of life pass for honorable men enter upon the duties of public office under a cloud of suspicion and shame. The convention has become the medium of trickery, bribery and fraud. The higher criminal is here developed. The direct vote of the ballot holder for party candidates is the simplest means of expressing preference for representatives. If the people make mistakes they alone are to blame. The direct vote and the Australian ballot system is of less cost to the people than the convention system. It is remarkable that so great has been the power of the few and ambitious that in a nation having a representative form of government as composed of states, but two of those states vote direct to put party candidates in nomination, while every Canadian province has the direct vote, and for that reason is so much nearer the ideal republic.

Taxation.

The question which is always present and is never solved in any state or municipal government is the question of taxation, direct and indirect. Taxes are burdens which must be borne. The theory of the republican form of government is that they are borne equally by all owners of property in proportion to their wealth. If this principle does not prevail the government has favorites, and therefore it is not republican. All exemptions and variations from this fundamental principle should be upon lines of public policy and for the greatest good of the greatest number. The cost of government of the state should be lessened by the reduction in the charges of departments and of state institutions, proportioned to proper maintenance and administration, and to the reduced cost of living incident to the general decline of values. I also recommend, in order to the proper distribution of the public burdens, that all forms of wealth bear their just proportion of taxation. The policy of continuing the system of specific taxation of corporations as the sole resource of the state from such organizations which originated when the state was new and which favored the promoters of needed works for small and scattered communities has long been regarded with disfavor by the people of this state, who contend that the time has arrived when the well-known inequalities of taxation should be adjusted and proportioned according to values.

There is nothing new or novel in this recommendation. In 1877, Gov. Bagley took occasion in his address to the senate and house of representatives to emphasize the inequalities of specific taxation of corporate property, which he contended should be taxed locally according to its value like other property. In the same year Gov. Croswell recommended improved methods for uniformity in levying taxes. In 1887, Gov. Luce recommended the equalization of taxation and in 1891 recommended, for purposes of revenue, a tax on bequests, on corporations and an income tax. In 1891 Gov. Winans recommended equalizing taxation as between classes of property paying specific taxes and property under assessment, claiming that the assessed property pays double the tax paid by property upon which specific taxes are levied. He favored the local taxation of corporate property and doubted the policy of exempting any property from equal taxation.

It will thus be seen that the contention of the people against the system of solely specific taxation of corporations found expression at the capitol through several of the governors of the state regardless of party and as early as the seventies, and that the recommendations were in favor of taxing the property of the corporations as other property is taxed. The question, therefore, is one no longer for debate but for enactment, action since it has been under consideration for 20 years. While I do not believe that the system of specific taxation and the method of its distribution in support of the common schools should be disturbed, I recommend that steps be taken in the form of local or general legislation to make corporations bear their proper share of taxation.

Fixing Railroad Tolls.

The right of the legislature to fix the maximum rate for passenger fares has been exercised ever since the first general enactment as to railroads, in 1855. In 1870 the people of the state amended the constitution, expressly conferring upon the legislature the power to fix such maximum rates.

"The legislature may from time to time pass laws establishing reasonable rates of charges for the transportation of passengers and freight on different railroads in the state." (Article 13-A, Paragraph I.)

In 1873 there was a general revision of the railroad laws and certain rates were fixed. Afterwards were made changing rates at various periods up to the final amendment in 1891, and generally speaking there has been a reduction of rates by legislative enactment.

It will thus be seen that any proposed reduction of railroad passenger rates of fare or of freight charges has its precedents in the changes made from time to time in the past history of these corporations. The right of the legislature to fix the maximum rates has been contested by interested corporations, and the supreme court has held that the legislature has the right to fix such rates. At the present time inequalities of passenger fares exist which should be adjusted by the legislature. Thus, for example, the Chicago & Grand Trunk railway is confined to a local passenger charge of two cents per mile, while the Michigan Central and Lake Shore roads are permitted to charge a local fare of three cents per mile. It is also commonly known that passengers traveling from station to station in Michigan are charged more by the railroads than passengers who travel through the state from outside points. A passenger arriving in Detroit having paid two cents per mile over the New York Central and subsequently finding it necessary to go to Jackson pays a local fare of three cents per mile on the Michigan Central, which is part of the same general line of road owned by the New York Central people.

What is true of discriminations by railroads in favor of through passengers as against local passengers, and of discriminations by the state in favor of one railroad as against another in the matter of maximum passenger rates, is true as to discriminations by railroads in favor of terminals as against local stations in the same state. All of these inequalities of charges are within the power of the legislature of Michigan to correct. And their correction, in my firm belief, would prove to be for the benefit of the railroad companies as well as for the people of the state. I therefore recommend that the legislature take into consideration the question of passenger fares at two cents per mile for Michigan.

The Referendum.

The referring of important acts of the legislature to a popular vote for final adoption by the people is the extension of the well-known principle underlying the practice in this state of referring proposed changes of the constitution, and in certain local cases, matters of extraordinary expenditure involving the issue of bonds, to the vote of the people. I am not prepared to state how far opinion favorable to the extension of this method of legislation has penetrated the state generally, but I am acquainted with the opinion of the people of the city of Detroit, which is favorable to its extension to the granting of street railway and other quasi-public franchises as a check upon corrupt public officials in cities.

Trusts and Combinations.

There is growing up in this country a system of trusts and combinations which is becoming more and more impudent and extortionate. Its influence is felt in the home of every citizen. The necessities of life are made instruments of oppression in the hands of those who reap a rich reward from the weak and the helpless. Such trusts and combinations destroy competition and throw thousands of worthy people out of employment. For this reason the consuming power of the people is destroyed and the producing power to just that extent is affected. Such combinations are illegal upon the broad grounds of public policy, but wholesome laws should be enacted against them. I do not propose to suggest the form of the laws nor the penalties for their violation, but they cannot be too strong. In the presence of a threatened destruction of individualism and the liquidating of the spirit of independent effort in it is high time that the makers of the laws should be the people's representatives, whose names are upon the roll of your houses, and not members of a third house who infest the halls of legislation for evil purposes.

It has been rumored that Michigan has been selected as the field for the operation of a company controlling vast amounts of wealth to obtain possession of the mineral resources of the state, and in connection therewith to control the shipping interests of the great lakes. Prices will be reduced at first, of course, but in the end the people will be made to suffer. Heretofore the waterways of the state have been instrumental in keeping down freight charges on railroads, but if the enterprising interests pass into the control of one gigantic company, it needs but one more step to stop competition between the railways and vessel men. If upon investigation I find that we are seriously threatened with this danger, I shall in some future message communicate with you upon that subject.

State Should Control.

We should be extremely jealous of the reputation of our business interests. All investments should be given such guarantee of safety by law as to inspire confidence in those who deal with us. Capital should be encouraged to invest in the development of our varied resources. Investments made within the state should be governed and protected by wise laws and not be disturbed by frequent changes in the laws that govern them. The burden of taxation should be equally distributed, all property bearing its just share. The issuing of stocks and bonds should be so regulated that when the investor seeks for proper security he will find that the state has guarded him in his investment against the purchase of artificial values by way of watered stocks and bonds. Legislation on this subject need not be untried or experimental; in fact, it doubtless would be wise to adopt in some measure the laws of older states if a precedent can there be found. It is in your power to materially aid owners of corporate property in Michigan in disposing of their securities if you will pass such laws as will protect the investor therein by making the sale of securities open and at a lower rate of interest. All legislation of this character should commend itself to sound business discretion.

Under the laws that now exist manufacturing and other corporations are permitted to do business after having paid in ten per cent. of the authorized capital, without the residue being subscribed for, and upon this payment of ten per cent., and upon the strength of the authorized capital, and the fair standing of the men connected with the corporation, and possibly to some extent the fair prospects of the business, large credit has been obtained by the corporation, in some cases many times larger than the actual capital paid in. The practical workings of this law are unsatisfactory to creditors, because in many instances the creditor, after the corporation has failed to be successful, has been found to be the largest investor in the corporation, in order to protect his claims. I therefore recommend that you increase the responsibility of the stockholder by making him individually liable for such debts as are incurred beyond the amount of capital actually paid in, at least up to the amount of the authorized capital of the corporation. In other words, when a corporation obtains authority to do business with a certain amount of capital, that capital should exist in good faith for the security of the creditor.

In the case of banking corporations, much greater liability of the stockholders exists under the law, with very satisfactory results to the creditors of the banks and to the people generally. In this connection it would be well to consider such supervision of corporations by a corporation commissioner, whose duty it shall be to ascertain what the exact available assets of a corporation are before it is permitted to enjoy corporate privileges and enter upon the business for which it is created.

Great care should be used in preventing corporate bodies from coming into existence on values that are artificial. The price for which its first issue of stock shall be sold might safely be fixed by law as an additional safeguard against deception. Accurate and detailed reports of the exact condition of the corporation and the value of its assets should be made at stated periods, and statements made by them in that behalf should be carefully examined and scrutinized by competent authority, and if it is found that, notwithstanding the value placed upon the assets of the corporation by itself, it is as a matter of fact insolvent, it should be prohibited from doing business. In short, I deem it as important that all corporations dealing with the public should be under the supervision of a competent state official as that railways and banks should be under the supervision of the proper officials. In some of the older states this plan has been carried out with great success and without expense to the state by the charge of such a reasonable inspection fee as is not burdensome to the parties paying it, and for which they receive full value by having a statement of their business and assets made by an expert.

I am not unmindful that there are some legitimate advantages in organizing partnerships and other enterprises into corporations. The death or withdrawal of a partner sometimes compels the winding up of the affairs of a partnership. This and several other inconveniences are obviated by converting the partnership into a stock corporation. While partnerships are often thus converted into corporations for legitimate purposes and with honest intentions, it is equally true that this opportunity afforded by the law is seized by the dishonest for the purpose of avoiding individual liabilities for debts contracted in the conduct of their business, and thus cheat their creditors out of their honest dues. Many worthless corporations are organized, electing for its president a person of well-known financial strength, thus giving to this institution a fictitious credit. When the affairs of the concern become involved and creditors seek to get their money, it is found that the aforesaid president has only a few dollars stock in the concern and therefore is only liable to the creditors for a small amount. The creditors are thus swindled by the use of the rich man's name.

There is an easy remedy for all this—the law should make a distinction between public and quasi-public corporations, and those which are strictly private; the latter should, in my judgment, for convenience and distinction, be designated as joint stock companies and all holders of stock in such companies should be liable for the debts of the concern precisely the same as though they were partners. All the honest advantages of a corporate existence can thus be obtained, while at the same time the public is protected from the swindling operations of those who organize a corporation for dishonest purposes. I recommend that a law be passed, substantially embodying the views above indicated.

While we should not of necessity select the railway of the state to prove the great inequality of our present distribution of taxes and present burdens, yet I have the figures at hand with reference to these railways, and because there has been a supervision of them by the public, and the facts have at least become partially known, I submit the following statement taken from the report of the railway commissioner for 1895, which I am sure will be of interest to you in determining what your duty to the people of the state may be with reference to the question of taxation. The figures are taken from page 56 of the railway commissioner's report for 1895: The gross earnings of the companies from all sources were $29,307,508.93; upon which there was collected a total tax of $620,929; and as I compute it the percentage of taxation on gross earnings is .02118.

Page 61 of the commissioner's report gives the following total tax for Michigan, under the present system of tax of gross earnings: 1890, $812,969.63; 1891, $804,324.12; 1892, $803,762.61; 1893, $811,056.65; 1894, $778,132.82. Showing that railway companies in Michigan are paying taxes under the gross earnings system in exact proportion to the conditions of their business, thereby increasing the taxes on all assessable property during the period of decreased earnings.

A like inequality of taxation under our present system applies to telephone, telegraph and express companies. Concerning the latter I call your attention to the fact that while the earnings of these companies are very large the amount of assessable property, either real or personal used in their business is very small compared with the earnings.

I submit also herewith a statement obtained from the reports of the auditor-general and of the railway commissioner showing the inequality of taxation of railway properties in this state. The items contained in the statement as obtained from the railway commissioner's office are taken from the report not yet published:

"The total cost of railway property in the state of Michigan in the year 1895, according to the report of the railway commissioner (not yet in print) was $146,782,427.90. The railway companies paid during the year in specific taxes $741,645.77, or a fraction more than two and one-third mills on the dollar.

"The total value of real and personal property in the state in the year 1895, as equalized by the boards of supervisors, was $818,686,109, and the taxes levied for the same year for state, local and all other purposes (as shown below) amounted to $20,-635,571 61, or a fraction less than two and one-half cents on the dollar.

"The taxes were as follows:

State tax	$ 2,619,227 82
County taxes	2,791,060 00
School taxes	5,491,677 47
Township and city taxes	7,473,806 33
Liquor taxes	1,879,291 62

From this statement it will appear how unjustly and how unequally the public burdens have been distributed, and what applies to railways in this regard applies with equal force to large amounts of other property in the state. While you may not deem it advisable to dispense entirely with the present system of specific taxation of corporations, which I do not recommend, some steps must be taken by you in the interests of the people in at least adding to that system. From many sources comes the proposition to tax corporate property in the localities where it may be situated, and in the absence of any better system I commend it to your attention. However, after considerable investigation it appears to me that a wiser and better method would be to create a department of taxes and assessments, composed of a board to be appointed by the governor, and which board should be composed in part of such officials as have the supervision of the corporations against whom taxes are to be assessed. This board to determine the exact value of all corporate property in the state not now taxed locally under the present law, and to levy taxes thereon in the same proportion that private property is taxed. If the formation of such board can meet the requirements of law no difficulty should be experienced on the part of the state in compelling the payment of a just tax on the actual value of the property owned by such corporations within the state, including the value of the franchise. I look upon the question of taxation in these times as the most vital one with which you have to deal and one with which we must deal justly if the people are to be satisfied with our work. A careful investigation of the statement herein submitted to you will make it manifest that the people of the state when they have a just and proper system of taxation can be relieved of the burden of the expense of state government, and be burdened only with local taxes of their own creation. And I especially recommend to you that in the settlement of the question of taxation you avoid levying taxes in such a manner that by increasing the prices of products or tolls to the consumer the burden of taxation will indirectly remain upon the people.

The Present Tax Law.

I am of the opinion that some radical changes should be made in the present tax law. The taxation of mortgages upon land must be considered double taxation. The owner of the real estate must in all cases pay the tax, not only upon the real estate, but upon the mortgage, for if he who loans the money is required to pay tax upon the mortgage which he holds he will recuperate from the owner of the property, either by requiring him to pay additional interest sufficient to cover the amount of the mortgage, or by compelling him to execute a mortgage which contains a clause requiring him to pay the tax upon the mortgage direct. The effect of the present law is to prevent residents of the state from loaning money directly, and to avoid the payment of tax frauds are committed, and the mortgage is taken in the name of a nonresident, against whom the collection of the tax cannot be enforced. It would be far better to permit the borrower to have the advantage of a lower rate of interest than to allow the lender to exact a higher rate upon the plea that a portion of the interest received must be used for the payment of the tax.

I am also of the opinion that a radical change should be made in the present law by which tax titles are acquired. While every facility should be afforded for the collection of taxes, yet it should not be possible for one individual to confiscate the property of another. Whatever rights are required by reason of the nonpayment of taxes should be acquired by the state. Whatever penalties are added for the noncurrent and detailed reports of the exact payment of tax should inure to the state. The present law which prohibits the recording of deeds of transfer without the payment of taxes due at the time the transfer is made has facilitated the collection of taxes. This law, however, should be amended so as to require the payment of all back taxes, and merely those that stand against the property for five years preceding the transfer.

I would also recommend the adoption of a general enabling act, if such can legally be done, by which all property in the state which has been sold for taxes either to the state or to the individual can be redeemed by the original owner, or by his heirs or assigns, at any time within five years from the passage of such an act upon the payment of the original tax and costs and six per cent. interest to the date of redemption. In times like the present such an act would meet the approval of all broad-minded citizens, and only a few who desire to reap large rewards from the misfortunes of their fellow citizens would raise a voice in its condemnation.

Taxes Upon Timber Lands.

The state has suffered great losses in the past by reason of the failure to collect taxes due upon timber lands. The principal object of the owners has been to strip the lands of valuable timber and refuse to pay taxes during the time the stripping process has gone on. When it is known that this evasion of the tax law has been and is now practiced to an alarming extent by many wealthy people, both residents and nonresidents, something should be done at once to prevent it. To this end I would recommend the passage of a law prohibiting the cutting and removal of timbers from lands upon which taxes are due and unpaid. Such an act could be enforced by delegating special authority to trespass agents or others acting under the control of the state land commissioner.

The educational, charitable, reformatory and penal institutions of the state should all command your earnest attention, and be subjected to such inspection as will enable you to provide intelligently for their needs. Economy in their management should always be practiced, but the necessity for reducing the cost of maintenance, if possible, was never more keenly felt than at the present time. In making appropriations for current and other expenses of the institutions it is hoped the legislature will not be less mindful of the conditions that render appropriations necessary than of the strain that every additional dollar appropriated puts on the resources of the taxpayer. I am very strongly of the opinion that supplies for the various institutions should be bought of Michigan producers. Considerable sums of money are annually expended for beef and other supplies that come to our institutions from other states, while the farmers of our own state, who are taxed for the support of the institutions, are compelled to go away from home to find a market for their cattle and produce. I am sure you will agree with me that this is wrong, and if legislation is necessary to prevent it, you must be depended on to supply it.

Permit me to direct your special attention to the university. This great institution should under no circumstances be crippled. Its reputation as one of the great American universities should be sustained. It has been endowed by the people and has been maintained by them with a spirit of pride and often at a great sacrifice. Its teachers should be equal to any in the world, and they should be men of independent thought, ready and willing to meet all great questions of modern civilization and advancement with an intelligent and enlightened public spirit.

The Lobbyist.

I cannot refrain from expressing my views upon the subject of the professional lobbyist. At every session of the legislature just measures are killed by the enemies of good government and equal rights and the means used to compass their death are the paid lobbyists who infest our halls. If the members of the legislature are not intelligent enough to give independent thought and action to great public measures without the aid of those who wine and dine and cajole and flatter and bribe, at least some steps should be taken to modify the nuisance. I do not propose to formulate rules for the government and control of those whose business it is to obstruct legislation. All attorneys who practice before courts and juries must be admitted as members of the bar and are required to pay certain fees and observe certain rules. If the lobbyist, like the poor, must be always with us to aid in thinking and assist us in acting and furnishing us food and drink, there should be some method of enrollment and a fee demanded as a condition precedent to the right to practice before the people's legislative jury. It has come to my knowledge that some of these professionals have secured large retainers from individuals and corporations who are interested in obstructing honest legislation, and I trust a roll will be made of all such in order that their particular purpose may be clearly known and understood. It unfortunately happens that in the past at least a few of the members of both houses have accepted the dual capacity of legislators and lobbyists, being paid by the people a small salary to serve in the former capacity and being hired by the people's enemies at high salaries to serve in the other capacity. It has been necessary for these to be enrolled as their real employers are generally discovered early in the session of the legislature. I trust that there are no such public servants in the present legislature and that such evil work will not be felt or recognized.

Public Franchises.

The question of granting public franchises by the state and by municipal authorities, and the conditions under which they should be granted, ought to be one of the greatest problems with which we have to deal. A public franchise, when it has passed beyond state or municipal control may become a power greater than the sovereign or municipal power. It may become an engine of oppression and corruption. The moment a franchise is granted the whole people surrender to a few of their number the right to exercise a public function, and the question which should be considered is what proportion of that right should be reserved to the people themselves in the way of regulation and control.

Combinations and consolidations by franchise owners in cities are going on all over the United States. These combinations and consolidations are for the purpose of keeping up tolls. The amount of wealth that is being accumulated in the hands of a few by these favored holders of special privileges is appalling. These tolls are indirect taxes, and to the extent that the right to regulate the tolls is abandoned by the sovereign or the local power to the franchise owner, to that extent the right to levy taxes is given away. The state or the municipality appoints an agent for a period of 20 years, more than the life of a generation, and before the term has half expired the agent becomes the master and the master becomes the slave.

Permit me to give an example of the abandonment of such power: A license is given to a company of three men to operate a street railway in a city of 60,000 people, and they are permitted to charge five cents per passenger for a period of 20 years. At the time the license was granted the cost of carrying a passenger was four cents, and the profit was therefore but 20 per cent. upon the money actually invested. In ten years the population has increased to 120,000 and the cost of carrying the passenger is three cents, and the profit is 40 per cent. Rather more than the profit of most merchants and manufacturers and farmers. If the original grant of the license, for that is all the franchise is, had reserved the right to regulate fares, and the municipality had been able to keep the profit down to 20 per cent., even the most radical advocate of vested rights could not complain that the corporation was being oppressed. It should be very clear, then, that the right to regulate fares should always be reserved. But the reservation of this right is not all that is necessary.

Permit me to give another illustration: The amount actually invested in a plant is $1,000,000. After the road is completed it is mortgaged and bonded for $2,000,000. This could only be done by executing a mortgage upon the license itself. In other words, the three men who formed the company and their associates advanced $1,000,000 and immediately thereafter placed a mortgage upon the industry and earnings of every inhabitant of the city for 20 years to come to the amount of $2,000,000, and then when the question of regulating the fares is brought up the municipal authorities are met with the plain statement that the original owners have transferred their vested rights to innocent purchasers, and in order to pay the bonus of $1,000,000 and the interest upon it for 30 years the company cannot live if the fare is reduced.

This system of indirect taxation is going on in every city of the United States, and hundreds of millions of dollars of fictitious values, which must represent some form of human labor, have been created for a few by the simple stroke of the pen, and in order to pay these immense sums tribute is laid upon every man, woman and child in the country. It simply means that these hundreds of millions of dollars are to be taken from the ordinary channels of legitimate trade to the injury of every mercantile and manufacturing and farming industry in the land, for no one interest can suffer without a corresponding injury to all. Is it not strange that in the presence of this insidious but constant process of concentration learned financiers, wise statesmen and profound political scholars wonder why the few become rich and the many become poor?

In order to prevent such accumulations a law should be passed which will prevent the execution of a mortgage upon the license. I would suggest the following amendments to the laws permitting the granting of franchises to public corporations, such as street car, electric light, telephone and gas companies:

1. Reserve the right to fix rates of toll or charges.

2. Let the construction of the plant of every such corporation be under the supervision of the municipality, so that the actual cost shall be known.

3. Provide that no mortgage shall be executed and no bonds issued to a greater amount than one-half of the actual cost of the plant.

4. Require the corporation each year to file a sworn statement of its receipts and expenditures, certified by a public accountant who shall have access to the books.

5. Provide that there shall be no consolidation of one company with another and that no individual stockholder of one company shall own, either directly or indirectly, any stock in another company operating in the same city.

6. Provide that no franchise or license now existing or to be granted in the future shall be renewed or extended beyond the terms of the original grant during the life

HEADACHE cured in 20 minutes by Dr. Miles' PAIN PILLS. "One cent a dose." At druggists.

ATTORNEYS

J. W. WIGHTMAN, Attorney at Law, successor to F. B. Wood. Office over Wood's dry goods store, Tecumseh, Mich.

JOHN K. BIRD, ATTORNEY AT LAW. Office over post office, Adrian, Mich.

B. L. BAXTER,
Counselor-at-Law and Solicitor in Chancery, Probate and Real Estate.
Office with W. J. Ingerson, Kiley-Ingerson block, up stairs. Office hours from 9 a. m. to 12 m. Residence, No. 41 W. Chicago street, Tecumseh, Mich.

MISCELLANEOUS.

BURNETT HOUSE—Toledo, Ohio. This house has lately been enlarged and refitted with elevator and other modern improvements and is a favorite resort for the traveling public. Rates reasonable and graded according to room occupied.

VETERSKINE.
Barber Shop
Always the Best Work,
Hair Cut and Shave for 25c

FRANK DAVIDSON,
Licensed Auctioneer. Farm and other Auctions
Attended to promptly and in satisfactory manner. Terms Reasonable.
Headquarters at Herald office where dates are made.

A. C. AYLESWORTH,
Licensed Auctioneer, Real Estate, Stock and General Salesman.
Will attend all sales in city or country, at reasonable rates.
Headquarters and all dates made at the Herald office, Tecumseh, Mich.

EXELBY HOUSE,
Britton, Mich.
L. BANNISTER, Propr.
This house has been enlarged and refurnished and now affords first-class accommodations for transient guests. Rates $1.00 per day.

HOTEL TECUMSEH,
ONSTED, MICH.
W. A. TEACHOUT, Prop.
This house is new and complete.
Fine livery attached.
Same side of Railroad as depot.
On Main Street.
Rates,
ONE Dollar per day.

Tecumseh Lodge No. 141 I. O. O. F.
REGULAR meetings every Tuesday evening in their Lodge Room over H. E. Anderson's, Chicago street. W. O. OSBORN, N. G.
F. A. HODGES, Secretary.

DRS. CATLIN & TEFFT,
Office in Landgraf Block, up Stairs.
DR. TEFFT—Office Hours, 8-10 A. M., 1-2 P. M., 6:30-8:30 P. M.
DR. CATLIN—Office Hours, 7-8 A. M., 1-2 P. M., 6-7:30 P. M.
Dr. Catlin will retain his former office as house.

LANCASTER HOTEL
CLINTON, MICH.
HENRY LANCASTER, Prop.
Special Rates to Commercial Men.
Rates $1.00 per Day.

B. F. Steinhoff,
DENTIST.
Operations known to Modern Dentistry. Office over Baker & Hall's.

DR. B. F. SNYDER,
SURGEON DENTIST,
Over McCann Bros.' Clothing Store,
Tecumseh, Mich.
LATEST improvements in Artificial Teeth, Crowns, Filling and Building-Up Teeth a Specialty. Teeth extracted without pain by use of vitalized Air, Gas, Chloroform or Ether; all work warranted. Prices reasonable.

New Dental Parlors
Having located in Tecumseh, over Avery & Co's Grocery, I shall be pleased to have all who will call and see me. Examination FREE.
Crown and Bridge work a Specialty. Gold, Silver, Aluminum and Rubber Plates to Suit the Patient.
GAS OR VITALIZED AIR Administered for painless extracting. Remember office over Avery & Co's.
W. D. REED, D. D. S.

Country stores can get brooms at Tecumseh, broom factory fifty cents dozen cheaper than they are getting them of broom peddlers. Half a dozen at dozen rates.
E. WILL

JUST try a 10c box of Cascarets, finest liver and bowel regulator made.

Neighborhood News.

BRITTON.

New Comer—Law Suit—Fizzle.

John Britton made a visit to Adrian Sunday.

Attorney Walter Westerman was in town Tuesday.

W. Lenardson was a Tecumseh visitor Tuesday.

A delegation of Brittonites were quite a delegation of Brittonites were Tecumseh Monday.

Clarence Lowe was home Sunday and Monday, and returned to Onsted, Tuesday.

Mr. and Mrs. Geo. Gripton made their Toledo friends a visit during the holidays.

Mrs. P. B. Hardy returned to his home in Youngstown Friday evening of last week.

John Exelby and wife, who spent the holiday season with friends in Detroit, returned home Monday.

Mrs. W. J. Helm and daughter, who spent New Years with her people in Macklin, returned home Monday.

Lawrence Brown came home to vote, Tuesday, but returned to Clarks Lake, Wednesday, a wiser if a sadder man.

Dr. Maybee went to Detroit Tuesday where he went before the pharmaceutical examining board for his final examination.

What is lost is found—the son returned to his riotous living—the fatted calf no more—Brad Zibble is at home again.

John Haight says its not fair for the members of the committee to draw from view and leave him alone a target.

Samuel Kniffin and family spent New Years with Blissfield friends. Sam stayed Monday, while they remained a few days longer.

Quite a number of the Stars braved the rough roads and attended the meeting of those brilliant bodies at Tecumseh last evening.

Richardson Brothers have been taking a vacation this week. Well, boys we guess there will be a nice balance on the right side of the ledger.

L. Kishpaugh, to accommodate his increasing coal trade, is erecting a commodious coal shed just east of the old grain barn by the C., J. & M. track.

The new transfer freight house being erected by the C., J. & M. road at Macon near where the Wabash passes is to be available for use by both roads.

Mr. Ferwerder, the singing evangelist who has been assisting Rev. N. F. Peterson in revival meetings left Tuesday morning for his home at Grand Rapids.

At the Christian church Rev. C. I. Lee will have for his topic Sunday morning, "An Example in Spiritual Mathematics," and in the evening, "A Thing Well."

Stephen Plues has moved his cobbler shop to Dundee, where he will continue to repair (souls) of thunfortunates. His removal from this community leaves Willis J. Helm without a rival. Cock of the walk, so to speak, and his self-satisfied air is the envy of all.

The household of Herbert Hemple was materially augmented Monday by the arrival of a 11-pound boy. It bears this addition with his usual modesty, and we do not see a merry twinkle of his left optic, would imagine how proud he is of his new son. Here is to you Herb.

One of the most disgusted persons at the election fizzle is Lawrence Hutchinson, who had been suffering untold agonies preparing himself to pass a successful examination for weer commissioner. He feels that the physical strain has been such that he ought to receive recompense and contemplates bringing a suit against the corporation for damages.

Frank Underwood, Tuesday while standing still with his hands in his pockets, attempted to move and in so doing struck some imaginary object and fell to the ground, severely bruising his knee, hip and arm, besides tearing his pants. Great was the fall—little less than of 300. Sam says he will not fall; that election day the saints were down pen.

The corporation caucus, was called to order by William Britton, who nominated Dr. Hendershot as chairman. On thanking the caucus for the honor in electing the first chairman of the first village in the village of Britton William Clinton was made clerk and John L. Gaugh and C. B. Exelby trustees and the following officers were nominated: Treasurer—C. B. Exelby.

Trustees—W. J. Clark, Jas Britton, Wm. Haight, Chas. R. Dodis Wm. Hendershot and F. E. Morrell.

Clerk—Samuel Kniffin

Treasurer—James DuBois

Assessor—William Britton

The union ticket is as follows:

President—John Winsley.

Trustees—Jas. W. Clement, John Zeigler, Harry Backman, Willis Helm, Jackery, F. C. Mell, Arthur Curtiss, Lyman Hause.

Clerk—Walter Exelby.

The Adams-Covell suit which came before Justice George Orr Monday by means of drawing the largest jury Britton has seen for election, and previous legal apartments of the Justice proved far too small for the case so the court moved to the more commodious building of Frank Brown's saloon filled to its utmost capacity. Walter Westerman was attorney for the plaintiff, and Zabriskie of Petersburg for the defendant. This was the suit that was before was settled on by disinterested parties, and was for the value of a wagon and damages.

It must have proved very interesting to the onlookers for they remained all through the trial. The jury gods were out in full force and occupied elevated seats on top the railing. At times the scene resembled the tower of Babel when occurred the confusion of tongues. The learned limbs of the law finished finally their eloquent pleas and the case was given to the jury, 5 minutes and weighty instructions from the judge, at 5 p. m., when the court withdrew, leaving the jury in full possession. While they were in secret session, going over the intricate points of the case they were nourished and strengthened for their arduous duties by a liberal supply of cider and apples furnished by Francis Yates. Three hours the jury wrestled with the work several members of which developed wonderful pugilistic proclivities that astonished the rest. At 8 o'clock they summoned with great dignity the court, which had been out in the hold, when the foreman announced the inability to agree on a verdict and the case adjourned to February 4.

Mrs. N. V. Cooper, of Mt. Pleasant, is the guest of her brother, W. R. Hagood, and family over Sunday.

Tonight and tomorrow night the popular comedy, "Our Boarding House" will be presented at Exelby hall, for the benefit of Britton's Cornet Band. They deserve a substantial one; that they have it by filling the house Mr. and Mrs. Paul Harland assisted by the following local talent—J. Clement, Clade Lowe, Jud Kniffin, Ernest DuBois, Warren Underwood, Mrs. and Mrs. Arthur Hughes, Mrs. Laverne Gripton, Berth Britton, Jennie Saxton, Maud Lee and Hazel Exelby, will sustain the various characters of this amusing comedy in a manner that will entertain all who may favor them with their presence. Admission 25c, children 10c.

When Tuesday morning arrived, the all-important one that was to decide the first officers of the newly incorporated village of Britton, the many friends of the opposing candidates were stirring early, and as the hour for opening the polls arrived, were out in full force with their war paint on and knives in their belts, with a determined air to do or die, when to their surprise and disgust it was discovered that no tickets had been provided and the election was off. Whose fault it was the have ever since been trying to solve. It seems the board appointed by the supervisors met and adjourned to some indefinite time. Consequently what promised to be a day long to be remembered in Britton's enviable history sank with a dull thud into the dead past unnoticed by the many. The supervisors will be asked for another board at once, one whom they feel will attend to their duties promptly and complete.

RIDGEWAY.

Write it '97.

John McClellen is quite sick.

Mrs. Susan Clark is under the doctor's care.

Rev. James Wright was in Adrian Monday.

The village school will begin Monday.

The week of prayer is being observed this week.

E. M. Coller, of Tecumseh, was in the village Monday.

Mrs. Charles Foote made a flying trip to Dundee Tuesday.

Mr. and Mrs. Fred Gorton returned to Ypsilanti Monday.

Go to Ed Smith's for cross-cut saws, saw tools and axes.

James Nelson, of Hudson, visited friends here last week.

Eva Hindes is one of the number on the sick list this week.

Ray Gould spent Sunday at the county seat with his best girl.

Gertrude Boyd and Addie Sherman began their schools Monday.

Ray Gould returned to Albion Monday to resume his college work.

L. H. Barrett is spending some time with his mother, Mrs. C. L. Lowe.

Glen Smith is spending the week with his uncle, David Coryell, at Newburgh.

Mr. and Mrs. Fenner Palmer went to Dundee Tuesday, for a visit with friends.

Mrs. S. P. Smith went to Napoleon Wednesday to visit Elder Yager and family.

Emma Cheever spent the holidays in Detroit with her mother, returning Saturday.

Miss Lizzie Boyd has been retained as librarian of the Hall library for another year.

Prof. H. C. Wilson and family, of Paw Paw, visited his parents a portion of the holiday vacation.

Supervisor C. L. Lowe is at the county seat this week attending the meeting of the board of supervisors.

Misses Helen Foster and Grace Birchall, of Toledo, were the guests of A. J. Sutton and family last week Tuesday.

Lulu Rappleye spent New Years day at the home of S. P. Smith, leaving Saturday for Hudson where she has a school.

Sunday school class No. 10 held their annual reunion and banquet in the church parlors last week Wednesday evening.

Mrs. Fred L. Cook, after a week's stay with her parents, Mr. and Mrs. A. J. Sutton, returned to her home in Lansing Monday.

Stephen Plues has put a cobbler's bench in Harry Smith's tin shop where he will be pleased to see all who need anything in his line.

The second entertainment on the high school and Epworth League course, —the Bliss concert company—will be held in the auditorium of the church on Wednesday evening of next week. The piano they use will be a, "Kingsbury," and will be furnished by Grinnell Bros., of Detroit. No one should fail to hear this celebrated company as all are artists in the part they fill. Single admission 25 cents.

Mabel Graves returned Monday to her school work near Sutton's station, in Raisin.

George Clark, of Steel, North Dakota, arrived Friday to spend the winter with relatives here.

F. J. Temple and family, of Tecumseh, were visiting relatives in the village Saturday.

Ed Gould is the possessor of a Tibard organ recently purchased of E. M. Coller, of Tecumseh.

Mrs. Charles Staats is visiting relatives and friends in Newburgh, Clinton and Napoleon this week.

Prof. I. D. Loree and wife, of Lawrence, spent the first of the week with his father, Dr. D. W. Loree.

Skates! skates! for boys and girls, at ED SMITH'S.

The young friends and schoolmates of George Houseman made him a surprise visit last week Wednesday evening.

The fourth number of the Tecumseh star course—F. W. Gunsaulus—will appear at Sutton's opera house, Thursday evening, January 19th.

Arthur Mapes, who has been spending a few days with friends, was made the victim of a surprise at the home of Postmaster Barnes Monday evening, by a company of his young gentlemen and lady friends. A very pleasant evening was spent by all.

Stone meat crocks and rock salt, at ED SMITH'S.

It might be well for those boys who are carrying revolvers and doing so much shooting along the highway and in the village, to call at the county clerk's office and procure a permit to carry concealed weapons or the sheriff may have cause to visit them. Unless a nuisance is done away with complaint will be made, and if this warning is heeded it will save trouble.

The Epworth League held their annual meeting and elected the following officers for the ensuing year:—

Pres.—E. L. Lowe.

1 Vice-Pres.—Chauncy Graves.

2 " " —Daisy Riggs.

3 " " —Jennie Underwood.

4 " " —Fern DePuy.

Sec.—Bert Smith.

Treas.—A. J. Sutton.

MACON.

Miss Libbie Walp returned to her work in Britton Sunday.

Mr. and Mrs. George Rendel spent New Years with Cone friends.

Mr. and Mrs. Lester Coller have both been grip victims the past week.

Al Cvanaugh, of London, is visiting at the home of Hebron Camburn.

Mrs. Lank Smith, who has been quite sick with grip, is able to be around again.

The Misses Grace and Cora Austin, of Tecumseh, visited their sisters here a few days last week.

Mrs. Sumner Collins, who is sick at the home of Edwin Howell, is reported not so well at this writing.

Andrew Maples and wife, who have been visiting Macon friends the past two weeks, returned to their home in Kent county Monday.

The topic for the Epworth League meeting next Sunday evening is, "The Sure Word of Promise," found in Isa. 65: 30:19 and Psalms 105:42. Leader, Minsey Collins.

We understand that Charles Allen and Miss Maggie Sones went to Canada and were married about a week ago. It must be true, for Charles set up the cigars Monday evening.

Mr. John Day, who has been sick and unconscious for the past ten weeks, crossed the river of death early Sunday morning. The funeral services were held Tuesday an eleven o'clock, Rev. J. P. Van [illegible] of Tecumseh, officiating. The remains were taken to Tecumseh and laid to rest beside those of her husband, who died December 28, 1894.

Four years ago, Thomas Jacobus' barn and contents were burned, origin of fire unknown. He at once erected another large barn and early New Years morning the barn and contents, including fifty tons of hay, a quantity of grain, a wagon and several farming implements, were burned. Two horses were also badly burned, one so much so that it had to be killed. Origin of fire, again unknown but it looks a little suspicious.

LAWRENCE RIDGE.

(Delayed Letter)

Claude Harmon is spending his vacation with his parents.

Mrs. Fred Aten is quite indisposed with bronchial trouble.

Miss Cinda Lowry, who has been from home some time, has returned.

Meetings are still in progress in the east church and are well attended.

Mr. and Mrs. Thos. Boyd spent Christmas at John G. Boyd's, east Macon.

Mart Bailey attended the funeral of E. B. Ford, of Moorevill, Thursday.

A Christmas tree was enjoyed at the German church and a fine time reported.

Miss Julia Gilmore closed a successful term of school Friday in the Eastlick district.

James Murphy, of Ypsi, is home for the holiday season, and looks quite like a student.

The Christmas tree at Henry school house passed off to the satisfaction of all.

The death of Mrs. Thomas occurred at her home in east Macon Saturday morning.

Mrs. Chas. Hendershot and Josie Hand visited Milan Thursday, the interest of the Christmas tree.

Much credit is due Claude Harmon for his assistance at the Christmas tree. "Honor to whom honor is due," is our motto.

Mr. and Mrs. Sam Boyd attended the funeral of Mrs. Butler, Tuesday, which was held in Britton at the Reformed church.

The children and grandchildren of John Murphy, to the number of 31, dropped in upon them Saturday, much to the surprise of all.

George Houseman, of Ridgeway, was the guest of James Murphy, Monday.

Miss Anna Osborne, after a visit with her parents, has returned to Memphis, Tenn.

Mr. Harry Perkins, of Hudson, was the guest of J. W. Osborne's family Christmas.

There was no Sunday school Sunday, on account of the officers not performing their duty.

A series of meetings are still in progress at the East church with increasing interest.

Cards are out announcing the marriage of Miss Grace Gordon, of Saline, and Mr. Elmer Stimpson.

James Murphy, after a ten days' vacation at the old home, has returned to his school at Ypsilanti.

Ben Johnson, who has been spending the holidays with his parents, has gone back to the business college.

Miles Densmore, a graduate of Cleary's business college, is spending some time with his uncle, C. Montinye.

A goodly number of young people of the DeSpelder church attended the watch night meeting held at the F. M. church.

Rev. Mr. Baker, assisted by his father, conducted a watchnight service at the F. M. church. Although the night was stormy and dark, a good house greeted the ministers as they entered the church at nine o'clock.

Yes, 'tis true; Foley's Honey and Tar is the best Cough Medicine. Orr & Temple.

CONE.

Delayed Letter.

Mrs. Gideon Lewis visited her father, in Toledo, the first of last week.

James Ray came out from Fleming to spend the holidays with his parents.

Christian Endeavorers are holding a series of prayer meetings this week.

Aaron Auten, of Auburndale, O., is spending the holidays with friends here.

Henry Tee, wife and little Fern spent Christmas with the former's parents in Toledo.

Ray Gould, of Albion College, is spending the holiday vacation with his father, S. Gould.

Mrs. Walter Cone and daughter Veda, of Detroit, are visiting friends here this week.

Everett and Claudia Case, of Pentecost, were guests at E. Allhouse's several days this week.

Mrs. Chas. Caswell and children spent a part of this week with her brother and sister in Ypsilanti.

Mrs. Amy Cassidy, of Detroit, is spending a few days with her parents, Mr. and Mrs. H. B. Vandeventer.

J. M. Auten, wife and three sons spent Christmas with their daughter, Mrs. Mabel Laskey, at West Toledo.

Scholars in the Caswell district are having a week's vacation. Miss Grace Barr went to her home in Raisinville.

Fred Rapp, Frank Hanlon, Misses Jessie and Mertie Auten and Lena Landt spent Christmas with the former's parents at Raisinville.

Carl, the youngest son of Oliver Curry, undertook to jump on a loaded sleigh, last Monday. He slipped and fell, the sleigh passing over his leg, breaking the bone and mangling the flesh terribly. Drs. McLachan, of Mooreville, and Downing, of Cone, made the little sufferer as comfortable as possible.

J. M. Auten was in Ashley on business last week.

J. C. Dennison spent News Years with friends in Britton.

Simon Gould was in Fairfield and Adrian last Thursday.

Rev. G. W. Kinney, of Rea, called on friends here Tuesday.

George Rendal and wife, of Macon, were visiting relatives here last week.

Miss Edith Gray, of Tecumseh, spent a few days last week with friends here.

Charles Craig spent New Years with his sons James and Charlie, in Toledo.

The election of Sunday school officers was postponed till next Sunday morning.

A number of young people enjoyed a dance at Bert Caswell's last Thursday evening.

Tom McCaughey and George Horen, of West Toledo, visited friends here last week.

Mrs. Minnie Craig, of Toledo, spent New Years with her parents, Mr. and Mrs. George Gray.

Edward and Thomas Doucher, of Sarnia, Ontario, were called here Monday by the severe illness of their mother.

Bertha Jourdan came out from Detroit to spend New Years. She was taken sick and was unable to return Monday evening.

J. C. Cone and wife attended a birthday party in honor of Mrs. Louisa McManus, age 73 years, at the residence of James Galloway, in Azalia, Thursday, Dec. 31.

The following trustees of the M. P. church were elected Monday evening: Simon Gould for a term of 3 years. Charles Goodridge, 2 years. George Caswell 1 year.

CASCARETS stimulate liver kidney and bowels. Never sicken, weaken or gripe.

Mrs. Maggie Myers,

Williamsport, Ind., writes: "I suffered for months of severe stomach troubles, caused by indigestion and constipation. My trouble seemed almost unendurable. I purchased a bottle of Dr. Caldwell's Syrup Pepsin of Armstrong & Swank and as soon as I had taken its contents I was like a new person, and I now feel better and weigh more than I have in years." It is sold in 10c, 50c and $1.00 sizes at Orr & Temple.

The most extensive cemetery in the world is that at Rome, where over 6,000,000 human beings have been interred.

Eczema of the scalp, or Scald Head, even in its most severe form is never-failingly cured by Doan's Ointment, the surest specific for all itchiness of the skin.

The oldest active volcano is Stromboli. History does not go back to the time when Stromboli was not active.

Give it a Trial.

On receipt of ten cents, cash or stamps a generous sample will be mailed of the most popular Catarrh and Hay Fever Cure (Ely's Cream Balm) sufficient to demonstrate its great merit. Full size 50c. ELY BROTHERS,

56 Warren St., New York City

My son was afflicted with catarrh. I induced him to try Ely's Cream Balm and the disagreeable catarrhal smell all left him. He appears as well as any one.—J. C. Olmstead, Arcola, Ill.

ADRIAN.

GOT THE BACKACHE?

If You Have, Here's the Way to Rid Yourself of the Weariness and Pain Attending It.

Some people suffer with headaches, many people are worn out and weary all the time, many more people have lame back and backache. Few people understand the real cause of their aches, and fewer yet know how easily they can find a cure. Just a word of explanation before we prove that what we say is true. The back is the key-note of the kidneys. It aches; that's a sign that the kidneys are not working properly; it is lame; another sign, the kidneys are out of order. The kidneys, you know, are the filters of the blood, but filters sometimes get clogged up. This means in their case that the blood courses through the entire system impregnated with poisonous uric acid, bringing on many a disorder which, if neglected, means disease perhaps incurable. And now about the cure:—Don't take our word for it; read what others say:

Mr. David C. Oaks is proprietor of the well known hardware and paint shop at 220 East Main Street, Kalamazoo. Mr. Oaks has suffered a great deal from kidney ailments; he described his condition and cure as follows: "I had a bad, lame back, which I suppose was caused by my kidneys; was confined to my bed during bad attacks. I might say, from time to time, I have been in that condition for years. The urinary organism was affected, urine being scanty, highly colored, and difficult in passage. I was in a bad shape when I got a box of Doan's Kidney Pills, about which I had heard. I have used now two boxes of them, and the pills have removed all the pain and trouble. There was a marked improvement right from the first, and it has continued right along. Doan's Kidney Pills are the right thing in the right place."

For sale by all dealers—price, 50 cents. Mailed by Foster Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, *Doan's*, and take no other.

"Complete Manhood AND How to Attain It."

A Wonderful New Medical Book, written for Men Only. One copy may be had free, in plain envelope, on application.

ERIE MEDICAL CO., 63 Niagara St., N. Y.

PATENTS THOS. S. SPRAGUE & SON, Attorneys and Solicitors of Patents, United States and Foreign. Correspondence solicited. Instruction pamphlet free. 87 Wayne Opposite Street, DETROIT, MICH. Established 1865.

Love is the keystone of a woman's life. Her fondest hopes rest upon this tender emotion; her highest pride is in her capacity to awaken the love which makes a happy wife; her noblest ambition is to become a loved and loving mother.

Any weakness or disease which incapacitates her to fulfill the exalted function of motherhood is the saddest blight which can come upon a woman's life.

But there is no reason in nature why any hindrances or derangements of this kind should continue to exist. Ninety-nine times in a hundred they are completely overcome in a perfectly natural and scientific way by the use of Dr. Pierce's Favorite Prescription, which gives healthy power and capacity to the special organs; reinforces the nerve-centres and makes natural, healthy motherhood possible, safe and comparatively easy.

It makes the coming of baby almost free from pain; gives strength and cheerfulness to the mother, and constitutional vigor to the child. It is the only medicine in the world devised for this one purpose by an educated physician, a skilled and experienced specialist in this particular field of practice.

"I cannot say enough in praise of Dr. Pierce's Favorite Prescription, as it has done me a world of good, and has, undoubtedly saved my life," writes Mrs. Florence Hunter, of Corley, Logan Co., Ark. "I miscarried four times; could get no medicine to do me any good. I concluded to try the 'Favorite Prescription' and after taking several bottles of it I made my husband a present of a fine girl. I think it is the best medicine in the world."

Dr. Pierce's Pleasant Pellets: One is a laxative, two a mild cathartic.

TECUMSEH, MICH., JAN. 8, 1897

It is understood on the street that Adrian has raised her share of the bonus for the Lima Northern railroad and our committee is now hustling to pull up Tecumseh's portion. There is little doubt but that the money will be raised.

On the sixth and seventh pages of this issue of the HERALD may be found the message in full delivered by Gov. Pingree at the opening of the state legislature. In it are many good thoughts and if the governor does half what he promises, such a going over will occur at the state house in Lansing as the present state house has never seen before. Gov. Pingree is erratic and in some ways quite a fanatic but the corporations of this state need stirring up with a sharp stick and in stirring them up he will receive what little support the HERALD can give him every time. The deliberations of this present legislature will be looked for with much interest.

President Diaz, of Mexico, has recently been elected to succeed himself for the fifth time in the history of that republic. The labor and social conditions of Mexico are in a bad shape compared with those of this country and the other nations of Europe, but in the matter of economic and successful government the United States and officials of this country could take many good lessons of Gen. Diaz. During the last summer and fall the corn crop in Mexico was a total failure; consequently Diaz removed the duty on corn that the laboring people of Mexico could buy it as cheaply as possible. Next year if the Mexican corn crop is plentiful the duty will be put back again. This is as it should be, but imagine a like occurrence in the United States. It would take two presidential campaigns to get the duty off corn and three to get it back on again, and by the time both were accomplished the poor man would have starved to death and the rich man have gone into bankruptcy.

'ROUND ABOUT US.

Clippings and Condensations From our County Contemporaries.

Married, by Rev. L. R. Cook, at his residence, December 23, 1896, Mr. John Garlinghouse and Mrs. Alice Seman, of Napoleon.—Brooklyn Exponent. The groom has many acquaintances in this vicinity.

Lenawee county has 48 licensed saloons—22 are located at Adrian, 6 at Hudson, 5 at Tecumseh, 3 at Blissfield, 3 at Deerfield, 2 at Morenci, 2 at Riga, 2 at Addison, one each at Palmyra, Clayton and Onsted. Adrian also has two breweries. Total licenses collected, $22,629.94.—Ann Arbor Courier.

One of our exchanges tells how a Hillsdale farmer made a sausage which was 42 feet long, and says it would make a meal for half a dozen people. According to the figures, the average would be seven feet of sausage for each person. It takes our utmost confidence in the truthfulness of a newspaper correspondent to believe the story.—Hudson Post.

The Chase family reunion was held at the home of Rev. L. C. Chase, in Raisin, yesterday, and there was a large attendance of relatives and a pleasant time enjoyed by all. Mr. and Mrs. James W. Corwin and little daughter, Mabel, and Mrs. Cora Brainard, of Toledo, were among the guests from abroad.—Adrian Messenger.

St. Andrew's church was filled Sunday evening by an appreciative congregation. The music of the beautiful choral service rendered by the vested choir under the directorship of Prof. R. H. Kempf, the sweet solos of Masters Gerald Brown and Freddie Daly, and the beautiful prayers of the church were peculiarly appropriate to this bright season of the Christian year.—Ann Arbor Argus.

The quiet and peace-loving inhabitants of so-called "Scrap Alley" were rudely aroused by a ripple of excitement which threatened to turn into the roar and din of a pitched battle on Wednesday morning, when Mrs. John Kuehl, with the fire of battle in her eye, proceeded to the residence of Stephen Ouderkirk, with the intention of righting some imaginary wrong done her. "Steve" was at home and after listening to a tirade of abuse from his female assailant attempted to eject her from his premises, when she stumbled and rolled into a puddle of slush and ice, which, instead of having a cooling effect, nerved her to renewed efforts, and picking up a heavy missile sent it with unerring aim through the window of Steve's residence. She was again seized by Ouderkirk and pushed into the ditch, which ended the fracas for the time being. The parties again met in front of a justice's office, where another set-to was prevented by the large crowd that surrounded them. We understand that Mr. Ouderkirk will swear out a warrant for the arrest of Mrs. Kuehl, while the husband of the "female warrior" walked to Monroe to enter complaint with the prosecuting attorney against Ouderkirk.—Dundee Reporter. A case of not man's but woman's inhumanity to man.

The end of a postal order looks ragged on account of being torn so as to show the amount of the order in figures. Mrs. S. M. Hunter received one from Jackson recently, and with her usual neatness trimmed it off nicely with the shears. When she presented it for the money an investigation was found necessary before she could get the cash and her acquaintances are having considerable fun at her expense.—Clinton Local.

An agreement has been effected between the Wabash and the Lima Northern, in connection with the Ohio Southern, which virtually gives to Toledo and Detroit another passenger line to the south. The present agreement calls for the honoring of the Wabash mileage books over the Lima Northern and Ohio Southern, and a reciprocal honoring of these roads' mileage over the Wabash from Napoleon to Toledo and from Adrian to Detroit. This is a practical step in the direction of the entrance of the Lima Northern with Toledo. It is a generally understood that if business should develop satisfactory with this agreement, a through car service will be put in by the Wabash over the Lima Northern and Ohio Southern.—Toledo Blade.

A letter received by E. N. Smith from Major Seymour Howell, dated New Orleans, December 28, states that the major and his wife are having delightful weather. He says he stops a run down to Port Chalamette, the other day, and stopped at the U. S. barracks enroute, where he met an old army friend. At the national cemetery old times were recalled by the fact that 110 of his regiment are burried there, 26 of whom were connected with the two companies he had charge of. The major and his wife were to spend Christmas at Lynn Castle, a winter resort in Pass Christian, Miss., on the Gulf of Mexico, where there is plenty of sailing, fishing and bicycling. They will be in New Orleans for Mardi Gras.—Adrian Telegram.

An exchange tells us of a young man, being a stranger in a neighboring town stood on a corner one night wondering what he would with himself to kill time, when he saw a crowd of thirty or more young people approaching with baskets on their arms. It was a surprise party, and when he fell in line and asked a pretty girl if he could carry her basket, she consented, thinking he was a guest whom she had not met. Everyone in the crowd seemed to think that some one else had invited him and some one finding out his name introduced him to all the others. He had the best time in his life. He had a good supper, kissed seventeen girls and escorted the prettiest girl in the crowd home and was invited to two parties to be given the next week. There is nothing like seizing an opportunity to be in the social swim.—Saline Observer.

Mr. Lindvall, the tailor, told an Adrian press man a singular incident that happened in his store one day. A gentleman, while standing at the tailor's table, received an express package marked $30. When he opened the money package only a $10 gold piece showed up. He called all of them to witness that the package was marked $30 and commenced an investigation. The next morning the missing $20 was found in a gold piece that had accidently slid out of sight in the folds of the cloth Mr. Lindvall was cutting, and had been moved to another table. All the witnesses would have sworn in court that the package contained but $10. How the money secreted itself, during all the handling, cutting and doing up of that cloth is a mystery. The gentlemen in the shop tried a half dozen times to repeat the operation, for satisfaction, but it could not be done.—Adrian Messenger.

COUNCIL PROCEEDINGS.

Present, the President, Clerk, trustees Boyd, Beegan, Lowry and Wright. Minutes of last meeting read and approved.

Sexton's report for month of December presented, giving five adult interments, $20 interment fees collected, two lots sold for $60 cash. Accepted and ordered placed on file.

The following bills were reported by the clerk and referred to the finance committee: D. L. Whitenack & Co., hardware, $58.88; Tecumseh Electric Co., lights for December, $216.67; Alfred James, insurance, $10; Globe Mills, feed, $5.12; Chas. Bidwell, marshal, $25; W. J. Ingersoll, clerk, $25.72; F. W. Samsen, printing, $22.50; C. A. Wright, supplies purchased, $4.55; Water works C. A. Wright, coal purchased, $15.93; freight on same $4.05; D. L. Whitenack & Co., hose, $2.70; D. L. Whitenack & Co., cemetery, $1.70.

Committee reporting favorably on all of the above bills, clerk was instructed to draw his orders on the village treasurer for the several amounts therein.

Moved that 500 feet of Eureka double jacket cotton hose be purchased for fire department of H. D. Edwards & Co., Detroit, Mich., hose to cost fifty cents per foot and to be paid for during July 1897; seconded, carried.

Moved that the sum of $25 be paid L. B. Thompson for extra services as policeman for present year. Supported, carried.

Council then adjourned.

W. J. INGERSOLL, Clerk.

The True Remedy.

W. M. Rogers, editor Tiskilwa, Ill., "Chief," says: "We won't keep house without Dr. King's New Discovery for Consumption, Coughs and Colds. Experimented with many others, but never got the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our home, as in it we have a certain and sure cure for Coughs, Colds, Whooping Cough, etc." It is idle to experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not as good, because this remedy has a record of cures and besides is guaranteed. It never fails to satisfy. Trial bottles free at Baker & Hall's Drug Store.

Wyoming and Nevada have less than one inhabitant to the square mile.

SHOCKING TRAGEDY.

Domestic Trouble Causes a Terrible Deed at Janesville, Wis.

Herman Stimm Kills His Wife and Child, and After Several Attempts Succeeds in Taking His Own Life.

Janesville, Wis., Jan. 11.—In one of the three little rooms above the Kent Paint company's store the bodies of three people—Mr. and Mrs. Herman Stimm and their six-year-old son, were found weltering in their blood, dead, Saturday morning. A mute witness—a cheap revolver half submerged in fresh blood—convicted the father of the crime, and the black eye that showed through the blood stains on Mrs. Stimm's face proved that resistance had been offered, but uselessly. A jet of brains from the child's head had been thrown to the ceiling when the shot that cut its little life short as it lay in bed had been fired, and another wound in the head showed that the father had not calculated to half do the job. One bullet had been sufficient to kill Mrs. Stimm, and it had entered squarely between the eyes.

The Bloody Deed.

After emptying his revolver in slaying his wife and child Stimm, it appears, had tracked their blood out into the kitchen. Then he walked back and locked the front door, leaving the marks of his blood-stained fingers on the key and the white doorknob. After that he went back into the sitting-room and watched his wife's life ebb out. Then he calmly reloaded the revolver, letting the empty shells fall on the floor. Seating himself on the floor where he could see his wife's dying agonies he held the revolver against his forehead and pulled the trigger. His nerve was gone, however, and the revolver raised as the shot was fired and the ball simply cut a three-inch scalp wound in the top of his head. Raising the hammer again he pointed the weapon at his chin. The ball missed its mark and grazed his neck, hardly tearing the skin. Then, holding the revolver close to his left breast, he sent a ball clashing into his vitals and fell over dead, while the weapon dropped into the pool of blood beside him.

The Discovery.

The shots were heard by many people, but no one investigated. When the Kent company's store was opened Saturday morning blood was found oozing through the ceiling and dropping on the floor. The door to the rooms above was forced by Sheriff Acheson and the authorities took charge. Family troubles were responsible for the crime, Stimm having repeatedly threatened, since his wife sued him for a divorce, to kill her and himself. Mrs. Stimm was a muscular woman and did not fear him. They had been living apart since the beginning of the suit, but Stimm went to her home Friday night. He was a box-maker by trade and 30 years of age. Mrs. Stimm came here from Monroe and married Stimm seven years ago.

BOTH ARE DEAD.

An Illinois Man Kills His Wife and Himself.

Alton, Ill., Jan. 13.—Joseph Burkhardt, of Edwardsville, shot and killed his fair young wife Tuesday night and then sent a bullet through his own brain. The deed was the sequence of a life of domestic unhappiness. Burkhardt was a wealthy contractor in the county seat. Last fall he built a fine home and his wife disagreed with him as to plans and furnishings. When it was finished she declined to live in it and the matter continued in this way until Tuesday night when without warning the husband took a revolver and ended both their lives. It is thought by some that the Prickett bank failure had something to do with the tragedy.

Spain Will Accept.

New York, Jan. 12.—The Journal's Madrid correspondent declares that Minister De Lome has been ordered to notify Secretary Olney that the offer of mediation by the United States will be accepted. Cuba is to be granted absolute autonomy, such as is enjoyed by Canada. The Spanish government is to be debarred from any share of the revenues of the island and all interference in elections.

Republican Governor Inaugurated.

Raleigh, N. C., Jan. 13.—Tuesday for the first time in 24 years a republican was inaugurated governor of North Carolina, when Daniel L. Russell, of Wilmington, was sworn into that office. The governor's inaugural address was a presentation of the various matters of state that will claim the attention of the legislature at its present session.

Says Spain Can't Win.

Washington, Jan. 11.—Senator-elect Money, of Mississippi, who has just returned to Washington from a two weeks' visit to Cuba, says that Spain is unable to cope with the insurrection; that she will never put it down; and will never end the war with victory to herself.

A Dangerous Counterfeit.

Washington, Jan. 13.—A dangerous $20 silver certificate with a portrait of Daniel Manning has been discovered by the secret service department of the treasury. This counterfeit is of the series of 1891, with check letter "B" and plate No. 6.

Sacramento, Cal., Jan. 13.—George C. Perkins was reelected United States senator on the first ballot, the other candidates withdrawing.

CURRENCY REFORM.

Many Plans Presented at the Monetary Conference in Indianapolis.

Indianapolis, Ind., Jan. 12.—The monetary convention which opened in Tomlinson hall yesterday afternoon has brought to the city a large and distinguished gathering of representative American business men. E. O. Stanard, ex-governor of Missouri, was selected as temporary chairman. Mr. Stanard in his remarks recommended that the greenbacks should be retired; that national banks should be permitted to issue notes up to the par value of bonds deposited to secure their payment; that paper notes of less than five or ten dollars should be circulated in the interest of a more general use of silver. These recommendations met the general approval of the delegates.

C. Stuart Patterson, of Pennsylvania, was made permanent chairman, and upon taking the chair said, among other things, that "we may differ as to questions of protection or of revenue reform, but we can agree that the government must have a revenue adequate to its necessary expenditures and with a surplus sufficient to provide for possible contingencies." Resolutions were offered as follows:

Directing the committee on resolutions to take into consideration the expediency of incorporating into the national bank system the principle of Scottish branch banks; advocating the maintenance of the gold standard, withdrawal of the government from the banking business, and the extension of the national bank system by the establishment of branches, and the reduction of the minimum capital stock required of such institutions to $25,000; declaring in favor of a refunding of the national debt, the retirement of greenbacks, a more expansive system of national bank currency and the imposition of severe penalties upon national bank directors for failure of duty, to be presented to congress by a committee of the convention; a declaration that the present gold standard should be maintained, and that any attempt to lower that standard would be disastrous to every class of people, and that only so much silver and paper as the country can consume, relieving the government of the responsibility of maintaining it at a parity with gold; favoring cancellation of United States legal tender notes and the simultaneous creation of a safe and expansive currency upon the basis of the Baltimore plan; favoring establishment of postal savings banks; for the constitution of a department of finance, consisting of three comptrollers, with a deputy in each state, to have charge of the issue of notes and with authority to examine all banks of issue; declaring that international bimetallism is impracticable and cannot be maintained; that silver dollars be legal tender at par value for no larger sum than $20; that silver dollars, silver certificates and Sherman treasury notes may be exchanged for bonds bearing 2½ per cent. interest, convertible on demand into notes which shall be received for customs dues; that silver bullion now in the treasury shall be sold within the next five years, declaring against any reduction of currency or the exchange of any currency now in circulation for any other that should not command public confidence; favoring repeal of the state bank tax.

OLD HICKORY'S NAME.

It Is Greeted with Reverence by Gold Democrats at Chicago.

Chicago, Jan. 9.—Choosing the anniversary of "Old Hickory's" victory at New Orleans instead of his birthday, representative members of the national democratic party from the ten middle and western states who fought for the gold standard under the banner of Palmer and Buckner, assembled last night in the banquet hall of the Auditorium hotel to celebrate alike the birthday of Andrew Jackson, the victory over Bryan and free silver, and renew pledges of adherence to the Indianapolis platform. The occasion was made notable by the presence of the party's nominee for vice president, Gen. Simon B. Buckner, of Kentucky; Hon. Charles S. Hamlin, of Massachusetts, assistant secretary of the treasury, and Hon. Henry Watterson, of Louisville. The following letter from President Cleveland was read:

"Executive Mansion, Washington, Jan. 4, 1897.—Franklin MacVeagh, Esq., Chairman, etc., Chicago.—My Dear Sir: I regret that official duties prevent my acceptance of the invitation I have received on behalf of the national democrats of the middle states to attend their Jackson day banquet on the 8th inst. When passion and prejudice threatened to obscure the meaning of true democracy and pervert its patriotic purposes, a reunion of those who are democrats for the sake of principle and the good of their country cannot fail to be inspiring and useful. On an occasion when the character and achievements of Andrew Jackson are commemorated, the old landmarks of democratic faith should be distinctly pointed out. At such a time it should be impressively taught that democracy is not disorder; that its regard for popular rights does not mean the care of only a portion of our people; that its loyalty to the constitution and laws does not mean a petulant challenge of the duty of civic obedience; that its aggressiveness does not mean class hatred and sectional vituperation, and that its success should never mean mere partisan triumph at the sacrifice of principle and patriotism. Yours very truly, "GROVER CLEVELAND."

Seek Heavy Damages.

Peoria, Ill., Jan. 12.—The Chicago Sugar Refining company commenced suit in the federal court Monday against the American Glucose company for $1,000,000 damages, and against the Peoria Grape Sugar company for $500,000 for alleged infringement of patents covering improvements in the process of treating corn in the manufacture of starch, glucose and other products therefrom.

Blairsville, Pa., Jan. 13.—An earthquake shock here shook buildings, and farmers in the vicinity said they distinctly saw the earth move as with a waving motion.

Big Spot on the Sun.

Geneva, N. Y., Jan. 11.—Prof. Brooks announces observations of an enormous sun spot now on the sun's face and visible to the naked eye through a smoked glass.

FROM WASHINGTON.

The Closing Session of the Fifty-Fourth Congress.

Measures of Importance Presented in Both the Senate and House—A Daily Summary of the Proceedings.

Washington, Jan. 7.—Bills were passed in the United States senate yesterday to amend the timber culture law and for the appointment by brevet of active or retired officers of the army. The bill providing free homesteads for bona fide settlers on public lands acquired from the Indians was debated at length. Senator Call spoke on Cuba.

Washington, Jan. 8.—A joint resolution was offered in the senate yesterday by Senator Mills (Tex.) declaring that the power of recognizing a new republic resides in congress, recognizing the independence of Cuba and appropriating $10,000 for a United States minister to the republic of Cuba. The bill for free homesteads on Indian lands was further discussed. Adjourned to the 11th.

Washington, Jan. 12.—Senator Mills (Tex.) made an impassioned speech in the senate yesterday in favor of the resolution introduced by him to declare recognition of a foreign government a congressional prerogative and to recognize the independence of Cuba, and strongly denounced the administration, charging it with favoritism toward Spain. Senator Proctor (Vt.) spoke in favor of a six-year presidential term and three years for congressmen.

Washington, Jan. 13.—A bill was introduced in the senate yesterday making the term of fourth-class postmasters four years. The resolution to extend the presidential term to six years and the free homestead bill were discussed.

The House.

Washington, Jan. 7.—The Loud bill to amend the law relating to second-class mail matter was passed in the house yesterday by a vote of 144 to 105. A resolution was adopted asking information of the several departments relative to the administration of the civil service law.

Washington, Jan. 8.—In the house yesterday the debate upon the proposition to refund the indebtedness of the Pacific railroad companies to the government was begun. Before the discussion commenced a bill was agreed to providing for the appointment of a surveyor-general for Alaska at a salary of $2,000.

Washington, Jan. 9.—The second day's discussion of the Pacific railroad refunding bill in the house yesterday developed much interest, from a popular point of view. Mr. Johnson (rep., Cal.) in the course of a speech supporting the bill, alluded to Mr. W. R. Hearst, of the San Francisco Examiner and New York Journal, in most vituperative terms.

Washington, Jan. 11.—In the house on Saturday the discussion of the Pacific railroad funding bill was concluded. The Indian appropriation bill for the next fiscal year was reported. It carries a total of $7,465,000, which is somewhat less than the appropriation of the current year.

Washington, Jan. 12.—The Pacific railroad funding bill was defeated in the house yesterday by a vote of 168 to 102. The military academy appropriation bill was considered and a bill was passed fixing the minimum limit of capital for national banks in cities and towns between 50,000 and 3,000 inhabitants.

Washington, Jan. 13.—In the house yesterday a resolution was passed to pay the widow of the late Speaker Crisp $1,484, the expenses of his last illness and funeral. Mr. Johnson (Cal.) defended a personal attack made upon him by Mr. Maguire (Cal.) in the Congressional Record, and a resolution to expunge the matter from the Record was adopted.

Four Miners Killed.

Ward, Col., Jan. 13.—Word has just been received from the Adit tunnel, some distance from here, that four miners, whose names are unknown at the present time, were killed and frightfully mangled by an explosion of giant powder in one of the big drifts of the property. Several others were injured. The Adit is one of the largest properties in the county. The cause is presumed to be a premature blast.

Work of an Unknown Fiend.

Harrodsburg, Ky., Jan 11.—When William Devine, a farmer, returned home Friday night, he found his wife dead on the floor with two infant daughters lying on their mother's breast half frozen and crying. Finger marks on Mrs. Devine's throat showed that she had been choked to death after being outraged. There is no clew to the murderer.

More Butcheries in Cuba.

Tampa, Fla., Jan. 11.—Advices from Havana per steamer Olivette tell of renewed buteheries of Cubans by Spaniards. It is asserted that Thursday night at Cuanabacoa Spanish troops under Col. Fondeviela killed 30 men, women and children and burned many houses. In Pinar del Rio Spanish troops are accused of ravishing many Cuban girls.

Made Fast Time.

Cleveland, O., Jan. 11.—A special train on the Big Four road ran from St. Louis to this city, 348 miles, in ten hours and four minutes.

Entered at the postoffice at Tecumseh, Michigan, as second class matter.

TECUMSEH, MICH., JAN. 15, 1897

The HERALD has made arrangements to receive through a special correspondent a two column letter from Lansing during the session of the Michigan legislature. The first letter commences this week. Next week will be printed the first letter from Dr. Walter Fowler, and these letters will continue from time to time during his journey to, and stay in Liberia. During '97 the HERALD will be full of special features intended to make it the best paper in Lenawee county.

A few years ago men paid their taxes without very much thought as to whether they were too high or too low, thinking to have good roads and good bridges and good county buildings was a good thing for the commonwealth, because the money in those years came easily. But for the last few years, or more definitely since 1893, the prices of products have decreased to such an extent that it is difficult even for the "well to do" person to find money with which to pay his taxes. The taxes in Lenawee county, and especially in Tecumseh, have soared for the last two years to be even a greater burden than ever before. The HERALD has made an endeavor to find out the cause for these high taxes and in the research has formulated the following table which tells the number of cents per hundred dollars levied for state, county and township taxes for the years from '88 to '96 inclusive.

Year	State	County	Township
1888	20	14½	4¾
1889	18½	12	4½
1890	13¾	14¾	2½
1891	14	10¾	2¾
1892	14¾	8¾	4
1893	20	11	8¾
1894	18	9	8¾
1895	31	18¾	14½
1896	22	16	13

It would seem from this table that the taxes for the last two years are wholly out of proportion with those assessed for the years previous and if anyone is able to explain the cause of the raise in the township taxes from 8 1-2 cents to 14 1-2 cents per hundred dollars while both the state and the county taxes are also raised, perhaps it would be well for them to do so. In the township of Raisin the '96 state tax is one cent lower than in Tecumseh and the '96 county tax is four cents lower. Supposing the Raisin man is right this would raise our township tax five cents per hundred making it eighteen cents instead of thirteen cents which would be a jump of 9 1-2 cents over '94. The township tax in Raisin has always been very much higher than that of Tecumseh for the reason that Raisin has 18 bridges to take care of, practically making it necessary to build a bridge every year. There is no doubt that the city of Adrian has not paid, for many years, her share of the county tax. There is a system of swopping and dickering amongst the supervisors which makes it impossible for the members from the country towns to successfully combine against Adrian and make her pay the proper share of the county taxes. In another way Adrian shirks her share of share of the taxes. Manufacturing establishments have been induced to come to Adrian with the promise that their taxes should be low. Concerns worth $100,000 are assessed at less than one-half their value. Farms all over the county are assessed at more than their actual value and the farmer is paying one-half the manufacturers taxes. Every township in the county takes care of its own poor and no doubt a great portion of this excess of money raised for township taxes for the last two years has gone for the support of the poor. Certainly the taxes are too high in Tecumseh and in consideration of the fact that the rate per hundred dollars as between the years '94 and '96 is almost double, it would seem that there should be some good reason given for this increase. It may be of interest to the HERALD subscribers to know who bears the burden of this taxation, hence following is a list of all who pay over $100 in taxes to the township treasurer of Tecumseh.

Egg for dipping purposes is far better when diluted.

'ROUND ABOUT US.

Clippings and Condensations From our County Contemporaries.

The board of supervisors has granted a petition asking for the appointment of an election board at Britton, and the holding of an election on the first Tuesday in March. The same board which recently failed to perform its duties properly, was reappointed.—Adrian Times.

A project is on foot to build a telephone between Adrian and Wauseon, says the Hudson Post, it is supposed principally for the use of Doc. Smith, so that when he wants to secure Foraker or some other prominent Ohio speaker during a campaign, he can communicate with that state without traveling three nights and two days.—Adrian Messenger.

W. H. Harris, the showman, has an elephant on his hands that he cannot manage, consequently he has offered her to the Cuban insurgents to fight the Spaniards with. Wm. McKinley, Esq., of Canton, Ohio, has an elephant on his hands, in the shape of about ten extra applicants for every job. Perhaps he would be willing to send his elephant to the same place.—Ann Arbor Democrat.

Assistant Prosecutor Sampson is at Addison today, in the case of assault against Ezekial Meeks, who tried to kiss Mrs. Rose Whalon, on the streets there some time ago. The attorney's gone up there loaded down with books, and will try to convince twelve good men that Zeke's not so Meek's he looks. See?—Adrian Times' The attorney lost courage at the time for hostilities, dismissed the case and hied away to the county seat again.—Addison Courier.

Circuit court was busy in chancery this morning. A divorce was granted (when the costs are paid) to Mrs. Lida Gertrude Schwartz from her husband, Jacob Schwartz. Fred Cook, of Tecumseh, who is alleged to have been implicated with Jay Amsden in burglaries in Raisin, was brought in and his bail raised from $200 to $300, in pefault of which he rests in jail. Amsden is now serving a five year sentence at Jackson.—Adrian Telegram.

Just before Christmas Miss Jessie Blair, of this villige, addressed a letter to President-elect McKinley, extending to him the compliments of the season and expressing her joy over his election. The young lady has since received this reply from Private Secretary Boyle; "Major McKinley desires me to thank you for your pleasant letter of a recent date and to send you the enclosed campaign pin." The pin is a neat one and will doubtless long be treasured by Miss Jessie.—Morenci Observer.

But how about the postoffice? That question is a sticker. Mr. A. W. Smith is conceeded by some to have a clinch, and is doing nothing, allowing what has been done to leaven through the loaf. Mr. Metcalf seems to be the only active candidate just now, his labors going on in a quiet way right along. The speculation on other possible combinations is about like predicting weather by the aid of the muskrat. When the postmaster is appointed, then the people will know to a certainty Mr. Hoch's successor, not before.—Adrian Telegram.

A partnership has been formed between Postmaster L. W. Hoch and Chas. Meyerhuber, and the new firm will open out extensively probably about February 1st, in the store owned by Mrs. Dorcas Whitney, No. 13, East Maumee street. It will be an elaboration of Mr. Meyerhuber's present business, wall paper and carpet cleaning, feather renovating, awnings, etc., and after Mr. Hoch gets through with the postoffice, which of course he expects along in September, he will give the new business his entire personal attention. This settles the matter of Mr. Hoch remaining a citizen of Adrian, and between you and I, The Telegram is pleased to hear that he is inclined to remain here. We wish him all the success in the world.—Adrian Telegram.

The board of supervisors adjourned Saturday until March 8, without so much as even discussing the completion of the county jail annex. It was generally expected the matter would be disposed of, but it was entirely ignored. A squabble occurred over several accounts, including those of the supervisors themselves. A resolution was carried last fall reducing their salary to $2.50 per day. No attention was paid to this by the gentlemen of the minority, however, each taking the $3 which it was claimed the law allowed. At the fall session, the schools commissioner's salary was reduced from $1,200 to $1,000, but when Clerk Mills informed the board that the law fixed the salary at $1,200, and asked the board if it was willing to assume the responsibility of a cut, the board voted to pay the legal rate.—Adrian Times.

Judge Lane today held that where circuit court adjourns for any period longer than from day to day, a witness must be resubpœnaed and paid his fees and attendance for the day to which the court adjourns, or else the witness must be paid $1 a day for each day intervening, including Sunday. The question comes up often by reason of court adjourning Friday night until Monday morning, and is of interest both to witnesses and suitors as to whether a witness is either to receive his traveling fees or his $1 per day for attendance for Saturday and Sunday; or whether the suitor can on Friday night hand the witness a dollar and compel his attendance for Monday the same as for Saturday or the following day. Judge Lane holds that the witness is entitled to either be resubpœnaed and paid his traveling fees and one day's attendance, or he must be paid for his day's attendance, Saturday, Sunday and Monday. The judge expressed some doubt about the rule, and hoped the matter would be settled soon in the supreme court.—Adrian Times.

Dr. Miles' Nerve Plasters 25c. at all druggists.

Farmers' Union.

The Farmers' Union will meet at B. F. DePuy's Friday evening, Jan. 24, '97. Program as follows:

Music—Mary McIntyre.
Rec.—Mabel Wood.
Reading—Mrs. Mary VanVleet.
Music—Nellie Wilson.
Paper—Mary Eaton.
Chip Basket—John Cadmus, Jr.
Music.
Rec.—Nina McConnell.
Paper—Mrs. A. Boyd.
Rec.—Ulla Underwood.
Music.

Topic for discussion, "Recognizing the fact that legislation affords the only proper remedy for financial ills and agricultural depression, how shall we proceed to obtain relief?" Opened by Philip Kehoe, Dr. D. W. Loree, Robert Boyd, Leo McConnell, Eldridge Lowe.

Mrs. Mary Ann Harrison Waring.

wife of the late Daniel Waring, passed quietly and peacefully away at the home of her daughter, Mrs. H. B. Eaton, at 3:40 a. m., Monday, January 11, 1897.

She was born in Yorkshire, England, April 17, 1811, and came to America with her mother in 1830, her father having preceeded them two years.

She was married January 3, 1833, and was the mother of nine children, six of whom still live to mourn her loss. She became a Christian in early life and for more than fifty years was a faithful member of the M. E. church.

Mrs. Waring was a woman of large hearted liberality and has ever given freely and ungrudgingly to all objects of a benevolent and praisworthy nature. The poor and unfortunate ever found in her a sympathising and helpful friend. The months of her sickness and suffering were borne with a patience existing only in the true Christian. Truly her life work has been well and faithfully done and she has passed to her reward.

LITERARY NOTES.

The Rev. John Watson (Ian Maclaren) who has just returned to England after his wonderfully successful lecturing tour in this country, has promised to write for The Outlook in 1897 two or more articles on "Hopeful Tendencies in American Life." The recent visit of Dr. Watson, the special interest of the readers of The Outlook in the author of "Kate Carnegie," and the eminently attractive nature of the subject, combine to make this one of the most important features of The Outlook's program for the coming year. These will be the only articles written by Ian Maclaren for American readers on the subject of his recent visit to this country.

* * *

The January number of the North American Review contains a most carefully written paper by Senator Henry Cabot Lodge entitled "The Meaning of the Votes." It is a terse deprecation of the system of computations, indulged in by many, who aim to show that if a certain number of votes had been changed in one state and a certain number in another, the result of the presidential election would have been entirely different. Senator Lodge deftly demonstrates in some plain and simply compiled tabulations of his own that Governor McKinley received the largest plurality and the largest majority over all ever given to a President, except in 1872, when Grant defeated Greeley.

Mrs. Mary Thomas.

Mrs. Mary Thomas, who died at the home of her daughter, Mrs. Forrestall, Saturday morning January 9th, was born in the state of Massachusetts, February 19, 1813, consequently was nearly 84 years of age. Her parents moved to Ohio when she was but six years of age. Here she grew to womanhood. She was twice married, her first husband being Hiram Ormsby to whom she was united in 1834 and who only lived six years. Three children were born to them, one of whom is now living, the daughter with whom she resided since coming to Tecumseh. In 1845 she became the wife of Rev. Nelson Thomas, a Baptist minister, who died three years later. One son was born of this union who, like many others, sacrificed his life in the late civil war. She joined the Bastist church over 50 years ago, but for the last 30 years she has been connected with the M. E. church. During the 22 yesrs spent in this community, she was actively engaged in church work when in health, and drew around her a large circle of warm friends. The funeral was held at the home Monday afternoon, Rev. J. P. Varner officiating and the remains were taken to Constantine Tuesday morning for interment.

Mrs. John F. Day.

Mrs. John F. Day, who has been sick for the past nine weeks, passed peacefully away January 3rd 1897, aged 61 years, 5 months and 15 days.

Miss Lois E. Edsall was born in Richland county, Ohio, May 18, 1835. At the age of 23 she was married to John F. Day, at Ontario, Ohio. They lived in companionship for 37 years, spending the latter 27 years in the state of Michigan in the vicinity of Lenawee county. Ten children were born to them, eight of whom live to honor their name. Also the father and mother of Mrs. Day still live at the age of 85 years. The husband and father passed away two years ago.

Mrs. Day was converted at the age of fifteen years in the Baptist church, and lived a most devoted, conscientious, Christian life. The funeral was held at the home in Macon, Rev. J. P. Varner officiating.

A sainted mother has left us never to return. The children stood at eventide over the death-bed of the one dearest to them on earth. The memories of joys that were past came crowding into their souls. "And is this," said we, "all that remains of one so loved and so lovely?" We call, but no voice answers. Our hearts are saddened because of words we cannot hear. Although she spoke no words to us, yet the expression of her face was enough to sink deep into our hearts and cause us to think pensive thoughts. Her eyes reflected as a mirror the purity of the human soul. They were lifted upward toward God, as her life was fast ebbing away. Silently and slowly the soul took its departure. It drove back medical skill as impotent. It broke through the circle of loved ones who stood around the dying bed. With one breath it was safe in the arms of Christ. O death, inexorable death! what hast thou done? Let us bow down and forget our sorrows in the slumbers of the grave.

While we thus thought in agony, the gentle form of Christ came in. He bade us look upward, and to the eyes of faith the heavens were disclosed. There were the spirits of the just made perfect—there the spirit of her we mourn. There happiness was pure, permanent, perfect. The mourners then wiped the tears from their eyes, took courage and thanked God.

We will wait for our time to meet this sainted mother, who left us all a great fortune—not of money or land, but a Christian principle deeply centered in our souls. We then returned to the duties of life, no longer sorrowing as those who have no hope.

A precious one from us has gone,
A voice we loved is stilled;
A place is vacant in our home,
Which never can be filled.
God in His wisdom has recalled
The boon his love had given;
And though the body slumbers now,
The soul is safe in heaven.

A Happy Event.

The following from the Petersburgh Sun will be of interest to many Tecumseh people, friends of the groom:

"One of the most pleasant occasions within our memory was the marriage at the home of the bride's parents, of Mr. Bert Lee, of Tecumseh, and Miss Mary Lewis, of Summerfield, on Thursday, Dec. 31. The ceremony was performed by Rev. Lewis Wilcox, of Dundee, Mr. Fellus Lloyd was best man and Miss Etha Lewis was maid to the bride. The bride wore a becoming costume of nun's veiling trimmed with lace and silk. About one hundred of the relatives, friends and neighbors of the contracting parties were present to celebrate the event and partake of the feast of good things abundantly provided by the host. The presents were many and selected with much discretion.

Mr. Lee is a young man of sterling worth and has made many friends during his residence among us, while his bride is one of the jewels of our country side,—a dutiful daughter, faithful church and Sunday school worker and true friend.

All unite in wishing long life, prosperity and happiness unalloyed to the young people now beginning life's voyage together.

Farmers' Social Club.

Tuesday evening, Jan. 26, the club will meet at the home of Mrs. F. C. Rector. Meeting to commence at 7:30.

PROGRAM.

Patriotic Rec.—Lovina Schreder.
Historical Questions.
Song—Hazel Roberts and Eva Rector.
Question for discussion, Resolved, That there should be a law to assess a tax of two dollars on each bicycle, tricycle or tandem, and said tax should be used in each township for highway taxes.—Led by R. B. Gillespie.

American Whist Rules.

So much interest has been manifest in Tecumseh of late in the game of whist that the Herald prints the following general rules, which are the American Whist Rules:

1 The original lead should be from your strongest suit.

2 A "strong" suit is one in which you have four or more cards, or one in which you have three cards, two of which are honors. The former is generally preferable for the original lead.

3 Never lead from a weak suit, except when the previous fall of the cards shows you that it is better to discontinue your own or your partner's strong suit.

4 When obliged to lead from a weak suit, select the strongest one you have, unless your partner or your left hand adversary has discarded from it, or your right hand adversary has shown strength in it.

5 With five trumps without an honor it is generally right to lead them. With five trumps, with an honor, or with six trumps, always lead them.

You should lead from four trumps, if you get the lead after your opponents' hands are so far cleared of your strong suit that you command it.

Do not lead from less than four trumps unless—

You have winning cards in every suit; or

Your opponents are both trumping; or

The game is hopeless unless your partner proves strong.

Leads after the First Round of a Suit.

6 Avoid changing your lead from one suit to another; and if you lose the lead and obtain it again after one or more tricks have been played, generally pursue your first lead.

7 After the first round of a suit, if necessary for you to lead it, generally lead the winning card if you have it; and if you remain with the second and third best, lead the second best.

8 In other cases continue with your original fourth best.

Returned Leads.

9 Generally return your partner's lead, unless you have a strong suit of your own which contains four cards and two or more honors.

10 When obliged to return your adversary's lead, choose a suit in which the fourth hand is weak, or one in which the second hand is strong. The former is preferable.

11 Return the highest if you have but two of the suit left in your hand; the lowest, if more than two (subject, however, to rule 7).

Discount on Overcoats

Three dollar shoe now $2.40 at Karner Brothers.

A. W. Mills made Toledo a business visit Tuesday.

George W. Marvin spent Sunday with his family in Adrian.

Tom Temple, of Ridgeway was a Tecumseh visitor Tuesday.

Will Fisher and bride returned from their trip Saturday night.

Miss Edith Kirk, of Clinton, was visiting friends here Wednesday.

Mrs. A. Vedder, who was quite ill last week, is improving slowly.

Miss Lydia McNeil visited her sister, Mrs. George Hawks, at Britton this week.

Miss Ione Lampson, of the bankrupt store, spent Sunday with her people at Adrian.

Mrs. Robert Moir sold her house and lot Saturday to Mrs. A. Harlan, of Clinton.

Remember the day and date of next star course entertainment, Tuesday, Jan. 19th.

Mr. George Bly, who has been quite seriously ill for some weeks, is now slowly recovering.

Miss Allie Rice returned home Monday afternoon from a two weeks' visit with friends in Chicago.

Mrs. John Chamberlain's wife and little daughter came up from Adrian and spent Sunday with him.

The Misses Whittlesey girls, Grace and Nellie of Clinton, were guests of Rev. and Mrs. Blachford Monday.

Mrs. John Owen, who has been assisting her uncle at Homer through the busy season, returned home Monday.

Until Saturday January 30th you can buy all the felt and leather goods at 20 per cent discount at Karner Bros.

Mrs. M. B. House, spent Wednesday with her daughter, Mrs. James Clark, returning in the evening to Clinton, home.

Mary Nyland is housed up in consequence of an injured foot which resulted from a wagon tongue falling on it a few days since.

Mrs. Tolver, of Ypsilanti, who used to clerk in the white pharmacy at Britton, has been placed in charge of Baker & Co's drug store.

Miss Austin and her committee will serve supper in the parlors of the M. E. church Wednesday, Jan. 20, from 5:30 to 8 o'clock. All are invited.

Mr. A. B. Clark, of Adrian, died last Monday night. The funeral was held at Lyons, Ohio, Saturday, attended by Rev. E. C. Andrus, of this place.

Miss Daisy Baldwin held the lucky ticket which drew the candy house at the kitchen consequently she has candy galore. She is a very lucky girl.

Children desiring instruction in dancing will meet with Mrs. Tiffany, on Pearl street, Saturday (tomorrow) at 2 o'clock. Adults, Monday evening at 8 o'clock.

Mr. and Mrs. Wm. Cupples have given up life and returned to the farm, but in these times it is to their interest to have the management of themselves.

Hall & Hitesbu announce a grand closing sale to commence at once. Sales always mean business and Hall never advertises anything they do not intend to fulfill.

Mrs. McClure was in Toledo Tuesday. She has accepted the position of housekeeper in the popular fruit house of Demuth & Co. and will begin duties February 1st.

Rev. Walter S. Aldrich, of Adrian, is filling the pulpit at the Friends church for a few weeks. Mr. Buck will supply him next Sunday to assist in meeting. Services morning and evening. Everyone is welcome.

Rev. Charles M. Brown went to Detroit first of the week to assist Dr. Pierson of the Trumbull Ave. Presbyterian church, in special meetings. Sunday Mr. Brown preaches for Dr. Pierson and Dr. L. C. Thomas, of Olivet college, preaches here.

"The Cycling Club" March and Two Step, latest hit, as played by Hoo's Fashionable Entertainment Band, Michigan National Guard. Complete piano copy by mail, 50 cents (silver). Address,

CENTRAL CITY MUSIC CO.
Jackson, Mich.

Sunday evening, Rev. Andrus, of the Universalist church, began a series of character studies from American history, taking as his theme "U. S." The series is to continue during the year from our political history, our industrial life and one from literary history.

Rev. W. R. Blachford exchanges pulpits next Sunday with the Rev. Mr. Arnot, of Hillsdale. At both services at St. John's church, Clinton, and St. Peter's church, Tecumseh, Mr. Arnot will preach upon Diocesan topics. There will be the usual early celebration of communion at each church.

Manager Aswell announces a splendid bill for January 21. It is the comic opera "Wang". It will be given in Adrian with a very large and strong company headed by Marie Albert Hart. The chorus will be large, the scenery all special. Seats for this attraction will be on sale early to Manager Adrian. Remember the date, Jan. 21.

Star course, Tuesday, Jan. 19th.

Bert Chandler, of Hudson, was in town yesterday.

George Semark, of Clinton, was on our streets yesterday.

E. D. Brown, of Dundee, was calling on friends here yesterday.

Now is the time to buy carpets cheap at Anderson & Rosecrans.

Mrs. D. A. Hodges, of Jackson, is visiting her parents, Mr. and Mrs. G. W. Jackson.

Mrs. Sumner Collins is much better and it is hoped will soon be in Tecumseh again.

John Campbell expects soon to go to Clayton to take charge of a newspaper in that village.

Misses Lucy Bliven and Edna Warren, of Blissfield, are guests of Mr. and Mrs. Will Sisson.

Regular meeting of Tecumseh lodge at the temple tonight followed by work in the third degree.

The Tecumseh Coal & Lumber Co. wants some good cabbage and handpicked beans at once.

L. S. Cook, of Plainfield, Mich., has been roaming around Tecumseh for several days visiting old friends.

Mrs. W. S. Morse, who was so critically ill last week, is rapidly improving and now considered out of danger.

Mrs. Mary E. Prichard, after nine weeks visiting at Jackson with her daughter, Mrs. Rassman, has returned home.

Mrs. Forrestall is slowly recovering from her late illness, but was unable to accompany her mother's remains to Constantine.

Mrs. J. S. Kies, of Clinton, visited her daughter Mrs. C. F. Field, Tuesday, returning to her home in Clinton Wednesday morning.

Dr. Beem has rented a suite of rooms over McCann Bros.' store, is fitting them up and may be found there or at room 40 Lilley house.

Harry Pattison and Vern Smith went to Adrian Tuesday to see Black Crook. They are not very flattering in their expressions regarding it.

Robert Moir and Ed McKinney contemplate removing to Hudson soon and engage in the manufacture of cigars. They are making their arrangements accordingly.

Mrs. Wm. Kirchgessner and child, who for the past two weeks have been visiting her sister, Mrs. B. F. Kirchgessner, returned to her home in Grand Rapids Tuesday.

Miss Nettie Southworth has had the care of her brother Ed's baby son, Albert, since before the holidays. She appears very motherly and the young boy seems perfectly contented.

Mr. and Mrs. Wellington DePuy are visiting relatives and friends in and about Tecumseh for a few days. Mr. DePuy reports business affairs in good shape at his home in Grand Ledge, Mich.

George Teachout and George Reese went to Wolf Creek overland yesterday, and returned this forenoon. They went in style, being perched high in the air, and had an excellent opportunity to survey the country on all sides.

Last evening a few friends of Rev. and Mrs. Blachford dropped in upon them in a social way and presented them with an elegant hall seat as an anniversary token of their marriage. All passed a pleasant evening.

Will Mobbs overdid last week and Friday suffered a relapse. For three days his condition was certainly alarming but on Monday there was a perceptible change for the better and since then he has continued to improve and he hopes soon so be as good as new.

Dr. F. W. Gunsaulus, Jan. 19th. Subject, "Savannah Roller."

Subjects in the Universalist church Sunday, Jan. 17th: Morning, "An Aggressive or a Defensive Spirit, which?" Evening, "A Character Study from Our Political History, Thomas Jefferson." Sunday-school after morning service. Y. P. C. U. devotional meeting at 6 p. m.

A number of poultry fanciers met at the Herald office last Saturday evening, organized themselves into a committee with John D. Shull chairman and Dr. Waldron secretary, and decided to hold a poultry institute in Tecumseh about the middle of February. Competent persons have the matter in charge and success is assured.

The Tecumseh Coal & Lumber Co. have invoiced a choice line of candy.

At the last meeting of the Monday club papers were read as follows: Miss Bertha Smeltzer on St. Sebald, Mrs. S. W. Temple on St. Lawrence, Mrs. Geo. N. Stacy on Peter Vischer. After the reading of papers and a general discussion officers were elected for the season of '97 and '98. The officers are thus elected in advance that ample time may be had to prepare the course of study.

Mrs. Michael Wilson returned yesterday afternoon from a short visit with Toledo friends, and while alighting from the C., J. & M. train here, slipped and sprained her ankle severely. She was taken to the Central House and a physician called. She was made comfortable and able to accompany her husband to their home in the country. Being fleshy, it is a wonder no bones were broken.

Come early Saturday morning to our Cloak Sale. ANDERSON & ROSACRANS.

At the regular meeting of the Research Circle, Jan. 8th, the election of officers for the year 1897-8 took place. Papers were read on the beginning of the decline of Egypt—"Fisit Persian Invasion," by Mrs. Helme and "Conquest by Alexander and Founding of Alexandria," by Mrs. Howell. The circle anticipate a rare treat in the near future, an afternoon with Egyptian photographs. This pleasure and profit is secured through the kindness of Mrs. L. M. Kellogg.

Roy Langton visited his people this week.

Frank Chilson contemplates buying a new pair of skates.

Ed. Williamson made a business trip to Chicago this week.

Charles Burridge is reported easier and it is hoped better today.

Bessie Bates thinks it's tough to be sick when there is good skating.

Sumner Collins visited Detroit and Ann Arbor on business this week.

Geo Hall is out on a business trip this week and may strike Chicago.

Mrs. Tiffany was in Toledo yesterday taking special instruction in dancing.

Albert Clark was called to Grand Rapids Monday by the death of his father.

Born, to Mr. and Mrs. R. J. W. Bowen, Monday morning, an 8 lb. daughter.

You can buy a cape, coat or jacket at Harris & Hiteshu's for less than making cost.

A little daughter of Mr. and Mrs. J. Elliott Lowry has been seriously ill this week.

Mr. and Mrs. James Potter are making an extended visit with friends at Chester, Mich.

Editor Stevens, of the Hudson Vibrator, was the guest of Mr. Lamb yesterday and today.

You can buy goods at Harris & Hiteshu's at manufacturer's cut prices. Month of January.

Mrs. H. E. Stout, who has been very ill, being threatened with pneumonia, is much better today.

Tonight occurs the first of the series of hops given under the auspices of Company C at the armory.

Tecumseh was represented at the party at Adrian Friday evening by Charlie Bidwell and Miss Etta Thorpe.

Wanted—Within the next 10 days, 20 pigs weighing 60 to 80 pounds. Please call or drop us a line. Dickinson Bros.

Mr. and Mrs. Geo. Hoag, who have been visiting here for some weeks, return to their home in New Haven in the morning.

There is to be a skating party on the pond tonight. We would suggest to those participating that they provide themselves with football clothing and skull pads.

Those from away who attended the funeral of Mrs. Thomas were Mrs. Allen, of Benton Harbor, Mrs. Winship, of Adrian, and Mr. and Mrs. Thomas, of Constantine.

Notwithstanding about an inch of snow covers the ice, the skating is good and both ponds are thickly covered with young and old from 4 p. m. until late at night.

There is now a vacancy in the official ranks of Company C, Score S. Walker having presented his resignation as 1st lieutenant. No doubt Richard Farley will be advanced to the position.

James Henderson, who for some time has been suffering from a stomach trouble, was taken with severe cramping yesterday and was in great agony until relieved by the physician. He is still confined to his bed.

Mr. and Mrs. Newton Satterthwaite have been very anxiously watching over a very sick child for the past two weeks, their youngest daughter, about 2 years of age. They now think all danger past and her recovery assured.

Simpson Clark, who for many years lived in this community, but for some years has been an inmate of the Soldier's Home, died Saturday night. His funeral was held there Tuesday afternoon. He was the father of Albert Clark and was 62 years old.

The remains of Capt. Charles D. Stevens, of Detroit, a former resident here, arrived on the evening train yesterday and were conveyed to the home of his sister, Mrs. William Steinhoff. The funeral was held at the house at 10:30 today, Rev. J. P. Varner officiating. Tecumseh lodge of Masons attended in a body and conducted the services at the grave.

The past week there has been quite a number of changes in real estate. Among the most important is that of John J. Freeman, whereby he exchanges the block recently purchased of Richards, on the north side of Chicago street, with Arthur Gove for those on the south side, occupied by David Macham and John Hazlett. This will necessitate W. W. Whiting's changing quarters as John wishes to occupy the rooms himself as soon as Will can find another place.

George Adamson, who for the past seven months has been valiently fighting the battle of life with heroic courage, has been forced to yield to the inevitable and at ten o'clock today, surrounded by loved ones, he quietly laid down the burden of life. The funeral will be held at the house Sunday at 2.30 p. m., with the Episcopal service conducted by Rev. Mr. Vernor, of Hillsdale, who, as prearranged, exchanges with Rev. Mr. Blachford. Beers Post, G. A. R., will act as escort. Lack of space forbids a more extended notice at this time but next week a suitable sketch of his life will be printed.

The funeral of Mrs. Leroy Barris, who died at her home in Wolf Creek, of heart disease, was held last Friday, Rev. E. C. Andrus, of this place, conducting the service. Mrs. Barris was taken some three months ago with a bad spell, recovering, as she and the rest supposed, fully. Last week Tuesday she was not well but did her work as usual though she felt chilly. In the evening she joined in the good times with her husband and daughter, though not with her usual spirit. Retiring about ten o'clock, she died in a few hours. She leaves a husband and three daughters, all married, with one of whom she and her husband lived. Besides these she has numerous other relatives and friends who mourn the loss of one who was the life of a company, a good neighbor, a loving wife and mother.

Notice the long list of bargains in Karner Bros.' "ad" this week.

Tuesday, two of our young people, Mr. Thomas Shurtz and Miss Florence Beasley, visited Adrian. At the county clerk's office a license was procured. They then called at the Baptist parsonage and were married by Rev. Mr. Banker, returning home on the night train. The whole affair was managed very quietly and the young couple have the best wishes of their friends.

The Rev. James C. Hageman, of Dundee, and Olive S. Mead, daughter of Thomas and Libbie Mead, of Sutton, Mich., were married at the home of the bride, January 14th, at 7 p. m., the Rev. David J. Lewis officiating. The Mead home was tastily decorated and was filled with the many relatives and friends of the family. The evening being perfect, nearly all invited were in attendance. Miss Jennie Root rendered excellent music and nothing was wanting to make the occasion all that could be desired. The young couple received many valuable and useful presents and after supper was served, mid joy and congratulations, the bride and groom left to take a late train at Adrian for the home of the later at Cincinnati. After a short visit among friends at Cincinnati and Richmond, Ind., Rev. Hageman and wife will return to Dundee about Feb. 8th, to take up their abode in their new home.

High School Happenings.

Lina Boyd was a C room visitor last Friday.

George Hoag called on the A room Tuesday afternoon.

George Houseman, one of the senior class, has left school.

Luina Wiggins, of the C room, is confined to her home this week by illness.

John Richards, teacher in the Holloway school, was examining our work Tuesday.

Bertha Macham and Grace Carpenter, of Holloway, were guests of Floy Spencer Tuesday.

Mrs. Wilson McClure and Mrs. Robt. Elliott called on the seventh grade Wednesday afternoon.

Chauncey Graves, the Ridgeway high school principal, looked over our high school work last Friday.

The ninth grade numbers another new pupil. Lloyd Bartholomew, of Holloway, entered Monday.

Christine Wilson expects to take up German II with the class when the new books, Herman and Dorothea, come.

Mrs. George Hoag, of New Haven, called on the A room last Thursday afternoon. Bessie Spayde also dropped in.

Lillian and Charlie Waring and Agnes Eaton were absent the first three days of the week, owing to the death of their grandmother, Mrs. Waring.

Monday, Iva Elliott was an A room caller, while in the office Mr. Kellogg entertained two of the school board, P. S. McKinnon and J. H. Smith.

Miss Kyle applied her favorite theory of study from observation, Wednesday, by having a heart dissection for the benefit of the sixth grade physiology class.

Next week will come final examinations in English II. grammar, chemistry, algebra II, physiology, United States history, physical geography, and bookkeeping. The studies to take their places are English history, English composition, political economy, botany, rhetoric, civil government and arithmetic. The program for examinations with the exception of English II, bookkeeping and chemistry, is as follows: Thursday morning, algebra II, grammar; Thursday afternoon, physical geography and physiology; Friday morning, United States history; Friday afternoon, ancient history and English I.

The T. and F. Farmer's Club.

The club met at the home of William Waldron, Jan. 8, 1897. A pleasant time was enjoyed by all. The next meeting will be held at the home of Mr. Aylesworth, January 22.

PROGRAM.

Song—VanValkenburg family.
Rec.—Zora Cairns.
Reading—Mrs. Mary Mathews.
Paper—Lila VanValkenburg.
Song—Viva Mellon.
Essay—May Aylesworth.
Stump Speech—Harry Abbott.
Rec.—Julia Tilden.
Song—Maud Abbott.
Simultaneous Rec.—Harold and Eddie (Hoag.
Charade—Mrs. Belle Mathews.
Music—Mrs. Wm. Waldron.
Conundrums—Minnie Stitt.

A pleasant time is anticipated by all.

READY FOR BUSINESS.

Michigan Solons Can Now Perform Their Duties.

OBSOLETE LAWS TO BE DROPPED.

Standing Committee to Weed Them Out and So Arrange Those Still in Force That They Can Be Readily Understood—Other Work Which the Committee Will Perform—Proposed Amendments to the State Game Laws—Blow to Lobbyists.

Lansing, Mich., Jan. 13.—The legislature is now squared away and ready for business. The messages of the retiring and incoming governors have been read and digested, the committees have all been appointed, and nothing now stands in the way of the transaction of the business which the lawmakers are here to perform.

One of the most important departures made by the house, and one which it is generally expected will be productive of excellent results, is the appointment of a standing committee of ten whose duty it is to provide for the general weeding out of obsolete laws and so arrange those still in force so that they will be readily understood. As Speaker Gordon well said in his timely address upon taking the chair, many of the existing laws have been so loaded down with amendments that even accomplished lawyers have the utmost difficulty to understand just what the law is, while the layman is utterly at sea on the subject. This new committee will, however, have other and fully as important duties to perform, for the resolution under which it was appointed imposes upon it the task of practically passing upon the advisability of enacting into laws the bills which will be introduced during the first fifty days of the session. While the members of the house may not generally understand it to be the case, yet the resolution contemplates that every bill introduced shall be carefully scanned by this committee whose judgment will have much to do with its fate. The committee is, in fact, a "steering" committee, the principal business of which will be to steer to the front such proposed legislation as, in its judgment, should become laws, and steer to the rear all other bills.

These are the days when much is read and heard of what legislation the various members are going to propose. It has always been so, but the fact remains that most of this information is unreliable. When the average new legislator reaches Lansing he brings with him a lot of startling ideas in the way of desired legislation of which he rids himself very soon after being here a short time and exposing his plans to the criticism of some of his more experienced colleagues. There is no doubt that the schemes embodied in Governor Pingree's legislative programme, such as 2-cent railroad passenger fares, the prohibition of the consolidation of steam or street car companies, the prevention of stock watering, laws against trusts and combines, the abolition of political primaries, etc., will all soon appear in the shape of bills, but none of the latter have yet been drafted, so that their exact provisions cannot be stated. Whatever might be said of them at this time in other than a most general way would be mere speculation.

The fact is becoming more evident as the attitude of the various legislators developes that the oft heard of Pingree and anti-Pingree feeling will be no more prominent than the Rich and anti-Rich or the Luce and anti-Luce feeling has been in previous legislatures. In other words, there is every reason for believing that the relations between the present governor and the legislature will be in every way similar to those which have always existed between the governors and legislatures of this state. It is confidently predicted that there will be no considerable opposition to any measure because it may be championed by the governor. Neither is it believed that the governor will be hostile to any measure simply because some one whom he may not love very well introduced it. It is becoming more apparent every day that each bill will be disposed of on its merits, and that the legislative and executive departments of the state government will work together with fully as much harmony as in previous years.

The conference of the state committees of the several parties constituting the Democratic-People's-Union Silver party of Michigan, which was held here last week, paved the way for the introduction of one of the most interesting bits of legislation that is likely to be considered this winter. That conference was attended by many silverites, aside from the members of the three state committees, fully 250 persons from various section of the state being present. The proposed legislation referred to will result from the adoption by the conference of a resolution favoring the enactment of a law providing for a specific state tax on incomes, the proceeds to be used, as provided by the constitution in the case of all income taxes, in paying the expense of maintaining the primary school system. The unanimity and enthusiasm with which the resolution, which was proposed by Chairman Fred A. Baker of the Democratic state committee, was adopted, leaves no doubt that the proposition will be embodied into a bill and vigorously pushed before the legislature. It is proposed to levy a 2-per cent. tax on incomes of $1,500 and over. It may be more or less significant that the resolution introduced by ex-State Senator Samuel W. Hopkins of Mt. Pleasant, commending the message of Governor Pingree and the stand taken by him for the rights of the people, was voted down.

The representatives of the State Sportsmen's association are early in the field with several amendments to the existing game laws, which they will ask the legislature to ratify. One of their principal objects is to dispose of the market hunter who annually raises such havoc with game of every description, threatening even to wipe out some kinds of game entirely. The bill designed to accomplish this object will absolutely prohibit the sale or giving away of game of any and every description. At present this prohibition extends only to quail and partridge, the idea being that when a man can be prosecuted for selling or giving away such game there will be no object for him to kill any more than he has personal use for and needed protection will thus be given. The open session to be asked for are as follows: For fox, black or gray squirrels and rabbits, Oct. 1 to Dec. 31; wild turkey, Nov. 1 to Dec. 1; wild duck, wild goose, brant or waterfowl, snipe, woodcock, plover, mourning dove and wild pigeon, Oct. 1 to Dec. 31. The other provisions of the existing laws are retained. It is expected that the subject will, as usual, occupy much of the legislature's time and precipitate a fight of somewhat extensive proportions. No doubt an effort will be made to prohibit spring duck shooting, a provision which has thus far been successfully combatted.

There is considerable speculation as to what place the lobbyists will have this session. Representative Edgar introduced a resolution calling for the rigid enforcement of the rule excluding all but certain officials from the floor of the house, and the chances are that the resolution, which is now in the hands of the committee on rules, will be reported favorably and adopted. It is clearly designed to give a blow to lobbyists who have heretofore been permitted to mingle freely with the representatives while the house was in session. Then, too, the suggestion made by Governor Pingree in his message that lobbyists be licensed and restricted in their operations, was warmly applauded. Taken together these facts would seem to indicate that the lobbyists will experience something of a frost this winter.

The agitation for better roads in Michigan resulted in the organization of a state good roads association in this city a few months ago. Since its organization very little has been heard from the association, but a meeting will be held here Friday for the purpose of agreeing upon legislation which will tend to promote the construction of better roads in Michigan. No regular programme for the session has been prepared, but Hon. William L. Webber of Saginaw, who represented this state at the good roads congress at Atlanta last year, will preside. Mr. Webber has devoted much time and thought to this question which he believes of paramount importance.

Two years ago the doctors of the state secured the passage of just such a medical registration bill as they thought they desired, but when it reached the governor after the legislature adjourned and too late to have it amended, it was discovered that it contained fatal defects and Governor Rich was obliged to defeat it. The doctors propose to be early in the field this year, and have already drafted a bill which is the same as that of two years ago in the main, but from which all of the objectionable and unconstitutional features of the old bill have been eliminated. The new measure provides for the appointment by the governor of a board of registration, to consist of nine members representing the different schools of medicine. With this board all doctors will be required to register. Doctors already in practice will be permitted to simply register with the board upon payment of a fee of $1. Certificates of registration in another state will be accepted here, and new doctors will be permitted to practice upon either passing an examination before the board, or filing a diploma issued by a recognized medical college having at least a four years' course.

About the only point which yet remains to be decided is the number of representatives each of the several schools of medicine is to have on the board. The supreme court has already decided that it would be unconstitutional to provide that so many shall be of one school, so many of another, etc., and the committee in charge of the preparation of the bill are not a little puzzled how to get around this fact and still fix things so that it will be impossible for any one school to manipulate matters that it will secure a majority of the members of the board, and thus be in shape to work affairs in its interest. It is constitutional to provide that no more than a certain number shall be of the same school, but such a provision would not confine the representation to the exact number named, and that is what the committee desires to do.

As intimated above the measure does not contemplate that physicians now in practice in the state shall be required to pass an examination before the board, but only those who desire to practice and who have never been granted a diploma by a reputable college, or who cannot show a certificate from another state. The committee which prepared the bill is made up of representatives of all the schools, and the members are agreed that it is free from all objectionable features.

The traveling library system, which was provided for by the last legislature, has proved to be very popular, the librarian being quite unable to meet the demand upon her because sufficient money was not appropriated to meet the rapid growth of the scheme. Already a number of applications are on file awaiting the contemplated action of the present legislature in increasing the appropriation so that the wants of the people may be supplied. Representative Atkinson has announced his intention of introducing a free public bill, which will embrace the salient features of circulating libraries in other states. The measure will provide for the appointment of a state library commission to act in conjunction with the superintendent of public instruction for the purpose of encouraging the establishment of free public libraries in the cities and villages of the states, and will provide for an appropriation of $100 each as a nucleus with which to establish such libraries. This bill, if it becomes a law, will not interfere in any way with the traveling library system, that being taken advantage of principally by citizens of the rural districts to whom they have proved a great benefit.

Some changes may be made in the arrangement of the upper peninsula counties. At present Isle Royale county is disorganized, its records being in possession of the auditor general. In view of the contemplated resumption of mining operations on the island it is proposed to attach it to Keweenaw county. There is also a movement on foot to induce the legislature to organize a new county from the townships of Ewen, Matchwood, Port, Trout Creek and Choate in Ontonagon county, Marienesco and Watersmeet in Gogebic, and Laird and Duncan in Houghton. These are all lumber towns, but some of them are attached to copper and others to iron counties. Duncan and Laird townships are located 100 miles from the county seat. The plan bids fair to encounter considerable opposition.

NEW SCHOOL FOR MONKEYS.

They Will Be Trained for Domestic Servants.

There has just been founded at Calcutta an institution for the education of monkeys, says an exchange.

A young monkey is taken and before him is placed a set of blocks on which are painted in capitals the letters of the alphabet. These blocks are, in fact, exactly similar to those which children play with in every civilized country in the world, and they are used in precisely the same way as if the monkey were a young specimen of the human race. There is one professor for each monkey, and the monkey is taught by means of the blocks to spell certain words. If the word is "fruit," for example, the monkey, after having been taught to arrange the blocks so as to spell the word quickly and without error, receives a bit of fruit as his reward. The same exercise is repeated with other words; and it is hoped that in time the simians will learn how to read and spell and understand English, if they cannot speak it. An effort will also be made, it is said, to educate these beasts so that they may become fairly efficient domestic servants. The school is so young as yet, however, that what it will accomplish is entirely a matter of speculation. Its "professors" are enthusiastic about their novel work and seem to think that a new field of usefulness will be opened up for these chattering little beasts.

A MIDNIGHT EPISODE.

The Entire Matter Was Dropped Just Where It Was.

Beemer was walking home late at night through the suburbs, observes the Detroit Free Press.

So was Deemer.

Deemer was not more than 50 feet behind Beemer, and both of them were trembling in their shoes for fear of footpads.

Beemer wanted to run, but felt sick at heart under a conviction that the man so doggedly following him would not be a robber unless he were a sprinter.

Deemer ached to turn and make a dash for safety, but was sure that the man ahead would be upon him within a block.

Beemer stumbled and yelled "police."

Deemer struck out into a vacant lot and yelled "police."

They reached their respective homes pale, breathless and resolved never to stay out late again.

Next day Beemer and Deemer met with the usual crowd at lunch. Beemer gave a thrilling account of how he put a footpad to flight the night before.

Deemer was even more vivid in his description of a like feat.

After the two had taken a square look at each other they sneaked out together and before they parted there was a solemn pledge exchanged that the entire matter should be dropped just where it was.

CHILDREN BURNED.

Fifteen Inmates of a Texas Orphans' Home Lobe Their Lives.

A Search of the Ruins Discloses the Charred Remains of the Luckless Little Ones—Several Others Badly Injured.

Dallas, Tex., Jan. 18.—Fifteen little girls and boys are dead as a result of Friday night's fire at the Buckner orphan home and nine others are seriously burned and crushed. Three of the injured, it is thought, cannot recover.

The fullness of the holocaust was not discovered and fully realized until Saturday. The fire, which began about ten o'clock Friday night and raged until the boys' dormitory was destroyed, did not cool enough for search for bodies in the ashes until early Saturday morning. At that time it was thought that only five children had been burned to death. When the ashes had cooled enough to admit of a search scores of sympathizing friends and neighbors began the sad task of finding the bodies of the five who it was known had perished. The search had hardly been instituted when the terrible truth that there were more than five bodies in the ashes appeared. The search continued until dawn, when 15 bodies had been found.

All the dead except one were buried Saturday evening in the cemetery home. Rev. Mr. Buckner, manager of the home, officiated The home physicians are in attendance on the injured. All the farmers in the vicinity turned out and assisted in making coffins, digging graves and burying the victims. There were 147 boys and more than 100 girls in the home. All are accounted for.

Three Children Suffocated.

Boston, Jan. 18.—John D. Reynolds, a laborer, has been unfortunate of late through sickness among his four children, and had called in Annie Connelly, 14 years old, to assist in the care of them. She put the four to bed early Saturday night, two to a room, and she herself occupied the room with the two elder girls—Mary, aged 7, and Margaret, aged 4. All three were found dead in bed Sunday morning, with the gas turned on. It is supposed that this was done accidentally.

TIME IS NEEDED.

Dun & Co. Say Business Improvement Is Coming Gradually.

New York, Jan. 16.—R. G. Dun & Co. in their weekly review of trade say:

"The greatest growth and prosperity the country had ever seen came suddenly in 1879, after several months of disappointment because specie resumption had not yet brought the benefits expected. It takes time for new confidence to reach through easier money markets, large orders, resuming mills, expanding employment and larger distribution, to the results which make still greater and lasting gain possible. Such gradual and steady improvement has been in progress for more than two months. The output of pig iron has gained 41.6 per cent. since October 1. The output of coke has increased 88.7 per cent. since October 1. Sales of wool have become large. Money markets feel a steady increase in demand for commercial and manufacturing loans. Additional works have gone into operation each week in January, and the working force is larger than at any other time for six months. The gain may be ascribed to the deliberate judgment of the ablest and most prudent men in business.

"Failures for the week have been 435 in the United States, against 336 last year, and 41 in Canada, against 31 last year.

POACHERS SHOT.

Serious Trouble on Private Shooting Grounds in Indiana.

Crown Point, Ind., Jan. 20.—Seven watchmen guarding the preserves of the Tolleston club, of Chicago, ten miles north of here, and who were armed with Winchesters, fired into a hunting party of 16 men Tuesday afternoon who were on the grounds of John H. Clough, of Chicago, fatally wounding four of them. Their names are: Theodore Prott, riddled with bullets and shot; Frank Kosti, shot through the body; Alvin Bothwell, arm shattered; Charles Prott, wounded in the neck.

The farmers are reported to have been poaching on the club's preserves and to have attacked the wardens when ordered to leave. Frank Whitlock and two of his wardens were arrested by Sheriff Farley and driven to the Crown Point jail over the old stage route. This was taken because the authorities feared the wrath of the villagers.

Iowa Coal Miners Strike.

Des Moines, Ia., Jan. 19.—When the operators of the Oak Park mine, near this city, asked the miners to accept a reduction of 30 cents a ton for mining from the former rate of 80 cents the miners threw down their picks and left the shaft. One hundred men are involved in the strike, which the miners declare will immediately spread to the other 20 mines of the district.

Honored Again.

Huntington, Ind., Jan. 19.—Mrs. Sarah Dick, the only female national bank cashier in the United States, was for the twenty-fourth consecutive time chosen to that position in the First national bank of this city.

Indianapolis, Ind., Jan. 10.—In the female six-day bicycle race here yesterday Tillie Anderson made 41 miles 10 laps in two hours, which is a new world's record.

Cincinnati, Jan. 18.—The Wheeling, Lake Erie & Pittsburgh Coal company failed for $1,036,000 and the Wheeling & Lake Erie Railway company went into the hands of receivers with liabilities of $320,000.

SHERMAN ACCEPTS.

The Senator Announces That He Will Be Secretary of State.

Canton, O., Jan. 16.—After more than two months of extensive consultation with party leaders and after weighing many eligible citizens in the scales of personal fitness, statecraft and party politics, President-elect McKinley has chosen the premier of his cabinet—United States Senator John Sherman, of Ohio, for the office of secretary of state. The venerable, but vigorous statesman who was in the cabinet of President Hayes as secretary of the treasury and has been a distinguished senator since 1861, except for his term in the cabinet, made a special trip from Washington to Canton to formally ac-

SENATOR JOHN SHERMAN.

cept the tender of the first portfolio. After his conference with Maj. McKinley Senator Sherman authorized the positive announcement that he had accepted the state portfolio. It is understood that Gov. Bushnell will call a special session of the legislature to fill the prospective vacancy and that he can be Senator Sherman's successor if he says the word and does not want to make way for Mark Hanna.

IN EXTRA SESSION.

Iowa Legislature Convenes and Organizes for Business.

Des Moines, Ia., Jan. 20.—The extra session of the legislature was opened in regular form at ten o'clock by Lieut Gov. Parrott and Speaker Byers. The officers of the two bodies at the regular session last winter were reelected with the exception of Secretary of the Senate Bullard. George A. Newman, of Cedar Falls, was elected secretary. Resolutions looking to reduction of expenses of the session and the manner of carrying on the code revision work, were introduced.

Gov. Drake, in his message, after referring to the causes which led to the convening of the extra session, devotes considerable space to the damage done several state institutions by the elements, and suggests that the state should purchase insurance or else provide for the establishment of an insurance fund or the adoption of other adequate provision to meet extraordinary emergencies. The financial condition of the state was also touched upon.

THE DEATH PENALTY.

Congressman Hubbard Would Inflict It on Train Wreckers.

Washington, Jan. 20.—Some interesting facts concerning train-wrecking were presented to the judiciary committee of the house Tuesday by Representative Hubbard, of Missouri, who has introduced a bill to provide the death penalty for the crime. Mr. Hubbard showed that the number of train "hold-ups" in six years had been 183, in which 73 persons were killed and 58 wounded by shots. The record for 1896 was 23 hold-ups, in which 32 passengers and trainmen were killed and many injured, four robbers killed and two injured. The bill is a very severe one and fixes the death penalty or imprisonment for not less than ten years for all "held-ups" or attempts at train wrecking.

Americans in Germany.

Washington, Jan. 19. — The Royal Wurtemberg statistical bureau has completed a census of the citizens of the United States in that kingdom which is sent to the state department by Consul Johnson at Stuttgart. It appears that in Stuttgart there are 197 male Americans and 231 females, and in Wurtemberg 518 males and 519 females. No note was taken of the birthplace of the citizens.

Duestrow Must Hang.

Jefferson City, Mo., Jan. 20.—The supreme court affirmed the decision of the lower court in the case of Arthur Duestrow, of St. Louis, who shot and killed his wife and child in that city during a drunken frenzy three years ago. Duestrow has twice been sentenced to hang, but the case was appealed Duestrow is in jail in St. Louis.

A Mother's Crime.

Utica, N. Y., Jan. 18.—Mrs. Frank Villier, of Piney settlement, four miles east of Port Leyden, Lewis county, cut her child's throat and then her own. The child is dead and the mother cannot recover. The cause of the act has not been ascertained.

Recognized by Spain.

Madrid, Jan. 18.—The cabinet council just held here agreed to recognize the newly-formed federation of the Central American states of Nicaragua, Salvador and Guatemala, known as the greater republic of Central America.

Milwaukee, Wis., Jan. 16.—The semi-centennial plan of celebrating in 1898 the fiftieth anniversary of Wisconsin has been abandoned.

FROM WASHINGTON.

The Closing Session of the Fifty-Fourth Congress.

Measures of Importance Presented in Both the Senate and House—A Daily Summary of the Proceedings.

Washington, Jan. 14.—Most of the time in the senate yesterday was given to Mr. Bacon (Ga.) in a speech upholding the power of congress to recognize new governments. In executive session the nomination of David R. Francis to be secretary of the interior was discussed, but no action was taken.

Washington, Jan. 15.—In the United States senate yesterday the free homestead bill to open to settlement all public lands acquired from the Indians free of any payment to the government, and involving 33,252,341 acres, was passed. The army appropriation bill ($23,129,344) was reported. Adjourned to the 18th.

Washington, Jan. 19.—The army appropriation bill was passed in the senate yesterday and the military academy and the bill making appropriations of $21,729,255 for the legislative, executive and judicial expenses of the government for the year ending June 30, 1898, were reported. The Nicaragua canal bill was discussed. In executive session the nomination of David R. Francis, of Missouri, to be secretary of the interior was confirmed.

Washington, Jan. 20.—The Nicaragua canal bill was further discussed in the senate yesterday and the legislative appropriation bill was also considered.

The House.

Washington, Jan. 14.—A senate bill was passed in the house yesterday to withdraw from the supreme court criminal cases other than capital, and to leave jurisdiction over them to the courts of appeals. The agricultural appropriation bill ($3,152,752) was reported and a bill to make oleomargarine and other imitations of dairy products subject to the laws of the states into which they are transported was discussed.

Washington, Jan. 15.—The bill to subject oleomargarine and other imitation dairy products to the laws of the states into which they are transported was passed in the house yesterday. A bill was introduced for the establishment of a permanent census service.

Washington, Jan. 16.—In the house yesterday a bill was introduced authorizing the secretary of state to offer to the government of Spain a sum of money not to exceed $200,000,000 for the purchase of the island of Cuba. The free homestead bill which came back with senate amendments was referred to the committee on public lands. A bill fixing the age at 65 years for retirement from the classified civil service was introduced, veterans of the civil war and their widows being excepted. At the evening session 14 private pension bills were favorably reported.

Washington, Jan. 18.—Most of the time in the house on Saturday was devoted to oratorical tributes to the late Speaker Charles F. Crisp. Mr. Sherman (N. Y.) introduced a bill to regulate the sales of railroad tickets. It makes it unlawful for other than authorized agents to sell or transfer tickets or passes, fixes penalties for counterfeiting tickets, and provides that all unused parts of tickets must be redeemed by the companies by which they are issued.

Washington, Jan. 19.—In the house yesterday bills were passed to prohibit and punish the sale of liquors to the Indians and to amend the existing patent laws.

Washington, Jan. 20.—Nearly the whole day was devoted in the house yesterday to the consideration of private pension bills and of the 900 on the calendar 52 were disposed of. Bills were introduced providing for taking the twelfth census of the United States under the directions of Carroll D. Wright, and providing for the naturalization as United States citizens of the Alaskans living on the Aupette islands who can prove a five years' residence.

A SON IS BORN.

Countess Castellane, Formerly Anna Gould, Becomes a Mother.

Paris, Jan. 19.—A son was born to Countess Castellane, formerly Miss Anna Gould, daughter of the late Jay Gould, of New York, at one o'clock Monday morning. Mother and child are doing well. The baby is the great grand nephew of Talleyrand, and inherits the blood of nine centuries of French nobility. To Americans he will be known as a grandson of Jay Gould. Anna Gould, the second daughter of the late Jay Gould, was married at the age of 21, to Count Paul Ernest Boniface de Castellane, of France, on Monday, March 4, 1895. Countess de Castellane's share of her father's great fortune was $15,000,000, and of this, it is said, $2,000,000 was settled upon the bridegroom, in accordance with the European custom.

St. Louis, Jan. 20.—The state supreme court affirmed the death sentence in the cases of Peter, better known as "Cotton-Head," Schmidt, and Sam Foster, two of the three footpads who shot and killed Bertram E. Atwater, a young Chicago artist, at Webster Groves on the night of January 23, 1896. John Schmidt, a cousin of "Cotton-Head," was tried separately and convicted, but his case has not yet been reached by the supreme court.

Mr. and Mrs. Wm. Cline, of Saline, visited at the homes of G. C. Lindsley and J. A. Rush the latter part of last week.

H. H. Rowland, who had been visiting George Freese and family for the past week, left Monday morning for New Haven, Conn.

Miss Mamie Reasom, of Hudson, was a very pleasant guest at the home of her cousin, Rev. D. H. Ramsdell, from Friday until Monday.

J. B. Hause & Son conducted the funeral of the three month's old child of Mr. and Mrs. Wesley Jeffrey, at Evans Lake, Wednesday at 10 a. m.

Mrs. George B. Williams went to Detroit Saturday, called there by the serious illness of her sister's child. She expects to be gone a week or ten days.

Elmer and Lilly Gregg returned Saturday from Grant Station, Newago county, where they have been spending the past few months with Elmer's parents.

Have You Read The Philadelphia Times This Morning.

THE TIMES is the most extensively circulated and widely read newspaper published in Pennsylvania. Its discussion of public men and public measures is in the interest of public integrity, honest government and prosperous industry, and it knows no party or personal allegiance in treating public issues. In the broadest and best sense a family and general newspaper.

THE TIMES aims to have the largest circulation by deserving it, and claims that it is unsurpassed in all the essentials of a great metropolitan newspaper. Specimen copies of any edition will be sent free to anyone sending their address.

TERMS—DAILY, $3.00 per annum; $1.00 for four months; 30 cents per month; delivered by carriers for 6 cents per week. SUNDAY EDITION, 32 large, handsome pages—224 columns, elegantly illustrated, beautiful colored supplement, $2.00 per annum; 5 cents per copy. Daily and Sunday, $5.00 per annum; 50 cents per month.

Address all letters to

THE TIMES, Philadelphia.

Bicycle riders, football players and athletes generally, find a sovereign remedy for the sprains and bruises and cuts to which they are constantly liable, in Dr. Thomas' Electric Oil.

Arkansas has a town named Credit, Iowa one named What Cheer and Florida one named Hurrah.

ONSTED.

At Mr. and Mrs. Warren Fish's, a wee baby.

Mrs. E. S. Ross has been on the sick list.

Ed. Freer and wife are visiting in Sumerset.

The weather is very changeable. Is it Pingree weather?

Revival meetings will be commenced in the F. B. church soon.

Mrs. J. Reed attended the quarterly meeting at Jackson recently.

Mrs. A. P. Onsted entertained a neice from Elkhart, Ind., recently.

Walters & Craft will sell a bankrupt stock at the brick store for thirty days.

S. J. Fish is dealing in patent churn dashers and is meeting with fairly good success.

Mr. Bell, our new jeweler, is meeting with good success and has about all the work he can do.

A large amount of live stock of all kinds has been sent out from this station during the past few days.

A "hard times" dance will be held in the new hall on the 22nd. Wonder if Bill McKinley will be there with his golden everyday suit on.

Some of the friends of Mrs. John Secor sprung a surprise upon her the other day and presented her with a nice sofa and easy chair.

The knights and ladies of the Maccabees installation of officers for 1897 occurred Thursday evening of last week and a banquet served at the close of the ceremony.

Immense quantities of baled hay are being shipped from this point this winter, with fair prices, but what will people do if they want to buy hay next spring? It will all be gone out of the country.

FRANKLIN.

Hard colds seem to be the fashionable fad just at present.

The wind Sunday night tore the doors off the barn on Mrs. Marshall's place.

Remember the farmers' club at Albert C. Aylesworth's, Friday evening, January 22nd.

Mrs. A. C. Brown, of West Clinton, was called to Chicago Saturday by the death of her sister.

Albert Haire, while on his way to a job threshing, had the misfortune to break an axle on his tank wagon.

Albert Holmes, who had been spending a week among friends in Bridgewater, returned to his home at Watson Hunt's Monday.

Mr. Zimmerman, of Tecumseh, was in this neighborhood looking after handle timber Tuesday.

Johnnie Taylor has succeeded in selling a dozen and a half packages of bluine and sent for the watch for which he was working.

Mack Cooley is introducing to the people of Franklin a book entitled "A Compendium of Practical Knowledge." He also has a catalogue from which he takes orders. He has books for all ages.

The regular meeting of the Tipton grange will occur Wednesday evening, January 20th. Installation of officers is the order of the evening and Clarence Cook will be the future Worthy Master. Supper will be served.

From Another Correspondent.

Mrs. Ave. Aten drove to Macon Tuesday.

Hudson Davenport is at home for a few days.

Mrs. Noyse returned to her home at North Adams, Tuesday

Miss Alma Whelan has had a present of an elegant gold watch.

Mr. and Mrs. Sam Tripp are now cosily settled in their new home.

Aunt Anna Allen has been ill for several days but now seems to be improving.

Mrs. Noyse, of North Adams, was the guest of her sister, Mrs. Freel Davenport, last week.

The "big hill" was graveled Wednesday, a number of men donating a day's work for that purpose.

In Ezra Simmons' sugar bushes many trees have died and wood choppers are busily converting them into wood.

W. G. Donaldson, agent for the Tecumseh News, has been canvassing the town in the interest of that paper.

E. J. Whelan and sons are cutting logs and expect to have a portable saw mill in the woods to convert them into lumber.

The many friends of Mrs. John Stout, nee. Eliza Wheelan, of Clinton county, are pained to hear that she is extreme ill health.

Cecil Billington, of Cleary's business college, will have a birthday in about two weeks which he expects to spend at home.

David Burroughs, of Kalamazoo county, has been visiting his aged father, Davidson Burroughs, who will be 97 years old in March and quite feeble.

Why suffer from indigestion? Burdock Blood Bitters cures Dyspepsia and all diseases of the stomach, liver and bowels.

Put an end to misery. Doan's Ointment will cure the worst case of Itching Piles there ever was, and do it almost instantly. Years of suffering relieved in a single night. Get Doan's Ointment from your dealer.

IN HIS ARMS.

This Man Caught a Deer and Secured It After a Hard Struggle.

Harry Middlehouse of Grand Rapids, Mich., who a short time since was visiting at Remus, Mich., had the novel experience of catching a live deer in his arms, says the American Field. The deer was a 250-pound buck, which, though once a captive, had been roaming the woods and fields for the last four years, and was about as wild as if it had never set eyes on a human being. The buck was seen, and Middlehouse hid behind a log while Farwell, his companion, circled round and drove the deer toward him. The buck came direct to the edge of the log where Middlehouse was hiding and stopped, when Middlehouse sprang up and caught the deer around the neck. Then a grand tussle ensued, Middlehouse winning the first fall, but the buck was on its feet again in a moment. Farwell was too far away to give him any assistance, and by the time Farwell reached him Middlehouse was about worn out in his struggles to hold the deer, his clothing had nearly all been torn off and he had two b' bruises on his side made by the buck's feet. Farwell finally came to his assistance, and the two placed a halter around the deer's neck and tied it to a tree. After resting for a time the men bound the deer's feet together and carted it back to its old home, from where, the next day, it was shipped to Grand Rapids, where it is to have a home in the city park.

A THREE-DAYS' DANCE.

The Longest Ball on Record, with Constant Relays of Musicians and Dancers.

What promises to be the longest ball on record will soon be held in Brighton, England, in the cause of charity. It is said it will last, continuously, for three days and three nights. Just how this will be managed has not yet been learned. It is possible, however, that it can be kept going by a careful arrangement of relays of musicians and dancers who will reel off the waltzes, mazurkas and schottisches one after the other. Probably a short interval will be allowed in the daytime for rest, and then the program resumed with increased ardor.

The entertainment, says the New York Journal, is to be given in the town hall, and the institution is to be benefited by it as a dispensary for the relief of the sick poor. There is a long list of titled people among the patronesses, and it is presumed that many members of the nobility named will grace the occasion by their presence. The duchess of Teck is the greatest "altesse" on the list, which also includes the countess of Munster, Baroness de Worms, Lady Ellis, Lady Pocock, and several score of the untitled gentry of the place. The lord lieutenant of the county, the marquis of Abergavenny, is the nominal head of the affair, but whether the authorship of the idea is his is not stated.

ZINC WALL PAPER.

A Cheap and Durable Mural Decoration Made in Imitation of Marble.

Zinc wall paper is the latest oddity and several residences of the highest with the zinc class now building will be equipped with the zinc are prepared by a new process, so as to exactly resemble marble. The most beautiful varieties of marble are imitated in such a manner that the imposture is only to be detected after a close examination.

The zinc is attached to the wall by a cement invented for the purpose. The surface of the zinc is enamelled so as to render it permanent and washable. Tiles or any other form of mural covering can be imitated as readily as marble and the material is made in a great variety of patterns.

It is claimed for this new departure in decorative material that while it is as permanent as tiles or marble, it is much cheaper, and can be put on as easily as ordinary wall paper. It can be applied, too, to any surface, whether flat, broken or sound, and any beading, etc., can be embossed on the metal to complete a design or panel.

Animals Are Left-Handed.

Somebody has found out that animals are left-handed, if the expression may be used about creatures that have no hands. Several different zoologists have noticed this condition. Parrots take objects preferably with the left claw, the lion strikes with the left paw and so competent an authority as Dr. Livingstone, the African explorer, asserted that in his opinion all animals are left-handed.

A Princely Salary.

Grand Rapids, Jan. 16.—The salary of Game Warden Brewster has been cut by the board of supervisors of Kent county, to one dollar per year.

STREAMS LIGHT TOWNS.

Electric Plants Run by Melting Snow in Switzerland.

Besides a considerable number of large water-power installations, Switzerland is full of small power plants, nearly every town in that land of mountains and water-falls being well supplied with power from the "white coal," as the melting snow on the mountain sides has well been called, says an exchange. When there are no large streams, many small ones are impounded and collected in reservoirs on the hillsides, and it is rare to find a place of any size which is not well lighted by the power of some mountain stream.

At Montreaux, says a London paper, the electric tramway gets its power in this way, and from the old Roman town of Vevey to the mediæval castle of Chillon one may ride in a trolley car propelled by the power of an insignificant little stream, which may or may not be noticed in climbing up the hillside just above.

The capabilities of this general utilization of natural power are beginning to be understood everywhere, and with the appreciation of the possibilities of the best methods of long-distance transmission the development of many mountain streams must surely come. There are innumerable streams which, while very small, are yet very high, and these can with comparatively little difficulty be impounded and carried down many hundreds of feet, thus making up for their lack of volume by the great pressure readily obtainable, and, either by the use of electricity or compressed air, the power may be transmitted to many points of application with but little loss.

LEGAL FIGHT FOR A BIG CAVE.

Secretary of the Interior to Decide a South Dakota Case.

Litigation, which has been in progress for more than a year for possession of the famous Wind cave, at Chamberlain, S. D., has now reached an interesting stage. McDonald, the man who located the cave before it was surveyed and held it as a squatter, made final proof in June, 1895, claiming the land as agricultural land. A few months later the South Dakota Mining company filed a protest, in which it was alleged that minerals existed on the property.

The register and receiver of the United States land office at Rapid City investigated the matter, and decided in favor of McDonald, as the investigation showed there was no mineral-bearing rock to be found in the place, although colors of placer gold as well as other mineral traces were discovered. The case was then carried to the commissioner of the general land office. He decided that the land was neither agricultural nor mineral, and held for cancellation McDonald's application for a patent.

Both parties are naturally dissatisfied with this sort of a decision, and both have now appealed the case to the secretary of the interior. A decision is awaited with considerable interest, as the cave is equivalent to a fortune to the person who becomes the owner of it.

An American's Sarcasm Abroad.

An old story revived by the late historic festival in Plymouth is about Joseph Bartlett, an American lawyer, who went to England shortly after the close of the revolutionary war. One evening he strayed into a theater and found the actors performing a species of satire on the war. A company of American soldiery was introduced—a ragged, motley set—armed with scythes, hammers and soldering irons. In contrast there moved across the stage a troop of British warriors in fine gay trappings and glittering arms. The difference was amusing, and the British audience laughed. In the midst of the merriment Lawyer Joe arose and shouted: "Long live his majesty, King George of England, whipped by tailors, tinkers and cobblers!" There was a profound hush. For a second it seemed as though the American would pay for his temerity with his life, but admiration for his pluck won the day, and the ominous silence was broken with a ringing cheer.

Two Horses.

The editor of the New York Christian Advocate learned not long since from a coachman that horses are not unlike human beings. He writes: Riding in a friend's carriage one day, we noticed that the coachman made constant efforts to restrain one of the horses and to hasten the other. As the pair were handsome and perfectly mated, we said: "What is the difference between these horses, that you are constantly touching up one and holding in the other?" Said he: "The one that I whip cannot possibly overwork himself. I will not say that he is lazy, but he is so made up that he never can and never will do himself any damage. It would be impossible to whip him so hard that he would hurt himself. The other can trot a mile in less than 2:25, and he would trot from the love of it until he dropped dead. Hot or cold, he does his best."

Measuring Its Own Velocity.

By means of an electrical device experimenters, acting for the United States board of ordinance, have recently succeeded in obtaining photographic records of the motion of a projectile while yet inside the bore of a cannon. The projectile carries a rod of wood attached to its front end, and copper rings, encircling this rod at fixed interrals, successively form electric contacts as the rod is driven from the gun. Each of these contacts produces an automatic record on a photographic plate. The Scientific American, in describing the apparatus and experiments, says that the shortest distance traveled by the projectile between two successive records was 3.7 centimetres, which is a little less than an inch and a half, and that some of the time intervals between the records were only one-two-thousandth of a second

Neighborhood News.

BRITTON.

Will Nivison was transacting business in Adrian Monday.

W. H. Blakley spent Monday and Tuesday at Wayne.

Mrs. Nathan Cheever, of Dundee, was calling on her Britton friends Tuesday.

Mr. Worthington, of the Worthington Fence Co., Adrian, was in town Saturday.

Mr. and Mrs. Lemont C. Hoagland entertained guests from Blissfield over Sunday.

Mrs. Lyman E. Hause visited her children at Clinton from Friday until Monday.

Mr. Sly, of Detroit, was the guest of A. O. Maynard and family the last of the week.

Charlie Goodrich's tramp printer did not stay long. He took a skate Wednesday of last week.

Mr. and Mrs. Grant Ousterhout are rejoicing over a young son that was born to them recently.

Mrs. Borden, who had the misfortune to fall recently and severely strain her knee, is still confined to the house.

Fred Mains and wife, who have been visiting A. W. Curtiss and family, returned to their home in Albion Monday.

For sale cheap, if taken at once—a house and lot with good barn on Oak street, Britton. Inquire of Art W. Curtiss.

Mrs. Milo Ousterhout was called to Tecumseh Monday on account of the illness of her daughter, Mrs. Charles Dixon.

Will R. Osgood has at his feed and cider mill erected sheds for the convenience of his patrons. It was a kind, good act, Will.

Earl Lenardson will move some of his household goods to Blissfield this week but will not move his family until some time next week.

Alonzo Allen has been having chills and fever the past week. He thinks there are shakes that are preferable—a milk shake for instance.

James Hillock, wife and daughter left here Tuesday night for Gratiot county where they will spend three weeks with friends at Wheeler and vicinity.

Joseph Thackery had a severe attack of hemorrhage last week and for a few days his condition was considered critical. He is convalescing slowly with every prospect of complete recovery.

The Wabash pay car made its monthly visit yesterday, dispensing blessings to a number who in turn passed them on to others and so on until the whole community felt better for its coming.

John N. Parker & Co., of New York city, are, we are informed, contemplating erecting a commodious hay barn to accommodate their rapidly increasing business here. Let the good work go on.

The horse sheds at the Reformed church are fast nearing completion. They will be appreciated by both man and beast. A "merciful man is merciful to his beast." They will prove a great convenience.

Tonsilitis has claimed many victims the past week in this vicinity. In fact it has been almost an epidemic. Among the sufferers were O. B. Lenardson, Herbert H. Temple, C. R. Maybee and Dina, little daughter of Earl Lenardson and wife.

Again there is a change in the meat market. Will Winsley has retired and L. E. Cheever and L. L. Wood opened the market Wednesday morning. Luke does not feel natural unless he is connected with a market and that he knows how one should be conducted no one questions.

As was expected, the installation of the newly elected officers of both the tent and hive of the Order of Maccabees brought out a large company of spectators and everything passed off pleasantly, though as usual the sisters outdid the brothers in performing the installation ceremony. The box social was a fitting finale to the evening's enjoyment.

Mrs. Wm. Prindle has been an inmate of George Kemp's family, at Tecumseh, since Friday of last week. She went for medical treatment. Dr. Howell removed a tumor from one of her limbs under the knee. Although no anaesthetic was used she withstood the trying ordeal (which took a long time) with great fortitude and is making a satisfactory recovery.

Ernest DuBois has been a target for all the jokers in town the past week. It seems he went up to Ridgeway intending to return on the next train. Instead of boarding the train when it stopped, he waited until it was in motion, thinking to catch onto the rear platform of the last coach. This proved to be the officials private car, "Leon," with a closed gate. Consequently he did not ride on that train and no better means of transportation presenting itself, he walked home like a man, and just for this he has been joked on all sides. Never mind Ernie, it's a long road that has no turn. Be patient and bide your time, your chance to laugh will come, sooner or later.

Few people know that all plants contain digestive principles. They cannot absorb their food until it is digested by more than animals can. The Mount Lebanon Shakers have learned the art of extracting and utilizing these digestive principles, and it is for this reason that their Shaker Digestive Cordial is meeting with such phenomenal success in the treatment of dyspepsia. The Shaker Digestive Cordial not only contains food already digested, but it also contains digestive principles which aid the digestion of other foods that may be taken with it. A single 10 cent sample bottle will be sufficient to demonstrate its value, and we suggest that every sufferer dyspeptic make a trial of it. Any druggist can supply it.

RIDGEWAY.

New lard cans, only 25 cents each, at Ed. Smith's.

Blanche Bannister, of Britton, visited Ella Larkin Saturday.

Skates for boys and girls, best quality, at Ed. Smith's

Charles Morgan, of Macon, was in the village the first of the week.

Charles Kelly left Monday for an indefinite stay with friends in New York state.

Mrs. S. P. Smith and Floyd were both victims of tonsilitis the first of the week.

The first thunder shower of the new year passed over this section Sunday afternoon.

Several persons went to Tecumseh Saturday afternoon for a skate on the globe mill pond.

Rev. Wellington and Mrs. DePuy, of Grand Ledge, visited at the home of B. F. DePuy last week.

There was a good attendance at the W. C. T. U. narcotic meeting held at the church Friday evening.

Go to Ed. Smith's for stone meat crocks and rock salt.

Mrs. Graves and her family attended the Hageman—Mead wedding in Raisin Thursday evening of last week.

The farmers' club will meet at the residence of B. F. DePuy Friday evening of this week, when a fine program will be rendered.

Mrs. Philip Sisson is under the doctor's care with a very bad arm, caused by getting a sliver into the thumb. Blood poison is feared.

For corn poppers and corn that is sure to pop go to Ed. Smith's.

C. L. Waring, of Chicago, who was called here by the death of his aunt, Mrs. Waring, spent the latter part of the week with friends in this village.

Lost, between Tecumseh and Ridgeway, last Tuesday, a mink boa. Finder will please leave at the postoffice at Ridgeway and oblige Mrs. S. H. Linn.

R. S. Houseman, agent for the Page wire fence, while out a portion of last week took orders for over a mile of fence, also promises for as much more.

Go to Ed. Smith's for cross-cut saws, saw tools, axes and ax handles, all makes, at bottom prices.

Theodore Allison, having opened a wagon repair shop in the building formerly occupied by Daniel Linn, would be pleased to meet any in need of his services.

Those who listened to Dr. F. W. Gunsaulus Tuesday evening, at Tecumseh, on Savonarola, have nothing but praise for him. One must hear him to know his vast ability as a lecturer and orator.

The second quarterly meeting services of the present conference year will be held next Sunday. Love feast at six o'clock in the evening. The presiding elder, L. P. Davis, will preach in the evening. Other services in their usual order.

The third on the star course, Prof. O. L. Palmer, of Adrian college, will be held in the church Friday evening of next week. His subject, "The Land of the Crescent," is a historical sketch of the American trouble which is attracting the attention of all the world at the present time. Mr. Palmer has given his subject careful study and thought and will present this oppressed people in a manner that all may understand. Single admission 15 cents.

CONE.

Oliver Logan has a brother visiting him this week.

Simon Gould was in Monroe Wednesday on business.

Born, to Mr. and Mrs. Frederic Wright Friday, the 15th, a daughter.

Walter Cone visited his family in Detroit from Saturday till Monday.

Joseph Dennison, of Stony Creek, is visiting relatives here this week.

William Landt visited his parent at Newport several days last week.

Quite a number from this place attended quarterly meeting at Rea last Saturday.

Fred Auten visited his parents at Auburndale, O., Saturday and Sunday.

Jehiel Auten cut his foot quite badly one day last week. It will lay him up for some time.

George Rendal is again insane. He was taken to Kalamazoo last Wednesday, there being no room for him at Pontiac.

MACON.

Mary Morgan has the scarlet fever.

Frank Sage and Lewis Coller are the latest grip victims.

Webb DePuy and wife, of Saline, called on Macon friends Thursday.

Mrs. O'Riley, mother of David O'Riley, died Tuesday morning.

Remember the Epworth League concert Friday evening of this week,

J. L. Jackson attended the G. A. R. meeting in Tecumseh Monday night.

Mr. Dodge, of Montpelier, Ind., visited his daughter, Mrs. Sumner Collins, last week.

E. L. Lowe and wife and J. D. Arner, of Ridgeway, were in the village on business Saturday.

Rev. Mr. Stephenson, pastor of the Clinton Congregational church, occupied the M. E. pulpit last Sunday.

The topic for the Epworth League meeting next Sunday evening, is "The Highway of Holiness." Isa. 35: 8:10

Leader, Emma Cotton.

Mrs. Sumner Collins, who has been sick for some time at the home of Edwin Howell, has recovered and rejurned to her home in Tecumseh.

S. F. Fritz, of 677 Sedgwick street, Chicago, says: "I had a severe cough which settled on my lungs. I tried a number of advertised remedies and also placed myself under treatment of several physicians, with no benefit. I was recommended to try Foley's Honey and Tar. With little expectation of getting relief, I purchased a bottle. I had taken but few doses when I felt greatly improved; I was enabled to sleep, spitting of blood ceased, and by the time I had taken the second bottle I was entirely well. It saved my life." Orr & Temple.

Not until the new woman is admitted to the order of Freemasons will she feel that she has conquered destiny.

Just try a 10c box of Cascarets, the finest liver and bowel regulator ever made.

There is no reason why a woman should not look as fetching in a travelling gown as in a reception toilet.

Yes, 'tis true; Foley's Honey and Tar is the best Cough Medicine. Orr & Temple.

Game sets are bewildering in the color and variety of the birds depicted on their china surfaces.

Mr. James Bussard writes from Sharpsburg, Md., as follows: "I had neuralgia in my head and jaws, and could get nothing to relieve me until I tried Lightning Hot Drops, which gave relief inside of thirty minutes, and I have not had it since. It is the best medicine I ever saw to relieve any pain. It will do more than is claimed for it.

Mr. W. R. Shimfessel, of Clay City, Powell Co., Ky., writes: "Lightning Hot Drops is a grand remedy for a bad cold. After taking only one dose before retiring it broke up a bad cold which had annoyed me for several days."

Mr. Samuel Niswanger, of Armington, Ill., writes, "This is to certify that I have used Lightning Cough Drops for the last year. I don't think I would be alive today, only for this medicine. I am in my 87th year. I recommend Lightning Hot Drops to all who have a cough."

The man who calls himself a "gent" probably wears "pants" and has a "lady friend."

The dyspeptic carries a dreadful load on his back. It seems as if he were really made up of two men. One of them ambitious, brainy and energetic; the other, sick, listless, peevish and without force. The weak man weighs the other one down. The dyspeptic may be able to do pretty good work one day, and the next day, because of some little indiscretion in eating, he may be able to do nothing at all. Most cases of dyspepsia start with constipation. Constipation is the cause of nine-tenths of all human sickness. Some of its symptoms are sick and bilious headache, dizziness, sour stomach, loss of appetite, foul breath, windy belchings, heartburn, pain and distress after eating. All these are indicative of derangements of the liver, stomach and bowels, and all are caused by constipation. Dr. Pierce's Pleasant Pellets are the quickest, easiest and most certain cure for this condition. They are not violent in action.

Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page Common Sense Medical Adviser, illustrated.

A window pane at Argyle, N. Y', has upon it a "lightning photograph" of an old lady who was sitting near it during an electric storm.

It Will Surprise You.

On receipt of ten cents, cash or stamps, a generous sample will be mailed of the most popular Catarrh and Hay Fever Cure (Ely's Cream Balm) sufficient to demonstrate its great merit. Full size 50c. Ely Brothers,
56 Warren St., New York City.

Ely's Cream Balm has completely cured me of catarrh when everything else failed. Many acquaintances have used it with excellent results.—Alfred W. Stevens, Caldwell, Ohio.

Have You a Cold?

If so, then, instead of taking so much quinine and other strong medicines, take a pleasant and mild stomach and bowel remedy, which will cleanse the system, and you will be surprised how quickly the cold will leave you. Dr. Caldwell's Syrup Pepsin will do this better than any other. Trial size 10c (10 doses 10c), larger sszes 50c and $1, at Orr & Temple's.

Dr. C. H. Conklin, of Saline, aged 68, and Mrs. Mary E. Bennett, of Milan, aged 56, were married after a separation of 20 years. Since their divorce he has been twice married and she once.

A Household Necessity.

Cascarets Candy Cathartic, the most wonderful medical discovery of the age, pleasant and refreshing to the taste, act gently and positively on kidneys, liver and bowels, cleansing the entire system, dispel colds, cure headache, fever, habitual constipation and biliousness. Please buy and try a box of C. C. C. today; 10, 25, 50 cents. Sold and guaranteed to cure by all druggists.

It often happens that the woman just home from Europe is positively afraid to don her Paris-bought clothes, as they are so much in advance of what she sees worn here.

Foley's Honey and Tar

Cough Syrup wherever introduced, is considered the most pleasant and effective remedy for all throat and lung complaints. It is the only prominent cough medicine that contains no opiates and can safely be given to children. Orr & Temple.

Another Good Man Gone Wrong.

He failed to use Foley's Kidney Cure for his kidney complaint. Orr & Temple.

A maid in the waiting-room of one of our most select theaters says that women come there between the acts and smoke their cigarettes with all the nonchalance of men.

It Grows.

As a cure for constipation and indigestion Dr. Caldwell's Syrup Pepsin grows rapidly in favor where introduced. Children love its taste, for it is so pleasant. Trial size 10c. Regular size 50c and $1 of Orr & Temple.

There are many who declare that they are not superstitious who feel certain of some dire calamity if they were to remove their wedding ring.

In Olden Times

People overlooked the importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently overcome habitual constipation, well-informed people will not buy other laxatives, which act for a time, but finally injure the system.

It is a fact to be thankful for that the inventor of numerous skirt supporters makes the untidy belt and skirt gaping almost a rarity.

Don't Tobacco Spit and Smoke Your Life Away.

If you want to quit tobacco using easily and forever, be made well, strong, magnetic, full of new life and vigor, take No-To-Bac, the wonder-worker that makes weak men strong. Many gain ten pounds in ten days. Over 400,000 cured. Buy No-To-Bac from your own druggist, who will guarantee a cure. Booklet and sample mailed free. Ad. Sterling Remedy Co., Chicago or New York.

Why is it when a woman wants to be considered literary she cuts her hair, while a man for the same reason lets it grow?

Subscribing for Metropolitan Papers.

The coming year will be crowded with big news events and happening, the details of which everyone interested in national and foreign affairs will want to read. The best Western newspaper published is the Semi-Weekly Republic of St. Louis. It is only $1 a year, and for that amount it will send two papers a week to any address for one year.

The Republic daily is $6 a year, $3 for six months or $1.50 for three months.

The net profits of the Kalamazoo New Year's charity ball were $190.70.

Bucklen's Arnica Salve.

The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns and all Skin Eruptions, and positively cures Piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Baker & Hall druggists.

Just try a 10c box of Cascarets, the finest liver and bowel regulator ever made.

FORECLOSURE.

On the seventh day of April 1893, Charles H. Mangas and Martha E. Mangas mortgaged to Alice B. Hardenburgh all that parcel of land situate and being in the township of Tecumseh in the county of Lenawee and state of Michigan, described as follows, to wit: All that part of the west half of the southeast quarter of section twenty (20) of town five (5), south of range four (4) east which lies south of the centre of the Sand Lake road formerly so-called, containing sixty (60) acres of the lands hereby mortgaged and conveyed, to secure the payment of the sum of fourteen hundred dollars, five years from the date thereof, with interest from the date thereof at six per cent per annum payable annually, which mortgage was on the 8th day of November, A. D. 1893, duly recorded in the register of deeds office for Lenawee county, Michigan, in liber 189 of mortgages on page 230 And whereas said mortgage contains a provision that should any default be made in the payment of said interest or any part thereof on any day whereon the same is made payable as above expressed and should the same remain unpaid and in arrear for the space of sixty days, then and from thenceforth, that is to say, after the lapse of said sixty days, so much of the aforesaid sum of $140.00 as remains unpaid with all arrearages of interest thereon shall at the option of said mortgagee, her executors, administrators or assigns become and be due and payable immediately thereafter although the period above limited for the payment thereof may not then have expired.

Default having been made in the payment of said interest to the amount of $162.95, all of which has been unpaid and in arrear for upward of sixty days, the undersigned mortgagee, hereby elects to declare the whole amount due, both principle and interest, amounting at the date of this notice to the sum of fifteen hundred and two and ninty-five hundredths dollars ($1502.95) and no proceedings at law or in equity have been taken to secure the payment of the same or any part thereof.

Notice is therefore hereby given that by virtue of the power of sale in said mortgage contained and of the statute of the state of Michigan in such case made and provided for the purpose of realizing the moneys so due and unpaid on said mortgage, and the interest thereon hereafter to become due at said rate the costs of this foreclosure and sale, including also the attorney fee provided for in said mortgage, the above described lands and premises will be sold at public vendue to the highest bidder at the front door of the court house in the city of Adrian, Lenawee county, Michigan, (that being the building in which the circuit court for said county of Lenawee is holden) on the 5th day of April, 1897, at 9 o'clock in the forenoon of said day.

ALICE B. HARDENBURGH,
Mortgagee.

Charles Burridge,
Attorney for said mortgagee.
Dated January 8th, 1897.

MORTGAGE SALE.

Whereas default has been made in the payment of the money secured by a mortgage dated December 30, 1893, executed by John McLain and Jennie McLain, his wife, of Macon, Mich., to Brockwell J. Rector, of Tecumseh, Mich, which mortgage was recorded in Liber 189 of Mortgages on page 332 on the 7th day of July, A. D 1894, and whereas the amount claimed to be unpaid upon said mortgage at the date hereof is the sum of Four thousand three hundred and eighty-seven and 6-100 dollars damages and no suit or proceeding having been instituted at law to secure the debt now remaining secured by said mortgage or any part thereof, whereby the power of sale contained in said mortgage has become operative.

Now therefore notice is hereby given, that by virtue of the said power of sale, and pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises therein described at public auction to the highest bidder at the front door of the court house in the City of Adrian in said county of Lenawee on the 23th day of March, A. D. 1897, next at ten o'clock in the forenoon of that day which said premises are described in said mortgage as follows:

Situated in the township of Tecumseh Lenawee County, Michigan, and described as the south half of the north west quarter of section twenty-three of town five south of range four east, containing eighty acres of land more or less.

Dated December 14, 1896.

Brockwell J. Rector,
Charles Burridge, Attorney for Mortgagee.

A woman does not mind doling out nickels and cents to pay for any article, but a man rarely offers anything but a bill.

Cascarets stimulate liver, kidneys and bowels. Never sicken, weaken or gripe.

It generally happens when a woman is rushed to death that she has an engagement with her dressmaker.

$100 Reward, $100.

The readers of this paper will be pleased to know that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

Sold by Druggists, 75c. June Hall's family pills are the best.

When bilious or costive, eat a Cascaret, candy cathartic, cure guaranteed. 10c, 15c.

The soothing, lung-healing virtues of the newly cut pine are all embodied in Dr. Wood's Norway Pine Syrup, the sovereign remedy for coughs and colds, and lung troubles of all sorts.

Always in season, Hopkins' Steamed Hominy (Hulled Corn). Elegant lunch in milk. Quart 10 cents.

Something to Depend On.

Mr. James Jones, of the drug firm of Jones & Son, Cowden, Ill., in speaking of Dr. King's New Discovery, says that last winter his wife was attacked with La Grippe, and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into Hasty Consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from first dose, and half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for Consumption, Coughs and Colds is guaranteed to do this good work. Try it. Free trial bottles at Baker & Hall's Drug Store. 5

Mrs. Maggie Myers,

Williamsport, Ind., writes: "I suffered for months of severe stomach troubles, caused by indigestion and constipation. My trouble seemed almost unendurable. I purchased a bottle of Dr. Caldwell's Syrup Pepsin of Armstrong & Swank and as soon as I had taken its contents I was like a new person, and I now feel better and weigh more than I have in years." It is sold in 10c, 50c and $1.00 sizes at Orr & Temple.

STOP IT NOW!

Stop It Quickly, Just the Same as Did Mr. Charles H. Hoffman, of 132 Ten Eyck Street, Jackson.

If you have a pain in your back, stop it! A lame back, stop it! An aching back, stop it! Do you want to know how? Let us tell you! In the first place, never try to rid yourself of pain without knowing the cause. If pain or ache exist there is reason for it. Find out this reason and get after it. Strike cause a stiff blow with the right weapon, and its allies, pain and ache, will flee like chaff before the wind. To get right down to it, backache is indicative of kidney disorders, a spy placed there by nature; listen to his warnings and take up the weapon, strike before disease is reinforced with allies that can not be routed by hand of man, such as Bright's disease. Let us introduce to you this weapon! Let us prove its superiority to all others! Here is a blow it struck:

Mr. Charles H. Hoffman is a fireman on the M. C. R R., and resides at 132 Ten Eyck Street, Jackson, Mich. He says: "I have suffered for a long time from a kidney and bladder disorder which has at times rendered me incapable of work; have been at the hospital for my complaint and discharged from there as cured, but the old complaint has invariably come back again. Some time ago I heard of Doan's Kidney Pills, and I began taking them, with most gratifying results. Urinary complaints which bothered me greatly are very much improved, and the pain I suffered in my back has entirely left me, my general condition is much improved. I would not like to be without Doan's Kidney Pills, I think others should know what a valuable remedy it is."

For sale by all dealers, price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, *Doan's*, and take no other.

Weakness of Men

Quickly, Thoroughly, Forever Cured

by a new perfected scientific method that cannot fail unless the case is beyond human aid. You feel improved the first day, feel a benefit every day, soon know yourself a king among men in body, mind and heart. Drains and losses ended. Every obstacle to happy married life removed. Nerve force, will, energy, when failing or lost, are restored by this treatment. All weak portions of the body enlarged and strengthened. Write for our book, with explanations and proofs. Sent sealed, free. Over 2,000 references.

ERIE MEDICAL CO., 66 NIAGARA ST. BUFFALO, N. Y.

PATENTS Thos. S. Sprague & Son, Attorneys and Solicitors of Patents. United States and Foreign. Correspondence solicited. Instruction pamphlet free. 37 West Congress Street, DETROIT, MICH. Established 1865.

There is no message which brings more gladness to a true woman's heart than the sweet assurance that a little one is coming to bless her life and call her "Mother."

But in all her loving preparations for the expected little guest, a mother is liable to forget that her own health and physical condition is the most important provision which can possibly be made for the baby's happiness.

If the prospective mother is weak, nervous and anxious, this condition is bound to react on the baby's constitution. No daintiness of wardrobe will compensate for the loss of the natural, healthy vigor which a mother should bestow upon her baby.

As early as possible during gestation, the expectant mother should reinforce her bodily powers with the sustaining, health-bringing influence of Dr. Pierce's Favorite Prescription.

It gives natural, healthy vigor and elastic endurance to the organs specially concerned in motherhood. It makes the coming of baby perfectly safe and almost painless. It gives nerve-strength to the mother and vital hardihood to the child.

It is the only medicine devised by an educated physician specially to overcome all weaknesses and diseases of the feminine organs.

Mrs. Roscoe Vanover, of Robinson Creek, Pike Co., Ky., writes: "I wish to express my thanks to you for the good I have received from your 'Favorite Prescription.' I have used it at different times for the last five years, and always with the most gratifying results. But the greatest good received from the 'Favorite Prescription' was about four months ago when my last baby was born. I was afflicted with 'child-bed fever.' Instead of sending after a doctor, I used the 'Prescription' and was cured. A lady friend of mine was similarly afflicted and sent after the doctor and took his remedies *and died*. I am 27 years old, weigh 147 pounds, the mother of five children, and am enjoying the best of health."

Dr. Pierce's Pleasant Pellets cure constipation, promptly and permanently.

TECUMSEH, MICH., JAN. 22, 1897

The present state law provides that all taxes paid to the township treasurer before the 10th day of January shall be subject to a collection fee of only one per cent. After January 10th, the treasurer is entitled to a collection fee four per cent until the roll books are of turned over to the county treasurer, which usually occurs about March 1st. All taxes paid to the county treasurer are subject to the four per cent plus an additional fee of eight per cent per annum until paid. G. W. Marsden, the township treasurer, has of his own accord extended the time of payment during which only one per cent will be added, to February 10th, thus giving a month extra time, and his course should be highly commended. Many poor people can make an effort and raise the money by February 10th, thus saving them quite a little in extra collection fees. The attention of other township treasurers is called to the charitable disposition of Mr. Marsden.

Below is printed a good letter from Supervisor Thos. Elliott on the subject of taxes. The HERALD is pleased to print the communication. Friendly discussion on such subjects is of benefit to everyone.

EDITOR HERALD:—

In last week's issue of the HERALD I noticed a lengthy editorial touching the high rate of taxes paid by the citizens of this township. As you are seemingly interested in obtaining an explanation of why the township taxes have been so high the past two years, if you will permit me through the columns of the HERALD I will try and explain the cause. In searching the township records I find that the trouble began in 1882, in which year there was raised only $900 00 for township purposes and from the poor book now in my possession I find that Mr. James in the above named year expended upon the poor alone $1065 03. Of course the amount raised was not sufficient to meet the expenses, so on May 27, 1892, the township board were compelled to borrow $300.00 to meet running expenses until the taxes could be collected in December. When the taxes were collected the board paid the $300.00, but in the following March—practically the same year—they were again compelled to borrow $1000.00 to pay running expenses until the tax of 1893 should be collected. In 1893 there was raised for township purposes $1800.00, but Mr. McNair distributed to the poor $1185.44. This, coupled with the other expenses still left the balance on the wrong side of the ledger. In 1894 the township raised $1800.00 for township purposes, and the amount expended on the poor was $899 32, but although we used all the economy possible, we could not wipe out the endebtedness. As the outgoing board makes the appropriations for the following year, I recommended that the board raise $3000.00 in 1895 and in so doing be enabled to pay in full all outstanding claims. In 1895 it cost $891.54 to take care of the poor. We paid the village $800 00 to help reconstruct the steel bridge over the river at the paper mill and also paid the long-standing $1000 00 which had been a stumbling block for three years. In 1896 the board recommended that $2500.00 be raised for township purposes. We thought it best to raise this amount and be able to meet all necessary expenses and keep out of debt. This amount is nearly all if not all in the hands of the treasurer when he has the taxes collected. You will readily see that the great portion of this excess of money raised for township taxes for the last two years has not gone for the support of the poor as you supposed but to pay up the indebtedness incurred some time ago that the present board had nothing to do with. One more item of interest to the taxpayers: I wish to state to the taxpayers of Tecumseh that the assessment roll as carried before the board of supervisors in 1894 amounted in round numbers to $2,133,687 and as carried before the board in 1896 and passed by that honorable body without change of any kind whatever was $1878.53, a decrease of $255 157 in two years. THOMAS ELLIOTT.

Olean claims the champion big family of the county, the head of which is W. A. Field. He is the happy father of 34 children, 27 of whom live at home with papa and mamma. The father is but 57 years old and his interesting brood consists of quadruplets, five sets of triplets, three pairs of twins, while one, by some strange mischance, came into the world singly. Thirty-one of these children are living, eight being boys.—Northeast Sun, Penn.

It Grows.

As a cure for constipation and indigestion Dr. Caldwell's Syrup Pepsin grows rapidly in favor where introduced. Children love its taste, for it is so pleasant. Trial size 10c. Regular size 50c and $1 0 Orr & Temple.

'ROUND ABOUT US.

Clippings and Condensations From our County Contemporaries.

John Britton was severely "tanked" on the head by a pole, Wednesday, which slipped from his hands while trying to put in on end. It's quite a fad these days. Only last week, about a dozen candidates were "tanked" by the election polls.—Britton Citizen.

Prof. A. H. Lowrie, editor of the Elgin, Ill. News, is being endorsed by his fellow editors of that state for reappointment to the position of United States consul at Freiburg, Germany. He held the office under President Harrison, and his reinstatement would be a recognition of his capabilities.—Adrian Times

Joe Smith, of Hillsdale, mixed stove polish with gasoline. Then he applied it to a stove, after which he introduced a lamp into the interior of the heater. When it exploded, Joe thought he was in active warfare in Cuba, with dynamite guns to the right, left, and beneath him. He will recover, although he was considerably singhed.—Hudson Post.

A chemically-inclined student at the West Side high school threw a piece of phosphorus into the trough leading to the waste pipe in the laboratory. As soon as the water was turned off it ignited and for a time it looked as if the "little red schoolhouse" would be reduced to a little pile of red ashes. Prompt work prevented serious damage.—Hudson Gazette.

Many of the citizens of Hudson will remember Paul Land, once a resident here, but later of the state of Washington, and will be pleased to learn of his advancement and success in that far away state. At the last general election, Mr. Paul Land was elected to a seat in the state legislature, and adds still another laural to the list of successes achieved by Hudson boys.—Hudson Vibrator.

There was a compotion in Pittsford last Sunday morning, when it was found that the store of Seth Lyon had been entered by burglars, and about $150.00 in money taken from the safe. It seems that the robbers had unlocked the door of the store, and then unlocked the safe, took the money, locked up the safe again, and left the store by a different door. The officers were at once notified, but have not been able to obtain any clue to the burglars.—Hudson Post.

James W. Helme, Jr., was at the Monroe county farmers' institute yesterday, and delivered two addresses. Mr. Helme states that Monroe county farmers beat anything for hospitality and enthusiasm he ever saw. The institute was held two days, at a place called London Churches, in a township where there is not a railroad nor a village. The two churches are situated in the center of the township, one of them being a Methodist church and the other owned by a farmers' club. The crowd was so great that the Methodist church had to be opened, in addition to the other, and even that was crowded. Mr. Helme repeated his address, speaking an hour at each place. And the ladies of the township furnished chicken dinner and supper for that vast multitude. What do you think of that?—Adrian Telegram.

Recent developments confirm the statement in the Blade some time ago that the Brice people are making a determined effort to reach Lake Michigan. Either Brice or some of his people have purchased the old Mansfield & Coldwater road bed which was graded almost a quarter of a century ago. This road bed extends to the lake through Coldwater from some point near Napoleon. Part of the Michigan division of the C. J. & M. was laid on this old road bed, and it would make an excellent line to the lake, either in connection with the Lima Northern or C. J. & M. It is generally supposed that the Lima Northern and C. J. & M. people will combine in building to the lake, and giving both of them a cheap outlet.—Toledo Blade.

E. C. Baldwin, one of the best sheriffs that Lenawee county ever had, is receiving excellent endorsements asking that he receive the appointment as U. S. Marshal for the eastern Michigan district. There are many reasons why his name should be considered, one of the best being his excellent record as an officer, and another being that Lenawee county has not had any appointment of that kind for a generation. Mr. Baldwin has a large and favorable acquaintance, and his candidacy is receiving many good words. If the powers that be are shrewd, they will recognize Lenawee county as stalwart in the Republican ranks, and will also find that the appointment of the gentleman above mentioned will be very acceptable to Republicans in Lenawee, as well as elsewhere in Southern Michigan.—Hudson Post.

The old saying that no news is better than bad news, is, just at present, true of the negotiations pending between the city of Adrian and the officials of the Lima Northern railroad. Mayor Hunt was in Lima Thursday to satisfy himself as to what the trouble has been, causing so much delay, and was prepared to lay before Mr. J. B. Townsend, the attorney for the road and the one having authority, all the conditions at the Adrian end of the enterprise. He returned Thursday night. A Messenger reporter saw him Friday forenoon and squared himself to get a half column of information, but the mayor only smiled and expressed himself as feeling sorry that he could not be accommodating.

Mr. Hunt saw Mr. Rosier, and that gentleman said that Mr. Townsend was ill at his home. He then went after the latter named gentleman, whom he found just getting up from a severe attack of grip. Mr. Townsend was in no condition to talk business, and begged to have the matter deferred until such time as he should recover sufficiently to visit Adrian. Thus the matter remains tied up. We will be obliged to await Mr. Townsend's recovery.—Adrian Messenger

LACK OF EDUCATION.

The Convicted Forger Admitted That It Ruined Him for Life.

A certain philanthropic woman has a theory that the remedy for crime is universal education, says the New York Journal. A short time ago she visited Sing Sing in company with several friends. Among the convicts was a man whose face betokened intelligence. She called the attention of her friend to him, saying: "There is a man whose countenance shows natural intelligence, and yet I am satisfied that he was deprived of an education.

"I'll wager that he is well educated," said one of her friends, and, turning to the warden, asked:

"What was that man convicted of?"

"Forgery," was the response.

"See?" said the friend, turning to the lady.

"Well, I don't care. I do not believe he is an educated man. I want to talk to him."

Permission was obtained, and the following colloquy ensued:

"Did you have the advantage of an education?"

"No, ma'am."

"Don't you think if you had received a liberal education you would have been a free man?"

"I know it, ma'am."

"I told you so," turning to her friend, and then speaking to the convict again, she said:

"You feel within yourself, do you not, that knowledge would have directed you into paths of rectitude?"

"I don't know about that, but I do know that if I had been properly educated I would not have spelled 'bearer' with a double r, and that's what got me caught."

WANTED EPIGRAMS.

His Cook Couldn't Make Them, So He Was Discharged.

The story is told, says the Youth's Companion, that a certain speculator, exceedingly unlearned, took a fancy to the entertainment of literary people when he had made his fortune and set up a house; and, of course, he wished to have and do all the fine things that other rich men had and did. After dinner one day one of his "literary" guests chanced to remark:

"I dined at X.'s, the poet's, the other night, and he gave us a capital epigram at dessert."

The speculator was humiliated. He had no epigrams! After his guests were gone he called his cook.

"Didn't I give you carty blanchy for this dinner?" he demanded.

"Yes, sir; you did, sir," said the cook.

"And didn't I tell you to have everything that anybody had?"

"Yes, sir; you did sir."

"Yes! Well, now it seems that at X.'s they have epigrams for dessert, and good ones, too, and folks miss 'em when they come here. Now I want to know if you don't know how to cook epigrams?"

The unfortunate cook was compelled to acknowledge that he could not cook epigrams and was discharged on the spot.

MISTLETOE IN HER HAT.

Latest Scheme of the Up-to-Date Girl to Tease Her Friends.

The up-to-date Chicago girl is not losing any chances and her ingenuity is being employed to make the most of the mistletoe superstition, says the Chicago Times-Herald. Everybody knows that according to an old custom, which comes down from the time of the Druids, a man is at perfect liberty to kiss a girl who happens to be under a sprig of mistletoe—that is, if the girl is willing. It is the fashion to hang a sprig of mistletoe to the chandelier of a room near Christmas time, and sometimes it is hung over a door, so that every girl may be compelled to receive a salute as she enters or leaves the room.

But these opportunities are not enough to satisfy some of the girls. The custom has arisen lately among them of wearing a sprig of mistletoe on their hats. It has been noticed this year for the first time, and the custom has been spreading.

Probably the girls mean nothing at all by it, but the temptation which is offered to their masculine friends is almost irresistible.

One Woman's Ready Wit.

A young woman who lives near a railway crossing, looking out of a window the other day, saw a laborer jump from one track to the other to escape an approaching freight train. He was apparently dazed by terror and stood still, not seeing that an express train was rushing down upon him. The girl saw that before she could make him understand his danger it would be too late. She therefore threw up her arms, shrieking wildly: "Help! help! help!" trusting to the impulse which sends a man on the instant to the relief of a woman in distress. "I'm coming!" shouted the laborer, springing toward her in time to escape the engine as it rushed past. He stared back at it, and then at the woman crying and laughing in the window, and, taking off his hat with shaking hands, said: "I owe you something, miss," and walked away.

A Prompt Answer.

The Washington Post tells this story of Col. Wallace S. Jones, United States consul general at Rome, Italy, now on a visit to this country: "Col. Jones is a Floridian, and has been in the consular service in Italy for the last ten years. He is a gentleman of wit, tact and culture, and his ability to make a happy response at the right time brought him into the good graces of Queen Margherita on his first appearance at court. The queen asked him from which state he hailed, and, on being told, said that he had often heard Florida described as a very beautiful country. "Yes, your majesty," was the prompt reply, "we call it at home the Italy of America."

THE "FUNNY MAN."

He Had Been a Boy and Hadn't Forgotten It.

We call him the funny man because he was sad and serious, and said little but gazed right into our souls and made us tell him just what was in our minds at the time, and then came out with some magnificently luminous suggestion that cleared every cloud away, says Scribner's. What was more, he would then go off with us at once and play the right thing out to its finish, earnestly and devoutedly, putting all other things aside. So we called him the funny man, meaning only that he was different from those others who thought it incumbent on them to play the painful mummer. The idea as opposed to the real man was what we meant, only we were not acquainted with the phrase. Those others, with their labored jests and clumsy contortions, doubtless flattered themselves that they were funny men; we, who had to sit through and applaud the painful performance, knew better.

He pulled up to a walk as soon as he caught sight of us, and the dogcart crawled slowly along till it stopped just opposite. Then he leaned his chin on his hand and regarded us long and soulfully, yet said never a word; while we jigged up and down in the dust, grinning bashfully, but with expectation. For you never knew exactly what the man might say or do.

"You look bored," he remarked, presently; "thoroughly bored. Or else—let me see; you're not married, are you?"

He asked this in such sad earnestness that we hastened to assure him that we were not married. Though we felt he ought to have known that much; we had been intimate for some time.

Notice Auction ad. in this issue.

Hud Davenport was in town Tuesday.

Rev. C. M. Brown returned home from Detroit Monday afternoon.

Ira VanGelson, of Bridgewater, was calling on his friends Tuesday.

Mrs. Milburn R. Keyser has returned from her visit with Detroit friends.

Rev. David Lewis was a sojourner at Toledo from Saturday until Tuesday.

Female Masonry will confer six grand and impressive degrees of Masonry.

See those bargains in Dress Goods. ANDERSON & ROSACRANS.

Mrs. John Southwick has been enjoying a visit from her sister Julia this week.

Mrs. F. A. Deuel is spending a couple of weeks among her friends in Battle Creek.

Rev. B. S. Hudson occupied the pulpit in the Baptist church at Morenci Sunday.

Al. Heesen, of Toledo, came up to attend the funeral of George Adamson Sunday.

Martin A. Crossman was an Adrian visitor Saturday and was at Manchester the day before.

Mrs. H. J. Warren, of Blissfield, was the guest of her sister, Mrs. Will Sisson, this week.

Attorney Sisson was in Clinton Tuesday arranging for the comic opera at Adrian this week.

Miss Florence Montgomery, of the HERALD force, has been taking a much needed rest this week.

The Misses Mary and Joana Tingley, of Rollin, have been guests of A. M. Lamb and wife this week.

Miss Inez Thorpe returned Tuesday night from a pleasant visit with Miss Maggie Knapp, in Adrian.

Mr. and Mrs. Will Darling are at home again from an extended visit with friends at Brooklyn and Lansing.

Until Saturday January 30th you can buy all the felt and leather goods at 20 per cent discount at Karner Bros.

Severn Gripton, of Britton, was in town Monday. It is not often his friends are honored by his calling.

We only want seven more of those fall pigs to make up the number. Call and drop us a line. DICKENSON BROS.

John Karner was in town a couple of days this week. Shorty is looking, as Sam McClure would say, "finer than silk."

Will Orr has so far recovered from his attack of rheumatism as to resume his accustomed duties, but he is quite lame.

Mrs. Henriett Keyser left yesterday for a visit of some weeks with her brother, George Kinnicut, and family at Ypsilanti.

Mrs. Charlie Dixon has been quite ill the past week and her mother, Mrs. Milo Ousterhout, of Britton, has been caring for her.

Ed. Shepard, of the Shepard & McCracken drug house, Adrian, is invoicing the Baker & Hall stock. He commenced Wednesday.

Roy Langton, after a pleasant visit with home friends, returned to Toledo Wednesday morning where he has a position in the street car service.

Rev. Vernor, who officiated in the Episcopal church Sunday, left Monday morning for a visit with Detroit friends before returning to his home in Hillsdale.

Miss Edith Gordon, accompanied by Merill, the young daughter of Mr. and Mrs. Martin Crossman, has been spending the past week in Holloway and vicinity.

Mrs. Phoebe Miller received a telephone Wednesday morning to come to Adrian to nurse a patient. She left on the afternoon train and will be at No. 49 Chestnut street.

John Chamberlain, who for some time has been representing C. B. Pennock at the Bankrupt store, has returned to Adrian. John formed many pleasant acquaintances during his stay.

D. M. Bainbridge, of Clinton, was calling on friends here Tuesday. Dan is rapidly attaining aldermanic proportions, demonstrating that freedom from business cares is agreeable to him.

The meetings at the Baptist church have continued through the week and been very interesting. Rev. Mr. McLean, of Morenci, has assisted the pastor in them and filled the pulpit Sunday both morning and evening.

The W. C. T. U. have adopted the prescribed studies for the year and the meetings will be held as follows: the first Friday of each month will be observed as mothers' meeting; the second the lesson; third, physiology; fourth, civil government. Able superintendents have been appointed for each department and it is hoped that all will attend as the meetings will be a great help in each line of work. The meetings for each month will be announced in advance. During February they will be held at Mrs. James Heck's.

Don't forget the Auction Sale. See ad.

Three dollar shoe now $2.40 at Karner Brothers.

Mrs. C. A. Wright is still confined to her bed, we regret to say.

Dr. and Mrs. S. Catlin were calling on Ridgeway friends yesterday.

Clint Farrell, of Manchester, visited Wm. Nissle and family, Tuesday.

Dr. and Mrs. J. L. Tuttle, of Clinton, were Tecumseh visitors yesterday.

Miss Anna Riley is visiting her brother, James, and wife at Clinton.

Miss Carrie Jackson, of Dundee attended the Gunsaulus lecture Wednesday evening.

John Hughes, who lives east of Clinton, was shaking hands with friends here yesterday.

C. B. Pennock, of Adrian, is here this week looking after his interests at the bankrupt store.

Geo. Calhoun and Jacob Rentschler, of Clinton, were in town yesterday on legal business.

Special meeting of the blue lodge at masonic temple tonight for work in the second degree.

The ladies of the Eastern Star will, in the near future, present female masonry to the public.

Miss Minnie Thompson, of Denver, Colorado, is the guest of her cousin, Miss Edith Ingersoll.

Miss Minnie Gray, of Clinton, has been visiting her people, Mr. and Mrs. Chas. Gray, this week.

John Orr received word yesterday from Walter Fowler that he reached Madeira, Liberia, Jan. 8th.

At a special meeting of Tecumseh lodge, F. & A. M., Wednesday evening, the first degree was conferred.

Henry Seilenhoff, who for several years has worked for N. M. Sutton, is now assisting in W. J. Arnold's bakery.

Met E. Couklin and family will move to town soon and expect to occupy the Woodward residence on East Chicago street.

The W. H. M. society of the M. E. church will meet with Mrs. F. J. Temple Wednesday afternoon, January 27, at 2:30 o'clock.

Wm. Ide and wife, who for the past two or three months have been visiting in Detroit, Ypsilanti and Dundee, returned home Wednesday evening.

All children desiring instruction in dancing, will meet with Mrs. Tiffany, Chicago street, Saturday (tomorrow) at 2:30 o'clock. Adults, Monday evening at 8 o'clock.

A sleighing party, composed of our society people, went up and spent last evening with Mr. and Mrs. Milburn Keyser in their pleasant home. They had a jolly time.

Mrs. Minerva Westcott will, for a time at least, make her home with her son Horace, as her daughter with whom she has been staying, is moving to Ingham county.

A. W. Mills has closed out his entire interest in the Page wire fence to the Page Wire Fence Co. and joined the gang of unemployed. He says he has not started out as a tramp just yet.

Louie Jones, Ernie Anderson and Linn Hardenburg went to Devil's Lake yesterday for a few days sport, hunting and fishing. They will make their headquarters with Jerry Harkness.

Ernie Coller, Jim Eccles and John Freeman are on another fox hunt at Sand Lake. They drove up yesterday morning. If perseverance will win foxes the boys are bound to have some sooner or later.

Two of Tecumseh's young men, who are of an inventive turn, are busily engaged just now in perfecting a machine that is expected will make them not only famous as inventors but bring to them shekels of silver and gold. N. B.—It is not a flying machine.

Warnie Hampton reports via the local telephone line that Jas. Moore's hotel on the northeast side of Wampler's lake was entirely consumed by fire Wednesday forenoon. There was no insurance and the $1700 mortgage is so worded that the amount is holding on the farm.

Mrs. A. J. Whiting and Gracie leave in the morning to join Andrew at Williamston, Ingham county, which will be their home, he having a good position there. Their household goods were shipped the first of the week. The best wishes of their friends accompany them.

Dr. Howell removed a tumor from the limb of Mrs. Wm. Prindle, of Britton, Saturday, at the home of her sister, Mrs. George Kempf. The tumor was under the knee and the formation was of such a character that the operation was long and tedious, especially to the lady, as she took nothing to deaden the pain. She is doing nicely.

Subjects in the Universalist church next Sunday: Morning, "Then shall Moab howl for Moab," Isaiah 6:7; evening, "A character study from our diplomatic history, Benjamin Franklin." Sunday-school after morning service. Y. P. C. U. devotional meeting at 6 p. m. Ladies social and supper in the church next Friday, Jan. 29th.

George Burroughs recently was not exactly kicking but wondering why, if some people were out of town for a day even, it was noticed in the paper, while he and his wife were in Toledo four whole days the first of the month and not a word was said about it. Well, George, you should not be so extremely modest but let a fellow know when and where you go.

For the week ending Jan. 15th the Research Circle have been studying Egypt under Greek rule, and at the regular meeting papers were read on the following subjects: "The Ptolemies," by Mrs. Hardenburg, "Schools and Libraries of Alexandria," by Mrs. Hall. The miscellaneous topic, "Education of the Deaf and Blind," was read by Mrs. Knapp.

Auction begins Saturday, Jan. 30th.

Harry Moore is visiting his mother at Dundee.

Watch for the date of Female Masonry, a la Lease.

Al. Paxson has been spending the week at Toledo.

D. C. LeBaron called at the HERALD office yesterday.

Do not forget the Universalist supper next week Friday.

Miss Minnie Glasgow visited Clinton friends over Sunday.

The first letter from Dr. Fowler will be printed next week.

Mrs. O. M. Palmer is recovering from her late indisposition.

Alex Richards expects to move back to his farm in the spring.

M. L. Root left yesterday for Buffalo and other eastern points.

Miss Lena Smith has been housed up this week with tonsilitis.

Mrs. Marshall is entertaining Miss Edith Doolittle, of Detroit.

Miss Daly has so far recovered from the grip as to be at work again.

Dr. Beem has fitted up very pleasant offices over McCann Bros.' store.

C. E. Williamson has been in New York City on business this week.

Roy DeWolf, of Detroit, spent Sunday with his mother and sisters.

Lincoln J. Carter's "Fast Mail" at the opera house Monday, Feb. 1st.

Leon Temple was the guest of Adrian friends the greater part of last week.

Buy your Carpets just now and save money. ANDERSON & ROSACRANS.

Ed VanDeMark and Mr. Shoemaker, of Clinton, were Tecumseh visitors Saturday.

A. W. Slayton and Cleo Hall have been in attendance at circuit court all the week.

Harry Lee has been trying hard to be sick this week. It has not been a howling success.

Thos. Elliott, has been on the sick list for the past two weeks, is slowly convalescing.

W. W. Marsh's ice house is full of ice, the hundredth load having been put in Wednesday night.

Don't wait but buy your Cape or Jacket just now. ANDERSON & ROSACRANS.

The cut sale at Seaton W. Anderson's still continues and despite bad roads crowds attend daily.

Dr. and Mrs. Barnes are enjoying a visit from the former's sister, Mrs. S. Cushman, of Sharon.

Ed Comfort, of Chicago, is visiting his parents, Mr. and Mrs. Elwood Comfort and other friends.

Elliott Gray will send his order for rape seed, Feb. 1st. All who desire any should notify him at once.

Walter Burridge has been attending circuit court all the week and last evening went to Jackson on legal business.

A musical recital by Miss Jennie Root's pupils was given last evening at the residence of Mr. and Mrs. A. W. Mills.

P. S. McKinnon and C. F. Field attended the Grand Chapter meeting at Saginaw as representatives of Tecumseh Chapter, R. A. M.

W. W. Whiting will soon be at home to his patrons in the building on Ottawa street formerly occupied by the News. He will have very pleasant quarters.

We understand the cabinet craze did not result as (richly)? as expected. Some who bought counties settling their notes without even making an effort to sell a cabin.

Henry Schofield and Jay B. St. John of Ann Arbor, were calling on their friends here Tuesday. They like living in the University city.

Will Mobbs suffered another attack from his old trouble the first of the week. While it was not so severe as a former one still he is not able to be at the store.

Miss Aleine McCollum, who is learning photography of Miss Lynne Daly is a victim of la grippe and confined to the house. She boards with her uncle, James Updyke.

John W. Lee has had mounted the guilmot that was recently shot near here. It is a rare bird in this climate and makes a very pretty specimen. Albert Stretch, of Raisin, was the taxidermist.

Miss Hattie Tennant, after a two weeks' visit with David Macham's family, returned to her home in Deerfield yesterday, accompanied by Miss Mertie who will visit relatives there for a few weeks.

Mrs. W. R. Blachford joined Mr. B. (who exchanged with Rev. Mr. Vernor, of Hillsdale, Sunday) at Hudson Monday for a short visit among former parishioners and friends. They returned home Tuesday night.

Mrs. Ella Sheldon and daughter, Mrs. Helen McNeil, of Newburgh, left Tuesday morning for the state of New York, their former home, where they will spend several weeks among their relatives and friends.

In Frank Avery's show window is one of the neatest Chinese lanterns ever seen in Tecumseh and in the evening with an electric light inside, it beautifies the whole store front. Chase & Sanborn, with their advertisements as with their coffees, never do anything by halves.

Miss Leo Snow, daughter of Jerome Snow, who for some time has been at her brother Fred's, in Adrian, died early Monday morning, of tuberculosis. The funeral was held there yesterday at 10 a. m. and the remains brought here for burial. She was 30 years old. Her death was a shock to most of her friends for but few outside the family knew she was so ill.

Miss Helen Conklin has lost her brown umbrella. It walked away from the Methodist church one evening lately, and she is now endeavoring to solve the problem as to whether in future to change color of umbrella or choose different society.

The fourth entertainment of the Star Course was the lecture by Dr. Gunsaulus last Tuesday evening on "Savonarola." The life of the great Italian missionary was cheerly pictured and every person in the audience was instructed and delighted. Each succeeding number gives more and more credit to the Star Course managers.

Editor Goodrich, of Britton, is a young man of fine proportions and excellent health, but from cause of a too free indulgence in "sweets," in his youth, lost his teeth somewhat in advance of persons of corresponding age. False grinders usually take their place, but last week in some peculiar manner the crockery substitutes strayed away. The Citizen office was searched with a fine tooth comb; in fact all Britton ransacked still the molars hid themselves, until finally the exhausted editor discovered them in his coat tail pocket, where he had quickly put them, that he might with less difficulty swear at a Milan delinquent, who brought him a load of green elm on subscription.

George E. Adamson

Was born at Sag Harbor, Long Island, Nov. 4, 1844, and died in Tecumseh, Michigan, Friday, Jan. 15, 1897, having lived nearly 53 years. In 1848 he moved with his parents to Illinois, spending his boyhood days in that state and in June, '62, enlisted in Company A, 69th Ill. Volunteers, serving out his time. In 1872 he married Miss Elizabeth Meige at Elkhorn, Wis., and in 1877 moved to Tecumseh which place has since been his home. He leaves a wife and a brother and sister to mourn his loss.

The funeral was held Sunday, Jan. 17th, conducted by Rev. Geo. Vernor, of Hillsdale, and the G. A. R. and K. of P. lodges attended as organizations. The house was by far too small to hold half the sorrowing friends, nearly all Tecumseh's business men and all the friends and neighbors being in attendance. Thus ends the short history of the life of Geo. Adamson, a man of the world.

As a business man he was a part of Tecumseh, the soul of honor in business deal and prompt to the minute with all his obligations. As a friend he was always to be trusted and the writer has often heard him say, "I bear ill will toward no man and to my knowledge haven't an enemy on earth." As an individual Geo. Adamson was peculiar, positive of opinion, but generous to a degree of self sacrifice. His very peculiarities made him a favorite with business and personal friends alike.

Brothers do not always agree as well as strangers in affairs of the world but between George and Tom Adamson there was always the deepest, warmest affection. Each helped to bear the others burdens and what either one possessed belonged to both in the truest sense of the term. Geo. Adamson's religion was his generosity of nature and his monument will be the void left in the hearts of his wife, brother, sister and countless friends.

Mrs. Julia A. VanDuser.

Mrs. Julia A. VanDuser died January 16th at the home of her daughter, Mrs. George Cadwell, after twelve weeks of suffering from general debility and old age.

Miss Julia A. Dolly was born in Oneida county, N. Y., March 16, 1818. She came to Michigan in early life and was married in Franklin in 1850 to John VanDuser. Five children were born to bless; Mary E., wife of Wm. Smalledge, who died February 15, 1889; John, who died in the hospital during the late rebellion; Robert, now living near Hillsdale; Mattie L., wife of George Cadwell, at whose home she had been living for the past fourteen years; and Thomas, who lives near Ridgeway. The funeral was held at the house Tuesday afternoon, Rev. J. P. Varner officiating, and the remains were taken to Ridgeway for burial.

Card of Thanks.

We wish to express our thanks to the friends and neighbors who so kindly assisted us, and especially to Mrs. Will Orr for singing and Mrs. N. M. Sutton for her many deeds of kindness toward us in our late bereavement.

MR. AND MRS. GEO. CADWELL AND OTHER RELATIVES.

"Wang."

was presented at Adrian opera house last evening by a good company and to the best house Adrian has seen for many moons. Manager Hardy solicited an attendance from Tecumseh and our people are under many obligations to him for securing the holding of the night train, favors in the way of fine seats, &c., &c. The following persons from Tecumseh attended: Messrs. and Mesdames J. J. Orr, James McCann, H. G. Richter, Erv. Kennedy, E. F. Kirchgessner and Geo. N. Stacy. Misses Lucy Blivin, Carrie Osborn, Mamie Osborn and Nettie Southworth. Messrs. Bert Garlinghouse, John Gaston, John Primrose, Harry Pattison, Fay Anderson, Ed. Holdway, Ed. Smallidge, Mr. Bryan, Ed. Everett, Ernie Elliott and Eldridge Hyde.

—After subscribing for the TECUMSEH HERALD you need an Adrian paper. Better try the Michigan Messenger, Adrian, for a year. Regular price $1.50; special to February 1st, $1.25; twice a week, Wednesday and Saturday; sixty-four long columns each week. All the news while it is fresh. Cheapest and best. Samples free.

—Shingles for sale at cost. House to rent, $1.00 per week. Barnyard manure wanted. Potatoes for sale, 20 cents per bushel. A. W. SLAYTON.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly, by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

ELY'S CREAM BALM is a positive cure. Apply into the nostrils. It is quickly absorbed. 50 cents at Druggists or by mail; samples 10c. by mail. ELY BROTHERS, 56 Warren St., New York City.

"In no way can Americans so effectively inform themselves on the subjects that claim public attention from one month to another as by reading the NORTH AMERICAN REVIEW."

IN THE
NORTH AMERICAN REVIEW
YOU WILL ALWAYS FIND
The Right Topics,
By The Right Men,
At the Right Time.

THE TOPICS are always those which are uppermost in the public mind—in MORALS, POLITICS, SCIENCE, LITERATURE, BUSINESS, FINANCE, INDUSTRIAL ECONOMY, SOCIAL and MUNICIPAL AFFAIRS, etc.—in short all subjects on which Americans require and desire to be informed. No magazine follows so closely from month to month the course of public interest. All subjects are treated of impartially on both sides.

The Contributors to the REVIEW are the men and women to whom the world looks for the most authoritative statements on the subjects of the day. No other periodical can point to such a succession of distinguished writers. The list is a roll of the people who are making the history, controlling the affairs, and leading the opinion of the age.

The Time when these subjects are treated of by these contributors in the REVIEW is the very time when the subjects are in the public mind.

The Review is the only periodical of its kind which has a recognized place as
A FAMILY MAGAZINE.
This is because it devotes so much attention to subjects that are of particular interest to women.

Subscription Price, $5.00 per Year.

THE NORTH AMERICAN REVIEW
291 Fifth Ave. New York.

A Valuable Prescription.

Editor Morrison, of Worthington, Ind., Sun, writes: You have a valuable prescription in Electric Bitters, and I can cheerfully recommend it for constipation and sick headache, and as a general system tonic it has no equal. Mrs. Annie Stehle, 2625 Cottage Grove Ave., Chicago, was all run down, could not eat nor digest food, had a backache which never left her and felt tired and weary, but six bottles of Electric Bitters restored her health and renewed her strength. Prices 50c and $1. Get a bottle at Baker & Hall's drug store. 6

Dr. King's New Discovery for Consumption.

This is the best medicine in the world for all forms of Coughs and Colds and for Consumption. Every bottle is guaranteed. It will cure and not disappoint. It has no equal for Whooping Cough, Asthma, Hay Fever, Pneumonia, Bronchitis, LaGrippe, Cold in the Head and for Consumption. It is safe for all ages, pleasant to take, and, above all, a sure cure. It is always well to take Dr. King's New Life Pills in connection with Dr. King's New Discovery, as they regulate and tone the stomach and bowels. We guarantee perfect satisfaction or return money. Free trial bottles at Baker and Hall's drug store. Regular size 50 cents and $1.00. 6

A huge gray wolf was killed by a pack of hounds near Sturgis.

THE BLIND CHAPLAIN.

Rev. William H. Milburn Has an Interesting History.

How He Came to Be Elected Chaplain of the House of Representatives Fifty Years Ago & His Promotion in 1893.

(Special Washington Letter.)

"A prayer by the blind chaplain does me more good than a sermon," says Senator Davis, of Minnesota.

"Although dilatory about reaching the capitol at noon for many years," says Senator Sherman, "I have actually observed and heard that some senators make an effort to get to the capitol at noon in order to hear the opening prayer."

As a usual thing statesmen care little for the prayers that are daily said in the senate and house of representatives, and few of them care whether they are on time each day or not. Usually not more than 50 representatives are present when the house is called to order, and it seldom happens that more than ten or twelve senators are present when the vice president assumes the gavel.

Rev. William Henry Milburn, chaplain of the senate, is now 73 years old, although he does not yet begin to look like an old man. He is strong, vigorous and bids fair to remain with us for many years to come, doing good. It has been 50 years since he first came to Washington to assume the position of chaplain, but he has not served continuously in that capacity. He was only 23 years of age when he was elected chaplain of the house of representatives in 1845. No other man so young has ever been selected for such a position in any country.

When young Mr. Milburn was elected chaplain of the house of representatives 50 years ago he knew no politicians, and had no aspirations for political preferment or political associations. He was a blind young man and had just been ordained to the ministry. He was traveling upon a philanthropic mission when an incident occurred which changed the entire course of his life.

He attended the Illinois Methodist conference at Springfield, in 1845, and that conference decided that a female seminary should be established at Springfield. The people of the west had no money, and it was customary for western conferences to appeal for aid from eastern churches. Finally the Methodists established what is known as the Church Extension society for the purpose of extending aid systematically to western circuits. At that time, however, the society was merely in a formative state, and the Illinois conference selected young Mr. Milburn to travel and solicit aid for the proposed female seminary. Accompanied by a friend to guide him and take care of him, Mr. Milburn started on his mission. He first went to Cincinnati and preached there for three weeks without [illegible] financial [illegible], but he concluded to shake the dust of Cincinnati from his feet and go further east.

On Friday morning he took the Ohio river steamboat for Wheeling, expecting to reach the Virginia town on Saturday night. In those days nearly all traveling was done by steamboat and stage, for railroads were few and far between. That Ohio river steamboat was delayed, as all river steamboats were in those days, and on Sunday morning the boat was still 80 miles from Wheeling. The passengers had an informal meeting and asked Mr. Milburn to preach to them in the cabin of

REV. WILLIAM HENRY MILBURN.

the boat. He consented, and that sermon changed the course of his life.

While walking about the boat on Friday and Saturday, the young preacher had heard a great deal of profanity. He also learned that the passengers were playing cards and drinking a great deal of whisky. He further ascertained that the most hilarious of them all were some western congressmen, who were on their way to Washington to attend the coming session of congress. There were nearly 300 passengers on the boat, and at 10:30 o'clock they assembled in the cabin and services were held. Familiar hymns were sung, and the chaplain prayed, and then delivered a sermon the like of which few men have ever heard.

The young preacher said that he had always been taught to respect people high in authority, and had been led to believe that gentlemen who were sent to congress were leaders of their people in all things good. He had supposed that they were representatives of the people intellectually and morally as well as politically. But while on the boat he had heard enough to convince him that if the representatives in congress were really representatives of the people, then this republic must be a nation of drunkards, gamblers and ungodly men in every particular. With vigorous and direct English, such as few men can use, the young preacher said that as an American citizen he felt outraged and disgraced, and that as a preacher of the Gospel he felt it to be his duty to tell them that unless they mended their ways they would all be damned.

Probably no sermon was ever preached in the presence of public men which was so plain, direct, keen, cutting and effective. The average preacher lacks vim and independence. Certainly in the presence of leading politicians and statesmen many preachers have shaky knees. There is no doubt of it. Right here in Washington some so-called preachers never open their mouths concerning wickedness which should be rebuked. These congressmen were dumfounded when they were thus depicted by the fearless blind young preacher. The services were concluded and the preacher went to his stateroom. He realized that his sermon had been a terrific philippic, and apprehended some manifestation of the displeasure of the statesmen. While pondering the matter, he reached the conclusion that he had but done his duty, and he would stand by his declarations, no matter what might be said or done.

INVOKING THE DIVINE BLESSING.

In the meantime the passengers were discussing the sermon and raising a collection. The contributions were liberal, and one of the passengers carried to the preacher's stateroom a sum of money such as he had never handled before. That afternoon the congressmen waited upon him and asked him if he would permit the use of his name as a candidate for the position of chaplain of the national house of representatives. After giving the subject prayerful consideration that afternoon Mr. Milburn gave his consent to the use of his name. The boat landed at Wheeling, the congressmen departed, and Mr. Milburn remained at Wheeling.

Although congress did not meet until December, the western congressmen came early in November in order to be able to make the trip before the river was frozen and navigation stopped. Thus they had a month to devote to the interest of the young preacher. As the congressmen arrived from the eastern and middle states, the western statesmen told them of the remarkable sermon they had heard from a remarkable man, and urged his selection for the chaplaincy. When congress convened every member of the house of representatives was aware of the story and anxious to see the remarkable preacher, and his election was made without difficulty. He was sent for and assumed the position just before the Christmas holidays. During that entire congress he prayed not only for the nation and for the world, but for the congressmen; prayed for them as an earnest man would pray for a lot of miserable sinners.

That was the beginning of the Twenty-ninth congress. James Knox Polk was president, and George M. Dallas was vice president. The blind chaplain was acquainted with the members of the house and of the senate during that congress; and he has vivid recollections of Clay, Calhoun and many others who were then in their prime.

At the beginning of the Thirty-third congress Dr. Milburn was again elected chaplain of the house of representatives. Franklin Pierce was president, and his administration had just begun. During the interim Webster, Clay and Calhoun had died, and there were many new men coming to the front; men who became prominent in the halls of legislation and also on the battlefields of the civil war, which wise men easily foresaw.

At the conclusion of his second term as chaplain of the house of representatives Dr. Milburn returned to the ministry and continued actively in the work until December, 1885, when he was a third time elected chaplain of the house. Thirty years had elapsed, during which time the blind chaplain had become more and more famous as a preacher and lecturer.

In 1893 Dr. Milburn was elected chaplain of the senate, and there he will remain as long as he lives. All of the senators hold him in high esteem, and many of them hold him in veneration. His daily invocations are models of diction and of intense feeling. He is escorted to the capitol every day by his niece, a very beautiful blonde. Together they ascend the elevator and walk along the marble floors to the room of the vice president. There they are welcomed by that courtly gentleman, and a general conversation ensues until the hour of noon, when, taking the hand of a little page boy, the blind chaplain accompanies the vice president into the senate chamber.

Together they ascend the steps leading to the vice president's chair. The vice president takes a little ivory gavel and raps lightly on the desk, saying: "The senate will be in order." He then steps aside, and the blind chaplain, lifting his sightless eyes to heaven, invokes the Divine blessing upon the senate. He is then led down the steps, the vice president takes the chair, and business proceeds. Accompanied by the little page boy, the blind chaplain usually walks about the senate chamber for five or ten minutes, taking the hands of senators and paying his respects to them, and they to him. He then returns to the room of the vice president, takes the arm of his niece, and returns to his humble home. The salary of the chaplain is $900 per annum, and that is but a little sum to live on.

To Benefit Others.

The Editor of The Bloomfield Iowa Farmer Writes of the Good Done by DR. MILES' NEW HEART CURE.

THERE ARE a great many unselfish men and women who wish others to know what has restored them to health and happiness. Mr. C. F. Davis, publisher of one of the best newspapers in Iowa, writes from Bloomfield Ia., Aug 18 1896. "My desire to benefit others prompts me to write this. We have used Dr. Miles' Remedies in my family for nearly two years with most gratifying results. We would'nt now do without them. My wife had been weakly and down nearly every summer for the past fifteen years. Dr. Miles' Heart Cure is exactly what its name implies; a sure cure for a weak, fluttering, palpitating heart, and Dr. Miles' Nerve and Liver Pills are most excellent."

CONDITION OF BANKS.

Deposits Show an Increase While Loans and Discounts Are Less.

Lansing, Jan. 20. — Commissioner Ainger reports that at the date of the December call the state banks of Michigan had aggregate resources and liabilities of $85,686,065, and a paid up capital of $12,485,275. The loans, discounts, stocks, bonds and mortgages aggregated $65,393,888. The total deposits were $67,479,851; commercial deposits, $15,274,265; certificates of deposits, $7,530,592; savings deposits, $42,055,852. Compared with the report in October of loans and discounts, stocks, bonds and mortgages show an increase of $164,225.26, certificates of deposits a decrease of $417,951.77, savings deposits an increase of $140,590.58; total deposits an increase of $81,484.12.

CHILD EATS PILLS AND DIES.

Carelessness of a Mother Causes Her to Lose Her Little One.

Detroit, Jan. 18.—Harold John Cameron, a bright little boy 2½ years of age, ate about a dozen out of a box of pills Saturday afternoon. The child was soon taken with spasms and within an hour and a half died in awful agony, despite the best efforts of the mother and Dr. Brady, of First street, who was summoned as soon as it was discovered that the child had taken the pills. The child's mother had been showing the box of pills to a neighbor and thoughtlessly left it on a table, whence the child helped himself.

To Oust Pingree.

Detroit, Jan. 20.—A petition was presented to the city council Tuesday night calling upon President Richert to order a special election to fill the office of mayor, which the document declares has become legally vacant since Mayor Pingree assumed the office of governor. Although there is admittedly a constitutional question as to whether one may properly hold the offices of governor and mayor, there has hitherto been no apparent disposition to force a settlement of it.

Water Invades Michigan Towns.

Grand Rapids, Jan. 20.—Grand river is gorged with ice below and above the village of Portland, Ionia county. Serious damage is being done by the water and the town is threatened. All the factories have been forced to close and merchants and residents are now moving to the upper floors. The Muskegon river is also gorged below Newaygo, and that village is threatened with flood and damage.

Faithful Unto Death.

Port Huron, Jan. 13.—A week ago, George Montgomery, mate on the North Land, was taken sick with scarlet fever, and his sweetheart, Emma Thrall, went to his home to nurse him through his illness. In two days she contracted the disease, and died Sunday.

Has Proved a Success.

Prescott, Jan. 16.—C. H. Prescott, of Cleveland, four years ago began the conversion of pine barrens near here, and succeeded in turning 1,600 acres into a fertile farm. More than 12,000 bushels of all kinds of grain were raised upon it last season.

FARM & GARDEN.

STACKING FODDER.

An Ohio Farmer Describes an Apparently Excellent Method.

My way of stacking fodder is as follows: I begin the stack the same as a shock, that is, by standing bundles almost perpendicularly on the ground, butts down and tops pressed together. I continue in this way, placing the bundles close together until the shock, or prospective stack, is about 12 feet in diameter at the base (ground). This usually requires 50 or 60 bundles.

Next, instead of getting up on this shock, or stack bottom, and having some one pitch the bundles to me, while I lay them down horizontally, as is usually done, I remain on the ground, and continue there till the last bundle is placed, when a ladder is leaned against the stack and the top tied.

I begin the topping-out process by grasping a bundle with both hands and lifting it say three feet from the ground, laying, or more properly speaking,

STACK OF CORNFODDER.

standing it on one of the bundles of the last or outside course of shock or stack bottom. I continue in this way, walking around the stack and placing bundles "side by side," until I come around to the starting place. This completes the first elevated course. The butts of this course being about three feet from the ground, brings them to a point about where the bundles underneath are tied. See cut.

The bundles for the next or second elevated course are placed in order by means of a two-tined pitchfork. The butts of this course are about six feet from the ground, and like the butts of the first elevated course, come to about the middle of the bundles underneath.

The butts of the third or last course, consisting of say eight or ten bundles, are placed about nine feet from the ground. This makes a stack about 14 feet in height.

When the last course is placed in order the top of the stack is securely tied in two places—one within a foot or two of the extreme top, and the other around the butts of the top course.

Two men are not required to put up this kind of a stack. I built ten such stacks this year myself without any assistance. One man says he puts about 600 bundles in a stack. I put only about 120.

In stacking in this way there are no bundles lying down with butts sticking outward, as in stacks as usually built. They all stand up in an almost perpendicular form—butts down, tops up. The bundles having so much "pitch" they shed the water perfectly.

In feeding from such a stack I begin with the ground course, as the bundles may be easily pulled out. The top bundles remain untouched till the last, thus leaving no part of the stack exposed to the weather.

I adopted this plan three or four years ago and like it quite well. Its advantages are: (1) The bundles having so much pitch they shed the water completely. (2) In feeding therefrom the bottom buntlles are fed first and the top left to protect the stack till the last. (3) One man can take the bundles from the wagon and construct such a stack, without assistance.—Frank Leslie, in Ohio Farmer.

FACTS FOR FARMERS.

If you have gravel near you, improve your highways.

Don't feed rats unless you mix poison with the food.

Exterminate the rat. Both poison and cats are cheap.

Paint your machinery if needed. It is money well expended.

Wide tires on hard roads act as rollers and improve the road.

Chopping firewood in midwinter is a mighty unpleasant business.

Save the hay. Substitute corn fodder and good straw to some extent.

Do as well as your neighbor does on all lines. What he can do you likely can.

Be an idealist. Set your mark even higher than you can reach, but reach as high as you can.

One man thinks that the opening of new farms in the west is evidence that farming is profitable. That sort of logic would indicate that all kinds of business is profitable.—Western Plowman.

Refunding Farm Mortgages.

Refunding of mortgages at a lower rate of interest wherever the loans are well secured on improved farms is a crying need of the times. Most of the great railroads have thus refunded their mortgage indebtedness, if indeed they haven't wiped it out in whole or in part by reorganization proceedings. Many cities are refunding their loans at lower rates. Now give the farmer a chance to do likewise. He has better reasons and as good or better security. —Farm and Home.

THIS IS GOOD NEWS.

If True, It Will Make the Farmers of the West Independently Rich.

Prof. Gibbs made the speech of the evening, which was the reason for the gathering, at a dinner given to western senators and representatives by Messrs. Cramp, of Philadelphia. If half he said was true an industry is opening up to the corn-growing region of this country which seems more like a vision than the belief and utterance of scientific experts and far-sighted business men.

The cornstalks would soon be as valuable, if not more so, to the farmer than the corn itself. The pith has been discovered to be more valuable than any other substance for protecting the sides of battle ships from inrushing water after being struck by shells. To-day the best of that padding is made from cocoanut fiber imported at large cost. Messrs. Cramp, proprietors of the largest private ship-building plant in this country, have pronounced in favor of the cornstalk pith, both for service and cheapness. They believe that in a few years all the battle ships of the world will be protected by this pith condensed into a sufficient hardness. Its manufacture into protective pads is being perfected by actual experiments. Prof. Gibbs further says that from the fiber smokeless powder can be made at a cost of 15 cents per pound, while that which the government now uses costs several dollars for a like quantity. A beautiful lacquer, waterproof and hard, can also be made from the stalk. Celluloid, too, it is claimed, can be manufactured cheaper than from other substances. With the pith drawn out the stalk can be ground with other preparations into a fodder so cheap it would be within the reach of everyone and upon which cattle would thrive.

Better, finer and cheaper sugar, Prof. Gibbs says, can be made from it than from the cane of Louisiana. He further stated that when these facts became known and plants started, the farmer would receive at least $2.50 per ton for his cornstalks, which he is now sometimes at an expense to get rid of. He thinks ten dollars per acre would be paid for the stalks after the farmer had received about a similar price for the corn, thus doubling the value of the corn crop.—Chicago Inter-Ocean.

SIPHONING WATER.

Simplest Method for Getting a Supply for Irrigation or Building.

Siphoning water is one of the simplest methods of getting a supply for irrigation or building. Where there is a body of water above the buildings, but separated from them by such a height of ground or ridge that water will not naturally flow through a pipe from the supply to the source of consumption, it is often possible to use a siphon. A siphon consists of a tube bent at a point nearer one end than at the other, giv-

SUPPLYING WATER THROUGH A SIPHON.

ing a long and a short arm, as shown in Fig. 1. If the tube be filled with water, the column of water in the long arm is heavier than the column in the short arm. As the heavier column starts to run down out of the tube, a vacuum is created at the bend, and the lighter column of water in the short arm is constantly forced up to fill the constantly produced vacuum at the bend, the stream being thus made constant. The water must first be started through any large pipe by a pump. But when once the flow is started there is no need for the pump. If the pipe and the shut-off are perfectly air-tight, the stream will begin to flow again when turned on.—Orange Judd Farmer.

About the Color of Soil.

The color of the soil will affect its temperature. If a white piece of paper and a black piece of paper be placed upon the snow in the sunlight, the snow under the black piece of paper becomes more rapidly melted than the snow under the white. This is an illustration of the fact that dark substances absorb the sun's heat rays. In the same way, the darker the color of a soil the more rapidly do the sun's rays warm it, while light-colored soils become warmed only slowly. The dark color of soils is generally due to the presence of decomposed organic matter. Hence soils rich in humus are generally warm soils.—Western Plowman.

Value of Important Crops.

The United States department of agriculture gives the following as the total product and total value of six of the country's leading staples for the average of eight years ending with 1895, approximately: Corn, 1,783,000,000 bushels, value $650,000,000; hay, 51,000,000 tons, value $451,000,000; wheat, 470,000,000 bushels, value $332,000,000; cotton, 3,750,000,000 pounds, value $276,000,000; oats, 688,000,000 bushels, value $208,000,000; potatoes, 197,000,000 bushels, value $90,000,000. Tobacco has a total value less than half that of potatoes.

Reversing an Old Custom.

The general custom of farmers is to go to town with an empty wagon and return with a load of something that in nine cases out of ten they could have grown on their own farm. A Cobb county farmer has reversed this plan. He never goes to town unless he carries something to sell. He takes a full wagon to town and returns with an empty wagon, but with money in his pockets. Begin the new year by imitating the example of the Cobb county farmer. Reverse the custom of having the "outgoes" of the farm greater than the "income."—Southern Cultivator.

In law it is no crime to rob the farm, but it is a crime nevertheless. Be honest with your farm.

MORTGAGE SALE.

Default of payment having been made of a mortgage made and executed by William J. Arnold and Caroline Arnold his wife, to Joseph Russell dated April 21, 1894 and recorded on the 26th day of May, 189 in the Register of Deeds office for Lenawee County, Michigan in Liber 89, of Mortgages on page 188, upon which mortgage there remains unpaid of the principal and accrued interest at the date of this notice the sum of fourteen hundred fifty-seven and 53-100 dollars ($1457.53) and no proceedings at law or in eq ity have been taken for the collection of the same or any part thereof.

Notice is therefore hereby given that by virtue of the power of sale in said mortgage contained and of the statutes of the State of Michigan in such case made and provided, for the purpose of realizing the moneys above mentioned and the interest thereon hereafter to accrue at 7 per cent per annum the cost of this foreclosure and sale including the attorney fee provided for in said mortgage, I shall on the first day of March 18 7 at nine o'clock in the forenoon of said day at the front door of the court house in the city of Adrian Lenawee county, Michigan (that being the building in which the circuit court for said county of Lenawee is holden) sell at public vendue to the highest bidder, all that certain piece or parcel of land situate in the Village of Tecumseh in the County of Lenawee and State of Michigan and described as follows to wit: Beginning at a point in the south line of Chicago street in said village of Tecumseh, such point of beginning being at the same time at the northeast corner of a parcel of land formerly owned by T. T. Kneeland and more recently occupied by M. P. Henry, thence running east on the south line of Chicago street forty-one feet and three inches to land owned by George Merritt; thence south on west line of said Merritt's land ninety feet; thence west at right angles with the first course forty-one feet and three inches to the east line of said F. T. Kneeland property; thence north on east line of said T. T. Kneeland property ninety feet to the place of beginning.

Dated December 4th, 1896.

Joseph Russell Mortgagee.
Charles Burridge Attorney for mortgagee.

MORTGAGE SALE.

On the sixteenth day of February, A. D. 1886 Samuel Larzelere of the village of Clinton county of Lenawee, Michigan executed a mortgage to Sarah C. Rogers, of the village of Clinton, county of Lenawee, Michigan, on all that certain piece or parcel of land situate and being in the village of Clinton, Lenawee county, Michigan, and described in said mortgage as follows, to wit:

Being lot number five (5) on the plot in the village of Clinton as surveyed by Smith & Lapham for John Clark proprietor and now of record in the Registers office in and for the county of Lenawee in the state of Michigan. Said lot being eighty-four (84) feet front and rear and one hundred fifteen feet on its east and west lines.

That said mortgage was upon the 17th day of February, A. D. 188, recorded in the office of the Register of Deeds of said county of Lenawee in Liber 114 of Mortgages on page 556

Default has been made in the conditions of this mortgage and the note running in connection therewith, whereby the power of sale therein contained has become operative and upon the same there is claimed to be due and unpaid at this date the sum of one hundred thirty four dollars and fifty one cents ($ 34 51) in addition to all other costs provided by law and in said mortgage for the foreclosure and no proceedings at law or in equity having been had or taken to recover the same or any part thereof.

Notice is therefore hereby given that pursuant to law and the terms of said mortgage the premises above and in said mortgage described or so much thereof as may be necessary for that purpose will be sold at public auction to the highest bidder upon the twelfth day of April, A. D. 1897, at ten o'clock in the forenoon at the east front door of the court house in the City of Adrian in said county of Lenawee (the building the place and building for holding the circuit court of said county) to satisfy the amount then due upon said mortgage and note, the legal cost of foreclosure and the sale thereof.

Dated January 8 A. D. 1897

SARAH C. ROGERS, Mortgagee.
G. R. Gilleepie, Attorney for Mortgagee.

ADMINISTRATORS SALE.

In the matter of the estate of Humbolt Pennington late of Macon, Michigan, deceased.

Notice is hereby given that in pursuance of an order granted to the undersigned as administratrix of the estate of Humbolt Pennington, deceased, by the Hon. Judge of Probate for the county of Lenawee in the state of Michigan, on the 28th day of December A D 1896, there will be sold at public vendue to the highest bidder at the late residence of said deceased situate on section 5, of the township of Macon, Lenawee county, Michigan, on the 27th day of February 897 at 10 o'clock in the forenoon of said day subject to all incumberences by mortgage or otherwise existing at the time of the death of said deceased and also subject to the right of dower and homestead rights of the widow of said deceased therein) the following described real estate:

All those parcels of land in the township of Macon, Lenawee county, Michigan described as follows: The west half of the southeast quarter of section 5, of town 5, south of range 5 east excepting all that part thereof lying north of the center of the saline and Tecumseh road, so called, also further excepting a parcel of land thirty (30) rods wide north and south to be taken from off the south end thereof.

Also the north half of the east half of the southwest quarter of section 5, of town 5, south of range 5, east.

Also that part of the southwest quarter of the southwest quarter of section 5, of town 5, south of range 5, east bounded by beginning at the intersection of the east line of said southwest quarter of said southwest quarter of said section with the east line of the saline and Tecumseh road so called, thence southwesterly along the center of said road to a point 20 rods north of the south line of said section; thence west parallel with the south line of said section to a point 88 rods east of the west line of said section; thence north sixteen rods; thence west twenty-four and two-thirds (24⅔) rods to land of John Jackson; thence north parallel with the west line of said section to the north line of said southwest quarter of said southwest quarter of said section 5; thence east to the northeast corner of said southwest quarter of said southwest quarter of said section 5, thence south to place of beginning.

Also to the southeast quarter of the southwest quarter of section 5 of town 5, south of range 6, east—excepting therefrom all those parcels thereof to be taken from off the south side thereof heretofore sold and conveyed to other parties.

Reserving all the growing wheat on all the lands above described with right to harvest and remove the same.

Dated January 8, 1897.

CLARIBEL PENNINGTON, Administratrix.

COMMISSIONERS' NOTICE.

STATE OF MICHIGAN, County of Lenawee, ss.

In the matter of the estate of Alvinza Whelan deceased.

The undersigned, having been appointed by the Probate Court of said County, Commissioners to receive, examine and adjust all claims and demands of all persons against the estate of said deceased, do hereby give notice that we will meet for that purpose at the former residence, of Alvinza Whelan in the Village of Tecumseh, Lenawee county, Michigan, on the 12th day of February 1897 and on the 5th day of June 1897 at 9 o'clock in the forenoon of each of said days And that six months from the 5th day of January A. D. 1897, are allowed by said probate court for the creditors of said estate to present their claims to us for examination and allowance.

Dated January 11, 1897.

W. A. BEEBE
JOHN BURTLESS,
Commissioners.

Those who have the most have it, as a rule, because they save the most. They're more economical. These people buy **Pearline**. Proof—in all stores of the better class throughout the land, you'll find the sales of **Pearline** far in the lead. Now, these economical people wouldn't use **Pearline** for their washing and cleaning, if they didn't find it to be just what we say—the most economical in every way. **Would they?** 440 JAMES PYLE, N.Y.

Calumet Baking Powder

has turned the tables on high price baking powders. The directions on High Price cans are the same as on *Calumet* cans, viz.: 2 teaspoonfuls to a quart of flour, but they say that one can of High Price will go three times as far as any other. Can any claim be more ridiculous? The frantic cry of adulteration, danger and poison made by the high price baking powder people is a blind to intimidate the public and induce them to pay fancy prices for their goods—also to divert attention from this defect in their own goods.

Calumet Baking Powder is safe. Food baked with *Calumet* is absolutely free from Rochelle Salts, Alum, Lime, Ammonia or any injurious substance.

Monopoly must yield to moderation—Impurity must improve or go under. Calumet is the standard.

CALUMET BAKING POWDER CO., Chicago

When in doubt what to use for Nervous Debility, Loss of Power, Impotency, Atrophy, Varicocele and other weaknesses, from any cause, use Sexine Pills. Drains checked and full vigor quickly restored. If neglected, such troubles result in decay. Mailed for $1.00; 6 boxes $5.00. With $5.00 orders we give a guarantee to cure or refund the money. Address PEAL MEDICINE CO., Cleveland, O.

Sold by all Druggists of Tecumseh.

MICHIGAN'S PRISONS.

Contract System To Be Fought by Labor Men.

WILL MEET WITH OPPOSITION.

The Keynote Has Been Sounded by Ex-Governor Rich and Prison Managers Will Oppose Any Effort to Abolish Convict Labor by Contract—What O. M. Barnes of Lansing Has to Say Upon the Subject—Pingree's Recommendations.

Lansing, Mich., Jan. 19.—One of the first lobbies to make its appearance in the legislative halls is that representing the Michigan Federation of Labor, which at its annual meeting here last month, decided to confine its efforts before the present legislature to a bill prohibiting the employment of convicts in Michigan prisons on contracts. This decision was made on the recommendation of H. C. Barter, the new president of the federation, who, in his speech accepting the office, called attention to the fact that two years ago the labor unions and interests asked for a number of things from the legislature, and so widely was their shot scattered over the whole field of reform that they did not succeed in securing recognition for any of their demands. It was largely on his advice that the federation decided to give attention to nothing else during the pending session. While the delegates were thus solicitous about the abolishment of the contract labor system in prisons, they had nothing definite to offer as a substitute for the employment of the prisoners, the best they essayed to do in this direction favoring co-operation with the wheelmen with a view to employing the convicts on the highways of the state as far as practicable, and looking to the cultivation of larger prison farms.

Furniture Men Will Help.

The labor organizations will be assisted in their effort by the furniture manufacturers of the state, at least to the extent of an endeavor to secure the prohibition of the manufacture of furniture in the penal institutions of the state. One of the fiercest fights before the last legislature was made by the furniture men, but their efforts were unsuccessful. This class of citizens consider themselves especially aggrieved because an extensive furniture plant is maintained at the state house of correction at Ionia. They declare that it is being run at a material loss to the state, and that this fact, together with the fact that the labor costs the state but a trifle, enables the prison managers to put goods on the market at a ruinously low figure. Those of the manufacturers who make chairs want the state to abolish chair making at the Detroit house of correction, and the labor men will find strong allies in these manufacturers in the fight they propose to make.

There is no doubt that all he prison managers and state officials who have had anything to do with the management of the prisons will strenuously oppose any effort to abolish contract labor. Ex-Governor Rich has, as an ex-officio member of the prison boards of control, given this subject much attention during the last four years, and in a recent address he sounded the keynote of the opposition. He declared that while the prisons of the state can not, in the aggregate, be made self-supporting, the state prison at Jackson should be, and charged that the attitude of the labor organizations on this subject has materially added to the difficulty of the problem. Under the present law the convicts can be employed on piece work, on contract or on manufacture on state account, and the ex-governor declared that this power cannot in reason be curtailed, for even though all of them have been resorted to, it has been impossible to keep all of the convicts employed. It is his judgment, based on the experience of the past four years, and in this opinion he is sustained by every prison manager in the state, that the contract system is the most profitable and desirable for all concerned, notwithstanding th fact that it is the one most severely criticised by labor organizations and prison reformers.

Should Pay for Their Maintenance.

The ex-governor argued that the men were consumers both before and after imprisonment. He further maintained that most of them were producers before their imprisonment, and he insisted that they should be made to pay the cost of their conviciton and maintenance. This, too, should be done in a manner that will not reduce the price of free labor. He contended that under the contract system the labor must be sold in the open market for what it is worth, and the man who purchased it must furnish his own capital, sell his own goods, and generally compete with other manufacturers. Attention was called to the fact that convict labor does not bring as much as free labor, nor is it worth as much, as experience has proven, nor is there anything to show that employers of it are, as a class, more prosperous than other manufacturers. If they were, it was insisted that the price of convict labor would be higher. Another point urged was that, under the contract system, the state receives pay for each day's work, retains control of the convicts and enforces its own discipline. The effect on free labor was declared to be no different than if the same number of free men were employed at the same work, except that convicts will not accomplish nearly as much as free men. As a potent reason why the contract system should not be abolished, ex-Governor Rich emphasized the fact that under the state account system the state is obliged to furnish active capital for material and tools, money to carry a stock of manufactured goods and men to sell them. It was stated that experience has proven that in this state it has sometimes cost more to maintain convicts employed on state account than to maintain the same number of insane in absolute idleness. The fact that under the contract system the contractor must pay for his material and labor and sell at a profit or quit the business was mentioned, and it was urged that as he must purchase both material and labor in the open market, his competition with other manufacturers is legitimate and in no way degrades free labor or reduces the market price thereof. Particular emphasis was put on the statement that the state does not have to make money when working its convicts on the state account system, the state treasury being practically unlimited, and, if necessary, the manufactured goods can be sold at less than the cost of production, thus not only reducing the demand for the products for free labor, but also the price of it.

Governor Pingree's Recommendations.

The above will constitute the substance of the arguments to be made by those who believe that the contract system is altogether the best and most profitable, for all concerned and the contest promises to be most spirited.

This important question has been brought into still greater prominence just at this time by the recommendation of Governor Pingree in his inaugural message that the employment of convicts should not be permitted to compete with the great industries. He suggests the idea of attempting to inaugurate a system of raising beets for the manufacture of sugar or other food plants which will not come into competition with the farming interests of the state. In order to make prison farms secure temporary stockades might, in his opinion, be built, to be replaced with brick walls, the brick to be made and the walls built by the convicts.

No man in Michigan has given more thought to this subject than O. M. Barnes of this city, who is a member of the board of inspectors of the state prison at Jackson, and chairman of the joint boards of the several penal and reformatory institutions of the state. Mr. Barnes was appointed an inspector by Governor Winans when the central board of control of all this class of institutions was created by the legislature of 1891. When the old system of separate boards was returned to in 1893 he was made a member of the Jackson board by Governor Rich, and has two years yet to serve. During all these years he has made a constant and painstaking investigation of the question of prison labor. For this reason your correspondent sought him out a few days since and asked if he had given the governor's message consideration.

Prison Boards Will Co-Operate.

"Yes," was the reply, "I have read the message of the governor, and have given that portion of it which relates to the prisons special attention.

"In my opinion all the prison boards will co-operate with the governor in all measures for the improvemnt of the prisons. Such is my own purpose, and I believe it is the purpose of all the members of all the boards. The joint meeting of all the boards required by law to be held semi-annually is soon to occur, and I mean to ask the several boards, in advance, to be ready to lay before the meeting a report showing to what extent they can carry out the suggestion in regard to farming, without any new appropriation. All the prisons have lands for garden and farming purposes, and all do more or less farming already, and it may be that this industry can be much increased without great increase of expense.

"The boards will, of course, follow the suggestion made by the governor to proceed with caution. They are anxious to make any change that will be an advantage to the state, and, on the other hand, they are anxious to avoid mistakes. Several of the states have wasted immense sums in changes of prison industries that have resulted in losses instead of gains. The law already allows the carrying out of the suggestions of the governor as to convict labor, if found to be for the best good of the state, and I am in favor of investigating the question of utilizing the prison farms and enlarging them, if found best, as recommended by the governor. We would not thereby escape the objection made to prison labor, for the competition would then be thrown upon the farmers. But after all, no matter what the convicts do, if they do anything we will encounter objections from some quarter in every field of labor, and in some fields greater difficulties than in others. Even if we go to making streets and roads with convicts we compete seriouly with a large body of free laborers who now do such work.

Boards Have Power.

"We are thus compelled to look at the matter in all of its bearings. Indeed, I may say that the boards have attempted hitherto to do so, but that will not prevent doing so again, and it may be that with the new views and aids some changes may be found to be improvements. The laws already sufficiently empower the boards to undertake new kinds of labor if found advisable, and I shall advise a review of this entire subject, although I am inclined to think that the fuller the investigation the more clearly will it appear that very few changes can be wisely made. I shall be glad if we can increase the number of convicts employed in farm and garden work in the direction suggested by the governor. One serious difficulty has confronted us in respect to farming convicts. It is this: But little can be done on the farm in winter. Perhaps, however, some other kind of work could be found for them during the winter months.

"What the governor says," concluded Mr. Barnes, "about the classification of prisoners and prisons, and the transferring of convicts is, in my judgment, excellent."

When the matter of convict labor was before the legislative committees two years ago, Mr. Barnes opposed the proposition of the furniture manufacturers of the state that the manufacture of furniture at Ionia and of chairs at the Detroit house of correction be prohibited. Those who favored the proposition suggested that the convicts be employed on the streets, and called attention to the fact that none of that class of citizens who are engaged in this work had entered any protest against such employment of the convicts. In response to this Mr. Barnes made a telling point by declaring that there had been no such protest for the reason that the average street laborer was in ignorance of what was before the legislature, and insisting that, for this very reason, it was the duty of the legislature to protect their rights. He then stated that as soon as convicts appeared on the streets to do the work the day laborer is now accustomed to do, the state would hear a protest of the most emphatic nature, and that, too, from a class of its citizens which, less than any other, can afford to encounter competition. Replying to the suggestion then made that convicts be employed in making clothing, etc., for the use of the inmates of other state institutions, Mr. Barnes showed that this labor would not keep them employed more than one-tenth of the time.

JAMES V. BARRY.

AUCTION SALE!

We have positively decided to close up our Tecumseh Branch.

We don't want to move a dollars worth of goods away. You can have your own way about it from now on until we

Close the Doors

Any time, any price, any way, wholesale, retail, private sale or auction. Beginning Saturday Jan. 30th we will sell at

AUCTION

every afternoon and evening until the entire stock, consisting of Notions, Crockery, Glassware, Tinware, Plated-ware, Lamps, China, Books, Clothing, etc., is closed out.

Bear in mind we have a large and complete stock of

Boots and Shoes

that will go in this clean up, and remember we have a finer line to select from than is usually keep in a place the size of Tecumseh. You need not wait for the auction come in any time and name your figures. N. B. To dealers we will sell all or any part of the stock in lots to suit the purchasers. Now come on

Get There Every Day

It will pay you to lay in a future supply.

WAY BELOW ZERO.

The Ice King Has a Firm Grip on the Entire Country.

Great Suffering Caused by the Intense Cold—Responses for Aid Are Quickly Made—Canada Is Also Frozen Up.

Chicago, Jan. 26.—The people of Chicago, in bodies and as individual citizens, were aroused Monday to take prompt and generous action for the relief of the 40,000 destitute inhabitants, whose suffering for want of fuel, food and clothing has reached an extreme stage as a result of the terribly cold wave which came upon the city Saturday, increasing in intensity until Monday it reached the lowest point officially recorded in a quarter of a century. Between five and seven o'clock Monday morning the weather bureau in the Auditorium tower, where it is warmer than on the street, recorded 20 degrees below zero. Only once in the history of the bureau—December 24, 1872, 23 below—has the temperature fallen lower.

Poor Suffer at St. Louis.

St. Louis, Jan. 26.—The cold wave, which reached here Saturday night, continues and the mercury remains close to zero, with high wind, but no snow. The suffering among poorer classes of people is intense, and Sunday night over 500 unfortunates were sheltered at the police stations.

Reports received Monday show the cold wave extends south to Texas and west to the Rocky mountains. In western Missouri the mercury dropped 60 degrees in 24 hours, and dispatches received from all parts of the state indicate that great damage has been done to the wheat crop, and that much of the early budding fruit has been killed.

In Milwaukee.

Milwaukee, Jan. 26.—The cold wave which came here Saturday was felt here Monday in full force. In the morning the thermometer recorded 20 below zero. The relief organizations of the city are overwhelmed with applications for help from the suffering unemployed and there is much distress that cannot be alleviated.

Coldest Ever Known.

Detroit, Mich., Jan. 26.—The last 24 hours has been the coldest ever known in Michigan, and at points in the state the thermometer registered 24 degrees below zero. In Detroit the mercury marked 20 degrees below at the Michigan Central slip dock on the Detroit river, and at St. Clair the river was entirely choked by ice, and showed 24 degrees below zero. From all over the state came reports of extremely cold weather.

In Cleveland.

Cleveland, O., Jan. 26.—The terrible cold continues and the suffering among the poor of Cleveland eclipses any previous record. The below-zero weather—for at eight a. m. Monday the mercury had dropped to 15 below—brought a tremendous crowd of half-starved, half-frozen, scantily-clad people to the city relief office.

Suffering in Omaha.

Omaha, Neb., Jan. 26.—Pitiful stories of want and destitution are coming to the attention of the authorities, aggravated by the intense cold which still holds its grip on the city and state. The city authorities on Monday had over 1,000 families to provide coal for, in addition to food and clothing. The charitable institutions of the city are able to assist only a small portion of those in actual need of protection.

In Iowa.

Dubuque, Ia., Jan. 26.—This section of Iowa is experiencing the coldest weather it has known for many years. Monday morning it was 22 degrees below zero. The heavy snowstorm was followed by severe cold. Several cases of freezing have been reported, but none of them of a serious nature. The poor people are in desperate straits and the authorities are besieged with applications for relief.

In Minnesota.

St. Paul, Minn., Jan. 26.—Excessive cold is reported again all over the northwest. It is 20 below in St. Paul.

Fifty-One Below.

Duluth, Minn., Jan. 26.—The government thermometers here Monday registered 32 degrees below zero, but private instruments went much lower. There is no wind. It is 51 below on the ranges at Virginia, 42 at Tower, 40 at Ely and 28 at Two Harbors.

Pennsylvania.

Pittsburgh, Pa., Jan. 26.—The coldest weather of the winter prevails throughout western Pennsylvania. In this city the mercury dropped from seven to ten degrees below zero, while thermometers in the country registered from five to ten degrees colder. The cold wave was preceded by a heavy fall of snow.

In Kentucky.

Louisville, Ky., Jan. 26.—The temperature in northwestern Kentucky registered ten degrees below zero early Monday morning. The minimum in the Blue Grass region was two degrees below. Louisville's lowest temperature was three degrees below zero at 7:30 a. m. At 11 p. m. the mercury stood at two above. All cases of suffering are being relieved by the charity organization.

Apples Were Poisoned.

Jeffersonville, Ind., Jan. 27.—Three children died at the home of George Madison, near here, from the effects of eating apples that were poisoned.

Mother and Children Burned.

Bedford, Pa., Jan. 25.—The house of William Croyle was destroyed by fire and Mrs. Croyle and two children were burned to death.

WANT THE BALLOT.

National Convention of Women's Suffrage Association at Des Moines.

Des Moines, Ia., Jan. 27.—"We will have nine stars in our banner instead of four before the end of the century," declared Susan B. Anthony, the veteran president of the National American Woman Suffrage association, in her annual address to the convention, which opened Tuesday. She seized the banner from the desk before her and waved it aloft. It is an American flag, save that it has only four stars, one for each state that has granted full suffrage to women, and the confident declaration of the beloved president set the convention in an uproar of applause that lasted several minutes.

The convention opened in the Central Christian church with about 200 ladies present. It was 15 degrees be-

SUSAN B. ANTHONY.

low zero, but the church was crowded to its capacity forenoon and afternoon. Seventeen states were represented, the weather keeping away many delegations. Miss Anthony presided, assisted by Anna Howard Shaw, of Philadelphia, vice president at large. It was voted that no state that has not paid its dues will be allowed to vote.

Mrs. Shaw made her report as vice president at large brief, because the same ground was covered by the address of the president. She told of the campaign waged the past year in California for the woman suffrage amendment, resulting in 110,000 votes for and 123,000 against. It was the largest vote suffrage had ever received in any state, although it did not carry.

SIR ISAAC PITMAN DEAD.

Inventor of System of Stenography Passes Away at London.

London, Jan. 29.—Sir Isaac Pitman, the inventor of the system of stenography which bears his name, is dead.

[Sir Isaac Pitman was born at Trowbridge, Wilts, January 4, 1813. After six years' service as a clothier's clerk he was sent to the Normal college of the British and Foreign School society, London, and after five months training, at the close of 1831, was appointed master of the British school, Barton-on-Humber. He established the British school at Wotton-Under-Edge, in 1836, and removed to Bath in 1839. His first treatise on shorthand, entitled "Stenographic Soundhand," appeared in 1837, and he thus became the originator of the spelling reform, to which, and the propagation of his system of phonetic shorthand, he devoted his entire attention since 1843, when the Phonetic society was

SIR ISAAC PITMAN.

established. His system of shorthand was renamed in 1840 and entitled "Phonography, or Writing by Sound," and his "Phonographic Reporter's Companion" appeared in 1846. Mr. Pitman edited and printed the Phonetic Journal. Besides printing his own instruction books for teaching phonetic shorthand, Mr. Pitman had issued a little library of about 80 volumes, printed entirely in shorthand, ranging from the Bible to Rasselle's. In the autumn of 1887 an international shorthand congress and jubilee of phonography was held in London, and Mr. Pitman's family were presented with his bust. A gold medal from the phonographers of the United States, and one from those of Great Britain and the colonies were presented to Mr. Pitman in recognition of the invention of his system of shorthand and of his labors for the reformation of English orthography. Mr. Pitman received the honor of knighthood in 1894.]

Bad Fire in Chicago.

Chicago, Jan. 25. — The Greenlee Brothers & Co.'s woodworking machinery plant and the Northwestern Stove Repair company's factory, Greenlee Brothers, owners, at 225 to 235 West Twelfth street, were entirely destroyed by fire Sunday night. David B. Carse, general manager of the two concerns, estimated the loss at $350,000. The plants were only partially insured. The blaze originated in the offices on the first floor, from an unknown cause. The building is a six-story structure.

Spooner Elected.

Madison, Wis., Jan. 27.—In the joint legislative assembly John C. Spooner was nominated and elected for United States senator to succeed Vilas. He received every republican vote. The gold democrats voted for Gen. Bragg, and the silver democrats for W. C. Silverthorn, their late candidate for governor.

FROM WASHINGTON.

The Closing Session of the Fifty-Fourth Congress.

Measures of Importance Presented in Both the Senate and House—A Daily Summary of the Proceedings.

Washington, Jan. 21.—The senate yesterday considered further the Nicaragua canal bill. The legislative, executive and judicial appropriation bill carrying approximately $23,000,000 was passed.

Washington, Jan. 22.—In the course of a discussion in the senate yesterday of laying electric conduits in the Washington streets Senator Hill (N. Y.) spoke against trusts and monopolies in general. Senator Turpie concluded his speech against the Nicaragua canal bill. The credentials of John Edward Addicks, claiming the vacant seat as senator from Delaware, were presented. The bill prohibiting the sale of intoxicating liquors to Indians was favorably reported.

Washington, Jan. 23.—In the senate yesterday Senator Turpie (Ind.) spoke in favor of Cuban independence. Senator Hoar (Mass.) resented public interference in the new arbitration treaty, and a letter was presented from Mr. Rodriguez, the minister of the "Greater Republic of Central America," protesting against the Nicaragua canal bill.

Washington, Jan. 25. — Bills were passed in the senate on Saturday for a statue of President Lincoln at Gettysburg, Pa.; to reclassify the railway postal service, and the house bill to prohibit the sale of intoxicating drinks to Indians. A resolution was agreed to asking the president for all correspondence on the Nicaraguan canal since 1887.

Washington, Jan. 26.—In the senate yesterday Senator Turpie (Ind.) characterized Capt. Gen. Weyler as the Herod of Havana, the murderer of women and children, and as an "indescribably diminutive reptile." A bill was introduced to prevent the punishment of persons in the United States who may aid the Cuban insurgents. Memorials were presented from the presidential electors of Delaware, asking for a congressional investigation of alleged fraud and political irregularities in that state. Eulogies on the late ex-Speaker Charles F. Crisp were delivered.

Washington, Jan. 27.—Cuba, the proposed international monetary conference and the Nicaragua canal each came in for a share of attention in the senate yesterday, and the measures were discussed at length.

The House.

Washington, Jan. 21.—In the house yesterday the conference report on the army appropriation bill was agreed to. The Post-Tucker contested election case from the Tenth Virginia district was debated, but no action was taken.

Washington, Jan. 22.—The contested election case of Yost versus Tucker, from the Tenth Virginia district, was decided in the house yesterday in favor of Tucker. A bill was introduced embodying the recommendations made by the national irrigation congress, recently held at Phoenix, A. T.

Washington, Jan. 23.—In the house yesterday private bills occupied the entire day, and at the evening session several pension bills were passed.

Washington, Jan. 26.—The Indian appropriation bill ($7,525,791) was considered in the house yesterday, and the conference report on the immigration bill was presented. The consular and diplomatic bill ($1,651,808) was reported, and Mr. Johnston (Ind.) read a speech in favor of an early reform of our banking and currency laws.

Washington, Jan. 27.—In the house yesterday the time was devoted to a continuation of the debate on the Indian appropriation bill. A bill to restore Jonathan Scott, a veteran of the Fifth Iowa cavalry, to the pension roll was passed over the president's veto.

Laid to Rest at Louisville.

Louisville, Ky., Jan. 27.—The funeral services over the remains of Albert S. Willis, late minister to Hawaii, were held Tuesday morning at the First Christian church, and the greatest simplicity characterized every detail. Rev. R. L. Powell, of the church named, and Rev. Reverdy Estelle, of St. Paul's Episcopal church, conducted the services. The burial, at the request of Mrs. Willis, was private.

Want Equal Rights.

Chicago, Jan. 27. Articles of incorporation were granted Tuesday at Springfield by the secretary of state to the Chinese Equal Rights League of America. The society is to be organized for the purpose of urging a law to confer citizenship rights on Chinese. About 200 American Chinamen have already signed the roll of the organization.

Suddenly Called.

Milwaukee, Jan. 26.—George Koeppen, aged 64, editor-in-chief of the German newspaper Germania, died last night at 10:30 at the rooms of the German club, where he attended a meeting as president of the same. Mr. Koeppen, who had been suffering from heart disease for some time, died of heart failure.

An Educator Honored.

Hartford, Conn., Jan. 25.—Educators from every section of the country met in this city yesterday to participate in the celebration of the 87th anniversary of the birthday of Dr. Henry Barnard, "the father of education in the United States."

ROYAL

The absolutely pure

BAKING POWDER

ROYAL—the most celebrated of all the baking powders in the world—celebrated for its great leavening strength and purity. It makes your cakes, biscuit, bread, etc., healthful, it assures you against alum and all forms of adulteration that go with the cheap brands.

ROYAL BAKING POWDER CO., NEW YORK.

Clinton Column.

Fred Tag, Jr., was home from Adrian over Sunday.

Miss Blanche DePuy is visiting friends at Grass Lake.

Miss Minnie McAdam was home from Manchester over Sunday.

Presiding Elder L. P. Davis, of Detroit, was in town Saturday.

George A. Kies was at home from Saturday until Tuesday.

C. S. Burroughs was in Detroit a few days the fore part of the week.

W. R. Amspoker and wife were guests at his brother John's Saturday.

George DePuy attended grand lodge at Saginaw the first of the week.

W. A. Kimball returned Wednesday afternoon from a week's visit at Leoni.

Charles DuBois, shipped several cars of baled hay from here the last of the week.

David Woodward and wife visited Frank and family at Hudson from Friday until Monday.

Mrs. E R. Smith has been entertaining a cousin, Mrs E. C. Squier, of Detroit, for the past few days.

A party consisting of eight young people of our high school enjoyed a sleighride to Tecumseh Tuesday night.

Mrs. L. W. Kimball very pleasantly entertained a few of her immediate neighbors at tea last Thursday afternoon.

The woman's missionary society of the Congregational church will meet at the home of Mrs. James B. Hause Friday at one o'clock.

Rev. A. J. Hutchins, who had been at Brooklyn during the past week assisting in revival meetings, returned home Saturday afternoon.

Mrs. Voorhees returned to her home at Pontiac Friday, after a visit of six weeks at the home of her daughter, Mrs. D. H. Ramsdell.

Mrs. G. Roscoe Swift and children returned to their home at Adrian Friday after spending a few days at the home of George Freese and wife.

Tate & Stoner shipped three cars of stock, consisting of sheep and cattle, to Buffalo. S. Tate and John Palmer went with them and returned Tuesday.

Mrs. Jane McCook died Sunday night at her home east of town, after a short illness. The funeral was held Wednesday at eleven o'clock, at the house.

Miss Lizzie Tate went to Hillsdale Wednesday to spend a few days with relatives. She expects to visit friends at North Adams also before her return.

Mrs. Unrhu, state national organizer, and Mrs. Humphrey, of Adrian, county organizer of the W. C. T. U., were in town over Sunday and gave talks at the different church services during the day concerning the work of the society. Sunday evening they succeeded in organizing a union with about 20 members.

Mr. James Bussard writes from Sharpsburg, Md., as follows: "I had neuralgia in my head and jaws, and could get nothing to relieve me until I tried Lightning Hot Drops, which gave relief inside of thirty minutes, and I have not had it since. It is the best medicine I ever saw to relieve any pain. It will do more than is claimed for it.

Mr. W R. Shimfessel, of Clay City, Powell Co., Ky., writes: "Lightning Hot Drops is a grand remedy for a bad cold. After taking only one dose before retiring it broke up a bad cold which had annoyed me for several days."

Mr. Samuel Niswanger, of Armington, Ill., writes, "This is to certify that I have used Lightning Cough Drops for the last year. I don't think I would be alive today, only for this medicine. I am in my 87th year. I recommend Lightning Hot Drops to all who have a cough."

Two traveling men lost their lives in a hotel fire at Fort Smith, Ark.

Foley's Honey and Tar

Cough Syrup wherever introduced is considered the most pleasant and effective remedy for all throat and lung complaints. It is the only prominent cough medicine that contains no opiates and can safely be given to children. Orr & Temple.

Health and strength carry us through dangers and make us safe in the presence of peril. A perfectly strong man with rich, pure blood, has nothing to fear from germs. He may breathe in the bacill of consumption with impunity. If there is a weak spot where the germs may find an entrance to the tissues, then the trouble begins. Disease germs propagate with lightning-like rapidity. Once in the blood, the only way to get rid of them is to kill them. this is what Dr. Pierce's Golden Medical Discovery is for. It purifies the blood. That means it kills the germs, but that is only part of what it does. It assists digestion by stimulating the secretion of digestive fluids, so promoting assimilation and nutrition; purifies and enriches the blood and so supplies the tissues with the food they need. It builds up strong, healthy flesh and puts the whole body into a disease-resisting state.

Send 21 one-cent stamps to cover cost of mailing only, and get his great book The People's Common Sense Medical Adviser, absolutely free. Address, World's Dispensary Medical Association, No. 663 Main Street, Buffalo, N. Y.

Congressman-elect R. E. Burke and J. M. O'Neall pummeled one another in the street at Dallas, Tex.

W. A. Harris was elected Senator from Kansas to succeed Peffer.

We know of but one community in the world where dyspepsia is practically unknown, and that is the Shakers of Mount Lebanon, N. Y. These good people have been studying the subject of digestion for more than a hundred years, and that they understand it pretty thoroughly, is evident in the foregoing fact. Their Digestive Cordial is the safest and best remedy in cases of indigestion that we know of. A trial bottle can be had through your druggists for the trifling sum of 10 cents.

The Shaker Digestive Cordial supplies the system with food already digested, and at the same time aids the digestion of other foods. It will almost instantly relieve the ordinary symptoms of indigestion, and no sufferer need to be told what these are.

Laxol is the best medicine for children. Doctors recommend it in place of Castor Oil.

The State Federation of Labor urged the adoption of a bill to suppress the sweat-shop system.

A Word or Two

to sufferers from catarrh will not be amiss if a cure can be offered. Ely's Cream Balm has become a favorite in all sections of the United States. Your cold in the head will be quickly relieved by it, and the severest attack of catarrh will yield to, and be perfectly cured by a thorough treatment. Catarrh is not a blood disease, but an inflammation of the passages of the nose and throat, due to climatic changes.

An ice bridge formed yesterday over Niagara Falls.

Hives are not dangerous to life, but they are a prolific breeder of misery and profanity. Doan's Ointment gives instant relief, even in the worst cases of this and other exasperating diseases of the skin.

Have You Read The Philadelphia Times This Morning.

THE TIMES is the most extensively circulated and widely read newspaper published in Pennsylvania. Its discussion of public men and public measures is in the interest of public integrity, honest government and prosperous industry, and it knows no party or personal allegiance in treating public issues. In the broadest and best sense a family and general newspaper.

THE TIMES aims to have the largest circulation by deserving it, and claims that it is unsurpassed in all the essentials of a great metropolitan newspaper. Specimen copies of any edition will be sent free to anyone sending their address.

TERMS—DAILY, $3.00 per annum; $1.00 for four months; 30 cents per month; delivered by carriers for 6 cents per week. SUNDAY EDITION, 32 large, handsome pages—224 columns, elegantly illustrated, beautiful colored supplement, $2.00 per annum; 5 cents per copy. Daily and Sunday, $5.00 per annum; 50 cents per month.

THE TIMES, Philadelphia.

CAPITAL GOSSIP.

Senate Antagonizes Some of Gov. Pingree's Appointments.

Josiah E. Just, of Ionia, Made Commissioner of Banking—Senators Depart on a Junket—Some Important Legislation Proposed.

[Special Correspondence.]

Lansing, Jan. 25.—The apparant hostility between the senate and Gov. Pingree cropped out upon the presentation to that body of a batch of nominations last week. There was no opposition to the confirmation of the appointment of Elliott O. Grosvenor, of Monroe, as dairy and food commissioner, but the nominations of J. B. Caswell, of Bay City, as salt inspector, and William Hartsuff, of Port Huron, as inspector general, were sent to a committee which cannot report until February 2. It is doubtful if Caswell will be confirmed. Members of the State Salt association allege that he is wholly without expert knowledge of salt and its manufacture. Gen. Hartsuff, who was once collector of customs at Port Huron, has been one of the leaders of the factional fight which has disrupted St. Clair county republicans for years and his nomination did not please some of the senators.

The railroad corporations now pay Michigan specific taxes aggregating some $800,000 annually. The tax is based on the gross earnings in Michigan, the rate being two per cent. on gross earnings of less than $2,000; 2½ per cent. on earnings of from $2,000 to $6,000; 3½ per cent. on from $6,000 to $8,000, and four per cent. on all in excess of $8,000. This yields the state an annual revenue averaging $800,000. By a bill introduced last week it is proposed to increase this revenue at least $125,000 annually, by making a general increase of one-half of one per cent. in the above rates of taxation.

The Pingree two-cent passenger fare bills will shortly make their appearance, as will bills to repeal the special charters of the Michigan Central and Lake Shore roads and bring them under the general railroad law.

The uniform text book bill is likely to be one of the most important of the session. It makes the state board of education a board of commissioners to procure the compilation and make a selection of books for use in the primary and common schools, to be nonpartisan and nonsectarian, and in size and quality equal to the standard books now in use. The board is authorized to advertise for the period of three weeks in New York, Philadelphia, Chicago, Cincinnati and St. Louis newspapers for sealed proposals for furnishing the books when selected. The selling price is to be named in the contract for each text book, and will include a retail dealers' profit of not exceeding 20 per cent. One thousand dollars is appropriated for the purpose of putting the system in operation, and 2,000 copies of the bill were ordered printed.

The senate excused all members of committees on state institutions from attendance this week. As these members constitute a majority of the senate, that body can transact no business this week, the minority merely adjourning from day to day. This is the result of the deadlock between the two houses over the proposed ten days' adjournment, commencing last Friday. The house will continue in session. The senators are on the upper peninsula junketing trip.

A plan for increasing the revenue of the state is being devised, and will take the shape of a bill to provide a stamp tax of 50 cents a barrel on beer. By this means an annual revenue of nearly $500,000 will be secured.

Attorney-General Maynard is preparing a bill to make directors and officers of insolvent banks liable for the full amount of the debts, and to make the fact of insolvency prima-facie evidence of felony on the part of such directors and officials.

Another bill to be introduced will require every taxpayer to furnish the assessor a statement on oath covering every item of taxable property owned by him, and also the fact that he has put none of his property out of his hands or covered it up for the purpose of avoiding taxation. A term in state prison will be the penalty for falsifying as to any detail of the statement.

The senate and house disagree as to the time for final adjournment, the house having killed the senate resolution setting the time for April 23.

Senator Robinson has introduced a joint resolution providing for the submission to the people of a constitutional amendment prohibiting the acceptance of a free pass by a member of the legislature, and making it a misdemeanor to offer one to a public official. The resolution concludes with the provision that the proposed amendment shall be submitted to the people in the election to be held on the first Monday in April next.

Senator Westcott, of St. Clair, who has introduced a bill to repeal the mortgage tax law, thinks the law comes far from accomplishing the object desired. He says the tax, instead of falling on the capitalist, falls on the poor lender, and that it drives capital out of the state.

Representative Moore has given notice that he will introduce a bill in the interests of servant girls, among other things providing that no servant girl shall be discharged without one week's notice.

The compulsory education law provides that children in cities must go to school until 16 years of age. Representative Donovan has introduced a bill to exempt children between 14 and 16 from this provision, in the discretion of the school board at the recommendation of the superintendent.

The nomination of Josiah E. Just, of Ionia, for commissioner of banking for the term commencing April 1 was sent to the senate Thursday and confirmed by unanimous vote.

An admirer of Gov. Pingree has introduced a bill in the senate to create the county of Pingree from a portion of territory now in Ontonagon county.

The only measures which have as yet received consideration in either branch of the legislature were local acts.

One of the most important bills presented to the senate is based upon one of the points strongly urged by the governor in his message—an anti-stock-watering measure. It provides a penalty of a fine of $5,000 or six months' imprisonment for any officer or agent of a corporation guilty of issuing stock not fully paid up, or of issuing bonds except at their par value. The issuing of bonds before the stock subscribed is fully paid up is also prohibited, as is the issuing of bonds for an amount greater than the paid-up stock.

At the session Monday the senate had but two senators present, and Lieut. Gov. Dunstan in the chair. The secretary announced "no quorum," and an adjournment was taken until the regular hour to-day, when the same action will be taken and continued from day to day through the week.

At a special session Tuesday evening the house by a unanimous vote adopted resolutions favoring the recognition of Cuba. Speeches supporting the resolutions were made by several prominent members.

Among the important bills introduced in the house Tuesday was one by Representative January to amend the banking laws so that state banks can make no regulation that will place savings depositors on a different footing from commercial depositors. At present if the name of a commercial depositor is forged to a check and the money obtained thereon the bank loses, but if the book of a savings depositor is stolen and the thief by presenting it and forging the owner's name receives the deposit the latter is the loser. The bill also provides that interest shall be paid on savings deposited from the date of the deposit, thus doing away with the rule that deposits made after the fifth day of any month shall not commence to draw interest until the first day of the month following. Finally, stockholders are made liable for all the indebtedness the same as copartners.

Among the important bills introduced last week are the following:

To make the uniform liquor tax $750, an increase of $250 a year; for the introduction of fans and blowers in shops for the protection of workmen; making an appropriation of $176,000 for the soldiers' home; a physicians' and surgeons' registration bill; establishing permanent quarters for the Michigan G. A. R. in the capitol building; reducing the legal rate of interest to five per cent., and limiting it to seven per cent. by contract; appropriating $10,000 for establishing a home for adult blind; providing death by electrocution for murder in the first degree; a home rule bill for cities; changing the minimum age at which girls may marry with the consent of their parents from 14 to 16 years; providing for the analysis at the Michigan university of the drinking water of all municipalities maintaining a waterworks system; for the treatment of deformities of the children of indigent parents at the same institution free of charge; appropriating $22,000 for support of state agricultural colleges; and requiring railroad companies to furnish transportation free to the commissioner of railroads and his appointees; to cut the salaries of the justices of the supreme court from $7,000 to $5,000 a year; to effectually abolish trusts.

EMMETT.

CARS COLLIDE.

Disaster in Grand Rapids Causes a Death.

Grand Rapids, Jan. 24.—A disastrous collision occurred between a car loaded with coal and a trolley car on the North Park line near the Michigan soldiers' home at six o'clock Saturday evening. Motorman John Hake was killed and Conductor Frank McAlvey was badly injured. The car was full of passengers and several of them were badly bruised. The most seriously injured are James Ross, hip badly smashed, and James Thompson, cut about head with broken glass. The coal had been taken to the home, two miles north of the city, with a switching motor. When uncoupled the brake was found to be broken and the car ran down the grade until it met the trolley.

VOTE AGAINST FUSION.

Resolution Adopted by Michigan Prohibition Convention.

Detroit, Jan., 25.—After a lengthy discussion the state prohibition convention Friday afternoon declared itself as opposed to any negotiations toward a fusion with the national prohibitionists, who seceded last summer at Pittsburgh. The resolution against fusion was framed by Prof. Samuel Dickie, of Albion, chairman of the national committee, and Rev. John Russell, who is known as the father of the prohibition party. The platform reiterates the Pittsburgh platform, and asserts that features of the straight-out party's platform need not debar the nationalists from returning to their former allegiance. In conclusion, it points out the difficulties and danger of fusion.

Council Favors Pingree.

Detroit, Jan. 27.—The city council Tuesday night unanimously adopted the report of the committee on judiciary, which recommended denying the petition of D. W. Moreland, commissioner of public works. Moreland petitioned the council to order a special election for mayor, and thereby declare that Mayor Pingree could not hold the offices of both governor and mayor. The question will be taken to the courts by Moreland's attorney, Fred A. Baker, who is chairman of the democratic state committee.

A Valuable Gift.

Ann Arbor, Jan. 27.—Senator McMillan has added to the Shakespeare library, founded by him in 1882, an excellent copy of the third folio edition of the plays (London, 1664). This last copy is even more rare than his previous gifts. The McMillan Shakespeare library now contains all the four folios except the first, and of this the university has Staunton's excellent photo-lithographic facsimile.

Killed by a Falling Limb.

Decatur, Jan. 22.—While chopping in the woods Clayton Tittle was killed by a falling limb striking him on the head.

The Dietetic and Hygienic Gazette

For July, 1896, says:

"WALTER BAKER & COMPANY, of Dorchester, Mass., have given years of study to the skillful preparation of cocoa and chocolate, and have devised machinery and systems peculiar to their methods of treatment, whereby the purity, palatability, and highest nutrient characteristics are retained. Their preparations are known the world over, and have received the highest indorsements from the medical practitioner, the nurse, and the intelligent housekeeper and caterer."

Consumers should ask for and be sure that they get the genuine goods, made at DORCHESTER, MASS.

BRITTON.

Rev. C. I. Deyo paid Tecumseh a visit Saturday.

Will R. Osgood was sick the first of the week.

C. H. Goodrich made another trip to Sandee Tuesday.

Mrs. O. B. Lenardson, is assisting in the store a part of the time.

Mrs. George Gripton has been having a severe attack of quinsy this week.

Mrs. Ward's son, Maynard, has been numbered among the sick this week.

Little Glen Osgood has been having a mild form of scarlet fever this week.

George Sanscrant, who was on the sick list the last of the week, is out again.

Mr. and Mrs. Charles Brown were both on the sick list the first of the week.

Miss Nettie Cannon, of Tecumseh, visited her friends here the first of the week.

Charles Gorham and wife visited friends at Raisinville Saturday and Sunday.

Joseph Thackery is slowly recovering from his severe illness and is able to be around the house.

Walter Gripton left Monday morning for Central City, Colorado, where he expects to remain some time.

Mrs. Gardner, of Lawton, arrived Thursday last for an indefinite visit with her daughter, Mrs. Deyo.

James Haight was taken with the grip Saturday and for three days was confined to his bed. He is around again.

The Christian Endeavor society of the reformed church is preparing for an entertainment to be given in the near future.

In nearly every household some member of the family is having either the grip, hard colds, tonsilitis or kindred troubles.

Miss Libbie Walp, we are informed, has joined the Paul Harland Theatrical company and will endeavor to win honors on the stage.

Will Osgood has a thermometer which puts to shame all the rest in town. Just think of it! Monday morning it showed 28 below zero.

Mrs. Wm. Prindel, who recently underwent an operation at Tecumseh, returned home last Friday and is making speedy recovery.

Art Hughes, who was entertaining the grip last week, has dissolved the bond that connected them and is attending to business again.

Henry Freidenstein and family, who have been living near Adrian, are once more citizens of Britton and occupy their own home again.

The cold wave the first of the week worked destruction to the house plants of this village, most of our good housewives losing nearly their entire collection.

C. L. Kishpaugh was in Detroit Monday on business. He returned on the early morning train Tuesday—two o'clock—and can tell you exactly how cold it was.

Judging from the quanty of wall paper O. B. Lenardson received Monday, we would suppose he expected to supply all Lenawee county and that every house was to berepapered this spring.

Henry Bordeau, of Jackson, representing the Champion Binder Company, was in town Tuesday and before leaving arranged with Francis L. Yates & Co. to act as their agents here. Certainly they could not have found more efficient representatives.

Wednesday while on her way to school, a little daughter of Mrs. Eb. Price was overcome with the cold and would not some one coming along rendered her assistance, the chances are she would have perished. As it was she was but slightly affected.

Paul Harland, with his company termed the Criterion, have been stopping at the Evelbr house the past week. They played at Holloway Saturday night and last night. Tonight and tomorrow night they occupy the boards here.

Mrs. E. W. Lenardson and little Nina left Thursday for their new home in Blissfield. Earl went up to Tecumseh Friday to ride the masonic goat and remained over night and joined his family Saturday morning.

The ladies' aid society of the Christian church will hold their next regular meeting in the church parlors Wednesday afternoon, February 3rd. Mrs. O. B. Lenardson's committee will serve tea. A general invitation is extended all to be present.

We would suggest to our young men musicians that when they start out to assist in an entertainment it would be well to have their music and their racks fastened to their persons as at such times they are very necessary and their absence may cause them to think swear words they do not do so audibly and besides is embarassing.

C. R. Maybee is not only a skilled pharmacist but an expert at pumping water as well. In fact he dotes on it and improves every opportunity to keep himself in practice. He recently, while indulging this hobby of his filled the water tank at the hotel and would no doubt have flooded the entire house had Miss Libbie called a halt and invited him to fill his pail and extended thanks for his neighborly act.

The ice took agent was in town this week placing orders for Wm. J. Bryan's book and of course did a flourishing business. It is a matter of course George Exelby was the first to subscribe and he took the finest binding. Nothing is too good for George when Bryan is considered. Right you are George; he is worthy of our confidence and admiration. He is both great and good.

Miss Bertha Britton has been having a serious time with quinsy this week.

It must have been an awful blow that left that mark on Will Clark's cheek. Who would have thought such a thing possible!

It will not be long now before this community will be in the midst of corporation caucuses and wire pulling in favor of candidates.

Wonder if Lawrence Brown will figure for water commissioner at the coming election. He will require great physical endurance to undergo so soon again the strain incident to the race.

John Britton, fired with a desire to make himself useful, was assisting the ladies in washing Monday, his little granddaughter in a high chair near by. In attempting to empty a tub to which was attached the wringer, not noticing the child hadhold of it, she was thrown faced ownwards to the floor, cutting her lip badly from which the blood flowed copiously. It broke John up completely and you could have knocked him down with a feather. Fortunately the little one was not seriously hurt and the washing went on.

Walter Mest, who travels for the Jackson Cracker Co. and makes this town at stated times, is driven over from Clinton, via Macon and Ridgeway. John Ed. Keyes brought him over Tuesday, and as they were coming into town gave the road to a man with a load of wood who, as they came opposite him, thoughtlessly raised an umbrella which startled the team John Ed. was driving. They jumped sideways, the cutter struck a deep rut and over they went in the snow. Fortunately no damage was done as Ed had the team well in hand and checked them at once. The little tip-over caused a ripple of excitement, the first since the corporation election fizzle.

RIDGEWAY.

John Boyd is under the doctor's care.

Orange blossoms are reported for next week.

Presiding Elder Davis occupied the pulpit Sunday evening.

Sixteen below zero was the record here Monday morning.

Go to Ed. Smith's for corn poppers.

Mrs. R. S. Houseman and son George were in Ypsilanti Saturday.

S. H. and W. B. Linn were in Adrian on business Thursday of last week.

Julia Reaves, from near Cone, is visiting Mrs. R. S. Houseman.

Laurence Rappleye visited Arthur Palmer at Adrian Saturday and Sunday.

George Clark visited his uncle, Henry Barneby, at Toledo Friday and Saturday.

For good and pure buckwheat flour go to Ed. Smith's and buy the Hudson make.

Mr. and Mrs. W. E. Barrett, of Toledo, visited relatives here a part of last week.

Mrs. Kniffin, of Britton, visited her daughter, Mrs. S. P. Smith, a part of last week.

B. F. DePuy and cousin, Rev. Wellington DePuy, are in Hillsdale visiting friends this week.

Mrs. Susan Clark, who has been under the doctor's care for the past two weeks, is still quite sick.

Several Clinton relatives were called here Friday to attend the funeral of Mrs. Philip Sisson.

A large delegation from here attended the farmers' club held at B. F. DePuy's Friday night.

Bessie Barrett went to Jackson Monday for an indefinite stay with her sister, Mrs Byron Beagle.

Mrs. D. W. Loree went to Jackson Wednesday evening to see Mrs. L. M. Palmer, who is quite poorly.

Mrs. Dwella Hodges and son Dale, of Jackson, visited Dr. D. W. Loree and family the first of the week.

Another car of soft coal just received at Ed. Smith's. Come while it is on the car and save the cost of cartage.

S. H. Linn sold his farm north of the village last week to Arthur Mapes, of Geneva, who will take possession in the spring.

Charles Riley, having purchased the property owned by A. Curry, moved his household effects to his new home Thursday.

Miss Gertrude Kniffin, of Britton, spent a few days last week with her cousin Mrs. Charles Staats, at the home of S. P. Smith.

There was a very good attendance at the donation last week for so stormy a night as it was. The amount received was nearly $55.

A large assortment of Gloves and Mittens at low prices at Ed. Smith's.

The subject of the discourse at the M. E. church next Sunday morning will be "The Modern Dancing Party from a Methodist Standpoint." Everybody welcome. Rev. H. Cansfield, Pastor.

The bulletin board suspended from the wire across the street in front of the postoffice announces the entertainments of the lecture course in their order, also their date. A change of announcement will follow each number as soon as it has appeared.

The next number on the Tecumseh star course—The Royal Hand Bell Ringers—will appear at Sutton's opera house Monday evening February 22nd. Single tickets may be had of J. D. Arner. All purchasers of tickets are entitled to a reserved seat which they can procure by calling on J. M. Smith, at the Tecumseh State Savings Bank. No time should be lost in securing tickets as there are only a few seats left to select from.

Mrs. Philip Sisson, who suffered for nearly a week from blood poison caused by running a sliver into one of the fingers of her right hand, died Wednesday evening of last week from a severe attack of pneumonia. Lydia G., daughter of William and Elmyra Suttin, was born in the township of Tecumseh August 15, 1840 and was united in marriage to Philip Sisson July 3, 1857. Eight children were born to them, four of whom—Mrs. Wm. Barrett, Mrs. Harry Campbell, Alonzo and Frank,—with the husband, survive her. The funeral services were held at the house Friday afternoon, Rev. James Wright officiating. The bereaved family have the sympathy of their neighbors and friends in this their sad hour.

Card of Thanks.

We wish to express our thanks to the friends and neighbors who so kindly assisted us during the sickness and at the death of our wife and mother.

PHILIP SISSON
AND FAMILY.

CONE.

Mrs. Eugene Ellis is quite sick.

John McFall, of Oakville, visited friends here last week.

Owen Curry was in Detroit last Friday and Saturday on business.

Charlie Dennison and Frank Gilmore were Britton visitors Tuesday.

Edward Allhouse has a brother from Pentecost, visiting him this week.

Tina Ellis and Uncle Frank Buck are visiting friends at Napoleon this week.

Aaron Auten, of Auburndale, was visiting friends here Saturday and Sunday.

About thirty teams are busily improving the sleighing by hauling logs, wood and stave bolts to the saw mills and coal kilns.

Have You a Cold?

If so, then, instead of taking so much quinine and other strong medicines, take a pleasant and mild stomach and bowel remedy, which will cleanse the system, and you will be surprised how quickly the cold will leave you. Dr. Caldwell's Syrup Pepsin will do this better than any other. Trial size 10c (10 doses 10c), larger sizes 50c and $1, at Orr & Temple's.

Collector Dowling finally vacated his office at Cincinnati, after removal by President Cleveland.

Bucklen's Arnica Salve.

The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns and all Skin Eruptions, and positively cures Piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box. For sale by Baker & Hall druggists.

Lieutenant Governor Northcutt, of Illinois, is suffering from the grip at his home at Greenville.

A Household Necessity.

Cascarets Candy Cathartic, the most wonderful medical discovery of the age, pleasant and refreshing to the taste, act gently and positively on kidneys, liver and bowels, cleansing the entire system, dispel colds, cure headache, fever, habitual constipation and billousness. Please buy and try a box of C. C. C. today; 10, 25, 50 cents. Sold and guaranteed to cure by all druggists.

The Nebraska House passed a bill repealing the law granting a bounty on beet sugar.

Don't Tobacco Spit and Smoke Your Life Away.

If you want to quit tobacco using easily and forever, be made well, strong, magnetic, full of new life and vigor, take No-To-Bac, the wonder-worker that makes weak men strong. Many gain ten pounds in ten days. Over 400,000 cured. Buy No-To-Bac from your own druggist, who will guarantee a cure. Booklet and sample mailed free. Ad. Sterling Remedy Co., Chicago or New York.

Resolutions attacking the arbitration treaty were introduced in the Illinois House.

In Olden Times

People overlooked the importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently overcome habitual constipation, well-informed people will not buy other laxatives, which act for a time, but finally injure the system.

Subscribing for Metropolitan Papers.

The coming year will be crowded with big news events and happening, the details of which everyone interested in national and foreign affairs will want to read. The best Western newspaper published is the Semi-Weekly Republic of St. Louis. It is only $1 a year, and for that amount it will send two papers a week to any address for one year.

The Republic daily is $6 a year, $3 for six months or $1.50 for three months.

CASCARETS stimulate liver, kidneys and bowels. Never sicken, weaken or gripe.

While a suspected fire-bug was on trial at Marshall, Ill., his house was burned down.

Pure blood and a good digestion are an insurance against disease and suffering. Burdock Blood Bitters keeps the blood pure, the digestion perfect.

Two prisoners jumped from a moving train near Windsor, Mo., and escaped.

A cough is a danger signal of worse troubles to come. Cure the cough and prevent its results by using Dr. Wood's Norway Pine Syrup.

Another Good Man Gone Wrong.

He failed to use Foley's Kidney Cure for his kidney complaint. Orr & Temple.

Hundreds of precious little ones owe their lives to Dr. Thomas' Eclectric Oil, the sovereign cure for croup and all other throat or lung diseases.

A Russellville, Ark., woman is laboring under the delusion that she is the Messiah.

Yes, 'tis true; Foley's Honey and Tar is the best Cough Medicine. Orr & Temple.

MACON.

Frank Morgan was home from Tecumseh Friday.

Wm. Hatch was home from Detroit over Sunday.

Miss Blanche Mills was home from Blissfield over Sunday.

Miss Inez Langan, from near Lapeer is visiting Macon friends.

Thomas Jacobus, who has been dangerously ill, is able to be out again.

The scarlet fever cases are gaining and there are no new cases at this writing.

Mrs. Lester Coller spent several days last week with Mrs. Sarah Biddle, in Saline.

Mr. and Mrs. John Koebbe went to Saline Sunday to attend the funeral of Miss Paulina Lutz.

A sleigh load of Tecumseh's young people spent Friday evening at the home of Charles Morgan.

The funeral of Mrs. David O'Riley was held in the Catholic church in Clinton last week Friday.

Joe Howell, accompanied by his cousin, Warren Webster, was home from Ann Arbor from Friday until Sunday.

The ladies' aid society of the Reformed church was held at the home of Mrs. Robert Harriott Wednesday of this week.

The Epworth League entertainment, which was booked for last Friday evening, has been postponed for an indefinite time.

The C. E. society will hold a necktie social in the old D. R. church Saturday evening of this week. Let all turn out and help in a good cause.

Miss Predemore, who has been visiting relatives and friends in this vicinity for the past two or three weeks, left Monday for her home in Chester, Pa.

Tonic for the E. L. meeting Sunday evening January 31st is "The Temporal Blessings which follow Christianity." Isa. 60: 17-22. Leader, Burt Osborne.

All who anticipate papering their homes this spring will do well to order their paper of W. S. Betser. He carries a fine line of samples and is sure to please.

Miss Paulina Lutz, who has been gradually wasting away with consumption, passed into the haven of rest Thursday morning. The funeral was held in Saline Sunday.

The fore part of last week Mrs. Mary Pennington, widow of Isaac Pennington, suffered a stroke of paralysis, and being near an open cellar door at the time, fell to the bottom of the stairs. She was unconscious when found and remained so until her death Monday evening. She leaves one daughter and a host of relatives and friends to mourn her sudden death. The funeral was held from her late residence Friday afternoon.

LAKE RIDGE.

Delayed Letter.

Mrs. Gertie Sisson, of South Macon, is quite sick.

David Boyd visited his mother in Ridgeway Saturday.

Eber Bradley, who has been in poor health for some time, is failing fast.

Fred Gordon of Elkhart, Ind., was visiting friends on the Ridge last week.

Owing to the inclemency of the weather there was no Sunday school last Sunday.

Darius Hendershot, of Tecumseh, was the guest of his brother Charles Tuesday of last week.

Rev. Mr. Baker, of Milan, and his estimable wife, were the guests of Mr. and Mrs. Charles Hendershot Tuesday.

Miss Ella Anderson, of Chicago, after a two months' visit with her sister, Mrs. Thomas Murphy, has gone to Tecumseh.

Meetings are still in progress in the East church conducted by Rev. Mr. Baker, of Milan, assisted by Church Austin and wife. Let the good work go on; it seems to be the wish of every person, as was expressed by a unanamous vote last Sunday evening.

T. Murphy went to Ypsilanti Saturday to see his son James.

Mrs. Martin Miller, of Gratiot county, is visiting Mr. and Mrs. Warren Miller.

Miss Metta Owens, of Tecumseh, was the guest of Miss Josie Hand over Sunday.

Owing to the zero weather there was a small attendance at the Sunday school last Sunday.

Miss Josie Hand visited her aunt Mrs. Hendershot, Thursday and Friday of last week.

Lonnie Miller's little son had the misfortune to fall and break his arm one day last week.

The thermometer registered 20 degrees below zero at some points on the Ridge Monday morning.

H. Hand and C. Hendershot, with their wives, attended the funeral of Mrs. P. Sisson, at Ridgeway, Friday.

Meetings are still in progress at the Free Methodist church and truly the car of salvation is passing that way.

Rev. Mr. Baker, pastor of the F. M. church, went to Oakville Saturday and in his absence Mrs. Saoddard filled the pulpit to the satisfaction of all. The church was packed to overflowing and good order prevailed.

S. F. Fritz, of 671 Sedgwick street, Chicago, says: "I had a severe cough which settled on my lungs. I tried a number of advertised remedies and also placed myself under treatment of several physicians, with no benefit. I was recommended to try Foley's Honey and Tar. With little expectation of getting relief, I purchased a bottle. I had taken but few doses when I felt greatly improved; I was enabled to sleep, spitting of blood ceased, and by the time I had taken the second bottle I was entirely well. It saved my life." Orr & Temple.

$100 Reward, $100.

The readers of this paper will be pleased to know that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c. June

Hall's family pills are the best.

Electric Bitters.

Electric Bitters is a medicine needed for any season, but perhaps more generally needed, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, indigestion, constipation, dizziness yield to Electric Bitters. 50c and $1 per bottle at Baker & Hall's drug store. 1

Stands at the Head.

Aug. J. Bogel, the leading druggist of Shreveport, La., says: "Dr. King's New Discovery is the only thing that cures my cough, and it is the best seller I have." J. F. Campbell, merchant, of Safford, Ariz., writes: "Dr. King's New Discovery is all that is claimed for it; it never fails, and is a sure cure for Consumption, Coughs and Colds. I cannot say enough for its merits." Dr. King's New Discovery for Consumption, Coughs and Cold is not an experiment. It has been tried for a quarter of a century, and today stands at the head. It never disappoints. Free trial bottles at Baker & Hall's Drug Store. 1

Mrs. Maggie Myers,

Williamsport, Ind., writes: "I suffered for months of severe stomach troubles, caused by indigestion and constipation. My trouble seemed almost unendurable. I purchased a bottle of Dr. Caldwell's Syrup Pepsin of Armstrong & Swank and as soon as I had taken its contents I was like a new person, and I now feel better and weigh more than I have in years." It is sold in 10c, 50c and $1.00 sizes at Orr & Temple.

Choosing a Husband.

George Eliot says in one of her novels, that almost any woman can marry any man she makes up her mind to. Whether this is truth or fiction, certainly a woman chooses her husband oftener than he knows it. But she must play the negative part. She can only make herself as attractive as possible in a modest, womanly way and rely upon human nature and manly instinct.

A sensible man naturally seeks a wholesome-looking, healthy, capable companion. Men are not unselfish enough to willingly assume the care of a weak, nervous, debilitated wife.

Men are not attracted by a sallow, pimply complexion, foul breath, or thin, emaciated form, because these symptoms are the sure index of poor digestion and impoverished blood.

A woman afflicted by these mortifying miseries should seek the powerful, purifying and nutrimental influence of Dr. Pierce's Golden Medical Discovery, which completely dispels all unwholesome appearances by clearing and renovating the organic sources of healthful vitality.

It helps the liver to filter all bilious impurities from the blood. It gives the digestive organs power to extract nourishment from the food. It rounds out thin forms; wipes away wrinkles, and gives to the complexion its natural clearness and bloom.

"Your 'Golden Medical Discovery' cured me of a severe case of poisoning of the blood," writes Mrs. Selia Rieca of Coast Santa Cruz Co. Cal. "Boils one after another would break out on my arms and were very painful. I have tried the loudly praised Sarsaparillas without any benefit whatever, and not until I took your 'Discovery' did I get well. That was two years ago, and I have not had a boil or sore of any kind since."

VIGOR OF MEN

Easily, Quickly, Permanently Restored.

Weakness, Nervousness, Debility, and all the train of evils from early errors or later excesses; the results of overwork, sickness, worry, etc. Full strength, development and tone given to every organ and portion of the body. Simple, natural methods. Immediate improvement seen. Failure impossible. 2,000 references. Book, explanation and proofs mailed (sealed) free.

LOOKING BACKWARD.

Look after the Back: A Fall, a Strain, a Constant Sitting or Stooping Position Brings Backache—Do You Know This Means the Kidneys are Affected!

How few people realize when their back begins to ache that it is a warning provided by nature to tell you that the kidneys are not working properly. You have a severe fall, you strain yourself lifting or perhaps you are compelled to maintain a sitting or stooping position for long intervals at a time, your back begins to ache, then your head, you become listless, tired and weary, but do you understand the real cause? We think not, else you would not use plasters and liniment on the back, which only relieve but do not reach the cause. If you would rid yourself of the pain and cure the root of the trouble, at the same time save many years of suffering and perhaps life itself, you will take a kidney remedy that has been tried and proven that it will cure.

Mr. John Robsoin of 661 Russell Street, Detroit, says: "As a result of exposure during the war I have suffered ever since with rheumatism and kidney trouble. Pains would start in my hip and go around to my back. Highly colored urine denoted kidney disorder. The pain in my back was often so bad I had to give up work until the severity of the attack passed away. I have used many liniments and other things, but received very little relief. Some time ago I started using Doan's Kidney Pills and they have worked a wonderful change in me. My back is all right now and I owe it all to the almost magical influence of Doan's Kidney Pills."

Mr. Robsoin was a member of the Fifty-first Illinoi. Regiment, which served through the war with honor and distinction. Doan's Kidney Pills are for sale by all dealers—price, 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, *Doan's*, and take no other.

TECUMSEH, MICH., JAN. 29, 1897

The saying "There are tricks in all trades except ours," is so old that everybody very well knows its meaning, and perhaps a little enlightenment about the newspaper business to newspaper readers would not be out of place. But few country newspapers are printed all at home. Firms who make this a business in Chicago, Cleveland and other large cities edit and print each week one whole side of a country weekly and ship by express to the publisher. The publisher unties his ready edited bundle, prints the other side and mails the paper to his subscribers. In Lenawee county there are only four newspapers that do not use patent insides, namely, Adrian Press, Adrian Times, Messenger and TECUMSEH HERALD. The latter paper is the only one sold for a dollar a year and between an all home printed paper and one that is half patent there is no comparison. In news printed the HERALD competes favorably with the other three papers named. In price it competes with those chaps who print only half their paper at home. An all home printed country newspaper costs at least twice as much each week to produce that a patent does. The HERALD is oblized to compete in price with the publisheas who buy "ready made" sheets. Would it not be well to remind the friends of the HERALD that their dollars for subscriptions right now would be mighty acceptable. The paid circulation of the HERALD now reaches over 1,200 nearly every subscriber of which owed a dollar January 1st and nobody needs these dollars worse than the printer.

Farmers' Social Club.

The next meeting of the club will be held at the home of Philip Kence, Tuesday evening, Feb. 9.

PROGRAM.

Roll call, quotation from either author named below.
Music—Mrs. Benedict.
Paper, Ella Wheeler Wilcox—Mrs. (Bowen.
Rec.—Edith Rector.
Paper, Owen Meredith—Ora Gillespie.
Reading from Owen Meredith's works (Ora Bowen.
Music.
Historical Questions.
Question for discussion, Resolved, That the tax laws of the state of Michigan are unjust and should be revised in the present administration—Led by O. P. Remington.

The T. and F. Farmer's Club.

The meeting of this club was held at the home of Albert C. Aylesworth Friday evening, Jan. 22nd. Although it was very cold and stormy a good crowd was present. A good time is reported by those present.

The next meeting will be held at the home of Geo. Swartz, Friday, Feb. 5th. The following program will be carried out:

Music—Lena VanValkenburg.
Rec.—Lulu Alesworth.
Reading—Will Wells.
Dec.—Will Hill.
Music—Mary Fisher.
Rec.—Ona White.
Chips—Mr. Hoag.
Rec.—Elsie Updike.
Charade—Mrs. Swartz.
Music—Mr. and Mrs. Poucher.
Question—"We recommend that all county officers be paid with a salary, fixed by the board of supervisors, and that all fees pertaining to said officers be put into the county treasury." Question opened by Wm. Waldron.

Farmers' Union.

The Farmer's Union will meet at the home of Mr. and Mrs. Thos. Welliver in Raisin, Friday evening, Feb. 5th. The following program will be given:

Music—Mary McIntyre.
Rec.—Mabel Hollister.
Dec.—Lawrence Boyd.
Reading—Mrs. J. B. Kennedy.
Music—Jared VanVleet.
Charade—Mrs. B. VanNess.
Paper—Mrs. B. I. Laing.
Dec.—W. F. Raymond.
Music—Nellie Wilson.
Question—"Resolved that our preachers have a greater influence over society than our teachers."—Affirmative: B. F. DePuy, Eldridge Lowe, Mabel Wood, Bertha Smeltzer. Negative: W. F. Raymond, Fern DePuy, Delia Wood, Rob Boyd.

WHEN bilious or costive, eat a Cascaret, candy cathartic, cure guaranteed. 10c, 15c.

Always in season, Hopkins' Steamed Hominy (Hulled Corn). Elegant lunch in milk. Quart 10 cents.

Foley's Honey and Tar

Cough Syrup wherever introduced is considered the most pleasant and effective remedy for all throat and lung complaints. It is the only prominent cough medicine that contains no opiates and can safely be given to children. Orr & Temple.

'ROUND ABOUT US.

Clippings and Condensations From our County Contemporaries.

The authorities of our neighboring village of Pioneer have passed a curfew law which prohibits children under sixteen years of age to be alone on the streets after half-past seven in winter and half-past eight in summer.—Hudson Post.

There is another man in town who thinks he has a right to a prize cake in regard to children's birthdays. That is Mr. Will Gafney. His first and second sons were born on the same day of the year, seven years apart. Also his first and second daughters were born on the same day of the year, three years apart.—Adrian Telegram.

John Kelsey is nursing some ugly bruises and cuts about the face and head. While going to Rome Center with a heavy wagon Wednesday he accidentally slipped and fell, one of the wheels passing over him with the above results. The details of all the accidents which Mr. K. has met with would fill a good sized booklet.—Addison Courier.

Fr. Nacy, of Hudson, recently brought his congregation to time in a novel manner. He read from the pulpit a list of all the members who ought to contribute and the amounts he expected from each. Those who were able to contribute and refused, be intimated, could hardly expect to enjoy the privileges of the church.—Adrian Times.

Metcalf & Co., an enterprising Adrian firm, are running some very attractive and up-to-date advertisements every day in the Adrian papers. The writer of the terse announcements evidently puts a great deal of thought into his ads., and the printer brings out his ideas very cleverly. Metcalf & Co. have evidently got the right idea about newspaper advertising, and we'll bet dollars to doughnuts that they never doubt whether it pays. "The Leader" company of Adrian, are also large and judicious advertisers, and their announcements are written and "set up" in a way that brings business.—Hudson Gazette.

Traveling Passenger Agent Will Brown, of Hudson, yesterday made a contract for the Lake Shore to take the Alger club of Detroit, to Washington for the inauguration ceremonies. The special train will leave on the night of March 2d and reach Washington at 5:30 the next afternoon. Persons wishing to go from this city or vicinity may take the 10:15 train to Toledo, and connect with the excursion special there at 11:10 on the night of departure. The fare for the round trip will be $14.50.—Adrian Times. Persons from any part of the county may "take" this excursion.

The other day Senators Jibb and Barnum called to see the governor. It was just a friendly call to pay their respects. That's what they thought, at least. Mr. Pingree conversed with them in his gentle, conciliatory fashion. That is, he jumped on the senate with both feet, cussed like a bewhiskered pirate and bankered to wash his feet in senatoaial blood. Kind friends removed them after the interview had terminated. Both were bordering on nervous prostration, and neither will pay any more respects to his excellency. Not if they know it.—Detroit News.

The complications which may arise out of the controversy as to the right of Mr. Pingree to hold the offices of mayor and governor are numerous. One of the latest has been suggested by the contention that the office of mayor is a state office, and that, therefore, Pingree cannot be governor, the constitution providing that no "person holding office under the United States, or this state, shall execute the office of governor." This being the case, the politicians are now speculating on the proposition that all votes cast for Pingree last November were void, and, therefore, Charles R. Sligh, the fusion candidate, is entitled to the office. Excellent lawyers are inclined to hold to this view of the matter and the possibility of affairs taking this sensational turn has caused quite a flurry among the politicians.—Adrian Telegram.

The following list of petit jurors to serve during the February term of the circuit court was drawn Saturday. They are summoned to appear on the second day of the term, the 9th:

Adrian city—
First ward—Gottlieb Gelenius.
Second ward—Lafayette Knowles.
Third Ward—John Edmonds.

An editorial which appeared in Tuesday's Daily Times (independent) of Ann Arbor is causing much talk, especially in university circles. It suggests in the strongest terms that the successors to the retiring regents, Levi L. Barbour, of Detroit, and W. J. Cocker, of Adrian, should be taken from the laboring classes of the state. The new regents should be chosen one from the extreme western part of the state and one from the upper peninsula, and both should be farmers or mechanics. This action, it is held, will result in bringing the laboring classes back to the support of the institution. The Times calls upon Washtenaw county's representative at Lansing, Hon. A. J. Sawyer, to bring the matter forward at once to the Republican councils. Regents Barbour and Cocker are spoken of as members of the aristocracy, too far separated from the great farming and laboring masses of the people of the state.—Morenci Observer.

Sunday in the World's Greatest City.

Like all who leave wife and dear ones and go into a far country, I have my moments of homesickness, and last night as I lay tossing about in my bed trying in vain to woo nature's sweet restorer of strength and beauty, I was suddenly made aware that I was not the only one awake at the hour of midnight, by a band of street carolsers, who came into the vicinity singing that beautiful hymn of Charles Wesley's, "Hark, the herald angels sing, Glory to the new born King," following it with "Way down upon the Swannee river," "Nearer my God to Thee," and, while listening to our national song, "America," I fell asleep, to be awakened at eight o'clock by Bishop Hartzell coming to my door. And as this has been an eventful day in my life, I will relate to you what I have seen. Our party, composed of Bishop Hartzell, Rev. and Mrs. Shannon, formerly of Denver, now of Cincinnati, (who are carrying out a course of study here and going no Oxford soon) and Prof. Campbor and wife, of Monrovia educational interests, and myself, attended morning service in London's great city temple, where we listened to a master sermon by the Rev. Dr. Parker, Congregationalist, the text of which was, "Prepare to meet thy God."

After the service, we returned to the hotel and enjoyed the privelege of a genuine English dinner, with its beef followed by the proverbial seven courses and coffee in the drawing room. After dinner we started immediately for Westminster Abbey, passing through the Strand and Piccadilla, and past old Trinity church, the oldest in London. On the way past the historic White Hall where Richard II was executed, past the Houses of Parliament to the Abbey, which today stands a grand pile of masonery, gray with the discoloration of its hundreds of years of time. When we arrived, the unreserved seats were full, and Dr. Shannon, who has been here some time, went in and informed one of the officials that the Bishop of Africa and a party of five were in the aisles and wished to get seats inside, and we were immediately conducted into the best part of the Abboy and given seats to enjoy the privilege of worship, which I considered a great thing. We sat facing the pulpit with the nave on our left and behind us in the rear was the famous pouts' corner. The sermon was very good indeed, but I think the divine made one misstatement, making the remark in connection with his sermon that "It will be a bad day for England when our home life is lost which seems to have been never known by our sister country across the sea." He evidently misunderstood the American idea of home life.

After the sermon we passed out into the nave of the church to the tomb of Livingstone, and as I gazed upon the slab that covers all that is left on earth of that great man, the responsibility of the great work left by him to be carried on by others, came to me with great force. The bishop made a short prayer and we passed out by the Court where in olden times a grave was always kept dug to remind the monks that all things end in death.

Again we returned to the hotel, coming back by Southampton street and Bloomsbury to Queen's square which is an open square in the locality where the nobility lived in the time of Queen Anne who have a statue erected in her honor. Burr's hotel, where we are stopping, faces this square. The house was built 300 years ago and is in a good state of preservation, and the furnishings are quaint and ancient. After lunch we proceeded to St. James' chapel in Southampton road. This is the largest mission in London, carrying on a great work and having a net-work of branches extending all over the city. It is held in what was formerly concert hall which holds 2500 people and every seat was occupied and many stood. The sermon was delivered with great force by Hugh Price Hughes, a Wesleyan Methodist of great reputation. His orchestra was composed of 70 instruments besides a large choir.

I cannot close this letter without mentioning my visit to John Wesley's church at city road, also his grave and the house where he lived. The church has been somewhat repaired and remodeled inside but there is the same old Spanish mahogany pulpit. The house contains the famous clock, teapot and many other things of interest. Altogether my stay in London, though short, has been very interesting. London is full of historic associations. Among others I have seen the famous red Lyons and Old Curiosity shop. But greater than all these is the British museum, a description of which I must defer until another time.

One of Tecumseh's sons,
DR. WALTER N. FOWLER.

One Fare for the Round Trip to Washington, D. C.

Account of the Presidential Inruguration ceremonies at Washington, D. C., March 4th, the Cincinnati, Jackson & Mackinaw R'y will sell round trip excursion tickets on March 1st, 2nd and 3rd, good returning not later than March 8th, at the rate of one lowest first class fare for the round trip.

Direct connections via Cincinnati and the C. & O. R'y. For time of trains, rates etc., call on C., J. & M. R'y agents.

T. C. M. SCHEUDLER, G. P. A.

1 29-4

Two traveling men lost their lives in a hotel fire at Fort Smith, Ark.

High School Happenings.

Bessie Bates, after a week's illness, is out again.

Eloise Waring called on the A room Thursday forenoon.

Willie Riley is an absentee from the nineth grade this week.

Clarence Jackson was absent from his place in the A room Wednesday.

John Snow is absent from the eighth grade this week on account of the death of his sister.

The Misses Mertie Macham and Hattie Tennant visited the various high school rooms Tuesday forenoon.

Everybody is busy with finals. On account of the large number of examinations one or two have been deferred.

The seventh grade grammar class have finished Hyde's grammar and take up Reed & Kellogg for the rest of the year.

German II are finishing Wilhelm Tell and having sketches from Schiller's life, works, etc. this week. Some of the papers given are very interesting.

A report has been circulated doing great injustice to George Houseman, of Ridgeway, who left our high school lately to begin a course in the business college at Ypsilanti. George was one of our hardest workers, always attentive to his work and left school for the reason stated and not because he was to go. He has our best wishes in his new field.

LITERARY NOTES.

Harper's Weekly for January 30th will contain an elaborately illustrated article on New York's new plan for rapid transit. The front page of the same number will be a drawing by W. A. Rogers of the signing of the Treaty of Peace between Great Britian and the United States.

* * *

The January number of the Photographic Times, New York, is a work in every detail. Beautiful half-tones, a carbon specimen, tri-colored covers and the whole work a novel of typographical skill. The contents are beyond our space to particularize but of great interest to all photographic people.

* * *

The February Chautauquan presents for the introductory paper "Masterpieces of French Painting," by Horace Townsend, with excellent reproductions of some of the most famous French paintings. The variety and merit of the other articles testify more than ever to the rank of this magazine as a standard for home reading.

* * *

Senator David B. Hill has written an able paper for the February number of The Forum on the "Future of the Democratic Organization." "The Present and Future Cuba" is the title of an interesting and important article that will appear in the February Forum from the pen of Mr. Fidel D. Pierra, chairman of the Cuban Press Delegation. It is an able and impartial account of the progress and present condition of the Cuban revolution. The Hon. William Woodville Rockhill, Assistant Secretary of State, has contributed a timely article to the February number of The Forum reviewing the steps that have been taken toward reforming our Consular System, and pointing out many evils yet to be remedied before the service can reach its highest efficiency.

Opera house, Monday evening.

Dr. North was in Toledo yesterday.

Miss Alice Gaston is out of school this week on account of sickness.

Lincoln J. Carter's "Fast Mail" at the opera house Monday, Feb. 1st.

Orrin Finch immersed his horses in the Raisin mill pond this morning.

Don't forget the date of "Female Masonry", Feb. 9th. Every one come.

Nate Schmid, of Manchester, was here Wednesday, performing his official duties.

Adamson Bros. have been taking an inventory this week. Alfred James assisting.

Company C will elect a first lieutenant at their meeting next Tuesday evening.

Clyde Heck being under the weather today, Tom Owens is taking his place delivering groceries for R. S. Moore.

Carl Updyke, the Herald devil, was confined to the house Monday and Tuesday with a severe cold and sore throat.

Buy a Carpet while cheap at Anderson & Rosacrans'.

Wednesday twenty from the Universalist society drove out and spent the evening with Homer Bickford's family. They passed a delightful evening.

Hugh Campbell and E. J. Shepherd, two of Adrian's able alderman, were calling on friends Tuesday. Hugh is recovering slowly from his late serious injury.

"Female Masonry" will divulge all secrets of Masonry.

If you ever want a cutter, now is the time to buy it. C. A. Slayton has just bought a few $30.00 cutters where they had to be sold for $19.00. Come quick if you want one.

Geo. Rubadeaux had an engagement that called him to Britton Tuesday evening. He kept it despite the severity of the weather. George does not stop for trifles.

Actor Bishop and the young girl, Mabel Stanton, with whom he eloped a short time since, were this morning brought back to Adrian by Sheriff Furgeson on train 15.

Last evening a company of seventeen of the young people of the Baptist society gave Grant Tomms a surprise at the home of Mrs. Lester in Raisin that was a success from start to finish.

The next number on the Star Course will be the Royal Hand Bell Ringers Feb. 22. This company comes the best recommended of any yet on the list and the entertainment will certainly be pleasing in every way. Those who have not season tickets would do well to procure their seats early.

Cloak sale in full force at Anderson & Rosacrans'.

Lincoln J. Carter, the young Chicagoan, author of the melodrama, "The Fast Mail," is a remarkable young fellow, on the Da Vinci pattern, in variety of accomplishment. He wrote his own play—and it's a good one of its class—he acts a principal part and does it well, he paints all his own scenery, constructs all his elaborate mechanical effects, and designs all the pictorial work used for advertising "The Fast Mail." Truly a bright young fellow, who creates his own career without trampling over anybody else. Opera house, Feb. 1.

Club hop at the armory this evening.

Newbold Satterthwaite is at the bicycle show in Chicago this week.

Robert Metz sold his stock and fixtures to Robert S. Moore the last of the week.

Mrs. N. M. Sutton left Saturday afternoon for a visit with her daughters in Detroit.

Miss Agnes Kehoe is making a four weeks' visit in Saginaw with her sister, Mrs. J. F. Rose.

Captain Chilson has been quite under the weather since he and his wife returned from their Ohio trip.

Subject at the Baptist church Sunday morning: "Fresh Water from Deep Wells." Children's choir in the evening.

Collector Geo. Marsden has extended the time for paying taxes without the extra per cent. to Feb. 10. All should make an effort to pay them.

Mrs. C. M. Woodward and daughter Agnes went to Detroit Saturday where they will make their home and are located at 275 Lincoln avenue.

It seems good to see Mrs. Emma Vedder at the store attending to the wants of her customers again after her illness which confined her to the house for some weeks.

David Stevenson, who has been on the old Rector farm for some time past, will the coming season work John Clarkson's farm and expects to move about April 1st.

Miss Florence Huey has been suffering from a throat trouble and for several days the past week she was unable to speak above a whisper which to her was a great calamity.

Secure seats at once for the "Fast Mail" at the opera house Monday evening, Feb 1.

J. W. Helme, Jr., of Adrian, will read a paper—the subject, "The Jersey as a Necessary Adjunct to the Dairy"—at the Michigan State Dairymen's Association to be held at Charlotte, Mich., Feb. 2nd, 3rd and 4th.

Will F. McGlashan, who has been assisting Mrs. Woodward since the doctor's death in settling the accounts, left the first of the week for Detroit to help them settle and will then return to his home in Buffalo, N. Y.

Next Sunday evening the young people of the Universalist church give a concert for which an especially fine programme has been prepared. In the morning Mr. Andrus will preach a doctrinal sermon. Ladies' social this evening from 5:30 till 7.30 o'clock.

The quarterly tea meeting of the W. F. M. S. of the M. E. church will be held Wednesday, Feb. 3d, at the home of Mrs. Geo. Howell, meeting to be called promptly at 3 o'clock. Tea served at 6 to which all are invited.

After visiting her parents, G. W. Jackson and wife, for a couple of weeks, Mrs. D. A. Hodges returned to her home in Jackson Wednesday, accompanied by her brother, Clarence, who will make his home with her and attend school there the remainder of this school year. Clarence will be missed by several Misses of this place.

Wednesday noon word was received that Rev. Robert Wooden, of Onsted, is dead. Grandfather Wooden was one of the first Universalist ministers to come into this section of the country. He came here a great many years ago. Rev. E. C. Andrus, of this place attends the funeral this afternoon at Onsted.

Rev. Sidney Strong, the noted Cincinnati divine, has accepted a call from the Oak Park Congregational church of Chicago Mr. Strong is a nephew of our worthy townsman, J. S. Strong, and the latter gentleman is justly proud of his brother's son. The salary attached to the Chicago appointment is $3500 per year and the Oak Park church one of the strongest in the city.

Mrs. Jane Burns, sister of Morris and the late Albert Hyde, who lives east and in the fall spent some time among her relatives here and then went to other points in the state, returned Friday to complete her visit with Mrs. Caroline Hyde, but it was brought to a speedy close by a telegram announcing the death of a sister-in-law at Canandaigua, N. Y., and she left Monday morning to attend the funeral.

The ladies of the Eastern Star will present "Female Masonry" at the opera house Tuesday evening, Feb 9th.

An order from the court has finally settled the C. J. & M. terminal matters. On and after Feb. 1 the C. J. & M. will use the Ann Arbor terminals and depot. The change will materially shorten the C. J. & M.'s time. It will cut out two stops in entering. In fact the C. J. & M. will not be required to make any stops in the Toledo yards, as the Ann Arbor lets the passenger trains on its terminal line with an interlocking station. In addition to this, the C. J. & M. gains an entrance into the finest depot in the city.—Toledo Blade.

The members of the Monday club during the present year are enjoying the history, literature sights and scenes of Germany, that quaint old land beyond the sea. At the last meeting of the club Miss Harriet Whittier gave a delightful description of the picture gallery at Dresden, comparing it with other great galleries in Europe. From the vast collection of wonderful paintings in this gallery, Miss Eloise Waring attracted our attention to the gem of the entire collection "The Madonna di San Sisti" or "Sistine Madonna" by that prince of artists Raphael, painted only a few years before his death. Miss Waring explained how it became the property of the Dresden gallery also gave the legends regarding St. Sistus and St. Barbara who are represented with "The Virgin and Child" with attendant cherubs. Miss Buttrick described the old surburban town of Meissen, also gave the process of manufacturing the Meissen or Dresden china showing the delicate quality, exquisite finish and decoration of that superior ware.

Auction begins Saturday, Jan. 30th.

Mrs. C. A. Wright will start for Boston next week for a month's visit.

Miss Libbie Kress, of Freedom, is visiting her nephew, E. F. Kirchgessner.

Aaron Taylor and his worthy wife rejoice over a new little girl at their house.

Harry Lee has recovered from the attack of tonsilitis which he had last week.

L. C. and C. M. Heath, of Milan, were guests at the Primrose residence over Sunday.

The Wit and Wisdom club meet next Monday evening, Feb. 1st, with Dr. and Mrs. W. A. Frost.

Frank J Temple attended the meeting of the Masonic Grand Lodge at Saginaw this week.

New spring dress goods arriving every day, at HARRIS & HITESHU'S

Charles Johnson, of Logansport, Ind., was shaking hands with Tecumseh friends Wednesday.

Mr. and Mrs. Albert Comfort had a little visitor come to their house last Sunday morning. Another little boy.

Mrs. Millie VanAntwerp went to Adrian, Tuesday for a visit with her brother and family, who reside in that pleasant city.

Mr. and Mrs. J. T. Snow desire to thank their neighbors and friends for their sympathy and kindness during their affliction.

Thomas Elliott is again able to be around, but does not feel like putting on the boxing gloves or engaging in a game of foot ball.

Will W. Whiting is nearly settled in his new quarters, having moved his cigar factory to the old office of the News, Wednesday.

Owing to impaired health Rev. David Lewis has decided to give up revival work for a time and will act as pastor of the Friends church.

Mrs. Channing Bills, whose home is now in Jackson, arrived Wednesday for a few days' visit with her old neighbors and friends.

Ladies' $2.00 Dressing Sacques for 98c, at HARRIS & HITESHU'S.

George Tiffany arrived home from Mundon, St. Joseph county, Wednesday evening for a few days stay. George reports the cabinet business good.

The Sunday school classes of Mesdames A. W. Mills and F. D. Rector were entertained charmingly last evening at the pleasant home of the latter.

G. H. Tansley is now occupying the Heesen store, having most of his crockery moved from the old store. When everything is in place he will have one of the finest crockery stores in the ounty.

Mr. and Mrs. Fred Shepard at their cozy home entertained a company of friends Wednesday evening as a farewell to Mr. and Mrs. Henry McClure, who expect to remove to Toledo soon.

The young gentlemen gave a return party to the young ladies Monday evening at the home of Fred Rector. It was a pleasant affair. Two of the young people suffer from frosted ears as a result of the cold ride.

Henry McClure left yesterday morning for Toledo. He assumes his position as bookkeeper for A. M. DeMuth & Co. Monday morning. Henry's friends wish him abundant success in his new quarters.

We will give you more values for your $'s than any house in Southern Michigan. HARRIS & HITESHU.

E. L. Church, of Jackson, an expert at the bench, is assisting Adamson Bros. Repair work having accumulated during the past few months that makes it necessary for extra help. Mr. Church is a pleasant gentleman and a fine workman.

Rev. W. R. Blachford went to Ann Arbor Wednesday to attend a meeting of the southern convocation of this Episcopal Diocese, which convened in St. Andrews church that city yesterday. He being secretary of the convocation. He returned home to-day.

Miss Minnie Reeves left Wednesday morning for Ypsilanti, where she expects to take a course in Cleary's Business College. Minnie has a large circle of friends here, who, while they regret to have her go from them trust the change will be to her advantage.

Fine $30.00 cutters for $19.00, at C. A. SLAYTON'S.

Lonnie Jones, Linn Hardenburg and Ernie Anderson returned from their Devils lake hunt. Unlike our fox hunters, they had plenty of game to show, being satisfied with what they found, not bent on one kind or nothing. Forty-three rabbits they, with the help of a ferrett, gathered in.

The funeral of Mrs. Mary Pennington, widow of the late Isaac Pennington, who had the misfortune to fall into the cellarway of her residence one day last week and soon after lost consciousness never to regain it, was held at the house this afternoon at one o'clock, Revs. D. H. Ramsdell, of Clinton, and David Lewis, of Tecumseh, officiating. Mrs. Pennington was well known in this community and was a member of the Friends church.

The recent spell of cold weather has done much damage about Tecumseh, freezing house plants and water pipes and other things susceptable to frost. But the worst damage yet heard of was that done to the interior of Mr. and Mrs. S. W. Anderson's beautiful residence last Monday and Tuesday. Their house is heated with hot water pipes and notwithstanding every care, on Monday morning the pipes began to freeze and by Tuesday morning were bursted in more than a dozen places, water running all over the house and destroying everything. Several hundred dollars will not repair the damage and the worst of it all is that Mr. and Mrs. Anderson may be shut out of their home for some time before the damage can be repaired.

Ernie Coller, J. J. Freeman and Jim Eccles returned home Sunday from their fox hunt and it is the old, old story they relate. Almost, but not quite. Reynard was too foxy for them.

The poultry institute for Tecumseh is now a settled fact and all who have birds to show are requested to leave word at the Herald office before next week Saturday evening. No entrance fee is charged and all are invited to display their birds.

Harris & Hiteshu announce in this issue of the Herald a continuance of their annual clearing sale to Feb. 15th. The sales of this firm are all genuine, and it is with much haste that purchasers should avail themselves of this opportunity to get bargains.

Just opened a new line of Dress Goods awful cheap.

ANDERSON & ROSACRANS.

There will be a meeting of the members of the C. T. Co. west of Tecumseh, at Hampton's store, Tipton, Tuesday, Feb. 2d, at 2 p. m., for the purpose of organizing as a Telephone Co. All parties interested are invited.

W. J. HAMPTON,
R. J. W. BOWEN.

The Research Circle have been studying Egypt as a Roman province and Friday evening, Jan. 22nd, papers were read as follows: "History of the Roman Period," by Mrs. Kellogg and "Rival Religions," by Mrs. Kyle. The miscellaneous topic, "How to Learn to Think," was given by Miss Mary Burridge. The Circle have added to their numbers by establishing a new section with about twenty members. They will take up the same work and meet Saturday afternoons. The quota, however, is not yet filled, and any who wish to prepare for next year's work, will please send in their names.

Last night about 12 o'clock as a load of young people were returning from Mrs. F. D. Rector's where they had been spending the evening, on coming to the green-house, Miss Mary Mills discovered that the house occupied by Ernest Spalding just south was on fire. She and Miss Anna Williamson then uttered yells that would have done credit to a Comache Indian and all rushed to the burning building. The family was aroused and Mrs. Spalding and baby taken to a neighbor's for shelter and then the company drove rapidly to give the alarm. The department were soon on the spot and the flames speedily extinguished. The origin of the fire is a mystery, it occurring in the north end of the building which was unoccupied. Whether there was any insurance we are unable to learn.

Receiver's Sale.

—The stock, fixtures and book accounts of the druggist firm of Baker & Hall will be exposed for sale at public auction on the 6th day of Febauary, 1897, at ten o'clock in the forenoon at the store lately occupied by said firm at Tecumseh. Terms cash.

E. J. SHEPHERD,
Receiver

—Don't forget the auction commences at the Mills block tomorrow.

—Goods at your own price at the Mills block auction which commences tomorrow.

—Shingles for sale at cost. House to rent, $1.00 per week. Barnyard manure wanted. Potatoes for sale, 20 cents per bushel. A. W. SLAYTON.

Headquarters Beers Post No. 140.

Tecumseh, Mich., Jan. 18, '97.

Whereas, Comrade George Adamson, late of Co. A, 69th Ill. Inft., departed this life January 15th, 1897: Therefore,

Resolved: That in his death the Post has lost a genial comrade and the old flag a true friend, and that we extend to the bereaved friends our heartfelt sympathy.

J. M. INGERSOLL,
L. BAUER,
J. L. JACKSON,
Committee.

Leo Ada Snow.

Miss Leo Ada Snow, daughter of Mr. and Mrs. Jerome Snow, of this place, died at the home of her brother in Adrian January 18th, 1897. She was born in Adrian September 11th, 1866.

For some time her health has not been good but her friends did not anticipate serious trouble uptil four months ago when she went to Adrian to visit brother. While there she became seriously ill and was never able to return home.

The funeral service was held at the home of her brother and the remains were brought to Tecumseh for burial. She has left to mourn her loss her father and mother of this place, three sisters and two brothers, namely, Mrs. A. F. Maxwell, of Chicago, Mrs. Charles Hendryx, of Franklin, Mrs. Fred Clark and Fred Snow, of Adrian, and John Snow of this place.

Pioneer Gone.

David VanTyne was one of the oldest Tecumseh's citizens, who for many years was prominently identified with the business interests of the community, a man of sterling integrity and unquestioned honor, one of the charter members of St. Peter's church and a valued member of the vestry until the infirmities of age compelled his retirement from the work, one who was familiar to and respected by every man, woman and child in the village. In the fall he fell and hurt his hip and while in a sense he recovered from the injury, he never overcame the shock to his system. For the past few weeks he rapidly grew weaker and death came to his release Sunday morning January 24th. The funeral was held at the home in Brownville Tuesday afternoon attended by Rev. W. R. Blachford. He was nearly 85 years old. A suitable sketch will appear in next week's HERALD.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

ELY'S CREAM BALM is a positive cure. Apply into the nostrils. It is quickly absorbed. 50 cents at Druggists or by mail; samples 10c. by mail. ELY BROTHERS, 56 Warren St., New York City.

HINDERCORNS The only sure Cure for Corns. Stops all pain. Makes walking easy. 15c. at Druggists.

PARKER'S HAIR BALSAM
Cleanses and beautifies the hair. Promotes a luxuriant growth. Never Fails to Restore Gray Hair to its Youthful Color. Cures scalp diseases & hair falling. 50c. and $1.00 at Druggists

If you are **CONSUMPTIVE** or have indigestion, Painful ills or debility of any kind use PARKER'S GINGER TONIC. Many who were hopeless and discouraged have regained health by its use.

SAVED FROM DROWNING.

The Heroism of a Miller in Rescuing a Little Girl.

The brave work of a miller in saving a little girl from drowning is described by the Indianapolis Journal. The mill-owner and his wife, it appears, had gone to the city, leaving an eight-year-old girl at home. With other children she went down to the mill to play, and by some accident fell into the sluice which feeds the turbine wheel.

The head miller heard a scream, and not knowing what had happened, applied a brake and stopped the machinery. Then he ran out, found the little girl just disappearing under the water, and in he went after her.

Then he found himself in a hard place. The water was eight feet deep, and he was four feet below the top of the sluice, the sides of which were as smooth as a polished floor. The girl was unconscious. How was he to get her out?

It took one hand to hold her head above water, and the other to keep himself from sinking. He must try to throw her out, and this, by a great effort, he did. But the rebound drove him under water and against the wheel, where he was in great danger of being caught and held. He came up again, however, and now a new difficulty confronted him. How was he to get out himself? He sank to the bottom, gave an upward spring, and as he came up half-blinded, succeeded in catching the top of the sluice. Then, by the greatest exertions, he drew himself out.

The girl was still unconscious, but by vigorous measures was at last revived.

The first nails were undoubtedly the sharp teeth of various animals; then, it is believed pointed fragments of flint followed. The first manufactured metal nails were of bronze. The nail with which Jael killed Sisera was a wooden tent-pin, probably pointed with iron. Bronze nails have been found in the Swiss lake dwellings, in several places in France and in the valley of the Nile.

WHAT SENATORS EAT.

Senator Allison Likes Pumpkin Pie and Pure Milk.

The Venerable Senator Morrill, of Vermont, Usually Lunches on Crackers and Milk—Senator Hill Has a Penchant for Big Oysters.

(Special Washington Letter.)

Now, while the rain and sleet are driving over the prairies, the snow settling on the mountains, and the north winds are blowing over the sunny south, the majority of our people will remain indoors the greater part of the time; for farm chores and village duties are not very pleasant in winter time.

While the blizzards are blowing it is pleasant for the farmers to remain inside the house, with plenty of fuel, plenty of food, and plenty of time to rest. The cattle being safely covered and screened, with ample food in reach, the farmer needs not worry, but can philosophically smile at the elements and say:

Laugh, and the world laughs with you,
Weep, and you weep alone.
This grand old earth must borrow its mirth
It has troubles enough of its own.

But the successful farmer is not the citizen who laughs last, or best, or loudest. In this chill winter weather nobody enjoys life more than the average statesman in the national capitol. They are all alike in their pride, pomp, purse and purposes; and a majority of them are alike in their gustatory desires and the gratification thereof. "Put a knife to thy throat if thou be a man given to appetite," said Solomon. Some of the people who live in this year of grace do not think the advice good. Neither suicide nor eating with a knife is good form in these days. It must be evident even to the casual visitor at the senate restaurant that the wise man was not addressing his remarks to United States senators. No self-respecting senator ever allows his knife to get within a foot of his jugular. Members of the house may, perhaps, elevate their pork and beans to the mouth level without the assistance of a fork, but the dignified senator never permits the glittering steel greater altitude than the third button on his vest. The day for eating with your knife was cut short by that happy invention, the four-pronged fork.

During the sessions of congress there are thousands of people passing through the capitol building every day, and they manifest the popular interest in senators by seeking them, and prying into their methods of living. They occupy the senate floor until removed by the opening of the session and the energy of

PUMPKIN PIE AND MILK FOR ALLISON.

several employes; they survey senators from the galleries and criticise their respective and generally respectable appearance; they peep through half-opened committee-room doors and reach the apex of the tourist's bliss when they behold a senator engaged in the consumption of food.

"He's eatin' raw oysters," said a stranger to his wife the other day. The couple had, from afar, followed one of the senators who represent their state to the senate restaurant. The male tourist watched the alleged legislator commence feeding and then reported to the waiting but equally curious female.

The senate restaurant is an interesting place. Men sometimes succeed in concealing their characters behind screens of reputation; but they cannot continually and successfully disguise their appetites. The man who loves to eat must fail to hide his affection, just as he who cares but little for the good things of life must surely display his disdain for matters stomachic.

If there is such a thing as a lobbyist outside of the senate he can be found in the restaurant somewhere between 12 o'clock meridian and four p. m.; a clever argument has no such support as that which springs from a cleverly cooked and artistically served meal, and the average human tongue wags more freely in response to the gurgling caresses of free liquor than it would in direct return for hard cash—besides, many a man will unconsciously swallow such bait who would spurn the largest bribe ever offered outside of a New York board of aldermen.

For three hours every afternoon the waiters in the senate restaurant are kept very busy, and it is almost impossible for the cooks in the basement to keep pace with the orders which are shouted to them.

One large room is given up to the public, but two small rooms are reserved for the senators and their families. During the past year these private rooms have been invaded by members of the house of representatives, thereby disturbing the dignity and destroying the privacy of the senators. But these representatives of the people cannot be ordered out without a public scandal, and some time this session one of the committee-rooms will be set aside for the senators. They are seclusive and recluisive, are these senators; and when they are compelled to come into contact with common people in public places in Washington, they do not like it. That is a rather sweeping assertion, but it is a fact that some senators, and many of them, too, are senatorially sensitive in Washington, although they may be exceedingly affable to their neighbors and friends in their several states.

Many people wonder what the senators eat. Well, they eat just as you and I and all the rest of us eat, and they take the same food. Only a few of them call for terrapin and champagne. They want first-class roast beef, and very rare, too. They want the best of meats, and some of them are very fond of fish and game; but the majority of them take oysters in some form for their lunch.

Senator Allison, of Iowa, likes pumpkin pie and a glass of milk. Senator Morrill, of Vermont, now 87 years old, likes crackers crumbled into a bowl of milk. The best feeders in the senate used to be Senators Manderson and Paddock; but they are no longer in public life; Senator Joe Blackburn, of Kentucky, is a royal entertainer, and his

BIG RAWS FOR SENATOR HILL.

term expires in March. Senator Davis, of Minnesota, to-day mixed up some stewed potatoes and stewed codfish and ate a whole plate full, with the appetite of a schoolboy. Senator Vest, of Missouri, is fond of broiled lobster; and so is Senator Quay, of Pennsylvania.

Senator Pettigrew, of South Dakota, likes a hearty meal at midday here, just as he does at home. The majority of the statesmen have only light lunches between noon and two o'clock. The principal meal in Washington is eaten between five o'clock and seven in the evening, and it is called "dinner."

Senator Sherman, of Ohio, is a very light eater. He likes a rare oyster stew, a small cut of beef and a piece of apple pie. Senator Morgan, of Alabama, whose life was despaired of last spring, is a very large man, but he satisfies his appetite with an apple or two.

Senator Allen, of Nebraska, the populist statesman who spoke continuously for 15 hours on the silver purchase repeal bill, is a man of giant frame. He is a splendid specimen of physical manhood. His splendid physique requires ample renewal of strength; so he is a hearty eater, but not given to indulgence in fancy dishes. A man may be sensibly a consumer of much food, and yet not be a gourmand.

Senator Hill is shamefully seclusive in his habits. He is a bachelor. All bachelors are selfish. They never learn to take off their shoes at night and put them in their proper place, nor to put their clothes on a particular chair before they retire. Only the married men learn the Scripture, which saith: "No man liveth unto himself." The bachelors think only of themselves. The married men must think of others, or be compelled to think of others.

Senator Hill is a bachelor, lives in his own private apartments and has his meals served in his rooms. I lived with him in a prominent hotel in Washington for six months and never saw him take a single meal. Everything that he ate was served in his own private dining-room. But shortly after one o'clock every afternoon he walks briskly into the senate restaurant, and George, his regular colored waiter, rushes to the dumb waiter and shouts to the cooks: "Half a dozen big raw for Senator Hill." Almost instantly the oysters are served, and then the waiter goes and shouts: "Hot chicken soup, quick, for Senator Hill," and by the time the oysters are consumed the soup is on the table. In a jiffy the simple meal is eaten, and very soon thereafter Senator Hill is on the floor of the senate, defending the administration.

That is the way the statesmen eat. That is the way they are served. Public interest in them would be less but for the fact that "distance lends enchantment to the view." We who live here in Washington care less about the way these distinguished men eat, sleep and drink than the way they legislate. People at a distance want to know how they perform little acts of daily routine, but we who watch them closely are constantly wondering how they will vote on certain bills of national importance. No man is a great man to his valet, and no man is a great man to the men of experience in the national capital; for, after all, they are simply of the people, from the people and like the people. You are as good a man as any member of congress, and so is your neighbor.

SMITH D. FRY.

Brides to Appear in Colors.

It is rumored, but the rumor is one scarcely to be believed, that the traditional white satin of the usual bridal garment is to be ousted in favor of colored robes that are supposed to be more becoming to everyday womanhood. Certain it is that several fashionable marriages have been recorded of late in which sacrificial white has not played a part. Nevertheless some of us are old-fashioned enough to regret its absence, and more than one prospective bride has blushingly confessed that she would feel defrauded if not wedded in white satin and orange blossoms.—St. Louis Republic.

How She Did It.

INTERESTING FACTS.

Bits of Information from Various Localities in Michigan.

A number of buyers of elm logs are on hand in Benzie county and the price of the logs is going up in consequence of the demand.

George W. Simmons, of Constantine, died Wednesday, aged 73 years. He had been constable and deputy sheriff for 30 years.

Mr. and Mrs. George Walker, an aged couple of Sunfield, died within five hours of each other, Wednesday, of general debility.

Maria H. Greenley, of Adrian, widow of ex-Gov. William L. Greenley, died in Washington, D. C., Wednesday morning, aged 75 years.

Mrs. Meddard Breaudry, of Newport, died Wednesday, aged 89 years. She had lived over 30 years upon the farm on which she died.

The Grand Rapids board of trade has decided to ask the legislature for an act renewing the permission of two years ago for the city to issue $100,000 bonds for river improvement.

The officials of the Mackinac division of the Michigan Central railroad are considering the advisability of extending their line to Duncan City. The extension will cost about $30,000.

Mrs. Margaret Thick has commenced a suit for damages in the circuit court against the City Electric Railway company, of Port Huron, for the death of her 13-year-old son, who was killed by a motor car a short time ago.

One thousand emigrants — mostly Germans and Russians—arrive in Port Huron every week, some with money, and more without. About one-eighth of all who enter the United States come in by way of Port Huron.

The Marinette & Menominee Paper company will build a $50,000 sulphate mill at Menominee, this year, which will be one of the best paper manufacturing plants in the west. The company is running all its mills at full blast.

FORTUNE OF A FARMER.

Thomas Hull, of Ludington, Inherits $50,000 a Year.

Ludington, Jan. 24.—The story of Thomas Hull's good fortune is attracting much attention. His father and mother separated in Chicago 28 years ago. The father died soon afterward, and the mother went to New York city, where, five years ago, she left a fortune of $2,000,000 made by real estate speculation. The other children were easily found. A Chicago lawyer learned from an old letter that the father had left his boy here, and by means of a birthmark Hall was identified. His share is about $50,000 a year. He is a farmer, and had never heard of his father and mother.

COLDEST EVER KNOWN.

Mercury Drops to Twenty Below Zero at Detroit.

Detroit, Jan. 26.—The last 24 hours has been the coldest ever known in Michigan, and at points in the state the mercury has registered 24 degrees below zero. In Detroit the mercury marked 20 degrees below at the Michigan Central slip dock, on the Detroit river, and at St. Clair the river was entirely choked by ice, and showed 24 degrees below zero. From all over the state came reports of extremely cold weather. The below-zero temperature at various points was as follows: Flisfield, 24; Jackson, 17; Decatur 16; Bay City, 14; Kalamazoo, 11; Lansing, 11; Grand Rapids, 8; Saginaw, 8.

Rev. Anthony Bogacki Was Arrested on Charge of Assault.

Bay City, Jan. 27.—Rev. Anthony Bogacki, the priest of St. Stanislaus parish, who was arrested on January 8 on the charge of assault with intent to commit murder, waived further examination in the police court Tuesday morning and was held for trial, giving bonds of $1,000. His attorney informed the court that it had got so that the witnesses for the prosecution would all swear to the same thing. He considered it useless to proceed. The church premises are still in possession of an armed committee of 20 men.

A. S. Murray and Wife
SPRINGFIELD, MO.
Restored to Health by Dr. Miles' Restorative Nervine.

MR. MURRAY, engineer for Keet & Rountree Mercantile Co., Springfield, Mo., writes: "I suffered from dyspepsia, was unable to eat anything without severe distress. Treated by several physicians without benefit. I became almost a physical wreck and unable to attend to my work. I took Dr. Miles' Restorative Nervine and in six weeks I was well. My wife had a severe attack of La Grippe which brought on troubles peculiar to her sex. The Restorative Nervine is the only thing that has helped her. We both hope you will use this in a way to help others as we have been."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on Heart and Nerves sent free to all applicants. DR. MILES MEDICAL CO., Elkhart, Ind.

A NY OLD PLACE WOULD DO.

He Couldn't Spell Osawatomie Nor Could the Stenographer.

A short man, with red whiskers, shambling gait, and the remains of a jag, wandered into the Midland the other evening, and asked for a typewriter's studio, says the Kansas City Journal. He lives in Kansas, not far from Topeka, and had been here attending the football games. Luck had walked on the same side of the street with him in the matter of bets, and he wanted to stay another week. But his wife expected him home, so he was in search of a typewriter to send home a letter to serve as an apology for his nonappearance.

"Kansas City, this date, 96," he muttered to the typewritist.

"I have that."

"My dear wife."

"Yes."

"Very important business will require my presence in Osawatomie for a few days—"

"Let's see," interrupted the artist. "How do you spell that Osawatomie?"

"Spell it yourself. It's your typewriter."

"I can't."

"Can't spell Osawatomie?" he asked in disgust.

"No."

"Then I'll go to Fort Scott."

Death of Two Men in the Woods Near Huron Bay—A Third Is Injured.

Marquette, Jan. 25.—Two men were instantly killed and a third fatally wounded in an accident that occurred Friday in the lumber woods near Huron Bay. The location is out of the line of travel, and the news reached here Sunday. The killed are Joseph Martin and a man named Ford. Patrick Donahue was wounded. The men were returning to camp in a blinding snow shortly before dinner. A tree fell on the men, killing the first two outright and horribly mangling Donahue.

Valuable Bed of Clay Found.

Menominee, Jan. 27.—Edward Ganyou, of this city, and a Mr. Hebert, of Marinette, lately discovered a ten-acre bed of clay resembling koaline, which is unexcelled for polishing purposes. The deposit is from four to five feet thick, covered with a foot of muck, and is located about 12 miles from Lena, on the line of the Chicago, Milwaukee & St. Paul in Marinette county. They made the discovery while engaged in land-looking, and immediately bought the tract of two forties. They have received several liberal offers for the property.

Horses Fall Dead from Cold.

Sturgis, Mich., Jan. 27.—E. L. Parker, of Orland, Ind., lost a team in a peculiar manner. He drove a traveling man from Orland to Burr Oak, to make a train. He drove fast, and when within two miles of his destination, one horse fell dead. Before the harness could be removed the other horse fell dead also. The zero weather had congested the lungs, causing death.

Accidentally Killed.

HORTICULTURE.

STORING IN TRENCHES.

How Many Kalamazoo Growers Keep Celery Through Winter.

We do not advise keeping celery for winter use other than by means of cold storage, but it is done by some of our growers by placing it in trenches. This is the method in use in Kalamazoo, and while it has the advantage of prolonging our season, it will not, in the course of two or three years, be practicable, as the California, Utah and Florida stock will be more plentiful, and ours, though well blanched, sweet and tender, will not be able to compete with it in fancy markets on account of its size and ragged tops. The celery, when placed in the trenches, has to live on something, and, having lost most of its roots, it is not able to draw its food from the ground. The heart, therefore, grows at the expense of the outside stalks, and, instead of the head becoming larger, it grows smaller.

The celery for the trenches is cut from the row, after having been banked for about a week. It is quite green and the heart growth has just fairly commenced. It is taken up with a spade, allowing three or four inches of the tap root to remain on it. The trenches are, in reality, not dug into the ground, but are built on top of it. To do this, blanching boards have stakes nailed on to the sides, and are by means of these made to stand up, about ten inches apart. The ground should be dry and level. When these boards are in place, the celery, after having the outside dead stalk removed, is stood up between these boards, being packed fairly tight, care being taken not to bend the stalks. When two or three board lengths have thus been filled, the earth is drawn up

STORING CELERY FOR WINTER.

against the boards and packed there. See cut. Should the celery be taller than the boards they are pried up with a shovel until their tops are even with those of the celery, and more earth is drawn up. If the weather is not too cold, they are allowed to remain this way until it becomes colder, and then the earth is pressed firmly over the tops until there is finally left an opening not more than three or four inches wide. This is sometimes covered over with a blanching board at night and opened in the day time, thus saving the tops to a certain extent. Frost may be removed by sprinkling dry muck over the tops. See the lower part of cut.

The length of time that it will keep this way depends upon the weather, how well blanched it is when put in, and the variety. Continuous cold weather is the most favorable, for it does not allow it to grow very rapidly, and the tops rot less. In this latitude, it is put in from October 1 to 15. Our main variety for winter and fall use is Perfection Heartwell. In warm weather holes are made in the sides of the trenches near the bottom, to allow the air to circulate through the celery. This is the best method that we know of, although I can say, from personal experience, that it is not economical if a fair or even a low price can be had for it directly from the field.—Fred S. Johnson, in Rural New Yorker.

PLANTING IN SPRING.

A Task Which Requires Some Care and Considerable Judgment.

One of the most serious objections to spring planting is that if the trees are to come from the nursery they will make the planting late. This may be obviated by securing the trees in the fall and heeling them in. Then they are at hand ready for planting when wanted. The ground can be plowed, manured and staked out during the winter, and this will be another help in getting the planting done early. So far as is possible the planting should be done as early as the condition of the soil will admit. While early planting is advisable, there is no advantage in attempting to set out trees unless the soil is in a good condition, as one item in securing a good growth is to have the work of planting properly done. The advantage in early planting is the longer time for growth before hot, dry weather sets in, and for the soil to get well settled around the roots.

A safe rule is to set as deep as the trees grew in the nursery, to have the holes large enough to admit all of the roots without bending or twisting. The dead and injured roots should all be cut off, always making a smooth, slanting cut; and then the top should always be cut back in proportion to the roots. The soil should be thoroughly fined, and if manure is to be applied it should be well rotted and thoroughly incorporated with the soil.

It is a very good plan to scatter the manure in the bottom of the hole or place prepared for the tree and then set the tree in it. Fill in the soil carefully around the roots, as it is an important item to have the roots and soil come in close contact, and in many cases it will pay after the roots are covered to tramp the soil down well. Care must always be taken to keep the roots moist while transplanting, as the drying of the roots and the failure to have the roots and soil come in close contact cause more loss than any other causes. —N. J. Shepherd, in Farmers' Voice.

APPLES FOR EXPORT.

Valuable Information Supplied by the Department of Agriculture.

The report of Secretary Morton, of the agricultural bureau, gives some valuable information to growers who intend shipping apples to Europe, and especially to English markets. The season begins in August, when the domestic crops come into the market, and apples bring comparatively low prices. An occasional large crop in Spain or Portugal may result in shipments to England in August and September, but usually the supplies are confined to the home product. The bulk of English apples, an average year, bring about $1 to $1.75 per 112 pounds, but superior kinds fetch much higher prices. Ordinarily, they are seen in the market up to the end of January. This year the crop was deficient, and was practically used up early in October, and the market left clear for American and Canadian fruit, which is practically all that is available. Our early shipments did not fairly represent us, and brought low prices. Our European agent has heard complaint of a decrease in the size of the barrel, which usually netted rather less than 100 pounds each; this should not be, it is a mistake which must be avoided. Canadian barrels weigh from 130 to 140 pounds. When our shippers see Canadian Baldwins quoted at from $2 to $2.50 per barrel, this difference in weight will account for it, and is no evidence of superior quality on the part of Canadian fruit.

The bulk of the shipment consists of Baldwins, Northern Spy and Greenings; our Baldwins are finer than Canadian, but are not such "good keepers." They range from $2.50 to $3.50 for Canadian barrels, and $2 to $2.75 for American barrels, but it is thought that these prices can hardly be maintained on account of the large Canadian and American crops. Greenings must be large, as they are used for "dumplings;" small samples would easily fall off a dollar a barrel, and make the shipment unremunerative. Northern Spys bring about the same price as Baldwins.

Freights to London, Liverpool, Glasgow or Bristol (all of them good apple markets) are approximately $1 a barrel, and all charges, including salesman, commission, would be covered by 25 cents. Apples are sold at auction, cash on delivery; if the auctioneer gives credit, it is at his own risk. The addresses of responsible consignees in the principal shipping ports in England can be obtained through the agricultural department, at Washington.

Any apples of good color and size will sell in England, but it costs no more to send the best than the medium quality, and the return is better. "If you discard a shilling's worth in packing, you may better your price two shillings," is the saying of a London broker. Fruit should be packed so that it cannot rattle; if it does, it will reduce value considerably, even though it might be uninjured.

FROST-PROOF CELLARS.

To Be Secured at a Small Expense of Time and Money.

Many old cellars are not so proof against frosts as to make the storing of fruit in them an entirely safe matter. A low temperature is certainly needed to keep fruit in the best condition, but the possibility of the mercury falling

MAKING CELLARS FROST PROOF.

below the safety point during a cold snap is a factor to be guarded against. A cellar can be made frost-proof by laying a single wall of brick inside the underpinning, leaving an air space between the bricks and the outer wall, but this is somewhat expensive. An easier and cheaper way is to put up some short studs just inside the underpinning, and to nail upon these thin matched boards, down to a point a little below the ground on the outside of the cellar wall, leaving an air space as shown in the illustration. Fruit will then be out of danger from low temperature outside.—American Gardening.

ORCHARD AND GARDEN.

Young fruit trees must have good care to grow well.

When crops are grown in the orchard be sure to manure it.

Thorough pruning is a prerequisite to successful spraying.

Improve the farm by setting out good fruit trees and taking care of them.

Do not allow too many new plants among the blackberries and raspberries.

Rhubarb, asparagus, strawberries, gooseberries and currants should be in every garden.

If the vines or canes are too thick in the rows the fruit will be small and of an inferior quality.

Thick planting of trees is as much against production as is crowding of plants in the garden.

The best remedy for an orange rust on raspberries is to dig out every affected cane and burn it.

So far as possible leave nothing on the ground in the orchard that will afford a harboring place for insect pests during the winter.—St. Louis Republic.

MORTGAGE SALE.

Default of payment having been made of a mortgage made and executed by William J. Arnold and Charlotte Arnold his wife, to Joseph Russell, dated April 21, 1892 and recorded on the 26th day of May, 189 , in the Register of Deeds office for Lenawee County, Michigan in Liber 99, of Mortgages on page 186,—upon which mortgage there remains unpaid of the principal and accrued interest at the date of this notice the sum of fourteen hundred fifty-seven and 58-100 dollars ($1,457 58) and no proceedings at law or in eq ity have been taken for the collection of the same or any part thereof.

Notice is therefore hereby given that by virtue of the power of sale in said mortgage contained and of the statutes of the State of Michigan in such case made and provided, for the purpose of realizing the money above mentioned [illegible] at 7 per cent per annum the cost of this foreclosure and sale including the attorney fee provided for in said mortgage, I shall on the first day of March, 1897, at nine o'clock in the forenoon of said day at the front door of the court house in the city of Adrian Lenawee county Michigan (that being the building in which the circuit court for said county of Lenawee is holden) sell at public vendue to the highest bidder, all that certain piece or parcel of land situate in the Village of Tecumseh in the county of Lenawee and state of Michigan and described as follows, to wit: Beginning at a point in the south line of Chicago street in said village of Tecumseh, such point of beginning being at the same time at the northeast corner of a parcel of land formerly owned by T. T. Kneeland and more recently occupied by M. P. Henry, thence running west on the south line of Chicago street forty-one feet and three inches to land owned by George Merritt; thence south on west line of said Merritt's land ninety feet; thence west at right angles with the first course forty-one feet and three inches to the east line of said T. T. Kneeland property; thence north on east line of said T. T. Kneeland property ninety feet to the place of beginning.

Dated December 8th, 1896.

Joseph Russell Mortgagee.

Charles Burridge Attorney for mortgagee.

MORTGAGE SALE.

On the sixteenth day of February, A. D. 1886 Samuel Larzelere of the village of Clinton county of Lenawee, Michigan, executed a mortgage to Sarah C. Rogers, of the village of Clinton, county of Lenawee, Michigan, on all that certain piece or parcel of land situate and being in the village of Clinton, Lenawee county, Michigan, and described in said mortgage as follows to wit:

Being lot number five (5) on the plot in the village of Clinton as surveyed by Smith & Lapham for John Clark proprietor and now of record in the Registers office in and for the county of Lenawee in the state of Michigan. Said lot being eighty-four (84) feet front and rear and one hundred fifteen feet on its east and west lines.

That said mortgage was upon the 17th day of February, A. D. 1886, recorded in the office of the Register of Deeds of said county of Lenawee in Liber 114 of Mortgages on page 556.

Default has been made in the conditions of this mortgage and the note running in connection therewith, whereby the power of sale therein contained has become operative, and upon the same there is claimed to be due and unpaid at this date the sum of one hundred thirty-four dollars and fifty one cents ($134.51) in addition to all other costs provided by law and in said mortgage for the foreclosure and no proceedings at law or in equity having been had or taken to recover the same or any part thereof.

Notice is therefore hereby given that pursuant to law and the terms of said mortgage, the premises above and in said mortgage described or so much thereof as may be necessary for that purpose will be sold at public auction to the highest bidder upon the twelfth day of April, A. D. 1897, at ten o'clock in the forenoon at the east front door of the court house in the city of Adrian in said county of Lenawee (that being the place and building for holding the circuit court of said county) to satisfy the amount then due upon said mortgage and note, the legal cost of foreclosure and the sale thereof.

Dated January 8 A. D. 1897.

SARAH C. ROGERS. Mortgagee.

G. R. Gillespie, Attorney for Mortgagee.

ADMINISTRATORS SALE.

In the matter of the estate of Humbolt Pennington late of Macon, Michigan, deceased.

Notice is hereby given that in pursuance of an order granted to the undersigned as administratrix of the estate of Humbolt Pennington, deceased, by the Hon. Judge of Probate for the county of Lenawee in the state of Michigan, on the 28th day of December, A. D. 1896, there will be sold at public vendue to the highest bidder, at the late residence of said deceased situate on section 5, of the township of Macon, Lenawee county, Michigan, on the 27th day of February, 1897, at 10 o'clock in the forenoon of said day (subject to all incumberences by mortgage or otherwise existing at the time of the death of said deceased and also subject to the right of dower and homestead rights of the widow of said deceased therein) the following described real estate:

All those parcels of land in the township of Macon, Lenawee county, Michigan described as follows: The west half of the southeast quarter of section 3, of town 5, south of range 5, east—excepting all that part thereof lying north of the center of the Saline and Tecumseh road, so called, also further excepting a parcel of land thirty (30) rods wide north and south to be taken from off the south end thereof.

Also the north half of the east half of the southwest quarter of section 5, of town 5, south of range 5, east.

Also that part of the southwest quarter of the southwest quarter of section 8, of town 5, south of range 5, east bounded by beginning at the intersection of the east line of said southwest quarter of said southwest quarter of said section with the east line of the Saline and Tecumseh road, so called, thence southwesterly along the center of said road to a point 20 rods north of the south line of said section; thence west parallel with the south line of said section to a point 58 rods east of the west line of said section; thence north sixteen rods; thence west twenty-four and two-thirds (24⅔) rods to land of John Jackson; thence north parallel with the west line of said section to the north line of said southwest quarter of said southwest quarter of said section 5; thence east to the northeast corner of said southwest quarter of said southwest quarter of said section 5, thence south to place of beginning.

Also to the southeast quarter of the southwest quarter of section 5, of town 5, south of range 5, east—excepting therefrom all those parcels thereof to be taken from off the south side thereof heretofore sold and conveyed to other parties.

Reserving all the growing wheat on all the lands above described with right to harvest and remove the same.

Dated January 8, 1897.

CLARIBEL PENNINGTON, Administratrix.

COMMISSIONERS' NOTICE.

STATE OF MICHIGAN, County of Lenawee, ss.

In the matter of the estate of Alvinza Whelan deceased.

The undersigned, having been appointed by the Probate Court of said County, Commissioners to receive, examine and adjust all claims and demands of all persons against the estate of said deceased, do hereby give notice that we will meet for that purpose at the former residence, of Alvinza Whelan in the Village of Tecumseh, Lenawee county, Michigan, on the 12th day of February 1897 and on the 5th day of June 1897 at 9 o'clock in the forenoon of each of said days. And that six months from the 5th day of January A. D. 1897, are allowed by said probate court for the creditors of said estate to present their claims to us for examination and allowance.

Dated January 11, 1897.

W. A. BEEBE
JOHN BURTLESS,
Commissioners.

MORTGAGE SALE.

Whereas default has been made in the payment of the money secured by a mortgage dated December 30 1893, executed by John McLain and Jennie McLain, his wife of Macon, Mich., to Brockwell J. Rector, of Tecumseh, Mich which mortgage was recorded in Liber 139 of Mortgages on page 332 on the 5th day of July, A. D 1894, and whereas the amount claimed to be unpaid upon said mortgage at the date hereof is the sum of Four thousand three hundred and eighty-seven and 6-100 dollars damages and no suit or proceeding having been instituted at law to secure the debt now remaining secured by said mortgage or any part thereof, whereby the power of sale contained in said mortgage has become operative.

Now therefore notice is hereby given, that by virtue of the said power of sale, and pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises therein described at public auction to the highest bidder at the front door of the court house in the City of Adrian in said county of Lenawee on the 24th day of March, A. D. 1897, next at ten o'clock in the forenoon of that day which said premises are described in said mortgage as follows:

Situated in the township of Tecumseh Lenawee County, Michigan, and described as the south half of the northwest quarter of section twenty-three of town five south of range four east, containing eighty acres of land more or less.

Dated December 16, 1896.

Brockwell J. Rector.

LAW MAKERS ARE SLOW

But Little Progress Being Made at Lansing.

RECESS WOULD HAVE SAVED CASH.

They Voted Against Taking a Ten Days' Adjournment—Efforts to Have the Law Providing for Collection and Publication of Farm Statistics Repealed—Other Interesting News from the State Capital.

Lansing, Mich., Jan. 26.—For a legislature made up of men who, regardless of party, were required to make their canvass on a platform of economy and reform, it must be confessed that the present body of lawmakers has accomplished less during the first three weeks of its session than of its predecessors for many years. Your correspondent has been quite closely associated with the legislatures of Michigan for the past ten years, and his opinion on this subject has the indorsement of Chief Clerk Miller and Journal Clerk Cook of the lower house, who have been connected officially with that body for the past quarter of a century. Speaker Gordon is of the opinion that the lack of progress this year is due to the fact that the passage of the blanket charter for the fifty or more cities of the fourth class two years ago has shut off the great mass of local bills and charter tinkering which occupied previous legislatures for the first few weeks of the session, it being necessary, in most cases, to get this class of legislation out of the way so that action could be taken thereunder at the April election. Other legislators profess to believe that the delay is due to a disposition to wait until Governor Pingree shows his hand more extensively than he has thus far done in the matter of legislation. Affairs in Detroit have occupied the governor's attention to such an extent since his inauguration that he has not devoted much attention to the legislature, although, so far as the daily observer is able to judge, he has given it all the attention its work has demanded.

Claim That Is Hardly Tenable.

The claim that legislators are waiting to see what legislation the governor will have introduced is hardly tenable, for the reason that several of the most important matters which he recommended in his inaugural message have already been introduced in the shape of bills and are ready for consideration by the committees, but the committees do not show any marked disposition to work. The bill to prevent stock watering, the income tax bill, the measure to require railroad companies to grant a uniform passenger rate of 2 cents per mile in the lower peninsula, and bills to reduce upper peninsula fares from 4 to 3 cents per mile, to increase the specific tax paid by railroads ½ of 1 per cent, thereby increasing the annual revenue of the state from this source about $125,000 per annum, to make stockholders who lend their names to corporations simply to give the latter credit liable for the debts of the corporation, and to make it unlawful to enter into any combine, trust, agreement or contract designed to lessen competition in mercantile trade or manufacturing are all Pingree measures, and all of them have been duly started on their way through the legislative hopper.

Experience of legislators and officials are all agreed that it would have been considerable money in the taxpayer's pockets if both houses had adjourned for ten days, so that all the committees could have visited the state institutions at the same time. This opinion is expressed with full knowledge of the fact that nine-tenths of the taxpayers take a contrary view of the matter. In fact, had it not been for the fear of their constituents a majority of the members of the lower house would have voted in concurring in the action of the senate in this regard.

Constituents Could Not See It.

Several of the holdover members freely said that they knew that a recess would be an economical measure, but they voted against the resolution because, as they said, they could never get their constituents to see the case in that light. The last time no such recess was taken was in 1891, and that year the session lasted until July 4, and was the longest session in the history of the state. The house has been plugging slowly along doing little or nothing, and whatever it has accomplished has been simply piled up awaiting the return of the senators, who have purposely absented themselves so that the upper house has been without a quorum. Without nearly simultaneous concurrent action by the two houses no progress can be made in the matter of legislation, and the result will be that the house will have to dally along for a week while the senate is disposing of the matters it has been dallying with.

The most persistent effort thus far put forth in the matter of legislation is in the direction of the repeal of the law providing for the collection and publication of farm statistics. The house is being flooded with petitions on this subject, all of them having been circulated from a central point, as the heading of each is printed in the same type and couched in the same language. At first the supporters of the bill said the repeal of the law was desired because of the great expense attached to the publication, but this was exploded by the statement of the secretary of state, in response to a resolution of the house, that the anpual cost is less than $4,500. Another reason advanced is that the only persons who profit by the information are the commission merchants and grain dealers, who use it to the detriment of the farmer, taking advantage of the knowledge thus gained to manipulate the market. However this may be, the fact is that the publication of the statistics was instituted for the purpose of putting the farmer on the same level with the dealer in this regard, the fact being that the dealers make investigations on their own hook, constantly keeping agents in the field for this very purpose. Without these statistics the farmer would have no knowledge of the situation whatever, while the dealer would be just as fully informed as he is now. If the farmers consult their own interests they will see to it that the law is not repealed.

For the first time in the history of the state a colored boy has been appointed page in the Michigan legislature. His name is Dickinson, and he is a son of the only colored member of the legislature, who hails from Detroit. Not much of the reform so much talked about during the campaign has characterized the actions of the legislators thus far in the session. Some of the members were disposed to cut down the number of employes when the legislature first convened, but Speaker Gordon advised them to retain the number, and, if economy was their object, to reduce the pay. Having appointed the usual number, if not a few more, no one need expect the salaries to be cut for the very good reason that so many of the members have relatives in the different branches of the service.

Sure to Bring Out Protests.

A bill of considerable importance, and one which is sure to bring out numerous protests, is one introduced by Representative Fleischauer of Reed City, proposing an amendment to the law relative to game wardens. Under the existing laws these wardens have power to make arrests on their own complaints, or rather to have arrests made on their own complaints, it being the duty of magistrates to issue warrants in such cases. The bill proposes to curtail this power by making it necessary to secure the approval of the prosecuting attorney before the warrant can be issued. There is no doubt that State Game Warden Osborn will oppose this measure, for as a rule prosecuting attorneys are loth to conduct cases for the people even after complaints and arrests have been made for violations of the fish and game laws, and in several instances it has been necessary for the attorney general to conduct prosecutions owing to the lack of interest taken by the county prosecutors. Those who are interested in the stringent enforcement of these laws believe that the passage of the Fleischauer bill would amount to a practical nullification of all the game laws, as it would be next to impossible to secure the arrest of violators.

A very interesting case is now before the supreme court, and an opinion is expected within a fortnight. The decision will be of interest to the people of the state generally as it involves the question of the right of a municipality to pay a bonus for the location of a manufacturing institution. It appears that the city of Corunna agreed to pay D. R. Salsbury several thousand dollars for locating a shoe factory there. Salsbury carried out his agreement, but Marcus Wilcox, an extensive property owner, secured from the circuit court an injunction restraining the city from paying the money.

Opinion Awaited With Interest.

A hearing was had and the injunction was dissolved. Wilcox then appealed to the supreme court and the case was argued and submitted a fortnight ago. This question has never been passed upon by the court of last resort in this state, and the opinion is being awaited with much interest. The claim is that it is illegal for a city to make such an appropriation of public funds.

It is probable that the law regulating the examination of candidates for admission to the bar will be amended in one or two important particulars this winter. This, by the way, is one of the very best enactments of the last legislature. It is a much more difficult matter for candidates to get the approval of the state board of examiners than of the old examiners appointed by the various circuit courts as was the custom under the old system. Under the old law the preceptor and one or two friends of the candidate usually constituted the examining committee in the circuit court, and the occasions when a candidate failed to pass were very rare. Now most of the candidates are rejected, and the result has been to materially raise the standard. Every person desiring admission has to be examined by this board, the only exception being in the case of graduates of the university who are admitted on their diplomas. It is now proposed, and the board sanctions the idea, to bring these graduates under the operation of the law and require them to stand examination also. A bill already introduced proposes an amendment permitting persons who have served as county clerks for four years to be eligible to examination, even though they have not been connected with the office of some reputable attorney for two years as is now required, the idea being that county clerks have exceptionable opportunities for studying law which should be equal to the two years' experience in a law office. The tendency, however, is so strongly in favor of making it harder for one to gain admission to the bar that it is not believed that the bill will pass.

Scheme of the State Treasurer.

State Treasurer Steel's scheme of having the state go into the banking business so far as the numerous state institutions are concerned has come in for considerable discussion. There is quite a difference of opinion as to the desirability of the plan. When he first took hold of the office Treasurer Steel decided to make a rule requiring the treasurer of each institution, upon receiving a warrant from the auditor general, to deposit the amount of the warrant in the state treasury and check it out of that depository instead of taking it to his home and depositing it with one of the banks there. For convenience sake the treasurer of each of these boards is the resident member of the board or some other citizen of the place in which the institution is located. Investigation convinced the state treasurer, however, that he had no authority to make the contemplated order, the law prescribing that, upon the presentation to him of the auditor general's warrant, he shall pay the amount thereof to the treasurer to whom it is drawn, leaving it entirely beyond his province to say where that person shall deposit it. It is now his purpose to ask the legislature to enact a law requiring this money to be deposited here. In support of his proposition he argues that with the money in the state treasury it would not be necessary for the state to borrow money to help out when taxes are delayed, as is now necessary to do occasionally. This would result in the saving of the money now paid for interest.

On the other hand it is contended that the state has no business to engage in the banking business, such functions being contrary to the genius of our institutions; that each of the state institutions draws so many checks during the month that it would require a couple of extra clerks in the state treasury to handle the new department, so that the expense would more than offset the saving in interest; and finally that the fact that this money is distributed in banks all over the state is of vast benefit to these localities.

Orr & Temple.

Tecumseh Mich.,

I recieved the box of Orr,s Headache Tablets ordered.

If I am as much pleased with these as the first box, I will order one half dozen boxes.

I first heard of them from a friend in Detroit Mich., who was visiting here last summer.

Yours Respectfully,
Mrs Morris Bartlett.

THE NEW CABINET.

President-Elect McKinley Has the Places Nearly Filled.

Names of Those Who Will Occupy Distinguished Positions — Only One More Place Is Left to Be Filled.

Canton, O., Jan. 30.—Friday was Maj. McKinley's birthday, and he celebrated it by tendering the portfolio of war to Gen. Russell A. Alger, of Michigan, who accepted it with cheerful alacrity. Gen. Alger authorized the press to say that he had accepted the portfolio of war.

Russell A. Alger's Career.

[Gen. Russell A. Alger was born in Lafayette township, Medina county, O., February 27, 1836. His grandfather served in the revolutionary war and claimed descent from William the Conqueror. When 11 years of age both his parents died. For the next seven years he worked on a farm, earning money to defray his expenses at the Richfield (O.) academy during the winters. Subsequently he taught school, and in March, 1857, entered a law office in Akron. Two years later he was admitted to the bar. He entered the law office of Otis & Coffinbury in Cleveland, but abandoned the practice of law the following autumn on account of failing health and moved to Grand Rapids, Mich., where he engaged in the lumber business, and where, in 1861, he married Annette H. Henry.

In 1861 Alger enlisted in the Second Michigan cavalry and was made captain of Company C. He was wounded in the battle of Booneville, Miss. Owing to his part in

GEN. RUSSELL A. ALGER.

this engagement he was promoted to the rank of major. In 1862 he became lieutenant colonel of the Sixth Michigan cavalry, and in 1863 was made colonel of the Fifth Michigan cavalry, his regiment being in Custer's famous brigade. In 1864 his health induced him to retire from the service. He was brevetted brigadier and major general "for gallant and meritorious services," and was on private service in 1863-64, receiving orders personally from President Lincoln. In 1865 he removed to Detroit, where he has since been extensively engaged in the lumber and pine land business.

Gen. Alger was elected Governor of Michigan in 1884, receiving a plurality of 3,950 votes over Begole (fusionist). His administration of state affairs was considered highly successful. In 1888 he was one of the leading candidates for the republican nomination for president. The acrimony which developed between the Alger workers and those of Senator Sherman, who was also a candidate, was intense and the breach of friendship caused thereby between the general and senator is believed to have only recently been healed. Gen. Alger served one term as commander in chief of the Grand Army of the Republic.

WILSON, OF IOWA.

The Ex-Congressman Will Be the Secretary of Agriculture.

Washington, Feb. 2. — Ex-Congressman James Wilson, of Iowa, has accepted the office of secretary of agriculture in President McKinley's cabinet. Senator Allison received a telegram from Mr. Wilson saying he had accepted.

Mr. Wilson is a native of Scotland, and will be the only person of alien

HON. JAMES WILSON, OF IOWA.

birth in the cabinet. He is 52 years old, and has been regent of the Iowa university and president of the Iowa State Agricultural society. He was a member of the Forty-third, Forty-fourth and Forty-eighth congresses.

NEARLY COMPLETE.

Offices of Postmaster-General and Attorney-General to Be Filled.

Canton, O., Feb. 2.—The announcement made by Hon. James S. Wilson, of Iowa, that he had been tendered the portfolio of agriculture by Maj. McKinley and had accepted, fills the cabinet with reasonable certainty, excepting the offices of attorney-general and postmaster-general. The McKinley cabinet to date, therefore, may be given as follows:

Secretary of State—Sherman, of Ohio.

Secretary of the Treasury—Gage, of Illinois.

Secretary of War—Alger, of Michigan.

Secretary of the Navy—Long, of Massachusetts.

Secretary of the Interior—McKenna, of California.

Secretary of Agriculture—Wilson, of Iowa.

JOSEPH M'KENNA.

The California Judge Will Be the New Secretary of the Interior.

San Francisco, Feb. 3.—Judge Joseph McKenna, of Suisun, has been selected for secretary of the interior in President-elect McKinley's cabinet and he has accepted.

[Joseph McKenna is a native of Pennsylvania, having been born in Philadelphia August 10, 1843, and in 1855 removed with his parents to Benicia, Cal. He received a good education in the public schools of Philadelphia and at the Benicia Collegiate Institute, now St. Augustine college. Having studied law and graduated with honors he was admitted to the bar in 1865. In the following year he removed to Suisun, where he has since resided. In March, 1865, although only 22 years of age, he was elected district attorney of Solano county and discharged the duties of his office faithfully for two years. He served in the legislature

JOSEPH M'KENNA.

successful candidate for congress in 1876 and 1878. In 1884 he was nominated and elected to congress, and served with distinction in the Forty-ninth and Fiftieth congress. On February 11, 1892, he was appointed to fill the place left vacant by the death of United States Judge Sawyer.]

MAY CLAIM BIG TAXES.

Entire Capital Stock of Corporation May Be Assessed.

Washington, Feb. 2.— States have the constitutional right to tax the entire capital stock of interstate corporations doing business within their limits. This was the startling decision of the supreme court Monday in what is known as the Ohio and Indiana tax cases. There were three dissenting justices—Field, Harlan and White. The decision is a surprise to lawyers and will be the source of endless trouble to express, telegraph and telephone corporations.

It is one of the most important decisions rendered by the court in many years, as it not only involves grave constitutional questions, but will place interstate corporations at the mercy of state legislatures everywhere. Ten of these cases were brought by the officers of the Adams, American and United States Express companies. They were suits in equity to enjoin the assessment and collection of taxes under the acts of the general assembly of the state of Ohio, passed April 27, 1893, and May 10, 1894, for the taxation of express, telegraph and telephone companies, on the ground that the acts were in contravention of the constitutions of the state of Ohio and of the United States.

ECKELS' VIEWS.

He Thinks a Proper Banking System Would Cure Financial Ills.

Washington, Feb. 2.—The exchange of views between Comptroller Eckels and members of the banking and currency committee on the financial questions was continued Monday. Mr. Eckels expressed the opinion that the only way to solve the present financial condition would be through a proper banking bill.

A declaration by the comptroller that he believed the single gold standard essential to the prosperity of a great nation nearly precipitated a silver discussion, but the settlement of a question of order as to who was entitled to the floor occupied the remainder of the session, and at 3:10 the committee adjourned to meet again this morning, when the comptroller will be asked to discuss the several bills before the committee proposing general changes in the banking system.

CAPITOL BURNED.

The Historic State House of Pennsylvania Is in Ruins.

Harrisburg, Pa., Feb. 3.—The Pennsylvania state capitol was destroyed by fire Tuesday afternoon. The legislative halls are in ruins, and a new structure must rise from the ashes that has served as a meeting place of the Pennsylvania legislature since 1822. The flames within the short space of one hour ate up $1,500,000 worth of property.

The most valuable of the state and legislative records which were in the building were saved, but the records and statistics of the department of public instruction, which included much valuable information bearing upon the public schools of the state, were destroyed.

Lima, O., Feb. 2.—Charles Russell and his wife were cremated in their home at North Baltimore Monday. The house took fire on the inside and when the department arrived the building was too far gone to be saved. Mrs. Russell was burned to death in bed. Her husband got out of the house, but went back for her, when he was overcome and cremated beside her.

Paris, Feb. 2.—A report from Frouenfeld, Switzerland, announces the death at that place of M. Martini, the inventor of the Martini rifle.

FROM WASHINGTON.

The Closing Session of the Fifty-Fourth Congress.

Measures of Importance Presented in Both the Senate and House—A Daily Summary of the Proceedings.

Washington, Jan. 28.—The military academy appropriation bill was passed in the senate yesterday. Senator Sherman, in speaking on the Nicaragua canal bill declared that the government-al execution of the project was the only feasible one.

Washington, Jan. 29.—In the senate yesterday the bill for an international monetary conference was debated. Senator Chandler (N. H.) speaking in favor of it and Senator Stewart (Nev.) against. The nomination of William S. Forman as commissioner of internal revenue was confirmed.

Washington, Jan. 30.—By the decisive vote of 46 to 4 the senate yesterday passed the bill for the appointment of commissioners to an international monetary conference. A bill granting a pension of eight dollars a month to Mrs. Martha Frank, of Georgia, widow of a soldier of the Indian war of 1818, now 102½ years old, was also passed. The credentials of William E. Mason to be senator from Illinois for the term beginning March 4 next were received. Adjourned to February 1.

Washington, Feb. 2.—The Nicaragua canal bill occupied the attention of the senate most of the time yesterday, but no progress was made toward a final vote. The new treaty relative to the Alaskan boundary and the arbitration treaty between the United States and Great Britain were reported.

Washington, Feb. 3.—The feature of the senate yesterday was a very spirited debate on the conference report on the immigration bill, but no action was taken. A resolution was introduced providing that the United States should not permanently acquiesce in the single gold standard, and a bill was presented to increase the pensions of the survivors of the war of 1812 to $30 per month.

The House.

Washington, Jan. 28.—By a vote of 131 to 118 the house yesterday agreed to the conference report on the immigration bill. A favorable report was made on a bill to prohibit the employment of prison labor on government buildings.

Washington, Jan. 29.—In the house yesterday the Indian appropriation bill was passed and the agricultural appropriation bill was considered. During a speech Mr. Grosvenor (O.) attacked ex-Gov. Altgeld, of Illinois, for charging that the last election was corrupt. The appropriation bill for the District of Columbia was reported.

Washington, Jan. 30.—The bill making appropriation for the military academy was sent to conference in the house yesterday, the agricultural bill was further considered, and a report providing for the incorporation of the purchasers of the Atlantic & Pacific railroad was rejected after an animated debate between Messrs. Powers, of Vermont, and Barrett, of Massachusetts.

Washington, Feb. 1.—In the house on Saturday, after a long discussion, the agricultural appropriation bill was passed; as were also several private bills. Mr. Cox (Tenn.) introduced a bill to appropriate $200,000 to reimburse confederate soldiers or their heirs for horses, baggage and side arms taken from Gen. Lee's officers and men by federal soldiers after the former had been paroled.

Washington, Feb. 2.—The diplomatic and consular appropriation bill was further considered in the house yesterday and the following bills were passed: To prevent express companies from carrying obscene literature; to prevent trespassing upon national military parks, and providing that surgeons and assistant surgeons of soldiers' homes may be appointed from others than those disabled in the service of the United States.

Washington, Feb. 3.—In the house yesterday the whole time was devoted to debate on appropriation bills. The diplomatic and consular bill was passed. Resolutions arranging for the formal canvassing of the electoral vote of the last presidential election on Wednesday, February 10, were adopted.

Father's Terrible Deed.

Tacoma, Wash., Feb. 3.—A. W. Linderstrom, a farmer, living on Anderson's island, came home late at night and in a fit of anger took down a shotgun and blew out the brains of his five-year-old son. When he saw what he had accomplished he placed the muzzle of the gun to his head and blew out his brains. The trouble is said to have started from domestic causes.

To Prison for Life.

Akron, O., Feb. 2. — Romulus Cotell, who killed Alvin Stone and Wade and Ira Stillson at Talmadge last March, was allowed to plead guilty of murder in the second degree. Judge Kohler at once sentenced him to life imprisonment at hard labor. Cotell was found guilty in the first trial and was sentenced to hang November 6.

Seven Persons Cremated.

Hoboken, N. J., Feb. 1.—A tenement house in this city was destroyed by fire and Mrs. Nellie Schroeder and her five children and Mabel Mangles perished in the flames. The father of the family, Charles Schroeder, was in a near-by saloon playing cards while his wife and children were dying.

ROYAL

The absolutely pure

BAKING POWDER

ROYAL—the most celebrated of all the baking powders in the world—celebrated for its great leavening strength and purity. It makes your cakes, biscuit, bread, etc., healthful, it assures you against alum and all forms of adulteration that go with the cheap brands.

ROYAL BAKING POWDER CO., NEW YORK

Clinton Column.

C. F. Field was in town Saturday.

Jas. Hamilton was in town the first of the week.

J. L. Kishpaugh and wife spent Sunday in Clinton.

Harry Kies and wife, of Manchester, were in town Friday.

Miss Sara Huntington was home from Adrian over Sunday.

Horace Moulton is very ill, with little hope of his recovery.

C. W. Nase and wife visited Tecumseh Monday afternoon.

Mrs. Jos. Cochran, of Ann Arbor, is visiting Clinton friends.

Ted Codling is working for the Clinton Provision Company.

Born, to Mr. and Mrs. Claud Lane, an 8 lb. girl, on Monday, Feb. 1st.

Geo. A. Kies came home Monday morning to remain a few weeks.

D. Woodward attended the Farmers' Institute at Adrian last Friday.

J. M. Blanchard, of Adrian, visited his son and family last Sunday.

Mrs. J. W. Bradner and Mrs. George Seagrave were Tecumseh visitors Saturday.

G. W. Goodrich has been suffering for the past week with neuralgia in his eyes.

Mrs. S. W. Demuth and Mrs. G. R. Wolf visited Jackson Thursday of last week.

Quite a number went from here to Tecumseh Monday night, to see the "Fast Mail."

Geo. Kishpaugh and wife, of Raisin Center, visited Clinton relatives last Saturday.

Frank Reidel moved his family and household goods to Bridgewater Station last week.

Mrs. E. L. Broadbent has been very seriously ill with lung trouble for the past week.

Mrs. J. V. Amspoker and Miss Eva Shireman were Tecumseh visitors Tuesday afternoon.

Mr. and Mrs. John Mingus and little daughter Mamie visited friends in Manchester Sunday.

Mrs. Jas. DuBois, of Britton, spent Saturday and Sunday with her daughter, Mrs. Will Hause.

Mrs. W. Broadbent who was reported quite sick is some better. Mrs. Ingham is taking care of her.

A. J. Allen and wife went to Charlotte Tuesday, to attend the State Dairymen's Institute.

L. J. Leek, who had been visiting his sister at Lansing for the past four weeks, returned home Friday.

Mrs. E. M. Conklin and son Frank, of Manchester, were guests of her sister, Mrs. Hattie Johnston, last Saturday.

Mr. and Mrs. H. D. Niblack, Mr. and Mrs. Wm. Gadd, Mrs. C. E. Corwin and W. H. Niblack attended the funeral of Mrs. Mary Pennington at Macon, last Friday afternoon.

Mrs. Anna Wheeler, of Addison, who came here to attend the funeral of her mother, Mrs. Jane McCook, has been visiting her sisters, Mrs. Frank Marshall and Mrs. C. F. Larzelere.

Mesdames Abbie Fisher, John Hesson, Fred Montgomery, Essie Rowland, J. D. Shull and A. Millis, of Tecumseh, and Mrs. M. Ford, of Duluth, visited Mrs. E. S. Tate one day last week.

Mr. and Mrs. Sam Anglemire, daughter Gertrude, Mr. and Mrs. C. Jacobs, the Misses Anna, Ella and Ida Jacobs, drove to Deerfield Sunday morning, all returning Sunday evening except Mr. and Mrs. C. Jacobs who expect to remain several weeks visiting their daughter, Mrs. Kirchgessner.

Quite an enthusiastic temperance meeting was held last Sunday evening at the Congregational church. After the usual opening service of singing, scripture, reading and prayer, Mr. S. E. Boys, a law student of Ann Arbor, delivered an address in the interest of the Anti-Saloon League, after which each of the pastors made a few remarks, showing the intense interest they feel in the work. Mr. Boys occupied the pulpit at the M. E. church, Sunday morning.

Eugene Smalley started Monday night for Brookfield, having been called there by the serious illness of his brother George.

Mr. and Mrs. F. E. Sherwood, Mr. and Mrs. H. E. Lindsley, Mr. and Mrs. A. J. Kishpaugh, Mr. and Mrs. A. F. Kishpaugh, Mrs. Hattie Johnston and Miss Laura Clark formed a jolly load going to Britton Tuesday afternoon. After enjoying a good warm dinner at six o'clock and a very pleasant evening with J. L. Kishpaugh and wife, they started for home, reaching here at about midnight.

FRANKLIN.

Lorenzo Billington drove to Manchester Friday.

Newell Wisner drove to Ann Arbor and back Monday.

E. J. Whelan will build a new house this coming summer.

George Taylor bought the grey team at the Taylor auction last week.

L. M. Waldron was doing some repair work in this vicinity last week.

Cecil Billington came home from Ypsilanti Friday, returning Tuesday.

Mr. and Mrs. E. C. Wisner visited at Mrs. Stringham's, in Tecumseh, Saturday.

Carl Wisner spent Sunday [illegible]. He came from the University city on Foot & Walker's line.

Mr. and Mrs. G. W. Allen attended the recital given by Miss Root's pupils at A. W. Mills', in Tecumseh.

Mrs. Milton Burns is sojourning with her daughter, Mrs. Gibbs, in Chicago, and Miss Nellie Burns is in charge of the domestic arrangements during Mrs. B's absence.

Mrs. Adelia Whelan, of Tecumseh, called at E. J. Whelan's Saturday. She is at present helping to care for her mother who is very sick with typhoid fever at the home of her son, Dudley Witherell, in Washtenaw county.

There was a small but very pleasant party at Mr. and Mrs. L. Billington's, Saturday, the occasion being the twenty-first birthday of their son Cecil. Among the many good things with which the dinner table was loaded, was a royal dish of pears whose age was identical with that of the young man. Twenty-one years ago his mother canned the pears and they were in a perfect state of preservation, not a particle of mould having accumulated on them. We notice there has been a change in the price of pears. Twenty-one years ago they were two dollars a bushel and windfalls at that.

EAST FRANKLIN.

Miss Bertha Taylor is home from Adrian this week, enjoying a vacation.

Miss Alma Whelan visited Miss Celia Brewster at Clinton Saturday and Sunday.

Mrs. Munger, Mrs. Spalding and Lena visited Mrs. Ada Spencer in Holloway Saturday.

Andrew and Sadie Taylor drove over to Hillsdale Monday, to spend three or four days with their aunt, Mrs. Mary Woods.

As Mrs. Munger and Mrs. Spalding were coming home Saturday, a man ran into the cutter, breaking the cross-bar. He drove on leaving them to get home as best they could.

Wm. R. Hayes Writes

Payne, Ind., Feb. 1896

I have been using Dr. Caldwell's Syrup Pepsin ever since the agency was established here four months ago. When I began taking it I weighed 150 pounds and now I weigh 177 pounds. Feel better than ever did in my life and must say it is an excellent remedy. In 10c size (10 doses 10 cts) regular sizes 50c and $1.00 at Orr & Temple's.

The Modern Way

Commends itself to the well informed, to do pleasantly and effectually what was formerly done in the crudest manner and disagreeably as well. To cleanse the system and break up colds, headaches and fevers, without unpleasant after effects, use the delightful liquid laxative remedy Syrup of Figs. Manufactured by California Fig Syrup Company.

ONSTED.

Was it cold any last week? Well, yes.

Covenant meeting last Saturday at the church.

J. O. Aldrich visited friends in Rollin over Sunday.

Baled hay still keeps coming into town for shipment.

S. J. Fish still cuts a dash in canvasing for those churndashers.

The W. C. T. U. meets at James Newton's on Wednesday of this week.

H. E. Stoddard, of Eaton county, called on friends here and in North Rome recently.

A musical was given at the hall last Saturday evening by the Adrian Mandolin Club.

A flock of three or four robins tarried around the residence of M. O. Aldrich during the late cold snap.

The social for the benefit of the People's church was held with Mr. and Mrs. A. P. Onsted, Saturday.

The regular meeting of the Eastern Star will take place on the evening of February 12th. Let all members take notice.

Warren Pitcher was presented with a nice chair on his birthday recently by a number of his friends who popped in upon him unawares. He sits down a part of the time now.

The death of Rev. Robert Wooden, one of the first settlers of this vicinity, occurred last week. The funeral was held Friday afternoon at the church here and the remains laid by the side of his wife in the cemetery near by. Thus the life work of our neighbor is done and he is taking the last long rest.

Frank Stearns, a musical genius, arrived in town Saturday evening from Wexford county. He came all the way afoot carrying three musical instruments, two satchels, a bundle of clothes, a cane, and leading a dog. He started out with a wheelbarrow but the snow was too deep and he abandoned the vehicle.

Sometimes the most careful women are the most careless. Many a woman bundles herself up to keep out sickness—when she is neglecting the very worst sickness that can come to a woman. She allows a slight disorder to become worse, to slowly sap her vitality. The little pain and the other slight indications of trouble seem to her unimportant. She goes on, with increasing suffering, until life itself becomes a drag. Nervousness, "sinking spells," digestive disturbances, and fifty other complications may arise from the derangement of the organs distinctly feminine. Over thirty years ago, the need for a reliable remedy for so-called "female complaints" was recognized by Dr. R. V. Pierce, then, as now, chief consulting physician to the World's Dispensary and Invalids' Hotel, at Buffalo, N. Y. He prepared Dr. Pierce's Favorite Prescription, the most wonderfully effective remedy that has ever been used for such maladies.

Send 21 cents in one-cent stamps and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser," illustrated.

GOOD SIGNS IN LONDON.

Things Which Are Jokes Without Intending to Be Such.

The American's first visit to London brings to his notice, if he be at all observant, many peculiar signs, says the New York Mail and Express. Here are a few seen by a reporter last summer:

Englishmen are noted all the world over as prolific letter writers. To-day little personal attention is paid to business when it is possible to write a letter and say what one ordinarily should say verbally. Attached to the heavy doors of four-fifths of the most successful business houses in the English capital is a highly polished brass plate, on which is inscribed: "Do Not Ring the Bell Unless an Answer Is Required."

Directly under this I detect an opening for dropping letters "that do not require an oral answer."

On the Strand, within a stone's throw of the Bank of England, is a well-known tradesman, who has a "richly" inscribed blue sign in his window which tells the busy throng outside that "Yankee Cyder Is Sold Here."

It may be considered a joke—this sign—as if party of Americans who inquired earnestly believed, but the tradesmen took the matter quite seriously when the subject of the sign was broached, and then remarked:

"If ham-er blooming blighter hif another chap didn't soy the same thing t'day. 'E told me 'ow to spell Yankee, but 'ang me hif hit 'asn't escaped me memory. Hit will 'ave to do now, though."

A "gentleman's hairdresser" close to Charing Cross exposes a sign which says: "Hair Neatly Trimmed While You Wait."

And this sign, too, was not intended as a joke. London signs are indeed peculiar, if not strikingly odd.

ANCIENT ADVERTISEMENTS.

They Were Written on House Walls In Spaces Called Albums.

When some enterprising Greek or Roman merchant of old first whitened a portion of the wall of his house and on this album, as it was called, rudely scratched the symbols of his trade he little dreamed it to be the dim foreshadowing of miles upon miles of pictorial advertisements, first produced in the interest of commerce, but destined to come so close to art as to attract more than passing notice from the esthetic connoisseur and collector, says Lippincott's.

Yet from the very earliest times some sort of public advertising was felt to be a necessity. Thus we read of notices in the first days of the children of Israel being posted in the high places of the cities—proclamations, generally, of kings and prophets, inscribed on parchments and papyri more than 3,000 years old have been exhumed from the ruins of ancient Thebes on which are written descriptions of runaway slaves and the rewards offered for their return.

Another heathen mode of attracting attention was to hang on the statues of the infernal deities, within the temenos of the temples, sheets of lead bearing curses and prayers of vengeance against those persons who had stolen goods or otherwise injured the advertiser, the evil to be deprecated only in case of the restitution of the property. A collection of such imprecations that was discovered in the temple of Demeter at Onidus in 1858 may be seen in the second vase-room of the British museum.

JOKES BY SPORTSMEN.

Tricks That Hunters Play on One Another in the Woods.

Sportsmen like to play tricks on one another. Some of the jokes are older than the hills, but always ready for service, says the New York Sun. A dead deer braced up against the side of a tree has more than once been a mark for pounds of lead. Eight men once shot their repeating rifles at such a deer, some 60 shots being fired at it before it fell. The joyful hunters, on going to it, found that the beast had been dressed and that 45 bullets had gone through it. Hunters sometimes doctor the shells of their mates, putting in double charges of powder and taking out the shot. Firing pins are extracted and putty ones substituted. Buckshot is substituted for 8s, and the amazement of a hunter when he finds how the 8s bunched, as he supposes, and tore a woodcock half in two is the sport that comes from it. Rifle shells are filled half with powder, half with red pepper. The powder drives the bullet after a deer and burns the pepper. Unlimited sneezing follows.

False trails made by a man with bear-foot moccasins in the snow have led many a tenderfoot over weary miles only to end in a man's trail at some log where the bear's feet could be taken off. It sometimes happens that a pack of fox dogs are led on a drag trail when the dog followers thing it is a live fox's.

Peculiar Aversions.

Most people have aversions of some kind or other, and some have strange ones. The sight of a set of false teeth makes John L. Sullivan sick at the stomach. Napoleon did not like to see a white dog. Agassiz could not bear to touch polished steel. The sight of the rising moon, when it was full, always made Mme. De Stael ill. Barefooted children made Louis XIV. nervous. Dean Swift has said that Bolingbroke would "act like one bereft should he cast his eye on a poor, harmless toade." Disraeli had an attack of vertigo when he saw anyone chewing gum. Dickens never liked a stiff shirt bosom, and Buffon would fly into a rage if anyone put an egg on the dining table at which he sat.

Don't Like Poorhouses.

There is such a deep-rooted dislike among paupers in Ireland to enter the workhouse that in the county of Antrim, for instance, there are only 1,000 persons in six workhouses that have room for 5,000.

TIMES CHANGE.

She Thought the Case Required Heroic Treatment.

They had been married less than a year when she noticed that her husband stayed out late at nights and when he did come home was apt to be noisy and demonstrative, says the Detroit Free Press. On his part William observed that he could never find a knife to cut a bite to eat, and that even the family shears were out of reach, while his razors at such times were locked up and the key hidden.

He did not say much, because he was not in a condition to talk, and when he was sober he did not care to refer to the past.

But he grew worse instead of better, and one night he went home at a late hour and found the hall brilliantly lighted and on the table under the gas an assortment of all the cutlery in the house. Knives, scissors and razors alluringly open met his unsteady gaze.

"M-M-Mary," he called, "w-w-what d-does t-this mean?"

"It means," she answered, from the top of the staircase, "that ever since you've been cutting up in this manner I've been afraid you would do as you threatened to do—kill yourself with some of those things."

"Y-y-yes, Mary."

"Now I'm beginning to be more afraid that you won't, so I thought I'd give you every possible chance."

There was a sound of cutlery by night, mingled with forcible though unsteady words, and William has remained at home every evening up to date.

Life in Spain.

In Spain constitutional indolence, fertile soil, and a magnificent climate continue to make life one long dawdle. In Turkey the natural thrift and industry of the real Turkish population are paralyzed into idleness and apathy by the hopelessness of winning anything worth having which will not be at once stolen by official corruption.

An Odious Custom.

An addition to a Japanese theater is allowed, for a small fee, to stand up, and the unfortunate individual behind him has no right to remonstrate or to rise and get a peep at the stage. He may hear, but he cannot see.

Market for Railroad Ties.

It takes each year 20,000 acres of forest to supply crossties for the railroads of the United States. It takes 12,000,000 ties to supply the demand, for which the contractors get on an average 25 cents apiece, making in the aggregate $3,250,000.

Hanged Herself.

Decatur, Feb. 5.—Mrs. J. K. Rifler, a director in the First national bank at Chesapolis and prominent in religious circles, committed suicide by hanging while temporarily insane.

Important Notice!

The only genuine "Baker's Chocolate," celebrated for more than a century as a delicious, nutritious, and flesh-forming beverage, is put up in **Blue Wrappers** and **Yellow Labels.** Be sure that the **Yellow Label** and our Trade-Mark are on every package.

WALTER BAKER & CO. Ltd., Dorchester, Mass.

F. E. MORRELL.

Wm. Ide and wife, of Tecumseh, were calling on Britton friends Sunday.

Mrs. James DuBois spent Saturday and Sunday with Will Hause and wife, at Clinton.

Ernest and Horace Lamkin, of Franklin, visited their sister, Mrs. W. J. Helm, Sunday.

A sleighload of their Clinton friends paid J. L. Kishpaugh and wife a social visit Tuesday evening.

All who have ice houses have been filling them this week consequently things have been lively.

Thomas Lee purchased a dandy Portland cutter of J. L. Kishpaugh the first of the week It is a beauty.

A. W. Curtiss left Wednesday for Sarinac, the home of his boyhood, for a week's visit with his parents and other friends.

Saturday Ed Gripton was going to take Ella (Vern's wife) down home and went over to hitch up George Exelby's 'tang. Among that animals peculiarities he starts the instant a person touches the reins. Knowing this, Ed got everything ready in the barn and they got into the cutter. So far so good, but the 'tang started a little previous. Before Ed had both reins in hand the thill struck the door and that started the 'tang anew and away he went, kicking at every jump, back of the house and around Will Clark's. For a few minutes there was music in the air. Ella screaming, 'tang kicking and Ed—well you can imagine what he did. No one was hurt but the cutter.

RIDGEWAY.

Nelson Palmer is very sick with tonsilitis.

Judge V. H. Lane next week Friday evening.

Burton Linn and Daisy Riggs were in Blissfield Saturday.

The ground hog will have to "hole up" for six long weeks."

Mr and Mrs. C. M. Gove were in Adrian Tuesday on business.

Mrs. Patrick Curry visited friends in Milan Monday and Tuesday.

Mail Messenger A. E. Palmer, of Adrian, was in the village Tuesday.

Elmer Linn and wife went to Stony Creek Sunday for a few days' stay.

Rev. H. Cansfield went to Monroe Tuesday to assist in special meetings.

Thirty new volumes were added to the list of books at the library Monday.

Mrs. Jehiel Davidson, of Tecumseh, visited her brother B. F. DePuy Sunday.

Those who took in "Fast Mail" at Tecumseh Monday evening, were well pleased with it.

George Houseman went to Ypsilanti Monday to take a course in Cleary's business college.

Mr. and Mrs. S. P. Smith and daughter, Mrs. Charles Staats, were at Cone Thursday of last week.

Dr. Howell, of Tecumseh, was called Saturday to consult with Dr. Loree in the case of Montie Florence.

Erwin Palmer, E. B. Fellows and the Misses Kate and Addie Sherman were at the county seat Saturday.

May Fletcher entertained twenty of her Tecumseh friends at her home Wednesday evening of last week.

Miss Lillian Dersham, after a stay of nearly a month with her parents near Lenawee Junction, returned Saturday.

Mrs. Sarah Pocklington, who was on the sick list last week with inflammation of the lungs, is much better this week.

We are glad to report that Mrs. Susan Clark, who has been very sick for the past two weeks, is much better this week.

The schoolmates of little Fern Lowe enjoyed a surprise at her home Saturday afternoon in honor of her sixth birthday.

Tickets and reserved seats for the Royal Hand Bell Ringers, who will be at Sutton's opera house on the 22nd, may be had of J. D. Arner. No extra charge for reserved seats.

The W. C. T. U. will hold a parlor meeting at the home of Mrs Charles Foot on Wednesday evening of next week to which all are welcome.

The ladies of the L. C. S. will give an oyster supper at the home of R. F. DePuy on Wednesday evening February 17th. Full particulars next week.

The Hon. V. H. Lane will give the fourth number of the entertainment course at the church next week Friday evening, a lecture, "The Legal Aspects of the Trial of Christ." No Sunday school worker can afford to miss this opportunity of thus making themselves acquainted with the "Jewish Courts of Justice," a topic which so often perplexes teacher as well as scholar.

On Friday evening of last week. Prof O. L. Palmer, of Adrian college, the third on the lecture course, gave his celebrated lecture "The Land of the Crescent," a historical production of the Armenians. The professor is an able and pleasing speaker and held the attention of his audience from first to last. The recitation, "Bessie and I," given by Mabel Graves, was well presented, and showed the natural elocutionary talent possessed by the young lady.

Married, at noon Wednesday, at the home of the bride's parents, Mr. and Mrs. John W. Sherman, Miss Kate Sherman to Mr. E. B. Follows, of Clifton, N. Y. Only the immediate family and a few intimate friends were present. Rev. J. P. Varner, of Tecumseh, performed the ceremony. The newly married couple left for their home at Clifton, N. Y. on the 4:50 Wabash train. Mrs. Follows leaves a large circle of friends here who wish her a happy journey through life.

MACON.

Miss Lee Morgan has the tonsilitis.

Hebron Camburn has been suffering an attack of grip.

Mark Mills was home from Adrian a few days last week.

Mrs. Will Fowler, of Saline, Sundayed with Macon friends.

Mark Moore, of Moscow, is visiting at the home of Isaac Mills.

J. Dewitt Arner, of Ridgeway, called on Macon friends Saturday.

Mrs. Catherine Burdett is under the doctor's care at this writing.

Acel Smith and wife, of Ridgeway, called on Macon friends Sunday.

Geo. Kuder and family entertained relatives from Ann Arbor Sunday.

Several Macon people attended the show in Tecumseh Monday night.

Mr. and Mrs. Frank Buck, of Saline, visited at Isaac Ganoung's last week.

Several Clintonites attended Maccabee's meeting here Saturday evening.

Mrs. Mary J. Welsh, of Clinton, spent a portion of last week with Macon relatives.

Miss Lillian Bracy, of Tecumseh, visited her brother, Frank and family this week.

Rev. Chas. Allen, of Detroit, attended the funeral of Mrs. Mary Pennington last week.

Elmer Hunter has joined the Maccabees. He "rode the goat" last Saturday night.

Misses Maude Howell and Grace Sage were home from Ypsilanti from Thursday till Monday.

Wm. Hatch and Hollo Mills came home from Detroit last week to attend the funeral of Mrs. Mary Pennington.

Bolt Sarvs, who has been visiting friends at Portland, Mich. for several weeks, returned home last week Wednesday.

Bradley Scudder has been on the sick list the past week. Thomas Marshall has been assisting Will Harring in the store.

The topic for the E. L. meeting, next Sunday evening is "Immanual, God with us," Isa 7, 14, 9, 6, 7, 15. Leader Florence Camburn.

The necktie social of last Saturday evening for the benefit of the C. E. society was well attended, and considered a complete success.

Jessie Frost accompanied Miss Maggie Biddle to Ann Arbor the first of the week; where she has gone to assist her aunt, Miss Helen Camburn.

The Epworth League entertainment will be held at the M. E. church, Friday evening of this week. A good attendance is desired. Admission, 10 cents.

Last Sunday afternoon the pulpit of the M. E. church was occupied by Mr. Boyce, of Ann Arbor, who addressed the people on the anti-saloon question.

The officers of the Union Sunday School Association, of Ridgeway and Macon townships, met last Saturday and made necessary arrangements for a convention, to be held in the D. R. church of this place, Wednesday, Feb. 24th.

The officers of Glen Hive L. O. T. M. were installed January 28th by Past Lady Commander Mrs. Emma Morgan. The officers for the ensuing year are as follows:—
P. C.—Mrs. Amelia R. Hatch.
C.—Mrs. Elfie F. Ellis.
Lt. C.—Mrs. Elmira Camburn.
R. K.—Mrs. Ellen Richart.
F. K.—Mrs. Claribel Pennington.
Chaplain—Mrs. May Worden.
Sergt.—Mrs. Martha Betser.
M. at A.—Miss Loanna Morgan.
Sentence—Mrs. Olive Randall.
Picket—Mrs. Ann Carter.

LAKE RIDGE.

Abram Harrington is entertaining a sister from Canada.

Thomas Murphy was quite indisposed a few days last week.

The family of Elmer Smith are all sick with throat trouble.

The zero weather has abated and the thermometer now registers at freezing.

The many friends of Mrs. R. Hendershot are grieved to hear of her serious illness.

Mrs. Helen Osborne, of South Macon, was the guest of her sister, Mrs. Hendershot last Thursday.

Miss Ella Bailey is canvassing this vicinity for a book entitled "The First Battle by Our Defeated Candidate, W. J. Bryan."

Geo. Rendel, who was taken to Kalamazoo for treatment a few weeks ago, is reported better and the family entertain hopes of his recovery.

Meetings are still in progress in the F. M. church. Quite a number joined Sunday evening on probation. The church was crowded to overflowing.

The officers and workers of the Sunday-school were greeted with a good fire Sunday morning which was duly appreciated. The attendance was good.

S. F. Fritz, of 677 Sedgwick street, Chicago, says: "I had a severe cough which settled on my lungs. I tried a number of advertised remedies and also placed myself under treatment of several physicians, with no benefit. I was recommended to try Foley's Honey and Tar. With little expectation of getting relief, I purchased a bottle. I had taken but few doses when I felt greatly improved; I was enabled to sleep, spitting of blood ceased, and by the time I had taken the second bottle I was entirely well. It saved my life." Orr & Temple.

Thousands are suffering excruciating misery from that plague of the night, Itching Piles, and say nothing about it through a sense of delicacy. All such will find an instant relief in the use of Doan's Ointment. It never fails.

When bilious or costive, eat a Cascaret, candy cathartic, cure guaranteed. 10c, 25c

Always in season, Hopkins' Steamed Hominy (Hulled Corn). Elegant lunch in milk. Quart 10 cents.

Bucklen's Arnica Salve.

CONE.

Dan McFall visited his sister at Britton Friday and Saturday.

Sarah Sherwood visited Edith Dumphy near Rea Saturday and Sunday.

Mrs. Gilbert Munson, of Raisinville, visited her sister, Mrs. Frank Olds, Monday.

Chas. Craig, of Toledo, spent last week with his parents, Mr. and Mrs. Chas. Craig.

The receipts of the Ladies' Aid Society held at Mrs. Chas. Caswell's Wednesday were $5.00.

Walter Cone, Charlie Dennison and little Eva Smith visited friends in Detroit over Sunday.

Mr. and Mrs. Myron Ray attended the funeral of the latter's uncle, Warren Covell, at Britton Monday.

Schuyler McFall and son Perry, of Whittaker, recently visited the former's daughter, Mrs. Harry Wilcox.

Henry Tea has moved a house that formerly belonged to Caspar Habmon onto the lot belonging to Homer Sherwood and will reside therein.

The Ladies' Aid Society have elected the following officers:
President—Mrs. Margaret Caswell.
Vice pres.—Mrs. Almeda Buck.
Sec'y—Miss Tina Ellis.
Asst. sec'y—Miss Maud Helm.
Treas.—Mrs. Loraine Vandeventer.
Committee—Mrs. Marietta Allshouse, Mrs. Emily Dennison.

HOLLOWAY.

Mrs. A. T. Carpenter spent last Friday in Adrian.

Mrs. A. H. Kelley, who has been ill for some time, is reported not so well.

Albert Boies' family, of Detroit, visited his sister, Mrs. Chas. Benedict, the first of the week.

Mrs. L. B. Spencer, who has been on the sick list for some time, is so much improved that she was out to church Sunday.

H. Schwab, Geo. Riley and Jas. Lane have been taking a vacation from their kitchen cabinet business during the recent cold weather.

The surprise given Kenneth Holloway Thursday evening of last week was a decided success, the evening being passed very pleasantly.

Mr. and Mrs. R. Gillespie, who reside near Tecumseh, visited at A. D. Macham's Friday and their daughter, Jennie, returned with them.

Among those who attended the Farmers' Institute at Adrian last week were Geo. Holloway, A. D. Macham, James McIntyre and Chas. Benedict.

The Ladies' Aid Society of the Presbyterian church, will hold a missionary social at the parsonage next Thursday. A large attendance is desired.

Rumor has it that the Holloway Dramatic Club with a few others enjoyed a sleighride to Britton Saturday evening, attended the entertainment held there and also partook of a bountiful repast served at the Exelby house.

The lecture, "John Knox, and Presbyterianism in Scotland," given at the Presbyterian church Sunday evening by P. S. McKinnon, of Tecumseh, deserves more than mere mention. A large audience listened with intense interest and the lecture was much appreciated by all present.

Just try a 10c box of Cascarets, the finest liver and bowel regulator ever made.

There are as many different definitions of love as there are ways to use up bread crusts.

Glad Tidings to Asthma Sufferers.

Foley's Honey and Tar gives quick and positive relief in all cases. Orr & Temple.

It has been discovered that the First National bank of Newport, Ky., recently failed, has been mismanaged or worse

$100 Reward, $100.

The readers of this paper will be pleased to know that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.
F. J. CHENEY & CO., Toledo, O.
Sold by Druggists, 75c. June
Hall's family pills are the best.

"Let well enough alone" can be thus improved. Suffer a healthy sufficiency to remain in solitude.

It Beats All

The great success that Dr. Caldwell's Syrup Pepsin has reached in so short a time. Those who once give it a fair trial, then and there become walking and talking advertisers of this great remedy. Constipation, Indigestion and Sick Headache cured. Get a 10c trial size, larger sizes 50c and $1.00 of Orr & Temple.

When Peffer leaves the senate next March he will go back to the editorial chair of the Topeka Advocate.

The Grandest Remedy.

Mr. R. B. Green, merchant, of Chilhowie, Va., certifies that he had consumption, was given up to die, sought all medical treatment that money could procure, tried all cough remedies he could hear of, but got no relief; spent many nights sitting up in a chair; was induced to try Dr. King's New Discovery, and was cured by use of two bottles. For past three years has been attending to business, and says Dr. King's New Discovery is the grandest remedy ever made, as it has done so much for him and also for others in his community. Dr. King's New Discovery is guaranteed for Coughs, Colds and Consumption. It don't fail. Trial bottles free at Baker & Hall's Drug Store.

Comptroller Eckels has written a circular to governors of states asking them to suggest state legislation requiring state supervision of state banks and urging its necessity.

What a wonder it is that some women are so heedless about the things that concern them most. They endure all sorts of pain and misery with carelessness which would never be possible if they realized the consequences.

Comparatively few women understand that when they neglect their health because they are too busy or overworked or their minds are taken up with other concerns, that they are balancing on the edge of a fatal precipice.

Any weakness or disease of woman's special organism is no trifling matter. A woman who through indifference neglects these troubles is laying the foundation for life-long wretchedness.

A modest woman naturally recoils from the mortifying ordeal of examinations and local treatment which doctors insist upon. But there is no necessity for any such repugnant alternative. Dr. Pierce's Favorite Prescription cures these delicate complaints positively and completely. It is a medicine devised for this particular purpose by one of the most eminent of living specialists in woman's diseases.

Dr. Pierce has been for nearly 30 years chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y. During this time he has received fully ninety thousand letters from women who have been cured by the "Favorite Prescription." Some of these letters are printed by permission in one chapter of Dr. Pierce's great thousand-page book, "The People's Common Sense Medical Adviser." It contain advice and suggestions for self-treatment which every woman ought to read. More than half a million copies have been sold at $1.50 each. An absolutely free edition in paper covers, will be sent for a limited time to anyone sending 21 one-cent stamps to pay the cost of mailing *only*. Address World's Dispensary Medical Association, Buffalo, N. Y. For a handsome cloth-bound copy send 31 stamps.

A GREAT EXPENSE

To Carry on an Almost Helpless Fight. —At Last the Fight is Over.

(From the Battle Creek Moon.)

Our representative called at 26 Battle Creek Avenue, the residence of S. I. Robbins, and in an interview with him brought out the following facts: Mr. Robbins tells of his wife's experience in a manner that carries conviction with his words. He says: "I am sorry my wife is not at home this P. M., but no one knows better than I how she has suffered during past years. For twenty years she has been afflicted with the various forms of kidney complaint and an enlargement of the liver. She was often confined to her bed for more than two weeks at a time suffering untold agony. She has doctored constantly, and I have paid out in doctors' bills for her alone as much as $300.00, and then her relief was only such that she would be able to be around for a spell. Some time ago she felt the symptoms of another attack coming on, such as a pain in through the kidneys and back. I hardly know what induced me to get a box of Doan's Kidney Pills, instead of sending for the family physician; however, I got some and she commenced their use. It was a surprise to us both to see their action; the attack was warded off, and she continued taking them with marked improvement each day of their use. She is better now than she has been in years, the pain in the back and others in the kidneys have entirely gone. Hardly a day goes by that we do not mention the great good Doan's Kidney Pills have done her. I was always opposed to patent medicines, but confess that my wife's experience with Doan's Kidney Pills has done much to change my opinions. If it were not for those pills she could not have been able to be out this morning."

Doan's Kidney Pills for sale by all dealers—price, 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, *Doan's*, and take no other.

TECUMSEH, MICH., FEB 5, 1897

What has become of Adrian and the Lima Northern railroad?

It is now said that Tecumseh has the best live stock market in Lenawee county.

The severe cold weather, or rather the severe changes of the weather in this section during the last month have brought on many severe attacks of la grippe and the doctors are all busy both in the villiage and country.

Farmers who kept their wheat expecting the price to reach $1.00 per bushel will wait some time before getting it. From the top market 96 cents it has gradually lowered until today it is only 83 cents and in the minds of the financial people there is no reasonable reason why it should remain even at this price.

It is reported that more wood is being cut this winter around Tecumseh than in many years previous and on account of the high price of coal more people have used wood this winter than for many years before. There seems to be ready sale on the streets here for dry body hickory at $1.75, second growth oak at $1.50 and soft wood at $1.00 and $1.25.

With corn at 12 cents a busnel, chickens on foot at seven cents a pound would seem to be a paying investment. From one to five carloads of poultry have been shipped every week from Tecumseh since the cold weather commenced, and the price has hardly been below seven cents. Certainly the farmers who have anything to sell now should take courage and get rid of it. Corn and fatting stock are low but poultry is very high and there never has been such a demand for milch cows at good prices.

'ROUND ABOUT US.

Clippings and Condensations From our County Contemporaries.

While returning from Adrian Wednesday, Mrs. Nora Stevens Babler, of Somerset, got as far as Rome Center when she suddenly expired from heart failure. Undertaker Tansley will conduct the burial tomorrow. The lady was about thirty years old and had previously had some indications of heart disease.—Addison Courier.

The selection of Gen. Alger as secretary of war is regarded as insuring the appointment of Mr. Hanna to the senate. Gen. Alger's selection is attributed to the Foraker-Busbnell influence, and it is said that the appointment of Mr. Hanna was held to be contingent upon this selection. Gen. Alger is a friend of Foraker's and the unfriendliness that has existed between Senator Sherman and Gen. Alger up to a recent date, was the outgrowth of Gen. Alger's antagonism to Sherman's presidential ambition. —Adrian Telegram.

Postmaster John Gillen, of Saline, says it is all fixed up who is to succeed him when his term of office expires next June. The lucky man, he says, is George Burdick, who has all the field to himself since W. N. Lister started out to get the nomination for county school commissioner. John says: "All seems to be peace and harmony among the other fellows at present. But it remains to be seen whether Lister gets his place or not."—Ann Arbor Argus.

James M. Hall, of Toledo, general passenger agent of the Wheeling & Lake Erie railway company, has tendered his resignation, to take effect Feb. 1st Mr. Hall has many relatives and friends in this city, and is widely known among railroad men everywhere. He was general passenger agent of the Wabash railway system at the time the Detroit extension was built through this city. He was also attached to the Lake Shore passenger department some years ago. He is credited with having organized the return ticket and the rebate systems which now prevail on all American railroads.—Adrian Times.

One of the boldest robberies in the history of crime in Detroit was perpetrated about 6 o'clock Saturday night on Michigan avenue, within five minutes' walk of the city hall. Two men entered the shoe store of David McAllister, at 283 Michigan avenue, and compelling the submission of proprietor and clerks at the point of revolvers, robbed the cash drawer of between $60 and $75. The street outside was filled with people going home, at the time, but so well was the work of the robbers done that nobody outside of the store knew anything of the affair until they had been given nearly fifteen minutes to make their escape. In the store at the time were David McAllister, his daughter and three boys, William Armstrong, Willie Schultz and Bennie Ellis. All were thoroughly frightened and permitted the robbers to escape with no efforts to check them. Both robbers were afterward captured and identified, however. The store where the daring act was committed is next to the bakery of Henry C. Weisinger, formerly of this city, and one of the men had been in his place of business but a short time before.—Adrian Times.

Exchange says: "It is not unusual to see a person take a nickel or a silver coin from the pocket and place it in the mouth for safe keeping until ready to use it. But it is a thoughtless and risky thing to do. No one knows where the coin has been, into what filth or contagious disease. There is not a doubt that contageous diseases are spread through the agency of money. It is not infrequent that rolls of bank notes brought to cashiers have to be spread out to air and deodorize, because of offensive smell. No person should risk touching his finger to his tongue while counting money." At last the mystery is solved, we are no longer ignorant of our healthy condition. The fact that we don't place silver coin in our mouth, or touch our finger to our tongue while counting greenbacks, explains matters —we have none to count. But if any of our dilinquent suscribers wish to make up a roll of bills for us, we will risk trying the experiment, even if we are obliged to call in the doctor.—Deerfield Times-Journal.

Representative Edgar, of Lenawee, is considering a project to entirely revamp the present election law. He says that as its stands at present it is so long and rambling that election inspectors find it difficult to tell just what their duties are, and what is considered a legal vote in one part of the state is thrown out in another. He wants the law solidified and simplified. He would have the state provide all ballot boxes, having them made by contract, and then stamping them with the state seal and making all townships and cities buy them. Speaking of Pingree's plan to do away with conventions, Edgar said he did not think much of it. "I lived in an Ohio county," said he, "where they had the primary election system, and instead of operating against the use of money in deciding nominations it had the reverse effect. The man with money could have every ward heeler out spreading his name before the primary election, which the poor man could not, and the result was usually victory for the man with wealth." —Adrian Telegram.

LITERARY NOTES.

The American Journal of Photography commences the new year with a fine number for January discussing the "Relative Distance between Screens and Plates in Half-Tone Process." "Comparative Tests of Commercial Orthocromatic Plates with Yellow Color Screen." "Copyright and Reproduction" and many other matters of value to professional and amateur photographers. $2 per year, 25c a copy. Thos. H. McCollin & Co., Philadelphia.

Trimmed sash-ends, matching the corsage and sometimes the whole gown, have appeared. They taper to the waist from wide pointed ends, and are trimmed all around with narrow lace or chiffon frills. No fluffy loops head them, often they hang straight down from the folded girdle, fastened perhaps by handsome buttons, and if there are loops they are short, severely conventional, and flat.—From "Review of Fashions," in Demorest's Magazine for February.

* * *

"No novelist can succeed to-day in retaining the full vigor of his art unless he keeps constantly before him the three great sources of his power: the power to hold our attention, the power to reach us through our emotions, and the power to make us see others as we are accustomed to see ourselves. He must fail if he attempts to wield the same power by means of his beautiful morality, or his touching pathos, or his admirable critical judgment alone."—Annie Nathan Meyer, in "The Problem of the Novel" in February Arena.

* * *

A writer in the February number of the North American Review, who signs himself A Foreign Naval Officer, endeavors to answer the question, "Can the United States Afford to Fight Spain?" Much clever discussion is indulged in, and the opinion firmly expressed that an embroilment with Spain would inflict upon that country but little lasting damage, and that while she would not be able to defeat the United Stated, yet she could easily inflict losses amounting to many millions of dollars.

To make a success of irrigation it by no means follows that water should be available for a whole farm. With ten acres of assured crops and the rest dependent upon rainfall, the farmer, no matter what his location, will be better off than he is now. The future will undoubtedly see irrigation spread all over the East. When it does, regular crops and certainty of income will be the order. Skillful irrigators will then conclude that the cost is not so important an item when benefits are considered. The first to try will get the usufruct from good prices in times of partial crop-failure, though they may get the laugh when rain is plenty.—Albert G. Evans, in February Lippincott's.

* * *

The February number of "Table Talk" opens with "The Lobster at Home" by Helen Louise Johnson, one of the most comprehensive and valuable articles written upon this subject which is at the same time bright and entertaining, giving as it does the complete life-history, as well as the various methods of its preparation for the table. In addition to this and the regular Departments of "Housekeepers Inquiries," "The New Bill of Fare," Menus regular and special,—"Seasonable Receipts," Fashions and Entertainments (for a St. Valentine's Party among others), all of which are very helpful to the housekeeper and home-maker, the issue contains an interesting article on the Quotation Mean; an account of some "Culinary Legacies from the Indians," by Martha Booker Flint and one on "Ancient Salads" by Elizabeth Grinnell, as well as mention of the latest novelties, books of interest and so forth. Any of our readers are offered a sample copy of the magazine free, if they will address Table Talk Publishing Co., Philadelphia, Pa.

* * *

The Review of Reviews for February makes "A Plea for the Protection of Useful men" from bores and "societies," and all well-meaning people who bother the life out of public men by letters and calls on the pretext of seeking assistance in some worthy undertaking. The editor of the Review publishes letters on this subject from the late Gen. Francis A. Walker, written only a few weeks before his death. In one of these letters General Walker wrote, "I am not well, and neither callers nor correspondents have any mercy."

* * *

In McClure's Magazine for February Mr. H. J. W. Dam has a particularly interesting article on "The Making of the Bible." First it describes by what strange and almost miraculous, means narratives of which the original records have utterly perished, survived in fair integrity through centuries of turmoil and confusion; and next it describes the finely wrought, typically modern, instrumentalities and appliances by which those narratives are today published to the world, in all its varied languages, by the million copies through the Oxford University Press. Pictures of the University Press and facsimilies of early texts illustrate the article.

There is, perhaps, no other natural gift that brings so much genuine pleasure to its possessor as does the keen sense of appreciation. It teaches us, or points out to our understanding, the benuties of Nature that are all about us, gilds the commonplace, and emphasizes the joys of life and of living. Appealing to us through all our senses, the pleasures that it brings are ceaseless and unfailing. Seen through appreciative eyes the beauties of life overshadow and eclipse the homely, rough places. There is an attractive side to everything, and this an appreciative mind will see first, and longest remember.—February Ladies' Home Journal.

* * *

A "Kaffee Klatsch" for charity is a new idea for raising money originated by one of the girls who has just returned from a year spent in Dresden. There are plenty of girls who have given a "Kaffee Klatsch" here before, but they have invariably spoiled it by having all sorts of innovations, such as tea, ices, and bonbons, and making a sort of fair out of it, where fancy articles were sold. This girl intends to have hers in true German style, the only addition to an ordinary German "Kaffee Klatsch" being the waitresses who will serve at the different tables. A number of her young friends have offered their services to help her, and they will be dressed in the peasant costume of the different partsof Germany and Austria. From Harper's Bazaar for February.

* * *

The series on "Great Businesses" is opening up an entirely new field of information for magazine readers. Many industrial articles on American subjects have been published heretofore, but in this series for the first time is the reader shown the man's brain at work behind the enterprise. The second paper, "A Great Hotel," by Jesse Lynch Williams, shows the intricate organization, the many checks and balances and economies, the advertiseing and executive ability, that go to the making of the peculiary American development—the great hotel. This story is told in February's Scribner with the practised literary touch of a young man who has earned distinction as a writer. The many pictures made from actual scenes, and the astounding facts and figures that accompany them, make the whole article a complete revelation of a business that is a mystery to most people.

* * *

Mr. Godkin (Democratic Tendencies) points out the essential differencies between ancient and modern democracies. Ancient democracies were generally small; modern ones are large. (1) The size of our country and the increasing complexity of modern life and of governmental problems brings the greatest danger to all. It is doubtful whether the development of administrative capacity in mankind has kept pace with the demands for it. Especially is there danger to government when the best administrative talent cannot be secured in politics. (2) Another danger is the old one of plutocracy. Rich men now have a fondness for power as in the past. (3) Another grave danger is the system of giving offices to men as rewards, which prevents in many cases the selection of the ablest for the public service. Such are the fundamental and far-reaching dangers to modern democracy.—Atlantic Monthly for February.

Harper's Magazine for February is a monument of the policy of exalted journalism which has characterized it in the past, and which is more and more becoming the policy of American magazines everywhere. Articles on literary criticism, or advanced thought in art and letters, though by no means entirely absent, are subordinated to rereports and discussions of the vital interests of modern life. Richard Harding Davis went all the way to Moscow to report the coronation of the Czar and Czarina. Charles F. Lummis presents the first of a series of articles on the Mexico of today, in preparing which he spent three months beyond the Rio Grande, and Poultney Bigelow has brought back from Cape Town a series of articles on "White Man's Africa," the present number of which, illustrated by Frederic Remington and W. H. Drake, from photographs taken by the author, discusses the career of President Steyn of the Orange Free State.

We are Going to Move!

March 1st next we take possession of the building recently vacated by C. E. Lenardson at Blissfield. Prior to that date, we must dispose of about one-half of our large stock of

BOOTS, SHOES & RUBBERS

At our old Stand in Tecumseh.

To convert all these goods into cash during the usually dull period of the year is a tremendous undertaking and calls for extraordinary concession to customers. To stimulate stupendous selling we must make stupendous

SACRIFICES IN THE PRICES!

And that is what we propose to do. The Slaughter begins

Saturday, Feb 6th, and Continues until Feb, 27th.

DURING THESE THREE WEEKS WE WILL

Sell Everything at Cost

Which means BARGAINS, as follows:

ALL	$5.00	SHOES NOW	$3.75	ALL	$2.50	SHOES NOW	$1.85
"	4.00	" "	2.90	"	2.00	" "	1.50
"	3.50	" "	2.50	"	1.50	" "	1.10
"	3.00	" "	2.25				

We have a large stock of Boston and Goodyear Glove Rubber Goods, which must all go at **10 per cent. Discount**

We are compelled to make this great sacrifice as the capacity of our new quarters are somewhat limited, and the stock must be reduced. Terms of sale strictly cash.

Tecumseh, Mich. **Karner Bros.**

The Tecumseh Herald.

TECUMSEH, MICH., FEB. 5, 1897.

SPECIAL NOTICES.

FOR SALE CHEAP—A 5-horse engine and 12-horse steam boiler. For particulars inquire at the HERALD office

FOR SALE CHEAP—Young pure blood Jersey calves, both sexes, from cows making from 9 to 18 pounds of butter per week. Inquire or address at once, W. T. ECCLES Tecumseh, Mich.

FOR SALE—A good house and lot in the village of Tecumseh for $350.00. A rare chance for some one with small capital to secure a good home.

Ed. Shepard was over from Adrian Tuesday.

C. E. Williamson returned from New York Wednesday.

R. V. Wilson started for Cincinnati Tuesday via Toledo.

Don't miss seeing Mary Ellen Screech in "Female Masonry."

Mr. and Mrs. John Orr visited friends in Ann Arbor over Sunday.

Albert Boyce, of Detroit, was a Tecumseh visitor over Sunday.

Secure your tickets and seats early for the Royal Hand-Bell Ringers.

The ladies of the Eastern Star will give a laughable farce on Masonry.

The HERALD is under obligations to Guy Davidson for a fine office calendar.

Mrs. May Greenfield visited Mrs. Geo. Fuller, of Pentecost, Monday and Tuesday.

Mrs. L. B. Ayers was the guest of Mrs. Blanche Fisher the first of the week.

Table Linens, handsome patterns, popular prices, at
ANDERSON & ROSACHANS'.

Tecumseh State Savings Bank declared a dividend to its stockholders on Feb 2nd.

Prof. Ed. Morden, of Adrian, the great mandolin player, was calling on Tecumseh friends Monday.

Geo. Horton, of Fruit Ridge, was in town Tuesday and spoke to the Grangers in Newburg in the evening.

Dolph Heesen, who has been making a business trip in the East this week, is expected home tomorrow night.

Don. E. Palmer, wife and children, of Norvell, were the guests of H. D. Cutting's family Saturday and Sunday.

Rev. Mr. Baldwin, of Addison, and Rev. H. Cansfield, of Ridgeway, were calling on Tecumseh friends yesterday.

Mr. and Mrs. E. C. Coryell drove up from Deerfield and made their Tecumseh friends a visit the fore part of the week.

David J. Lewis will preach Sunday evening at Tecumseh Friends' church. No service will be held there in the morning.

Mrs. Geo. Heesen's committee will serve supper next Thursday evening at the Presbyterian church parlors. Every one invited.

Clarence Jackson has gone to Jackson city to reside and will enter the east side high school there. We regret to have him leave us.

Mrs. Millie VanAntwerp, after a visit of some weeks with her parents, Mr. and Mrs. Miles Baldwin, left yesterday morning for Chicago.

The Misses Ada Boyd and Anna Gray gave an oyster supper to a few of their many friends at the home of the former last Wednesday evening.

John Temple, who has been having the grip for several weeks, has been having a tough time of it. Even now he is not able to be out much.

Rev. and Mrs. E. C. Andrus and some others from the Universalist society were entertained by Mr. and Mrs. Geo. Melody at their home Wednesday.

John Chamberlain drove over from Adrian after C. B. Pennock, G. W. Marvin and Miss Ione Lampson, all of whom spent Sunday at their homes in that city.

George Lanning brings to the HERALD office the first large egg of the season. Over eight inches in circumference and weighs something less than three pounds. Next.

Rev. Mr. Taylor, brother-in-law of Rev. C. M. Brown, left Monday morning for Winnemac, Ind., leaving his wife, who is a twin sister of Mrs. Brown, to complete her visit.

The Friends' quarterly meeting will be held Saturday and Sunday, Feb. 6th and 7th, at Raisin Center. Rev. Wm. Allen, of Canada, and others are expected to be in attendance.

Quite a number in the west end of town have been on the sick list the past week but not seriously so. Among them were Mrs. Abner Wilson, Mrs. James Updyke, Mrs. Geo. N. Stacy and Mrs. Ezra Burlingame.

A Sunday-school convention is being held today at the Baptist church here. Rev. E. M. Stevenson, state superintendent for that denomination, is in attendance. The closing exercises will occur this evening. All are cordially invited to attend.

New spring dress goods arriving every day, at HARRIS & HITESHU'S.

It was a fair house that greeted "The Fast Mail" at Sutton's opera house Monday evening. While the scenic effects were fine the company as a whole was not strong and, were it not for A. W. Magill as Sleuth, Lois Jaynes as Belvy Ann, Mary Asquith as Mary Martin and Van. C. Barrett as Macaroni the Dago, might have been taken for amateurs. These in their several roles did good work and were largely instrumental in making the play satisfactory to the audience. The explosion of the steamer and both the freight and fast mail trains were realistic, while Sleuth, the detective, and Belvy Ann, his wife, kept every one in good humor.

Karner Bros. are going to move.

Mr. and Mrs. Wm. Ide were guests of Britton friends Sunday.

A. E. Karner spent Sunday with his parents at Blissfield.

Mrs. G. P. Burtch, of Ionia, is the guest of Mrs. Chas. Steveson.

Frank Wallinger and wife were calling on Clinton friends Wednesday.

Roy, the infant son of Mr. and Mrs. Walter Fink, is very low with brain and lung trouble.

Wilson brothers have been busy this week filling their icehouse on their celery farm. It took 100 loads.

Look over the list of great bargains in Karner Bros.' "ad" this week.

Joe Hanford has been having a severe tussle with the grip this week. It now looks as if he would come out victor.

Mr. and Mrs. Andrew Ayers, of Cambridge, visited their daughter, Mrs. Chas. Smith Wednesday and yesterday.

H. H. Carty, having disposed of the laundry, together with his wife, left for East Tawas, Mich. yesterday afternoon.

Frank Rising, the first of the week, slipped and fell. His hip did not make a dent in the walk, but he has hobbled around with a cane ever since.

Mrs. Joseph Russell, who has been seriously ill, is, we are happy to say, improving steadily day by day, and it is hoped the crisis has been passed.

Chauncey Vedder took a sleigh load of people to Tipton Tuesday for an evening's visit with Wm. Fisher's family. A very pleasant time they had.

The boys got up a sleighing party last evening and went out to the home of Richard Mead in Raisin for a good time, and they had it and no mistake.

About twenty young people from Adrian came over and spent Wednesday evening with Miss Avery at the home of Mr. and Mrs. A. W. Harding. A pleasant evening they passed.

To look well, feel well and be satisfied, buy a Henderson corset at
ANDERSON & ROSACHANS'.

Next Wednesday afternoon, at the residence of Mr. and Mrs. Peter Young, their daughter Nellie will become Mrs. Irving Luce at the hour of two. Rev. Marsh, of Tipton, will perform the ceremony in the presence of many relatives and friends.

Mesdames Henry Conklin, Lucius Lilley, A. W. Mills, A. W. Slayton, O. M. Brown, M. C. Taylor, R. B. Gillespie E. B. Wood, A. Hardingburg, Jennie Hall and Miss Mate Dingman were guests of Mrs. F. D. Rector Wednesday afternoon at her pleasant home north of town. It was a delightful company.

We wondered why George Beneway was on the streets early and late peering into sleighs and talking with every farmer, so we tackled him about it and found he was buying pelts, hides, chickens and in fact most everything a farmer has to sell for L. D. Dewey. Geo. is consequently on the alert being a hustler.

James Eccles, Louie Jones, Clement Hardingburg, Harry Richter and Geo. W. Knapp started early Wednesday morning for Sand Lake to chase the crafty fox, and on their return at night had as fine a specimen as you often see. It was on exhibition at C. A. Wright's drug store in the evening.

For the next three weeks everything will be sold at cost. KARNER BROS.

Robert Moir and family left for their new home, Hudson, Tuesday. They have spent most of their lives here and have a host of friends, who regret to have them leave. They will be greatly missed. The best wishes of all accompany them. Our sister city will find in genial Rob and his estimable family valuable accessions to the community.

A theatrical event of more than passing importance, and at the same time a most pleasing social event, is the coming to the New Croswell, Adrian, on Thursday February 11th, of the gifted French actress, Mlle. Rhea, who will present her latest and greatest success, "Nell Gwynne." Mlle. Rhea has an excellent company, and press and critics speak in highest praise of the star and her new play.

What little time we have been on the streets this week we have met the following from Clinton: Mr. and Mrs. Geo. Belding, Chauncey L. Fuller, wife and daughter, Clara, Mrs. Chas. Fabrique and Fred, Mrs. A. Harlan, Elmer Fuller, Mrs. James McCook, Anna O Hara, H. W. Saxton, John Machen, Fred Lehn, Fred Koering, Mrs. A. B. VanDeMark, Mr. and Mrs. Len Rhodes, Florence House, Rollin Woodard, Mrs. J. B. Wells and Mrs. E. R. Smith.

Beautiful Black Dress Goods goods just opened at
ANDERSON & ROSACHANS'.

The hop at the Armory last Friday evening was the most enjoyable of the season. Most of our society people were present and the festivities were enjoyed by the following from Adrian: Mr. and Mrs. Henry Bowen, Mr. and Mrs. Howard Taylor, Dr. and Mrs. Andrews, Doctors Gibson and Segar, Messrs Whaley, Cochran, Earl Allen, Henry Farnsworth, George Clark, G. Henry Crane, John Hensey, Thomas O'Connell, Mrs. Ed. J. Shephard and the Misses Farnsworth, Cole, Moreland, Gorman, Valle, Ross, Wynn and Dillon.

At the last meeting of the Monday day club, February 1st, Mrs. C. Bramble furnished an interesting paper concerning the life, paintings and engravings o. Albrecht Durer, "The Evangelist of Art." Mrs. Wright read a humorous poem by J. G. Holland, Albert Durer's Studio.

"In the house of Albert Durer
Still is seen the studio,
Where the pretty Nurembergers,
Cheeks of rose and necks of snow,
Sat to have their portraits painted,
Three a hundred years ago."

Mrs. N. P. Howland gave a fine history of Durer's celebrated engravings, the "Great and Little Passion." Miss Minnie Corey compared wood engraving of the sixteenth century with that of the 19th century.

Will Baker made a trip to Detroit Tuesday.

James Kehoe, of Clinton, was on our streets Tuesday.

Al Hand has a large force of men at work this week filling his ice houses.

The Table factory is running this week. We trust it will continue so to do indefinitely.

Mrs. C. A. Wright started for Boston yesterday for a month's visit with relatives and friends.

Chas. W. Nase and wife, of Clinton, were in town shopping Monday and called on several friends.

Will Caldwell, John Primrose and Fred Hermann were taking in the sights at Toledo Tuesday and Wednesday.

Thomas Kyle will take a prominent part in the play "Female Masonry." If you want fun, go, for where Tom is there fun is also.

One day last week Vern Heesen struck his hand against the postoffice door and was forced to carry it in a sling for two days.

Among those from Clinton who took in the Fast Mail Monday evening were L. J. Leek, H. W. Saxton, C. H. Thompson, Steve Huntington, Will Kimball, Marvin Pardee, Claude Hause and Ott Gillen.

Ladies' $2.00 Dressing Sacques for 98c, at HARRIS & HITESHU'S.

Fred E. Morrell, of Britton, offers his farm of 120 acres, located in the township of Macon, for sale or rent. Anyone desiring a farm could not do better than to see Mr. Morrell. It is fine and productive land. The buildings are good and everything up in shape.

Miss Mary McKee has been suffering the past week from heart trouble which she has been subject to for a long time. In this instance it has been no doubt aggravated by the news of the death from pneumonia of a favorite nephew, J. Bruce Pollock, who lived at Exchange, Penn., and had many acquaintances here.

Russell & Garlinghouse Bros. have been for the last few weeks purchasing a large amount of live stock, cattle, sheep and hogs and shipping from Tecumseh. They have paid the highest prices paid in any market near here and as a result have been shipping several cars each week. This good work will go on as long as there is any live stock to buy. Farmers need no longer take their stock to Britton or Adrian.

They had a great cocking main at Jackson Saturday night when Albion birds were pitted against Tecumseh birds. It resulted in a clean sweep for the latter as the two battles won by Albion were the first two when Jackson birds were used and the other nine were won by Tecumseh's birds, breaking the state record. Don't you think for a moment that Tecumseh hasn't great game stock and she has men that know how to fit them for the pit as well.

We will give you more values fo your $'s than any house in Southern Michigan. HARRIS & HITESHU.

Monday evening after supper a team was seen coming down Chicago street, from the west, apparently driverless. They were stopped when lo, the driver was in the bottom of the sleigh beastly intoxicated. It proved to be David Nixon, living east of Clinton, who had been over to Adrian and succumbed to the effects of Adrian's beverages. Being in no condition to continue on home, his team was put in Bennett's barn until he had sobered up sufficiently to know what he was about, when he resumed his journey.

Alva Spayde is making quite extensive changes in his store increasing business in both his clothing and shoe departments thus making it necessary to not only put in a new cash desk but to establish a person there as cashier and bookkeeper. Miss Bessie Spayde takes this position and the new venture will begin Saturday. Every year since Mr. Spayde has been in business in Tecumseh his business has been spreading and for the single reason that he carries the goods people desire to buy and sells them at lowest prices and has the reputation of being square dealing in every way. Such business methods are sure to bring success and it is with much pleasure that the HERALD sees the necessity of this new departure in his business.

Fine $30.00 cutters for $19.00, at
C. A. SLAYTON'S.

The ladies of the Eastern Star will present a laughable farce entitled "Female Masonry" (a La Lease) at Sutton's opera house, Tuesday evening February 9th to be preceded by a musical program which is as follows:—

Orchestra.
Solo—Rev. W. R. Blachford.
Violin Solo—Miss Elliott.
Duet—Rev. W. R. Blachford and Miss Thorpe.
Orchestra.
Solo—Mrs. L. M. Kellogg.
Duet—Rev. W. R. Blachford and Miss Thorpe.
Solo—Mr. Will Elliott.
Orchestra.

CAST OF CHARACTERS.

Most Illustrious High Mogul—Miss Cutting.
Grand High Pull Hauler—Miss Smeltzer.
Sister Royal Panjandrum—Mrs. F. M. Bryan.
Sister High Muck-a-Muck—Miss Schreder.
Sister Hobble-de-Hoy—Mrs. F. D. Avery.
Sister Gibble Gobble—Mrs. A. R. Boyd.
Sister Linen Draper—Mrs. J. D. VanVleet.
Sister A. F. & A. M.—Mrs. H. S. Waring.
Grand Inner Guard of the Temple Keyhole—Mrs. S. Catlin.
Sister Mary Yelling Screech—Mrs. H. Osborne.
Two Candidates—Miss Anna Shaw and Paul Pry.
Pianist—Miss Root.
Admission 25 cents. Children 15 cents.

Mrs. Geo. W. Knapp expects soon to take a trip to Florida.

W. J. Clark, of Piqua, O., was the guest of A. C. Paxon Saturday.

Those not in the secrets of Masonry don't fail to attend "Female Masonry."

Mrs. George N. Stacy has been quite ill since Saturday and is still confined to her bed.

Bring out the children and let them hear the five artists on 181 bells Monday, Feb. 22.

Mrs. Buell, who has been the guest of John H. Osborn's family, returned yesterday to her home in Gaylord.

Mr. and Mrs. James R. Lilley sailed for Europe on the Red Line steamer Freiseland Wednesday February 3rd.

Miss Florence Montgomery has somewhat recovered from her recent illness but will rest for some weeks from work.

Mr. and Mrs. F. W. Samsen entertained a number of their old neighbors and friends from Blissfield Monday evening.

There is a rumor on the street this afternoon that by an agreement made with the railroad people today Adrian will get the Lima Northern.

About seventy connected with the young people's society of the Baptist church passed an evening of rare social enjoyment Tuesday at A. VanValkenburg's.

The most entertaining of any of the entertainments given by the Star Course this season will be that by the Royal Hand Bell Ringers, of London, England, on Monday, Feb 22. Admission 50c, children 25c.

John Barkwell, our former laundryman, has again returned to Tecumseh and will take possession of the laundry now run by H. H. Carty. Mr. Barkwell is a first-class workman and hopes to receive the patronage of all of his old customers and as many new ones as possible.

Mrs. Josephine Darling, wife of Frank W. Darling, of Onsted, died Monday morning at 5 o'clock. The funeral was attended by Rev. E. C. Andrus, of this place, Tuesday at 2 o'clock. Mrs. Darling was a daughter of Rev. Robert Wooden who was buried last week at the same place. She, like her father, had a wide circle of acquaintances who join in deep sympathy for the family who are left.

The following from here expect to attend the hop at Adrian this evening:—R. S. Moore and wife, W. W. Whiting and wife, E. F. Kirchgessner and wife, Merton, Roy and Leon Burlingame, Roy Hughes, Lavern Smith, Clyde Heck, Bert Garlinghouse, W. C. Burridge, Charlie Bidwell, Frank Cillson, George Tiffany, Raynor Brewer, Will Hicks and the Misses Lena Hardenburg, Julia Hicks, Camilla Meade, Harriet Whittier, Etta Thorp, Inez Thorp, Mabel Clements, Winnifred DeWolf and Viola Shull.

To step into L. D. Dewey's poultry house almost any day one would think by the great quantity of choice poultry there displayed that the season had just commenced instead of being nearly over. The amount bought, dressed and shipped by Mr. Dewey seems almost incredible. Just think of it, this late in the season he is shipping nearly two cars per week. And think what this represents in dollars and cents distributed by him to the farming community and the employment given to many hands.

If you ever want a cutter, now is the time to buy it. C. A. Slayton has just bought a few $30.00 cutters where they had to be sold for $19.00. Come quick if you want one.

Receiver's Sale.

—The stock, fixtures and book accounts of the druggist firm of Baker & Hall will be exposed for sale at public auction on the 6th day of February, 1897, at ten o'clock in the forenoon at the store lately occupied by said firm at Tecumseh. Terms cash.

E. J. SHEPHERD,
Receiver.

David B. VanTyne

Was born at Auburn in the state of New York in 1812 and died in Tecumseh, Mich., Sunday, January 24, 1897, having lived nearly 85 years. Mr. Van Tyne came to Michigan in 1830, first settling in Pontiac. He remained there only a short time, coming on to Tecumseh the same year, and started a furniture business which he conducted for nearly 30 years.

David VanTyne came from one of those early day New York families whose first thought was frugality and honesty, and with his death this family becomes extinct, he being the last of eleven children. His life of 66 years in Tecumseh, over 58 of which were spent under the same roof which covered his lifeless body, was in a measure uneventful, for the reason that he gave no one trouble or annoyance in any way. He was cheerful and encouraging in manner to every one and an especial favorite among the younger people, expressing in his latter years many, many times his gratitude for their seeming kindnesses to him in his infirm old age.

In an early day he was president of the village council for a term. Was a charter member of St. Peter's church and a valuable member of the vestry until bodily infirmities compelled his resignation. Was a soldier in the Black Hawk and Toledo wars under General Brown, Gov. S. T. Mason having signed his commission in 1839. For many years he was a member of the Odd Fellows' lodge.

In the summing up of this short sketch of a long life it may be said that he lived for the good he might do. One by one the pioneers drop away, seemingly to be forgotten, yet leaving a void that can never be filled. Less than six months since Mrs. VanTyne joined the great majority and now these two, so dear to each other on earth, are once more joined never again to be separated.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

ELY'S CREAM BALM is a positive cure. Apply into the nostrils. It is quickly absorbed. 50 cents at Druggists or by mail; samples 10c. by mail. ELY BROTHERS, 56 Warren St., New York City.

HINDERCORNS The only sure Cure for Corns. Stops all pain. Makes walking easy. 15c. at Druggists.

If you are CONSUMPTIVE or have indigestion, Painful fits or debility of any kind use PARKER'S GINGER TONIC. Many who were hopelessly discouraged have regained health by its use.

THE BED OF BEDS.

Pleasures of the Couch Made of Boughs in Camps in the Woods.

There are beds and beds, but none is so comfortable, so restful, or so interesting as that which the hunter, fisherman, or plain camper-out makes for himself from the boughs of evergreen trees in the forests of Maine, Canada, or any of the other great hunting regions along the northern border.

This bed, made of short trimmings of twigs form the spruce, cedar, hemlock or balsam, or all four together, consists entirely of the "feathers" of the trees, the six-inch outshoots from branches, with the plume end up, laid against a prostrate two-inch sappling, so that the head may have a pillow. As the twigs stand nearly erect the bed is four or five inches deep, and a blanket spread over it yields and springs back as one rolls over it. The bed, wide in proportion to the number of persons to use it, and seven feet long, is as fluffy as a haymow, and gives forth a scent that soothes and heals one's senses and body.

But the bough bed is getting less and less used. Hotels and fancy cottage camps with spring beds and linen sheets are slowly superseding the old-style hunter's bed because of the difficulty and bother of getting a new bed every trip. It will be a long time, however, before balsam bough pillows cease to be used in even the most aristocratic of hunters' lodges.

A Snap Shot.

A little child often not only leads, but amuses by original descriptions of ordinary events. Says the Pittsburgh Chronicle: A judge's little daughter, who had attended her father's court for the first time, was very much interested in the proceedings. After her return home she told her mother: "Papa made a speech, and several other men made speeches, to 12 men who sat all together, and then these 12 men were put in a dark chamber to be developed."

HEARD IN WASHINGTON.

Stories That Are Good Enough to Bear Repetition.

How Senator Wolcott Surprised a Lady Correspondent—A Dude Victimized by His Tailor—A Geography Lesson in Indiana.

[Special Washington Letter.]

Senator Wolcott, of Colorado, does not deny the story, and it is probably a true one. When he was a young man he was, as now, attorney for several large railway corporations. He was regarded by the gentler sex as a confirmed bachelor, proof against all the advances and charms of matrimony. A lady in the southern part of the state desired a pass to Denver. She wrote a friend, who was well acquainted with Mr. Wolcott, asking her to request a pass from him, and like all women, she wrote a postcript, which in this instance was as follows:

"P. S.—I wish you would also send me one of those P. D. corsets; the kind you wore when I was last in Denver. I think they are just too lovely for anything."

Her friend being in very much of a hurry, and momentarily forgetting all about the postcript, indorsed a request on the back and forwarded the letter to Mr. Wolcott. A reply came promptly as follows:

"Dear Madam—I inclose a pass, as requested, for your friend Miss ——. I would send her the P. D. corset, but have forgotten her number. Very respectfully,
"E. O. WOLCOTT."

American Girl's Touching Fate.

Congressman Madd, of Maryland, tells a true story, and it has a moral, too. It is concerning a beautiful girl in a small Maryland city, who was regarded as the handsomest and most entertaining young lady in that vicinity. She married a gentleman who held a commission in the Austrian army. He was kind, amiable, and there was no question as to his social position. She went with her husband to his far-off home. She knew no German (he spoke English very well) and had no knowledge of the world. She could speak to nobody for awhile, until she mastered enough of the language of the country to get along. The few amusements permitted her were not those she had been used to, and the absolute social freedom to come and go without suspicion was all gone. Ten years ago a former friend was in a garrison town of Austria, and there met with what had been the sweetly pretty girl of a few years before. He never saw such a change. "You are the only American I have met that I ever knew before in ten years," she said. "I am not unhappy, but I think if our girls at home could only know or understand how different everything here is from what they have been used to, they would never dream of marrying a man who was not an American. I have gone for years and never heard my mother tongue. Leopold (her husband) is in command here. But there are no ladies for me to associate with. In the Austrian service no man is permitted to marry until he has a certain income. The young officers therefore cannot marry, for they are generally poor. Those who are rich go into the guards regiments, which are at Vienna or other large cities. So we get the worst and poorest educated in the line. I have not spoken to a lady in six months. You cannot imagine my unutterable loneliness." As he bade her good-by she broke into a torrent of tears, and said: "I am so lonely. I am so lonely. Oh, that I could go home!"

Upon his return to America he saw her mother, and told her that her daughter was dying of homesickness. She was brought home, but the bad living and miasma had done its work only too well, and she died within three weeks after she came under her father's roof. If our girls could only know, or if they would only think, how much unhappiness they would save themselves! The first thing the foreigner thinks of in marrying is money, and not an American girl in 100 is married for any other cause than that she has or will have money. This rule is absolute.

Knowledge Licked Into Him.

Amos Cummings, of New York, not only tells the story in the cloak room of the house of representatives, but he says that he printed it once, and has it in his scrap book. He says that he got it from ex-Congressman Holman, the

"SIT DOWN ON THE WOODPILE."

chronic objector. It seems that a rural schoolmaster in Indiana asked a pupil named William Scott which was the longest river in the world, and William persisted in crediting that honor to the Wabash. As a result he went home with a tanned jacket. As another result, a stranger appeared and knocked on the door.

"Is this the skule teacher?" he pleasantly inquired.

"He are!"

"Are you the critter as licked Bill Scott fur sticking up fur the Wabash?"

"The same, sir."

"Wall, Bill happens to be my son, and I've come fur to gin you the awfullest whalin' ever writ down in geography."

"Can you wait until I am through with this class in spelling?" asked the teacher.

"Oh! I s'pose so, but under the circumstances I hope ye'll cut it as short as possible. Haven't got my corn husked, ye know."

"Certainly. I never keep a gentleman waiting when I can help it. Sit down on the wood pile, Mr. Scott. I'll come out and pulverize you in just nine minutes."

At the end of the appointed time the teacher reappeared, and at once rushed into the waiting Mr. Scott and blacked his eyes, broke his jaw and flattened his nose. By and by Mr. Scott said he had all he wanted, and added:

"Which is the longest river in the world?"

"The Amazon, sir."

"Am-a-zon. Please write it down for me. You've licked it into me in fust-class style and when I git home and git my paws onto my son Bill he'll come to believe that there hain't nuff water in the Wabash to wash his mother's feet with! Am-a-zon! Good-by, critter!"

The Victim of His Tailor.

There is a young bank clerk here who always dresses up to the prevalent style. He sent his trousers to the tailor to be creased, and they were returned to him in the evening. After dinner he resolved to visit one of his fair adorables, and he donned that pair of trousers. When on the street he noticed to his horror that his usually careful tailor had creased but one leg, and the other was limp and lifeless.

To make the matter worse a small boy called the attention of the whole street to the discrepancy, by shouting:

"Hey, Butch! Git onto de dude with de joblot legs!"

He had not time to go back, and so he tried to appear oblivious. He thought the girl would be polite enough not to say anything, but he was sure that she would notice it. When he arrived he did all he could to hide his lower extremities, but her little sister made a stage whisper to the hostess and said:

"What funny legs! They ain't mates, are they?"

Told a Lie and Took a Walk.

Bob La Folette, of Wisconsin, says that when he was going to the capitol in a cable car a bride and groom got aboard at Seventh street crossing.

THE DUDE IN THE STREET CAR.

When the conductor came around for the fares the young man fumbled in his vest pocket and then brought a $100 bill, which he reached out to the conductor with two fingers.

"Nothin' smaller?" queried the official, who had caught the distant rattle of silver in the young man's pocket.

"The only change I've got," returned the youth haughtily.

"Can't take it, then," said the conductor, reaching for the bell rope.

The astonished youth looked frightened.

"What's the matter?" he exclaimed, as he thought of the rain and mud outside.

"Counterfeit—that's all," calmly returned the conductor. "Sorry you ain't got the change."

The bell rope was pulled and the youth got off with his girl. He had the change, but he was afraid to confess to a lie before the carful of passengers.

Conjugal Magnanimity in Tunis.

John O'Connor was for many years private secretary to the late "Sunset" Cox. He has traveled extensively himself, and learned much concerning foreign countries from his versatile employer. He tells me that the bey of Tunis supports a large harem, but a very modest one. He has had only three wives, and one of them is dead. The survivor, happening to be in Constantinople some years ago, bought a beautiful young girl and brought her back to Morocco to be Ali Bey's wife. Now there was conjugal amgnanimity for you! These two wives live most harmoniously together; they dress in European fashion, and, for that matter, so does Ali Bey, who is now 70 years of age. The bey has ten children, five boys and five girls. A lack of money has compelled the old gentleman to send the children to the schools patronized by common people. Yet the bey receives annually 1,200,000 piasters from the government, and his personal estate is valued at $14,000. The entire absence of jealousy among the wives and favorites of Mussulmans presents a direct contrast to the feeling that obtains among womankind in other parts of the world, and illustrates how all-powerful is custom when prescribed by articles of religious faith.

SMITH D. FRY.

A Scarecrow for Mosquitoes.

Prof. Pheltschue, a German naturalist, has discovered a curious way of repelling the attacks of mosquitoes. The little pest has a deadly enemy in the dragon fly, which pursues it and feeds upon it. The professor has found by many experiments that the dried bodies of a few dragon flies suspended by threads around a bed keep the mosquitoes at a distance.

PERSONNEL OF THE NAVY.

Desertions from Uncle Sam's Ships Are Few and Far Between.

The report from Washington to the effect that 4,000 bluejackets are needed to man the new vessels of the American navy about to go into commission recalls a remark made by Admiral Bunce one day last summer, says the New York Mail and Express. The North Atlantic squadron lay at anchor off Staten Island and Father Knickerbocker and his country visitors were going down to quarantine daily to look at the splendid fighting ships. A reporter went aboard the flagship one morning and enjoyed a pleasant chat with the gallant admiral. Said he:

"The type of man-of-war's-man of to-day is far different from the old-time bluejacket. Desertions are almost unknown from the navy now. Here is a vessel which cost in round numbers $2,000,000. The men consider it their home and they take an immense amount of pride in it. How many men are there ashore who can sleep and eat in a house which cost as much money? Look about you and note the faces of the bluejackets here."

The sailormen in sight were certainly a fine-looking lot. The admiral surveyed them admiringly and then said: "So far as the personnel of the crew goes the vessels in the American navy are away ahead of those of any foreign power."

DISCREDITING THE HUMANITIES.

The College Bought "Mugs of the Old Greek Duffers."

It is charged, with a good deal of vigor and generality of statement, that the college fills the mind with useless knowledge and trains it in antiquated methods of thought and action, says the Forum. In the same breath it is added that the scientific school gives practical knowledge and that its training is vital. The comparison between the dead languages and the modern is made—always to the credit of the modern. The value of modern history and of economic science is made to appear greater than that of ancient history and of philosophy. Scientific studies are lauded as by far the most precious. The humanities are discredited. I remember hearing at a hotel table a conversation between two recent graduates of the scientific school of a rich and famous university. "Mr. ——," said one, "gave several thousand dollars for any use the officers wished to make of the money. And what do you think they did with it? Why, instead of buying something useful, they spent it all in buying some mugs of the old Greek duffers." It was evident that the study of the humanities had not seriously influenced the manners nor the linguistic tastes of the graduates in question.

CRUSOE'S ISLAND DISAPPEARS.

Reported Sinking of Juan Fernandez Land by Volcanic Action.

A few weeks ago a vessel putting in at Lisbon after a trip around Cape Horn, reported the destruction by volcanic action of the Juan Fernandez Island, famous as the scene of "Robinson Crusoe." The master claimed to have seen the catastrophe from the deck of his vessel. The report was not given credence at the time by scientific men, and many denials were printed in papers and magazines. But Capt. Powells, of the British ship James Kerr, asserts that the story is generally believed by seafaring men all over the world. The James Kerr has recently arrived from Newcastle, N. S. W., where she was laid up four months on account of the coal mine strike. Capt. Powells met a very large number of master mariners there, and says that the destruction of the island was a matter of common gossip among them. The captain himself has not passed within sight of the island since 1889, when he secured a photograph of it from the deck of his ship. He says that some of the captains who arrived in Newcastle while he was there verified the report, that the island was missing.

The Unit of Heat.

We cannot, of course, measure heat by yards, pints or pounds, but the unit of heat (the standard measure of that phenomenon) has been agreed upon by those whose business it is to philosophize on that subject to be that quantity which can raise a pound of water one degree. Now, to turn a pound of water into a pound of steam requires 967 of these units of heat; that is to say, if we boil a pound of water until it all goes away in steam we shall have used in doing so a quantity of heat which would have raised 967 pounds of water one degree higher in temperature.

A Valuable Pair of Trousers.

The boys of Yale in the old days used to bribe the printers' "devils" to get proofs of the examination papers for them. When the college authorities put a stop to this practice a bright idea seized one fellow and he saved the whole suffering party. He hired one of the printers (it was summer) to wear a pair of white trousers to the office and at noon to sit down on the "form" in which were locked the precious questions. The inky seat of that pair of trousers sold for a deal more than the clothes were worth in their original spotlessness.

Utica, Jan. 29.—Anna Newman, aged 16, dropped dead Wednesday afternoon. She stepped out to get a stick of wood, slipped on the walk and, in trying to recover herself, ruptured a blood vessel in the brain.

Republican Clubs.

Detroit, Jan. 30.—The tenth annual convention of the National League of Republican clubs is to be held in this city July 13-15, and President-elect McKinley has signified his intention to be present.

Furniture Company Fails.

Decatur, Feb. 3.—The Doherty Hardware & Furniture company, at Coleman, has filed chattel mortgages covering its entire stock in favor of John M. Morley, of East Saginaw, as trustee.

Consumption in its advanced stages is beyond the power of man to cure. It can be prevented though, by the timely use of Dr. Wood's Norway Pine Syrup, nature's own remedy for coughs and colds.

A Word in Your Ear.

The secret of good health is found in the perfect action of the stomach and digestive organs. Dr Caldwell's Syrup Pepsin produces a perfect condition and good health results. Try it. Sold in 10c (10 doses 10 cts) 50c and $1.00 sizes. Orr & Temple.

The bill for government foreclosure on the Union Pacific has been filed at Omaha in the United States court.

[illegible] was troubled with quinsy for five years. Thomas' Electric Oil cured me. My wife and child had diptheria. Thomas' Electric Oil cured them. I would not be without it in the house for any consideration." Rev. E. F. Crane, Dunkirk, N. Y.

Fire at Mingo Junction, O., wiped out nearly the entire business part of the town.

The Most Fatal Disease.

It is not generally known that more adults die of Kidney trouble than any other disease. When the first symptoms of this disease appear no time should be lost in taking Foley's Kidney Cure, which is guaranteed or money refunded. Orr & Temple.

The "Lexow" investigation at Kansas City is developing the fact that where a policeman found any gambling going on he was transferred to another beat.

Something to Know.

It may be worth something to know that the very best medicine for restoring the tired out nervous system to a healthy vigor is Electric Bitters. This medicine is purely vegetable, acts by giving tone to the nerve centres in the stomach, gently stimulates the Liver and Kidneys, and aids these organs in throwing off impurities in the blood. Electric Bitters improves the appetite aids digestion, and is pronounced by those who have tried it as the very best blood purifier and nerve tonic. Try it. Sold for 50c or $1 per bottle at Baker & Hall's Drug Store. 2

Harvard students are red hot against the proposed abolition of the "scrimmage" on class day.

"After suffering from dyspepsia for three years, I decided to try Burdock Blood Bitters. Two bottles cured me entirely." Mrs. G. C. White, Taberg, Oneida County, New York.

Miss Sophonisba P. Breckinridge, daughter of Col. W. C. P. Breckinridge, has been admitted to the bar at Frankfort, Ky.

You should know that Foley's Honey and Tar is absolutely the best remedy for all diseases of the Throat, Chest or Lungs. Dealers are authorized to guarantee it to give satisfaction in all cases. Orr & Temple.

General John D. Stevenson, of St. Louis, is dead. He served with distinction in the Mexican and civil wars. He was loyal during the civil war.

Statistics show that thousands of infants and children yearly die of membranous croup. We do not exaggerate when we state that every one of these innocents could have been saved had Foley's Honey and Tar been given them in time. Can you afford to be without it in your household? Orr & Temple.

Ex-Governor Charles Foster has come out as an avowed candidate for the Uuites States senate from Ohio.

CASCARETS stimulate liver, kidneys and bowels. Never sicken, weaken or gripe.

The Electric Springs railway, the only important railway system of Warrensburg, Mo., has been sold for scrap iron.

From Adirondacks.

J. W. Ball, Editor and Publisher of the Mountain Mirror, Restored to Health From La Grippe by the Use of DR. MILES' RESTORATIVE NERVINE.

FOR over a year I suffered with complete nervous prostration as the result of La Grippe, writes Mr. Ball of Lake Placid, N. Y. Doctors did all they could but their efforts were without results, and I grew worse. My trouble affected my mind, but kind nature came to my relief by helping me to think, 'If I only had a helping hand to aid nature to build me up slowly and surely.' The result was I refused all other medicine and my wife procured a bottle of Dr. Miles' Restorative Nervine which I took faithfully and am fully restored to health. I write this hoping it may help others, for Dr. Miles' Remedies surely cure.

Dr. Miles' Nervine Restores Health

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on Heart and Nerves sent free to all applicants.

DR. MILES MEDICAL CO, Elkhart, Ind.

There are no excuses now for not using St. Jacobs Oil.

Special Rates to Commercial Men.

Rates $1.00 per Day.

Go into the best Grocery Stores in any city—the stores that have the most intelligent trade—and ask them what is best for washing and cleaning. They'll tell you, "Pearline." Ask them how the imitations compare with it, in value and in sales. They'll tell you that they're far behind. What does this show? Why, that the people who have the finest and most delicate things to wash, and to would be least likely to risk these things with any dangerous washing compound that shows that these people have proved to themselves that Pearline is the best, and it certainly is. 448

FARM AND GARDEN.

FARM CONVENIENCES.

Cement Can Be Advantageously Used for Many Purposes.

The use of cement for stable floors is becoming more and more general each year. There are other uses for the same material about the farm, two of which are suggested in the accompanying illustrations. One is a cement watering trough made by using two wooden boxes of different sizes to form a mold. Put in a thick layer of cement, sharp

CEMENT WATERING TROUGH.

sand and sharp gravel well mixed upon the bottom of the larger box, then set upon this the smaller box, as shown in Fig. 1, and fill in about the sides. If a vent is desired, in the bottom or side, put a round bit of wood in the position where the opening is desired, as the cement is being filled in. The second convenience is a lawn and garden roller. Get a sheet of sheet iron and fit a disc of wood into one end to make it a perfect cylinder. Bore a hole in the exact center of the disc to insert an iron rod. Place on end, with the disc end down. Select a round rod for the core of the roller, and drive it through the hole in the disc, a few inches into the ground, keeping the rod exactly in the center of the cylinder at the top. The mold, as seen in Fig. 2, is now ready to fill with cement. A light handle is attached to the iron center, and the roller is complete. Use the best cement, the sharpest of sand and gravel and mix thoroughly, that every particle of the cement may be wet. Round off all sharp edges when the articles are taken from the molds.—Webb Donnell, in Orange Judd Farmer.

CEMENT ROLLER.

NEW WESTERN CROP.

Authentic Information Concerning the Value of Kafir Corn.

"Wheat and corn may not be grown after this in Kansas." The words are reported to have been uttered by a Kansas minister, who praises the meal of the comparatively new cereal, Kafir corn, as more nutritious than wheat flour and of "unsurpassed flavor."

According to the best information obtained by the Kansas department of agriculture, the Kansas agricultural college and the United States department of agriculture, these claims cannot be sustained. Kafir corn, an Egyptian millet, is a most useful plant, but it is never likely to supersede either wheat or Indian corn.

The plant is a sorghum. There are several varieties; the best is known as the red Kafir corn.

As a crop it has these striking advantages: the yield is larger, by from 20 to 50 per cent., than Indian corn; it will grow and yield a crop—not a large one—on very poor soil; it is injured much less than Indian corn by drought, and even when withered by the hot, dry winds of the prairies, it will recover under moisture.

It forms an excellent food for cattle and pigs. All the experiments of which many have been made by scientific agriculturists, show that it is inferior in fattening power to either wheat or corn. Nevertheless, as a surer and larger crop than corn, it promises most important results for regions like Kansas and Nebraska, where scorching winds frequently wither the corn and destroy the crop.

As food for man, it is nourishing, wholesome and palatable. But the latest conclusions of the national department of agriculture, communicated to us, are that its use will probably be somewhat like that of buckwheat—it will form an occasional rather than a staple article of diet. In nourishing power it stands at 27, where bolted cornmeal stands at 37, wheat flour at 45, and oatmeal at 62.

Heretofore it has been difficult to grind Kafir corn fine enough for use as human food. It is said that this difficulty has been overcome lately. If so, there will soon be an opportunity to test its food value on an extensive scale.—Youth's Companion.

Examine the Seed Potatoes.

The earlier the potatoes can be started the better, as it is the hot, dry weather that damages them. It is now customary to sprout the small potatoes before planting, handling them carefully, in order to secure an early start. Now is the time to look over the seed potatoes, throwing out every one that shows the slightest signs of rot, and every potato used for seed should be carefully examined. Do not use seed that came from land where rot has occurred. Better procure sound seed from elsewhere, even if the cost is increased for carriage.

THE AMERICAN FARMER.

He Can Secure No Reforms Save Those of His Own Making.

There are a good many discouraging things for the American farmer to contemplate at this time. Some of them are political, some economic, some social. Some are due to the selfishness and greed of man; some to corrupt influences in public places, some to ignorance as to remedies to be applied. Most of these discouragements are the outgrowth of years and can be corrected only by time and experience. Meantime the farmer suffers.

But the farmer cannot escape responsibility if he permits untoward conditions which are within his own control to continue. The other day a representative of the Farmers' Voice discovered a large farmer in the "corn belt" of Illinois who had stored up in his granaries three crops of corn—1894, '95, '96—and who would not sell a bushel because the price he had himself fixed three years ago had not been reached. That man will doubtless grow another corn crop in 1897—and may have to build a granary to accommodate it. The leading grocer in one of the towns in the "belt" told the Voice man that every cabbage he sold was shipped in from Chicago!

We talk of competition and the crowding of population. What will we do if we pursue present methods, when the population is numbered by the hundreds of millions? Let us learn now the lessons of intensive and economic farming—scientific farming—as practiced in the old world. Take the island of Jersey for example. There are 45 square miles, something more than an Illinois township, and there are 60,000 people. What of its agriculture? The island contains 12,000 head of cattle, or 65 head to every 100 cultivated acres. The island of Guernsey is but 25 square miles in extent, sustains a population of 30,000, and 66 head of cattle to every 100 cultivated acres is the rule. And these little islands are the richest and best farming lands to be found anywhere.

The greatest reform the farmer can ever secure will be of his own making. When American farmers adopt scientific methods there will be no hard times for them, and the American farmers who do practice this method now prove it. Intelligent, economical management of the farm, careful reading of the market reports and study of the principles which underlie the business of farming, will make the American farmers the most prosperous in the world.—Farmers' Voice.

WEIGHING DEVICE.

So Easily Made That Each Farm Building Should Have One.

Many times one wishes to swing a heavy article—a bag of grain or sack of potatoes—just clear of the floor in order to weigh them. A handy device is shown herewith, the working of which can be seen at a glance. Two hooks in

HANDY WEIGHING DEVICE.

the long rope accommodate it for use with low or high articles, while a little hook well upon either rope gives a chance to hook the ends up out of the way when not in use. This device is so easily made that several can be constructed and hung in a number of the farm buildings where it is occasionally necessary to weigh articles.—N. Y. Tribune.

AGRICULTURAL NOTES.

Clean up the fence rows.

Grub out that thicket in the field.

Be the best farmer in your county.

Roll the corn stubble after plowing it next spring.

Making a good seed bed for corn is half the battle.

Drain that wet place. It is the richest land you have.

Trim up the hedge or cut it down and grub out the roots.

Use straw in the stable as absorbent for the liquid manure.

Talk farm with the boys. Make confidants of the youngsters.

Use the best seed of the best varieties and breed the best stock.

Keep everything looking neat, harness, carriages, horses and—yourself.

Think for yourself. What will do on one farm will not do on another.

Make the fields as long as you can. Every turn that is saved is economy.

A cow that kicks is nice and agreeable as compared to a man who is a chronic kicker.

The farmer's garden is the most profitable piece of ground on the farm, if it only produces all kinds of garden crops for the family.—Western Plowman.

Fertilizing with Electricity.

Mr. Nikola Tesla, the electrical expert and inventor, has recently suggested the possibility of using electricity as a fertilizing agent for the soil. The currents produced by perfected electrical oscillators, he says, are capable of causing the chemical combination of the nitrogen with the oxygen of the atmosphere. If this combination were carried on upon an industrial scale, which he thinks is possible, then the product could be used as a fertilizer, and in his opinion the benefits to humanity would be incalculable.

FIGHT KEEPS UP.

More Anti-Street Railway Legislation Introduced.

Constructed on Lines Recommended by Gov. Pingree—Blow at Palace and Dining Car Companies—Capital Gossip.

[Special Correspondence.]

Lansing, Feb. 3.—Gov. Pingree's attack on the Detroit street railway companies came to the surface in the house Thursday. A bill was introduced which embodies the ideas outlined by the governor in his inaugural message. It contemplates a law forbidding the extension of the franchise of any corporation in Michigan during the constitutional period of 30 years for which the franchise under which it may be operating was granted. In other words a corporation cannot apply to a board of aldermen for a new lease of 30 years' life ten or fifteen years before its corporate life expires. Another bill requires companies in cities having a population of 150,000 to give at least a five-minute service. A bill requiring that all railroad companies in the lower peninsula reduce passenger fares to two cents per mile is being prepared for introduction.

The Pullman and Wagner palace and dining car companies have also a fight on their hands. Among the bills presented last week in the house was one providing for a tax of ten mills on the dollar upon the actual value of the capital stock of all kinds in the hands of these companies, invested in Michigan during the year preceding the taxable year. Provision is made for taxing cars that run in and out of the state. Those companies whose business is confined to Michigan, and who pay specific and other taxes, are exempted.

A proposition to amend the constitution so as to provide for annual sessions of the legislature has been noticed, the plan being to devote 50 days the first year to the introduction of bills which shall not be acted upon until the following year, thus giving the people time to consider them fully.

Labor measures noticed prohibit the payment of employes in anything but cash and make all general election days legal holidays. The latter bill is designed to make it impossible for employers to disfranchise their men by requiring them to work or lose their jobs. Another bill provides for the branding of all convict made goods, while a fourth absolutely prohibits the contracting of convict labor and provides that the prisoners be employed at hand work for state institutions and on the highways.

One of the good roads measures which became a law two years ago provides that farmers whose wagon tires are of a certain width shall be exempted from one-fourth of the road tax. Representative Bricker says the result has been the diminution of revenue and the consequent loss of road improvement. He has a bill to repeal the law of 1895.

Gov. Pingree has appointed Nathan M. Richardson, of Caro, assistant adjutant general of the state militia. Mr. Richardson was born in 1845, entered the Second Michigan infantry at the age of 16 and served honorably with it all through the war. He was wounded several times and was a prisoner for many months.

It is the general belief that J. L. Cox, of Battle Creek, will be the successor of State Statistician De Land.

The bill recently introduced for the organization of a new county to be called Pingree county provides for the cutting of Ontonagon county squarely in two and the south half to be called Pingree. As now organized people who live in the southern part of the county have to go to Sidnaw, Houghton county, and from there 45 miles to Ontonagon to reach the county seat, making a distance of about 75 miles from Ewen, which is directly south of Ontonagon 24 miles, but the long route has to be taken. Ewen will undoubtedly be chosen as the county seat for Pingree county.

Representative Chamberlain has introduced a joint resolution looking to an amendment to the state constitution to provide for annual sessions of the legislature not to exceed 75 days, also a joint resolution fixing the compensation of members at $750. These are companion resolutions to one previously introduced limiting the time for introduction of bills to 25 days.

The labor men scored a victory in the house Tuesday, securing the passage by the committee of the whole of the Eikhof bill, providing that blowers be used on all dustmaking machines in factories and authorizing deputy sheriffs to make complaints for violations.

Among the new bills introduced in the house is one to exempt real estate mortgages from taxation, the reason being that the mortgagor invariably pays the tax in addition to the interest.

The anti-railroad pass fever has broken out in the legislature in most virulent form. The question has been frequently discussed since the session began, and many members have returned passes sent them. Tuesday Representative Lusk gave notice of a joint resolution proposing an amendment to the constitution making it an offense punishable by removal from office for any public official to accept a free railroad pass or a telegraph, telephone or express frank. It is not improbable that such a proposition will be submitted to the people at the fall election.

It is proposed by a recently introduced bill to give to townships authority to purchase gravel pits, stone quarries and road-making machinery for the purpose of improving the highways.

Following are among the measures noticed or introduced in the house last week:

For the examination and supervision of private banks by the state banking department; making the agreement of nine jurors sufficient to decide civil cases; to turn over to the United States the $20,000 in the state treasury for the building of a marine hospital at Sault Ste. Marie; to provide for incorporation of Methodist Protestant Episcopal churches; to prevent publishers sending periodicals longer than for the period of subscription; to authorize incorporation of a home for the aged, infirm or indigent men or women; for the prevention of the spread of various insects or infectious diseases of fruit trees grown in this or imported from other states; prohibiting the insuring of lives of persons under 17 and over 65 years of age; providing for the payment of a bounty of $35 for wolves, $5 for lynx and $3 for wildcats; requiring adulterated baking powder to be so branded, providing a severe penalty for school officers who refuse to comply with the law requiring that each school in the state be supplied with an American flag; to make the manufacturers of beat sugar pay at least $4 a ton to the producer for sugar beets, and to make the state pay a bounty of one cent a pound to the manufacturer for the sugar manufactured therefrom.

EMMETT.

AFTER PINGREE'S SCALP.

Suit to Oust the Governor from the Detroit Mayoralty.

Lansing, Mich., Feb. 2.—The first steps were taken to the Michigan supreme court Monday to oust Gov. Pingree from the office of Mayor of Detroit, which he has presumed to hold since his inauguration as governor. The proceeding was commenced by Attorney Fred A. Baker, of Detroit, the noted constitutional lawyer, who asks for an order directing the Detroit common council to show cause why mandamus should not issue to compel the holding of a special election in that city at which to choose a successor to Mayor Pingree, who, by accepting the office of governor, is declared to have vacated the office of mayor. The two offices are said to be incompatible.

Lansing, Mich., Feb. 3.—The supreme court refused to issue the mandamus applied for by Attorney Fred A. Baker Monday night, directing the common council of Detroit to declare the office of mayor vacant and order a special election to fill the vacancy. The court held that there is plenty of time before the next election to let the case go through the proper channel, the Wayne circuit court. The contention was that Mayor Pingree by his assumption of the office of governor of Michigan had vacated the office of mayor of Detroit.

ALGER HONORED.

President-Elect Invites Him to a Place in His Cabinet.

Canton, O., Jan. 30.—Friday was Maj. McKinley's birthday, and he celebrated it by tendering the portfolio of war to Gen. Russell A. Alger, of Michigan, who accepted it with cheerful alacrity. Gen. Alger authorized the press to say that he has accepted the portfolio of war. Gen. Alger was asked if all differences between himself and Senator Sherman had been arranged. "Yes," said he. "We are on good terms and will work together in harmony."

Gives $120,000 in Public Bequests.

Battle Creek, Feb. 2.—The will of Charles Willard, the hermit, who died Sunday, was made public Monday. It bequeaths $40,000 to the Young Men's Christian association of this city for a building, $40,000 to the Battle Creek public schools for a library building, and $10,000 to the Baptist college at Kalamazoo. The remainder of the property is divided among the legal heirs. A few days prior to his death he deeded to the city 16 acres of frontage on Goguac lake as a park.

Alleged Counterfeiter Arrested.

Grand Rapids, Feb. 3.—John Depree, an engraver employed in a local office, is under arrest charged with engraving the plate from which $20 counterfeit bills were printed by George and Frank Kingston, of Ionia, recently convicted of counterfeiting. Fred Hauck, a Belding saloonist, and Simpson Craig, of Jackson, are also under arrest for shoving the bogus bills.

Acquitted and Married.

Benton Harbor, Jan. 31.—Delbert E. Milian was acquitted Saturday in the circuit court at St. Joseph of the charge of robbing the American Express company at Niles of a package containing $2,000. Immediately after the verdict was announced Milian was married to his sweetheart, Mattie Edwards, of Niles, in the courtroom.

Fell from a Car.

Port Huron, Jan. 30.—Fred Bathey, immigrant inspector, was instantly killed Friday afternoon by falling from the platform of a car while the train was passing through a tunnel. His body was found shortly after the accident, the wheels of the car evidently having passed over his head.

Fatal Flames.

Belleville, Jan. 27.—Fire destroyed the farmhouse of A. E. Vandawater, about three miles from this place, at three o'clock Tuesday morning, and Mrs. Vandawater perished in the flames. Four other occupants of the house escaped in their night clothing, but were badly frostbitten.

MORTGAGE SALE.

Default of payment having been made of a mortgage made and executed by William J. Arnold and Caroline Arnold his wife, to Joseph Russell, dated April 21, 1891 and recorded on the 28th day of May, 1891 in the Register of Deeds office for Lenawee County, Michigan in Liber 99 of Mortgages on page 185,—upon which mortgage there remains unpaid of the principal and accrued interest at the date of this notice the sum of fourteen hundred fifty-seven and 58-100 dollars ($1457 58) and no proceedings at law or in equity have been taken for the collection of the same or any part thereof.

Notice is therefore hereby given that by virtue of the power of sale in said mortgage contained and of the statutes of the State of Michigan in such case made and provided, for the purpose of realizing the moneys above mentioned and the interest thereon hereafter to accrue at 7 per cent per annum the cost of this foreclosure and sale including the attorney fee provided for in said mortgage I shall on the first day of March, 1897, at nine o'clock in the forenoon of said day at the front door of the court house in the city of Adrian Lenawee county Michigan (that being the building in which the circuit court for said county of Lenawee is holden) sell at public vendue to the highest bidder, all that certain piece or parcel of land situate in the Village of Tecumseh in the county of Lenawee and state of Michigan and described as follows to wit: Beginning at a point in the south line of Chicago street in said village of Tecumseh, such point of beginning being at the same time at the northeast corner of a parcel of land formerly owned by T. T. Kneeland and more recently occupied by M. P. Henry, thence running east on the south line of Chicago street forty-one feet and three inches to land owned by George Merritt; thence south on west line of said Merritt's land ninety feet, thence west at right angles with the first course forty-one feet and three inches to the east line of said T. Kneeland property; thence north on east line of said T. T. Kneeland property ninety feet to the place of beginning.

Dated December 4th, 1896.

Joseph Russell Mortgagee.
Charles Burridge Attorney for mortgagee.

ADMINISTRATOR'S SALE.

In the matter of the estate of Humbolt Pennington late of Macon, Michigan, deceased.

Notice is hereby given that in pursuance of an order granted to the undersigned as administratrix of the estate of Humbolt Pennington, deceased, by the Hon. Judge of Probate for the county of Lenawee in the state of Michigan on the 28th day of December A D 1896, there will be sold at public vendue to the highest bidder, at the late residence of said deceased situate on section 5 of the township of Macon, Lenawee county, Michigan, on the 27th day of February, 1897, at 10 o'clock in the forenoon of said day (subject to all incumbrances by mortgage or otherwise existing at the time of the death of said deceased and also subject to the right of dower and homestead rights of the widow of said deceased therein) the following described real estate:

All those parcels of land in the township of Macon, Lenawee county, Michigan described as follows: The west half of the southeast quarter of section 5, of town 5, south of range 5 east—excepting all that part thereof lying north of the center of the Saline and Tecumseh road, so called, also further excepting a parcel of land thirty (30) rods wide north and south to be taken from off the south end thereof.

Also the north half of the east half of the southwest quarter of section 5, of town 5, south of range 5, east.

Also that part of the southwest quarter of the southwest quarter of section 5, of town 5, south of range 5, east bounded by beginning at the intersection of the east line of said southwest quarter of said southwest quarter of said section with the east line of the Saline and Tecumseh road so called, thence southwesterly along the center of said road to a point 20 rods north of the south line of said section; thence west parallel with the south line of said section to a point 18 rods east of the west line of said section; thence north sixteen rods; thence west twenty-four and two-thirds (24⅔) rods to land of John Jacobs; thence north parallel with the west line of said section to the north line of said southwest quarter of said southwest quarter of said section 5; thence east to the northeast corner of said southwest quarter of said southwest quarter of said section 5, thence south to place of beginning.

Also to the southeast quarter of the southwest quarter of section 5 of town 5, south of range 5, east—excepting therefrom all those parcels thereof to be taken from off the south side thereof heretofore sold and conveyed to other parties.

Reserving all the growing wheat on all the lands above described with right to harvest and remove the same.

Dated January 6, 1897.

CLARIBEL PENNINGTON, Administratrix.

COMMISSIONERS' NOTICE.

STATE OF MICHIGAN, County of Lenawee, ss.

In the matter of the estate of Alvinza Whelan deceased.

The undersigned, having been appointed by the Probate Court of said County, Commissioners to receive, examine and adjust all claims and demands of all persons against the estate of said deceased do hereby give notice that we will meet for that purpose at the former residence of Alvinza Whelan in the Village of Tecumseh, Lenawee county, Michigan, on the 12th day of February 1897 and on the 5th day of June 1897 at 9 o'clock in the forenoon of each of said days. And that six months from the 5th day of January A. D. 1897, are allowed by said probate court for the creditors of said estate to present their claims to us for examination and allowance.

Dated January 11, 1897.

W. A. BEEBE
JOHN BURTLESS,
Commissioners.

MORTGAGE SALE.

Whereas default has been made in the payment of the money secured by a mortgage dated December 31 1893, executed by John McLain and Annie McLain, his wife, of Macon, Mich. to Brockwell J. Rector, of Tecumseh, Mich which mortgage was recorded in Liber 139 of Mortgages on page 312 on the 7th day of July, A. D 1894, and whereas he amount claimed to be unpaid upon said mortgage at the date hereof is the sum of Fifty-three hundred and eighty-seven and 8-100 dollars damages and no suit or proceeding having been instituted at law to secure the debt now remaining secured by said mortgage or any part thereof, whereby the power of sale contained in said mortgage has become operative.

Now therefore notice is hereby given, that by virtue of the said power of sale and pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises therein described at public auction to the highest bidder at the front door of the court house in the City of Adrian in said county of Lenawee on the 27th day of March, A. D. 1897, next at ten o'clock in the forenoon of that day which said premises are described in said mortgage as follows:

Situated in the township of Tecumseh Lenawee County, Michigan, and described as the south half of the northwest quarter of section twenty-three of town five south of range four east, containing eighty acres of land more or less.

Dated December 1st, 1896.

Brockwell J. Rector.
Charles Burridge, Attorney for Mortgagee.

OLD FACES DISAPPEAR.

Pingree Men Installed at the State Capital.

GOVERNOR CARING FOR FRIENDS.

Wants of the Michigan Federation of Labor In the Line of Convict Labor Legislation. Question of Repealing the Special Charters of Railways—The New Dairy and Food Commissioner. Bill to

Lansing, Feb. 2.—Governor Pingree has not spent a great deal of time in Lansing since the first of January, but, every one was aware of his presence when he has been here. This does not mean that he proclaims the fact from the housetops, nor that he unduly parades himself. He does not have to resort to either expediency. He is the most sought-after man in the city. There are always scores of men with axes to grind awaiting his coming and they hang on his footsteps until he departs. There is no time of the day when his office is not occupied by at least a score of persons anxiously waiting for an opportunity to talk with him. One of the new sights encountered since his inauguration is that of the chief executive of the state going to and from his hotel with a bevy of newspaper men at his heels. The correspondents of the Detroit dailies look to his excellency for much of their copy, and whenever they get hold of him they are sure to get what they are after.

If any one had an idea that Governor Pingree was not going to dictate matters as far as possible, he has probably changed his mind by this time. This dictation has not extended to anything further than who should fill the subordinate positions under the bureau officers whom he appoints, but he has not dropped a thread in this regard. So far there has been a complete exodus of the subordinate officials in all the departments over which he has appointed the heads, with the single exception of commissioner of railroads. There two of the old employes still remain, but there is time to supersede them yet. In the military offices the old faces have already disappeared, the same being true of the dairy and food department. In every case a Pingree man has been installed, the governor frankly confessing his purpose to take care of his friends, his only regret being the dearth of positions. It is understood that this policy will be pursued to the end.

Convict Labor Legislation.

The legislative committee of the Michigan Federation of Labor has finally declared itself as to what it wants in the line of convict labor legislation. Their bill prohibits the contracting of the labor of prisoners and the employment of any machinery save that which can be operated either by hand or foot power. Not more than one-twentieth of the inmates of any prison are to be employed in the same industry, unless it be the making of supplies for other state institutions. The most interesting provision of the bill, however, is that which relates to the employing of convicts on highways. If provides that, with the exception of lifers, the convicts may, upon the request of the supervisors, be transferred on the governor's order to the sheriff of a county, who is in turn to deliver them over to the overseers of highways for work on the road. Not more than twenty convicts are to be sent to a county at a time. The road or highway commissioner having the convicts in charge are to be responsible for their safekeeping, and may use bells and chains to insure this. It is not believed that the people of the state will take very kindly to this idea, they having always revolted at the thought of encountering chain gangs along the highway. The plan of working county prisoners on the streets has lately been resorted to at Kalamazoo, and the citizens of that place have entered a vigorous protest against their being paraded through the public places to and from their work. They claim that this has a demoralizing effect on the community, a contention which most enlightened people will indorse.

Bills designed to increase the revenue of the state are piling up. They include measures to increase the rate of specific taxes paid by railroad, insurance, and other corporations, to establish a stamp tax of 50 cents a barrel on beer, to tax incomes and inheritances, etc. All of them will meet with much opposition, but it is not improbable that some of them may become laws. All the money derived from these sources would, under the constitution, go into the primary school fund. In the inheritance tax bill an effort has been made to overcome the objections of the supreme court to the last law enacted on this subject, that enactment having been declared unconstitutional.

To Repeal Special Charters.

Although bills providing therefor have not yet been introduced, it is understood that the question of repealing the special charters of the Lake Shore and Michigan Southern, Michigan Central, and other special charter roads, and bringing them all under the provisions of the general railroad law will be one of the principal matters which the present legislature will be called upon to consider. In 1881 and 1893 Congressman Milnes, who was then in the senate, was the champion of bills to repeal these charters, and two years ago a gallant, but unsuccessful fight was made by Senator Jewell of Dowagiac. In discussing this question State Statistician DeLand, who has made an exhaustive study of the entire problem of taxation, speaks as follows: "There is no doubt that the feeling that these special charters should be done away with and the railroad system of the state placed under the general laws is rapidly increasing. Whether it is advisable to press this by a direct act of repeal or through constitutional amendment is debatable ground. The first will, of course, bring the question of adjudicating rights affected before the state courts and the state legislature, a priori, subject to repeal to the federal tribunals. The latter would remove all power of judicial determination from our state courts and leave its adjustment, if breach of contract was claimed, to the federal courts. The hindrance to the repeal of these charters is the great bugaboo of damages for breach of contract. This is magnified by the corporations and their attorneys and agents into vast sums, and the entailing of millions of dollars of damages and taxation is the ghost that is constantly shadowed to the public gaze. Such a picture, painted in the interests of corporations, is liable to be too highly colored. It is hardly supposable that in case of repeal by either method the corporations would attempt, unless a gross injustice were done them, which is not a supposable case, to press unreasonable claims, in view of the danger to be apprehended from a state and people made enragedly inimicable by their demands and having legislative power to so restrict their business revenues as to amount to a practical confiscation, if such an alternative were forced upon them."

While it is general believed that a repeal of the bill might receive a two-thirds vote in the house, it is as generally conceded that the measures could never pass the present senate.

New Dairy and Food Commissioner.

Whatever may be said as to the action of the senate in holding up two of the last lot of nominations sent in by Governor Pingree, that body is to be commended for its promptness in confirming the nomination of Elliott O. Grosvenor of Monroe as state dairy and food commissioner. I have known Mr. Grosvenor for many years, having gone to school with him in the old Union school at Monroe, and having somewhat closely followed his career since our paths diverged. He is energetic and competent, and can be depended upon for an intelligent and vigorous administration of the important department of which he is now the head. Although educated for the law, Mr. Grosvenor's tastes and inclinations ran in another direction, and ever since his graduation from the law department of the University of Michigan, which followed a full course of instruction at the Michigan Military academy at Orchard Lake, he has given his attention to farm and dairy pursuits.

"The independent state of Monroe" has, by the way, given the state and nation many able men at one time and another. In the early days, the late ex-Governor Alpheus Felch went out from Monroe and commenced his career of honor and usefulness. Another of the earlier Monroe men to attain distinction was Robert McClelland, who also became chief executive of the state. Henry W. Shaw, better known as "Josh Billings," was an old-time resident of the "Floral City," and he now has a namesake, Henry Shaw Noble, residing there. Isaac P. Christiancy, chief justice of the supreme court, United States senator, and minister to Peru, went from Monroe to the supreme bench. In later years General George A. Custer, the famous fighter, shed luster on the home of his youth, and as United States consul at Naples and subsequently as secretary of state, Harry A. Conant, who still lives at the home of his birth, added to the fame the old city had already won. In more recent years the quaint old town furnished a member of the official family of the chief executive of the nation in the person of Henry T. Thurber, private secretary to President Cleveland, and it is confidently predicted that it will be equal to any further demands that may be made upon it.

Bill to License Nurseries.

A bill which, if it becomes a law, will directly benefit a greater number of citizens of Michigan than any thus far introduced, was formulated a few days ago at a meeting of the legislative committee of the State Horticultural society. The meeting was held here, the members of the committee being President Morrill, Professor L. R. Taft of the Benton Harbor Agricultural college, Secretary E. ... Reid of Allegan, Hon. Charles J. Monroe of South Haven, and Representative Robert D. Graham of Grand Rapids. This committee formulated a bill for the licensing of nurseries or nursery stock, and the provisions of the measure are of widespread interest to the farmers and horticulturalists of Michigan. It provides for the creation of the office of nursery inspector, the incumbent of which shall receive a per diem of not to exceed $5 for actual services. It shall be his duty to annually inspect the nurseries of the state during the growing season, and if he finds them free from injurious insects and disease to issue a certificate to that effect. In case the inspector finds a nursery to be infected with any insect or disease he shall advise as to the means to be employed to eradicate it. No nurseryman whose premises have not been officially approved will be permitted to ship or sell any stock, a heavy penalty being provided for violations of this provision.

The bill furthermore provides that all stock shipped into the state shall bear certificates of inspection. If the state from which shipment is made has no inspector, the would-be shipper can by corresponding with the state board of agriculture of this state, secure the services of the Michigan inspector or the board will designate some competent person in the other state to make the inspection.

Required to Pay License.

The bill requires nurserymen to pay a license fee of $5 together with $1 for each solicitor employed, and to give bonds in the sum of $1,000. The penalty for violations of the proposed law is $1 for each tree, vine or plant sold. It will be seen that while the license is not high enough to make its payment a hardship, the penalty is sufficient to keep all dealers in line.

The prediction made last week that the house would not accomplish much during the absence of the senate was amply fulfilled. Although there was a good working quorum present after Monday and until Friday afternoon, most of the members were impressed with the idea that they were giving a presentation of Hamlet with Hamlet otherwise engaged, and not much work was accomplished. Now that the senators have devoted a week to inspecting the state institutions, several of the house committees, some of the members of which voted against a recess for that purpose, ran off last week on the same errand, thus leaving the house with such a small majority of its members present, that another week of meagre results will be recorded. The most persistent anti-junketer now realizes that it would have been money in the taxpayer's pockets if the committees of both houses had made these visits at the same time.

The arrival of Captain Cornelius Gardener of the Nineteenth United States infantry last week marks an epoch in the history of the National guard of Michigan. He has been detailed by the secretary of war as instructor of the National guard and will make his headquarters in the office of Adjutant General Irish.

JAMES V. BARRY.

STATE OF MICHIGAN, County of Lenawee ss

At a session of the Probate Court for the County of Lenawee, holden at the probate Office, in the City of Adrian, on Monday the 1st day of February, in the year one thousand eight hundred and ninety-seven.

Present, Richard B. Robbins, Judge of Probate.

In the matter of the Estate of Charity Gallatin, deceased.

On reading and filing the petition of Rachel Gallatin, administratrix upon the estate of said deceased, alleging that the funeral expenses and debts of said deceased and the expenses of Administration, thus far incurred, have been fully paid, and that she is now ready to close said estate and to render her final administration account, and praying that said account may be allowed, and that the residue of said estate may be assigned and distributed according to the statute in such case made and provided, that she may be discharged and her bond cancelled, and for such other order and decree as to ed, and for such other order and decree as to ... shall seem proper.

It is Ordered, That Monday, the 1st day of March ... in the forenoon, be assigned for the hearing of said petition and that the heirs at law of said deceased and all other persons interested in said estate, are required to appear at a session of said court, then to be holden at the Probate Office in the City of Adrian, and show cause, if any there be, why the prayer of said petitioner should not be granted.

And it is Further Ordered, That said petitioner give notice to the persons interested in said estate, of the pendency of said petition and the hearing thereof, by causing a copy of this order to be published in THE TECUMSEH HERALD, a newspaper printed and circulating in said County of Lenawee, for three successive weeks previous to said day of hearing.

RICHARD B. ROBBINS, Judge of Probate.

(A True Copy.)

A. E. Barnard, Probate Register.

MORTGAGE SALE.

On the sixteenth day of February, A. D. 1886, Samuel Larjelere of the village of Clinton county of Lenawee, Michigan, executed a mortgage to Sarah C. Rogers, of the village of Clinton, county of Lenawee, Michigan, on all that certain piece or parcel of land situate and being in the village of Clinton, Lenawee county, Michigan, and described in said mortgage as follows to wit:

Being lot number five (5) on the plot in the village of Clinton, as surveyed by Smith & Lapham for John Clark proprietor and now of record in the ... office in and for the county of Lenawee and state of Michigan. Said lot being ... (4) feet front and rear and one hundred ... feet on its east and west lines.

The ... age was upon the 17th day of February, A. D. 1886, recorded in the office of the Register of Deeds of said county of Lenawee in Liber 111 of Mortgages on page 556.

Default has been made in the conditions of this mortgage and the note running in connection therewith, whereby the power of sale therein contained has become operative, and upon the same there is claimed to be due and unpaid at this date the sum of one hundred thirty-four dollars and fifty one cents ($ 31.51) in addition to all other costs provided by law and in said mortgage for the foreclosure and no proceedings at law or in equity having been had or taken to recover the same or any part thereof.

Notice is therefore hereby given that pursuant to law and the terms of said mortgage, the premises above and in said mortgage described or so much thereof as may be necessary for that purpose will be sold at public auction to the highest bidder upon the twelfth day of April, A. D. 1897, at ten o'clock in the forenoon at the east front door of the court house in the city of Adrian in said county of Lenawee (that being the place and building for holding the circuit court of said county) to satisfy the amount then due upon said mortgage and note, the legal cost of foreclosure and the sale thereof.

Dated January 8 A. D. 1897.

SARAH C. ROGERS Mortgagee.

G. R. Gillespie, Attorney for Mortgagee.

MADRI GRAS CARNIVAL

New Orleans, La., March 2nd, 1897.

Account Madri Gras Carnival to be held at New Orleans, La., March 2nd, the Cincinnati, Jackson & Mackinaw R'y will sell special low rate excursion tickets from all points on Feb'y 26, 27 and 28, and March 1st, limited good returning fifteen days from date of sale.

1-29-4

COUNCIL PROCEEDINGS.

Council Room, Feb. 1, 1897.

Present, the President, clerk, trustees Boyd, Heesen, Lowry and Wright.

Minutes of last meeting read and approved.

Sexton's report for January presented, showing nine adult and one infant interment. Two lots sold for $60. $30 vault rent and interment fee collected. Accepted and ordered placed on file.

Note of Thomas Adamson, with George Heesen as surety, for $40, for lot, payable six months after date, presented. Same accepted and surety approved.

Street commissioner's report for December and January, presented, showing 81½ days village team labor. Accepted.

Petition of H. L. Jones, asking permission to erect a frame building, same to be covered with metal, in the rear of his property in fire limits, same to be used as a cook room and kitchen.

Moved that petition be not granted on account of hazardous nature of business to be carried on and location of building. Seconded; carried.

The following bills were reported by the clerk and referred to the finance committee: Temple, McClure & Co., lumber, $23.89; W. J. Ingersoll, freight and postage paid, $1.60; Tecumseh Electric Co., lights for January, $216.67; Alfred James, insurance, $37.50; Henry Heesen, services, $8. Committee reporting favorable on all of the above bills, clerk was instructed to draw his orders on the village treasurer for the amounts thereof.

The village treasurer reported that the funds of the village were exhausted, there being only $52.25 on hand.

Moved that the committee, consisting of the president, clerk and chairman of the finance committee, negotiate a loan of $1,000, payable July 15th, 1897, to be distributed to the various funds of the village to defray expenses until the collection of the village taxes for 1897. Seconded. Trustees Boyd yes, Heesen yes, Lowry yes, Wright yes. Carried.

Moved that the President and clerk destroy water bonds No. 1, due Jan 1st, 1896, and No. 2 due Jan. 1st, 1897, and 206 coupons of the value of $25 each, of series 4, 5, 6, 7, 8 and 9, all of which bonds and coupons have been paid. Seconded; carried.

Moved that the village purchase 10,000 feet of oak plank and 2,000 feet of 3x4 stringers. Seconded; carried.

Council then adjourned until Monday Feb. 15th, 1897, at 7 p. m.

W. J. INGERSOLL, Village Clerk.

AFTER THE CAPITAL.

Plan to Remove It from Lansing to Detroit.

Latter City Prepared to Offer Inducements for the Change—Interesting Budget of News from Lansing.

(Special Correspondence.)

Lansing, Feb. 10.—Gov. Pingree has unfolded to a number of personal friends a scheme he is developing for the removal of the state capital from Lansing to Detroit. It involves the bonding of the city of Detroit in the sum of $5,000,000, with which to erect a state house to be presented to the state free of charge, the present building to be used for whatever purpose the legislature sees fit to make of it. At a meeting of 40 citizens of Detroit at Gov. Pingree's residence in that city Monday night, a plan was originated. It is proposed that the legislature submit the question to the people. The idea is to make a state park on the Detroit river front and erect the capitol thereon. Gov. Pingree not only thinks the capitol should be in the largest city in the state, but that the present building is too small and otherwise unfitted for the purpose.

Gov. Pingree has tendered the office of mineral statistics to Horatio S. Goodell, of Houghton, and the tender has been accepted. Mr. Goodell is 22 years of age, and entered politics last fall as the organizer of the Pingree boom in Houghton county.

The state grange will make its big fight in the state legislature this year for the passage of the anti-fee bill now before that body. A committee composed of Thomas Mars, of Berrien, and other prominent grangers has been appointed to look after the bill. It was stated that by reason of the liberal fees allowed county clerks by the statute some officials even in the rural districts are enabled to make big money. In some cases amounting to $4,000 to $5,000.

Representative Dickinson, the only colored member of the legislature, has given notice of a bill for the suppression of mob violence. It is modeled after the Ohio law and provides that persons suffering at the hands of mobs shall recover from the county in which the assault takes place a sum not less than $500, nor more than $5,000, the extent of the injuries to govern. The legal heirs of persons killed by mobs will be entitled to recover $5,000. The county, in turn, will be entitled to recover the amount paid from any known participant in the assault. In case a mob goes from one county to another and there resorts to violence the latter county will pay the bill and recover from the former.

A mass meeting of the spiritualists, held under the auspices of the state and national associations, has protested against the pending medical registration bill, because it does not recognize spiritual medium healers, on whom thousands of Michigan people rely in case of sickness.

Representative Obendorffer says that as the soil of the upper county is so much different from that of the lower peninsula, the experiments made at the agricultural college are not of value for the upper peninsula. He will, therefore, try to have a bill passed appropriating $6,000 for experimenting in agriculture and horticulture in the upper peninsula.

The Michigan Photographers' association will urge the passage of a law compelling the closing of galleries on Sundays.

A bill proposing a tax of 50 cents per year on bicycles has been introduced. It is said to be in the interest of wheelmen, as it provides that the revenue from the tax be placed in a special fund to be used for the construction of bicycle roads. The supervisors and a committee of wheelmen in each county are designated to determine what roads shall be repaired.

A shot has been taken at commercial agencies by the introduction of a bill prohibiting them or any individual from making, publishing or circulating any statement whatever as to the financial standing of a firm or corporation without the latter's consent.

There is a strong sentiment among legislators in favor of the enactment of a liquor law similar to the Nicholson law in Indiana, and the indications are that such a measure will be favorably reported at an early day. There is a decided tendency to make the liquor laws more stringent than ever before, and it is not improbable that the present county local option will be extended to cities, villages, townships and wards.

Among the measures introduced and noticed in the legislature are the following:

Providing that persons acquitted of crime on the ground of insanity shall be committed to an asylum for the insane; for the encouragement of the manufacture of sugar from beets; to prevent the forfeiture of fire insurance policies by the violation of any condition of the policy when such violation has been without prejudice to the insurer; prohibiting the insurance of lives of persons under 17 or over 65 years of age; providing for the organization of local building and loan associations; providing a license fee of $50 upon sleeping cars; providing for the labeling and branding of prison-made goods; authorizing practicing physicians, having drug stores, to put up prescriptions; authorizing the use of voting machines for elections; protecting regular graduates from veterinary colleges from the operation of quacks; protecting the manufacture of dynamite by establishing a standard grade and strength; [illegible] the organization of trust companies in cities of 10,000 inhabitants or upward, with a capital of $50,000; limiting the fee for the privilege of a sleeping car to one dollar a night; providing for ascertaining the interest of the state of Michigan in escheating estates; providing the manner in which servant girls may quit or be discharged, requiring one week's notice in either case; amending the general tax law; making appropriations of $1,000 to complete the compilation of records in the attorney general's office; to provide for the appointment of guardians for habitual drunkards and persons addicted to the use of morphine and other narcotics; for protection of fur-bearing animals. EMMETT

A big cement factory will be built in Bronson.

THE CIVIL SERVICE.

Annual Report of the Commission to the President.

Washington, Feb. 9.—The annual report of the civil service commission to the president shows that at the beginning of President Cleveland's administration there were about 43,000 places included in the classified service. This report embodies the work of the commission for the past two years as the report for 1895 was not issued owing to the various amendments to the rules made by the president and the commission deferred its report for that year so as to include the thousands of positions placed under the classified service during the past 18 months. The total approximate number of positions in the civil branch of the government is 178,717, of which 87,107 are in the classified service and 91,610 in the unclassified service.

The aggregate compensation paid in the executive civil service of the United States during the last fiscal year was approximately $100,000,000.

Of those in the classified service 84,239 are arranged in classes by compensation and subject to examination or registration, 26 are appointed by the president alone, 781 are excepted from examination or registration, and 2,051 are Indians in the Indian service. Of those in the unclassified service, 5,570 are excluded from classification for reasons deemed best for the service, 4,815 are appointed by the president and confirmed by the senate, 8,854 are persons employed merely as laborers or workmen, and 72,371 are considered as classifiable, but not yet classified. Of those not yet classified 66,725 are postmasters of the fourth-class. The classifiable but still unclassified group will be transferred to the classified service by the action of the rules, as, for instance, in the customs service, when the number of employes in a custom house becomes as many as five, and in the post office service when a post offices becomes a free delivery office.

PURITAN IS UNSEAWORTHY.

Still Another Vessel in the New Navy Must Be Repaired.

New York, Feb. 8.—Still another vessel in the United States navy has been found unseaworthy. It is the monitor Puritan, the last one added to the list of vessels available for service. The following is a summary of the calamities that have befallen the war ships of the United States since an effort has been made to get them into a condition for actual service:

May 19, 1896—Battle ship Indiana caught fire. Her bunker plates buckled and her steam pipes were twisted.

October 12, 1896—The Indiana narrowly escaped destruction, both of her monster turrets breaking loose in a storm, and the big guns threatening to wreck her.

September 16, 1896—Battle ship Texas struck a rock near the torpedo station at Newport.

November 9, 1896—The Texas sank at her dock in the Brooklyn navy yard because of faulty water-tight compartments.

January 13, 1897—Cruiser Montgomery struck bottom near Governor's Island, lost a propellor blade and bruised five plates on the port side.

January 30, 1897—The cruiser Brooklyn struck her bottom on the ice and rocks of the Delaware river, and her hull was crushed in.

February 5, 1897—The battle ship Indiana put back to Hampton roads for fear turrets would again break loose and cause her to "turn turtle."

February 6, 1897—The monitor Puritan was found to be unseaworthy on account of defective engines, some of the valves being in a leaky condition.

CUT IN HALF.

The President Reduces the Number of Pension Agencies to Nine.

Washington, Feb. 8.—The president has signed, on the recommendation of Secretary of the Interior Francis, an order reducing the number of pension agencies in the United States from 18 to 9. The object is to effect a large saving to the government without inconveniencing the pensioners. The following are the nine agencies and the number of pensioners paid thereat under the new order: Boston, 94,357; New York, 98,833; Philadelphia, 106,735; Washington, 140,265; Columbus, 104,492; Indianapolis, 116,066; Chicago, 125,123; St. Louis, 116,709; San Francisco, 23,098. Total, 970,678. The change goes into effect September 1 next.

BATTLE WITH WAVES.

Five Big War Vessels Caught by an Atlantic Storm.

Charleston, S. C., Feb. 9.—The United States war ships New York, Maine, Columbia, Amphitrite and Marblehead arrived off Charleston bar yesterday after a terrible experience with the storm, which swept up the south Atlantic coast Friday and Saturday. Four men were drowned and others were injured, some fatally. The officers say that their ships behaved splendidly and none of them have been seriously injured.

Jennings, Kan., Feb. 9.—Ben Munson, married, and Bert, his 16-year-old brother, were drowned while skating near here.

OUR LAWMAKERS.

The Closing Session of the Fifty-Fourth Congress.

Measures of Importance Presented in Both the Senate and House—A Daily Summary of the Proceedings.

Washington, Feb. 4.—After a brief parliamentary struggle in the senate yesterday the friends of the Nicaragua canal bill were unable to hold a quorum. Senator Thurston spoke on the resolution to prevent the sale of the Union Pacific railroad and said the people of the United States never would be ready to enter upon government ownership and operation of railways.

Washington, Feb. 5.—In the senate yesterday the house bill was taken up to prohibit the sale of intoxicating liquors in the capitol and Senator Hill (N. Y.) spoke at length against the measure, but no action was taken. The immigration bill was recommitted to the conference committee and the Nicaraguan canal bill was further discussed.

Washington, Feb. 6.—The senate yesterday admitted Richard R. Kenney to the Delaware seat vacated many months ago by Mr. Higgins. Fifty pension bills were passed and the Nicaragua canal debate proceeded without definite conclusion. A bill was passed granting part of Fort Lyon, an abandoned military reservation in Colorado, for the purpose of a state soldiers' home. Senator McMillan introduced a bill declaring "The Star Spangled Banner" to be the national song of the United States.

Washington, Feb. 8.—The senate on Saturday adopted Senator Morgan's resolution introduced last June, calling on the president for information regarding the capture of the Competitor by a Spanish warship. Eulogies on the late William Cogswell, congressman from Massachusetts, were delivered.

Washington, Feb. 9.—In the senate yesterday the bill rearranging the judicial districts of Texas was passed over the president's veto. Most of the time was occupied in executive session in considering the Anglo-American peace treaty.

Washington, Feb. 10.—The house yesterday agreed to the final conference report yesterday behind closed doors discussing the arbitration treaty.

The House.

Washington, Feb. 4.—Mr. Stewart (Wis.) offered a bill in the house yesterday to better protect the lives and property of persons against mob violence. The contested election case of Cornett vs. Swanson from the Fifth Virginia district was discussed at length, but no action was taken.

Washington, Feb. 5.—In the house yesterday consideration of the bill making appropriations of the expenses of the District of Columbia for the year ending June 30, 1898, occupied most of the time. A senate bill to pension the widow of Gen. J. B. Carr, of New York, at $50 a month was passed.

Washington, Feb. 6.—The entire day in the house yesterday was spent in clearing the calendar of unfinished business and out of 63 bills 59 were passed, most of them being pension matters.

Washington, Feb. 8.—In the house on Saturday the District of Columbia appropriation bill and a bill to permit the treasury officials to sell forfeited opium to the highest bidder and not require them to secure the amount of the duty, $10 a pound, were passed. The consular and diplomatic bill ($1,095,308) was reported.

Washington, Feb. 9.—The entire time in the house yesterday was devoted to District of Columbia business, and bills of more or less local importance were passed.

Washington, Feb. 10.—The house yesterday agreed to the conference report on the immigration bill by a vote of 217 to 33 and passed two more pension bills over the president's veto. A bill was passed to prevent the fraudulent use of the word "copyright" on books and other publications and a favorable report was made on a bill for the location of a branch of the National soldiers' home in Vermilion county, Ill., at a cost of $300,000.

For a New Road.

Springfield, Ill., Feb. 10.—Incorporation articles were filed Tuesday for the St. Louis & Salem Railway company, which proposes to construct a road from East St. Louis to Belleville, in the same county; from East St. Louis to Salem and from East St. Louis to Edwardsville.

Killed by His Wife.

Cleveland, O., Feb. 10.—George Davis, commission merchant, was shot and instantly killed by his wife early in the morning at their home, 11 Grace street. The shooting was the result of one of many family quarrels. The family are prominent.

Falls Dead in the Pulpit.

Springfield, O., Feb. 9.—Mrs. William L. Fee, the aged wife of Rev. Mr. Fee, a well-known former minister here, fell dead in the pulpit while speaking at a big revival at Felicity Sunday evening. Women screamed and men wept.

Hoisted the Greek Flag.

Athens, Feb. 9.—A dispatch from Canea, says the Christians about Canea have hoisted the Greek flag, have proclaimed the union of that island with Greece, and have invited the king of Greece to take possession of it.

ROYAL

The absolutely pure

BAKING POWDER

ROYAL—the most celebrated of all the baking powders in the world—celebrated for its great leavening strength and purity. It makes your cakes, biscuit, bread, etc., healthful, it assures you against alum and all forms of adulteration that go with the cheap brands.

ROYAL BAKING POWDER CO., NEW YORK.

CLINTON.

M. D. Alexander, of Tipton, was in town Tuesday.

Al. James was up from Tecumseh on his wheel Tuesday.

Leon E. A. Clark was home from Albion over Sunday.

E. W. Shoemaker returned to Chicago Wednesday afternoon.

Miss Lizzie Tate returned Saturday from her Hillsdale visit.

Chas. Marr, of Detroit, visited Clinton friends the last of the week.

Mrs. Kerman, of North Adams, is visiting her sister, Mrs. R. K. Felton.

Fred Kornig went to Norvell Saturday and spent Sunday with his father.

Timothy Halladay, of Norvell, visited Clinton relatives the last of last week.

Ralph Kishpaugh visited his parents at Britton from Friday until Sunday night.

Miss Mabel Clemens, of Tecumseh, spent Saturday and Sunday at Dr. J. E. Tuttle's.

Mrs. W. R. Ainspoker, of Manchester, was a guest at Jas. Hogan's the latter part of last week.

Merrit Martin, Jr., was quite sick the latter part of last week, but is now able to be about again.

Next regular meeting of Golden Rod [illegible] day evening, Feb. 17th.

The funeral of Michael Kirk, of Manchester, was held at St. Dominic's church last Friday at 10 a. m.

Chas. Sturm and wife attended the funeral of her brother, Fredrick Gauss, at Bridgewater Station Sunday.

Miss Minnie McAdam came down from Manchester Saturday to spend the day with her father and sisters.

Mrs. J. F. Reutschler entertained her friend, Mrs. Cornell, of Napoleon, from Thursday until Saturday night.

Regular meeting of Clinton Lodge No. 175, F. & A. M., Saturday evening. It is expected that there will be work.

Mrs. Geo. Burtless returned to her home at Napoleon Monday, after visiting her brothers, Chas. and James Bostedor.

Tate & Stoner shipped two cars of sheep, lambs and hogs to Buffalo Monday. S. Tate and Allen Bartlett went with them.

The members of the Epworth League will hold a photograph social Friday evening, at the home of Maud King, west of town.

E. A. Clark has disposed of his livery stock to Geo. Palmer, of Wayne, the papers being made out Wednesday. Mr. Palmer takes possession Saturday.

Misses Catherine and Jennie VanTuyle entertained their friends with a five o'clock tea Thursday afternoon at the home of their grandmother, Mrs. Sarah Wastell.

BIRTHDAY ANNIVERSARY.—Mrs. E. P. Felton was born Feb. 8th, 1808, consequently was 89 years old Monday. Strangers would not take her to be much over sixty, she being so active and well preserved. She enjoys all harmless amusements as well as the young and enters into them with zest. For many years it was her custom to invite all the aged ladies in town on her anniversary. So many having crossed the river that were wont to be present, this has been abandoned. Monday some thirty of her friends surprised her by walking in carrying well filled baskets and proceeded to take possession and made themselves quite at home. Mrs. Maria Hixson, who is nearly 97, Mrs. Barker and Mrs. E. Davis, far up in the eighties, were unable to be present. The afternoon was passed in social converse and the tea was bountiful and elegant. It was indeed a season of delight to all present. We append the names and ages of those present: Mesdames Sarah Wastell, 82; T. C. Adam, 81; M. Bartlett, 78; Haynes, 76; D. W. Palmer, 76; Ellen Rhoades, 71; A. Priest, 69; E. M. English, 63; Wm. Rogers, 62; D. Woodward, 62; F. M. Palmer, 62; S. Parker, 61; C. C. Silvers, 60; F. D. Lancaster, 57; M. Gulwits, 57; H. P. Downs, 56; J. Honley, 50; S. F. Marsteller, 49; J. Hogan, 48; Sarah Stevens, 47; J. L. Tuttle, 46; H. Davis, 43; A. H. St. John, 42; and Roswell Randall, 93; Darius St. John, 87; Edwin W. Freese, 74; David Woodward, 72; Henry P. Downs, 69; Frank M. Palmer, 67.

Mrs. Mat Lancaster visited in Tecumseh from Friday until Wednesday.

Miss Alice Halladay, who has been visiting friends at Jackson, Chelsea and Ann Arbor for the past few weeks, returned home Saturday.

Last Saturday morning a jolly party of young ladies, 19 in number, drove up from Adrian, to spend the day with their friend, Miss Sara Huntington.

Mr. and Mrs. Geo. Hard, accompanied by eight young boys and girls, surprised Miss Eva Smith at her home, three miles west of town. A very pleasant evening was spent.

EAST FRANKLIN.

Sleighing is rather poor in spots.

Martin Updyke is courting. Rather old, eh?

Mrs. Sarah Martin is visiting at her nephew's, Ed. Bowen's.

John Dunn visited friends in Cambridge the first of the week.

Andrew Taylor commenced work for Seth Simmons Friday. He has hired out for the season.

Mrs. S. N. Munger and little son, Maxson, spent Tuesday and Wednesday in Tecumseh with her sister, Mrs. Geo. Knapp, who expects to start for Florida Thursday.

Mr. and Mrs. Swartz entertained the E. and F. Farmers Club Feb. 5th. Mrs. S being unable to sit up. Rather disagreeable company—the colds, we mean.

A SCOURGE OF LA GRIPPE

Is Raging Everywhere, Devastating City, Town and Country Alike.

Nothing equal to it has ever been known. We have had la grippe before in this country in several well defined epidemics, but not as we are having it now. Everybody, everywhere, has it, has had it or is expecting to have it. In every paper we read of it. Every one we meet speaks of it. Perhaps the worst feature about la grippe is that it is almost sure to leave consequences behind it which are far worse than the original disease. But it could not have been otherwise than that some things have been learned during these sieges with la grippe. Untold thousands have learned these things but a still greater multitude perhaps have these things yet to learn.

First, that Pe-ru-na taken before each meal and at bedtime will protect any one from having la grippe. Second, that Pe-ru-na taken every hour during the acute stage of la grippe will shorten its duration and prevent the long train of disagreeable consequences which follow the acute attack. Third, that in cases where Pe-ru-na has not been used during the acute stage and the victim finds himself dragging out a miserable existence from the damage to his system accomplished by la grippe, he has only to take Pe-ru-na according to the directions on the bottle to realize a speedy and complete cure. The explanation of this is that la grippe is epidemic catarrh. Pe-ru-na will cure catarrh wherever located. It will cure catarrh of every variety and stage. Therefore it will cure la grippe, which is simply the epidemic variety of acute catarrh. During such a winter as this no one should be without a copy of Dr. Hartman's latest book which treats fully of la grippe, acute catarrh, chronic catarrh, coughs, colds, bronchitis, consumption and all other climatic diseases of winter. Sent free to any address by The Pe-ru-na Drug Manufacturing Company, Columbus, Ohio.

A lizard brooch in diamonds and jacinths has emerald eyes.

SORE THROAT.

We unhesitatingly recommend the free use of Lightning Hot Drops in all cases of sore throat. If directions are closely followed, the result must be a happy one; for Lightning Hot Drops has proven its curative energies in all diseases of throat. It is a superb remedy for asthma, bronchitis, tonsilitis, quinsy, croup, diphtheria and common sore throat. Orr & Temple, Tecumseh and Ridgeway.

Sims Reeves, the celebrated English tenor singer, has been declared a bankrupt at London and a receiving order has been issued against his property.

MANCHESTER.

Mrs. J. D. Bauer and son, Chris, are quite sick.

Miss Anna Watkins is visiting relatives in Ann Arbor.

Miss Allie Lazell returned on Friday from her visit in Hastings.

Rev. J. L. Hudson, of Alpena, is visiting his sister, Mrs. M. D. Case.

C. W. Sandford and wife returned from their visit in Philadelphia last week.

Rev. McPhail will preach his farewell sermon as pastor of the Baptist church Sunday.

The Universalist society held a social at L. M. Baldwin's last Wednesday evening.

There is to be an A. C. F. social at the home of Mr. and Mrs. Geo. Bowins Friday evening.

The school social held at Geo. S. Rawson's Friday evening was a success. The collection was $24.00.

The Methodist ladies' society give an entertainment, "The Deestrict Skule," at Arbeiter Hall on Feb. 17th.

Wait Peck died at his home in Sharon township last Sunday. He was born in Litchfield, Conn., Oct. 12th, 1807. His funeral was held Wednesday.

Here is a diamond, here a piece of charcoal. Both carbon; yet between them stands the mightiest of magicians—Nature. The food on your table, and your own body; elementally the same; yet between the two stands the digestion, the arbiter of growth or decline, life or death.

We cannot make a diamond; we cannot make flesh, blood and bone. No. But by means of the Shaker Digestive Cordial we can enable the stomach to digest food which would otherwise ferment and poison the system. In all forms of dyspepsia and incipient consumption, with weakness, loss of flesh, thin blood, nervous prostration, the Cordial is the successful remedy. Taken with food it relieves at once. It nourishes, and assists nature to flourish. A trial bottle—enough to show its merit—10 cents.

LAXOL is the best medicine for children. Doctors recommend it in place of Castor Oil.

One Hundred Dollars an Acre

Can only be made from one source—poultry. Wheat and corn do not pay. Perhaps you may smile but have you ever kept hens right. The egg basket comes in handy now in these hard money times. The leading authority in practical poultry keeping is THE POULTRY KEEPER, Box BB, Parkesburg, Pa., and only costs fifty cents a year or twenty-five cents for six months, or for one dollar you can get with it the four POULTRY KEEPER ILLUSTRATORS the most wonderful books published, with information on every subject connected with the raising of poultry and containing. THE POULTRY KEEPER is an astonisher and leads the world. Dolls for the girls, games for the boys and premiums for all who get a few subscribers. Two subscribers for six months at twenty-five cents each, secures many of them. Every poultry raiser must have the POULTRY KEEPER the contents of which may save or make you hundreds of dollars, as this monthly leads the world in valuable information not to be had elsewhere for any money. Sample copy free.

There is Nothing so Good.

There is nothing just as good as Dr. King's New Discovery for Consumption, Coughs and Colds, so demand it and do not permit the dealer to sell you some substitute. He will not claim there is anything better, but in order to make more profit he may claim something else to be just as good. You want Dr. King's New Discovery because you know it to be safe and reliable, and guaranteed to do good or money refunded. For Coughs, Colds, Consumption and for all affections of Throat, Chest and Lungs, there is nothing so good as is Dr. King's New Discovery. Trial bottle free at Baker & Hall's drug store. Regular size 50 cents and $1.00. 3

Secretary of the Treasury Carlisle has decided to locate in New York City after March 4th.

Statistics show that thousands of infants and children yearly die of membranous croup. We do not exaggerate when we state that every one of these innocents could have been saved had Foley's Honey and Tar been given them in time. Can you afford to be without it in your household? Orr & Temple.

Russia has the most rapidly increasing population of any country on earth.

REFORMS FOR CUBA.

Full Abstract Received at Spanish Legation in Washington.

Insurgents Will Not Accept—Minister De Lome Gives His Views—Gomez Will Not Treat with Weyler.

Washington, Feb. 8.—The Spanish legation has received with the full abstract of the new reforms for the island of Cuba and Porto Rico the preamble of Senor Canovas, announcing the terms of the new decree. This preamble expresses the kindliest feelings towards the Cuban people. Minister Dupuy de Lome discussed the scope of the reforms and said among other things:

"The electoral reforms were not referred to at any length in the decree of the ministry, for the reasons stated in the preamble of Senor Canovas, that they will require the action of the cortes. I am informed, however, that the government contemplates extending greatly the basis of the suffrage, but they desire to do it in such a way as to prevent undue influence being acquired by the illiterate portion of the population. Any educational qualification which may be suggested by the Cubans, and which seems reasonable and proper, will undoubtedly be adopted by the cortes.

"It is the purpose of the government to show the greatest generosity towards the insurgents who lay down their arms. The reforms cannot well be put in full effect until the sovereignty of Spain is acknowledged in all parts of the island. The government will not relax its military activity in any degree if the insurgents show a disposition to continue the contest and fail to appreciate the great concessions made by the home government.

"The tariff features of the new decree mean a great deal for the United States as well as for Cuba. The first column of the new tariff schedules, providing for revenue, will contain the greatest number of items, leaving the list on which discriminations are made in favor of Spain not exceeding 20 per cent. of the value of the imports, a comparatively short one. The duties levied will be equal against all countries except Spain, and American manufacturers and exporters, in view of their familiarity with the Cuban trade and their nearness to the island, are likely to appreciate the importance of these concessions. The situation will be much more favorable to American trade than under the reciprocity treaty of 1890."

GOMEZ SCORNS WEYLER.

Cuban Leader Refuses to Treat with Him for Peace.

Havana, Feb. 8.—Gen. Weyler's attempt to arrange for a secret conference with Gomez in Santa Clara over the question of the proposed Cuban reforms has proved a complete fizzle. Gen. Gomez sent word, it is said, that he would not confer with Gen. Weyler upon any subject whatever, and refused to meet him under any circumstances. While the rebel leader doubted the sincerity of the Spanish government, and declared that the proposed reforms would not be promulgated in good faith, he expressed a willingness to meet any accredited agent of the government, except Gen. Weyler, for the purpose of giving the insurgent view on the question. Gen. Gomez' refusal to deal with Gen. Weyler caused intense excitement in official speculative circles.

WILL NOT ACCEPT.

Gen. Gomez Says Spain's Proffered Reforms Are Bogus.

New York, Feb. 10.—The World publishes an interview with Gen. Maximo Gomez, commander of the Cuban army, in which the general said:

"Spain will not grant a new real reform. We no longer ask concessions from her. Even were Spain's proposals bona fide, nothing could tempt us to treat with her.

"We are for liberty, not for Spanish reform. We are for Cuba, not for Spain. I am disgusted with this talk of reform. Does Spain think we have forgotten the lessons of the past?

"Liberty is what we are fighting for, because it is one of the most glorious gifts that God has bestowed upon man.

"Home rule in its broadest sense is independence. That is the kind of home rule we want. If you ask, would we accept home rule with a Spanish captain general, I would answer most emphatically, no. We want nothing from Spain. We do not want her captain general or her glory, if she has any remaining—nor her care."

TOOK HER OWN LIFE.

Mrs. Lucy Burnham Commits Suicide at Starke, Fla.

Starke, Fla., Feb. 10.—Mrs. Lucy Burnham was found dead in her room at the Commercial hotel Tuesday morning, having committed suicide by taking chloroform. Mrs. Burnham left several letters for friends in Chicago and elsewhere and a note to the public stating that the burden of life had grown too heavy for her. She was formerly Mrs. Lucy Van Evar, art critic of the Chicago Inter Ocean. Eight months ago she was married to Dr. Burnham, the specialist, and they came to Florida.

Suffocated in a Corn Bin.

Sandusky, O., Feb. 10.—At Parkertown, near here, at his father's elevator, 13-year-old Henry Somers jumped for fun into a bin which was being emptied of shelled corn. He was drawn to the bottom, and the first known of it was when his body stopped outpouring of corn at the mouth of the bin. He was suffocated.

Drowned Herself and Children.

Big Timber, Mont., Feb. 8.—In a fit of desperation, after a quarrel with her husband, the wife of Robert Cort, a fairly well-to-do rancher living five miles from here, picked up her three small children, rushed to the Yellowstone river and threw the children and herself in. The current carried the bodies quickly out of sight.

Crime of a Farmer.

Mount Vernon, Ky., Feb. 6.—Anderson Parker, a farmer of this (Rock Castle) county, in a drunken rage struck his wife and fractured her skull with a club. He then shot his son through the wrist, when the boy secured a revolver and killed his father.

Will Locate in New York.

Louisville, Ky., Feb. 9.—According to a dispatch received from Washington, Secretary of the Treasury Carlisle has definitely decided to locate in New York city.

Montreal, Can., Feb. 8. — Thomas Doherty & Co., tea merchants, have assigned. Liabilities about $100,000.

ommunity was stirred from cen circumference the last of the it has not been for years. The eal estate even took a sudden ew of the great business boom about to shake the town. The of sound money were nudg silver friends and claiming promised era of prosperity was be realized. What caused all e will tell you. Friday a gen Hebrew extraction, bearing of Wolf and claiming to hail water, appeared in town. He ed himself as being a man of lth and interested, with his several large business houses nt cities and that he was here sh a bank, cigar factory and a artment store. Hotel life be stoful to him, he sought for with a private family, price object if the rooms and table y furnished and he could have roast goose on Sundays. He he could be suited at Albert the parlor was arranged to suit nd convenience and he seem eased, although Mrs. Lee told d not know where to procure his Sunday dinner is being the week. He next turned ion to securing proper quar is difeness business enter it was not long ere he had contracted for the Beasley ch he thought could be con he following uses: the ground floor for the bank and the upper floor for a cigar factory. He next rented the Brown store, which was to be remodeled to his taste and he gave full instructions how it should be done. He next visited Lenardson's and placed a large order for the finest wall paper and paperhangers and painters were engaged to report for duty Tuesday morning. He paid Editor Goodrich a visit and placed an order for something less than a ton of printed matter and engaged space in his paper sufficient to warrant enlarging the sheet. Two young ladies were hired as clerks who proceeded to arrange their wardrobes for their positions. Three men were wanted—one applicant he said looked too honest for him. All this was done before Saturday night. Monday he found it necessary to go to Milan and engaged Al Lee to drive him over. Before starting he endeavored to borrow money from different individuals, bought a quarter's worth of Lenardson's best cigars to be paid for when he got the wall paper. On arriving at Milan he told Al he was so chilled he thought he could not ride back but would come on the cars. Tuesday morning the paperhangers were on hand to go to work but Mr. Wolf had not arrived and Brown would not allow anything disturbed until the first quarter's rent was paid, as the contract called for it in advance. By this time the people began to take a tumble to themselves and realize that the great buisness boom was busted and he had been working them for a lot of chumps. Oh! no! Suckers don't work in winter time. Think of it!! Goose for Sunday dinner!

RIDGEWAY.

Harness oil in bulk and cans, at
ED. SMITH'S.

Quarterly meeting at the M. E. church next Sunday.

Charles Morgan made a business trip to Dundee Monday.

The W. C. T. U. will hold their next meeting at the home of Mrs. Rachel Howell Saturday afternoon of this week.

Topic for the E. L. meeting next Sunday evening is "Christ's Character Described." Isa. 11: 1-5. Leader, Rev. D. H. Ramsdell.

Will Lowe, of Raisin, called on Macon friends last week.

Mr. and Mrs. Webb DePuy, of Saline, spent Sunday with friends in this vicinity.

Mrs. Sarah Austin, of Tecumseh, visited her daughters and other friends here last week.

Lewis Collier served ice cream to a few of his intimate friends at his home Saturday evening.

A load of Tecumseh young people attended the E. L. entertainment here last Friday evening.

Miss Minta J. Gason closes the winter term of school in the Merritt district Friday of this week.

Miss Grace Norris, of Tecumseh, has been spending a few days with her aunt, Mrs. Mary Skinner.

William Randall, who was chosen juryman from this town, left for the county seat Tuesday.

The Epworth League entertainment proved a success and the proceeds amounted to nearly $17.

Mrs. Ivy Price and little daughter Reta, of Britton, visited Macon friends from Tuesday until Thursday.

The lady Maccabees sprang a surprise on Mrs Rose Hatch last week Thursday. A grand dinner was served after which they presented Mrs. Hatch with a fine willow rocker, as a token of remembrance.

Elwin Camburn and wife, John Jackson, Parker Allen and wife and Mrs. Mary Ann Carter went to Franklin Thursday evening to attend a surprise party given Comrade VanValkenburg. A good time is reported.

Will Thomas, Acel Kelley and Spencer Morgan spent two or three days of last week on Wamplers lake, fishing. Spencer caught the fish that capped the climax, it being a pickerel weighing 9 3-4 pounds. It made him step high when he passed through the "Corners," but who wouldn't be proud to catch such a fish.

HOLLOWAY.

The creamry was well stocked with ice during the recent cold weather.

The many friends of Mrs. A. H. Kelley will be pleased to learn that she is convalescing.

The weekly prayermeeting and Y. P. S. C. E. business meeting were held at the parsonage Wednesday evening.

Saturday evening quite a number of our young people visited William and Bessie Mitchel, at their home in Raisin Valley.

The Misses Anna and Ruthella Rainey very pleasantly entertained a large number of their friends on Friday evening of last week.

The stockholders of the Clover Leaf creamery, with their wives, were very pleasantly entertained at the home of Mr. and Mrs. Wm. E. Doty, Monday evening.

A select party gathered at the home of Mr. and Mrs. Thomas Florance on Thursday evening of last week and spent the evening in games and tripping the "light fantastic."

A. D. Macham and family attended the golden wedding of his parents at Deerfield, Tuesday, at which time also occurred the marriage of his brother Earl, to Miss Florence Baker.

John Schwabw's horse, while hitched in town last week Tuesday, became frightened at a passing train and quite demolished the cutter, although not so badly but that A. H. Lewis repaired it.

CONE.

Chas. B. Kent is up from Toledo visiting friends this week.

Jas. Kinch, of Britton, was the guest of Wm. Curry Monday.

Mr. and Mrs. J. D. Smith were guests at Thos. Caswell's Monday.

Miss Gertie Marvin, of Azalia, called on Mrs. J. C. Cone Saturday.

Myron Ray and wife were Toledo visitors the first of the week.

J. C. Dennison was the guest of friends in Britton the first of the week.

Born, to Mr. and Mrs. Theodore Kempf, a son, Thursday, Feb. 4th.

Miss Rosa Logan visited her aunt in Adrian from Saturday till Monday.

Miss Lena Landt is visiting her aunt, Mrs. Etta Snyder, near Raisin Center.

Mrs. Margaret Caswell visited friends in Ann Arbor Tuesday and Wednesday.

Ben Snyder, of Raisin Center, visited his brother-in-law, Wm. Landt, last week.

Mr. and Mrs. Will Cochran, of Ann Arbor, are spending the week with friends in this vicinity.

The Ladies' Aid Society will meet with Mrs. Amasa VanDeventer Feb. 24. All are cordially invited.

Miss Anna Curry and Mrs. Maggie Curry and little son Lamont visited friends in Tecumseh last Friday.

Mrs. G. W. Richardson, of Sandusky, O., is visiting her parents, Mr. and Mrs. Tom Caswell, and other friends here this week.

Did You Ever

Try Electric Bitters as a remedy for your troubles? If not, get a bottle now and get relief. This medicine has been found to be peculiarly adapted to the relief and cure of all Female Complaints, exerting a wonderful direct influence in giving strength and tone to the organs. If you have Loss of Appetite, Constipation, Headache, Fainting Spells, or are Nervous, Sleepless, Excitable, Melancholy or troubled with Dizzy Spells, Electric Bitters is the medicine you need. Health and Strength are guaranteed by its use. Fifty cents and $1.00 at Baker & Hall's drug store. 3

Horatio L. Hutchins, for five years past Associated Press reporter on the Omaha Bee, died Saturday morning.

The Modern Way

Commends itself to the well informed, to do pleasantly and effectually what was formerly done in the crudest manner and disagreeably as well. To cleanse the system and break up colds, headaches and fevers, without unpleasant after effects, use the delightful liquid laxative remedy Syrup of Figs. Manufactured by California Fig Syrup Company

Just try a 10c box of Cascarets, the finest liver and bowel regulator ever made.

Glad Tidings to Asthma Sufferers.

Foley's Honey and Tar gives quick and positive relief in all cases. Orr & Temple

A desirable pearl necklace has each festoon caught by a diamond cluster.

Wm. R. Hayes Writes

Payne, Ind., Feb. 1896.

I have been using Dr. Caldwell's Syrup Pepsin ever since the agency was established here four months ago. When I began taking it I weighed 150 pounds and now I weigh 177 pounds. Feel better than ever did in my life and must say it is an excellent remedy. In 10c size (10 doses 10 cts) regular sizes 50c and $1.00 at Orr & Temple's.

John Brown's daughter, who is living in great distress near Petrolia, Humboldt county Cal., recently received from some colored people $15, which, she said, helped her a great deal.

$100 Reward, $100.

The readers of this paper will be pleased to know that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, 75c. June Hall's family pills are the best.

Mrs. McKinley has returned to Canton, O., from her inauguration shopping at Chicago.

It Beats All

The great success that Dr. Caldwell's Syrup Pepsin has reached in so short a time. Those who once give it a fair trial, then and there become walking and talking advertisers of this great remedy. Constipation, Indigestion and Sick Headache cured. Get a 10c trial size, larger sizes 50c and $1.00 of Orr & Temple.

A large portion of the business part of Shellrock, Ia., was destroyed by fire Saturday. The loss is estimated at $25,000.

How much business can a man do whose system is in a state of disorder? Headache is only a symptom. It is not a disease. The pain in the head is the sign of rebellion. There have been mistakes in diet and other abuses.

Dr. Pierce's Pleasant Pellets are a gentle, effective renovator and invigorator of stomach, liver and bowels. They assist nature without threatening to tear the body piece-meal. There are no griping pains, no nausea. One is a laxative.

A book of 1008 pages, profusely illustrated, written by Dr. R. V. Pierce, called "The People's Common Sense Medical Adviser," will be sent free for 21 one-cent stamps to cover cost of mailing only. World's Dispensary Medical Association, No. 663 Main Street, Buffaly, N. Y.

In the balloting of the league of the L. A. W. Philadelphia received the greatest number of votes, and the national meet will be held in that city.

A Philadelphia grocer has this sign behind his counter; "The man who trusts is out."

Mrs. Maggie Myers,

Williamsport, Ind., writes: "I suffered for months of severe stomach troubles, caused by indigestion and constipation. My trouble seemed almost unendurable. I purchased a bottle of Dr. Caldwell's Syrup Pepsin of Armstrong & Swank and as soon as I had taken its contents I was like a new person, and know feel better and weigh more than I have in years." It is sold in 10c, 50c and $1.00 sizes at Orr & Temple.

A milkman in South Bend, Ind., had diphtheria in his family and several of his patrons took the malady. It is asserted the disease was spread by milk tickets.

Don't Tobacco Spit and Smoke Your Life Away.

If you want to quit tobacco using easily and forever, be made well, strong, magnetic, full of new life and vigor, take No-To-Bac, the wonder-worker that makes weak men strong. Many gain ten pounds in ten days. Over 400,000 cured. Buy No-To-Bac from your own druggist, who will guarantee a cure. Booklet and sample mailed free. Ad. Sterling Remedy Co., Chicago or New York.

Dr. O'Reilly, family physician to Presidents Harrison and Cleveland, has gone to Europe to bring home his insane wife who suddenly took passage across the ocean while demented.

Always in season, Hopkins' Steamed Hominy (Hulled Corn). Elegant lunch in milk. Quart 10 cents.

Statement of Mr. J. S. Creech, of Stephens, Ky: "I suffered with neuralgia and pains in my head and neck for several years. My gums seemed to come loose from my teeth, and at times I suffered almost death. My friends thought I would sometimes die with lockjaw. They applied Lightning Hair Drops to my neck and head and to their surprise it gave me great relief. Afterward, I applied it to my gums with like good results, and I am now entirely well." Orr & Temple, Tecumseh and Ridgeway.

Cascarets stimulate liver, kidneys and bowels. Never sicken, weaken or gripe.

The Arkansas house by a unanimous vote has passed an anti-trust bill.

You should know that Foley's Honey and Tar is absolutely the best remedy for all diseases of the Throat, Chest or Lungs. Dealers are authorized to guarantee it to give satisfaction in all cases. Orr & Temple.

DISCARDED CHIMNEYS.

A Definite Vacuum Is Now Held Upon All Fires.

One of the most remarkable changes noted at present in the manufacturing industry is the giving up of the chimney to produce draught, and though, of course, a chimney offers so simple and efficient a means of making the requisite draught for the fire, it is stated that in one of the large works of England—locality not mentioned—chimneys have been discarded and a definite vacuum is held upon all fires. In this way the products of combustion and destructive distillation which result from the burning of coal and carbonaceous matter are collected, cooled, condensed and worked up. One of the methods noted as attracting attention in Germany consists in sucking the gases of the furnaces away and allowing them to pass through water in the form of small bubbles, which removes the soot and some of the products of combustion, the gases being then led to a gasometer, from which they are drawn into the process of utilization. A manufacture of this kind, it is urged, can easily extend pipes in any direction and draw the gases of combustion from their manufactures—the purification of the atmosphere thus assured being another important result.

Dickens and the X Ray.

An amusing instance of anticipation of the penetrating character of the so-called X rays has been discovered, says the Electrical Review, in a most unlikely place—that is, in Dickens' "Christmas Carol." It will be remembered that when the miser, Scrooge, sees the ghost of his former partner, Marley, entering the room, Marley's body appears to be transparent, so that Scrooge can see clear through him and discern the two buttons on the back of his coat. It may be presumed that Marley wore the old-time blue coat with brass buttons, and that flesh and blood became transparent when metal buttons would not. It is now in order for the Society of Psychical Research to try the X rays for the detection of ghosts, but if they are successful they must give the credit to Dickens.

In the Yosemite valley a while ago, a young fellow went out on the edge of a shelving precipice two thousand feet high, and balanced himself on his head. A little slip or little puff of wind would have sent him to eternity. Not one man in a million would be that kind of a fool. But nine men in ten are all the time taking foolish chances.

There is no deadly peril about a little fit of indigestion or biliousness, and yet if a man allows these troubles to get a hold on him he is taken serious risks. Dyspepsia alone seldom kills anybody; that is, it only kills you by inches, and takes a good many years doing it. But it weakens and undermines the constitution so that it is all ready to receive and fertilize the dangerous diseases which do kill you outright.

Disease-germs won't grow in healthy blood any more than corn will grow on a rock. A man who keeps his digestion perfect and his blood pure may eat and drink and breathe disease germs, but they gain no foothold. They are cast out of the system. But a man with a dyspepsia weakened constitution breathes in typhoid or diphtheretic germs and down he goes.

The best health-insurance a man can have is Dr. Pierce's Golden Medical Discovery. It acts directly on the stomach and liver. It gives the blood-making organs power to make healthy blood. It clarifies the blood from all impurities, and builds up the healthy flesh, muscular power and nerve energy, which fortifies you against disease.

His life-long success in the treatment of chronic diseases has given Dr. Pierce's medicines a world-wide reputation. His "Pleasant Pellets" cure constipation.

HE WON HIS CASE.

Reminded the Maryland Squire of the Old Days.

"I went into a country district in Maryland a few days ago to try a case," said a Washington attorney to a Washington Star man.

"I appeared for the plaintiff and it must be confessed that the evidence failed to establish his claim. I presented the matter before the justice of the peace in the best light I knew how, but had very little hope of securing the verdict. My client, when I finished, whispered to me that he would say a few words if I were willing and, considering the case lost, I consented. It was the most unique speech I ever heard and it won the case. He said:

"'Squire, I brought this suit and the evidence, except my own, is against me. I don't accuse anyone of lying, squire, but the witnesses are the most mistaken lot of fellows I ever saw. You know me, squire. Two years ago you sold me a horse for sound that was as blind as a bat. I made the trade and stuck to it and this is the first time I have mentioned it. When you used to buy grain you stood on the scale when the empty wagon was weighed, but I never said a word. Now, do you think I am the kind of a man to pick up a rumpus and sue a fellow unless he has done me wrong?"

"It took just five minutes for the justice to decide for the plaintiff."

CROSS-EXAMINATION

Could Not Weaken Such Testimony As This.

(From the Kalamazoo Telegraph.)

The following statement is one of great interest to many a citizen of Kalamazoo, and a man as well known as Mr. Wallace should carry more than ordinary weight with our readers. Here it is as taken down by our representative:

"My name is John A. Wallace. I am a member of the firm of J. A. Wallace & Co., doing business as tinners, etc., at 108 Eleanor Street, Kalamazoo, in which city I also reside. For the past nine or ten months I have been having attacks of kidney complaint, the pain in my back over my hips was very severe at times; my urinary system was also in a bad state of derangement, sometimes the urine was scanty and then again the amount would be excessive, and a difficulty of passage always existed. I heard of Doan's Kidney Pills at a time when I felt that I was going to be sick, but their use warded off an attack, and I am now feeling very much better; the urinary organism has regained a normal condition, and the terrific pain in my back is much reduced in severity, while it is now fast going away altogether. I am continuing the use of Doan's Kidney Pills, with positive feeling that they will effect on me a permanent and speedy cure. I have unbounded confidence in Doan's Kidney Pills as a remedy for all kidney ailments; have good reason to be, as they have done so much for me."

Can you ask any more than this? Doan's Kidney Pills are relieving more backs of the burdens they have been forced to bear through the kidneys than all other means devised, and, better still, they are doing this right here in Michigan. Ask any one who has ever taken them and see what they will say.

Doan's Kidney Pills for sale by all dealers, price, 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name, *Doan's*, and take no other.

TECUMSEH, MICH., FEB. 12, 1897.

In the death of Charles Burridge Tecumseh has sustained a severe loss. His business acquaintance and clientage extended all over Lenawee County and throughout this territory the feeling is that of sadness and regret at the taking off of so good a man, still in the prime of life.

The soliciting committee for the Lima Northern will commence soliciting early next week and continue until the amount is raised Tecumseh will certainly raise the bonus required and it is the duty of our citizens to make it as easy as possible for the committee in their work.

The HERALD has several times during the last few months called attention to the fact that a law should be passed, in this state, which would require the railroad companies to carry bicycles free of charge as excess baggage. Through the efforts of the Michigan Division of the L. A. W. the following bill, called the "Anderson Bill," (House bill No. 159) will be introduced during the present session of the legislature. New York, Ohio, and several other states have compelled the railroads to take care of the wheel which is certainly no more than right and no doubt Michigan will do the same.

SECTION 26. The words "ordinary baggage" and "baggage" wherever used in this act and in the acts amendatory thereto, shall be deemed to include bicycles, and no passenger shall be required to crate, cover or otherwise protect any such baggage: Provided, each passenger shall be entitled to have but one bicycle transported under the provisions of this act.

SECTION 27. The baggage of the passenger shall be delivered on presentation of the duplicate check therefor, without unnecessary delay to such passenger or any person acting in his behalf at the place to which it was to be transported, or at any regular intermediate stopping place where the cars usually stop; provided thirty minutes notice be given the baggage master or other person in charge of the baggage of such intention to stop at intermediate point.

To take effect upon its passage.

Farmers' Social Club.

The club will meet with Mr. and Mrs. B. B. Gillespie Tuesday evening, Feb 23rd.

Music.
Reading—Mrs. B. J. Rector.
Historical questions.
Medley.
Question for discussion, "Can the agricultural interest procure proper legislation for their financial depression through the Grange," led by B. B. Gillespie.

STATE OF MICHIGAN, County of Lenawee, ss.

At a session of the Probate Court for the County of Lenawee, holden at the Probate office in the city of Adrian, on Thursday, the 11th day of February in the year one thousand, eight hundred and ninety-seven.

Present, Richard B. Robbins, Judge of Probate.

In the matter of the estate of David VanTyne deceased.

On reading and filing the petition duly verified of Law erence M. VanTyne, a son of said deceased praying for the probate of an instrument now on file in this Court, purporting to be the last will and testament and codicil of said deceased and that administration of said estate may be granted to him, petitioner, the executor named in said instrument or to some other suitable person.

It is ordered, That Monday, the 8th day of March next, at nine o'clock in the forenoon, be assigned for the hearing of said petition

And it is further ordered That a copy of this order be published in THE TECUMSEH HERALD, a newspaper printed and circulating in said County of Lenawee, for three successive weeks, previous to said day of hearing.

RICHARD B. ROBBINS, Judge of Probate.
(A True Copy.)
A. E. BARAGAR, Probate Register.

Woman Elected Chaplain.

Boise, Idaho., Feb. 10.—Mrs. Rebecca Mitchell, of Idaho Falls, president of the Idaho Woman's Christian Temperance union, has been elected chaplain of the state legislature, an unusual honor for a woman. She was largely instrumental in securing woman suffrage for Idaho.

Judge Goff Declines.

Canton, O., Feb. 8.—Judge Goff, of West Virginia, has written to Maj. McKinley a letter couched in such terms as to warrant the announcement that he will not be in the cabinet, and his name must now be erased from the cabinet slate.

Will Pay Off Depositors.

Freeport, Ill., Feb. 10.—The Farmers' and Merchants' bank, of this city, has arranged with the Second national bank to pay off its depositors. The bank was organized under state laws, and will probably go out of business.

NAMES WRIT ON WATER.

Evanescent Reputations of Persons Who Flitted on the Stage.

"Theatrical reputation is the most evanescent of all glories of life," sadly observed the old actor, drawing his last summer's overcoat around him a little tighter, according to the New York Herald.

"That's so," responded the agent, "and nothing reminds one of this more than an acquaintance with the billrooms of the old theaters about the country. You know they have a way of posting up bills and lithographs in the bill-rooms—that part of the theater in which the bills are laid out, and which is the lounging place of the traveling agents, the billposters, advertising men, etc., and preserving a sort of record of the celebrated actors, companies and scenes that have been at that particular house. Sometimes this is done systematically, with an idea for general pictorial effect, and then looks very pretty. But more often it is the freak of some billposter, who slaps up a full length figure, or a lithograph head, or something grotesque, the whole collection forming a curious and sometimes nightmarish jumble.

"In the older bill-rooms will be seen pictures of bygone favorites of the American stage—of many persons who were famous the other day and who today are quite forgotten. They are usually represented in their favorite costume and part. Some of these were the rage but a few years ago—drew big salaries and had everything their own way. There are women who actually queened it over the whole country—made thousands and drank champagne and wore a princess' diamonds. Why, their very names are forgotten! I am not an old-timer, though I'm familiar with the stage, and I tell you I've been actually startled suddenly to come across these pictures on the bill-room walls, and to be thus reminded what they had been, and to be set to thinking what had become of them!"

SHE WAS THRIFTY.

One Woman Made $2,200 with a Thrashing Machine.

A woman thrasher is a novelty—that is, outside of the schoolhouse or home. And the one in question is a genuine thrasher of the golden grain of the northwest, says the Minneapolis Journal. She came into one of the Minneapolis farm machinery houses the other day to make her final payment on her machine. This was startling and marked her as a woman of business capacity; for the man who makes a full payment on a thrasher this season is regarded as an exceptionally good man. That the lady in question had a business head is further evidenced by the fact that she succeeded in "working" the manager of the establishment for $2.50, the amount of her fare home.

She innocently told him that to pay her bill in full would take every cent she had and she must take out enough to get home. While the manager gently demurred at receipting the bill in full with this discount off, she ingeniously hinted that it would cost more than $2.50 to send a collector after the balance, and he tumbled to the situation as gracefully as possible. Mrs. Thrasher (or perhaps it is Miss) said that she had made $2,200 out of her machine and had 187 stacks of grain to finish this winter, which she proposed to do if the snow was hub deep. Considering the fact that many machines are being taken back on mortgages this year, no one can successfully maintain that a woman is not adapted to this new field for woman's activity.

TURNS OUT BESSEMER STEEL

Oxide Successfully Extracted from Rock by Edison with the Use of Electricity.

When Thomas Edison began experimenting with electricity as a means of extracting iron oxide from rock a shiver ran through the spinal columns of iron mine owners. Then the matter was forgotten and the public heard nothing more about magnetic separators until a few days ago, when the news came out that the method was not only perfected, but that by it 5,000 tons of bessemer steel were being turned out every day at Edison, N. J. Mr. Edison has been developing his newest discovery quietly, and now his smelting works and their appurtenant buildings cover many acres among the Jersey mountains. The rock is blasted out of open quarries, 5,000 tons at a time, and carried by enormous electric cranes to rollers which crush the largest bowlders as if they were lump sugar. After passing through a series of these rollers the fine rock falls past 700 magnets, which extract the ore, sending it along to the furnaces almost free from extraneous matter. From the furnaces the ore issues in nuggets of bessemer steel ready for the mills.

The Russians.

The Russians are believed to have originated from the Slavonian tribe called the Roxilani, about the Christian era. At a later date they were also called Muscovites, from Moscow, their leading city. The state was founded by Rurie, 862 A. D. Russia was a duchy until 1157, when it became the grand duchy of Wladimir, remaining such until 1328, when it was called the grand duchy of Moscow. The Russian rulers began to call themselves czars in 1462. Peter the Great assumed the title of emperor in 1689.

The average age of doctors is much higher than that of any other calling—it is no less than 56. Their great pull consists, no doubt, in their opportunities of observing what treatment is most efficacious with their patients. A certain physician is said by James Payn to have let this particular cat out of the bag to one to whom he was paying marked attention. "I am very much interested in your case," he said, "because I have the same complaint myself; and if this medicine really does you good I shall try it."

Female Masonry.

The entertainment given at the opera house Tuesday night by the ladies of the Eastern Star consisted of two parts, a short musicale and a farce entitled "Female Masonry." The former was a charming entertainment of itself and compared favorably with any of those who have appeared on the course. The orchestra consisted of five pieces, Frank Keeney, violin, W. J. Ingersoll, clarinet, Geo. W. Knapp, cornet, A. E. Karner, euphonium, and Sam McClure, piano, and the four numbers they gave were artistically rendered, their selections being timely. Owing to Mrs. Kellogg's inability to appear, the program was changed from that advertised. The duet by Mr. Blachford and Miss Thorpe was received with great favor, their voices being well adapted each to the other. Miss Lina Boyd won liberal applause by playing her own accompaniment on the guitar while giving a solo on the harmonica—a difficult thing to do. Will Elliott's bass solo was effectively given. He has a fine voice of good range and rich tone. He refused to respond to a hearty encore. Miss Thorpe's solo was charmingly rendered and she delighted the audience by giving as an encore that sweet little ballad, "A Bunch of Daisies." Miss Elliott's violin solo was a gem. She played with fine expression and her movements were dainty and graceful. She, too, failed to respond to an encore. Mr. Blachford rendered a solo in his usual effective manner, that was received with favor. Miss Root, as accompanist, acquitted herself, as she always does, with great credit to herself and the delight of her hearers. After the musicale came the farce, "Female Masonry." The officers, clad in their robes suitable to their positions in the order, marched onto the stage to music and their movements as they proceeded to their proper stations were very pretty. After, by order of the Grand Mogul, the outer and inner doors were made secure, the lodge opened in due and ancient form and each officer seemed peculiarly qualified for her particular station. The opening ceremony was unique and such as women alone could invent. A distinguished visitor, Sister Mary Yelling Screech, was announced and received with grand honors, who proceeded to give an address of great importance to the craft, showing the superiority of woman over man, that was received with great applause by the members, and then remained to witness the work of the order. Many applicants for the degrees were reported in waiting but, owing to there being but one goat, the preference was given to Anna Shaw who soon after appeared on the scene seated on the historical goat which evidently was on his good behavior as he conducted himself with great dignity. After a blood curdling and iron clad obligation had been taken, the work of initiation proceeded. When about half through an interloper was discovered who proved to be of the hated sex, a man, bearing the cognomen of "Paul Pry." A consultation followed as to his fate, he having gained possession of many of the important secrets. He was given the alternative of death or joining the order. Choosing the latter, he was obligated, clothed in the attire of the craft. At this point an alarm came from without that the citadel was beseiged by an enemy and although in no wise frightened, discretion was deemed the better part of valor and the holy vessels and paraphernalia of the craft were speedily gathered up (folded their tent so to speak) and silently vanished from sight. We only regret the ladies did not reap a richer harvest.

BOOK IT!

$1.00.

25c. Per Week.

Master Fred Waring has taken the agency for Tecumseh of Bishop Fallow's justly famous book entitled

HOME BEYOND, OR VIEWS OF HEAVEN.

And its Relation to Earth. Compiled from over four hundred prominent authors, thinkers and writers, including such men as Talmage, Fallows, Spurgeon, Moody, Whittier, Tennyson, Muhlenburg, Haven, Dean Stanley, Wesley, Cowper, Longfellow, Spencer, Cuyler, Dante, Shakespeare, Southey, Bryant, Clark, Hall, Farrar, and hundreds of bishops, divines, judges, poets, professors, &c.

I have the book entitled "The Home Beyond" in my library. I regard it as a book full of instruction and worthy a place in every home.—J. P. Varner, pastor M. E. church, Tecumseh.

The finest work ever written of the here and the hereafter.—Merton.

A companion piece for the Bible.—Ormsby.

Should be in every home.—Addison.

No library complete without it.—Blackwood.

NOTICE.—While the regular price of the book is $2 50, arrangements have been made direct with the publishers to place 300 copies in Tecumseh at just the publisher's price—$1.00, and can be paid in four weekly installments of 25c each. This offer is made so that every family may own the book. Master Fred will call and show you the book and take your order for the same, to be delivered about April 1st. If he fails to call on any, a postal card directed to Fred Waring will bring him and the book for your inspection.

Remember 25c a week for four weeks pays for it.

FRED WARING.

Wm. R. Hayes Writes

Payne, Ind., Feb. 1896.

I have been using Dr. Caldwell's Syrup Pepsin ever since the agency was established here four months ago. When I began taking it I weighed 150 pounds and now I weigh 177 pounds. Feel better than ever did in my life and must say it is an excellent remedy. In 10c size (10 doses 10 cts) regular sizes 50c and $1.00 at Orr & Temple's.

We are Going to Move!

March 1st next we take possession of the building recently vacated by C. E. Lenardson at Blissfield. Prior to that date, we must dispose of about one-half of our large stock of

BOOTS, SHOES & RUBBERS

At our old Stand in Tecumseh.

To convert all these goods into cash during the usually dull period of the year is a tremendous undertaking and calls for extraordinary concession to customers. To stimulate stupendous selling we must make stupendous

SACRIFICES IN THE PRICES!

And that is what we propose to do. The Slaughter begins

Saturday, Feb 6th, and Continues until Feb, 27th.

DURING THESE THREE WEEKS WE WILL

Sell Everything at Cost

Which means BARGAINS, as follows:

ALL	$5 00	SHOES	NOW	$3 75	ALL	$2.50	SHOES NOW $1.85
"	4.00	"	"	2.90	"	2.00	" " 1.50
"	3.50	"	"	2.50	"	1.50	" " 1.10
"	3.00	"	"	2.25			

We have a large stock of Boston and Goodyear Glove Rubber Goods, which must all go at **10 per cent. Discoun**

We are compelled to make this great sacrifice as the capacity of our new quarters are somewhat limited, and the stock must be reduced. Terms of sale strictly cash.

Tecumseh, Mich. **Karner Bros.**

STATE OF MICHIGAN, County of Lenawee ss

At a session of the Probate Court for the County of Lenawee, holden at the probate office, in the City of Adrian, on Monday the 1st day of February, in the year one thousand eight hundred and ninety-seven.

Present, Richard B. Robbins, Judge of Probate.

In the matter of the Estate of Charity Gallatin, deceased.

On reading and filing the petition of Rachel Gallatin administratrix upon the estate of said deceased, alleging that the funeral expenses and debts of said deceased and the expenses of Administration, thus far incurred, have been fully paid, and that she is now ready to close said estate and to render her final administration account, and praying that said account may be allowed, and that the residue of said estate may be assigned and distributed according to the statute in such case made and provided, that she may be discharged and her bond canceled, and for such other order and decree as to this Court shall seem proper.

It is Ordered, That Monday, the 1st day of March next, at nine o'clock in the forenoon, be assigned for the hearing of said petition and that the heirs at law of said deceased and all other persons interested in said estate, are required to appear at a session of said Court, then to be holden at the Probate Office in the City of Adrian, and show cause, if any there be, why the prayer of said petitioner should not be granted.

And it is Further Ordered, That said petitioner give notice to the persons interested in said estate, of the pendency of said petition and the hearing thereof, by causing a copy of this order to be published in THE TECUMSEH HERALD, a newspaper printed and circulating in said County of Lenawee; for three successive weeks previous to said day of hearing.

RICHARD B. ROBBINS, Judge of Probate.
(A True Copy.)
A. E. Baragar, Probate Register.

MORTGAGE SALE.

On the sixteenth day of February, A. D. 1886, Samuel Larzelere of the village of Clinton county of Lenawee, Michigan, executed a mortgage to Sarah C. Rogers, of the village of Clinton, county of Lenawee, Michigan, on all that certain piece or parcel of land situate and being in the village of Clinton, Lenawee county, Michigan, and described in said mortgage as follows, to wit:

Being lot number five (5) on the plot in the village of Clinton as surveyed by Smith & Lapham for John Clark proprietor and now of record in the Registers office in and for the county of Lenawee in the state of Michigan. Said lot being eighty-four (84) feet front and rear and one hundred fifteen feet on its east and west lines.

That said mortgage was upon the 17th day of February, A. D. 1886, recorded in the office of the Register of Deeds of said county of Lenawee in Liber 114 of Mortgages on page 858.

Default has been made in the conditions of this mortgage and the note running in connection herewith, whereby the power of sale therein contained has become operative, and upon the same there is claimed to be due and unpaid at this date the sum of one hundred thirty-four dollars and fifty cents ($134.51) in addition to all other costs provided by law and in said mortgage for the foreclosure and no proceedings at law or in equity having been had or taken to recover the same or any part thereof.

Notice is therefore hereby given that pursuant to law and the terms of said mortgage, the premises above and in said mortgage described or so much thereof as may be necessary for that purpose will be sold at public auction to the highest bidder upon the twelfth day of April, A. D. 1897, at ten o'clock in the forenoon at the east front door of the court house in the city of Adrian in said county of Lenawee (that being the place and building for holding the circuit court of said county) to satisfy the amount then due upon said mortgage and note, the legal cost of foreclosure and the sale thereof.

Dated January 8, A. D. 1897.

SARAH C. ROGERS, Mortgagee.
G. R. Gillespie, Attorney for Mortgagee.

Mrs. Maggie Myers,

Williamsport, Ind., writes: "I suffered for months of severe stomach troubles, caused by indigestion and constipation. My trouble seemed almost unendurable. I purchased a bottle of Dr. Caldwell's Syrup Pepsin of Armstrong & Swank and as soon as I had taken its contents I was like a new person, and now feel better and weigh more than I have in years." It is sold in 10c, 50c and $1.00 sizes at Orr & Temple.

Two Superior Brands of Flour.

Raisin Mills Royal Patent Spring Wheat Blend, which consists of Best Patent Roller Flour mixed with Pillsbury's best flour, making an article equal to anything ever sold in this country.

Raisin Mills Fancy Family

Is a domestic flour equal to any straight flour on the market. If you desire even bakings of good bread, ask your grocers for either of these brands.

FOR SALE—A good house and lot in the village of Tecumseh for $300.00. A rare chance for some one with small capital to secure a good home.

J. H. Smith was transacting business in Detroit Monday and Tuesday.

Mrs. E. J. Stone, of Bay City, is the guest of Mrs. Mina S. Olmsted for some days.

John Karner arrived in town Saturday, to remain until they move their stock to Blissfield.

Mrs. Henry Conkling is enjoying a visit from her neice, Mrs. Jerome, and daughter, of Chicago.

Butler Treat, Ernest Meyers and Cameron Harris, of Adrian, remained in town over Saturday night.

Mr. and Mrs. John O'Neil, of Deerfield, were visiting Tecumseh relatives and friends the last of the week.

Miss Lizzie Smith went over to Adrian yesterday. She went to see the popular actress, Rhea, in the evening.

You can buy the best Hose at the least price of Anderson & Rosacrans.

The Rev. H. C. Knight, of the McCormick Theological Seminary, Chicago, was the guest of Rev. C. M. Brown Wednesday.

Mrs. J. Daken, of Williamston, arrived Saturday last for a visit with her sister, Mrs. Friend McNeil, and other relatives.

Miss Helen Conklin went to Toledo Saturday afternoon to spend Sunday with friends there. She returned Monday night.

E. W. Rappleye, who formerly lived at Ridgeway but now a resident of Ypsilanti, visited Tecumseh friends a few days this week.

E. J. Shepard, of Adrian, was over Saturday and again Monday on business connected with the drug stock that was sold Saturday.

At Odd Fellow's hall next Tuesday evening there will be special work and a full attendance of the members is earnestly desired.

Will Cutter, wife and little daughter, of Adrian, were guests of Mr. and Mrs. Fred Aldrich over Sunday, returning home Monday afternoon.

Seventeen young lady students from Adrian college, who had driven over to Clinton Saturday, took tea at the Lilley House. They were a jolly company.

Towel sale just on at Anderson & Rosacrans'.

Mrs. Fred Aldrich, Mrs. E. L. Jones and son Leo were the gueste of Mrs. Michael Wilson one day the last of the week. They were entertained royally.

Capt. Chilson has given the contract for painting his large and pleasant dwelling to M. L. Gillen who is already at work. When completed it will be one of the most attractive homes in town.

Go to the auction. Mills block every day.

Rev. C. S. Nightingale, of Northville, a classmate of Rev. B. S. Hudson, will supply the Baptist church, Tecumseh, next Sunday. Subject in the evening, "Why do the Wicked Prosper?"

Clem H. Bramble arrived home from Texas Saturday night for a brief visit with his family, and it was brief for he left Wednesday morning for Ohio on business connected with the Page Fence company.

There will be a Republican caucus at the council building Tuesday evening, Feb. 16th, at 7 o'clock, standard time. Six delegates will be chosen to attend the county convention at Adrian Saturday, Feb. 20th.

A pleasant surprise was given John Riley and sisters last Friday night at their home by twelve couples of intimate friends. The time was occupied with cards and dancing and the hours slipped away like a dream.

Mrs. Chas. Humphrey, of Adrian, will deliver an address under the auspices of the W. C. T. U. on Friday evening, Feb. 19, in the Baptist church, subject, "Beautiful Sunny France." An admission of ten cents will be charged.

Ben Pulver, of Ypsilanti, came to attend the sale of Baker & Hall's stock Saturday. The court affirming the sale, he has been placed in charge of the stock by the Detroit firm who purchased it and no doubt will remain here some time.

"Cuban Rights and Spanish Rule," Sunday evening and "The Atonement," Sunday morning in the Universalist church. Sunday-school after morning service. Y. P. C. U. devotional meeting at 6 p. m., topic, "Kindness." Every one welcome to all services. Seats free. Come and bring your friends.

Save money by laying in a supply of footwear for years to come, while you can buy of us at cost. KARNER BROS.

Monday afternoon a colt belonging to James Nobles that was hitched in the street in front of the News office became frightened at a piece of paper which blew in front of him, and not being able to break the rope, he ran around the post, kicking at every jump, until the cutter, horse and harness were completely wound up. The colt was in and out the cutter several times. Had he succeeded in breaking away, no doubt it would have caused many other wrecks on the streets being full of teams. As it was as damage was done to any others. The colt was but slightly cut but the harness was badly broken and the cutter, though well built and of the best material, was completely wrecked.

Roy DeWolf is expected home over Sunday.

Geo. Kies stopped over one train Tuesday.

Poultry Institute at the opera house Wednesday, all day and evening.

Garlinghouse Bros. purchased a fine Jersey cow of W. T. Eccles last week.

Mrs. Anna Newburn came to Tecumseh Saturday and will remain several weeks.

Auction at Mills block commences tomorrow.

Wm. H. Wiggins and wife, of Adrian township, visited her father, A. D. Hall, yesterday.

Adam Grey, of Detroit, is a guest at the home of his daughter, Mrs. Ben Garlinghouse.

Mrs. Fannie Rundell, of Manchester, visited her sister, Mrs. John J. Freeman, this week.

New spring dress goods arriving every day, at HARRIS & HITSHU'S.

Mrs. C. J. Robinson, of Manchester, spent Tuesday with her sister, Mrs. Theodore Crane.

Mrs. Geo. Knapp started for Florida yesterday and will remain till summer weather in Michigan.

Miss Mabel Clements went to Detroit Wednesday for a few days' visit with Mrs F. C. Stoepel and Mrs. James Wilson.

The board of directors of the Lilley State Bank met yesterday, declared a dividend and placed $4,000 more into the surplus fund.

Mrs. Mary J. Garlinghouse was treated to a birthday party last evening at the home of her son, Ben Garlinghouse. All the relatives were present.

Mrs. Wyrill and her committee will serve supper in the parlors of the M. E. church Wednesday, Feb. 18, from 5:30 to 6:30 o'clock. All are invited.

Anyone who has birds to show at the Poultry Institute, to be held at Sutton's opera house Wednesday of next week, should bring them before 10 a. m.

Will T. Eccles received a lot of young brook trout from the state hatchery yesterday to be distributed by him in different streams west and north of here.

Mrs. Sam Helm, who had the misfortune to break her left wrist while on her way to the Research Circle last Friday evening, is doing as well as could be expected.

Mrs. Al. Paxon had the misfortune the last of the week to run a sliver under the nail of one of her fingers which required the assistance of a physician to remove. A portion of the nail was cut out before it was extricated.

We notice the public is taking advantage of Karner Bros.' Removal Sale.

Come to the Poultry Institute at Sutton's opera house Wednesday. Admission free. Many coops of birds will be shown and a number of instructive papers will be read. Read the programme in another part of this paper.

Al Paxson leaves in the morning to take possession of the flouring mill Perry Hosmer and he have purchased at Piqua, O. His family will not go at present. For over twenty years he has been at the Globe Mills and most faithful he has been. May he strike it rich where he is going is the desire of a multitude of friends.

Auction at Mills block every day.

At the Monday Club, February 8th, the following interesting and instructive papers were read: Mrs. M. E. Corey described the process of metal engraving, also included a sketch of the German engraver, Martin Shongauer; Miss May DeWolf furnished a paper regarding the life, paintings and engravings of the artist, Holbein; Mrs. C. Bramble closed the program by reading a paper prepared by Mrs. O. B. Finch, containing a description of Holbein's celebrated picture, "The Dance of Death."

The Farmers' Union will meet at the home of M. Smeltzer Friday evening, Feb. 19th. Following is the program:—

Music—Bertha Smeltzer.
Rec.—Mary Linton.
Chip Basket—Mary McIntyre.
Music—Mary Haight.
Sketches from the life of William Cullen Bryant—Jennie Nyland.
Recitation from Bryant—Mary Eaton.
Music.
Rec.—Ethel Babcock.
Reading—Edna Bryan.
Questions taken from the Western Rural to be answered by members of the club.

Have you taken the time to look over the list of big bargains in Karner Bros.' ad. on the opposite page?

Mr. and Mrs. John Macham, who reside three miles west of Deerfield, were united in marriage Feb. 9th, 1847, and last Tuesday at their pleasant home the fiftieth anniversary of that important event was properly celebrated. It was a happy company that gathered beneath that hospitable roof. This aged couple have been favored far beyond most mortals. To them ten children were born, all of whom are living, and, with the exception of four who were unavoidably detained at home, were present with their families. To make the occasion the more memorable as well as unusual, the youngest son, Earl, who resides at home, had planned a surprise for the assembled guests which was successfully carried out when he and Miss Florence Baker, the charming daughter of Mr. and Mrs. Richard Baker, of Deerfield, took their positions before the clergyman and pledged their troth. May they live to enjoy their golden wedding is the desire of their friends. It was a day of rare enjoyment to all. The following children were present from abroad: David Macham and family, of Tecumseh; Mrs. Frances Camp Hunter and two children, of Niles; Allen Macham and family, of Holloway; Dudley Macham and wife, of Brooklyn; and Thomas Macham and wife, of Deerfield.

High School Happenings.

Mrs. G. W. Meade called on the sixth grade Monday.

Miss Edna Petter called on the various rooms of the high school Monday afternoon.

Geometry class are busy with review in plane geometry. Oh that life were all reviews.

Anna and Stella Young were absent from their places in the seventh grade Wednesday.

The eighth grade arithmetic took examination today (Friday) and will begin Algebra on Monday.

Miss Jessimine Case visited the pupils of the ninth grade Wednesday afternoon for a little while.

The rhetoric classes are about as full as they can very well be this year. The total number at present is forty-five.

The Junior class took a little sleigh-ride Tuesday night ending up at Clinton. They all report a very fine time.

Miss Inez Thorpe accompanied Miss Mabel Clements to school Monday afternoon for a short call on her high school friends.

The class in German II has been increased by the addition of another new member, Miss Eloise Waring having taken up Hermann and Dorothea.

Ella and Agnes Paxson have left school preparatory to moving to Piqua, Ohio. We are sorry to lose them from our midst but hope they will like their new home.

Mr. Kellogg is engaged in "shocking" the Physics class this week. To judge from the sounds in the office during that hour however, the girls at least are enjoying it hugely.

Two of our little freshmen took an enforced vacation Tuesday afternoon. One swallowed her pride and came back the next morning; the other will take a longer rest from her duties.

We are sorry to learn that Mertie Gage, one of our ninth grade pupils, has been compelled to leave school on account of ill health. We trust she may soon be able to rejoin us.

Two sleighloads of young people went to Newburg last evening and surprised Fred Sheldon.

If you ever want a cutter, now is the time to buy it. C. A. Slayton has just bought a few $30.00 cutters where they had to be sold for $19.00. Come quick if you want one.

Poultry Show and Institute.

At Sutton's opera house Wednesday February 17th, '97, commencing at 10 a. m. The program, commencing at 7 p. m., sun time, will be as follows:—

Paper—Eggs in Winter—Abner Wilson, Tecumseh.
Paper—Raising Turkeys—Mrs. H. (Calhoun, Manchester,
Paper—Farmer's Wife and the Poultry Business—Priscilla Plum, Reading.
Broilers from Egg to Market—Arthur (E. Mosher, Onsted.
Instrumental Music—Ora Gillespie, (Tecumseh.
Poultry Houses—J. W. Holme, Adrian.
Paper—Poultry on the Farm—Mrs. (Smith Munger, Tipton.
Poultry for Pleasure and Profit—Ed (Lake, Ridgeway.
Artificial Incubator and Brooding—A. (P. Coddington, Tecumseh.
Duck—Ed Clapp, Evans Lake.
Music—Viva and Elmer Mellon.

The T. and F. Farmer's Club.

The club met at the home of Mr. and Mrs. Geo. Swartz. A pleasant time was enjoyed by all present.

The next meeting will be held at the home of Martin Updyke Feb. 19th. The following program will be presented:—

Music.
Rec.—Pearl VanValkenburg.
Select Reading—Mrs. Aylesworth.
Rec.—Florence Keyser.
Song—Maud Abbott.
Dialogue—Mr. and Mrs. Hoag.
Rec.—Ella Munger.
Chip Basket—Chas. Mathews.
Rec.—Mattie Wilson.
Charade—Ora Bowen.
Song—Mrs. Welch and Fred.
Question, "Is the Good Road League the best thing for the farmer," to be opened by C. A. Matthews.

—Attend the Mills block everyday auction.

—Special bargains in Toilet and Dinner sets at Tansley's new store, Heesen block.

—Every day auction at the Mills block.

—Pender's Oriental Magic at the opera house Monday and Tuesday evenings February 15th and 16th.

—Dr. W. C. Walker, the eminent physician and surgeon, will be at Tecumseh on February 26th. He will make regular monthly visits. Those suffering from any chronic or obstinate complications may call and consult him. See the doctor's "ad" in this issue of the HERALD.

—Remember Pender's grand entertainment at the opera house next Monday and Tuesday evenings.

—C. H. Pender's entertainment held forth on Wednesday and Thursday evenings last, and we must say that it was the most pleasing exhibition that has visited our city in many years. The large and delighted audience was kept in a roar of laughter from the opening of the performance to the finish. Mr. Pender is one of the best ventriloquists and sleight-of-hand performers in the United States. Everybody that can stand it to laugh a couple of hours should be sure and spend an evening wherever he exhibits.—Oneida, N. Y. Union.

Sutton's opera house Monday and Tuesday evenings. Admission 10 and 20 cents.

Charles Burridge.

For a number of months Charles Burridge had been very ill, at first confined to his house only a part of the time, later on all the time, still later he was confined to his bed. Last Sunday he submitted to a surgical examination and Sunday evening, February 7, about 8:30 o'clock, the final summons came.

He was born in London, England, January 5, 1837, and died in Tecumseh, Michigan, February 7, 1897.

At the age of fourteen Charles Burridge came to America, returned and came back the following year, went to Richland county, Ohio, then on to White Pigeon, Constantine and Tecumseh. Worked and educated himself here and two years in the University at Ann Arbor. Taught school three months, then journeyed to the Mississippi but only to return to Tecumseh. Worked for Mr. Hayden a few years, studied law in the office of E. B. Wood and finally formed a partnership with him. Was Justice of the Peace for 24 years, city recorder nine years, but was not admitted to the bar till 1885 and then was induced to apply for admission only by the earnest solicitation of friends and was admitted without examination. His business all those years has been practice in the Probate Court, and as a probate lawyer he was acknowledged to be the most able man in Lenawee county.

Since 1865, every week day, did Charles Burridge go up and down those same stairs to his work and there is hardly a man or woman in Tecumseh, who owned any property, or transacted any business, that he had not served in some way; and when two hundred men marched through the town to lead the funeral train, each one could think of some kind word or deed this man had said or done for him.

Every business house was closed in honor to his memory; indeed the very town was sad. The last sad rites were held in the Presbyterian church—of which he was a member—that all might attend, and the place was none too large. It was filled with people who felt honest sorrow for an honest man, and why not?

Charles Burridge lived as near an upright life as man could live, his very retirement of disposition brought him forward to the notice of the public as one who could be trusted, and in all his clientage there cannot be found one person who would even wish to think of him as any other than the very soul of honor.

"'Tis wrong to say a good man dies," yet in this case difficult not to so so, as the loss clearly falls on those who are left. Mr. Burridge left no relatives except his immediate family which consists of Mrs. Burridge, Walter C., Mary L. and Charles, and to this family circle it almost seems as if the light had been snuffed out, for until this last illness he had never known sickness and had lived a life which seemed to be all spent for the good and comfort and welfare of the loved ones at home.

"Two hands upon the breast,
And labor's done:
Two pale feet crossed in rest,
The race is won."

Mr. Burridge was a member of the Lenawee county bar association, and that body met at the opening of the circuit court on Monday afternoon, Hon. A. L. Millard occupying the chair. Eulogistic remarks were made by Judge Lane, Judge Robbins, L. H. Salsbury, Seth Bean, James Wightman, Sumner Collins and others. A committee on resolutions was appointed and at a meeting held on Tuesday submitted the following report, which was unanimously adopted:

Resolved, That the bar of this county has by the death of Charles Burridge, whose loss we deeply deplore, been bereft of one of its most honored and esteemed members, whose genial ways, pure life, unsullied integrity, faithfulness in the duties of his profession and unfailing courtesy to the court and to his brethren at the bar, have endeared him to the profession and given to us an example worthy of emulation.

Resolved, That Mr. Burridge was a man whose life and practice tended to ennoble the profession, whose example as a lawyer was a daily refutation of the statement too often made by the uninformed that there is no honor among lawyers, and that they subsist by sharp practices and taking advantage of honest people. Mr. Burridge was the soul of honor. His integrity was never questioned. Those who knew him soon learned to trust him implicitly in matters of the gravest concern to them. Probably no other member of the bar was called upon to counsel and advise so many persons whose lives have been clouded by the death of loved ones, and who had estates to administer, as Mr. Burridge was. He was to them indeed a friend in need, and he never betrayed their trust, never was there a slip of his unfaithfulness or disloyalty. There was hardly an estate to a minister in the northern part of the county but what he was chosen to manage and settle it. This devolved upon him great responsibility, and led him into practice in the Probate Court, which was the theatre of his greatest activity and usefulness, and his was a familiar figure on our streets Monday morning, wending his way, satchel in hand, to and from the Probate court; where, never seeking to mislead the court or take any technical advantage of an opponent, he was always welcome, always fair, always trusted.

Resolved, That Mr. Burridge was a strong man having much tenacity of will and the courage of his own opinions, who was not easily swerved from the course he had marked out to follow. Still he was kind and generous to all. He rarely, if ever, uttered a word of detraction of any one. If he could not speak well of a person, he spoke not at all. He boasted not in victory, he complained not in defeat. His best eulogy is the respect and confidence the people where he lived had in him without regard to party or condition in life. And his death will be deplored by many, yes very many who had learned to love and trust him because of his true manhood, his faithfulness as a counsellor, and his exalted character.

Resolved, That we tender to his bereaved family our heartfelt sympathy and sincere condolence in this hour of their great bereavement.

Resolved, That as an evidence of our regard and esteem for our deceased brother, the bar do attend his funeral in a body, and that as an additional mark of respect we request the court to now adjourn during this the day of his funeral.

Resolved, That these resolutions be spread upon the records of this court and that a certified copy of the same be delivered to the family of our deceased brother.

LESTER H. SALSBURY,
WALLACE WYCKOFF MAN,
JAS. W. WIGHTMAN,
Committee.

Ten dollar Dinner sets, English ware, for $6.98 at Tansley's new store, Heesen block.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly, by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

ELY'S CREAM BALM is a positive cure. Apply into the nostrils. It is quickly absorbed. 50 cents at Druggists or by mail; samples 10c. by mail. ELY BROTHERS, 56 Warren St., New York City.

HINDERCORNS The only sure Cure for Corns. Stops all pain. Makes walking easy. 15c. at Druggists.

PARKER'S HAIR BALSAM
Cleanses and beautifies the hair. Promotes a luxuriant growth. Never Fails to Restore Gray Hair to its Youthful Color. Cures scalp diseases & hair failings. 50c. and $1.00 at Druggists

If you are **CONSUMPTIVE** or have indigestion, Painful ills or debility of any kind use PARKER'S GINGER TONIC. Many who were hopeless and discouraged have regained health by its use.

NASAL CATARRH
Is a LOCAL DISEASE and is the result of colds and sudden climatic changes. It can be cured by a pleasant remedy which is applied directly into the nostrils.

ELY'S CREAM BALM

Opens and cleans the Nasal Passages, Allays Pain and Inflammation, Heals the Sores. Protects the Membrane from Colds. Restores the Senses of Taste and Smell. The Balm is quickly absorbed and gives relief at once. Price 50 cents at Druggists or by mail. ELY BROS. 56 Warren St. New York.

CATARRH
COLD IN HEAD

ART OF GETTING ON.

Have a Definite Knowledge of Some One Thing.

I recall with shame how earnestly and how vainly a well-wisher of mine, an eminent publisher, tried many years ago to impress this fact upon my mind: "You will succeed," he used to say, "as soon as you produce what somebody wants; but not so long as your merit is only that of a woman who is struggling." In common with a great many other women not brought up to work, I had a vague sort of idea that my misfortunes were a passport and would gain me an income, says a writer in Lippincott's. Let me assure every woman similarly placed that they never will. Sympathy is readily awakened, but it is in the nature of things short-lived. Respect for effort earnest and continued is a much better ally. In an experience ranging over many years, I must honestly say that every time I have failed it has been through my own ignorance and incompetency, and that my success has been built upon failures many and severe. The best equipment that either men or women could have is definite knowledge, if it be only of one thing. The first question I ask of those who come to me for advice is: "What can you do?" If the answer is, as it almost invariably proves to be: "Anything," my heart fills with despair for the applicant. In the money-making world "anything" means "nothing." It is overrun with a vast army of incapables ready to rush in and undertake "anything." What is needed is some one who can do something as opposed as to anyone who can do anything. Competency is the only equipment that is worth anything nowadays.

Ironwood, Feb. 5.—The Metropolitan Iron and Land company, operating the Norrie, East Norrie and Pabst mines near here, and employing 700 men, has cut the wages of all employes ten per cent. This cut is the most sweeping ever made since the mines have been in operation.

HORTICULTURE.

ROOT-GRAFTING APPLES.

How to Perform the Operation and How to Plant the Grafts.

The common apple is grown almost entirely by what is termed root-grafting, although it may be grown by budding and cleft-grafting. Root-grafting is done during winter as follows:

Seedlings which are dug in autumn, and packed in moss or sawdust in a cold cellar, are taken as needed to a warm room and the scions grafted upon them just below the collar; that is, the place where the root and the top are joined. The kind of graft made is here illustrated, showing the successive stages of the work. A shows a seedling apple-root with top removed, which is to be cut off and grafted at the cross-line; B shows scion; C, scion and stock compared for being united, but with the cut held open. This cut is made by the knife blade, and no wood is removed from it. D, the same united; E, the union wrapped with a strip of paper or cloth, which has previously been covered with grafting wax. Some prefer waxed strings on this covering. The grafts should be about eight inches long. When completed they should be tied in bundles and put away, packed very firmly in sand or light soil, in a cold cellar. A cave is best for this purpose. Early in the spring they should be planted in the nursery, about six inches apart, in rows three apart, setting all but the upper bud of the scion below the surface of the ground. It is important to plant the scion deep, so as to encourage it to throw out roots, as the trees are then more hardy than when they depend entirely upon the seedling root for support. Great care should be taken to have the soil very firm and solid around the base of the root and at the union. This may be secured in several ways. Some nurserymen attain this end by the use of a large dibber, having a guard on the side to prevent its going too deep. With this a hole is made sufficiently wide and deep to permit the insertion of the graft easily so that not more than one or two buds project above the ground. To do this work most expeditiously the grafts should be of the same length and free from side branches.

Two persons should work together—a man who uses the dibber and a boy who carries the grafts. The man

ROOT GRAFTING ILLUSTRATED.

makes a hole with the dibber, the boy puts in a graft; when the man immediately makes another hole by the side of and two inches away from that containing the graft, and, pressing forward the graft, packs the soil firmly around it. After each row is finished in this way, the man should turn back on the row and press firmly by the side of each graft with the ball of the foot.

Another method of planting root-grafts, which is as applicable for planting cuttings on a small scale, is as follows. It is not a fast method, but a very excellent one for a few grafts. The thoroughly plowed land is smoothed off, a line stretched and walked where the row is to come, and then thrown to one side. With a spade throw out a furrow along the line, leaving the edge straight and smooth. Against this place the grafts, and then, with a hoe turned bottom up, push a little earth against the lower part of the root of each graft, and afterward draw three inches of soil into the furrow around the grafts and then press firmly against each graft with the ball of the foot. Fill the trench full, and repeat the footing process again. A more expeditious way is to plow out a furrow instead of making it with a spade, and then fill the trench with a plow. In this way the work may be successfully done if the soil is not dry, and the season is favorable. But it pays well to do good work, and where one has only a few hundred or a thousand grafts to plant, the spade method is most certain. In planting in a dry time, the great key to success is to have the land firm and solid around the root and the union so that there will be no air space. This is very important. In two or three years from the root-grafting the trees will be large enough to be transplanted to the orchard.—Farm and Fireside.

Market for Filled Cheese.

As a result of the congressional laws affecting the manufacture of filled cheese the figures on file in the Chicago internal revenue office indicates that hardly ten per cent. of the former business is now being done. The year previous to September 1, when the act of congress went into effect, 15,000,000 pounds were made, yielding a revenue of $1,000,000 and keeping 30 factories busy. A foreign market has been created, and since September three factories have qualified to Collector Mize. They expect during the coming year to make 1,500,000 pounds.

Watch the trees carefully and if any nests of the tent caterpillar appear cut them off and burn them up clean.

THE OLD CONSTITUTION.

To Be Forever Kept as a National Naval Museum.

Commodore Farragut's Flagship, the Hartford, Is Also to Be Permanently Maintained—Relic of the Kearsarge.

[Special Washington Letter.]

"There is nothing in all my work of which I am more proud," said the secretary of the navy the other morning, "than the accomplishment of the reclamation of the old battleship Hartford. Congress is often very prodigal in allowing large appropriations for claims, but congress is not primarily patriotic or sentimental. It was very difficult to secure an appropriation, but, by constant urging, it was accomplished. And now Commodore Farragut's flagship will be permanently maintained in the navy.

"Do you know that a relic of heroism incites patriotism? The young men who see the Hartford in future years, and who read her splendid naval career, will be stimulated to honor the flag which floats over her, and have an ambition to do as well for their country as did the heroes who trod her decks and served her guns. They will read of the old commodore lashed to the mast and handling his fleet in the smoke and carnage of battle; and particularly our young midshipmen will have before them constantly the memory of the commodore, with a stimulated ambition to fight as he fought, if ever in command of a battle ship in time of war.

"Yes, I am glad that the Hartford is preserved; but I am not satisfied with the progress made towards a restoration and reclamation of the Constitution. That splendid relic of American prowess should be preserved. Although I have constantly asked congress to make appropriation for that purpose, I have failed to receive a dollar, up to date."

Secretary Herbert is not alone in his desire to have the Constitution repaired. Congressman Fitzgerald, of Massachusetts, has secured the adoption of a resolution calling upon the secretary of the navy for an estimate of the amount of money which will be necessary to move the Constitution from Portsmouth to the Washington navy yard, where it is contemplated that the ship shall be forever kept as a naval museum. In support of his resolution, Mr. Fitzgerald made a speech in the house of representatives. He said:

"In connection with the resolution I present a petition of the Massachusetts Historical society that congress may take some action in regard to the preservation of the frigate Constitution, which now lies at the Portsmouth navy yard, and is in such a condition as to be in danger of sinking at any time.

"As every member of this house knows, there is no vessel in the American navy that possesses the history and the record that the Constitution possesses. It is my proud privilege to represent in congress the district in which is located the wharf where this famous old frigate was built and launched. In grateful memory of her untarnished record it has been called Constitution wharf. As a boy I have the pleasantest recollections of the happy days spent at the wharf where the Constitution was built over a century ago, and when I stand here pleading for the preservation of Old Ironsides my deepest sympathies are moved. The achievements of the heroic sons of Massachusetts with her have produced within my breast, as they must within the breast of every American citizen, feelings of deepest reverence for the historic ship.

"Why should it be necessary to call the attention of the government to its duty with regard to the preservation of the Constitution, whose great victory in the naval engagement with the Guerriere in the dark days of the war of

FARRAGUT'S FLAGSHIP HARTFORD

1812 brought hope and encouragement to our people and placed the United States among the first-class powers of the world?

"Why this shame of neglect toward a historic relic that typifies the heroism of our fathers and is an inspiration to succeeding generations?

"Nelson's flagship, Victory, is carefully perpetuated by Great Britain, and in such great reverence is she held that Englishmen respectfully remove their hats whenever they pass. Who shall say that the dear old Constitution, with her unbroken line of victories, unparalleled in the history of the world, is not worthy of like respect from a grateful republic?

"In 1829, when the destruction of the Constitution was ordered, the stirring lyric poem of Oliver Wendell Holmes saved her from what would have been a disgrace to our country, and I think it proper that those inspiring words should be recalled at this time, when, through neglect, a like fate seems to be in store for her:

OLD IRONSIDES.

Ay, tear her tattered ensign down!
Long has it waved on high,
And many an eye has danced to see
That banner in the sky.
Beneath it rung the battle shout,
And burst the cannon's roar;
The meteor of the ocean air
Shall sweep the clouds no more!
Her deck, once red with heroes' blood,
Where knelt the vanquished foe,
When winds were hurrying o'er the flood,
And waves were white below,
No more shall feel the victor's tread,
Or know the conquered knee;
The harpies of the shore shall pluck
The eagle of the sea!

Oh, better that her shattered hulk
Should sink beneath the wave;
Her thunders shook the mighty deep,
And there should be her grave.
Nail to the mast her holy flag,
Set every threadbare sail,
And give her to the god of storms,
The lightning and the gale!

"Massachusetts asks that this grand old ship be perpetuated, and she relinquishes her claim to have her placed in the waters of the state, near where she was built and manned, that she may be placed in Washington, here to serve as a national monument of the triumphs of the American seamen during the war of 1812. Such has ever been the true, chivalrous spirit of Massachusetts.

"Through the care and labor of her own historical society she preserves the

THE CONSTITUTION.

revered relics of the revolutionary times and of her illustrious sons; and she feels that she has the right to insist that the national government shall no longer be unmindful of its duty to the flower of the American navy, the Constitution."

At the conclusion of the congressman's speech he was given an ovation of applause such as seldom is given to the most gifted of orators. The resolution was passed without objection, and in a short time the old frigate which bore our banner aloft with honor and glory will be properly cared for. Meeting the congressman on the evening of the delivery of his speech, and congratulating him on the success of his effort, he said: "I am no orator. I never made a good speech in my life. I was gratified with the passage of the resolution, but the applause did not turn my head. The representatives of the people of this country were not applauding me. They were patriotically applauding the stanch old frigate of which I spoke, and for whose preservation I was pleading. They were also applauding the grand poet and his poem. Had it not been for the lines of Holmes, the Constitution would have been torn to pieces as an old hulk, worn out, and no longer useful."

The gentleman is modest and sincere. Nevertheless, his speech was delivered with the eloquence of fervid earnestness. He is not an orator, and he is wise enough to know it. But his speech ought to pass into history with the splendid poem which he quoted. Oliver Wendell Holmes prevented the destruction of the Constitution. Congressman Fitzgerald secured the appropriation which will result in her permanent preservation.

It is a pity that the Kearsarge could not have been preserved. She was lost by careless seamanship on a reef in the Atlantic ocean. The gallant cruiser ought not to have been on duty. She should have been kept in the Washington navy yard forever. But our statesmen are shortsighted. The republic is young. Our people have not become accustomed to making sacred history for the future. They make history for the present, and fortunately it is intended to be patriotic history, and will read well through all generations; but they are reckless of the nice little details which go to make beautiful the history of nations.

But we have a relic of the Kearsarge which will be preserved carefully for all time. It is the oak rudder post of the historic cruiser. In the museum at the navy yard the rudder post stands. Imbedded in it is a conical shell which came near destroying the ship. It was fired from a rifle on the confederate cruiser Alabama. But it did not explode. An explosion would have resulted in the sinking of the Kearsarge, and the escape of the Alabama. The shell was found there after the celebrated engagement. A skillful gunner, risking his life, and of course risking the safety of the vessel, sat astride the rudder post and drilled a hole into the shell until he came to the powder. Then he poured in water and saturated the explosive. After that, he drilled off one end of the dangerous missile and took out of it the explosive materials. The rudder post was then mended and strengthened with steel bands, and the Kearsarge sailed away after other confederate privateers. Finally, the rudder post was taken out and a new one put in its place. The old rudder post, with its shell inclosed, is at the navy yard; and it is all that remains of the famous ship.

SMITH D. FRY.

A Patriarch Among Parrots.

In Brooklyn there is a parrot which is undoubtedly 90 years of age, and perhaps older. The present owner has the genealogy of the bird, and it begins in 1806, when the parrot was brought from England, and it was then claimed that it was the mate of one owned by King George III. The parrot is noted for its dignity, and holds receptions in great style. It is accomplished, speaking portions of three languages; is very fastidious in its eating, and, like all parrots, obstinate enough to remain dumb just when everybody wants it to talk.

Another woman who has recently been admitted to the bar is Miss Daisy D. Barbee, of St. Louis.

Thousands are Trying It.

On receipt of ten cents, cash or stamps, a generous sample will be mailed of the most popular Catarrh and Hay Fever Cure (Ely's Cream Balm) sufficient to demonstrate its great merit. Full size 50c. ELY BROTHERS, 56 Warren St., New York City.

It is the medicine above all others for catarrh, and is worth its weight in gold. I can use Ely's Cream Balm with safety and it does all that is claimed for it.—B. W. Sperry, Hartford, Conn.

August Belmont will hereafter race his horses under his own name.

Mr. Thomas Gilham, of Morristown, O., says: "I had rheumatism and could not dress, or walk without crutches. I used one bottle of Lightning Blood Elixir, laid my crutches aside, and am all right. It beats the doctors." Orr & Temple, Tecumseh and Ridgeway.

EPISODE OF OLD TEXAS.

The Government Set Up by Count St. Denis in 1714

A Romantic Fragment of Southwestern History—The Count's Meeting with the Man He Thought He Had Slain.

There is much well-authenticated material for the historian in the minds of the old veterans of the border that will soon pass beyond the reach of all writers. Few people know anything of the very first settlements in Texas, and, doubtless, many will be astonished to learn that the business of creating republics in that country commenced nearly 200 years ago. There were filibusters who dreamed of carving out for themselves an empire in the great southwest long before even Aaron Burr was born. Others in the ranks of the most careful readers of history will possibly be surprised to learn that the old San Antonio road, which is one of the best-known landmarks in the southwest, was laid off and carefully mapped just 182 years ago. It was at one time regarded as the longest highway in the world. It was longer than any of the old Roman roads—longer than the great military road that led from the gates of the Eternal City to Constantinople and the Asiatic provinces. The San Antonio road proper ran from San Augustine to San Antonio, and the long road extending south of the Alamo mission across the Rio Grande to the City of Mexico, a distance of more than 1,000 miles, was also called the San Antonio road. It was originally laid off 100 feet wide. It is a road yet. This great road, over which Spanish viceroys and richly laden caravans traveled—over which countless thousands crowded their way to battle fields for more than 100 years, was laid off by men who were talking of republican institutions before the idea of Jefferson or the triumphs of Washington had ever entered the minds of the wildest dreamers.

Spain and France both claimed the country. France based her claims on the discoveries of La Salle. This great explorer, in searching for the mouth of the Mississippi, sailed too far west, and finally landed on the shores of Matagorda bay. Here he built a fort, and called it Fort St. Louis, in honor of Louis XIV. of France. Realizing that he had made a mistake, La Salle accompanied by his followers, attempted to march across the country, hoping to reach a French fort on the Arkansas river, where he had instructed De Tonti to keep a small body of soldiers. He lost his life through the treachery of his own comrades, and it is supposed that his bones repose somewhere on the shores of the Neches river. Exaggerated reports concerning the rich country west of the Mississippi river, which bordered on the Gulf of Mexico, reached France. The soil was said to be the richest in the world, the climate was salubrious, like that of southern Spain, the mountains were full of gold and silver, and the rivers ran over golden sand. Among the hundreds of adventurous and warlike spirits that surrounded the throne of Louis XIV. none listened to these stories with more eagerness than Count St. Denis. He was a brave, energetic, and handsome youth, who had inherited a great name and many heavily mortgaged estates. The opportunity which he eagerly sought, to draw his sword and make an effort to fill his purse on the plains of the Rio Grande, soon presented itself.

The bare cold facts of the story of this young man's adventures read so much like the dreams of a romancer that they would be rejected by all historians if they were not supported by indubitable records. Count St. Denis and a young Frenchman of equal rank of the name of Belisle were both violently in love with the same young lady. Their rivalry ended in a quarrel which led to a duel. The antagonists met and fought a terrible battle with swords, which terminated, as St. Denis supposed, in the death of his rival. He at once fled from France, and after a series of narrow escapes from arrest and death he finally landed in America and joined the great Louisiana company. His countrymen received him with open arms, and immediately offered him employment. All Spanish territory at that time north of the Rio Grande was ruled by a governor appointed by the viceroy of Mexico. The Louisiana company was anxious to possess the country, and the authorities sent Count St. Denis at the head of a little army of less than 100 men to plant the flag of France upon the domes of the Spanish forts and missions. He marched through a region of country that literally swarmed with hostile savages and established himself in northern Texas without ever firing a shot. He must have been an extraordinary young man, possessing many of the traits of a leader, not the least among which were his masterly accomplishments as a diplomat, for he not only made an alliance offensive and defensive with the powerful, warlike Natchez, but he soon won the friendship of the Spanish settlers who lived in the territory. Intoxicated with his success, he boldly cut loose from the Louisiana company and set up a government of his own. This was in the year 1714, and it was the very first attempt to establish an independent government ever made on the North American continent.

It was a curious kind of a government. St. Denis was at the head of it under the modest title of governor, and by the provisions of the constitution, which he drafted himself, he possessed in his limited realm just about as much power as the autocrat of all the Russias. Leaving a trusted subaltern in command, St. Denis set out for the City of Mexico on a mission that has never been thoroughly understood. He either hoped through his shrewd powers of diplomacy to get the Spanish viceroy to recognize his government, or, failing in this, he expected to turn everything over to Spain and get himself appointed governor of the territory. When he arrived at the Presido San Juan, near the Rio Grande, the governor received and entertained him in a most hospitable manner. The polished address and courtly military bearing of the bold young adventurer almost instantly won the head of the old governor, and at the same time the heart of his beautiful daughter. It was a case of mutual love at first sight. St. Denis almost forgot the empire that he had been dreaming of, while enjoying the hospitality of Senor Villeseceas and basking in the smiles of Donna Maria.

There was another suitor for the hand of this young lady, and this was no less a personage than Gov. Anaya, of Coahuila. This official no sooner heard of St. Denis and his attentions to Donna Maria than he ordered his arrest. St. Denis was loaded with chains and thrown into the fortress of Monoclava. Donna Maria continued to assure the young man of her devotion and of the friendship of her father. After St. Denis had been confined a month or more his powerful rival appeared one fine day at the door of his cell, followed by a file of his guards, and told St. Denis that if he would instantly surrender all claims to the hand of Donna Maria that he would release him and give him letters that would assist him in the prosecution of his plans in the City of Mexico. St. Denis, with flashing eyes, scorned the offer, and his reply was worthy of one of the old knights of chivalry.

"Tyrant, you may load me with chains, but so long as Donna Maria honors me with her love and confidence, so long shall that love and confidence be guarded as my most sacred treasures. You may take from me my life, senor, but you cannot take from me my honor."

The tyrant ordered St. Denis to be treated as a common criminal, but when months had passed and the brave young Frenchman showed no signs of yielding, the wretch sent a courier bearing this cruel message to Donna Maria: "Marry me, and St. Denis shall be released; refuse, and your lover shall surely die." The fearless young girl declined the tyrant's offer in emphatic terms, and at once applied to the viceroy in the City of Mexico, telling him the story of their love. The viceroy was moved by the piteous appeals of the beautiful girl, and he released St. Denis. As soon as St. Denis was liberated he married Donna Maria and resumed his journey to the City of Mexico. Here his pleasing address won all hearts. The viceroy offered him a position under the Spanish government and gave him full authority to punish his enemy. St. Denis showed that magnanimity was numbered with his many other fine traits of character, for he refused to make any trouble for the man who had so cruelly wronged him.

It is not known as to what kind of authority was granted to him by the Spanish officials in Mexico. He built a fort at Nacogdoches and laid off a city. He ordered the lands surveyed, and granted titles to the settlers. He established trading posts at various points in the interior and rapidly accumulated a large fortune. He possessed the happy faculty of making a friend of every man who came in contact with him. He was called the "just chief by the Indians, and his fame for honesty and dealing was well established with all the tribes within reach of his capital. While in the height of his power two Indians one day came to his house and told him that they had seen a white man with a tribe of coast Indians who held him as a prisoner. St. Denis at once offered them a large sum of money if they would go and rescue the white man and bring him to Nacogdoches. The Indians went away, and in a few weeks they reappeared at St. Denis' house with a naked, half-starved human being who was besmeared with dirt and painted like an Indian. St. Denis ordered a bath for the poor shivering creature, and sent a suit of his own clothes to the bathroom. When the man had been washed and clothed he appeared before his benefactor. St. Denis no sooner looked at him than he was struck dumb with amazement. The man was Belisle, whom St. Denis thought he killed with his sword in Paris. Belisle was equally as much astonished. They were Frenchmen, and they instantly embraced each other and buried all past differences. Belisle's story was a short one, but full of sufferings. He had recovered from the wounds inflicted by the sword of St. Denis, and not long afterward he joined a colony of adventurers who sailed to join the Louisiana company at the mouth of the Mississippi. Like La Salle, they lost their way, and sailed too far west. Belisle, with two comrades, went ashore on the coast of Texas to enjoy a hunt. They got lost, and the ship sailed away and left them. After wandering through the forests for many days Belisle's two comrades perished from hunger. Belisle fell in with some coast Indians, who treated him very cruelly. They striped him of his clothing, and would have tortured him to death with fire had not an old squaw interfered in his favor. He had been a prisoner with the Indians for a long time. St. Denis gave Belisle an office in his government, and put him in the way of making money.

St. Denis was slain in a battle with the Indians on the frontier of his country, and after his death the affairs of the colony fell into disorder. At the time of St. Denis' death there were about 300 white people who claimed the protection of his government, and they were nearly all in prosperous circumstances. Many of them had accumulated fortunes trading with the Indians, and St. Denis himself was said to have had in his possession more than $100,000 in gold. Had he lived a few years longer he would have anticipated the work of Austin and Houston, and firmly established a government in Texas that Mexico could not have overthrown 100 years before the battle of San Jacinto was fought.—Globe Democrat.

TO IMPROVE TWO HARBORS.

Important Recommendations Affecting Ludington and Holland.

Washington, D. C., Feb. 10.—Secretary Lamont has made two important recommendations to congress respecting the improvement of the harbors at Ludington and Holland in Michigan. He recommends that congress set aside $240,000 for deepening the harbor at Holland and $210,000 for similar work in the harbor at Ludington. It is proposed in the case of the harbor at Holland to secure a depth of 16 feet, and the plan suggested provides for pier extensions, repairs to the existing structure and dredging. The recommendations as to the harbor at Ludington are of almost equal importance. It is proposed at the harbor to make the depth 18 feet below the present level of Lake Michigan. The plan of improvement is similar to that proposed for Holland harbor.

BANKS CUT INTEREST RATES.

Detroit Savings Institutions Make a Reduction.

Detroit, Feb. 10.—For more than a month the savings banks of the city have been agitating the reduction of the rate of interest on savings deposits from four to three per cent. Some of the weaker banks held out. Tuesday George H. Russel, president of the State bank, sprung a surprise by announcing that on and after March 5 deposits would be received at three per cent. per annum only, and, beginning June 1, all present deposits would be subject to the same rate. This announcement caused the other banks to fall in line and at a coming meeting all the banks will authorize the same rate. President M. W. O'Brien, of the People's and Dow Elwood, of the Wayne county, the two heaviest savings banks in the city, have declared in favor of the new rate.

TAKEN FROM DETROIT.

Agency to Be Closed, and Pensions to Be Paid from Indianapolis.

Washington, D. C., Feb. 10.—President Cleveland has signed an order recommended by the secretary of the interior which will reduce the number of pension agencies in the United States from 18 to nine, and it is said that by so doing the expense of distributing pensions will be reduced $150,000. The change will be made by an amendment which was approved last March, and the executive order will go into effect September 1 next. This order will do away with the pension agency in Detroit, and after it is in effect all pensions that are now paid from Detroit will be paid from Indianapolis.

BURNED TO DEATH.

Terrible Fate of Two Little Children at Grovetown.

Grayling, Feb. 4.—Seeley Wakeley's house in Grovetown, near here, was destroyed by fire, and his two children, aged two and four years, were burned to death. The father was at work in the woods, and the mother was visiting relatives near by. Upon her return she found the house in flames. She attempted to rush in for the children, but was restrained by the neighbors, as to have done so probably would have been death to her as well.

SOLD HIS WIFE FOR $25.

Strange Transaction in Lieu of a Divorce to Dissolve Marriage.

Grand Rapids, Feb. 5.—John Lane and his wife Mary got tired of marriage, so, for the sum of $25, to be paid by J. H. Hurst, John sold all right and title to Mary, and Mary relinquished all claims upon John. This peculiar bargain-counter disposal of a wife was made formal by a bill of sale signed by both Mary and John and Mr. Hurst, and witnessed by S. R. McMasters and Thomas Jones, two neighbors.

Opposed to Two-Cent Fares.

Grand Rapids, Mich., Feb. 8.—The railway employes of the Chicago & West Michigan system on Sunday held a mass meeting to protest against Gov. Pingree's two-cent railway fare bill. There were delegates present from every town along the line of the road, over 400 being in attendance. A resolution was adopted declaring that the proposed law would cause the roads of the state to cut down the number of employes to curtail expenses, thereby forcing men into idleness and causing hardship and suffering to families dependent upon them for support. A committee was chosen to go to Lansing to lobby against the bill.

Killed by a Constable.

Allegan, Feb. 9.—Saturday night about eight o'clock, Jim Lawver, a constable, shot and killed Joseph White, better known as Crazy Joe, a bachelor, living about a mile west of Hoppertown. It seems Crazy Joe was creating a disturbance and Jim went down to quiet him. A fight ensued which resulted in Joe's being shot to death.

Poisoned Himself.

St. Louis, Mo., Feb. 10.—William H. Stewart, an engineer, aged 60, was found dead in a hallway at 1205 Washington avenue, Tuesday evening. He had committed suicide with poison. Stewart's home was in Saginaw, Mich., but for a year he has lived here with his son-in-law. No cause for the suicide is known.

Out of the Race.

Lansing, Feb. 6.—Fred A. Baker says he will not be a candidate for justice of the supreme court under any circumstances. This narrows the contest down to W. G. Howard, of Kalamazoo, and John B. Shipman, of Coldwater.

Prominent Mason Dead.

Jackson, Feb. 5.—Hollis F. Knapp died Thursday morning. He was very prominent in masonic circles, having been grand commander of the Knights Templar of Michigan.

Goes to Prison for Seven Years.

Port Huron, Feb. 5.—Charles M. Bentley, the ex-secretary of the Royal Arcanum, who obtained $6,000 by fraudulent death certificates, was sentenced to seven years at Ionia.

A NOVEL SERMON.

Cadillac Minister's Plan to Discourage Tobacco Using.

Cadillac, Feb. 10.—The announcement that Rev. W. L. Laufman, assisted by Dr. C. E. Miller, would kill two cats in the pulpit of the Methodist church to illustrate Laufman's sermon on tobacco, was sufficient to pack the church. Prominent on the pulpit were packages of fineout and plug chewing tobacco. Holding aloft a pound plug of tobacco, he assured his hearers that it contained enough grains of nicotine to kill 300 men. Then the cats were brought up by Dr. Miller. An assistant held them while the doctor administered the nicotine. The first one died in a minute and a half, while the attendant held it, and three drops of nicotine were placed on its tongue. The next cat, a large one, was administered only two drops, the purpose being to illustrate the sickness and spasms which the first dose of tobacco creates. A second dose of two drops, and in a minute and a quarter the cat was dead. Rev. Haufman announced that next Sunday he would kill some more cats to show the effect of alcohol, and also have on exhibition the stomach of a drunkard.

LUMBERMEN PROTEST.

Opposition to Proposed Duty of $2 on White Pine.

Washington, D. C., Feb. 10.—Republican members of the ways and means committee have been interviewed during the last two days by a delegation of Michigan lumbermen, who are opposed to the duty of two dollars which will be placed on white pine in the new tariff bill. The Michigan men have purchased stumpage privileges in Canada and are opposed to the increase of duties on white pine, and fear that the Canadian government will retaliate by the imposition of higher crown taxes on their Canadian property. They want the committee to leave the white pine where it was in the McKinley act, or to protect them against possible retaliation by some special provision in the bill.

OFFICIAL KILLS HIMSELF.

Village Clerk of Allegan Commits Suicide While Under Arrest.

Allegan, Feb. 7.—Ed J. Wagner, village clerk, committed suicide Saturday morning at 7:30 o'clock. He held a shotgun to his breast and pulled the trigger with a string. He was in charge of the marshal Friday night on a $600 shortage being found in his books, and Saturday morning he asked if he could go to the office and write a letter. The marshal allowed him to do so, and while the officer was out on the sidewalk he heard the report of the gun. Running upstairs the marshal found Wagner upon the floor, with a big hole in his chest. His coat, vest and hat lay on a chair, his collar and necktie were on the table.

CONDITION OF CROPS.

Majority of Correspondents Report Wheat Not Damaged.

Lansing, Feb. 9.—The monthly crop report for February shows that to the query: "Has wheat suffered from any cause during January?" 227 correspondents answer "yes," and 250 "no." The average depth of the snow at the end of January was 8.26, 4.77 and 5.88 inches in the southern, central and northern counties respectively. The total number of bushels of wheat reported marketed in January was 616,532, and in the six months August-January, 6,305,775 bushels, or 311,949, in excess of the same period of 1895. The condition of live stock is reported at 97 per cent. of the average.

THE STATE GRANGE.

Executive Committee Holds a Session at Lansing.

Lansing, Feb. 7.—The executive committee of the state grange has formulated plans for a Patrons' Fire Insurance company and for extending its co-operative department. The committee indorses a change in tax laws which shall require all taxpayers to make oath to their tax statements, and supervisors and boards of review to certify to tax rolls under oath. It favors an ample appropriation for farmers' institutes, and deplores the reduction of the appropriation asked for traveling libraries.

Grand Rapids, Feb. 6.—Hon. W. R. Shelby, chairman of the sound money democratic state central committee, has called the convention of the party to meet in this city on February 24.

Cornell's Good Fortune.

Decatur, Feb. 10.—William Cornell, a laborer at Olivet, has had left to him a legacy of $40,000 from a relative in England. He is unable to read or write and has a large family.

MORTGAGE SALE.

Default of payment having been made of a mortgage made and executed by William T. Arnold and Caroline Arnold his wife, to Joseph Russell, dated April 21, 1893 and recorded on the 26th day of May, 189 in the Register of Deeds office for Lenawee County, Michigan in Liber 69 of Mortgages on page 188,—upon which mortgage there remains unpaid of the principal and accrued interest at the date of this notice the sum of fourteen hundred fifty-seven and 53-100 dollars ($1457 53) and no proceedings at law or in eq ity have been taken for the collection of the same or any part thereof.

Notice is therefore hereby given that by virtue of the power of sale in said mortgage contained and of the statutes of the State of Michigan in such case made and provided, for the purpose of realizing the moneys above mentioned and the interest thereon hereafter to accrue at 7 per cent per annum the cost of this foreclosure and sale including the attorney fee provided for in said mortgage, I shall on the first day of March, 1897, at nine o'clock in the forenoon of said day at the front door of the court house in the city of Adrian Lenawee county Michigan (that being the building in which the circuit court for said county of Lenawee is holden) sell at public vendue to the highest bidder, all that certain piece or parcel of land situate in the Village of Tecumseh in the county of Lenawee and state of Michigan and described as follows to wit: Beginning at a point in the south line of Chicago street in said village of Tecumseh, such point of beginning being at the same time at the northeast corner of a parcel of land formerly owned by T. T. Kneeland and more recently occupied by M. P. Henry, thence running east on the south line of Chicago street forty-one feet and three inches to land owned by George Merritt; thence south on west line of said Merritt's land ninety feet thence west at right angles with the first course forty-one feet and three inches to the east line of said T. T. Kneeland property; thence north on east line of said T T. Kneeland property ninety feet to the place of beginning.

Dated December 4th, 1896.

Joseph Russell Mortgagee.
Charles Burridge Attorney for mortgagee.

ADMINISTRATORS SALE.

In the matter of the estate of Humbolt Pennington late of Macon, Michigan, deceased.

Notice is hereby given that in pursuance of an order granted to the undersigned as administratrix of the estate of Humbolt Pennington, deceased, by the Hon. Judge of Probate for the county of Lenawee in the state of Michigan, on the 28th day of December A. D. 1896, there will be sold at public vendue to the highest bidder, at the late residence of said deceased situate on section 5, of the township of Macon, Lenawee county, Michigan, on the 27th day of February, 897 at 10 o'clock in the forenoon of said day (subject to all incumberances by mortgage or otherwise existing at the time of the death of said deceased and also subject to the right of dower and homestead rights of the widow of said deceased therein) the following described real estate:

All those parcels of land in the township of Macon, Lenawee county, Michigan described as follows: The west half of the southeast quarter of section 5, of town 5, south of range 5, east—excepting all that part thereof lying north of the center of the saline and Tecumseh road, so called, also further excepting a parcel of land thirty (30) rods wide north and south to be taken from off the south end thereof.

Also the north half of the east half of the southwest quarter of section 5, of town 5, south of range 5, east.

Also that part of the southwest quarter of the southwest quarter of section 5, of town 5, south of range 5, east bounded by beginning at the intersection of the east line of said southwest quarter of said southwest quarter of said section with the east line of the saline and Tecumseh road so called, thence southwesterly along the center of said road to a point 20 rods north of the south line of said section; thence west parallel with the south line of said section to a point 18 rods east of the west line of said section; thence north sixteen rods; thence west twenty-four and two-thirds (24⅔) rods to land of John Jackson; thence north parallel with the west line of said section to the north line of said southwest quarter of said southwest quarter of said section 5; thence east to the northeast corner of said southwest quarter of said southwest quarter of said section 5, thence south to place of beginning.

Also the southeast quarter of the southwest quarter of section 5, of town 5, south of range 5, 6 st—excepting therefrom all those parcels thereof to be taken from off the south side the reof heretofore sold and conveyed to other parties.

Reserving all the growing wheat on all the lands above described with right to harvest and remove the same.

Dated January 8, 1897.

ISABEL PENNINGTON, Admin'stratrix.

COMMISSIONERS' NOTICE.

STATE OF MICHIGAN, County of Lenawee, ss.

In the matter of the estate of Alvinza Whelan deceased.

The undersigned, having been appointed by the Probate Court of said County, Commissioners to receive examine and adjust all claims and demands of all persons against the estate of said deceased do hereby give notice that we will meet for that purpose at the former residence, of Alvinza Whelan in the Village of Tecumseh, Lenawee county, Michigan, on the 12th day of February 1897 and on the 6th day of June 1897 at 9 o'clock in the forenoon of each of said days. And that six months from the 5th day of January A. D. 1897, are allowed by said probate court for the creditors of said estate to present their claims to us for examination and allowance.

Dated January 11, 1897.

W. A. BEEBE
JOHN BURTLESS,
Commissioners.

MORTGAGE SALE.

Whereas default has been made in the payment of the money secured by a mortgage dated December 30 1886, executed by John McLain and Jennie McLain, his wife, of Macon, Mich., to Brockwell J. Rector, of Tecumseh, Mich which mortgage was recorded in Lib r 139 of Mortgages on page 312 on the 7th day of July, A. D 1894, and whereas the amount claimed to be unpaid upon said mortgage at the date hereof is the sum of Four thousand three hundred and eighty-seven and 6-100 dollars damages and no suit or proceeding having been instituted at law to secure the debt now remaining secured by said mortgage or any part thereof, whereby the power of sale contained in said mortgage has become operative.

Now therefore notice is hereby given, that by virtue of the said power of sale, and pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises therein described at public auction to the highest bidder at the front door of the court house in the City of Adrian in said county of Lenawee on the 25th day of March, A. D. 1897, next at ten o'clock in the forenoon of that day which said premises are described in said mortgage as follows:

Situated in the township of Tecumseh Lenawee County, Michigan, and described as the south half of the northwest quarter of section twenty-three of town five south of range four east, containing eighty acres of land more or less.

Dated December 26, 1896.

Brockwell J. Rector.
Charles Burridge, Attorney for Mortgagee.

OUR LANSING LETTER.

Breezy Bits of Gossip from the State Capitol.

PLAINTS FROM INSANE ASYLUMS.

Inmates Who Think They Are Unlawfully Restrained Tell Frightful Stories of Alleged Ill-Treatment—Cost to the State for Caring for the Unfortunates—Specific Tax on Mineral Products of Michigan Mines—A Venerable Chestnut.

Lansing, Mich., Feb. 9.—A great many queer letters are received by state officials every month in the year. The governor and attorney general are the recipients of most of them, their correspondents being inmates of the asylums for the insane who believe they are being unlawfully restrained and who tell frightful tales of the manner in which the inmates are treated. Of course, the tales are invariably imaginary and no attention is paid to them. If these officials undertook to investigate all the charges preferred against asylum officials and attendants, they would have to devote their entire time to these matters and then they would not dispose of more than half of them. Some of the letters are very perplexing. Frequently one comes from a patient who gives no evidence whatever of mental disturbance, and no one would suspect from its perusal that anything was wrong with him. Every new governor at once finds himself up a stump upon receiving one of these splendidly written epistles. He is at a loss to know what to do for the oftener he reads the letter or the more frequently he receives one from the same person the more convinced is he that the patient is telling the truth, so intelligently does he put the case. It is an open secret that every new governor has to investigate a few of these complaints before he is convinced that they are all of a piece—the vagaries of diseased minds.

How Governor Luce Was Fooled.

I heard ex-Governor Luce tell once how he was fooled in this connection. Soon after assuming the duties of governor he received a most pathetic letter from an inmate of the Eastern asylum at Pontiac, who complained most bitterly of being unjustly restrained and of the treatment the inmates were subjected to by the attendants. The letter was such a perfect piece of composition that the governor was greatly impressed with it. He could not get his mind off the matter, and when he received a second letter, apparently even more intelligently written than the first, he was more than ever convinced that the woman was telling of actual abuses. There was not a suspicion of insanity or even of nervousness about the letter, and the governor was greatly wrought up. The matter bothered him night and day. Finally he could stand it no longer and he took the train for Pontiac, determined to interview the woman personally and act then and there in the premises. As the interview proceeded he became more and more convinced that the patient was being wrongfully detained and that the abuses she complained of were actually accomplished. There could be no doubt of this, he thought, because never once did she display the least signs of insanity. Impressed with the importance of the duty which the awful details he had heard thrust upon him, Governor Luce arose to go, fully determined to institute an investigation at once. As he reached the door he paused a moment to make some inquiries as to the woman's family relations. All these were answered promptly and intelligently until he asked her how many children she had.

Struck Her Weak Spot.

"Well, now," she replied frankly, "I really don't know. Sometimes I thinks it's more, and sometimes less. Sometimes I think it's three and sometimes I think it's seventy. I guess it's seventy, though."

The governor had finally struck her weak spot. His investigation ceased right there, for he discovered that, notwithstanding all that had gone before, he was talking with an unfortunate whose mental faculties were sadly impaired.

The fact that the cost of maintaining the insane has been steadily increasing in the aggregate notwithstanding that the per capita cost has as steadily decreased and is now at the lowest point in the history of the state, has induced many legislators to make a study of this perplexing question. For the calendar year 1896 the total cost to the state of caring for this class of unfortunates was $492,000, the population of the several asylums at the close of the year being as follows: Kalamazoo, 3,193; Pontiac, 1,655; Traverse City, 1,-013; asylum for dangerous and criminal insane at Ionia, 220; Newberry, 106; total, 3,592. The per capita cost of maintenance is $3.08 per week. The question which perplexes the legislators is how to increase the enormous annual expense without lessening the care which the patients receive and which their condition makes imperative. Experience in other states where costly experiments have been made proves conclusively that there is nothing to be gained by following the plan often recommended of separating the acute cases which require constant and special care from the chronic and harmless cases which need only custodial care and which could be given in large numbers over to the supervision of a single attendant.

Divided into Two Classes.

In speaking of this important matter recently, Secretary Norris of the state board of corrections and charities, who has given the question careful study during the past few years, said:

"As far as the cost of maintenance is concerned, the insane in our state institutions are divided into just two classes. The first class is made up of private patients whose entire support is assumed by either the patient or his friends. The second class is composed of those who are supported wholly at either county or state expense. There is no doubt that of those supported wholly at either state or county expense there are many who could share with the county or state this burden. Indeed this is now practically done as far as counties are concerned. In some instances there are agreements that the county shall be reimbursed either wholly or in part by the person committed or by his friends for the amount expended for his maintenance in the asylums. There is this injustice, however, in such agreements. Under the law the patient is a county charge for the first two years of his stay in the asylum. Then he becomes a charge against the state. Now when the state, after two years, assumes the cost of his maintenance, the agreement referred to terminates and the state is compelled to bear the entire expense. No one looks after the state's interest in this matter and the laws are such that partial support by the patient or his relatives can not be enforced. This injustice should be corrected and the state should be included in the agreement. There are so many who could pay a part of such cost that I would suggest that the law be amended so that, in the future, such patients as are able to do so be compelled to share with the state this burden. I would have the extent of their ability to pay determined by the probate court."

It is not improbable that his suggestion will be acted upon as the legislators are all agreed that some means for lessening this constantly increasing burden should be devised.

Tax on Mine Products.

Representative Madill has not yet completed the details of his bill to levy a specific tax on the refined products of Michigan mines of all kinds, from coal to copper. It is known, however, that he proposes to make the tax on copper 2½ cents per pound. In speaking of this the Marquette Mining Journal editorially says: "Among the stupid propositions that the legislature will have to consider this winter is one providing for the imposition of an export tax of 2½ cents a pound on copper. It is estimated that this would yield a revenue of $500,000 annually, but it wouldn't. What it would do would be to force a number of the copper mines in this district to suspend operations, thus cutting down the estimated revenue from the tax and at the same time throwing hundreds of miners out of employment. The laws under which mining properties in this state are taxed are all right now, and if the legislature is wise it will not interfere with them."

It would seem that from the vast number of revenue bills that have thus far been introduced some measure that would be equally beneficial and equitable could be devised. The only fear is that the shots would be so widely scattered that nothing will be accomplished.

Considine Pardon Case.

When Governor Rich turned the executive office over to his successor last month he mentioned the fact that he had been requested to act in two pardon cases, but had decided to leave them to the new governor to utilize in getting his hand in. One of these was the recommendation of the pardon board that the four Molitor murderers be pardoned, and the other was a petition signed by a number of prominent citizens of Detroit asking for the parole of the notorious "Billy" Considine of Detroit, who is serving five years in Jackson for receiving stolen property. Governor Pingree was not long in acting in the Molitor matter, the four convicts having been released a fortnight ago. Young Considine remained in prison somewhat longer, however, and it has leaked out that Governor Rich was very "foxy" and smiled grimly when he turned this case over to his successor. In the conversation referred to the retiring executive shyly remarked to Governor Pingree: "I guess you know more about that case than I do, so I will leave it for you to take care of." The significance of this remark has but recently come to be understood. It appears that while the petition for Considine's parole was not very extensively signed, the signatures were those of distinguished citizens of Michigan, and the first name of the list was "H. S. Pingree." Among the other signers of the petition were Don M. Dickinson and ex-Secretary of State Harry A. Conant. The governor finally concluded that "H. S. Pingree's" recommendation ought to have some weight with the chief executive, so he went to Jackson again last week and released Considine on parole.

Office of Public Defender.

Mrs. Clara Foltz, a New York lawyer, has sent here for introduction the draft of a bill to create the office of public defender. It provides that such an officer shall be elected in every county in the state at the general election next year, and that he shall hold his office for two years. It shall be the duty of such an officer to appear for and defend all persons charged with crime who are without counsel and who desire an attorney to appear for them, and also to appear in behalf of all persons charged with being insane or lunatic. The public defender is empowered, when so authorized by the board of supervisors, to appoint assistants and employ counsel. His salary is to be fixed by the supervisors. The bill especially provides that no person shall be prevented from employing special counsel to defend him alone, or assist the public defender.

The creation of the office would, it is urged, prevent the innocent from being railroaded to prison, and also prevent the unscrupulous lawyers, who frequent all our courts, from getting hold of prisoners and fleecing them without giving them proper returns, as well as prevent many innocent persons from pleading guilty simply because they believe that, in their friendless condition, conviction is certain, and in order to escape as easily as possible from the charge they have not the means to disprove. It is furthermore contended, without detracting from the able men who sometimes do offer to defend a poor prisoner, that the rule is that the court appointees are wholly unable to cope with the public prosecutor.

Able Men Seldom Appointed.

Those whose ability commands a law practice are seldom assigned this duty, the appointees coming from the failures of the profession who hang around the courts, hoping for a stray fee from the unfortunates, or from the kintergardens of the profession, youths just let loose from college and anxious for a chance to try their hand at a case. Those readers who have had experience about courts know that there is much force in this contention.

The action of the supreme court lately, in holding that tax titles are absolute unless it can be shown that the property involved was either exempt from taxation, or the taxes had been actually paid, thus demonstrating that the return and sale was a mistake, and therefore illegal, has brought the matter to the attention of the legislature, and there have been introduced a number of bill designed to give the delinquent property owner more of a show for his "white alley."

JAMES V. BARRY.

MARVELOUS CURES!

—BY—

DR. W. C. WALKER,

The Eminent Physician and Surgeon of Detroit, Mich., formerly of New York, will make the following regular monthly visits:

TECUMSEH

Lilley House

Friday, Feb. 26

Adrian, Thurs., Feb. 25.

The most successful method in Treatment of all Diseases and Deformities known to the latest Medical and Surgical Experience.

Consultation and Examinations Free to All.

Dr. Walker will not Treat any Unless There is a Possibility of a Cure, and will so inform you.

Examination by Reflection

By the latest scientific researches, both by improved instruments and methods, the doctor is enabled to discover the true nature of the disease and locate the organ or parts affected and many diseases or complications which have heretofore proven most obstinate to the medical profession, yield like magic under his skill and systematic treatment. The doctor is endowed with the wonderful gift of being able to diagnose without questioning and will describe with the greatest accuracy your aches and pains wherever located, tells better how a person feels than they can tell it themselves.

There is no need to live in constant misery. It costs nothing to see him. The fullest examinations are free and his prices for treatment are within the reach of all. He is a friend to the afflicted and will turn none away unaided. The merchant mingles with the artisan while seeking relief at his hands and hundreds are cured every year.

READ WHAT THE PEOPLE SAY.

One of the most respected ladies in this vicinity, after being treated by all the best physicians and pronounced incurable, was advised by a former patient of Dr. Walker's to call and consult him. She says: For the past fifteen years I have been a great sufferer with heart trouble and nervous prostration. The least exertion would cause my heart to flutter and become very irregular and so weak, causing complete exhaustion. I felt as though each day would be my last, and were it not for leaving my little ones, death would have been a relief. After three months' treatment with the doctor I feel as well as I ever did. My heart beats regular and strong, and that tired feeling has entirely left me. What joy and sunshine health restored.

MRS. E. J. B.

Miss Addie Smith says: I was sick for many years, my case was known for miles around, was helped to Doctor Walker's office, now I am able to walk there. I have been under the doctor's treatment two months and have gained twenty pounds. I feel well. May Heaven's choicest blessings rest upon the doctor for what he has done for me. I had female trouble, weak lungs and nervous prostration.

REMEMBER DATE OF VISIT.

Mr. Wm. Redman says also, that he had been afflicted for ten years with Asthma and Hay Fever, the result of catarrh; has doctored with only temporary relief. He is now a well man, not a vestage of the dread disease remains. He feels grateful to Dr. Walker.

Mrs. W. S. Rogers cured of cancer of the breast. She was a great sufferer.

Mr. Charles J. Preston cured of catarrh of the stomach and blood poisoning, says he would not be in his former condition again for $5,000.

I will give special attention to difficult cases and to cases other physicians have failed to cure.

Bank references.

Persons applying for treatment will please bring from two to three ounces of urine, first passed in the morning preferred, for analysis.

Question blanks sent on application. Enclose stamp for reply. Those unable to see the doctor can address

DEFIES THE POWERS.

Greece Lands Her Troops on the Island of Crete.

Marines from War Ships of Foreign Nations Occupy the City of Canea—Prospect of Open War Grows.

London, Feb. 16.—Foreign soldiers are now in control in Crete. In one town a Greek army corps is in possession. In Canea forces from the war ships are guarding the excited city. Heraklion and Retimo are also occupied by naval soldiers of the signatory powers. The clash between the Athens government and the other European nations has come in a startling manner and no one knows what the outcome will be. It is not believed, however, that Greece will decide single-handed to maintain its war-provoking attitude against the wishes of the other powers.

Occupation of Canea.

Amid the crash of cannon and the rattle of musketry the forces of the fleets Monday afternoon occupied Canea. The fighting between the Turks and the Christians was going on in a desultory fashion when the imperative orders to land troops came to the various admirals, and in a short time blue-jackets in the various uniforms of their nations, with glittering carbines shouldered, were marching jauntily in the direction of the several consulates. Thus the Turk has won the first point in the game of war with Greece, and the powers have shown that they do not consider the time opportune to abet plans that may lead to a general w. over a partition of the sultan's domain.

An Act of Open War.

But if the powers have acted promptly in the pressing emergency, Greece has been as sensationally prompt in forcing them to show their hands. Only Monday afternoon a Greek army corps was landed at Platania, a town near Canea. This defiance to the sultan and to Europe is fraught with grim possibilities. It is an open act of war with Turkey, and it remains to be seen whether the powers will undertake to dislodge the bold invaders. Still more exasperating is the act of the commander of the invaders, Col. Vassos, who, upon planting the Greek colors upon the Turkish soil of Crete, at once issued a flamboyant proclamation praising the patriotism of the Cretans and sternly demanding the immediate surrender of all the Turks in the neighborhood.

Authorized by the King.

One prominent fact looms up in this puzzling situation. Greece has shown her hand in a manner that admits of no scintilla of doubt. She wants war with Turkey; she desires union with Crete. The man who Monday afternoon issued the startling proclamation to the Christians and Turks at Platania is an aid-de-camp to King George. He is no adventurer, no filibusterer. He went fully authorized by his king to engage in a breach of the peace of nations, and how well he has performed his mission can be understood when it is known that his wild exploit is being discussed in the cabinets of Europe.

This policy threatens to open with a vengeance the perplexing and dangerous eastern question. Turkey makes threats of retaliation, but its menaces lack force, for the cogent reason that its treasury at Constantinople is bankrupt. It cannot raise funds, unless backed by the powers, to put troops in the field, and the reported determination to send an overwhelming army into Thessaly is not believed to be feasible. Such an act would set the Balkan region in a blaze, and the flames of war thus created would more than likely sweep the Turkish empire out of existence.

The indubitable fact remains that Greece has secured, in defiance of Europe, an armed foothold in Crete. The diplomats must determine how these gallant and Moslem hating soldiers are to be displaced without provoking hostilities that may involve the nations.

Urges Prince George to Go On.

A dispatch to the Chronicle from Athens says that the commander of the English ironclad threatened the commander of the Greek cruiser, and told him that he would sink his boat if he again fired at the Turkish transport. The Chronicle, editorially, denounces in a highly indignant manner the foregoing treatment of a friendly prince and nation, and says that it will cause a thrill of passionate shame to enter the heart of every man caring for freedom. The Chronicle's editorial then exhorts Greece to God's name to go on.

Foreign Troops Occupy Canea.

Canea, Crete, Feb. 16.—One hundred men each from the Russian, French, British and Italian fleets at Canea and 50 Austrians have been landed, under command of an Italian officer and have occupied the city, the Turkish officials having given their assent to the step. The flags of the nations represented by the occupying force have been hoisted upon the ramparts of the fortress.

Insurgents Refuse to Yield.

London, Feb. 17.—The Daily Mail says that the powers have sent a collective note to Greece stating that unless the Grecian forces are withdrawn from Crete within 48 hours the Piraeus will be blockaded and hostilities begun against Greece.

GEORGE I., KING OF GREECE.

GREECE AND CRETE.
[Map showing relations of Crete to Greece and Turkey.]

A dispatch to the Times from Canea, dated Tuesday evening, February 16, says the commanders of the foreign squadrons sent a joint note to Ismail Bey, the newly appointed governor of Crete, successor to Prince Georgi Berovitch, resigned, informing him that they had addressed an ultimatum to the commodore of the Greek fleet requiring him to withdraw from Cretan waters. They requested the governor to find a way of notifying the insurgents of this fact, and of summoning them to yield up their arms, also of informing them that the powers had taken measures to prevent Greece from interfering in the affairs of Crete. An Italian gendarmerie officer was also dispatched with a flag of truce to the lines of the insurgents of Akrotiri. He delivered the message, but the chief of the insurgents replied that they would maintain their present position and send a definite reply in behalf of the revolutionary assembly Monday. Their action will probably depend upon the course adopted by Col. Vassos, the commander of the Grecian forces on the island of Crete.

GOES AGAINST DUNLOP.

Supreme Court Decides He Is Guilty—Must Go to Jail.

Washington, Feb. 16.—The opinion of the supreme court sustaining the finding of the United States district court of the northern district of Illinois in the case of Editor Joseph R. Dunlop, of Chicago, convicted of sending obscene matter through the mails and sentenced to imprisonment for two years and to pay a fine of $2,000, was read by Associate Justice Brown yesterday. There was no dissenting opinion.

Mr. McKinley's Illness.

Canton, O., Feb. 17.—The president-elect remained in his room all day, and was seen by no one except Mother McKinley and the members of his own household. He will not go to Cleveland to-day, and his visit may be postponed until the last of the week. He is now devoting all his energies to getting well, and has no intention of exposing himself unnecessarily. The brief respite from his arduous daily labors will be greatly beneficial to him.

FROM WASHINGTON.

The Closing Session of the Fifty-Fourth Congress.

Measures of Importance Presented in Both the Senate and House—A Daily Summary of the Proceedings.

Washington, Feb. 11.—The senate laid aside the arbitration treaty temporarily and devoted the time yesterday, after the completion of the electoral count, to the discussion of the Nicaragua canal and the agricultural appropriation measure.

Washington, Feb. 12.—Yesterday the senate spent the greater part of the time in executive session debating the Anglo-American arbitration treaty. The diplomatic and consular appropriation bill was passed, and Wednesday, February 17, at 4 p. m., was fixed as the time for a final vote on the immigration conference report.

Washington, Feb. 13. — The Anglo-American arbitration treaty was further discussed in the senate yesterday, and a resolution was adopted requesting Secretary Olney to use every effort toward bettering the condition of Sylvester Scovel, the newspaper correspondent imprisoned in Cuba. The reappointment of Carroll D. Wright as United States labor commissioner was confirmed.

Washington, Feb. 15.—The time was occupied in the senate on Saturday in discussing the arbitration treaty in executive session.

Washington, Feb. 16.—In the senate yesterday the bankruptcy bill was read at length, the conference report on the legislative, executive and judicial appropriation bill was agreed to, a further conference on the agricultural appropriation bill was directed and 24 pension bills were passed.

Washington, Feb. 17. — Senator Chandler (N. H.) spoke for three hours in the senate yesterday in advocacy of bimetallism. The bankruptcy bill was discussed, but no action was taken.

The House.

Washington, Feb. 11.—In the house yesterday, prior to the assembling of the joint convention, the fortifications and the post office appropriation bills were reported and placed on the calendar. The latter carries $95,611,711, or $3,040,150 more than for the current year, and $1,903,697 less than the estimate of the postmaster general. The senate bill relating to the carrying of obscene matter by express companies was passed.

Washington, Feb. 12.—The fortifications appropriation bill was passed in the house yesterday and some headway was made with the post office appropriation bill, but the major portion of the day was consumed in a political debate on the financial question.

Washington, Feb. 15.—In the house yesterday the post office appropriation bill, ($96,435,714) was passed and the sundry civil appropriation bill was taken up and its first reading begun.

Washington, Feb. 15.—Resolutions were introduced in the house on Saturday for information concerning insults to American ladies by Spaniards on board the United States mail steamer Olivette in the harbor of Havana, and concerning the electoral vote in South Carolina. Mr. De Armond (Mo.) spoke in favor of Cuba, and the sundry civil appropriation bill was further discussed.

Washington, Feb. 16.—In the house yesterday the sundry civil appropriation bill ($50,644,743) was passed and the senate amendments to the diplomatic and consular appropriation bill were concurred in. In the contested election case of Benoit vs. Boatner, from Louisiana, the latter's title to his seat was confirmed.

Washington, Feb. 17.—A bill was passed in the house yesterday to define the jurisdiction of United States courts in cases for infringement of letters patent and the rest of the day was devoted to the consideration of private pension bills, about 25 of them being passed.

NOT GUILTY.

Alderman O'Malley's Trial at Chicago Ends in His Acquittal.

Chicago, Feb. 15.—The sensational trial of Alderman Thomas J. O'Malley and John Santry on the charge of being members of the gang which raided the Oak street polling place in November, 1894, to steal the ballots and killed Gustave Colliander while in the act, ended Saturday night in the acquittal of both defendants of the murder accusation.

Took Poison.

Chicago, Feb. 15.—Thomas B. Houston, a prominent resident of Lemont, Ill., committed suicide at the Great Northern hotel Saturday by taking carbolic acid. He registered at the hotel Friday evening. The cause for his act is not known here. His brother committed suicide under similar circumstances about two years ago in the Grand Pacific hotel in this city.

Treasury Deficiency.

Washington, Feb. 16.—The treasury deficiency for the 7½ months of the current fiscal year to date is $47,713,300. The available money in the treasury for the current use is stated at $216,000,000, of which $146,000,000, including the $100,000,000 gold reserve, is gold, $20,000,000 silver certificates, $11,000,000 United States notes and $39,000,000 of miscellaneous funds.

ROYAL

BAKING POWDER

ROYAL—the most celebrated of all the baking powders in the world—celebrated for its great leavening strength and purity. It makes your cakes, biscuit, bread, etc., healthful, it assures you against alum and all forms of adulteration that go with the cheap brands.

ROYAL BAKING POWDER CO., NEW YORK.

CLINTON.

C. F. Field was in town Wednesday.

Fred Tag was home from Adrian over Sunday.

L. W. Kimball went to Toledo Friday on business.

T. R. Kyle, of Tecumseh, was in town Tuesday afternoon.

H. P. Downs has been on the sick list during the past week.

Mrs. Charles Parker, of Hillsdale, is visiting Clinton relatives.

J. L. Kishpaugh and wife, of Britton, were Clinton visitors Sunday.

Miss Bertha Staiger spent Sunday with her sister in Manchester.

Frank S. Walker, of New Haven, has commenced work in the Local office.

John Tracy and Wm. Holmes, of Manchester, were in town Tuesday afternoon.

Mr. and Mrs. Robert Collins, of Tecumseh, were calling on Clinton friends Sunday.

About 25 Clinton Maccabees visited the Manchester tent Tuesday night and report a fine time.

Mr. and Mrs. Will Wood drove to Saline Sunday to spend the day with A. G. Cobb and wife.

Mrs. Horace J. Brown is injoying a visit from her sister, Miss Anna Coulter, of Leamington, Ont.

Charles Judge has a brother who now resides at Jackson. He went up and spent Sunday with him.

James F. Rentschler began moving Tuesday to his farm which he recently purchased, near Tecumseh.

Horace Moulton, who was thought to be dangerously ill two weeks ago, is on the gain and now able to sit up.

The young people's society of St. Dominic's church hold a mite social Friday evening at the home of Maggie Collins.

George Beatenhead, who has been living on Wm. C. Rogers' farm, west of town, for the past year, has lately moved to Saline.

Mrs. C. C. Fisk, of Detroit, with her little son Louie, has been visiting her parents, Mr. and Mrs. Jacob Nase, since Wednesday of last week.

It is reported that Rev. Mr. Hutching's sermon at the union meeting Sunday evening was a strong one and forcibly as well as effectively delivered.

Mr. and Mrs. W. S. Whittlesey entertained Dr. Lombard and family and Rev. Blachford and family one day the last of the week. It was a happy occasion.

Howard R House spent Sunday in Britton. On his return he was accompanied by his wife who had been caring for her mother during her late illness.

It is expected that Orville Barnes, one of our Clinton boys, now a Theological student at Chicago, will preach at the Congregational church Sunday morning.

Rev. Mr. Webster, of Adrian college, filled the pulpit at the Congregational church Sunday, as the pastor, Rev. W. C. Stevenson, is assisting in revival meetings at Creston, Iowa.

Mrs. Klingensmith wife of the new loom fixer at the woolen mill, arrived Tuesday night from Indianapolis, Ind. They expect to make their home at George Goodrich's for a time.

Miss Maude Goodell, of Manchester, was the guest of Albertine Johnston Thursday and Friday of last week. Not completing their visit, Bertie went home with her and staid over Sunday.

A. G. Shekell was in Battle Creek over Sunday. He claims his frequent visits to that city are occasioned by his desire to see his parents. No doubt he is a very dutiful son but his friends here think a certain Battle Creek young lady comes in for a large share of his attention during his visits.

Lewis Gray met with a sad mishap Sunday afternoon which will not only cause him pain but interfere with his pursuing his vocation for some time to come. The Johnston house, where he resides, is situated on a side hill, and as he was going down it he slipped and fell, breaking both bones in his left wrist. Time will hang heavy on his hands as he cannot amuse himself during his enforced idleness with the cornet or violin.

Mrs. Wm. Burrill and children bade adieu to Clinton friends Wednesday afternoon and went to Detroit for a short visit with her sister. From there they go east where they expect Mr. Burrill—who is now in South Bend, Ind.—will soon join them. The family have made many warm friends during their sojourn here.

The Harland Criterion Company, who played here last week to much smaller houses than they were entitled to, as their work was mertitorious, are at Saline this week. They went from here Sunday overland. When on top of the hill east of town they missed some of their belongings and in turning back one side of the sleigh box fell out and the entire company took a plunge into the snow, but happily with no serious results.

FRANKLIN.

Horace Wilcox is putting down a well for Sam Tripp.

At Tipton the Grange gave a Cuban program last Wednesday night.

Enzel Whelan attended the masquerade at Pentecost Friday night.

E. J. Whelan will have his house connected with the local telephone.

G. W. Allen is going to do some extensive underdraining this spring.

Miss Webber has been visiting her sister and neice at Thomas Conlin's.

Clarence Wisner came home from Jackson Tuesday for a short vacation.

S. N. Wisner took a sleighload of people up to the gymnasium at Wm. Beebe's Friday night.

Bert Rodgers, traveling salesman for the Monroe nursery, was in this vicinity last week Thursday.

Horace Wilcox's little boy broke his collar bone while sledding at school Thursday of last week.

Franklin was represented at the Case auction in Cambridge by the greater part of its masculine inhabitants.

G. W. Allen has been hauling tile from Comfort's yard for several days and now has on hand more than 3,000 and will haul a lot more. The tile are 6, 7 and 8 inches.

A correspondent at the University writes: "They have a black plague germ over in the medical department. It feeds on meat and potatoes and is doing nicely. Dr. Vaughn says 'No known cure for disease; ninety per cent of those attacked die; raging in India now; starvation and unsanitary conditions cause the disease; America need not fear it.' Hope microbe wont get loose and think that it wont."

Free Pills.

Send your address to H. E. Bucklen & Co., Chicago, and get a free sample box of Dr. King's New Life Pill. A trial will convince you of their merits. These pills are easy in action and are particularly effective in the cure of Constipation and Sick Headache. For Malaria and Liver troubles they have been proved invaluable. They are guaranteed to be perfectly free from every deleterious substance and to be purely vegetable. They do not weaken by their action, but by giving tone to stomach and bowels greatly invigorate the system. Regular size 25c per box. Sold at Baker & Hall's drug store. 4

The receivers of the Baltimore and Ohio railroad, seeing an opportunity to buy steel rails cheap, have placed an order for 55,000 tons.

A Household Necessity.

Cascarets Candy Cathartic, the most wonderful medical discovery of the age, pleasant and refreshing to the taste, act gently and positively on kidneys, liver and bowels, cleansing the entire system, dispel colds, cure headache, fever, habitual constipation and biliousness. Please buy and try a box of C. C. C. today: 10, 25, 50 cents. Sold and guaranteed to cure by all druggists.

Senator Edward O. Wolcott, of Colorado, has arrived at Berlin.

Statistics showthat thousands of infants and children yearly die of membranous croup. We do not exaggerate when we state that every one of these innocents could have been saved had Foley's Honey and Tar been given them in time. Can you afford to be without it in your household? Orr & Temple.

THE "SIMPLE" MAN.

It used to seem so sad to see the children gather round
With him a-playing marbles—kneeling with them on the ground;
But when their tops were spinning and you heard their arrows whiz,
No voice among the youngsters' was as happylike as his—
Not one of all the boys there could a better whistle make
Than those so deftly fashioned by Old Jud Drake.

Barefooted, gray and wrinkled, lolling through the summer day,
He used to seem so jolly when he joined them in their play;
He won Tom Culver's "chinneys"—which he lost to Charlie Stone;
He fought with Charlie Parker for a ball he thought his own;
A man in years and stature, but a boy still, naught could shake
The honesty and justice of Old Jud Drake.

Ah, me! sometimes I wonder if it wasn't just as well:
He was concerned so little in the matters that befell;
His life was smooth and placid, freighted with the childish joys
That came from the championship of village girls and boys;
And I, who won his marbles—even now I sometimes take
A stealthy, wistful glance back to Old Jud Drake.

His grave is in the churchyard, where the sun in summer smiled.
And now I deem he wanders hand in hand with some sweet child,
And that the younger angels gather with him through the day,
And—as we used to yonder—join him gayly in his play.
For well he loved the children, and I know his heart would break
If no child in Heaven came to play with Old Jud Drake.

—Chicago Record

MR. WILLIAMS' ECONOMY.

"Did it ever occur to you that little Victor is getting to be nearly three years old?" inquired Mr. Williams, looking up from the newspaper which he had not been reading for five minutes.

"Well," said Mrs. Williams, "as we have been celebrating his birthday every month since he was six months old, and as we observed it weekly up to that time, I suppose it would be rather difficult for me not to remember the boy's age. Why?" with some concern. She had half an idea that he was thinking of some wonderfully advantageous scheme for the little one's benefit.

"Well," said Mr. Williams, "it seems to me that we ought to be calculating upon his education."

"Oh, my," his wife cried, laughing. "Why, he isn't old enough by three years even to go to the kindergarten."

"I didn't mean to send him at once," said Mr. Williams, looking proudly at his offspring, now engaged in the highly educational pursuit of building a miraculous sort of tower out of his blocks, and knocking the edifice down and then laughing glo fully. "Of course he's too young for that, but it seems to me that we ought to begin providing for the future. We ought to start in to lay by a fund for his education. I want him to attend college and all that, and of course that costs money, and possibly misfortune might come just at the time when we wanted to give him educational advantages, and if we didn't have a special fund to draw upon the child would have to go through life illiterate."

"I don't think there is any danger," Mrs. Williams started to say, but Williams interrupted her.

"Sometimes," he declared, "I am ashamed of myself for my spendthrift habits. Every little once in awhile I am confronted by the idea that I am paving the way for starvation for my family by pandering to the needless little vices which have grown up around me. I never deny myself anything, and some time—"

"Oh, you're a dear old goose, and you haven't any vices at all, and we shall get along nicely. Don't get blue about nothing."

"I'm not blue; but look here." He drew a paper from his pocketbook—a paper covered with figures. Presenting it to his wife, who was always appalled at the sight of mathematical displays, and never could get at the bottom of them, he said: "Look at that."

"What is it?" she queried, helplessly. "The compound interest on the abstract to the trust deed of our house?"

"It is shaving," gloomily. "I would not have believed it myself. But I figured it up on the train to-day, and it shows an appalling condition. I have squandered in the last 15 years $766.50 in shaving—just plain shaving, common 15-cent shaving. No frills to it. No mustache curling or anything of that sort. Isn't that scandalous, and all the time that boy not knowing where the money was going to come from for his education."

"But," said Mrs. Williams, "he wasn't born until three years ago."

"The theory is just the same," her husband insisted. "It is a vicious waste of money and I am going to correct it as far as I can."

"What are you going to do?"

"I am going to shave myself and apply the money to a fund for little Victor's forthcoming education. I can do it."

The next day Mr. Williams came home in high elation. He had several bunchy-looking little bundles in his overcoat pocket, and, unloading them on the dining-room table, little Victor, as is the custom of speculative children of his age, gladly seized upon them, crying:

"Papa b'ing me this!"

Mr. Williams, who had been hanging up his overcoat at the moment of the seizure, came rushing in from the hall like a full-back rushing to get a punted ball.

"Heavens and earth! He'll cut his hand off with that razor. Grab him!" he called. The baby had been howlingly rescued from impending calamity. Mr. Williams then explained the nature of his purchases.

"This," he said "is a mug. It cost a dollar, but seven shaves will save it back to me. This brush cost another dollar—same reckoning. The strop cost me $2.50 and the sponge 75 cents. The shaving soap—"

"Oh, now, Harry!" Mrs. Williams interrupted in triumph. "Now I can tell you where you wasted money for all your good intentions. I bought a whole case of soap at the department store the other day, and Ida says it's just magnificent. You can scour with it, too."

Mr. Williams tried to explain that there was some difference between soaps, but she declared that hers made just as nice lather as one could wish, and the only difference, she said, was that he had paid about 50 times as much, proportionate to quantity, as she had.

"I had to get the best of the permanent and unchangeable things," Mr. Williams said, evading the soap question, though he knew he was right. "The strop, sponge and mug, you see, cannot suffer much change by time. But I saved considerably on the razor, for I reasoned that you can sharpen a razor every time you shave, and so it is useless to buy a costly one. I paid 43 cents for this one, and I am shre it will answer every purpose. The buy rum and other things—"

"Oh, are there still more things to use? I didn't know the process of shaving was such a complex one. I thought all that was needed was something sharp enough to get the beard off."
